p01:25:05

(K) in so many ways, it's our expectations that have brought to us the limitation. And in that limitation, we manifest ourselves because as much as we can carry from the love of the creator.

01:25:29

And the answer is yes, now that you have learned the new way to give and you can follow it and do it, you will find out is there a need for the physicality of the man to confirm his existence where he knows he exists in all dimensions of the creation.

01:25:48

I am the creator, it needs a lot of maturity because if you come to point that you decide to become physical again, that becomes the new limits of the understanding.

01:25:58

Any question?

01:26:07 (MC)

Thank you Mr. Keshe. There is a question in the Q&A: With the giving to the plasma system, we enable the balancing of the emotions. Could this balancing resolve in some physical symptoms presenting which are connected to the balancing of emotions **experience (??)**, experience in the past are not resolved, or yet connected with on a conscious matter state level.

01:26:45 (K) At the beginning of this question has a mistake huge mistake in it, which answers the rest itself. You want to read the first line?

01:26:57 (MC) With the giving to the plasma system, we enable the balancing of the emotions, is it the assumption there?

(v1 2016-03-20) DRAFT (Transcription has not been verified. Double check info with video)

01:27:05 (K) Yes, exactly. We don't give the balance of the emotion, we give the balance of emotion and physicality together because they are now both at field. This is again a mistake of the man, he wants to think what he is giving but he doesn't understand that the system takes both physicality energy which is (?) as much as the emotion.

01:27:30 Now we hear the people who are doing these things, they said they don't go to toll that much. They (?) thing is finished more or less. So the body balances both, and then because he gives what he doesn't need what he thinks. Another entity needs what he has, because now he works on emotional level of the universe. His giving on the strength of the matter states which is its physicality GANSeS state too. So, that's why you find peace.

01:27:58 And in finding that peace, in finding the communication of how to give because you are not worry the world? as much, on the emotion and not much on physicality. You start seeing the cranks where the problem has been, and that you might call it the opening of the emotions of the past, because these emotions are very good markers and we would like to keep them.

01:28:25 These markers up to now were the reasons for us to have a discussion or a fight or an argument with ourselves and others because we created the markers. Now that the soul and the physicality together are giving, receiving what they need. There are no markers, and when these markers appear they have energy package. They have a language of the emotion strength and then you call it fear, you might call it joy.

01:28:51 Next time when you stand in front of the system, you say I don't want any emotion to be given but take as much physicality energy as you like. I will tell you what happens, you want me to write it down and you will see it happen because I don't give you your preconceived ideas. It is you who got to learn that you have to give from both (equal), according to the level who both want to give equal to guarantee the balance, and it takes a long time before the emotional energy and physical energy part of the man comes to balance. Because one has to gain the trust of other, and one has to go at the speed of the slowest.

01:29:55 I wonder if we must wait a person now. And these people who are building these systems and in mass way, they may, let's say three years time or six months. Would the mass be the same? I doubt it.

01:20:17 The weight might stay, but the mass will not. The mass changes according to the gravitational magnetic field; the strength of the band of the energy. So in time major, or we have to make a scale, for measuring the mass of emotion and we make scale for the mass of physicality. Maybe gives you an answer.
