Comments from note taker

Another incredibly deep and wide ranging workshop - it seems to be getting better and better with a lot of synchronicity... MK starts by playing a recording of his talk to the new Universal Council, the body that will represent 144 languages of planet Earth and bring the planet into Unification, One Planet, One People, One Race. In Dubai there were 72 or 73 who came together, by all accounts, so the other half are meant to turn up in Roma, Sept 9&10, - if it pulls you then mortgage your house and be there Peoples of the Planet! This preliminary Council will gradually give way to those who understand the essence of their languages - in the case of NZ Aotearoa that would be Te Reo Maori. Following that MK visits Rome himself to inspect the new power generator, and he gives some more tips on how to create the plasma glasses so we can see and interact better with the UC. Finally, we meet Dr. Rodrigo again who delivers in detail proof of the final cure for all cancer on planet Earth!

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

Notes

0010: Rick Welcome. MK: Good morning – can you hear me? etc. Last week we had a chat with the people who nominated themselves onto the UC. If you are interested in participating you need to understand how and why and the reason we sit behind it to promote it and support it. It's for the human race to enter the Universal Council – this is part of the process of bringing mankind together to speak as One World, One Race, One Nation, One Group in the Universal Council. I can never become a member of the UC because I belong to another Council, which you will know about soon... MK asks Rick to play a 20-minute extract from his address to the Council members this week.

0014: MK recorded talk to the UC: The reason the different languages are chosen is so we can understand the culture of the International community – the languages represent the cultures of the Earth with their emotions and their thoughts – so when you nominate yourself for a certain language you must ask do you understand the mentality and the depth of the language and the culture? Those who stand as guardians for certain languages are there only for a time till others who understand the essence of the language and culture will stand for the language. The way you select yourself – this is not a privilege it's a service – in time you will look to see if others can serve humanity better – then you will stand down. The problem will come when the pride of man takes over and we have seen this already – it is not a job of influence, it is a job of service. 0024: This is a Council that is designed so everyone can get what is best for humanity as a whole, not like the EU where everyone is fighting to get the best for their country. It will take a lot to change the character of the man – we are hungry for position, title, for being called somebody. Being a member of the Council has to be in the heart and not in the name on the door. The Council has to be the flag bearer for the humble attitude, we will not carry titles – in space you don't find any Professors! The title for the man should be in the heart of the man. Then you will walk the streets and no-one will know you're on the Council, but they will see the essence of the soul of service. We'll see in the coming time the seat of the UN will be totally gone, the building will be gone, because it served nothing but to carry murders en masse, to carry murders in the name of nationhood for those who make money out of it, and anyone opposing it has become a terrorist organization. UN has become nothing but a place for killing permission!

0029: We are teaching food technology so in coming time man will not need to eat, but absorbs the energy – then we will learn to communicate via emotion so there is

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

no deception. At the moment you are the first group to represent humanity and humanity will go through a revolution in a very rapid time frame. You will be like a transparent sheet and the more you receive the more you will shine! We have a number of Chinese speakers, Iranian speakers, French speakers, English speakers. When you decide which one is to represent the language look at how they can serve the people of the Earth better than me – not “I’m better I can do more!”. We’ve seen this with a Spanish couple already. 0033: So understand where we are going. We are changing the position of humanity through the influence of soul, not by votes, not by money, not by position, cars, houses, wages, salaries. In time you will be recognized by the way you serve, the way you shine. When a man serves humanity, when he stands in front of the sun you shall see no shadows. There are no shadows in the sun, we only see shadows when there is a connection to material world of position. So if you look for the true Council in future, when they stand in front of the light you shall see no shadows, and you shall see no entity, because the Soul of the Council member will shine as the light of the Sun...

0035: Rick: That concludes the presentation. MK: “So now you understand how we select the members of the Universal Council. In a way humanity selects himself. We will meet again in physicality and online in September in Rome. You don’t need to be here physically, we receive the beauty of the Soul.”

0036: MK: Moving on to the next step. On Tuesday we extended the understanding of now we have entered into the plasma technology and the fields of the plasma, we are extending this knowledge into opening the door to the Universal Community. In the next few hours we will extend the knowledge of how we use the technology to achieve this. I am not at Barletta so have computerized white board only. You’ve seen how the pen works with reducing pain – we mixed the GANS and made the coils and we have seen the doctors playing beautiful games with it. Now we know it works through the fields. Anyone who has achieved results can present them on the workshops after going through a security process. Now we go to the next step, now that we’ve seen the fields and have evolved in your understanding from Nano to GANS to Water of GANS, or “liquid plasma” – now in mixing these liquid plasma fields together we get what we call “Unified Fields”. From these fields you can come back to creating the matter you want from it etc. 0043: This is why we said at the beginning we don’t take food, medicine, animals, materials into space – we take nothing except fields. At that time it was very odd – how can we go without food? We’re gonna go hungry! But now you understand you have everything you need at the point of demand as long as you have the field. You’ve seen how to take an orange and place the field in the

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

water – you’ve seen how to change the position of the Cancer, how you transmute matter from one position to another. We have seen this in the medical teachings this week (and will see it again today) We have separated the medical and agricultural teaching from the public domain because people can create problems for themselves with this technology. We will bring the scientists and doctors to explain the proofs. On Tuesday I opened something new – how do you know the Universal Community is there if you cant see it? How does a blind man see? He works with the feeling and emotions. Man has been blind to the UC because he always looked to the matter state – now we open the eye of the man to the UC, through the emotion of the soul and you will see creation of life in the Universe. On Tuesday I started teaching how you make systems so you can see the creatures of the Universe with your eyes till you learn trust in your Emotion and Soul.

0049: MK draws a system with 3 different types of field and an eye looking through to see the creatures of the Universe on the other side. 0052: For these systems it is better, instead of using solid copper coils to make hollow tubes containing GANS liquid – they always have to be double tubes to contain both M & G. Then if you line these up (circular double rings of GANS water) rather than creating 90 degree opposed arrangement, you will see the creatures of the Universe. 0054: By taking the elements of any planet or star and using them you will see the entities of that planet. 0056: MK explains how dreams work and knowledge is given to the soul through dreams – then it sometimes takes time for the physicality to be in the position to see what the soul was shown. Dreams can connect you with other entities e.g. your passed-on mother, through your soul. In a similar way you can get teaching from the Universal Community. Man will never be in a safer hand than that of the UC. They will teach you everything you need, unless you make the mistake through your greed. Then you will receive your punishment, then you will stay on the planet, shake with the shaking of the planet! The knowledge is free but don’t abuse it or you will be returned back to the village you came from. 0100: Through the same system you will not only see the creatures of the Universe, but also communication and travel will be instantaneous. But understand first that the creatures of this environment are not food – learn first how to feed yourself from the plasma of the Universe. There will be those who fight and they will bring their own demise. There will be those who amalgamate and will see the Glory of God. The Glory of God is the peacefulness of man amongst the UC, to be able to see the beauty of the creation across the Universe. None of you will spend another second on this planet once you see the beauty of the Universe!

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

0104: In a way, with this I have brought the Day of Judgment. All of you have been waiting for Heaven and Hell – it arrived on the 21st of June 2016! Heaven is the opening of man's soul and physicality to the Universal Community. Hell is to exist as you are on this planet and kill each other like rabbits! You've seen the pen I gave you work, you've seen the delivery of energy from Magrav systems, you've seen – now understand, we deliver the message of Peace, it's for mankind to take it. Some of you will take it in one go, some of you will find it too harsh to accept because the rule of the game has changed. If you understand why I played the tape to the Universal Council first. It's very simple – when you stand in front of the man of the Universe, he will see your shadows because he is peaceful and you are not. He has everything he wants, you don't. He cannot kill, you do! He doesn't lie – so you stand like a patchwork of dark spots on the surface. Each dark spot has its own colour – the greed, the murder, the thieving and everything else. So now you have to reflect back into yourself and you become the prophet of yourself – you release your own 10 or 20 commandments. Now you understand why the writing of Baha'u'llah says 'The intelligence of the Man at this stage has reached the level of the Prophet of the Past'. It's not that you become a prophet, it's just that now you understand why they shone. With these systems I show you more and more so you can see more of the UC. I show you how you will open the atmosphere of this planet into the UC without even leaving this planet. I will open and crack the shell of this solar system. You've been inside, dark, I teach you how you open the shell without even leaving the shell. You will be amazed how closely you have been living with the UC!

0109: You will now become the prophet of your own Soul – the Messiah of your own soul. Many times I have said that I am the Messiah! And every single one of you are Messiahs. Now you understand, when you do everything correct, and act correct, you will shine like a sun and you become a member of the Universal Community. But in this process we also expose those with dark spots. 0110: For example look at the case of Allan Stirling (Stirling Allan). MK goes over the story of how the Kf had to withstand attacks from SA and the Red Circle but with being correct the judgment came to SA (and Judge Scalia) and judgment will come to the Red Circle... 0112: Rick shows the article from a Utah newspaper, the Daily Herald, of SA's sentencing to possible life in Prison for sexually abusing his own 2 infant daughters. MK describes how the Kf worked closely with the FBI in this case, and now in the same way present trolls, like Mr. Salmani, Mr. Letif, etc, etc. will be taken care of. MK describes how people like Red Circle, Suzanne, False Hope, are all connected to child charities, and this is a cover for child trafficking. Red Circle is also implicated in the poisoning of 2 scientists (including MK

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

himself) MK says he had to wait for the sentencing of SA before he could release all this information, including the names of the child traffickers – including some who came to be students but got flushed out. Etc. etc. Now we are coming for Red Circle as he has been implicated in the murder of 2 Moroccan girls, 8 y o and 10 y o , in the 1990s. It took us a few months to get one of your slaves – Allan Stirling – Now we are coming for you! Etc. etc.

0134: The health technology is correct – we have doctors who achieved tumour disappearance and 80% reduction in days. People with pain are walking away – they are finding salvation in the new technology. Rivers in Africa are being cleaned. Now we have started trials with HIV and Malaria in Africa. We have developed technology to clean air over cities like Beijing and Shanghai. Now we have a 3KW generator that you can order for 1800Euro. 0137: Mk describes how he went to Rome last week and saw the Magrav unit attached to the fridge, with the fridge still going in spite of the grid being disconnected. Rick plays the video of MK visiting the house and loading the generator with other devices pulling 7-10KW from the Magrav generator. MK says the systems offered is a 3KW system, but whatever extra is added is to our benefit (in this case able to load it up to 10KW!) Kf is moving away from the Magrav system to the generator. We built the system as one family across the planet – we stood the trials and failures – but if you look the 1st Magrav system is still working and no one failed. The blueprint still stands but we have now gone to the next step and developed a complete unit that relies for supply on the plasma of the Universe. We have now fulfilled the dream of one of the most beautiful scientists – Tesla – but now we go a step further... MK says Tesla showed us the field flow but MK showed the plasma flow. Tesla showed one direction of the traffic but MK showed both and with this there are absolutely no losses in the system. 0145: The new systems will be the Magrav units with 2 other parts that in a way are like fuel systems. But there is a problem in Canada with delivery – Canada is insisting on a Canadian certificate and blocking transportation even though the product is certified for Europe. Arizona manufacturing is going into production; Canadian manufacturing will soon be underway. Austria will concentrate on the medical systems under Dr. Klaus. In China we have 12 applications for manufacturing for mainland China – we have a temporary problem with Taiwan and we apologise. Germany has been signed and is in the phase of problem solving. Soon you will see mass production. We are working with Brazil, S Africa, and Australia. Kenya, Nigeria and other African nations are all in process. 18-19 October we are holding an African nation conference. A number of Iranian scientists are on board also and papers will be published in time – Iran is one of the leading nations in the world in Nano

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

technology. I thank the Chinese community for their energy and industry. The Kf is solid and belongs to you. The foundation is solid and now we have to build the rest. Carry on your experiments and publish your results and show your governments – we deliver, we test, we certify.

0153: We have seen the end of the biggest fear of mankind by eradicating cancer – the doctors are showing the way with this... MK asks if there are any doctors who want to share? 0155: Armen describes how he is working with GANS waters and a patch with a lady with lung cancer and in 10 days has shrunk the cancer 20% and she has no pain and eating normally.

0158: Dr Rodrigo comes on and describes his two cases – a lady 38 y o with breast cancer spread to all her bones, to the liver, and the R side of the brain. She was in his health unit 1-hour 3x daily with the helmet. 8 days after starting she had an MRI and the tumours from her liver, frontal temporal and occipital brain disappeared. After a month another scan and all the bone tumours disappeared also. After 1 month there were only 2 tumours left in the cerebellum and these were reduced 80% - so then he tested for metals in her blood to find out what metals might be involved in the tumours – probably either zinc or calcium and waiting the outcomes of tests to see this. 0201: The 2nd patient was a dog with cancer in the left leg, 2 tumors the size of golf balls, one in the muscle and one between skin and muscle. After 10 days the one under the skin disappeared and the one on the muscle reduced by 80%. Then after a month a blood test was taken to see what metals involved – it was Iron so a patch was made w GANS of Iron and in 2 days the tumour disappeared completely. The dog is now free of cancer and we were celebrating that today!

0203: Also he is taking on Alzheimer's – a lady who had Alzheimer's for years and the last nine months just lying on the bed not communicating. He used Zinc, CO₂ and CH₃ patches on the water container – after 3 days the lady's son called him excited and crying – after she drank the water she recognized him and called him by his name – she is doing great! He also had 2 patients with Diabetes Mellitus and severe neuropathy (numbness pain and tingling in the feet and hands) treated with 5 days of ½ hour twice daily in the health unit. – all the neuropathy has disappeared on these patients and the blood sugars are normal – he has asked them to come for 3-4 weeks to complete the treatment. Also their state of mind and awareness is incredibly good. Dr R. is very excited at these results and tells how the medical school training of doctors is all deception. It is so easy to bring the body into balance with this new technology and it is giving us the power to heal ourselves. If the body is like a car, this tech is the fuel that makes the car go. When

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

people understand this and focus on the healing the healing works better as their consciousness improves the flow of the plasma – it is beautiful! Dr Rodrigo loves it!

0210: MK asks Dr Rodrigo to describe specifically how he dealt with the cancer of the dog for other doctors listening – how he depleted it from its seed. Dr. R: Describes again how he can reduce the cancer 80% using the health unit but then to disappear the cancer he has to find what metal was involved – then by making a patch using the GANS of that metal it completely depleted and disappeared the seed of the cancer in 2 days! (In this case the metal was Iron) MK explains that Dr. R. made the health units and GANS patches himself, a very unusual doctor! He then explains how the Iron was holding he gravitational field of the tumor – this is usually a heavy metal – cancer always has a gravitational seed that pulls a lot of energy – no-one dies of cancer we die of lack of energy! Dr. R. made a caustic of Iron and put it in a patch and this caused transmutation of matter – the Iron in the centre of the tumour is in a GANS state, a plasma – now its on a stronger position because it receives a lot of energy. With putting 2 iron patches on either side the habit of the plasma is opposite to the habit of the man – we look at putting power in, with plasma you have to learn how to put 2 weaker patches on either side, the cancer cell that carries the Iron and the higher order plasma brings the other two to its level so that its equal. It gives all its energy to the 2 patches and empties itself and when the centre is taken away there is not support for what is attached to it – that’s how the cancer disappears. MK says he has done this for many years and now for the first time we see the proof of it.

0215: MK describes how another doctor took away a brain tumour and there was a flake on the skull. The seed of a brain tumour is usually calcium and in using a pen on the brain tumour she saw the calcium going from the inside of the brain to the outside of the skull where she put the pen. 0216: So now we have the technology to do what the stomach and intestine does. The beans and carrots do not cross the wall of the intestine, the energy transmutes from inside the gut through the wall to the lymph. Now for the first time with these 2 doctors we have created the reverse – we are transmuting the elements from inside the body to the outside. MK says we need to do more experiments and invites any doctors listening to join in. Thanks Dr. R. once again for being there and says we learnt a lot from him. Dr Rodrigo says thank you very much and he has learnt a lot from MK! MK repeats that we have defeated the problem of cancer by just using the fields of the Universe – we have understood the essence of the creation and doctors will now join in one by one. There is no longer any need for chemo, radiotherapy, surgery – no longer any

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

separation of parents from children – the Kf as One Race One Family, has found a solution for cancer.

0220: MK describes how his Iranian colleagues have been testing the use of CO₂ water for sterilization of tools in surgical theatres. Spraying CO₂ GANS water around also removes odours within milliseconds – Carolina is using this everywhere – this can be effective on skin infections and skin cancers, burns. MK is trying it on his eyes. If you have a Corn on your foot spray it on. If you are bald rub it on your scalp and she will love you (lol) Understand the process – use the CO₂ water around the house and the kitchen for sterilization. If you understand you can save your life – still needs to be tested for all sorts of applications. 0228: Tepco has just admitted they lied for months about the meltdown at Fukushima but they still have not admitted they used the Kf tech without crediting the Kf – habitual liars cannot change! You got to understand the technology is solid – bring more in, we are freely teaching and releasing the blueprints...

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

If you mix all together you get grey color Liquid plasma food, not very attractive looking. I feel like an artist and liquid plasma kitchen is an art.

To create an artwork you can't mix all colors together, you have to play with tones, shadows and light. We have four main tastes - sweet, bitter, salt and acid. To get a right combination to feed your brain with these tastes you have to apply the same principle like in kitchen. You combine sweet with acid, and bitter with acid, bitter with salt, salt with sweet, etc. and use different flavor spices. Do not forget your emotional part is very important, love what you do. It is the same in traditional kitchen, if you do not like cooking. how you could make good food?

Food GaNS with HCL/ NaOH Method, Page 4

The picture for the 2nd part of this workshop is from one of the fantastic presentations from Arviz and Litha, on how to make food GaNS from their presentation entitled "The Plasma Kitchen technology". Their other presentation is a breakthrough as they demonstrate how it is so simple and easy to make any GANS out of carbon, instead of nano coated copper, which makes sense really as this was how life was created on this planet, as MK explains as he deepens after their presentations. Prior to this Renan shows us research in the Phillipines on how easy it is to alkalise water with a few drops of CO₂ GANS liquid plasma or even

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

breathing the field of CO₂ GANS, and bring healthful effects to a chain smoker! Finally we have Jackie in Switzerland talking it even further and growing what likes like meat in a bucket from the fields!

0231: Renan from the Philippines tries to come on and present his research on alkalisation of water with field of CO₂ GANS – but there is a lot of trouble connecting so eventually Klaus from the Austrian mother ship presents the research – a study on a chain smoker of cigarettes and testing the smokers saliva for pH after breathing air from a tube out of a CO₂ GANS coated cup – after 1 breath the pH of the saliva went from 5 to 9, and this effect was sustained for a few hours, and became a permanent effect when he did 10 minutes of breathing every 4 hours. 0242: Similar effects with 3 drops of CO₂ GANS water – the pH went from 5 to 7.8. Renan comes on and says this is why the CO₂ GANS is so sweet and refreshing to drink and this would be a very good way of approaching cancers of the mouth, throat and stomach. 0251: Renan then shares some pictures from the Philippines team, Nino Abellana and team, who are making a comic book about plasma-man superhero for education of kids in the plasma technology – very nice! 0254: Rick shares two presentations from Arviz Liepa and Litha Limetree who have developed “carbon stick technology” and “food plasma” technology. They have 2 pdf presentations “The Easy Carbon Stick technology” and “The Plasma Kitchen Technology”. Rick reads the presentations, written by Litha and Arviz. Basically they have discovered that for GANS production you can use a carbon plate or stick instead of a nan coated copper plate – this is much easier, faster and gives good controllable results – they have published all the details on their Facebook page, which MK mentions he has observed is getting a LOT of traffic. Their Facebook page is ‘Liquid Plasma Feeding’. Also they have handy kits sold on the Internet for 20 Euros for producing Ca, ZnO, CO₂, and CH₃ GANS. www.etsy.com/lis.../386848194/starter-kit-for-gans-production...

Rick then reads another beautiful presentation entitled “Food GaNS with HCL/NaOH method” followed by another beautiful pdf – a work of art – entitled “Liquid Plasma HCL/NaOH method by Arviz Liepa” – written by the female side of the equation Litha Limetree, who wrote “So we put Feminine and Male energy, Knowledge and Creativity together to try to get essence out from Food GaNS... etc. etc.” They basically made a range of GaNSes in the same way that the stomach does – 23% HCL just like the stomach, at a certain salinity to produce a wonderful range of very inviting plasma food. 0338: MK: thank you very much this is beautiful and in so many ways life on the planet was created as you’ve seen –

Notes from 119th Knowledge Seekers Workshop held June 23, 2016

(v2 2017-09-17) (Notes have not been verified. Double check info with video)

vegetation is part of the structure of making what I call horizontal people – the way the vegetation created, digested, and produced the 1st GANS – then this came to create the horizontal ones, the red blood cells... MK then asks Jackie from Switzerland to present what he has been doing and thanks Arviz and Litha once again “Thank you very much it was a fantastic cooking! I hope it tastes as good as it looks! (lol)

0343: Jackie starts at “the beginning of the story” realizing that you can create any matter. Then further realizing that he didn’t want to take diamonds into space, he started with the egg experiments, to try and understand and create the GANS of life. Over the past year he has developed a veritable ‘jam shop’ of bottled GANSes and MK has been guiding him on what GANS fields to use around his tub of green plasma water, and this now appears to be growing a red meat looking substance... MK deepens into how this is illustrating the process of creation on this planet...

0402: MK wraps up – the doctors have learnt to walk and now we see how they run! – The Kf is entering new dimensions – time to order your 1800 Euro power generator unit and this will be delivered within 90 days from Italy. MOZHANS – time to sign up – we are closing these teachings very soon, then nobody else will come in... MK goes back to Red Circle and mentions the two scientists he tried to kill, and the 2 Moroccan girls he was responsible for their disappearance. A murderer should not be free! MK reveals all the connections and people connected to the Red Circle, False Hope, Suzanne, and Allan Stirling etc. etc. Murderers of children, rapists, murderers of scientists have one place – to join Allan Stirling in his life sentence! Sorry for today but we have shown we are correct and we deliver correct – its our job to protect our children and our society that by getting rid of these people we may enter the Universal Community and a Peaceful life. Thank you very much for today...

042028: End.
