Notes from 3rd INTERNATIONAL KESHE WORKSHOP

February 2nd 2016. Time stamps from the Livestream

0000: MK: Teachings will now be from International Keshe foundations around the world – classroom teachings have finished. Kf China is breaking up for Chinese New Year, Benjamin and Alekz will be teaching in Africa, etc., etc.

0011: The new Magrav units have 80 – 90% reduction in power usage.

0012: Kosol has been teaching the Innovation group how to control a system with thoughts.

0014: Renan reports on Kosol's teachings on how to communicate with his Magrav unit.

0020: MK talks about threats received from a German source known as Paul Guess – working for the Red Circle- Interpol will investigate.

0030: The addiction test tubes are to be tested by scientists around the world.

0031: More forecast re imminent massive earthquake in California, and a fault running from the Himalayas towards Tehran and also affecting Southern Europe – 2 nations in particular should be on alert, USA and Iran. Cities of LA and Tehran are in grave danger. (Dutchsinse YouTube channel watched while typing this synchronously agrees with this forecast – and says he can predict large EQs a week in advance.)

0036: Presentation from Indian KS re neurologically damaged children.

0040: MK says we will create a Magrav womb with CO2 and Zinc GANS and see what happens to these children – details Magrav units to the 4 corners of each bed. This can be related to the agricultural side where we saw seeds returning to their original perfect structure.

0049: MK explains how to correct neurological problems in the limbs by making connections on the helmet – will take 2-3 months – can rebuild heart valves and lungs in the same way.

0100: Magnetic Field interference device presented – looks like it has 3 pens – will it work? MK: Yes – these are plasmatic lasers – pens pointing at a focal point – this is the nightmare of the nuclear industry but better used as a healing device e.g. can be used for reconstruction of heart valves by focusing with involvement of emotional part.

0107: Why did MK tell Ali to change to sea water GANS? MK: Because sea water has ALL the elements in the body of the man – we are getting ready for space travel.

0109: Sharing from Kf China regarding car system. Huge improvements in performance and economy with coils on battery and Alekz bead system, star formation and CO2 GANS in tank - a lot of improvements listed.

0119: Healing pads (CO2 wash water pads) have red and black spots growing on them (looks like mould) however they did not happen when used on healthy people. MK: maybe an energy transfer- he has seen this with treatment of lymph cancer

0128: Q: Can sulphur be used for nano coating? MK: Yes particularly good for bone deficiency

0129: Bernie from Canada: Any more details on the catastrophe? Can we do anything? MK: It's too late, American economy will suffer harshly but, on the other hand, may be a tool for peace as money will be diverted from armaments to assistance for the catastrophe. We have asked people to move their families. This is why we are in Dubai at present to set up the centre for World Govt. We have seen an unusual earthquake in Gibraltar – this is a sign of the imminent massive shift – we are talking about days or

weeks, not months.

0146: Adding to the knowledge about the brain of man. We see a flat bottom and a split brain that allows the release of pressure from the heart that comes up through the nervous system. When you build the hats and helmets you have to repeat this division – keep everything clear of the mid-line (sagittal suture)

0150: In future when you come across aggressive warmongering men, you can use a system that diverts energy to the centre and will elevate the soul.

0155: Whole body healing can be achieved through using the helmet on the brain.

0200: Congratulations and thanks to Marko and Armen for sticking with the Kf for 2 years now. Millions of you have followed the teachings and achieved good results. If the Chinese continue as above very soon, their car will fly.

0203: In the coming time I will show you how to make food with your system but I will not show this till we go through the disaster we are waiting for. Good news is you can easily get rid of the GMO energy from the seeds – as exemplified by the Chinese gentleman who modified an apple with his system (presented earlier in the workshop).

0205: We have shown that seeds can be taken back to their original form with GANS material

0206: There is a solution for the chemtrails – we can collectively solve all the problems through the plasma technology.

0222: These people who have received Magrav units – we will send another unit to attach to the original and this will hugely increase the savings.

0226: Boris from Brazil: Can we use the stacker unit for arthritis? MK: Yes you can – make a single stacker and connect it to a plasma battery – wrap the body or affected part, e.g. hand, in plastic so no possibility of GANS

touching the skin – you will feel immediate pain relief...

0230: Boris also comments his car unit is working well MK: Combination of stacker and beads works well with the car and house

0236: Rick: One of the secrets of the self-charging lamp is a nano-coated wire (super conductor) with a part of it scraped out to extract energy from the wire – leads to a discussion of extracting energy from the plasma – Rick draws what he is talking about but the Livestream does not show his drawing (unfortunate as this was an interesting share)

0244: MK comments that better to use composite material like brass – (Ricks completed diagram finally shows up)

0249: More details on osteoporosis – use CO₂ pads or patches – but be careful you don't turn from a grandma to a mama! (joke on age-reversing and sexual potency improving properties of the CO₂ and Zinc GANS combination)

0253: More will be revealed on Thursday (99th KS workshop) in terms of taking control of our health and our Peaceful Planet.

025432: End
