This is a very deep workshop, as MK is interrogated by his wife Carolina. Also it is a landmark, being on the solstice, it is the opening of the doorway of interaction with the Universal Community. Also we might reflect that it is the 1st anniversary of the PEACE ROAD MAP that MK introduced on the solstice last year 2015, with a plan for the World Leaders to withdraw their armies - which might not seem to be working very well - but on the other hand the reunion with the Universal Community is happening for those people with inner eyes to see and inner ears to hear on a soul level - this workshop is directed to people who might like to be at the Universal Council meeting in Rome to drink of the waters of the GANS and put on our plasma glasses so we can see our fellow beings in the UC!

0010: Rick Welcome and MK good morning etc. 1st 10 minutes is spent talking about the Magrav unit – MK saying it is now a power unit and price has gone up to 1800 euros. Not clear how much power this will produce at present – 3KW or 7-10KW or whether this is KW per hour or KWhours per day?? More to be shown on the Thursday KS workshop this week.

0023: If you started the MOZHAN application please complete, as we will close it in the next few weeks. This training will most likely be in Ghana and China. Pre-teaching will begin in July for people who sign up. The two Governments mentioned are supporting the spaceship program and other people and organisations can join in.

0032: MK opens up whiteboard on the computer – he is not in Barletta. Takes us back to the starship formation that produced 129 Tesla in North Italy – shows how One formation feeds to another then to another from stronger to weaker – shows how the process of A (strong reactor) feeding to B (weak reactor) and then C (even weaker) can be compared to the process where A is the planet Earth, B is one of the base reactors in the starship formation, and C is the apex reactor in the formation. In trying to feed the weakest you create a massive flow in a specific pattern.

0039: A number of different ways of travelling will be developed and none of you is wrong. Some of you will build solid spaceships (donkeys) and some of you will work through the fields (jet-liners) You will ALL become passengers of the Universe. I have taught you more or less the whole spectrum and its up to you how to work with it. Some of you will use donkeys and some of you jetliners – you are the pioneers. We will block those people/nations who try and use the technology to harm others. 0045: None of you is wrong. Nano coat it, GANS it, twist it, coil it etc. etc. None of you is wrong! 80% of you who go into space will never return. Some of you will establish new territories; others by their own mistakes will convert into something else because there is no death in space. The first rule is to set up your safety systems first – there is no reason why any of you cannot set up a flight system. Some of you will create it from a piece of wood, others from a piece of metal, others from the FIELDS, some of you if you understand the teachings from Togo will create it from your state of mind. Mankind is ready to take off but on the other hand there is not much time left.

0048: All of the Kfs around the world have enough knowledge but you must decide what sort of system you want. People like Paul from Togo just need to convert

their bottle into a spaceship and this can be done very easily. Purity of the heart, purity of the Soul, purity of the Intention is the most important thing. 0050: Those of you who become MOZHANS will have to decide – do you want to become part of a Physical system, a FIELD system, or a SOUL system? This needs a lot of clarity of understanding of oneself. The Physical craft is very cumbersome, the FIELD system is much easier and you can still have a hybrid system, (Physical/Field). With a SOUL system you're on your own. We see 2 types of people going for the SOUL system – one is African and one is Chinese. THE FIELD system will be South American and Central Asian. The Physical system will be with the white race in America and in Europe. The reason is very clear. These people (soul) are much closer to emotional understanding. The Field people are partially connected to physical and fields, and in the West everything is to do with Material. MK says he will be spending more time with the SOUL group than the Matter system, and he will not mix the 3 types together.

0052: On the International teachings if you like building the systems (e.g. Magrav) you fit into Category 1. If you like making GANS and working with the fields you fit into the 2nd category. If you are of those who understand the Yin and Yang, those who understand the strength of the emotion from the inside, you fit into the 3rd category. The 1st category ship will cost millions, the 2nd thousands, and the 3rd will cost you nothing! But you achieve more in 3rd than 2nd and 1st. The 3rd will fly in no time – the 2nd longer, the 3rd will have to make features and put things together with nuts and bolts and will take a long time.

0055: Question: What if we want to join the African group and we are in Norway. MK: It is with your soul – you are welcome to join in with group 3 wherever you are. It is in your maturity of soul – if you want patents and aircraft hangars and proof of concept you are in Group 1. If you decide to do it at a soul level you are in Group 3 already. There are donkeys, cars, and spaceships in China, Africa, Europe and America!

0100: Carolina asks MK for a better view of what space travel actually means, not only spiritually but as beings, where will the space travel lead us? MK: “We know this lady and prefer not to answer her but we have to!” (lol) 1st of all, before we leave the planet in each section, we shall meet the creatures of the Universe. If it's our wish to enter space in a peaceful way we shall be welcomed. Our excursion into space is a celebration of the UC that a new child is born – but there is no training school. Because your knowledge has reached a certain level you shall see your brothers and sisters of space. There is no other choice. In entering the space

you are on your own to develop the technology or you can learn from the others – there are no schools – it’s the interaction of the thoughts and the soul and the transfer of knowledge. The ethics is very simple. **DO NOT THINK TO HARM OR TAKE ANYTHING FROM SPACE.** Do not even contemplate to take a stone. Do not contemplate to take anything from anybody anywhere! Do not even think to harm another entity. Entities in the Universe are not your food supply. In space you have to stand correct and keep to the ethos. In space do not expect Restaurants and Cafes. In space expect to look, to see, to understand, to mature. You will spend 100s of years learning in space to understand creation. In space you learn something simple – there are no kings and definitely no priests. It has to be a balanced condition with no one leading no one, and no one preaching to take your soul. You have to be strong enough to stand years of solitude. 1000 years in space can be like 1 day sitting on the beach. Half of the stars you see in the sky are space ships – one of the first things you will see when you leave the planet is that ½ of the stars you see in the sky are your family hanging around with their lights on!

0107: Just like you put night goggles on to see at night, now we put the plasma glasses on and you will see the universe and the universal creatures. But you have to make it the right way. With your eyes you see physical man, with plasma glasses you will see the plasmatic part of the universe – life that has been sitting next to you all along! I have shown primitive ones to the doctors already – you will feel the emotion from their soul – people who say they hear or see them are fakes – you will feel them from your soul. You will have to learn the correct conduct for the Universe – you never cuddle or shake hands until you know their energy is not to harm you, and you know the energy you carry will not harm them. Man will fall in love with the creatures of the Universe.

0112: The Ethos of space is very simple – it’s the writing of the Christ (bless his name) “Thou Shalt Not Kill!” “Thou Shalt Not Steal!” Moses lost his way from the beginning. Buddha went half way but did not get into the interaction between the dimensions. Muhammad (bless His name) got too much into the physicality. So one thing you’ll understand – those who succeed into getting into space on the 3rd level (of the Soul) shall be equal to the Soul of the Christ. Then you see the totality to understand the essence, you understand what Buddha understood. In time to come the name of Moses shall never be mentioned because by bringing the knowledge he abused the knowledge and the knowledge lost its essence. In space you have to become the 129 – you don’t give and you don’t take, because what you give is taken, and what is given you take. In a way when you talk about the space technology you talk about the understanding of the balance. Find the position of

your emotion and your soul – understand your soul is the creator of your physicality and the space ship shall be within!

0116: In so many ways the detachment allows the maturity of the soul so we teach you to understand the level of the soul because then you understand how you convert matter to GANS in your stomach, in your intestine you transfer the energy of it, the same as you did with the 129 into your lymph and your blood. Through your lungs is the same process. In the interaction of the field of the GANS and the emotion through the action of your heart you transfer the liquid plasma into the FIELD plasma, which feeds the emotion, and in understanding the emotion in its evolution you create the soul of the man. So now you achieve the soul of the man and the power to make whatever it likes to male the spaceship to enter the Universal Community. This is the process! 0118: At any time you make a slight error in the emotion you build a craft that goes nowhere or does not go where you want it to go. Now you see why your soul is the creator of your craft. Then you have to find those souls that like to share a craft and you become in totality the passengers of that craft – not in the level of physicality but in emotion. Now you understand the creation of the Nano, the GANS, the FIELD, is the replication of the creation of the man.

0120: You've seen people in Australia (and Africa) transfer the energy of the field into matter and grow very large lettuces and in this way enter the replication of the creation. You need to understand this otherwise you might have One hand instead of Two in space – Never forget hands in space are for giving, not taking, but the man has reversed this process on Earth. If you understand how you made the GANS, now you understand how you were made. You are nothing but a conversion system for different states of matter and fields, and you thought you were superior to other things in the Universe. etc. etc. 0123: The Soul in the 129 – the middle reactor – is the emotion, and the physical body of the man is the weakest part etc. The men of crime have already committed themselves to the material world – try to correct the wrong and understand what you've done wrong that needs to be corrected – not just out of fear of it but out of the understanding of it that you do not put the same thing back in the same circle again. Create a condition where you are at peace with yourself, because being in Peace, is being in Balance, and being in balance you will not make mistakes and harm or take from other entities.

0126: The true spaceship program starts from now on and every week we open a new door and if you're happy with your Magrav systems, your pens, and your

health systems, we shall teach you. This is the school of the Universe – we have from toddlers, to graduates, to post graduates, so we speak in the language of everyone the same. It's you who decide where you fit. Any other questions?

0127: Carolina: Yes – we have children among us – How are we going to prepare them for the journey? MK: In so many ways with love and care. In so many ways with them understanding the journey, because on Earth they may be 10 or 20 years younger, but in space we are the same age and live thousands of years. Children can be taught through the RNA before they are born and then the child is born with the Ethos of the Universe etc. In the writing of Baha'u'llah (Bless His Name) He says “Pray for your children 20 years before they are born” – We take it further – we engrain it in the RNA which is the essence of your life in space etc. This way the fields of your existence will carry the essence of Peace – Very Easy – the way you made the GANS of flowers, and the GANS of meat, and the others – that's how you make the GANS of Peace – then you can drink it from the fountain of the Universe ... etc.

0130: Carolina: We have a lot of controversy, we have a lot of problems – how can we release these shackles faster in a way that we know that we're in a right path, that we don't have to doubt? because a lot of people put doubts on other peoples paths! MK: That's how they show their ignorance! 21st of June, today is a balance, the solstice, today is the longest day (in the Northern Hemisphere) and you will need this time to understand today's teachings (In the Southern Hemisphere it's the longest night so perhaps we'll have to stay up all night to understand?) These people who create problems are making their own path – there are those who pretend to serve but in fact they take, and there are those who serve unconditionally. Some of you have been so busy waiting to see what will come out of the hat, but you don't understand there is no hat! Those who are in the right consciousness will see very rapidly, now that we have shown the light the true colours will come out extremely fast, because those of you who are making the plasma glasses you will show the reality to humanity etc. Those of you who will see will put on your mass media and if your intention is correct you will teach and draw in others.

0134: We decided to bring this teaching forward so rapidly because we see what is to come. We are looking to build spaceships – now in the International teaching you are learning from all corners of the planet. You learnt about GANS, Fields, plasma, now start playing with the field strength in the liquid plasma and then tell me what you see. Today we opened the door to the UC for those who understand

(v1 2016-06-29) v1 (Notes have not been verified. Double check info with video)

and are ready to see etc. etc. The UC will help you and guide you if you are at peace etc. The people of the Innovation centre in the Philippines know exactly what I am talking about because they have pure hearts, because they work and give unconditionally. Make lenses with combinations of GANs in front of your eyes and behind your head, where your head is in the center, and you will see the totality of the creation. 0139: This is the way we open up the UC and we start with the 1st step today. Lets see how you behave and if you still want to eat. If you sincerely want to have a peaceful planet with no more killing, you will receive the strength to wipe out the wrong-doers from the planet. You never kill, you never destroy, you create a condition that they move on!

0141: Make yourself transparent rings of the GANs overlapping each other and you will start seeing the work of the Universe beyond this solar system – I've taught you many times! Then the strength you receive from the rings because you're in the center like a ball – this allows you to see the Universe. You won't see it with the eye of the man, you feel it with the soul of the man. You elevate the soul through the emotion and the physicality will be in the shape its happy with at the point of destination. It will take you a long time to understand this but today is the beginning. You will get so many invitations you will not know where to go – you are a new child of space and everyone will want to show their house! You will be given the best room in the house, its for you not to steal when you're the guest!

0144: You have all the tools. Do not use CuO because here you limit your destination to the physicality of this planet. Do not use Heavy metals – go to the lighter matter – the collective energy of the lightest will give you what you need at the line of need. Go back into the plasma of the Hydrogen because its collectiveness will give you what you need. Work with deuterium and not with hydrogen. Do not work with Tritium because it can give you division. Now you understand why I said years ago that atomic Hydrogen is the backbone for the creation of man in the Universe. You have one electron, one proton, one neutron, and the totality makes it perfect because of the balance – as the physicality, emotion, and soul of the man – a perfect system ... etc. etc. 0149: Much more along the same lines --- you will see things with the emotions and soul and not with the physical senses –

(This reminds of Baha'u'llah's writings from the Gleanings Tablet CXXV. 'Only when the lamp of search, of earnest striving, of longing desire, of passionate devotion, of fervid love, of rapture, and ecstasy, is kindled within the seeker's heart, and the breeze of His loving kindness is wafted upon his soul, will the

darkness of error be dispelled, the mists of doubts and misgivings be dissipated, and the lights of knowledge and certitude envelop his being. At that hour will the Mystic Herald, bearing the joyful tidings of the Spirit, shine forth from the City of God resplendent as the morn, and, through the trumpet blast of knowledge, will awaken the heart, the soul, and the spirit, from the slumber of heedlessness. Then will the manifold favours and outpouring grace of the holy and everlasting Spirit confer such new life upon the seeker that he will find himself endowed with a new eye, a new ear, a new heart, and a new mind. He will contemplate the manifest signs of the universe, and will penetrate the hidden mysteries of the soul. Gazing with the eye of God, he will perceive within every atom a door that leadeth him to the stations of absolute certitude. He will discover in all things the mysteries of Divine Revelation, and the evidences of an everlasting Manifestation.’)

0155: MK: Only those who are transparent will cross into the UC, the rest shall not. Those who have done wrong will not enter the spaceship because the spaceship is their own physical body made from their soul – Any other questions?

0156: Rick: We do have another presentation from Paul from Togo – not sure if you want to entertain that? MK: Today we stay on this theme – we will show a lot of presentations on Thursday. Today we are putting out the hand of friendship from the UC – it’s for man to respond – their leaders will not because from today they are trapped in their own prison. Understand what you are doing – try to make the GANS as pure as possible, try to make whatever mixture you make in a way that the water will be transparent – understand how you mix these GANSes and then how you mix the water of the liquid plasma and then understand if you want purity in totality so that no matter is carried away with the GANS, make the vapour of it, and then when you made the vapour of it, from the liquid of the vapour make a field of it etc. etc..... and cover the brain of the man – test these systems and tell us what you see...

0200: MK addresses the world leaders – “Understand one thing. We deliver World Peace according to our ethos, not yours. Withdraw your aggressive armies to their nest or there will be no more nest! This is not a threat it is just a statement of fact. Kf people around the world have been working to bring the Peace; for example, every fountain in Rome now carries the vapour of the Peace through CO2 and Zinc GANS etc. etc. Start making your GANSes in the order of the creation and we will see the results etc. If the people of the UC come closer you are in the right strength, if they move away you are not... Any more questions?

0207: Carolina: I have one more question. A lot of people will have a lot of fear from the past, e.g. from being bullied etc. How can we ease that fear down to make that 1st step easier? MK: There should be no fear; there should be a lot of joy! C: I know, but still the 1st step up! MK: If you speak about the fear you build the fear – there is a lot of joy in releasing the shackles of limitation of this planet! C: I know you can flip fear into joy in an instant by smiling at someone, but it's the flick we need to get into joy! MK: The problem is that I brought this in such a rapid way that the curiosity will not leave a place for fear – Now it is possible for anyone on the planet to interact with the UC. The man from Togo and Ghana will see first – the man in the center of China who is pure in heart will see first – he is happy to be free of the shackles of this planet, worrying about food, etc. Today is the celebration of the man entering the Universe, there is no fear, unless you are afraid of your own conduct. That's where the fear will come! Build the systems with transparent layers, layer by layer, and see what comes to you, but make sure you cover the emotion of the man ... You will see the mother who died 20 years ago with the same face and smile – you won't see her with your eye but with your emotion. Now we show you how to see with your emotions, so there should be no fear. Thank you very much for today and We welcome man to the Universal Community!

021318: End.
