Video link: <https://www.youtube.com/watch?v=clAXi3bbVr0>

Keshe (K): As usual good morning, good day. We had a false start and in the time of resetting, a lot had to be reset. Thank you for observing the four days. I was the last person to see Fabio leaving last Wednesday on the left side of the car as the driver and somehow unknown to us, nobody else, Fabio was found on the right side of the car at the point of the accident. I was the last person more or less to see him before the coffin was closed in my village. In so many ways we spent weeks here with him. I spent 6 or 7 hours a day with him in the teaching room upstairs. I learned a lot, had a lot of joy and a lot of respect for him. Caroline said that he came here as a boy a year ago and left as a man with a lot of respect. I thank you for observing the 4 days of celebrating his life. I watched this video many times and I could not see or understand such a position was possible.

K: today in a very open way but in the way of the language of those who understand the communication I will transfer 4 different words and ways of information. Fabio's death was not an accident. In time I will open the books. I received communication from the head of the states and in trying to communicate a lot has been opened. There are those who tried to force for the change that was supposed to come last week to slow it down. There were those who wanted to keep the status quo. We changed the status quo and today we will teach in several different ways. Those of you who tried to force the change I have a message for you: *your time is over; go back home. You took a physicality with the soul of the man and we take your soul back home where you came from. You are finished. You understood. We sent you here to mature man and you picked up the habits of the man. We sent you here to promote the soul of the man and you played the game of the man. You know the punishment. According to the universal council you have called back and under the orders you will meet your destiny at the point you know you have to go. Those of you who never understood the meaning of this, this physicality with the soul we interact with, this is a sign of the universal contact. And those who taught the man the knowledge of the universe and abused it will meet their own punishment according to the law of the universe.*

K: the leaders who followed and fooled the others and those who brought the entirety of the soul of the man to be a slave through playing parlor games, your term is finished. We teach the man today everything and then you will understand the terms and the universal councils and how we

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

will deal with these situations. We sent those who were to be observers in passing the knowledge to be observed according to the laws and they got carried away to play the games too. In the past thousands of years in a number of ways we tried to influence and to bring man to peace. But it became the mayhem of one group or other playing the same game as the man across this planet. Your term is finished. We bring the knowledge to the man today that those of you who committed the atrocities of the past years will come to understand the time has come to be served by the universal council and the way we work through the human body. We don't punish.

K: the man or entity who takes the life of another man on a planned basis to achieve what he wants to do, but trying to be impartial in the positions like we have here is that we give the soul of the murderer to the soul of the murdered. And then he has to live with the physicality of the murdered. This you will not understand, but in the future you will understand. In a way it means you have to wear the shoe of one you have murdered and as you know you cannot fit into everyone's shoes. This is the punishment and this is how it is. Encapsulating the body of the man is nothing but encapsulating the soul within the soul of the man means becoming a slave to your own soul and in time you will understand. In many of my teachings I explained this in the matter state and a lot of you when you look in the materialistic world did not understand it. I drew pictures of the spinal plasma and I put copper and zinc and then you understand the lighter cannot exist without the one that is the stronger. And then you understand how the universal council gives the man to serve himself his own punishment.

K: When we give the finger and we close it means it is the time of punishment and you have been served. And those who understand the language of the finger understand what it means and what is to be done. You depart and you take your position and the ones you brought to educate to serve mankind and abuse it stand for their term of punishment. I bring the clear coded message on the Tuesday teaching and I received the response in less than 24 hours from those who knew who had done wrong.

K: So, as I said we are entering man into the universal community so you have to understand the basic rules of the universal community. When you come in touch you don't interfere and you don't use the knowledge which you have to create conditions for you to confirm that you have the knowledge and play power games. Those who have done (this) will depart in the coming time and you will be escorted where you know exactly to be.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: Those world leaders who have been in touch and to whom the information has been disclosed we warn you, we turned back to the position of peace and some of you who have committed atrocities you have to stand the same punishment exactly as has been in the universal council. World leaders you made a mistake. I have been told not to mention names, but President Obama, you are online and you can come any time and explain how you have made a Black House out of the White House. We know you are online and we invite you to speak the silence is confirmation of the crime. For those of you who have started understanding the work of the universe and what we teach now, you will see more. We have a message for you: from today you start the process of entering the dimension of understanding where physicality has no dimension but your emotion and your soul will dictate the terms and conditions. You will understand by the end of today.

K: Those of you who tried to override the situation and when I am here, nothing is overridden. Numbers, 7 billion, is literally a speck of dust in the numbers we play with in the universal council. If you think you can manipulate a few hundred, a few thousand or a few million, you don't even count as the number of the entities of life with a soul in the universe is even beyond your imagination. So we serve the order and we will carry out the order: it is the end of kingship and whatever you like to call yourselves as groups, the Illuminati's, the Rothschilds, different groups, kings of different states that you call yourself murderers, and the abusers, the heads of states, you have finished your terms as of today and as of today there shall be no religion, no name of Judaism, no name of Islam, no name of Christianity as all have been in abuse for the benefit of you. Any man from today who calls himself a "Jew", the exact word of that is nothing but what has been carried out, a murderer. You have taken the soul and abused it through the physicality. We gave you the knowledge and you abused it for physicality to gain knowledge. As of today there shall be no "Jews." No one can terminate it, except me, who comes from the bloodline of Moses. And I 'dished' (? 18.43 minutes Livestream) what was his biggest fear.

K: So let's see how the rest will play the game. We decide and we change and from today we change and we teach you everything that has been given to the governments over the past 6000 years. you will understand it that the tool I give you today and in the teachings for the next few days is the tool for the peace, it is the tool for union and for man to be equal with each other and not for the separation or to be 'better.' I will teach you how to create whatever you imagine. You will make it, not me.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: At the moment we have a pressing situation in our hand. I give my deepest condolences to the Chinese nation for those who have lost members and for millions who have been displaced. We have made commitment to the Chinese Keshe Foundation and we carry out orders to help to bring the rescue pads and every possible way, partially of the teaching of today and partially helping in the background to deliver the technology as rapidly as possible through civil organizations of Chinese society to help in a way to alleviate some of the pain until we have delivered some of the knowledge directly to some of the Chinese organizations to work with us to speed up the process.

K: This is directly to those who are involved in Keshe Foundations in China and it is your responsibility to respond to your national need at this time. This makes you ready for what is to come in a short time and at least you have the first run and you understand. You have a massive flood (21.20 minutes livestream). We have taught this in the background to the people who work with us, to prepare and the funds have been made available for the rescue, but this is huge and you need to help Keshe Foundations in China. It is your responsibility to stop every way you are researching and to work in this direction until every man in China has received support with this flood. You have a massive flood. The flood has created contamination of water and soil—contaminated heavily beyond the use.

K: Go back to the reports and the teachings of the Keshe Foundation Ghana for the very simple process and produce as much as you can any of the 4 gans—copper oxide, zinc, CO₂, and CH₃ and you need the amino acid. The instruction is to make 100 ML if you can of all the gans in two bottles. In one bottle you put only CUO gans and you write clear instructions for people for what to do and that is on the receipt of the first bottle, they mix ... (interruption). You do not bother about anything else. You produce the CUO and CO₂ (the green stuff or the brown stuff which is copper) and you put it in small jars. Any drinking bottle (plastic) is sufficient. You have masses of these and you don't have to look for anything special. Put the CO₂ with water in it and put a label on it on how to use it. If they take any contaminated water from anywhere they want to be, you only fill about 1/3 of a water bottle with the gans and you leave the rest to be filled up with plain water or just the gans. They can add the river water to it, or pure water to it, wherever they find it.

K: And add this water on top of the CUO gans, into the contaminated water of the river. It has to be IL per 100L of contaminated water. You need about a liter of the gans water that is above the contaminated water. (25.00 minutes). What you will see is the following: you all have seen the hundred liters will give you something like 10 liter of residue with clean drinking water.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

These 90 liters is more or less (25.43 minutes) 10 liter plus 100 so then you can take the top or even 50% of the water on top and it is absolutely pure and you can drink it. Any germs, bacteria or sediment is out of the water. Make sure that you use Copper Oxide, CuO_2 , and it is the only one at the moment that can give you the energy to transfer and clean the water out. These 50 liters is usable, drinking water, with no contamination or salts.

K: now take a second bottle and what you need to add is CO_2 plus CH_3 plus Zinc oxide plus COHN (amino acids that give totality). CO_2 is still decontamination but if there is any residue left in the water you need a liter of the CO_2 mixture with $\frac{1}{2}$ liter of the clean water. Take from the clean water and $\frac{1}{2}$ liter of it to mixture and you get yourself water that comes out. You never use and when you write the manual, they NEVER touch the residue. Only play with the water. The CO_2 will give you establishment of part of the energy you need, the CH_3 will cover you for most of the energy you need and the Zinc is needed in these conditions because most of the people get emotionally disturbed in these conditions (flood aftermath) and the disturbance continues for years. But adding the Zinc Oxide brings stability to the emotion and they can think correctly. And so you feed the physicality and you feed the emotion. You will find people will not behave out of order and they find solution and peace in themselves for the condition they are in. You add amino acid so that this connects with their bodies.

K: with infections or damages, anything on their skin including cuts and bruises, deep cuts, certain procedures, write the manual very simply. In the case of infection on the skin or the cuts they again use the Gans water, the plasma of CuO plus CO_2 and this gets rid of most infections that are on the skin. If there is a deep cut or a need for internal conditions such as damage to the organs or whatever, below the neck you go 50/50 with the CuO and the CO_2 . With very deep cuts you change the composition to CuO_2 , plus CO_2 plus Zinc Oxide plus amino acid (COHN). Because it is physical the ratio is 5CuO_2 , 3CO_2 , 1ZNO , and 1 amino acid (COHN). This is needed and you do the repair in the muscle tissue. You do the connection and communication for the repair and each tissue is not only physical, it has the Zinc which is the emotion. That is where that finger sign (he talked about at the beginning of the workshop) came from; it is the physicality of the emotion (the pointer finger and pinkie finger are up sign and the others are down.) The stupid presidents use it without understanding it. You have been called a clown for long enough. So if you make 5 drops, 3 drops, 1 drop and 1 drop you speed up the process of the healing of the tissue muscles.

K: in the position of the broken bone which creates, if you understand the process of the healing of the bone, bone can be healed rapidly at the point of breakage and bleeding. Your bone has

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

skin that when it breaks it creates inflammation that brings the lymph to support and calcium for the emergency. So, if you have a broken bone you can instruct it simple or add a small bit of CaO and mix this water of calcium oxide and if there is heavy damage you make a mixture and reduce the CO₂, copper oxide, CH₃, amino acid (COHN) and you use calcium oxide. In the Chinese community you know what is there for the calcium to bring and you can bring it very quickly. You can bring it from the ashes of the bone and if you burn the bone you can collect it very quickly. Here the combination is 2 drops CO₂, 3 to 4 drops CUO₂, 1 drop CaO, 1 drop CH₃, and 1 drop NOCH (amino acids). Here you are treating the muscle tissue and the bone tissue at the same time for rapid repair.

K: in the cases of head injury where you have citizens with head injury and brain damage the condition changes totally. Again you make the same thing: CO₂ plus CaO₂ (calcium oxide) plus ZnO (zinc oxide). These are in the case of brain injury. From the beginning when you produce it give them 4 bottles and add the amino acid of the water you created into the bottle and the condition is perfect. In the brain injury conditions you do 3 drops CO₂ plus 3 droops CaO₂ plus 4 drops of ZnO. You need the Calcium oxide because the brain cells establish themselves from the calcium of the skull and without it you cannot have a brain cell. It is important. So look at the injuries and this is what you need to do.

K: in the coming time based on teachings of today, we bring different sections of the Keshe Foundation who have been working in the background to show you the new way of technology development that you have been waiting for that you can use in transportation, transmutation and production of energy to deliver these directly locally. But you have to make the systems. So, we recap. Try to make the gans of CO₂, ZnO, CH₃, and CaO₂ (calcium) and every time you make the gans collect a little amino acid on the top. Just take the tip to collect some and add the amino acids to the water. It will absorb and become part of it. Your gans is collected at the bottom and when you collect it you put it in the bottle. Add a tip in to the gans and amino acid of the same. You need these to connect to the injury they need to be repairing.

K: so, what you do is you have seen the combinations. Heavy cuts, you use the CUO with CO₂ and add the emotion ZnO for the linkage, and the ratios are very clear. If you have brain injury, bone injury you will get rapid growth and rapid change. There is in the condition you want to take further which is the backbone of the Oasis system as you know up today. Today we change the course of humanity. We open the transportation equal to the transportation systems of the universal community today. We carry on tomorrow or Monday or Tuesday until the like the Magrav systems you create your first flight systems.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: Today we called it a blue print for space and if you listen you understand and you will find out how you will be detached from the material estate and how you make systems which have no matter and you start working the way those who came here to teach man about the universal community but got entangled with the beauty of the women and the wealth of the land. And they changed their habits from being the man of the universe and they became the criminals of the planet. So we have sent them back. Earth from now on will receive knowledge directly from the hand of the Creator. The time of torture is over.

K: if you want to understand how to make systems which work according to the work of the universe you have to understand the work of the universe in its true essence. In some positions you have already known and you have seen and somehow the confidence of being intelligent beings has been taken from you by those who pretended and brought the intelligence for those who wanted to abuse. To understand the work of the universe look at the universe. The picture is here and you can see it easily...open soup of plasma fields, open soup of magnetic and gravitational fields and open soup of the universe. Let's look; I tried to explain the knowledge in the way that you understand and I have explained this knowledge in several ways to 2 or 3 groups around the Keshe Foundation and around the world so that if anything happens they carry part of the message and the man could put it together themselves.

K: we were expecting collateral damage last Weds or Thurs and the man who made the decision to make the collateral damage in the house is supposed to be white and he turned out to be very black. The same woman in the position of power where I was imprisoned for 11 days in Canada had her hand in it. So unfortunately we shall see no president as a woman. The reality is that you look in the atmosphere in the universe. This is, if you look at it the universe. (41.29 minutes). I explain this in a very fine way to our team that they could understand it and a lot of you can relate to it. The universe has a center line where it shot out of another and will carry on the work (41.55 minutes). So, the earth, the sun, the center plasma of the electron or the proton, the center of the universe have the center line and this line dictates the direction of the motion of the entity. In this line somewhere there is a large concentration of high power and these high power fields in rotation bring fields in and to feed out.

K: it was this moment where these massive amount of fields that are in motion at some points of different strength will interact and the interaction of the two fields (42.59 minutes) will lead depending on the quantity, the strength and the size of the entity to creation of the universes, then

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

the creation of the galaxies, the creation of the solar systems, then the planets, then the moons, then the atomic structure, then matter state and everything else. This applies to all of it. You are man of matter state and physicality and if you want to see the work of the universe, I explained this to the team so that they could understand.

K: You know what cotton candy is? It is a fluffy candy you buy on a stick at the fair that they roll it and it becomes a sugar. This is exactly the work of the universe. The center of the sugar (44.21 minutes) and the speed of the rotation of spreading the sugar open and then the webs of the cotton candy machine spread like a spider web. It is nothing, but everything and it has no entity until you put a stick in it. Then it becomes the center point of the interaction and the creation. Then you rule it and you pad it up. If you understand this and the process of the creation of any entity of the universe where at one point the fields become strong enough to solidify to become an entity and this becomes the center, be it the universe, the galaxy or whatever else and in our teachings we call this center the wood which you put in the center space of the cotton candy machine, the principle matter. Now it dictates and builds. Go back to the knowledge of man and how you can make this cotton candy stick and bring the cotton candy to it. Now if you understand it, then it becomes very easy and you choose how big the candy becomes and by the bigness how close and where you want to be and in what color and shape.

K: if this has been hard for you I had to go through this process. I had to go through the process of the materialistic man and I have said many times to create the nano-material, the gans, the plasma, the liquid plasma and actually the liquid plasma for you now is the liquid inside the center of the cotton candy. Then I mixed everything the way I just taught you—copper oxide, zinc oxide—and everything is in one level and then you start rotating it but you could not fix it. Now we show you how from the matter state to go to the nano state to go to the gans state, to go to the liquid plasma to the fields, and now we show you how you make the fields.

K: go back on the history of the man and look at how for centuries man looked how to make a dome. One of the biggest achievements of the man was to learn how to make a dome. There are different stories of how different cultures came to build it. But an essential way if you look at it, when you wanted to make the dome you needed a scaffolding. Some made the scaffolding of the hay and made it the shape of the dome and built the dome, and then they took scaffolding away and what they had left was the dome they wanted. I tried to teach you how to make the scaffolding and now I teach you how to make the dome, your spaceship. You have to build a structure where you can support it and once you build it the structure is there without the material state. So you have done all of it; you have built the gans, the gans water, the fields, the

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

balls and you saw the emptiness of the field inside the ball. You have to add your gans water and you had your gans. (50.11 minutes).

K: The only thing you have a problem with is how to get the ball to rotate and to use the energy of it that whatever is in the ball can now exist without the rest. (49.13 minutes). And if you manage to do this you will understand something. It is you who is going to decide what this is going to be. Is it the center line, the energy independent of any entity like the universe? You want energy, motion, matter or whatever, now you have the energy of the universe in your hands. This has been your problem; energy not from what you see but energy from you what you feel and you understand the energy of. I had to play every trick in the universe to get you children of the man to understand it and all the time it was your habit to look the other way. Now I put you on the pin and you have to understand it because you have no choice. Because now we have dismissed your bosses who have abused you so you have no choice but to do it yourself. There are no leaders as in space and you cannot come to earth and say, *what is the decision now, sir?* You, sir, is now yourself as 'sir.' You have to decide as the last man standing.

K: we give you the pen, the plasma, the gans, you sprayed it, you drank it, you saw the difference and now you understand it is there and you have to understand how to make it. It is there and you don't need to contain it. You don't need to contain it! This, if you understand, you have reached the knowledge of the most advanced cultures in the universal community. As I said, when I take man to the space I will not take him as a subordinate but as an equal. To be equal you have to understand from the top. You have to understand what we tried to build, God knows, 6000 years ago; we repeated it again and we had done it some years before that. A few kept it to themselves and they abused it. Now you all learn how to control this energy and then build, make and have whatever you need from it.

K: your problem was how to create this energy; your problem was how to contain it and then when you contained it what about there is no dimension in the matter state. I said in many of my teachings, the beauty of working on this planet, even in the tapes we play at the beginning of it, why don't people even listen to this message? All the message is in that tape. We gave you the matter so you can create and control the plasma and the production of the nano and the gans and they are all interconnected and at the same time so strong that one day you will understand it. Let's build a spaceship or at least a universal system that this thing becomes your sun. It is you who decides if you make Jupiter, the Earth, Mars and/or the life and whichever material is in this universe.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: let's go back to the basics so we all start the same. We started with a simple copper wire and in that copper wire we nano coating we created the gans. In creating the gans we saw the energy of it. Now we know the energy is somewhere in there so how can we capture and tame it? then we understand the work of our own emotion and our own soul is the same as that pink bit in the center that is there without physicality and it controls your physicality so if you can make one of these (53.48 minutes) in the system and you already have one of these within the structure of your brain, soul and emotion then you can see how you decide the interaction. I want to be; I want to have water. The energy of the water will be part of it and I don't need to drink it. Where are you going to find water in the middle of deep space? Do you want to come back to earth to keep on drinking or understand that when the water enters the body of the man, I have told you many times that it become the field condition of the gans and this water now behaves as a plasma and when it goes in your stomach it transfers its energy through as a plasma. And not as water; then when it comes to its destination in the lymph adds to the positioning or water as you call it, then it becomes a bone, muscle tissue or it stays in liquid if the gaps are too far.

K: That is all you need to know and that is that in the distance the closer it is the harder it is and it is the bone. The further distance becomes muscle tissue and even further distance becomes your lymph and the liquid of the body. Now you understand that it is how you position yourself and how you absorb energy from the environment and how you don't need to carry with you. But if the body of the man needs water for the confirmation of his existence then you produce and receive energy the same as crossing the stomach and it crosses the body of the man and becomes the liquid of the body of the man. This is in all my teachings. We take 80% of our energy from our environment and because we are physical we take 20% to confirm that we exist. Now you understand the process.

K: you have to create a condition for anything you need and in the interaction with what you think which is non-dimensional because you don't have a container that your thoughts are in or your emotions are in, but they are free fields of interaction that give you strength and then you understand that you have entered the world of the universal community in the interaction, motion, communication and everything else. So the problem is how do we make the scaffolding that can give us the dome? How do we make a structure that gives us the free plasma that we know where it is and we have control of it and then we can play the game of the gods? We came down to nano-materials and the gans of the plasma.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: now, a lot of you by now should have found how to do it and somehow it did not click and work for a lot of you because you are too materialistic and you are looking for things which are not actually there and you have been told if you can't see then don't believe it, or show me so I can believe it. That is how they control you. So, I show you the magic in how to believe and what to believe in. You will see and the Keshe Foundation team will show you everything piece by piece. It was all in front of you.

K: We have the pleasure of having Dr. Klaus with us; he came all the way to bring materials to save the life of the girl he has never met (Naomi, Fabio's wife) but the life is precious to him. Thank you for coming. This is what the presidents don't understand. Their lives are worthless and they make the decisions to take lives because they think they have the power. We have taken that away from you because you are not even worth being on this planet.

K: What you need to do is now we make the scaffolding and this is part of the structure of making the scaffolding. (58.29 minutes). You get yourself a large clear plastic box. In this scaffolding you add all the gans waters you have ever created; fill it up to a limit that you will understand in the time to come. Add some of the gans at the bottom of it and the gans at the bottom is the central line of the universe so that the continuous energy is released. So work with the box with the mixture of the water. But in fact if you look at it, by leaving some gans material at the bottom you create that center line (see drawing 59.17 minutes) and energy is continuous fed. You put the liquid plasma from the waters you made on the top and let it settle. The energy is forward upcoming continuously inside. This is your, in a way your sugar and your cotton candy.

K: Now you have to collect it and make the scaffolding to be able to bring it together. In my teachings I have taught you everything and again, as children, you are too passive. When you added your gans into your systems, and we have all the gans we have collected in this place. Put your gans and let it settle and then you add the water of the gans. Now this water has become the plasma and you have seen it. You take the water and spray it on your skin and the pain is gone and the field is inside of it. Now you have the universal condition and now it is you who decides: *do you want to be a galaxy, a star or do you want to be a planet?* What and how you stick your pen in, how close you stick your pen in and how fast you turn the spin. In our teaching we showed you the spin and you all missed it. Do you remember these little cores and how we brought this in? These half coils which you made, you filled them with the gans and you made the balls of it and you did everything you wanted.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: the center of this does not need any gans if you place it in here (the center line drawing see 1.01.35 minutes) and according to the strength you absorb becomes the center. How was it contained? It is you have to start stirring and condition it so you can control it. In that process very simply more or less what you have to do is add the next ingredient...your stick. When you have the stick, now the stick is empty but in rotating if you remember the plasma balls where you had the ball and the gans water (1.02.18 minutes) you have the free energy, free plasmatic gravitational. You have a plasmatic field and you have to make two of them because we learned that when you make two part of the fields interact and part of the fields repel, so you need to create two of them. Then part of the field in the same direction and the same speed as the opposite creates both the magnetic and the gravitational. In that process now you sustain the dynamic plasma because in trying to catch up, trying to absorb and trying to give the energies of the lower order to receive the higher order, you create the turbulence, the motion.

1.03.32

K: But now you have this and you have to contain it. In containing it you decide very much going back to wherever you started, how and what you want to do. (1.03.56 minutes). You see now that this is your core for you to be able to decide for the time being, we have to give you the rings; they are another part of the ingredients in your box and they are cumbersome. As you see it is your Magrav system and if you look at it, it's the coils and they decide and now you have the fields of the plasma through it. Then you start again and this is what you are supposed to do. So now, according to what you put in or across will dictate the creation; now you carry both gravitational magnetical condition of the flow (the two coils at 90 degrees to each other) and out of nowhere you create what to you is a 'black hole' and what to me is principal matter in the centers of these cores without any material but with all the powers and energy of the universe. Now you have created structure which carries huge amounts of energy and now you have to take the scaffolding off.

K: it is very easy. Once you start the rotation, empty your container. That is all you need do—nothing else. Because once you empty it, the fields are still all together and you have the center. Then the center decides on it according to connection with your emotion what you create—a massive gravitational/magnetic field force that you control through your emotion. You do this everyday in your life: *I want to control my arm; I want to move my leg*. Where do you think this comes from? It's a remote control to the transmitter of energy. Now all you need to do if you are very clever you even take the cores away and then you have a container of energy. It's very simple. The biggest mystery of the universe is solved in one go. But the more expert you get at it, the more you know how to control it and then you see it can be added. You grow the matter,

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

you created the entities, you added with what you have and created the plasma field and you contain the plasma field on the speed that comes with its own rotation and the rest is the 'son that is free of the mother.' It still receives the energy or gives what it needs. You can keep the condition of the liquid until you get comfort in the way you did it. If you tap into what comes out or what goes in, you will have your meager electric current if you put matter to it. If you understand this process you can connect to anywhere in the universe. That is how simple it has been and our messengers got attracted to body of the woman on this planet turned everything upside down.

K: we came to see how it is and why physicality makes such a change. You can all go home; you did not deliver correctly. You stand in space when you go back. Is Renen in the background? Or Jonathan or Bernie? Douglas you have the physical system with you in the states. The beauty of this is that we have done this in different countries and no government can block this technology transfer today. Douglas you have made a system, would you like to go to the camera? Would you show us? We share the knowledge in a rapid way in the past two weeks to make sure that no government can stop us. It is done by the Americans. The technology of the Keshe Foundation has been shared with 3 nations at the highest level.

Jonathan (J): I can present the initial design we have come up with?

K: these are the basic blue prints of the space ship created for the conditions needed for space travel.

J: 1.11.38 picture—this is the initial design that we have. Renen gave me the concept of the double core set up. (Plastic gear at the top with bearings connected to a plastic shaft tube inserted into the core. The center of the core is surrounded by nano coated copper mesh. This is the initial setup. The design is to make to make two different directions.

K: go back a couple of steps to the total picture. This is a blue print you have to understand is that when you look at this diagram. What you have is your container of the plasma material. This is the way you have to look at it. The blue center with the copper around it in the drawing is the coil that is made to have dynamism around it and not a flat rotation. (1.14.45 minutes). You don't need to have any seal around the core material and there can be as many holes on all the balls, because now you have dictated it. There is no need for a vacuum and you can make as many holes as you like in it because the parameter of the ball itself has dictated the condition so you don't have to worry about sealing energy. There is no sealant in the universe.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: Whatever comes in becomes a part of what it came into. So these cores that we made before were made with a vacuum and all sorts of things. You don't need that anymore as long as you create the dimension of hold that what you mix in that environment creates its own and this tube inside the (blue) core has to be hollow so your empty space of plasma is created. The size of this tube will give you the strength of and the amount of your fields. So what you need to do as you have seen is to put the coils around it which you embed in.

K: go past the gear mesh and go to where you connect to the coils. (1.17.37 minutes) Now you see in this position you have a cavity over a cavity that was created by the size of the matter state which you convert into a plasma state. Go forward to your last pictures. You don't need the mechanism; go forward to the next step where you join the core and the coils; I don't want to see the gear box. We just want to see the core and the coils. We have a bad connection to the Philippines today; we tried it this morning.

K: do you have the 2 dimensional drawings Douglas?

D: (1.21.32 minutes) drawing

K: this is how it looks: 3 coils stacked. This is the core and inside the dynamic and these are the coils. You can take energy if you are interested and 300 to 400 Megawatts is no problem. We are looking for 3 or 4 terawatts, and that is no problem. It is you who decides which coil you use to change the power or if you are interested in electro-vibration, the crumbs, we can give you trillions of 'crumbs.' Or you can use the plasmatic condition. What you see in this next picture (1.22.54 minutes) is the preliminary design and it is more or less obsolete. But, we have to go through it to understand it. Would explain this Douglas?

D: the stand that I used to fabricate the coils, I don't like having metal in the container so you'll see in a minute a different apparatus. This stand is used as a temporary device to build the coils and align them properly and connected properly. Inside is a hollow tube that is nano-coated and it goes down inside the outer core. The 'caroline' cord is on the inside with a butterfly loop around it of a smaller ball on the inside of a ping pong ball which was quite a task. The next picture is another view of the same set up. Inside the container is what I was checking to see how much room I would have inside. (1.24.17 minutes picture) This is the final assembly and the Magravs are in there neatly and connected properly. I have placed the 'caroline' core in the center and it is free to rotate. This is a side view of the container (1.24.33 minutes) showing the stack of 3 levels. You can see it is all copper and there is no steel and it's plastic with the 'caroline' core in the center. In this view you can see the motor that drives it (1.24.47 minutes)

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

that is on top and I'm holding it stationary. It is spinning and I am eager to put gans water in it and start this up tomorrow.

K: thank you. You have to understand that we had to hold this information back as much as possible so that we do not repeat the 'accidental' accident of Fabio with other members of the Keshe Foundation. If you look at the structure it is exactly the Magrav unit with the dynamic core in the center. We told you this from the beginning: the Magrav systems will be everything that you need. If you want to see how you create power the way you like, let me go to Arman to show us the system he just finished with the copper ring in the middle.

A: (1.26.38 minutes) this is not assembled yet but you can see the stack of the coils.

K: the core is in the center.

A: you have a copper coil in the center that is not nano-coated and then two nano-coated copper coils on either side... one on top and one on the bottom. This stacker is not connected yet. Then in the middle we will put this core (1.27.11 minutes) which is a copper sphere with outgoing tubes.

K: if you look he has nano-coated wires on top of both coils so they can mix. The problem with this is that it still has a motor. Would you show us the un-motor man exactly the way it is in space? We don't see motors and engines on the end of each planet. Arman is in the phase of replication of the process of the universe—rotation without any motors. Would you show us what you have that will be ready by tomorrow?

A: all you have to do is to connect your coils in the middle. The copper core goes in the middle. (1.28.31 minutes).

K: in this set up there is no motor to start and there is no ignition. He uses the capacitors and the unit because everything in it is in plasma condition and it immerses in the liquid plasma and he creates his own dimension. With this, if you understand, you can produce megawatts of energy because the speed of rotation and the liquid gans that you put in, with changing the middle coil is changed to the matter state and the release of the plasma from the inside dictates what you want, megawatts, gig watts, or kilowatts. The energy production is unlimited and the source is the free condition plasma rotation and the energy crisis that was to exploit man to be the slave and to control man's food and energy is finished. You can produce this anywhere in the universe.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: If something happens and it fails you have to be able to restart. You can do what you like if you have the condition on either side, you can create any kind of food, metal, energy, or positioning. You increase one and you become magnetical; you increase the other and you become gravitational. (1.30.15 minutes for picture). You position this in the star formation and then you decide the span of your space system. This way we tap in to the universal energy without any matter state.

K: The progress was to bring you to this point and bring this situation under control. If our friends who are in the disaster zone understand this, it makes it absolutely possible in the next few weeks for us to support and to transport the technology and the knowledge and you need place a very few of these like satellites around disaster zones. You can feed people with it, they receive energy from it. You don't need to make bottles to give each individual to drink. Everybody has access to everything from antibiotics to steaks and chips because the emotion of the man will carry it. These systems in collaboration in the right way will make shielding barriers that no one can penetrate. Those of you who are in governmental level and are present *good morning to you; you understand what we are talking about.*

K: this means that we can disarm any man through psychological approach to bring him to the balance because that is what he needs. The war planned for Iran will bring doom to the hands that set it up in Tel Aviv and in Washington. We protect the nations through the technology and not by destruction. Please understand fully that you have every knowledge now to create whatever you need. You were given the gans to drink and now you have the mother of the gans, the plasma free condition. The intention is the recipient. In so many ways thank you very much; we have made one planet, one nation and one race of man. But you have to understand very simply that it is you now who decides how to develop this technology into the next step of the space motion. The Magrav systems in totality in conjunction with the cores (coils) are the tools for you to produce the free plasma condition of the center. And, if you put a little you get an atom and if you put more you get the structure interaction with the planets and if you absorb inside, concentrated more, you will get galaxy conditions. If you want to do more you can go to the universal condition.

K: what you have to understand is what you have to do is this: you have to understand that in the structure of the inner core what you are doing. You have the core; it is your ping pong ball and you had another core inside and outside of both are all the liquids. (1.34.37 minutes) In rotating the outer core at a given speed you create a plasma condition between the two cores that covers the inner core. But, now this is the 'caroline' core and with the spinning of the 'caroline' core,

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

now you create another plasma inside. (1.35.04 minutes). Don't forget this inner core still has nano-coated wires on it. And the outer core still has nano-coated wires on it. Now you have this frame, the coil around the two inner cores (1.35.43 minutes). The speed of the rotation of the outer core inside the coil will compact the inner core. The strength of the position of the black outer coil will compact the energy of the outer core. (1.36.13 minutes). So, you can see that by stirring of the outer core environment you strengthen the fields of the environment of the inner core. You can go from hydrogen to plutonium instantly.

K: if you go in a different strength in a different direction you create the gravitational magnetic fields of the moon or the magnetical field of the moon. It is attraction and repelling. When I showed the basic understanding of this to the guys from the American space agency in the small presentation they understand. Maybe you will understand in a very simple way too. Now what we showed will make sense to you. Those who are intelligent understood it very rapidly. Those who do not, they blamed it because of their own lack of understanding. I show it to you and now you understand what it means. I come very close and you will understand. I don't use any energy; I just join the matter state (two magnets). (1.37.48 minutes) How fast do you want to travel with no fuel? You join the line of field forces and in this process you find out very soon that you change the gravitational magnetic field inside the core by rotating it in different strengths and organizing it to go to the speed you want.

K: at the moment for those scientific organization who worked and understood it, they are protecting islands and space and they are traveling in a different dimension that most of you cannot even imagine. I thank the Iranian space agency and the people who use it for protecting those who were getting abused. If we deliver this technology in the center of Washington there shall be no communication between the Pentagon and the soldiers and they cannot create any more crimes. Maybe that is what we have to do. If we stop and deliver the fields at the strength so that every man on the territory of Iran who wishes for 1000 kilogram of gold, we can transfer all of it to London so that the Queen of England will not create more wars. But, one thing you have to remember, as much as we cannot touch the matter state, we can transfer the soul of these out of the dimensions of this planet so that there shall be no rulers. Start producing these systems very rapidly as much as you can. You have all the tools, you have all the means and you have seen very simple people in the states and in the Philippines and now China and the others are ready to create equality in science and knowledge.

K: I have been told that I am releasing too much information into the hands of the public and they don't understand what to do with it. My answer is the opposite. I give enough to the public

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

so that those who are afraid to have their hands opened up and are afraid that their souls might speak the language of the man, we know what mischief these people have been up to. If you understood you can create the gravitational magnetic field of an atom, a star, stainless steel and you can create the strength of the soul of the president of the US which has committed so much murder in such a short time in a Black Office. The soul shall speak and the fear of the world leaders will not be them speaking but their souls revealing the truth.

K: Very easily as I said in my talk, the Snowden (?) affair will be the affair of the soul of the Snowden. There will be such a snowball that no leader can stand. Start creating very simply with peace and run your reactors. As long as you are sincere and you create the emotion and the strength of peace you shall see no color and when you see the color it means that you are lying to yourself. Take the systems to world leaders and tell them one thing: *tell us you want peace and we will listen to you and we see your soul. Then you will hear the voice of the man through his soul.*

K: we said we would enter the political arena in July. We are here to enter not in one government but in all the governments of the world. the mayhem, hunger and abuse has come to a point that now the only option left to make it more that somewhere it becomes so bad that we will literally see man is slaughtering man for a piece of bread as they did in one of the richest nations in the world like Syria. Now maybe Europe and the States will have a taste of what they have done to the others. And do we stand to help those who have damaged the soul or do we go through the process of the Universal Council operation which means that we give them the souls of those who have committed the crimes against other souls and we give them the shoe of the dead man. It is very hard if you have to be there. The prison in the universe is not boxed and closed. The seal of the jail of the universe is being subordinate to the soul of the man you have damaged. You become the slave of your own act.

K: Remember one thing: when you drop a drop of the gans water of copper in a bucket of water every plasma gans of the water will carry the information. So, there will be less but equal. Now imagine how many men you have murdered or profited by murdering and now your soul has to divide to be imprisoned in thousands of souls. How much torture do you want to accept? Now you understand how we have punished you by your own acts and deeds and not by us. Now you create the same condition in your reactors. Mix as many gans as you can; do not be afraid. The more gans you mix in the bottle or the bucket the more variety and strength you have. But there is one point—a very strange point. As you have managed to create the condition of the soul of yourself and you can communicate to understand the strength of the soul of any other man and

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

because it is made of gravitational magnetic field, if your wish is to meet the Christ, bless his name in the soul, he will tell you the truth he wrote in the bible. And then I wonder if there is room for the Vatican? When the man speaks himself, he does not need any messengers.

K: in the coming time now that you have the freedom then start emphasizing the freedom of the universe. We have given you the key to the universal interaction and very soon those of you who have the wrong intention will find out that you mixed the wrong plasma in the container of your emotions and not in the container of your craft. Those who planned murders to gain physicality, you all have very limited time. All of you have the knowledge and you can change the condition of the animal-ness of this planet to the true peace with a piece of copper if you understood. Then you can feed nations through their souls and you can join the universal community through the line of the peace of this planet. And those who came here caused so much mayhem and stopped doing their jobs right. They are already on their way back. A number of governments with access to these lines of communication will tell you that everytime information was given for advancement, they used it for murder.

K: There are no leading nations according to the population which has not been or is not in touch or has a line of communication with the universal community. But, every time we feed information we get the wrong result. Now it is for man to change the course. Build as many of these systems and as much gans as you like and create the flow of the non-motorized system like the earth in the cosmos. Armen will show it to you and others will bring it to you. If you go a step further in putting the gans water in the tank through your emotion you shall create the condition of the rotation anywhere in that container that you like so you go a step further. If you do not reach that point at least you cause an intermediary system. You create the condition. Remember the very simple part of my teachings, I always explained this and being passive you did not understand.

K: maybe some of you will understand more if you go back to the teaching especially in the private teachings where I asked to students to create one thing or another. But if you have no free plasma liquid in this box (1.48.34 minutes) and you know you can create in the later stage through the interaction of your understanding motion and control of the others, and then start looking into these boxes. You put the amino acids inside and you concentrate and give the field of where you want to put your stick of 'cotton candy.' You decide and you start. You will see beginning some motion and then you will see the rotation. Empty the bottle and the field will still be there because you have created it. You can move it in one by one, and you can move it out one by one. You can create this and make this a pool of the fields. Create your fields, your

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

star and your planet and move it outside because now you are in control and in charge. Make another one. This is how you make the 4 star formation for deep space travel.

K: some of you will bridge this in a very short time. Some of you will take hundreds of years to understand this. We have thought enough. Most of you can; this is how you make and how planets have been out of the fields of the universe. We don't bring a planet or a galaxy; we make a planet or a galaxy. We don't bring the star or the universe; we bring the fields and according to the interaction of the fields the entity takes hold. So, if you are the master of your art and if you start learning what it is and how it should be, all the teachings of the past two years will come to the final point, when by your emotion you dictate the size. *I want the field to be the field of gold.* It is very easy; I will do this for you and then you understand how feeble these people are. You put your hand in the water and wish cold and you come out with the cold hand. You decide the amount. You decide your intention and position and the system confirms your existence and ability and you can take whatever you like from it.

K: it is very hard but generally easy. It needs the truth and the balance between the blood and the neuro connection of the man and his intention, true intention. You put your hand in there and your intention is the food to feed the nation and the nation's food will be in the power of your hand and with your wish will feed the nation. This is how you are going to create matter state. *I want to build a structure where I can live on this planet.* You wish and you create the condition of the plasma and all this water, gans and matter is in the way to start giving you the self confidence that you can tap into the universal energy and make whatever you like. It is the interim step. Some of you will become masters of it. Some of you won't understand it and will become slaves to it.

K: the process is extremely easy and you have done all of it. In two years I have taken you from post to post and I made sure as much knowledge was given in different forms and you will see the effect of it. We have how you want to see the field of it. There is a small video that was part of yesterday's agricultural teaching. It has been sent for us for you to see. The purpose of this, you might look in the matter state of it. But, it shows the effect of the fields on the matter according to the wish and understanding of the condition. This is a presentation from Australia. (1.53.35 minutes).

Is John there in the background to speak it through?

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: you see in the next few minutes how we can even effect the vegetation instantly in such a short time. It is another condition of life. Then you can imagine how fast you can do this.

John (J):

Food shelf Life with Plasma Water

Compare the shelf life of Micro radish grown in water and plasma water.

- *We soaked the new batch of radish seed in plain water and soaked the batch of seeds in CO₂ and CH₃ plasma water for 24 hours.*
- *Both were seeded into plain coco fiber and left to germinate.*
- *During the next 7 days each batch was watered respectively with the plain water and the plasma water.*
- *Both batches were harvested on the same day and packaged.*
(Pictures of the plants at 1.55.52 minutes).

J: we cut them at the 2 leaf stage. As you can see the one on the bottom left is the plasma seed and the one the right was plain water. At this stage they were exactly the same and we saw no difference. What we noticed was a difference in the root structure. The radish watered with plain water had a weaker root structure compared to the plasma water radish. Once we had cut and washed the radish and we planted them. I took photographs of several days.

K: let me stop you and ask you the question I asked you yesterday. When normally you cut this radish in the normal situation, and you have farmed for 3 years with this, what is the shelf life of the product?

J: generally with the trials we have done, we put a label that says ‘fourteen day.’ Our own trials gave us a shelf life of 15 days. It’s a shelf life of 10 days in the retail stores. This is the way we have done this for 3 years.

You see the pictures after 9 and then 14 days and there was very little change. Then we have a picture of 20 days and we saw very little change. The bottom picture is day 28 and again we had not seen a change in the radish.

Then I have a pictured of day 41 and we see a bit of yellowing of some of the leaves on both the water and the plasma side. At this stage there was a slight odor coming from the water only radish and not the plasma. In the bottom picture you see more yellowing. As I have said we have been growing this for 3 years and we have seen very little last after 15 days. At that time we see a lot of rot setting in and we end up with a lot of liquid at the bottom. If

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

you open these containers there is a horrendous smell that fills the room very quickly. The smell is given off when the plant cells break down and it's a sulfur 'rotten egg' smell. On day 41 we smelled a slight odor and it was more of a vegetation odor. It wasn't the funny stinky smell from before. We had seen the yellowing on the leaves. On the first day we weighed the containers and both weight 47 grams with the radish. On day 41 I weighed them again and they were still 41 grams so we lost very little over this time. We kept them in the refrigerator at 4 degrees Celsius.

J: what we got from this was that the shelf life or refrigerator life of your food can be extended way beyond its normal time by using the plasma water to grow the food in. The big question I had was why the radish watered with the plain water lasted as long as the plasma water. What we realized then was they had been sitting next to each other when we soaked the seeds in the water, we put a container of water next to the plasma water container and they sat there for 24 hours. We put them together on the tables to grow and the containers were next to each other for 47 days in the refrigerator. So the fields from the plasma radish were interacting with the water only radish. Essentially it is the stronger fields feeding the weaker fields and the plain water radish lasted just as long.

J: Implication we found was could we place CO₂, ZnO, amino acid plasma water in our fridges at home to extend the life of the fresh produce we buy from the store? Can we place the plasma water in the store shelves to extend the life of produce in the store?

K: thank you very much for the presentation. This has far more implication than you can think but is in line with what we thought. You have seen the vegetation which has not even come in touch with the water receives the field of the water. You do not need to be in the field to have the beneficial effects of the field. This is the transmutation of energy through the gans and for the first time can clearly be seen. The more you see the more you understand that the fields do not need the matter state. It receives what it needs to be equal to the others and this will apply to the man and the universal community from now on. We have the two next to each other according to the wish of the Creator; man shall elevate the standing of the Universal Community.

K: The time of transition will be very hard; there will be those that want to stop the process for their own physical misconduct not to be shown. My condolences because you are too late. You took the life of a young man; we take your kingship. And we have taken your kingship.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

You took the position to stop the process last Thursday and you gave us more (information) to see your weaknesses. Now we explain it very easily. Your time is over. The bell rang on the 12th and today is the 14th. Please, if you are true men of peace and you have been asking for equality and peace on this planet, I cannot teach any more until you reach the understanding of this universe and then we shall meet again. We bring you into the Universal community and that means another education.

K: What you have and what I have told you and what you will learn and you will add is enough to bring you out and to be equal and for you to be able to develop this in a very rapid way so that we can change the course of the war mongering on this planet. And, it is well known by those who show their two fingers that I have always been successful in bringing the fingers together. I always delivered where I appear and I know exactly how to deliver. In so many ways man has no choice. Our wish is for peace and we will go to the end to achieve it. We expect the apology from those who planned the murder of Fabio. And we will not do it by words but will bring it to their souls. We expect the same for those who are planning revolutions and evolutions around this planet. We deliver so much that you have no room to just submit your physicality to the eventuality of the imprisonment of the souls you murdered.

K: If any of you as world leaders decide to commit suicide and not be seen in the truth of your soul, don't forget the physicality does not count. We have access to your soul. You committed many crimes and now we have opened the hand of the universe. Those who came here to teach you and got interacted and battled by their what I call the losses of life on this planet, they in turn have to return to be positioned in where they have to be to understand that will not repeat itself anywhere across the universe. Taking of the physical life is as bad as taking the soul of the man. You know how to handle it, you have in a way, you have seen the lettuce and you have seen the radish, one bucket is your system and one bucket which has never received the energy is the man who is hungry, has a broken leg, you bring it to his wishes to be comforted in the condition of his existence and that is what your job shall be.

K: Maybe we have enough time to change before it is too far and too late but on the other hand we have no choice. You have messed up your planet too far and too long and those who came to give a hand stood as bystanders and that was not supposed to be when they were here to transfer. They became embedded in the societies that started the wrong doing and they started abusing. As I said there will be no one who shall be called the Jew as we finish with Moses and demote his station as a prophet to an ordinary man as he has not delivered

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

what he was supposed to. There shall be no prophet called Moses. He has committed nothing but murder and his followers still carry on the same. So there shall be no Jews. With it came the price and the same structure of Mohammed. So we finish with the religions as if you know the knowledge of the universe. You are the man of religion yourself you need no guidance but the correct conduct of your emotion and your soul and the rest is history.

K: if you don't understand this now that we open the door of the universe to you, every 'Tom, Dick and Harry' of space become prophets because they see the weaknesses inside. You have the knowledge that you received to be able to be the creator of what you wanted and what you want and what you have as long as it is in equal terms and conditions and it is for the benefit for the totality and not the individuality. So the question is very simple. As we have finished and I warned before with the mess that has come with the others who used the name of the religions and the path of belief to receive and abuse the others, now we finish with the kingship who was there to say that one is higher than the other and it has to come to an end. In trying to keep the position of the higher they have brought the abuses in the name of the religion next to them to give themselves credibility and some have mixed it together to be as strong as they wanted to be.

K: we see this mixture in the structure in the UK where the king and the faith have gone together to create more murders than anybody else. We are finished with this island. As they said there was an unsinkable ship (titanic) we have sunk the ship. It is very simple—why should one be higher than the other and why should than one soul be higher than the other in the physical strength when at the soul level they are equal? There shall be no king and there shall be no presidents. When you are in deep space who is your president from earth except you? Understand the word of the ambassador. The ambassador speaks to the diplomat and tells you one thing: *I am the representative of my king, my president and I speak in his word and in his place.* That is what the ambassador is and now that we have opened the universe to you and you are all ambassadors or this planet. You speak the soul of this planet and you speak the word of humanity. That is why you are one nation, one planet and one race.

K: it is very simple—you did not understand and now we force you to understand that shall be no king. There shall be no leaders because in leadership and positioning the leadership we have to force conditions that abuse. In this case we need no world leaders. It takes times to change the course, but this time will be very, very short. I hope man will not take revenge by what they have done wrong to him by those who have done wrong to him. Do not burn

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

the cities. The biggest sorrow for me for years has been when evolution and revolution come; people destroy what are their own national assets to show their anger. It is you who loses. It is the building which you built by your sweat of your ancestors. There are some buildings that have to be brought to the ground that man who forget about the wrong things that happened in that space because on the other hand you can create the conditions in a way to place it in the center of these buildings no man will see the building without destroying it that does not bring the emotion and the losses in that building. This is the Buckingham Palace, the White House and the rest of it.

K: The only places which have to be flattened in a way have to be brought back to the position because they abused many souls of those who sat at the center of the abuses of man of the world villages. They have been nothing but the shame on the face of the universal community and what we gave the message to come for the improvement and the development of the man became the point of the abuse of the man. They were murderers and everything else they could put out. We don't open that book because in so many ways our messengers got themselves entangled in the physicality of their lives. My job is done; I have accomplished and delivered.

K: now it is your turn as one race to deliver the peace to this planet. Build as many systems as you can and do not go for revenge but go to elevate that they cannot sustain the elevation. Then in that way their energy and their souls become part of the universal soup and non-existent. In a way the demise of a soul comes when it cannot find the place to call home and in spreading to find home it becomes lost in the soup of the universal. It is annihilation in the essence of the fields of the universe. Any questions?

Y: I am not sure and I was a bit confused about which device we will build. Will it be the two balls, one inside the other, or the one with the moving parts?

K: the balls are irrelevant. They can both move but the position is that you can concentrate the fields of the free plasma you have created. I have given this example a few times. You want to test it because you understand it and it gives you confidence and you know what you have. What you have to do is this: get yourself a mixer. Nano coat it or use a copper wire nano coat. You will see a strange effect and teach yourself this story—if you put this nano coated copper on a mixing machine you will see a very strange effect. Bernie are you there in the background? Explain to us what happened when you do this. Explain to us the nano coated wire in the gans plasma.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

Bernie (B): Yes, when I spin the nano –coated copper at a certain speed it bends 90 degrees. I think it is around 500 rpm.

K: so what happened is that this butterfly wire instead of horizontal becomes vertical. (2.20.32 minutes)

B: the whole stand shifted to the side. But it is like the drawing and it is 90 degrees and that is unusual for that to happen.

K: don't forget the material is nano-coated. It is in the gans water, so the field forces because it is together and creates a new condition. This is exactly what you did with the coils. If you remember the coils which were built for medical application sit at 90 degrees inside each other. It is the point of the transformation of the plasma speed. It is the only way I could teach you this. What you need now is to create the space for the change and what you do in you coils, at this point, you create space for it so it can interact on its own. And you will see you still have the butterfly to stir the fields inside (2.22 minutes) but you keep on concentrating the energy inside. This still rotates, but it is the fields twisting. It is very much like the change of the planets. The field forces change position and now you have a place to confine your field forces and this is the energy field which you need. (2.22.32 minutes).

K: If you still place this in another ball with the same condition in the liquid plasma, then have as many holes as you like in your ball. You don't need to be air tight, not even here. (2.22.49 minutes). You gave it a frame. You are within the structure so what you can do is now the liquid plasma is continually feeding the two fields and what you will receive is very simple. In a way if you look at it, you make as many holes as possible in your ping pong ball. If you nano coated this ball before you put it there it does not matter how many holes you created. The fields will create the same condition. You can always take the ball away. This is your center ball and you can create a bigger ball and then you have two fields. Understand where this comes from and don't accept it just because we said so.

K: you remember you had the CO₂, the CuO₂, the CH₃, and you put these gans of liquid plasma in the container and you got all three properties of it in every part of it because they got loaded on one plasma where this is one, another and another all on the back of the same fields. (2.24.33 minutes). Now you have the same position with the mixer and with adding and stirring it you add to each of those properties where they are loaded on the plasma. And you add to this and you increase the power of the plasma. This is how in the universe we

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

make the start of neutrons. It is by the speed of the rotation. This is why the earth in comparison to the sun even if it looks smaller moves faster and the electrons around protons create its field absorption. There is nothing new.

J: so we are actually creating a plasma right?

K: 3 plasmas. That was the whole teaching. You missed it. Wake up!

J: I know it is the teaching and I need to understand how to use this free plasma. For example do I have to have 3 of those to produce lift? Would I need 4 plasmas?

K: you can still do it with one; just change your ping pong ball to a chair. And put the energy underneath it. You can still create it. What you saw with Armin on the metal side you can create a matter state frequency on what you call the hertz. If you understood why we put a metal piece in the core, in a very simple way and part of the teaching in the past, we thought that whenever to wanted to change the energy from direct to alternative all you need to is to scratch the nano-coating and in the matter state the field has to find the passage through the gaps in the Magrav spacing of the copper and this creates isolation. In a way it tries to get through the hole and it vibrates until it is empty. This is exactly how you get spasms in an epileptic attack. There is no difference in an epileptic attack and what you call the hertz in the matter state as the energy transfer.

K: a lot of you who have been working around this technology, now you have the freedom and my only wish is before you get involved in making energy and feeding yourself first of all use this new knowledge to bring peace to mankind as fast as possible. Then you will find that you have already fed your soul. Use those of you who have been looking for world peace and talking about peace, peace comes when the emotion is in satisfaction and balance with its physicality. The man who is a king and orders a murder is still a father and loves his child. They both exist. If you satisfy and show him *would you like to murder your own child?* He will understand the pain of it. He will understand in elevating the level of his soul that it will not happen.

K: Many times in my talks I have said to look at the picture of the President of the United States, Barack Obama. Watch him for the term of his presidency and until the day he had to sit and order the murder or other man, whatever name they put on the man, the woman and the child. He took his soul and a soul was given and the face of the man changed and it aged rapidly. When you know you cannot take why do you go and take? Then your physicality pays for your emotion. You have to understand that you have two choices: do what I did and send them back to their own virtual prison of themselves. Or elevate them that they

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

cannot stand the elevation and they become part of the universal soup. And the best thing with the human race is both, but in the sequence of one to another. Don't be so busy with having your free energy, free flight system; be so busy that if you manage to bring peace, this technology the way it has been taught this morning you have already flown for millions of years in the span of the universe and now you increase the level of the soul of the planet that it becomes part of and equal strength of the universal community.

K: my purpose is not to take you into the universal community as individuals. The job is to take the humanity, the planet as a whole and as one entity and it means that you all have to work to bring everything in balance the way you want it as peace so that elevation of the soul of the planet is achieved. Look at the pictures on one planet, one nation. It is the planet that the man carries in his hand in respect to the universal community and not the man himself. This is what we explained and a lot of you have missed it. If you are busy over the power generator and the free energy unit and needing a pen for the pain, now you have everything you want; it is the magic box of the universe and it opened. (2.31.46 minutes). That is it; from now to the point of understanding other universes and their operation we have given you enough knowledge. It is you who have to test it, unravel it, walk it and deliver it.

K: my advice to all of you, anyone who listens, if you have been claiming *we want peace* and there is no peace on this planet in any shape or form, build the system and your first intention is not for free energy or the lift, but peace on this planet. You have to elevate the soul of the planet before you all receive what you desire. And this is what is important; a lot of you even from the first question you asked were *how do we create the lift?* There wasn't a question on *how do we achieve peace*. Man is still too materialistic. And this is your problem because you always want to have it and when you were given it, you fought so long to have it that you forgot the rules of humanity.

Dr. A.:

K: let me explain, Dr. A. is from the United States and is a dentist and is on our medical calls.

Dr. A: I have two questions: one is that you said Moses slaughtered a lot of people and then you are from the line of Moses. Does it mean that you can correct it?

K: too late.

Dr. A: so you come from Moses' bloodline, so what does this mean?

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: I can only elevate his soul that he will find his own punishment or dimension.

Dr. A: the second question is, if I was born for a purpose and you are born and you found and fulfilled your purpose how do I find why I am here? How can I find that?

K: you don't look at the point of *why am I here?* The question is *how can I serve others?* That is why you are here.

Dr. A: how can I find my purpose?

K: your purpose is to serve. Look at the bottom line. The first line of the Keshe website states *we are her to serve and not to be served.* Then you understand. We are here to give and to elevate the others on the condition of the state of our own being in every direction, shape and form. If you understand that you have matured in the level of humanity.

Dr. A: thank you.

K: people like Dr. A. understand this if they went through the troubles of the revolution in Iran. They understand every essence and need of the pain. And, pain and suffering brings a lot of wisdom and the wisdom brings a lot of wealth of knowledge of understanding others.

Q: message from Clint who sent the space ship reactor 4 picture. It is the same as the double core we saw earlier and it is one blue print structure. (2.36.30 minutes).

K: yes this is the final version, more or less. You have to realize there are two coils in this structure and these two are non-nano-coated coils. You need a point of copper because the physical body of the man is heavily connected to the copper so you have a base point and you have a system in the earth condition. If you go to this level you need to find a minimum level and then the comparison and its potential difference in the plasma and the rest in the higher order of the matter. So, you see copper coils that are not nano-coated. In a matter state you can spray the gans of the amino acid only and nothing else on these copper coils for your space travel because then you have physicality and a connection with the amino acid. So when the fields you create for dimensions of your craft have a minimum base which is the amino acid it means the life of the man in space will not be changed. That is the minimum we can bring the system to. This is how you guarantee your space craft in deepest space where the minimum is the existence of the man. And as you see, these are liquid plasmas which are there to create gravitational and magnetical and here this power supply is your plasmatic field used like capacitors. In Armin's version this does not exist any more (machinery) because you will achieve free rotation.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: in a way the ball will hang between the coils and the coils will hold the ball up. If you put a single non-nano coated you will lock it into the matter state. If you understand how to tap into the plasma, compared in a way the potential difference between the matter state and the gans state on the two rings above, and in so many ways the transfer of the fields from the center to any two that you can compare, you will find what you call the flow of the current of the plasma power unit in hundreds of megawatts from a small system like this is very, very easy. If you want to decontaminate an environment or feed people like the disaster today in the floods in China, you don't need to do anything but position a number of these reactors in the configuration they are. In the center of these you create amino acid strength with the calcium, potassium. If there is an outbreak of certain diseases you make a replication of the disease and you add to it and there are no diseases. You do the same for viruses. You want to feed people with oranges the you provide the energy of the orange in this field (2.41.12 minutes) and the man standing here, if he likes the orange juice and his wish is the orange juice he locks on to the orange juice.

K: it is very simple. Now I told you a few weeks ago that field plasma technology is more or less what the man can understand. If you understand then in the future you can interact these fields together, then you will see the beauty of the creator. You opened dimensions and doors into the universal community that you shall all see. But I have very bad news for you, extremely bad news for you. In so many ways all of you because of this condition where everything is kept in the plasma dimension you can see the history of mankind for the past 6000 to 10000 years and who did right and who did wrong and all the falsehood of the history books will come up in no time. Because we can go to the universal archive of the information which has been kept. There is no need to say who did wrong and what was wrong. One of my prime jobs is and will be in the coming days to bring the presence of the soul of the Christ to finish one of the biggest murder machines called the Vatican to an end. This is where the peace shall come. When Christ, blessed his name, shall have you bring his soul presence the servant cannot speak of his abuse. Then we start the peace process.

K: if the wish of those of you who are a man of peace wish the presence and the instruction and the truth about, blessed his name, Christ, he shall be present. And then you will tell the truth. Don't forget the core team of the Keshe Foundation has delivered in elevating the physicality of the soul of the physical part of these messengers from God in the past two weeks. They are ready to deliver. Then you understand how stupid all these wars have been and you realize how the Christians have been abused and played by the Jews in the background. And then the rest is history. How can a man who served humanity cause so much death by his servants? Let the Christ speak and we shall the Vatican Christ.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: And then as I said before, go back to my first few teachings. I made you one promise: I will return the stones of Vatican back to where they came from in the center of the room. Where did they come from Giovanni? The stones of the Vatican came from the Coliseum. This is what I promised. You people will take every stone of the Vatican and rebuild the Coliseum because the loss of physicality is much better than the loss of the soul. The abuse of the physical life in the Coliseum has different dimension than those who claim to be the protector of the soul that creates the physicality. So we shall see the end of religions because now you have access to hear from the Creator of the religion and not the servants who abused it. Then, my advice to you is one thing: let the soul of the abusers fit in what we said before.

K: You understand in these coils in front of you if you can create the position of the gravitational magnetic field of the planet and the condition of the magnetic field of a metal, motion or energy then you can create the gravitational magnetic field of the soul which is somewhere just above the gravitational magnetic field of the amino acid of the man plus zinc. I hope you understand. The mixtures you have to create to be able to reach the levels above the soul is zinc plus. Let me explain to you so you will understand very quickly. (2.47.00 minutes)

K: thank you for these; they go as the blue print that you can all use. CONH (amino acid) plus Fe (iron) gives you hemoglobin and in conjunction with Cu (copper) gives you the physicality. The Amino Acid (CONH) with Fe plus Zn (Zinc) gives you the emotion and the brain.

CONH with Fe plus Cu = 52-60 'energy' of physicality

CONH with Fe plus Zn = 64-63 'energy' of emotion

You can see the energy difference between physicality and emotion is very close. And this is what you never understood. It has puzzled me many times, even our doctors. Don't forget in this part of the CONH plus Fe plus Cu (physicality) all your immune system, all your structure; even your brain has the common denominator of Ca (Calcium) for its structure. The brain has no bone but without it there are no brain cells without the calcium of the skull of the man. The 'meat' of the brain has no structure without the calcium in it. The immune system, the T-cells and more, don't exist if there is no calcium. So you have a backbone.

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

K: With the state of the soul you don't need the calcium. But look at the difference in the energy of the soul and energy of the physicality (52-60 and 64-63). Where do you think the strength of the soul of the man will be? If you manage to create this to change your pain in your body (CONH +Fe+Cu) and if you managed to add this (CONH +Fe+Zn) to your coils and you have seen the change of the emotion my dear friends the soul of the man is now rich in the state of the elements of the universe. It is so simple and if you understand this you can create this and call upon the soul of the Christ and he will tell you what the Vatican is built of—the blood of the man. Let him (the Christ) deliver (the message), not the messengers to color (the message) the way they like.

K: you understand how easy you have gone from physicality into emotion and now you find the mixture which brings the soul into it. And it is in the structure of part of the elements that you have already made the gans of. Don't forget there is a trick in the game. The muscle tissue has emotion as the brain has.

Cu plus Zn plus Soul (2.51.17 minutes)

K: Now if you understand this not only will you see the Soul of the Christ but you have him virtually with you. Then you will know if he was truly brown eyed or blue eyed. Was he blond or black? So in the system in that core in the center you create the energy of the fields of the soul of the man. And then if your intention is true you will understand that there shall be no light but you shall see through and you will see the soul. There is only light behind that curtain as long as there is interaction difference between the high level of the strength of the fields of the sun and the low levels of the earth in gravitational magnetic. If you create the right field in the right order and when it is all equal there is no light. You see a darkness and you see a very transparent 'no color' darkness and you see your soul. And then when the wish is different the light will dictate to you that *if my wish is peace and it is in my soul and it is the condition I want* and you put this in front of a President and say he says *mine too*, yours is so strong and that of the President is devious and it is of lower strength it will shine like nothing.

K: And those of you who are pure in heart and have the same understanding and intention of the soul as blessed is his name Mohammed or Christ, and we count Moses totally out as he has been demoted to (the level of) the man and shall not be called a prophet. Then you shall see. Then you shall understand why we have come to this point to deliver. The man has gone too far to stop this mayhem they have created. Then if you can create and understand the strength of the level of the elements which give you the strength of the fields of the soul of the man of peace

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

load up your reactors and let them run anywhere on this planet. You learned about the radishes next to each other and how they grew the same and why the radishes before used to last ten days. Once one of the human race reaches the state of the soul of the peace, it will go around the world like a hot wire.

K: now those of you who have been crying *I am peaceful; I want peace* build your system. Those of you who don't do it is (because of) the fear of yourselves and your hands will be opened and (show) your true intentions. (2.54.46 minutes) We do not start a witch hunt; but we start the state of the truth of mankind because this is enough. As I have said in my time there shall not be any murders. I will not kill souls but I allow the souls to release their feeble strength into the level to raise the level of the souls they have done wrong to. If the world leaders knew what we thought today, we shall see mass funerals as I promised on Tuesday. But, the world leaders I have bad news for you—physicality doesn't count. We thank no nation and we thank no leaders as all have done some wrong to be in the position they are and those who have done wrong to keep to the material state soon will take the march in confessing their own things and trying to put it right.

K: We will see unions break up. We will see a lot of things opening up that it brings peace to man. I have done my job and I warned you a few weeks ago that I would stop teaching. I have taught you everything. I guide you to bring peace and I will bring you the message in one language. The universal community has an open door for mankind when the mankind dares to open the door to join in. It is not us who have locked you out; it is you, by what you have done wrong to yourselves, have locked yourselves in. We knocked on the door of the human race many times. And those who opened the door in small gaps took the gift and abused what was inside. We ended up with the Rothschilds family that abused the knowledge that we gave them with the 'benefit' of more or less torturing humanity. There shall be no Rothschilds as we are finished with Judaism too.

K: build your reactors on the intention of the peace and start understanding how to create the field strength of the soul of the man and then you will reach the man itself. You elevate the soul of the man and in elevating himself and knowing he doesn't deserve to be elevated for what he has done wrong, kings shall fall, leaders will not be there, and the corridors of finance and power become nonexistent. And that was my job and that is why I accepted this mission when I accepted it and it was so bad that I had to come in person myself to do the job as the messengers messed it up more and more. So, we have two choices as the human race today—go to the next step to create peace or go to the next step and I annihilate the totality of the energy and you have

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

to wait in this village of the earth for thousands of years cutting each others' throats, eating each others' flesh, killing each other for a few pennies. Outside, as I have said before, two meters above this earth no money or no gold has any value.

K: In the universe we have no money. We exchange and give from our souls to elevate the others because then we can reach for whatever we need. Is the man mature enough to join us or do we have to bring so much that the man does not understand where he comes from? Those who abused shall talk of their own abuse; those who served will shine like a star in the human race across the universe. I have done my job and it is for you to find that circle beyond the zinc and once you find that and understand that, then you decide to see the true man. You will all find out that your physicality is irrelevant because what you have got, you can create as much as you like. It is you who decides what will be at the end of it. You have the potential to do so. We still live among men like the man not to stand out but we see the soul of the man through our own strength. I said and I repeat those who have committed murders shall respond (? 3.00.54 minutes). If it needs be we shall bring their souls.

K: I tell you one thing which is impossibility: accidents the day before the revelation and the same position of the address or junction of my house is impossibility. If it was a kilometer up or two kilometers down, yes. Look at the accident point; then you will understand that the target was to warn. We received the warning but in a way we never thought the man would be so low who responded back. We take your soul and then you have no body to live in. There are no coincidences.

K: From my talk of last week I said to you *do not make any assumptions and do not make any theories*. And I said to you *this was a pure accident; it was the accident of the greed and blocking the man to elevate*. Unfortunately those who created it and those who created such mayhem and problem around the Foundation now it serves you your own soul to eat of the flesh of the bodies you have destroyed. That is your problem.

K: I am not here to take revenge; I am here to elevate the soul of the man but those who have tried very hard to obstruct the development this time, you have failed. I will stay here until the time we deliver the totality of mankind on the platform of peace to the universal community. Those of you who escape in _____ (3.03.02 minutes) or God knows in what shape or form we will knock on your doors our way. No problem. We had to find the connection and we did find a connection when as I said *we kicked the dog and the cat meowed*. We have found connection

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

between the royal families of Europe who murdered scientists. We have found the money trace in Panama and other places. We have found the hidden connections of the operation and in time it will be released by those who work for the peace of mankind across the Keshe Foundation and organizations worldwide.

K: there shall be no king because these kings have done a lot of wrong and now it is time for the payback of their souls and nothing else. Be very, very careful in how you start developing and start understanding the level of the soul and creation of the soul in the free plasma condition. If you do not do this you come to see things that you are not prepared for. You can only understand in what you can see and in what your level of understanding is. Today is the day of Revelation and now we have revealed. It is for you to understand what we are about to do and what you do to yourself. We are here about to free man from the shackles of his own physicality and the others who wanted to use it and have done so. Thank you very much for today.

K: I leave it with you and we come back with the blueprint on Tuesday or whenever the first one of you manages to achieve free rotation and the first one of you who manages to create the structure of the soul and then that is our purpose. We have created all these gans, we have created the pens to reach the soul and now this part is yours. When you have done this (3.05.06 minutes) please knock on soul@spaceshipinstitute.org. We will check and we will see and we will let you share. If you have not managed to achieve it, do not bother sending it. Because we know all and we see all. When you achieve it come and we will share it with the rest. Don't forget this address. We have good news for you—we ended up on that note. Ghana conference for elevating the soul and the knowledge of the African nations is now seeing the opening of the door for registration. Rick, would you play the video.

R: (3.07.12 minutes).

K: there is one word in this which will be change. The Africans decided to call themselves a third world in this video and I said there is no third world and we are all equal on this planet. Today is the last time you hear the words *third world*. In the next presentation it will be *African nations*. Because we have done so much to these people that they have accepted that they are lower than the souls that are all equal.

Video: *Keshe Foundation Ghana in association with Ghana Atomic Commission and Ghana Spaceship Institute would like to invite you to the 'new dawn' and Africa's meteoric rise in*

Transcript from 121st Knowledge Seekers Workshop held July 14, 2016

(v1 2016-07-24) DRAFT (Transcription has not been verified. Double check info with video)

spaceship technology conference October 17 through 19, 2016 in Ghana. Keshe Foundation Ghana's mandate is to build awareness and research in plasma technology. The foundation is presently working with government institutions and other groups in Ghana to fulfill this goal. At this conference you will be afforded to learn about and experience plasma technology first hand. The cost of admission includes a 3-night stay in one of Ghana's prestigious hotels. Hotel packages include a single, double, or twin room option and an option for an apartment or suite and includes breakfast, tea and coffee breaks and buffet lunch on the days of the conference. Keshe Foundation Ghana is focused on utilizing plasma technology in order to solve the numerous problems that African nations face. Come to The New Dawn: Africa's Meteoric Rise and Spaceship Technology Conference in Ghana. Learn about plasma technology and how you work at spreading word about it. Together we can bring freedom to Africa and to humanity. And we hope to see you there. Register at www.keshefoundation.org

K: thank you and good day; we will meet you when you are ready to meet the soul of the Christ. Thank you for today.

R: this is end to 121st Knowledge Seekers' Workshop July 14, 2016.
