

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

Video link: https://www.youtube.com/watch?v=fDn_mDh5rxQ

This is not a particularly long workshop under 4 hours but is pretty dense in information so I have split it into two parts - in this first couple of hours MK begins by trying to show us how our science has gone wrong from the beginning by being stuck in a matter state, then he tries to teach us how to begin creating a travelling device for the Universe, which is strangely the same device the medics are building as their healing device, and is also like this exquisite Candle of Peace

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

in the picture created by the Austrian Plasma Energie team...

0010: Rick: Welcomes everybody. 0011: MK: Good morning etc. We have realized that some people have not understood the teachings in the last few months because they have been so rapid – we are now working more and more with plasma rather than matter. The biggest problem is that for thousands of years we have worked in the matter state, and we never understood how magnetism relates to gravity etc. We got lost in the use of matter – then we discovered chemistry with interaction of different types of matter. We could not see the fields, we could only see matter – our understanding related to seeing the matter – the planets, the sun, etc. etc. and we never saw the fields. We tried to unravel the matter state but this has not worked.

0007: We never understood the totality of it and this is where the knowledge of the man got lost – one piece of knowledge was missing and that knowledge was the creation of gravity. Now that we have found how it works and you lot have worked with the gravitational and magnetic coils – you become familiar with it and you begin to understand it and get to the truth... Lets look at the fields of the Universe – some interact, some attract, some repulse – those fields create the plasma and from this we get the proton and electron and matter. This is the level of the science of man with nuclear physics and atomic physics –and when these interact and create molecules we have Chemistry, and then when we find specific combinations of molecules together this became the science of Biology, and this is where life comes from – then we added more to biology we came to understand intelligence, and then the 6th level became the Soul of the man. Our understanding historically has come from the wrong direction – seeing first our physicality then understanding the Chemistry then the atomic physics and nuclear physics. Now we understand if we had started out with knowledge of fields we would have had no problem... 0021: This is what is creating the confusion in the understanding of the fields now. When we have to understand how we create the matter from the fields – the origin of creation itself. Now we see a lot of universities accepting the Kf technology as legitimate because it answers a lot of unknown knowledge. The Laws of Thermodynamics are not the window – It's now all down to field transfer.

0026: Its ALL very simple. Electron is a plasma, proton is a plasma, then we have two plasmas interacting -> we call it ATOM. If you would have spoken about protons a hundred years ago in 1916 they would have said “the guy is a lunatic!” All these developments in atomic and nuclear physics have been since this but in that process a LOT of assumptions have been made... Its not that the science is wrong –it's that now we can fill the knowledge. For example Einstein saw the

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

Speed of Light as the maximum possible speed and in one way he was right but in another he was wrong. It is correct only in a matter state according to our field of observation. Now we know we can create speeds from greater strength Magrav fields so we can now travel a hundred times, a thousand times, order of magnitude above the speed of light! Einstein worked in the matter state but he could see other things that he could not explain – with the plasma tech we can explain them etc. etc. 0029: So now we see a lot of resistance from scientists because if they accept this their PhDs are down the tubes or their professorship is down the chute! A lot of their work is on certain assumptions that don't work anymore. 0032: If we start with wrong assumptions at the level of physics, these mistakes go on into chemistry and biology – then with the peer review process this makes sure that scientists stay within the wrong assumptions. With the new plasma technology it is being developed by people from ALL walks of life; housewives, people on the street etc. etc. Professorships and PhDs are not necessary anymore. Now however we see more and more scientists and universities looking at the plasma tech and bringing it into their curriculae – this is happening in Italy, Philippines, and Africa.

0036: We see a huge resistance from the Jewish lobby – this is because they work in a matter state, and the plasma tech undermines their assets and control of humanity. 0037: We are on the verge of developing new technology, which I will discuss today – it will give you the basic knowledge and then you build on it. What will be discussed from now on goes beyond the imagination of a lot of you.

0040: Next week on Thursday we will spend a half hour explaining how Allan Stirling (Stirling Allan) and Red Circle are connected to child trafficking and organ trafficking networks and how this is supported by the Jewish lobby – how they are all paid by one paymaster. The Jewish lobby and the Monarchies of Europe are now loosing their grip – ALL the wars have no reason – the hierarchies are crumbling and you are ALL equal – you are building everything yourself from your understanding of the knowledge and for the first time you are Free – with free access to energy, food, medicine, shelter etc. etc. Even physical and psychological independence from control, on this planet AND in space!

0045: From now on the Tuesday and Thursday teachings will all become part of the process so I don't have to go back and repeat myself. Tuesday 2pm – 230pm will be International KS teaching then after that the space technology to the Chinese. I hope this will be public but it depends on the Chinese leadership – then Thursday we continue the Knowledge Seeker workshops. We are making China and Professor Zhu the head of peaceful application of military technology in Space (like Klaus in Austria is head of medical section, and Dr. Ghutra in Kenya head of

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

agricultural section). All other national militaries can join in closed session on Tuesday afternoons after 330pm.

0051: MK explains again how to create plasma in the center with 90 degree opposed coils, surrounded by a sphere coated on the inside by GANS and then with a layer of liquid plasma inside that. Then create rotation in 3 dimensions. We are lucky on planet Earth to have the matter to play with – creating Nano, GANS, and fields is a huge knowledge. With this knowledge the man enters the Universal Community with something to offer. With the speed of rotation you can now dictate the expansion of the plasma. By compressing it you go to higher strength and releasing it you go to lower strength – you can travel for example at 20x, 3x, or -20x the speed of Light because you now have in your possession the tool of playing with the plasma strength, contracting it or opening it. Compressing it to go to the closer spaces, faster fields, stronger fields, be it gravitational or magnetical now you have the tool to be in space in a few hours if the man understands the implications and applications of the plasma. In this process I brought you to this point in a few weeks...

0055: WE have seen Dr. Rodrigo and other doctors getting results in the human body from interaction of the fields. We are in the 5th session yesterday with the doctors but so far they are using only static 90-degree opposed coils without rotation so they have a limited capacity to create a field. But even with these they have been getting cancer reduction in patients. You have to understand that cancer is a condition of a field that has a gravitational field strong enough to absorb other energies and in absorbing they solidify or make a ball of themselves. This same knowledge the body has used the same process in a correct way to solidify bones and organs. Cancer is nor a disease, it is a solidification of field transfer in the body of the man.

0059: As I explained last Tuesday we now create a box with 4 walls a floor and a roof – with different strength units in walls top and bottom. The top coils working with the brain need to have Zinc and Calcium, the muscle part should have Cu and Zn. The lower part is the immune system – connected with the feet of the man so GANSes that strengthen the immune system used – these should strengthen the man so should have coils that are mainly gravitational etc. etc. The coils on the top should be mainly magnetical – now you see the shape of the future of space technology and the health of the man.

0107: If you understand how the Coulomb barrier of the Soul of the man interacts with these fields you will be able to travel anywhere in the Universe. Then you can

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

land on the Sun without being immediately burnt up. So this box is not only the foundation of healing, but also transportation – we are talking about tele-transportation or Magrav positioning of the energy of life in the Universe.

0109: If you understand the use of the coils not as static but dynamic condition, if you understand the cores in a dynamic condition, if you understand the interaction of 2 dynamic cores and then you can replicate it in a dynamic plasma condition now you have created it like the medical units – you will understand something very simple. As the cores rotate and you compress the inner plasma, now you can go to create fields that you have seen without rotation, of the field strength of the body of the man – we've seen these fields at different levels 1. Body of the man, 2. Emotion of the man (We see the doctors reporting that people become happy using these systems) What have we missed? My friend! The same reactor if you can speed it up the right way will give you 3. The Soul of the man. It's no difference. (MK draws the reactor with the free plasma at the center emerging in 3 directions showing the 3 levels) If you understand the gravitational and magnetical strength of the soul of the man you will create the man! You will then be able to transport yourself across the universes if you know the destination strength.

0113: MK goes back to the walls of the box – draws how to surround the man with the totality of the fields in a box and how to rotate the plasma around the sides and from top to bottom. MK deepens into how to create the gravitational field in the strength of the Earth, and the Magnetical field in the strength of Planet Zeus and you will travel there – so its in the setting of coils in the correct Grav-Mag configuration. 0120: MK shows Klaus's team's Plasma Energie Peace Candle (see picture) with a magnificent crystal at the core – the crystal in the core is the man in the healing (or travelling) device. The structure of this Magrav unit done in the correct way is the structure of your machine into space. This is a gift from Us to man to allow man to rejoin the Universal Community and it is up to man to respond correctly so we can teach more! If you get it correct you choose the destination of your soul, you will see the strength of your soul, and this is how we choose the Council members of One Planet, One Nation, One Race, because we see the light they emit – the brightness and unity of the light – Blessed (are) those who understand!

0123: The man in the small plasma ball is the center in totality – it covers his emotions, it carries his physicality and because he's made of it the man became the light of the creator in the essence of creation. Christ (Bless His Name) has done it but man has been blind to it because they looked at the physicality of it! Buddha touched it but never understood it – because he detached himself from physical

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

matter he could work on the level of the Soul but he could not see the transportation of the soul of the men from the Village of the Earth into Universal Community. Now we teach ALL.

0125: MK describes how to make instant transportation or travel at the speed of your choice to unlimited destinations. But also how to find a pedophile or rapist hiding in the structure! In the same way we shall be able to track down missing children from Africa to the Palace of the King of Belgium! 0129: If you use Copper then a mix of GANSeS you don't create destination, but specific destination is dictated by the Magnetic coil outside your Gravitational coil, which is tuned to your own position. This is freedom of the Universe, not trapped to a house or a palace – the totality of the fields you create shows the condition of the emotion and of your soul. The technology will not accept criminals – it will put them in a place they call Hell! So how do you create these systems? You are more or less about half way at this stage! Chinese are ahead – they are starting mass production of GANSeS. 0133: Would you like to see Galaxies? Join China in Peaceful De-militarisation process in the Unity -> We teach you. Stay out to criminalise – you'll stay out and you'll have nowhere to exist! 0134: The Strength, or Coulomb barrier of the Soul of the Man (MK draws an inner pink orb inside the Mag and Grav layers) this strength has to be the same as the people of the Universal Council. There is no place for lying and cheating –on the surface yes – underneath no! (As we say the game of play of the Iranian girls – on top of the table they don't love you and underneath it's a different story with the leg!) – (lol) – that cannot happen in the Universe.

0136: Italy is now understanding the technology and is getting a lot of mass media attention – it has broken rank with the Jewish lobby and the Monarchies – this time they lost because too many people are creating pain pens and starting to share the working and the beauty of the technology. 0138: We are telling these web sites who are against us – “Cease your activities or you will join Alan Stirling (Stirling Allan) – Now there is no more PESwiki it is PISSwiki! MK talks directly to NASA and the Chinese Space Agency – Tuesday afternoons we teach hardware for peace enforcement of military according to the space, none for killing and offense. The military man should be one who is able to survive in any condition in space, and this is led by the Chinese doctors and scientists because they took the ethos in the correct way. 0141: You are the letter, you are the envelope, you are the postman, if you understand what I've just said. “I wish I was in NY, I wish I was with my loved one!” – that wish becomes your reality. Go back to Tuesday – we saw with the purity of the pure blood of the man – Paul showed us the same water with the

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

same metals, and the wish of the man created either the CO₂ or CH₃ or CuO! As I said the African nations will bring the beauty of creation onto the Table of Humanity. Go back to the teaching of Tuesday where Paul showed that bottle of water is the water of creation, and within it man has whatever he wants. Water is 95% of the body of the Man – time to make the GANS – wish peaceful and you will achieve!

0144: When you perceive the realities of what I call the beautiful people, and man calls schizophrenic, you will see 2 or 3 beautiful souls (MK draws 3 orbs inside the pink orb of the human soul) – each one individual with its own strength – or like one American advisor who advised 6 past presidents and has 11 souls! (MK must be talking about HK) You will soon see the 3 souls and respect them all. (Not lock them up with drugs as they do at present) 0146: Everyone will be transparent – “I’m going to be the American President and I’m going to bring Peace!” then followed by actions proving “I’m paid by the Jewish lobby to create as much warfare and mayhem as possible!” – Pssht! – Black soul can be seen! Black shall not be the Skin of the man, Black shall be the Soul of the man.

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

I have actually split this Workshop in to 3 - because there were 3 dominant topics, and besides its just like we have to split ourselves into 3 - the physical, the emotional and the soul inside our little plasma orb, to be able to travel in the Universal Community - as demonstrated in Part 1 ... In part 2 Jackie demonstrates the wisdom of starting with the Kids Workshops in Workshop 1 where he followed the instructions with an egg and discovered some teachings into how to understand the plasma from the yolk that became the bouncy ball, and then became the plasma... Later there are some more discoveries about the properties of the amazing CO₂ GANS, and a dip into the writings of Baha'u'llah among other things...

0149: Jackie from Switzerland has sent some pictures to Rick. Jackie shows how he followed the instructions in the 1st Kids Workshop and dissolved an egg in vinegar – then the yolk turned into a small bouncy ball – then he put the yolk into the liquid plasma CO₂ with a little CH₃ for energy – then put some caustic soda – but it becomes a new form of plasma. MK: This explains to you the energy of the GANS. He asks people to experiment with different yolks and eggs. This is to give you confirmation that you're dealing with a plasmatic energy system... J: Yep –

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

it's absolutely that! MK: Thank you very much... Jackie: In the beauty of the plasma I just met the friend of Paul in Togo – says he is working with Paul – his name is Paka. MK invites Paka to the summit in Ghana.

0159: MK thanks Jackie and others like Giovanni in Italy who has brought the technology to Government and Industry, a selfless Iranian worker in Germany, Renan in the Philippines – there is no ambiguity now – you see the purified water, there is no scam, the scam sits with the Jewish lobby and those financing the world of communication. We have no problems – the only problem is with you having no faith in the technology – there is no ambiguity because the result is immediate as one of the doctors said yesterday. We know where all the scam attacks come from around Allen Stirling etc. Now the whole network has been exposed – Red Circle – victims murdered etc. etc. – 11th floor is the right place to be – nowhere to escape!

0205: Build the technology and we leave these controlling hooligans behind – its so simple – how simple it was for Jackie to see in the egg the separation of the plasmas. Every single one of us is a plasma scientist, a mother in her kitchen or a doctor in his surgery – the soul of the man is like a huge gravity machine waiting to shine and attract.

0207: It's in the writings of Baha'u'llah (Bless His Name) “I made men to create children that they may love me – which they give from their soul that it elevates My Beauty” – Later I had a brief look though the writings – also remembering that only approximately 10% of them have been translated into English – the closest I could find was one of the Hidden Words – ‘O SON OF MAN! I loved thy creation, hence I created thee. Wherefore, do thou love Me, that I may name thy name and fill thy soul with the spirit of life.’ MK: This is the job of us – ALL of Us!

0212: We are breaking though by example, We are breaking through by positive delivery of the technology – we need to show more and more new (things) – go back to Tuesday in Togo, last Thursday in Ghana – you should have joined us yesterday with the doctors! (I know Mr. Keshe but I still have to work too many hours in the ED – sorry!)

0214: Giovanni translates an Italian video taken in Rome of a Magrav unit powering a fridge and a lamp.

0220: MK describes how the CO2 GANS water drops have improved his vision dramatically – the doctors have explained how it adjusted his brain as well as his handwriting! In 10 days he has recovered his normal vision but then had to make some muscle adjustments around his eyes. We have also had reports from Ghana

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

of dramatic healing of (Dr. Nash's) skin with the CO₂ GANS – complete healing of severe burns with discoloration and ugly scarring etc. A report from one of the doctors confirms this on a patient whose burnt skin is returning to normal skin and even regrowing hairs! 0234: CO₂ GANS water in 2 doses can heal a fungal infection that has resisted all the steroid and antifungal creams for years. 0239: CO₂ GANS water in a sealed pen immersed in water changes the acidity from 6.8 to 7.4 range – and this is another way to encourage the body to rid itself of cancer. This is why the tech is opposed by the Jewish lobby because their chemotherapy is not needed anymore (a comment indicating that Big Pharma is one of the tools of the JL) This is also the field used by Dr, Rodrigo in his health unit to absorb energy from the cancers. Make a patch of CO₂ to put on cancers. Brain cancer use patch of CO₂, ZnO₂, and Calcium... 0244: It makes things simple to treat ... Anorexia for example is a psychological problem where they don't absorb anything – give them CH₃ and ZnO₂ in a little bit of CO₂ GANS and they start eating like a pig!

0246: MK goes back over his whiteboard and marvels at how it covers everything. He promises in coming weeks to deliver the hidden history of man that we can't see – how we developed and how we travelled across the planet, how different racers were created, how we became tribes etc. etc. 0250: You are the bringers of the new paradigm and your names will carry the technology. We don't talk about Mr. Watt anymore – we talk about Alekz power cells, and Benjamin soap. This is the new generation of Magrav technology – we are open and share with ALL languages – Any Questions? ..

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

Part 3 of this workshop has to relate to the Soul - as Part 1 and 2 to the Body and Emotions - because it has Gladstone Watt who has created his Gladstone Happy Chain in Christchurch in the South Island of New Zealand Te Wai Pounamu! MK is expecting to hear that his house has turned into a spaceship - but I'm thinking if enough people follow the example we might be able to raise Maui's waka (canoe) - the South Island - and maybe even wake up te ika a maui - the Stingray - the North Island.

0251: Rick has Gladstone Watt from New Zealand online (not the Mr. Watt of the above paragraph – lol – but VERY timely!) MK: Ah Yes! The gentleman in Australia with the antenna in the house! Has the house flown yet? Or have you

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

demolished the ceiling? Lol! Gladstone: No I haven't flown yet – still on the Earth! MK: Please share with us! Gladstone: (Pic 0253) Shows his coils hanging from the ceiling – very nice! He has noticed a definite calming in the house. MK says if he uses Zinc coils everybody will be happy and jolly – we learn from you – you know your family and can observe the happy change – then we understand the science behind it – you make a happy change like a hippy time – is that the future of happiness what you show us? Or shall we call it the Gladstone happiness ring?! G: Ha-ha UC! MK: Bring the knowledge! It's beautiful what you have done and We thank you for it! You are a Very Happy Nation!

0258: MK suggests that the antenna might help a lot in protection from cell phone and microwave pollution. 0259: G: Can I use my analogue TV aerial in an antenna? MK: Maybe yes – you can Nano coat it. He was thinking the other day looking at Italian buildings with many antennae on top of them, that if you Nano coat them they could become energy providers to make the house independent of the grid! MK says he Nano coated a car antenna once and it worked wonders!

0300: MK asks Gladstone if he has noticed a change in flora and fauna, more birds for example? G says he will keep an eye on that. G says one thing he has noticed is one of the windows has clouded up with something. MK tells him to wash it with CO₂ GANS and relates how he emptied 6 Liters of GANS water into the swimming pool – and it now has no bugs and no mosquitos, and no dust or leaves after the recent big storm – these things influence the environment. He also described how Carolina had experimented with CO₂ GANS with a tiny bit of mosquito spray and sprayed that around the place on the walls etc. and now they had no mosquitos.

0305: A picture from Stanley showing a CO₂ Pad with small black/green spots. MK says all you need to do is add a bit of CuO – 1 drop, or 2 drops – these are microbiological forms taking the energy – the 1-2 drops wont allow other life to exist inside it. Rick: Some people feel the pads are drawing out toxins and these are the spots – MK: Yes quite possible – it needs analysis. 0308: Rick describes how he used Epsom salts (Mg SO₄) poultice – as Rick had been advised he needed admission and IV antibiotics for a week, he thought no way! And went home and tried the Mag Sulf. Poultice – it worked in 3 days – Rick feels the CO₂ pads work in a similar way! MK: A lot of people in Europe are using CO₂ GANS to protect from sunburn or to treat after a heavy sunburn – works well with no scars and no damage. We've drawn cancer of breast tumors in this way. 0316: Armen comes in and says this is like a fungus. If you seal or vacuum the plastic bag it will never get black spots! MK: You know Armen, just because its got moustache its not

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

necessarily your uncle! (lol!) Armen: No no no – this is when the patches are not sealed properly! MK asks Renan about the 6000-odd patches that have been marketed in the Philippines? Renan is not online at the moment. 0319: Armen shows 2 more patches he has developed – made for lung cancer – 1 to give energy and 1 to draw energy – also he has been doing CO₂ vapor through an ‘ubble bubble pipe (Shisha) – CO₂ and Zinc vapor plasma has removed his cough. MK asks if he is running marathons yet? Armen laughs – not yet! MK: Are you still smoking 20 packs a day? A: No no – 2 packs! But it has helped his cough! MK asks if it has helped his composure? Armen hasn’t noticed. MK: Ask her majesty! – She will know! A: OK! 0326: Mk explains how the CO₂ vapor works in the lungs and compares how the lungs work in absorption of energy compared to the intestine. 0342: Renan confirms that the black spots have appeared in only 1 in a hundred of their patches and that this was when there was leakage. Renan says they are going to analyze this but patches that are properly sealed last a lot longer with no contamination.

0351: MK sums up: Today we learnt the first parts about the transportation of the man to any part of the Universe – very far fetched at the moment – just like the Nano materials and GANS was 2-3 years ago! It is time to make the craft with the star formation – you don’t need to cross the Coulomb barrier of planets – you place yourself at the destination. Now it doesn’t matter the condition you travel through – you can travel through storms, across mountains, doesn’t change the contents of the envelope. With the same principle we can make the body whole – this is the real world of the plasma in its application – it’s for us to decide how we take the humanity this time. Do we take man past the criminality and the killing? Do we go the path of the Universe – a peaceful culture, a peaceful race, so we can join to enjoy the Universe? This is our path, this is where we stand! With these teachings we bring man to a point of decision making for himself with a full consciousness of what is to loose and what is to gain – and is it worth it to carry on with the same behavior as before? Or is the beauty of the Universe so great that we sacrifice a few pieces of land so we can see the beauty of the Lands of the Universe? This is what the teaching of today was about – this is not a dream – now we can start seeing the beauty and effectiveness of the technology and now we see what it brings us – it brings us Peace, it brings us Comfort, it brings us Health, it brings us Food. Are we going to fight for nothing? Or are we going to accept the nothing for a piece of land? Because now we’ve seen it – you are delivering it little by little –

Notes from 117th Knowledge Seekers Workshop held June 9, 2016

(v1 2017-09-17) v2 (Notes have not been verified. Double check info with video)

the knowledge of the man has increased more in a few weeks than the last thousand years. I give you one question – is it worth it to play with a piece of copper and with that create World Peace? The weapon of the new technology is the simplicity of its implications and applications. Thank you very much for today – see you Tuesday afternoon for 1 and a half hours as part of the normal teaching and after 3pm we join Professor Zhu and the military of whichever country wants their militaries to become the Peace militaries. Thank you very much.

035651: End.
