Notes from HEALTH WORKSHOP 44 20 October 2015

This was the workshop that we attended at the SSI in Barletta after attending the 3rd Ambassadors Meeting in Rome for the Official giveaway to the world's governments of the Keshe Magrav Power Supply unit.

0000: MK starts out by talking about the fact that he is not presenting today but the workshop will be taught by yours truly © with able support from ms @@ - haha lol

0003: Talking about regrown fingers and toes with copper plates

0007 : Alcohol replacement for alcoholics – make a bandage with Zinc oxide Gans and CO₂ Gans. Use it a headband or a bandage. You find you influence the psychological with ZnO₂ and the emotional with CO₂ Gans and they wont go anywhere near a drink. You can mix the 2 Ganses (although he later talks about being more effective with separating the layers of Ganses) Making Gans from Zn and Nano coated copper plates, a low current will give CO₂ and a high current will tend to give ZnO₂ . Yu need the Zn for the psychological side of the brain and CO₂ for the emotional part. You will see aboriginals wandering around with headbands and it might become a new fashion! (joke)

0009: Van Dorp is a name MK can never forget because how can one forget the name of your brother in law?!

0010: 1st 2nd 3rd degree burns and muscle injuries use the same combination but add CuO – Mix the 3 Ganses together.

0011: Gans of Folic acid can be used in the headbands for immune system as well – what is folate? B12 is cobalt – gamma ray. Folic acid is B9 xray beta gamma part of cosmic ray. B12 is for the building of cells B9 (folate) covers cosmic rays. It is needed for a spectrum of energy for the growing child. Children of mothers supplemented by Folate almost never have respiratory problems

0013: Question – how do you make Gans of folic acid? MK: How do we give it? Answer in tablet form. MK: Aha its easy! Just put it in a pan, heat it and (squishing sound with lips) put it in the caustic – you have it! The first man to make a barbeque was the first one to make Gans. You need to burn it or put it in salt with a very low current – it becomes GANS – then you can use it – you support the immune system with the GANS of folic acid and the others

©s brain storm for a Detox Head Band

1. Zinc oxide Gans
2. CO2 Gans
3. Folic acid Gans
4. Gans of Thiamine
5. Gans of B complex including B12
6. Vitamin D for rejuvenation
7. Gans of Iboga root bark

0015: © Introduction and story of how the transcriptions started

0024: MK had to get up and correct © when CuO was included with CO2 ZnO2 and folic acid for addiction with maybe addition of Iboga. MK said yes but don't use CuO on the brain – can mix that in for healing gangrene in toes and burns etc, but not on the brain
0025: Look at the mass of the elements for healing toes – separate layers of CO2 , CuO2 and ZnO2 Gans – 3 layers like the skin of the man, but criss-crossed in different directions

0026: Question about treating thyroid – thyroid gland is connected with the emotional body so you need CO2 – a band of CO2 around the thyroid.

0027: Question from © about using the Harry Oldfield Electrocrystal method of amping down the energy of the thymus to treat auto-immune diseases. He told me to decide, but said it was important to look at the

position of the thymus or thyroid above the heart- therefore to do with emotions. So you have to see the reason behind the imbalance in the emotional part.

0031: MK goes into the plasma anatomy as transcribed in the early health workshops – the femur is the feeder of the thymus. It might be possible to use CO2 Gans on the femur and on the thymus to bring it into balance?? More discussions of the role of B12 – © and @@ are both vegan and the Chinese delegation that happened to be visiting at the time were also all 3 vegans making MK look for a long time to find a place in Barletta where we could get a vegan lunch. However the downside of this is B12 deficiency and MK advocates moving from meat eating to veganism over a 30 year period. Also talks about how easy it is to supply oneself with B12 by leaving the toothbrush in the bathroom!!

0108: Lift is not what we're looking for in the Free Plasma of the Thymus/Thyroid - it is the Gravitational magnetic positioning which we allow when we create the physical interaction with our soul. This condition is only achieved by the Prophet of God. And lots more discussion of proceeding with the work of transcriptions and translations of workshops, and a few more medical questions before finishing up at 0157.
