Keshe (K): Good Day to you. Today we are going into the phase of teaching and the use of technology beyond what we have taught up until now. You will understand why we have started this spaceship teaching and we take you into the new understanding, how you can adapt it to yourself, some of the language which is used. There are a couple of announcements I have to make because this is the cornerstone of our work.

There is a high possibility that the police of Italy will change the death of Fabio from accident to a total murder inquiry. The evidence present allows the judges to change the condition to murder and this is the repetition of attacks on me three different times. The evidence could change in the next day or so from accident to full attempt of murder that took place. Fabio's wife, Naomi is in a coma. This is a repetition of what happened to me in Belgium. I was told how they do this with the evidence recorded from 2 years ago. We have to keep silent about Fabio up to now as he was the victim of the work of Red Circle. You will understand that this is totally out of our control from now on and goes to the police. This is a repetition of what happened to me before I came to Italy and now it happened in Italy.

K: We will not talk because any information we put out could be part of the police inquiry. Now we have to see how the Italian police, Interpol and other security services, now that the murder took place, will decide to take up the case. You will not hear anymore from here as this is a legal case and not just a story. We all suffered the loss of one of the most beautiful boys we knew. My car was blown up once in Belgium and there was another attempt on me in the same procedure that we saw that happened with Fabio. Now, they managed to kill him. Italy had nothing to do with Belgium but they see the same pattern and the same people involved. We have to keep quiet as we did in the Alan Sterling case and the police will make the inquiries internationally and bring people to justice.

K: There is something important that I have seen in the background with a lot of your work. We have seen that some of you have gone into manufacturing or production of things. I saw Armen putting a note up and we thought that people understood. When you make coils, please do not touch your coils. When you are making 4 or 5 coils, or 10 or 20 coils, especially those of you who go to doing workshops, do not pile the coils on top of each other. When you pile the coils on top of each other you damage your layers. The effectiveness of your system reduces quite drastically. Try not to touch these coils. What you have produced is a sponge and this sponge when you crush it does not go back up. So please when you make any nano-coating layers, whether medical, pens, stackers, coils, please do not pile your coils

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

together. You will find out this makes a huge difference. These coils are made to transfer energy across the layers. When you pile them up or touch them, you are touching a sponge that you don't see with the eyes. This can create blockages and dams in your system. If it is too much, you will find they are not as good as the other systems. When you handle these things where you have minimum contact and use them. I have seen this repeated again and again.

K: We come to the main part of this technology. Today we take the foundation into a new dimension and understanding. This is the 22nd of July and we have entered into the arena where the Keshe Foundation supporters have to make a difference. There are millions of you and this forces me as the head of the Keshe Foundation International, while I am here, to start the process of the Keshe Foundation into a direct organization where, if you remember last Oct. and Nov. in releasing the coils our logo, was *energy for peace*. Now we go one step further; *the knowledge of the plasma technology for peace*. What this means is that Keshe Foundation has entered a new era; we are internationally recognized for our work and in that way that we are not a pressure group but a scientific group that can give technology for the exchange for peace. We have entered talking, discussing and negotiating with the Keshe Foundations around the world to bring the Keshe Foundation to its appropriate position. This means that from now on we enter humanitarian grounds. What does this mean? It is that Keshe Foundation from the past several weeks of negotiations, what is set up and what is being done, we ask the Keshe Foundation supporters around the world, irrespective of manmade borders, to work together irrespective of color, race or creed.

K: To this effect, as some of you know, there is a disaster happening in China with floods that have affected millions of people. They have seen the same repetition of flood displacement, water shortage, infections and everything else. We see this across the world, in Africa, in Asia, in South America and everywhere else. Keshe Foundation supporters now have the knowledge to deliver support. To this purpose, we offered the Keshe Foundation support to the Chinese people. We wait to see and we are ready to move. We have been told that the announcement has gone to China to support and to bring in new technology in water decontamination from the floods, feeding people through the water, and creating clean environments through plasma technology. While the Keshe Foundation supporters are in the area, they teach others so that in the future they can immediately help themselves and use the technology on their own.

K: We made a request to the Chinese authorities and we have been told our request has been supported. Twenty members of the Keshe Foundations, doctors, and our professors and leaders in the group are ready. We have submitted some names to the Chinese authorities and they move in the next few days into China. This is the first international collaboration within the Keshe Foundations around the world to help each other. With this process we have and will see the change where we deliver the

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

technology unconditionally, not only to the people, but to the medical team, to the government and everything else. In this process, we need the collaboration of the Keshe Foundations. We are asking for the support of the foundations to start structuring yourselves in ways that we can have rapid response teams to deliver technology.

K: We have a group of dedicated scientists of the Keshe Foundation in the Philippines on standby to fly into China within the next few hours as soon as the Chinese authorities release their visas. The purpose and the use of Philippine innovation team into China is they know how to do it, how to make it, and to support the ground crew. They can, in their experience, deliver technology in all aspects. Armen is joining the team and we hope that Alexz will go. We have a number of doctors going to China including Dr. Klaus and all together we will submit twenty names as we agreed with the Chinese to deliver the technology rapidly and to reach hundreds of thousands of people. Their arrival and delivery of technology will go to the Chinese Keshe Foundation supporters for them to support us. We have the head of Keshe Foundation of China, Professor Zhu and he will make the request for Chinese around the world for their support and delivery in three different categories that we need to support.

(00:18:55 Professor Zhu makes the appeal in Chinese to the Chinese supporters for the relief).

I will give a summary of what I said. I talked to my fellow Chinese Knowledge Seekers and introduced the co-operation between Keshe Foundation and Keshe Foundation China to help the local government with flood relief. The problem is huge and covered 23 provinces out of 31 provinces. People's normal lives have been affected a lot. Keshe Foundation is sending scientists very soon to help the affected area. I also talked to my Chinese colleagues to overcome this. We are asking for international volunteers to make use of the state-of-art technology to help the Chinese people. This is a good time to demonstrate and educate people of the technology. We hope this will bring disaster relief.

K: Thank you Professor. If you are knowledge seekers or Chinese citizens across the world, please respond to the email: flood@spaceshipinstitute.org and write in Chinese so this can go to Keshe Foundation in China. At this moment, we have the situation in the South China Seas where the same nation has to stand as military for others. We are sending the Keshe Foundation team Philippines to support Keshe Foundation China in the flood situation. We have requested from the Chinese government and military that if Keshe Foundation members can help bring technology, why don't the armies join them in bringing peace between the two nations which is needed. The Keshe Foundation delivers technology and works together so what is the need for arms? This uses the ambassadors of the Keshe Technology Philippines as ambassadors of the technology and of peace. You are part of us and the first response from our colleagues in the Philippines is that we are your brothers, we come, we deliver every technology possible and we need to work as one team. A request has gone out to Keshe

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

Foundation China for three categories of people needed: translators, people who can interface, and people who have material and can make material in China and deliver to the supporting worldwide team from Keshe Foundation. We will report on the progress. The beauty of this is that the teams who come to support come as peace teams. The Keshe Foundations can work together and we think armies can work together too. We can work together.

K: Keshe Foundation is not only technology but as we promised, we entered into politics in July on the basis of that this is the only organization that can deliver technology for peace. This is the first time of this. We have a man from Armenia and there is a huge conflict between Armenia and Azerbaijan and this is not needed. We have an appeal today from our colleagues in Armenia who took the power units into the government. They have tested the units and we are asking the Keshe Foundation supporters of Armenia, no matter where you are on this planet, and our supporters in Turkey and Azerbaijan, to come together to bring prosperity and peace to the people of Armenia and we ask the armies to step down. When the people from Keshe Foundations from these countries can work together, then why not the armies? This is how Keshe Foundation will move from today. We deliver technology and we change the man.

(00:27.50)

K: Armen, if you would like to give a message of peace, you can deliver it to your people in Armenia. A message from the Armenian people to the people in Turkey or Azerbaijan. There is a fight going on silently in the background of this country that is affecting everyone. Armen, go ahead.

A: The situation is very serious. Armenia is surrounded by Azerbaijan and Turkey. The problem if allowed to continue is that the people of Armenia are suffering and they don't need to. With the head of the governments, they will not allow peace because without it they gain a lot. So it is very emotional in that part that we cannot make a change with the governmental level, but we can still make a change with the people. So I hope they understand the message that today we will change everything for humanity. I hope they will listen and carry the message to the next-door neighbors, friends, cousins for them to know too as they won't carry this knowledge themselves; it is an impossibility. Thank you. That is all I want to say.

K: Thank you very much. Can we have the 2nd Armen from Armenia if he is online? He took the Magrav units and they tested them in Armenia including in his own house. The development is with them. So we wait for them to announce; this is what they need to do. We have to understand one thing. If you are in a country of conflict in any shape or form, if you are in a position of conflict in your region, come to the

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

Keshe Foundation. We will flood the nation with love, care, knowledge and technology so that the people can see the beauty of it and they have everything that they need. And there is no more war. We exchange technology for love and peace of man. In this process we change the course of humanity and we have become a peace movement for the exchange of technology for peace. We teach you how to have more of what you need and in exchange for having it. You will see no reason for war and conflicts or worrying about resources when you have every resource in your hands.

K: As I said before, we start delivering new technology today that will baffle a lot of you. I would like to finish with this section with the Armenians and then we will move forward.

V: Mr. Keshe, he will be on in a bit of time.

K: No problem; in Armenia you always have time; they have a special word for it—*kamats, kamats* which means *slowly, slowly*. They are worse than Italians; in Italy tomorrow can be next year or next decade.

G: I will not agree.

K: I had the pleasure of being brought up by the Armenian monks in Iran and I understand them. I used to speak part of the language as it was part of the school so I am very familiar with the Armenian culture. They are part of the Armenian nation and the whole structure. That is why after 40 years, I still remember a few words. The process is simple: we have brought the technology that has changed the course of man over years, centuries and thousands of years. The biggest problem for man has been a way to feed himself and to have shelter and the position where he can be comfortable. All the wars have been based on resources for some people as leaders to have. They have abused the knowledge that for what you don't have and have to have, you create wars. With this technology, we give freely the resources of the universe so there is no need for fighting, worrying where your next meal or shelter will be.

K: In the coming days, we start introducing to you the physical shelters that you can see. In a few weeks' time and maybe faster, we will release the whole structure of making shelters out of gravitational magnetic fields. It is technology that is and has been available but as with the rest of my work, I wait for Keshe Foundations around the world to bring it in. This way no one can be stopped and we share the knowledge. I thank you for being open to share everything directly on the internet. You are using Facebook, YouTube and other channels exclusively. Open more and teach more. This is what needs to be done and there is no limitation. We are trying to support the teachings as the more people learn and have, the more peace we can create. The whole structure of the Keshe Foundation (KF) from now on is to spread knowledge in exchange for peace. In the universal world, people cannot afford to feed themselves and their families or produce water, shelter, and electricity.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: All these things that you will need in the coming times—water, shelter, electricity, food—can be made. In the coming weeks you will learn to do things yourselves. We open the technology for asking, sharing and delivering technologies and in a way we go international in having everything we have, sharing the knowledge together to bring peace. When you have everything, what is the use and the asking for conflict? There is no need for conflict. Those that have been the instigators of wars have no grounds to fight. When you have everything, you don't need to fight. There is a huge teaching today and I am waiting for Armen from Armenia to speak so they know what they need to bring peace. It is the hand of the peace from the KF in Armenia to the KF supporters in Turkey and Azerbaijan who are the background to it. If the nations can go, we have KF supporters everywhere—Greece, Turkey, who can go to Armenia or Azerbaijan to work together. If the governments have to issue visas to their enemies to come to support them, it means there are no enemies and that is our purpose. This is the step we take and it is our responsibility and the responsibility of every KF supporter to be an ambassador of peace.

K: It is your responsibility for you to learn if your intention was to be part of humanity to deliver peace. This is what we need to do and we have no choice. We left it to the people we call too long to do whatever they like in leading. They are not in the position to lead because so many things have happened to get to leadership that, as we have seen, they have even forgotten what they were born for. We set the scene. The KF as of today has and will become and be involved in every war zone as deliverers of technology in space and messengers for peace. We do not ask for you to sacrifice but to give your knowledge to change the course of humanity. This is where we are going from now on and we will teach you more and more so that you don't need to be in the conflict zones of people, but reach the souls of the people in those areas. The teaching of today will open man's eyes to new dimensions and I deeply hope that you understand today's teaching. Are we ready yet?

K: Armen you can speak in Azerbaijani, Farsi, Armenian—we have a huge number of Turks who speak Farsi. You may speak on how you think we get out of this situation in Armenia for a worthless war going on.

A: I can speak English, Russian, and Armenian.

K: Speak every language that you know.

A: I think everyone is tired of wars and wars are worth only the hierarchy of people in government. People don't want war—everyone knows that. Look at the situation in Turkey. It is increasing every year that people don't have proper water and food and it is only high ranking government people who are making money out of poverty. What is your situation?

K: Would you like to speak in Iranian and Russian for the supporters on both sides to join with their knowledge to bring peace to both sides?

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

A: Let the message be in Armenian. Everyone will understand it in my native language.

(00:44:50 minutes – Armen speaks in Armenian)

(00:46:21)

K: Azerbaijan and Armenia were part of Russia until the 1980s. Would you say the same thing in Russian so they might also understand?

(00:46:40 minutes – Armen delivers message in Russian)

(00:50:30)

K: Would either of the two Armenians like to say anything in English?

A: Armen in Armenia said in a few words what describes the KF. Armen and I are not enemies; we don't like to fight, we like to build. As a Christian, Armenian, and one planet, I can say one thing—we can lead all in peace with no problem. I wish everyone understood what is coming.

K: Now you understand why we set up the universal council by language basis. Across this planet we live in different parts but we speak and think in a given language. This is the job of the universal council in these conditions and that the council members speak with each other and unify and get the different language supporters to work together so in the case of conflict as there is now, by working together, they can show the people who run the government or the nation that if you are working together what is the use for war when we give everything freely? Now you see the emergence for the need for the universal council where there are no hierarchies and all are equal. It is the job of the council members to be attentive that language does not become a tool for separation but a tool for unification. This is their job and they replace the UN that was for nothing but the greed of finance and those who wanted to serve by killing the souls. For the first time, you see the work of KF as a peace movement, as a replacement for present government structures around the world and that people decide on loving one another and not using one another for financial gains.

K: Please understand that we are not here to bring a new kind of slavery to a different school of thought but to bring the unification of man through the understanding of the whole knowledge of the universe. We use it to create peace. I put the hand of peace to the Chinese KF people as much as I put the hand of peace to the people of the KF Philippines. As one family, they work together, and with it we shall see peace.

K: I appeal to the Chinese, Philippine and American leadership to let the KF show you the path of peace. You will find out as I wrote to the Chinese yesterday, *why do you, when given that life is sweeter. We see and thank Professor Zhu for facilitating with the Chinese authorities for us. We thank the charity in the*

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

background set up by the Chinese to support this move and we thank those people who understand the purpose of life on this planet is to have peace, be at peace and be able to support. We can stop wars, but we cannot stop the natural disasters that China and the others face now and will face in the future. We need to become as one family to create and promote rapid response forces so that we can react and help each other. We expect huge calamities in the coming months.

K: Maybe the Chinese situation is the first trial for KF families to get themselves together to be able to work and respond rapidly to one another. In the matter of responding rapidly, the present transportation system is useless. With volcanic eruptions, we cannot fly. With disasters, we cannot get to many of the ports. We need the new science and technology, where we become independent of the climates, the same as we are in the universe. We start teaching the development and structure of new lift and motion systems. I was told I was teaching too rapidly and teaching technology to people who don't understand it last week. My school of thought is that every man is capable of understanding everything when it comes to the knowledge of peace, transportation, treating his family and the rest.

K: No African is lower than a South American and no man in Europe is higher than anyone else. This is the imagination of the people who are weak, where the color of hair cannot create superiority to another race. We understand one thing: I start teaching you something today which is not only for your understanding the technology further, but also to understand your own structure. Then, in understanding your own structures, you understand how to interact with each other and how to develop technologies and understand partially the language of the universe.

(00:57:13)

Last week I used a direct language and if you remember I went very easily with a sign with my hands and others called it 'Satanic.' I used a direct language and I went very easily and it was called Satanic.

K: No. This is something they do when they don't understand that they are something because they know you understand too much and they cannot abuse you. This is the universal language—physicality, the emotion and the soul. If you hold your forefinger up, the little finger up and the rest folded, it means that you are prepared to communicate with another with your physicality and your emotion. My soul is mine. If you turn your folded 3rd and 4th fingers outward with the forefinger and little finger up, it means that you are open and you cannot lie. I show you what it means and you understand the language that is behind it; it is the language that is taught by man in space and those who understood it wanted to elevate themselves to be 'more important.' Those are the Illuminatis and the Rothschilds.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: It is very simple. In space, we do not have such a complicated digestion system as man has. So our soul, physicality and emotion stay together. It is the same as the 3 layers of your skin...the under which feeds, the middle which is the transportation from one layer to another, and the outer which is the interaction of what is in the environment and inside. It is the same process: you have the soul, the emotion and physicality. It means that I am prepared to talk on the physical terms and the emotional terms. But not with my soul. When I closed my finger last week, it meant that I had withdrawn the emotion and physicality with the soul because of the wrong you have done. When you do this in space it means you are not prepared to negotiate or to give. What I have is mine. This means that the Planet Earth is ours and we want to keep it and bring peace and *you have to go home. That means take your physicality, take your emotion and your soul. They know who abused it and I will show you how this works as part of the teaching of today.*

K: Those who call this (sign language with the hand) Satanic have used you and they lie knowing you are ignorant. This is how the churches and the mosques work. They didn't want anyone to be educated because even the clergy of churches and mosques could not read, so what they said became law. They lived and nourished on ignorance and keeping the people ignorant. When people start getting educated, they lost control. Now I teach you the language of space and the ethos which it is built on. When you use the sign language of the forefinger and the small finger held up, it means that my body and my emotion can talk; my soul is mine. When you show the folded 3rd and 4th fingers outward, it means that you keep your soul but you are prepared to negotiate. When you show all the fingers and thumbs folded in an outward-facing fist, it means I don't have much to give and I want to keep it and I don't understand. It is very simple. It is the 3 layers.

(01:00:45)

K: This is the same structure and when you understand it, they cannot abuse you and then you will understand how you can open and develop your knowledge to the limit that is good for what you understand. Let's go back as this way you will understand it when it is connected to the teaching. Go back to the very first teaching. Go back to the coils you made, the understanding of the plasma, books 1 and 2. I'm not telling you something that isn't there. You have been taught but now we bring the knowledge together. If you remember, we do the plasma field that is strongest in the center and as it coils out, it is the transition point.

(01:01:35)

What you see here (end of coil) is the end that presented itself. If you see it at this level, this is what you will see as it is supposed to be (towards the end of the coil).

(01:02:02)

K: Go back to the plasma teaching. You have a clear visual test and you have done it yourself. We have been through it many times. The field goes from one to another. In respect to its environment it shows

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

itself. (drawing 01:02:44). You have the source here, what we call the principal, you have the transition that we call present knowledge/dark matter, and we have the matter state here. (01:03:19). It doesn't matter what state you are in the plasma, human anything else is the same. The skin of the man, the structure of the man runs the same. Your stomach developed the same way; the planet earth is exactly the same. It has the center, it has the transition portion that we call the magma, and then it has the surface. It is no different. But what you have all missed in the whole structure is that this is the copy of a human being.

K: Look at the structure of the human being and you will see the same thing. You will understand something very simple; this is your brain. (01:04:15) This is the part missing from the brain for your body to be extended to the brain. So it has extended itself. What is not the rest of this plasma as shown in the matter state drawing above? When you see the brain of the man, what has happened because of the condition of the planet at this moment where we are and the structure of the life here (01:05:20) this part of the brain which is what you see, has given its field forces to become, to open up and extend to (lower part) become the physical body of the man (01:05:37). If you gather all the body of the man in so many ways and push it up to itself, you will get a full circle. That is how simple it is. But, when you have this energy where you create this plasma you still have the three sections. You have the physicality, you have the transition from the principal to what you call the physicality and you call emotion and then in the center of it the soul of the man sits.

K: So, your soul is in the center of your brain—that is how simple that it is. Man has been looking for where his soul is for thousands of years. As we have said in all our teaching the soul is the creator of the physicality and now you understand that your soul was the creator of your physicality by holding the plasma and now you understand how your physicality was controlled by the soul. The control of the soul is the part that creates you and your life. Now you see there is no difference between the plasma of the man and the plasma of the field in your GANS containers, atoms, nucleus or whatever.

K: In the nuclear atomic structure we have one seed controlling the other. We call it atom, one piece, one unit. In the case of the man, this lower part of the brain (1.07.41 minutes) has converted itself and the separate electrons have become the physicality of the man and are attached to each other and working together. This is where man has not understood the position of his soul and the strength of his soul. Now you understand why this is the shape (? 1.08.00 minutes). When you go into another environment including the created conditions you might not need the physicality; you will need less and your soul level will change to emotional and your level of physicality because the environment doesn't need it, will be this part. (1.08.30 minutes). Now you understand how we have come to be and what it is.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: Now you understand that if you go into the physical structure of the brain of the man, how you come to be. We look at the top view from the top of your head down and your brain is in two halves where in the center, we have the emotion and in the center of that emotion sits the soul of the man. (1.09.07 minutes). I will show you how you can measure, detect and see the strength of the soul of the man. I will show you how you can see the soul of the man and I promise that in time I will let you see the soul of Christ, blessed is his name. And then when you understand you shall see. Look at the structure of the brain of the man.

K: When you look at the brain you have some interesting parts in it (1.09.37 minutes). If you look at it from another angle, from the side instead of the top, you see here are the arm parts and on the side here is the hid and on this tip are your fingers. On the top is your upper arm as it is seen going downward. If you look at your brain it is very simple. You come up and you see the culmination and your fingers on the side of your ear. Now you see if you look here, your soul was sitting between the two halves. So the soul through emotion of the fields is the physicality. So, when you are in space and you don't need as much as we physically have, I have taught for many years in the physical dimension when you look at your hand your 1st and 2nd fingers are your emotion. The 3rd and 4th fingers are your physicality and this is the boundary of your body. This is the transmission of the emotion and the soul shows itself by your thumb.

K: In space when you don't need the digestion system most of the emotion having to do with the physicality and the physicality are not needed. In space most of the physical entities you see have this combination because man is too physical and emotion attached to his physicality. So, in a way we can hold up the thumb and the first two fingers and have the same (the physicality, the emotion and the soul.) So that is why they do the sign of the thumb outwards with the 1st finger and 4th finger extended and the 2nd and 3rd fingers folded. This is way we know the knowledge and some pretended to know the knowledge. Now you learn the first language of space. So those who used this language and thought they were elite were the peasants of space when they used it and they did not receive any more knowledge.

K: Today by the time you finish you will know more than the people who use the sign of the thumb, 1st and 4th fingers extended. You will know that they represent your physicality, your emotion and your soul. This in space language means that you are prepared to negotiate, you are prepared to give and you are strong enough in your soul that you can give. When you look at the finger is gives a lot of meaning. When I shake hands with people and stand in front of people I know who I am dealing with through the structure of their hands. They look at me as the 'physical' and I look at them as the state of their

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

emotion. When your thumb, 1st and 4th fingers are extended it means that you are a giver and have nothing to hide and you have equal balance. (1.13.08 minutes).

K: You find people who have the more closely, curled thumb extension and somewhat curved 1st and 4th fingers and it means *I want to possess everything –the soul and the physicality*. You see people with the bent fingers. If you have been my patient I ask you to hold your hands out, palm up, flat. You don't know what I am looking for—I am looking for the shape of the fingers and I look for the soul, how much and where it is going. When you look at my hand held out my fingers are extended and that means I have nothing to hide and I give everything. And then you look at shape of the hand and you see how the man stands: *I have nothing to hide. I am a giver*. Then you understand the state of the language in the universe and it is very much like the deaf language, the sign language. It is the space language and it is very simple.

K: The people who carry this are physical and very much a primitive culture of the universe that landed here and told people more than they knew and put themselves above everything. Today we show you that we taught you about physicality and we worked with the matter state and brought in the plasma and we saw the transition of the fields of the plasma into the matter state and we called it liquid plasma. In bringing the two together you saw the gap in the middle and we call that the soul. If you go into my teaching in the past years I have told you many, many times that even the soul has its strength. In a medical teaching yesterday, I partially opened the state of where the soul of the man is. Is Dr. Klaus with us? Could you in the background bring the pages we looked at yesterday before I left to the hospital? We need for you to understand, where and what the strength is that exists in the soul of the man. In a short time if you understand this you can create the condition and the strength of the soul, elevating it so nobody can take from it. You can divide it but you cannot take away from it and this is important.

K: We are having a bandwidth problem that started here when we started teaching. We tried to wait and take time until people get here to find out what is going on. These are deliberate attempts to slow down the sharing of the knowledge. In any case now with the knowledge we have the understanding and the capability to understand more. Please record here on the computer. We are trying to see why we have this separation from the time we start teaching.

R: The audio isn't too bad and the video is a little jerky. Once in a while you break up a bit.

K: We are recording here and we will send it back if there is any problem. Let's go back a step in the teaching and you will understand that in the past weeks I have been giving you hints and now we are here. Go back to the teaching and the understanding. Last week at the end of the teaching segment I said that the physicality of the man is dependent upon copper plus CH3 and how you made the GANS

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

liquid, plus CO₂ plus amino acid and this is more composition of the physicality of the man. When you have physical damage you use a CO₂ patch with some CuOH (copper oxide) and CH₃ to increase it and for the division of it in the body of the man we always said in your language you understand as B12 or 'cobalt.'

K: The whole process is that you have the physicality and you need to give energy to it, to communicate and you connect it to the amino acid to the man and in dividing what energy comes in. In the teaching I have explained that when it comes to the emotion, the line of emotion we always use Zinc Oxide as it is very close and emotionally you affect your physicality. It's the same process and you have the same amino acid but in the transition from whatever it is to the physicality, you don't need that much division and you don't need much energy dividing, what you call radiation, the mono atomic structure of fields. ZnO₂ plus CH₃ plus CO₂ plus Amino Acids.

K: If you go to my teaching last week I said to you something very simple: There is an element in the periodic table which is the element field strength, gravitational magnetical field strength and no more. In that process there is an element here and in the same line of communication it does not need energy because it creates its own and you can create this field. So you have O plus no CH₃ plus CO₂ plus Amino Acid (NaOH). It is connected to the acid of the man and it divides itself to be reached to all levels of the spectrum so it has a mono field that it can cut into pieces, or it allows the division, and you cut a piece of bread in the physical world with B12. Your holy grail has been to find the O element and now you shall see it. The way you made the GANS of copper and of zinc, if you make the GANS of this material in a spectrum in respect to the mono plasmatic spectrum then you will be able to create the soul of yourself or the soul of others.

K: If someone tells me they are a descendent of Christ it is very easy to see the Christ. We know the descendent of the Christ lives or moved to the south of France. We can find the true blood of Christ in those French in southern France. It is very simple and I will show you where to find it in the coming time. Now you have played with these fields of CO₂, copper oxide, zinc, amino acids and CH₃ for months and you have confidence with them. You know it works; you made the patch, you used it for your pens, you made the GANS to use with cancer. You made all sorts of things with it in agriculture. Now, let's find the matter state strength which is near to the soul of the man. All you need to do is to get a touch of your own skin. With it you will have the indication of the strength of your own soul and you can see how true you are and how your physicality transfers the knowledge or becomes a Chinese whisper *inside you are a murderer and you call yourself whatever*. Because your intention is to kill because you are a President and you hunger for power you show yourself as a man of peace and don't forget as the human race we have one common denominator which is Amino Acid. I shall see the intention of your show. Now it

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

comes to the reality: do we need or are we in reality the human race as members of the universal community, men of peace. Dr. K, please share the screen with us.

Dr.Klaus (DrK). (1.26.54 minutes) we did this as part of the teaching yesterday.

This article is about the table used in chemistry. For other uses, see [Periodic table \(disambiguation\)](#).

https://en.wikipedia.org/wiki/Periodic_table

K: If you look at what gave the origin of life on this planet it is amino acid. In amino acid interaction with iron and the delivery of cobalt which is radiation on the matter state, we see hemoglobin. In the interaction of hemoglobin with the two metals copper and zinc we found physicality and emotion. In the interaction of the totality with calcium and potassium we found the structure. Here we were liquid muscles and then here we found solidity, bone structure, and we became upright physical entities. If in space if we take the calcium and sodium away from the composition of the structure of the physicality, then we will find that even the brain of the man will be in plasma condition without solid state because even your brain cells are calcium base that give it the volume. We showed you this in teachings of the past.

K: In reality what you saw in the units that were here that Marco built and how we could control building the structure without the physicality just with potassium and the rest. Now you have seen in this part the amino acid that I wrote in the background; you have seen copper for the physical, zinc for the emotional and division of the blood to be able to be in the condition of the feeding of the emotion and the physicality and the physical structure. What is missing, we asked to see the composition of the

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

body of the man. Look here: oxygen, carbon, hydrogen and nitrogen. But we came to the physical part and you have seen iron, cobalt, copper, zinc and iodine. If you look for the position of iodine you will see a very revealing point. Why do we have iodine? If you look iodine is in the places where the emotion shows itself in physical matter. There we produce new life if it is needed. If you look at it, anything to do with the cycle of the life and position you seen iodine in the brain. In that proposition we know we are looking for the position of the soul. (article at 1.32.33 minutes: your body needs iodine for more than just your thyroid...ovaries, blood cells, salivary glands, pancreas, cerebral spinal fluid, skin, thymus).

K: Now you understand that the skin is part of the brain and needs iodine in it as it carries the same condition. You have found in this strength point the strength of the soul of the man and the beauty of it is needs as it is giving of other radiation. You see how cobalt sat with iron. If you can make the condition you can make the soul of the man. You have a number of ways to create and a number of you will hear the noise of the soul of the man or yourself when you interact with it. You can hear yourself in the physical matter when you touch your own soul. You can hear and emotionally you use the zinc to bring somebody out of depression as the doctors are reporting. You see where you use the CO₂ and copper oxide to bring your physical improvement and you can feed your soul to balance the soul and in balance it does not need to look for physicality for itself to create a physical condition. At this state man become independent of physicality in any dimensions in the universe.

K: do we need to create wars where we can reach the soul of the Presidents, Kings who tell us they are kings when in fact mankind is the king of itself. If there are no leaders in our souls, why should there be leaders in our physicality? So if you understood this, you can replicate it and you can bring it about the way you have done zinc and copper. You can replicate to become independent of physicality and to become part of the soul of the creation in the universe. Now you understand when I told you that I would change the course of humanity today. For the first time you can see your own soul and create a condition that you will understand the true nature of yourself and this is what you shall be seeing in space.

K: I have told you many times that the more advanced cultures in the universe see and hear your intention through your emotion long before you 'hide in the physicality.' Because they have access to that transition line that is the strength to see through you and strangely enough more or less most or the majority of the soul of the creation in the universe on this universe goes a step further up. If you follow the same chart you will find the soul of the galaxy and the soul of the universe and the souls of the universes. In time you will understand as you have seen the ratio did not need much to go from physicality to emotion. (See 1.36.40 minutes with his additions to the periodic table showing the range). You see the strength of the emotion in respect to the soul on this planet.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: Now you can imagine what the man has not understood about the rest of the table of the universe. Go on the same magnitude and you will understand and you will find the soul of the universe. But that means being able to understand the transmutation of the elements. What is transmutation? It is not what we brought and we showed in Fukushima and now we see scientists in Russia have confirmed in the last couple of weeks that they have managed to achieve (Chernobyl) what we achieved and announced months ago. Don't forget what I always say: when we release the knowledge we release the knowledge to the soul of the entity of the universe and not just for a few who listen. So we have enlightened and passed the knowledge to the scientists so that they can confirm the totality on the other hand. Now if you understood this, you don't need to make yourself copper, zinc, or gold. You can now create a condition that covers the totality.

K: don't forget the structure of everything that you have. You look at the number of the protons but in fact man should look at a different number and this is amazing that he has not done so yet. You have to look in the structure of the mother? Why have the physicists chosen the wrong thing and they chose the proton? I don't understand. The neutron division leads the creation of proton and electrons. Look in the structure for the number of neutrons and not the protons and electrons and the way the present fallacy in the world of physics has brought us. This is where I could not understand the teaching of my university professors. They never understood and the riddle did not make sense and now a lot of you understand what I mean. If in the atomic nuclear structure, we say that by the division of the neutron we have protons and electrons, why are we taking the weakest and not the 'mother'? In the nuclear physics in all the tables we see you should look at the number of neutrons and not the number of protons which are already divided itself and it's a transition point.

K: If you look in the atomic structure of the iodine can you tell how many electrons and how many protons are in the iodine? There are 127. But if you take 53 from 127 what is the different? Now in the present physics the scientists went from protons but in the reality of plasma technology how come you count the chicken and you count the eggs and you don't consider the chicken that gave the egg. Start looking for the mutation of the elements into the mother, the principal cell and then you understand that the world of creation changes drastically. Look at the copper, the zinc, the iron and the cobalt, plus Cesium. Cesium to you is something that nuclear physicists use. But, in fact as I have said many times, Cesium is the radioactive material and we use it and understand it in the nuclear industry where tritium and the others create different radiation and fields. Man has not understood the totality of the spread of mono gravitational or mono magnetical they have called it radiation. Radiation to plasma technology is mono stronger on the field strength of gravitational side or magnetical side. So even what you call radiation is plasma; this is in Book 2.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: If you understood the meaning of radiation in a plasmatic condition which means as much as you give, you are receiving. You are giving in gravitation or you are receiving it in magnetical. This is a big difference when it comes to the world of plasma. And then if you are giving in a plasmatic what you call lack of Cesium gamma rays, it means you are spacing the neutrons from each other because now they receive energies more and the spacing is more. The world of the present nuclear physics has not understood that we have two types of radiation even in gamma and everything else. If you are on the magnetical or the gravitational gamma of specific strength and if you understand you say this is the strength of the gamma rays, then you can say it is the state of pain, emotion, happiness. Now you have found the strength of the radiation of the emotion of the man.

K: If you understand this you can increase or take from the soul to change the physicality. Those who understood what I have said in the last two minutes you have found the secrets to the world of the creator. In so many ways and so many categories and understandings, if you understood what was needed, the cobalt or cesium, are magnetical field strengths of giving or taking, then you understand if you compact it, where it is compacted you created more division because in coming together energies have to be released. You decide what becomes electron or proton and you dictate the condition of the creation of the plasmatic fields in the world of the creation.

K: Now if and when you come to understand the totality of the knowledge for the first time man can create the field strength and intention of the soul of the man and then it is you and the way you improve your physical condition with the GANS and the liquid plasma and the way you change your emotion and the doctors who are in the background tell us their patients feel totally different which means they have received what was lacking in the emotional part of the brain. If you can use something in the region of iodine and understanding the ratio in the giving and you decide how much and how fast Cesium you can understand and you raise the level of the totality of the soul of the planet in one instance. Because if you give each soul takes what it needs and the rest is available to the others. 1.45.47

K: It does not take long to change the animal behavior of this planet to the behavior of the universe. Then you will understand why I said to you last time in the past the things we have done with the Rothschilds and the Illuminati's. Because now you understand what they were told initially and they abused it and they created the conditions to create what they wanted. Now if you care produce the GANS of iodine and understand how I explained to you using the gravitational magnetic field even of cobalt of the highest strength order with iodine and tomorrow there will be no pope. He will put his own crown down and he has said so. And they know the coming times have come. Rick we sent you a post about the pope a few days ago; can you pull that up?

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: What you will see is why the heads of religions and the heads of governments have been trying to silence me and murder me and they murder others in the past few weeks. This is the knowledge they knew through the contacts that would be released and this is not what they wanted to be released. Now not only do you have the understanding of the strength of the emotion of the soul, now do you need a spaceship to travel the spaces of this universe? This is what the biggest fear was of those who knew the knowledge would be shared in such a rapid way. Go back; you are all so talented and so strongly understand the whole technology. You created the GANS of fruit, copper, zinc and now go for iodine and start producing it and understand that you can get hold of cobalt much easier. It will take a longer time but something in spectrum of the gravitational magnetic field of the interaction changed the amino acid to the skin of the man, to yourself. Then if you do it the right way you shall see yourself within the structure and see if you like what your soul is and what you are doing in the physicality. Just touch someone who calls himself a president and pick up the skin, or put it in it and then you see the soul of the president.

R: Is that the one on the flooding that you wanted in China?

K: No. It is on your messenger. Now you understand that my intention is peace and you have the amino acid and the soul of the man who says he is to be president. Now you know if you are voting for the right man or not because now you see his soul. Now the puzzle is unraveling. And then if you are a murderer you vote for it (1.49.49 minutes) because now he is of the same as you. But if you can show his soul and his intention it is a 'bigger pot', a much, much bigger pot. Then I have said that no one can say *I am a peaceful president and I want to do this and that. But, my intention is that I have sold my soul to the corporations and I want to be able to create war.* You have to understand that those who call themselves kings and world leaders and make mayhem on the man shall understand.

Pope's message: *Not to share with the poor is to steal. Pope slams capitalism as the new tyranny.*

K: For the past 2 or 3 years I have walked millions of you on the path of the creator and the knowledge of the creator and now it is for you to decide. Now if you have a soul you don't need any money. This is the understanding of the man and this is what they understand. Do you need money? They know the time has come that there is no need and you cannot sell a single greenback in space to the man of the universe. There is no money unless you give from your soul.

K: You have to understand something very interesting. Most of the world leaders and religious leaders know their term has come to an end. It is a matter of weeks and days because when you go anywhere I explain to you that you see the true color of the guy by literally shaking his hand. In that process take a

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

photo of your hand where you held his hand and you will have a shot of his soul and your soul—see if they are the same color. If your intention is peace you know who you are voting for. We have an interesting point and I told you shall see the soul and understand the interaction. Someone on the golden age of GANS has posted something very interesting—it is a GANS of copper oxide (green) and he has put it in the middle. It is very interesting because this is the very first system that now you can see the intention and the interaction of the GANS of the body of the man with what you have produced. If you understand this, you will understand that you can do with the soul of people. If a woman says *I love you say can I have your skin please?* I have a machine that can measure if you really mean it or not. It's very bad for a lot of people.

K: You will see the light and you will understand soon; when you make a bad intention, you know the color because there is no color. In reality now we can create a condition for what we call the condition of the soul in respect to what it really is. Last week before the teaching, the day before, I received a very clear message from the world leaders and I understood it fully. But they didn't understand that I understood what was behind it as their message was given in a coded way and it was exactly what it was. I was told as I said that they said I was teaching the technology that a lot of people don't understand. But, the message of the souls of the people who sent the message was *it is the time we all understand*. They carry the coded message and they didn't understand the message that was carried. It came from leaderships of the nations. In a way in blacklisting physicality they have blacklisted their own souls. And we will see more and more. Can you open this for me to read?

K: This is from Mexico from the Spanish Universal Council group. You see this is a container of GANS of copper oxide in liquid GANS. You see the position of it. When another man comes and sits on the other side and speaks, the GANS moves towards that direction. If this side speaks it moves in this direction. If you bring a third person, it moves into three ways. So, test this yourself and build your confidence that you understand. So now bring the GANS of the soul and put it in the same container. *My intention is peace*. See of the other guy says his intention is peace it moves towards you because he is giving it to you in totality or if it moves towards him. *Sir, this is the middle line; we are equal but you are lying*. This is one of the first. See the shape and movement of the GANS from one side to another? (1.57.39 minutes). When he moves someone comes to this side it moves to this side; when a third person comes it moves towards the third person. This is one of the first tools of understanding. If you sit at the table with this and say, *darling I love you and it moves to the other side, oh my god*. I would like to how many tables and pans and pots fly.

R: *This is the visualization of energy dynamics of plasma. We have discovered that what we know as inert matter generates a static plasma energy. Living beings generate plasma energy dynamics. Humans generate enormous amounts of energy of plasma and between us we interact also through our energy*

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

fields of plasma. The GANS state of matter has the property to generate energy dynamics with plasma and for that we use them for this purpose. We can generate GANS of plasma of biologic origin and we call them organic. The water shows the continuum from water and the sediment of the GANS. The GANS are besieged as if they are mud. If you put this container on the table between two people talking the GANS are starting to move and round up and showing the energy of the plasma. IF a 3rd person joins the conversation a third brand will begin to form. It is funny because we can see a balance between the two people or if one of the people is removing the energy from the other.

K: Now you see the very first tools of detection of plasma. If you understood the basic knowledge behind this, you understand where we are heading. Put the world leaders at the table on the international screen and sit on the other side and say *our intention as a nation is peace* and they say *I want peace too*. If it moves to the other side, you have already elected your lying president. This is important. We don't enter in the physical matter, but in the levels of the emotion and then there is nothing to hide. The physicality is nothing but a frock of shame. Then I want to see how many presidents will serve. It is in the writing of Mohammed, blessed is his name, that *the time will come that no man will take the crown of kingship*. It means that it is so hard and the king is the attribute of the creator and it means forgiving, generous, and the rest of the hundred names for Creator. And if you can produce it you will receive it.

K: In this way now you see how you have become the man of space at the most advanced level. Those of you who are still looking for physicality, you bury your minds in work and in the GANS and the rest and those of you who go into the higher interaction of the level of the souls, you will start creating the condition of the destination where you want to go and see how the physicality shapes itself in that position. So now man can choose the point of destination and choose if he wants to be amongst these people. The beauty of the way that I have taught all of you is that you are all capable of creating the condition of your own and understand the structure of your own soul. You lied and you cheated and you put it as you are correct and it will shine like everything. Those who planned murders carried them out and then when their hands are opened they go in every way their souls will show the truth about everyone. So it is very easy; you don't need to bring the man; we bring the soul of the man and it will bring the truth. The soul shall speak.

K: It is very easy; if you understand the reality about the creation and the true realms of creation in all dimensions I keep repeating. *In my time I take man to space as an equal and not as slaves*. If you understood the basic of what is behind what is on the screen now (2.03.42 minutes) I have taken you to realms of what is the end of what you can understand in the work of the universe.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: I especially wore a tie today and as you know I wear a tie most of the time. As you know most of the time I wear my tie in what I am going to teach and what it is going to be. The tie has eyes and glasses. Do you need an eye to see the soul or glasses as I told you to create with the plasma of the fields to see the creation of the universe? Are we going to look to our physicality or are we going to look to the soul of the man? Could we make glasses that see through and creates field condition in a way like when we go to the cinema and put the 3-D glasses on? In a very short time we all have glasses for the soul of the man and someone has already made the first glasses. If you understood what I taught today, then you have the glasses on and the president says *peace* but your glasses say your soul says something else and you already 'sold out.'

K: It becomes the "Chinese whisper" between the soul and the physicality. The emotion plays on the line somewhere between the soul and the physicality. You see the strength of the play of the emotion, how you can cheat, how you deceive and how you kill. I would like to invite the Rothschild family to the table and see how much blood sits on their hands. Don't forget you have to pay for the totality. What your parents have done that put you in this position, Send it to Rick. Then you have to do because you are a part of the soul that arrived and then you understand why the religious leaders have to kiss the hands of the mortals. Because the mortals have connection and abused it. You see many pictures of the world leaders kissing the hands of the Rothschild's family because they carry the knowledge of the universe and whenever they needed to they threaten with it. Now you all understand when last week I placed my hands together with the thumbs extended and the forefingers touching, (2.06.25 minutes) I took your physicality and your emotion to the soul of the man and you go back.

K: Now it is how, and it is all right, as the world leaders in the universal condition dictate the terms of 'sending back.' This means that with the power we carry, we carry both the physicality and the emotion the truth of the soul and you send it back where it comes from. So, we took that away from the Rothschild's families, from the Illuminati's and from those who call themselves religious leaders and abuse that. Now you understand why every one of these world leaders uses the 2 or 3 finger signs. But they always kept it to themselves and now you can do the same. But you can make the soul of the man so we are not what those who called us, "Satans" but in fact we gave you the secret of those and now you understand that we are the saviors of humanity from the hands of the 'devils' or those people who took the souls of man. Those who talk about me being "Satan"—No, I am just a translator and I opened the riddle and now the hand is opened and you understand. I told you that I teach you the language of the universe.

K: The universe has physicality and the universe has soul and emotion. Now you see the language and if you are limited by being in physical life, you can communicate and know what the universal language means. I am a giver. In the language if you are in pain in physicality it means that you need energy for

your own soul, which cannot supply because the line of emotion between the physicality and the soul does not exist in space the hand language with the fist curled and the 4th finger up but curled and thumb sticking out is saying that you need physical support for the emotion. Something is wrong in my emotion and I am not getting fed from my soul. (2.08.35 minutes) You understand the verbal language. The sign language of the universe is extremely easy. So now you do the same with your soul. The way that I showed you how part of your physicality has become part of your emotion and is part of your soul; you have divided it and then you understand a lot.

K: We have entered the true cycle. For those of you in Armenia looking for the peace and you have one of the geniuses of plasma, Armen, sitting with you, you can soon change the soul of the nation in a very simple way. You reach the soul through the language that is the language of the emotion according to your own work. (2.09.03 minutes) On the screen you see the picture of the first plasmatic glasses. They look like 1930s glasses people used to wear; soon it will be modified. This is amazing; we have geniuses around us and they deliver. Now make the glasses for the emotion. When your lover says *I love you* and you wear the glasses you can say *you are thinking about someone else*. Very bad. Church will make no more money because nobody came to church this year.

K: If you come around this part of the world in Italy we see a lot of churches. And there is a small town there are 20 or 30 churches and you think there must be very religious men in this village. But in fact it was what they stole from the men. They told the men who went fishing that they needed to give some. Before he left to fish he gave, when he came back alive from fishing he gave some more. And while he was away according to the structure the wife gave because she went somewhere else. So in fact, the fisherman fished only for the church. That is why the villages stayed poor and the buildings to God and whoever else became big. Now you understand that in space you cannot give to these thieves of fishermen. You have to understand: This is very simple. If the man doesn't understand he will be abused and it is my job to teach you not to be abused.

K: We saw last week and we showed the signs and it was written everywhere but those who know that in time they will be in prison in their souls and their physicality wrote a lot about Satan. But they didn't know the facts and know we understand the language of the universe and now we teach it. If the freedom of man is 'Satanism' then we are all Satans. Because every man has to be free and we gave the bucket to kick and they kicked the dog and the cat went meow. This means that now you understand who the Satans are among you and who the real people are who have deceived, damaged and killed. Now we let them have a field day because they will have a very small field of 2 x 4 square meters for the rest of their physicality. You took the life of a boy; we take the life of a nation. They shall be no one to be called, no one will call himself a Jew because now you can see the true action in the soul of the Moses and I wonder how many of you want to be connected to bloodshed.

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: The same behavior has got to stop. Now you understand that every word I said had a meaning and now slowly, slowly we unravel the meaning. We call on the world leaders to get together very rapidly and plan the world peace in conjunction, not with the UN, but with the Universal Council. The core team was summoned this morning to meet and the soul of the members of the core team of the KF is there to support the total change. They are the people with the sincere intention with the souls of the disposal of humanity and that is something you shall never understand. In so many ways we have started by passing the physicality and the emotion and going to the source of the structure of the human race. In that way very soon we don't need appeals for peace by the Armenians, but we need to say *I am available, take what you need, and peace be upon you. Because I have given what I have.*

K: do we need to fight or now do we finish fighting because we see the soul of the man. I advise and encourage you to start building, test higher order, understand, look at the neutron and not the electrons and protons and you will understand how much those scientists who were promoted by the present people who were running it, diverted the whole science of man deliberately for the man not to see the truth. In fact, from the beginning the scientists who went for neutrons because it is the controller, were diverted to the proton because the church diverted everything in reality not be shown and now you know the source of that.

K: The extent of the wars on this planet at this moment all goes to one place. And that comes as I always said, *all the roads and all the wars end up in Rome, as well as all the killing. Would you like to be part of it?* In fact, all the wars on the planet at this time are the slavery of the souls of the man to keep people even themselves are fighting among themselves because they are entangled in physical lives and it ends up in the Vatican. We have two choices: let the soul of the man who wears the robe of fallacy speak. When you can present and bring the soul of the Christ there shall be no pope and not because the religions have spoken but because Christ has spoken. And, Christ was not born out of the ground. In Jerusalem you have the cousins and the blood line of Christ. You can still as Palestinians, bring the real true features of the Christ and we will see who is real and what are the facts. And then we will see a lot.

K: I have force you in that direction because this structure that was set in the Vatican has created mayhem and the only way we can change it is by people seeing the facts. They call themselves Masons and Knights of Malta. There are no bigger criminals than these and they infiltrated the KF by name and then by structure. That is one of the reasons we literally pulled one out of the KF in the recent past. They wear the emblem of criminality and they walk here claiming to be saints. The reality is, do we need these people to come into a new technology and environment like this to break up the whole structure

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

to carry on with the structure of the past? We gave a warning that was not listened to. We had to take action and we take action again. There is no room for superiority or one being higher than the other.

K: I carry two souls: The soul of physicality and the soul of the Creator. When I speak as a man, I live the life of the man. When I speak as the Creator then the totality of the Creator speaks. That is why I carry the full knowledge even though I live in the physical body of a man. Now you understand where I come from. When I teach you, I teach you I teach you as the soul of the Creator. When I am a man, I am a father, a lover, and a husband and everything else in physical life. Never make a mistake between the two. So I carry so much knowledge to share with you as it has been that the father shares his knowledge and his wealth with his children. And man on this planet is part of the children of the Creator across the universe. We gave you the same knowledge that the children of the family of the universe are all equal and that no child is superior to another whether in the physical life here or in the universe.

K: The man of space from this planet will understand soon that when you enter the universal community you say *thank you Father that you brought us all as equals*. There shall be no jealousy because I share the knowledge in such an equal way so that none of the children can be more than the others. Those that want to create separation are on the path of abuse and we have seen what has happened to the abusers. You have to understand something very simple: in a very short time, in less than 2 or 3 years I walked millions of you on the path of the creator and the path of knowledge to the Creator. Now it is for you to decide because I can teach you more. I can teach you the tricks. It is like sitting on the table with your child and trying to hide a coin from him and then he cannot see it. But at the end of the game you show him how you do it and this is the pleasure. You didn't see what was right in front of you; that is how the love of the child and the father is established—you show the child all the tricks that you know that he can repeat and be a pleasure to others.

K: So, I have taught you and I will keep on teaching the rest of the knowledge of the universe and in time you will understand something very simple. There is no difference between the children of the Adam and the children of the rest of humanity and the universal council and the universal community as a whole. So, please start the process and see and change the soul and the physicality changes. Some of you will even change the color of your skin, your hair, or in totality of physicality and then you haven't become mutated but you are in true shape of what you want to be with the soul. The physicality has taken the different shape because the information, the condition of the environment has played the Chinese whisper. Then you understand that if you really want to be blonde, black haired, have long hair, and have 20 legs so you can touch so many people at the same time because you are too physical; then you will see new creatures. Now the creatures are in the state of emotion of the soul that dictates what pleases it. It is only there to give in that position.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: So you don't become a chameleon but a representation of the true structure of your soul. Now we have a very big question. Now that you start understanding, some of you used the health pads and saw people's pain disappearing. Now that you make the tools of the soul, what will you see? Would we start seeing those among us who are not of the blood of the Homo sapiens? Would we see that they are not of the hemoglobin of this planet? Do we still greet them, love them, and care for them because they still have a soul? And then if you understand this, every entity has his own soul and does not exist, the principal matter is the soul of the matter. Then you decide how you play the game and you decide how you want to extend the knowledge. If you want a generator, I build a generator. If you want a flying machine, I build you a flying machine. You want a flying saucer, to travel with the strength of your soul through the realms of creation without using any craft, now you understand a simple thing.

K: The totality is one and depending on what strength you add to where will be the point of your manifestation. I said to you many times that plasma is very simple. On the same plasma you carried the information of the GANS of the copper, zinc, hydrogen and everything else. Extend your horizon and now if you understand you can create the plasma and the magnetic field of any place in the universe. How far do you want to go? You can create the condition of the universe within the structure of your soul and there you shall be. As I said to the Americans at the table with the first peace talks with Iran we cross your nation many times without you knowing it. It means that we have the knowledge which you do not have. And now, in a very recent past, we have seen our knowledge has been used by 3 nations and shared by Iran with them. It has been used in a perfect way. We have seen it shared with Russia in the recent past. We have seen it shared with the Chinese and we saw its influence in the time in Syria. So the technology has been well used.

K: As I said to the Americans *do not make the Creator on the black list because when the Creator is on the black list there shall be no America. I have to be free to teach humanity wherever I want to go and not by a President to put me/Creator on the black list so he does not show his criminality.* So as you select your nation or your leaders you have to stand for what comes from the leaders as you selected the wrong soul. So my advice to President Obama is very simple. Take me and the KF off the black list which is not the color of your skin. You are brown and in the true center of the body of the man are clear and transparent. We have to be able to move to teach and bring humanity out of slavery or we will make a slave out of the United States if we have to, to teach the others.

K: I have been patient and I have taken a lot. Now, standing on the platform of peace we have to stop those who created wars. It is very simple. I don't do it because my wish is peace. And you very simply will create it and then we have to see. Then we have to understand and we have to bring the change

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

and in bringing the change man enters into the universal community. Now a lot has become clear. Go and find the material which creates laughter and joy in the bandwidth of the strength and make this planet a happy planet. And then find the material which makes the bandwidth of peace which means comfort and giving.

K: I explain something very simple and I show you a trick and it's for you to understand it and to play it. (2.27.54 minutes) You see the copper and zinc. Dr. Klaus can you bring us the isotopes of copper and zinc next to each other on the board please? You understood that emotion to show itself in physicality as a strength and bandwidth. So your laughter, joy, crying or pain sits somewhere in the isotopes between copper and zinc. Now you can detect emotion and if you want to make the happy planet it is the bandwidth across all the amino acid. That is where the isotopes come to play. Then if you understand this go back to the level of understanding of the whole structure of the bandwidth of the soul and then create the soul which is giving and then create the soul which is there and you as the center to give and you find out you reach the center of the creation of the universe.

K: *The Periodic Table of Elements* (2.29.55 minutes).

<http://www.ptable.com/7>

<http://www.dayah.com/>

K: You have two tables, one for zinc and one for copper. Then look at their isotopes. If you go to Wikipedia at the bottom of each element on isotopes, you have a very good demonstration.

The screenshot shows a periodic table interface with the following features:

- Columns 1 through 18 are numbered at the top.
- Column 1 (Hydrogen) is highlighted in yellow.
- Element 1 (H) is highlighted in yellow.
- Element 3 (Li) is highlighted in yellow.
- Element 11 (Na) is highlighted in yellow.
- Element 1 (H) is highlighted in green, with the text "1 H Hydrogen 1.0081" displayed below it.
- Search filters are visible: "Alpha decay", "Beta decay", "Proton emission", "Positron emission", "Neutron emission", and "Electron capture".
- Radio buttons for "Selected" and "All" are present.
- Elements 2 (He), 10 (Ne), and 18 (Ar) are visible on the right side of the table.

K: Start with 52 with copper. If you see the isotopes of both copper and zinc you will see what you need to do. Then you will easily produce the bandwidth strength the way you made the tomato. You had the water and you had the taste and the smell of tomato. Now you can create with the isotope strength, the happy drink. It's a drink that is the happy drink for the world. You find the soul and put in its interaction in the specific condition the strength between the zinc and copper that connects the physicality to emotion which is like when you something beautiful and you cry with joy, or you see something horrible and you cry from sadness. Each of those has a strength that triggers the emotion in the physicality. Now with the knowledge that you gained today you can produce it. Now look at the total isotopes.

Zinc:

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

Five isotopes of zinc occur in nature. ^{64}Zn is the most abundant isotope (48.63% natural abundance).^[26] That isotope has such a long half-life, at 4.3×10^{18} a,^[27] that its radioactivity can be ignored.^[28] Similarly, ^{70}Zn (0.6%), with a half-life of 1.3×10^{16} a is not usually considered to be radioactive. The other isotopes found in nature are ^{66}Zn (28%), ^{67}Zn (4%) and ^{68}Zn (19%).

Several dozen radioisotopes have been characterized. ^{65}Zn , which has a half-life of 243.66 days, is the least active radioisotope, followed by ^{72}Zn with a half-life of 46.5 hours.^[26] Zinc has 10 nuclear isomers. $^{69\text{m}}\text{Zn}$ has the longest half-life, 13.76 h.^[26] The superscript m indicates a metastable isotope. The nucleus of a metastable isotope is in an excited state and will return to the ground state by emitting a photon in the form of a gamma ray.⁶¹ ^{65}Zn has three excited states and ^{73}Zn has two.^[29] The isotopes ^{65}Zn , ^{71}Zn , ^{77}Zn and ^{78}Zn each have only one excited state.^[26]

The most common decay mode of a radioisotope of zinc with a mass number lower than 66 is electron capture. The decay product resulting from electron capture is an isotope of copper.^[26]

Copper:

Isotopes There are 29 isotopes of copper. ^{63}Cu and ^{65}Cu are stable, with ^{63}Cu comprising approximately 69% of naturally occurring copper; both have a spin of $3/2$.^[16] The other isotopes are radioactive, with the most stable being ^{67}Cu with a half-life of 61.83 hours.^[16] Seven metastable isotopes have been characterized; $^{68\text{m}}\text{Cu}$ is the longest-lived with a half-life of 3.8 minutes. Isotopes with a mass number above 64 decay by β^- , whereas those with a mass number below 64 decay by β^+ . ^{64}Cu , which has a half-life of 12.7 hours, decays both ways.^[17]

^{62}Cu and ^{64}Cu have significant applications. ^{62}Cu is used in ^{62}Cu -PTSM as a radioactive tracer for positron emission tomography.^[18]

K: With this knowledge you can produce this and look at the total isotopes between zinc and copper and you find the total bandwidth of the human race, emotion with physicality. It is a very large bandwidth; it is a huge bandwidth. This is not complete and we need a more complete table. There are hundreds and hundreds of isotopes on each one. Some have been clearly defined in some papers.

(More on isotopes: <https://en.wikipedia.org/wiki/Isotope>)

A: Just click on isotope of zinc or copper.

K: Armen is expert in this; he made something recently.

K: Now you understand how you can make. (2.13.21 minutes) Look this is zinc. Start from 52 to 68 and there may be more in this. Now look at the chart (2.13.52 minutes). Look here at Cu plus 72. This is

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

emotion connected to physicality at a given strength. Is this to your amino acid the strength of happiness? Is this what we commonly call a happy nation? Start understanding the true structure of nuclear physics in a plasma which all of you understand. You are all more educated in the world of science than anything else. Can you click on the most stable isotopes of zinc as well? (2.14.41 minutes) Now stop and bring the copper down to 52. Now you see your emotions. You see only copper more or less in 52 or 53 and this is part of your physicality. The rest is in your emotion where you see we have zinc 54 and you have copper 54. Go look at the neutron and look how the neutrons position themselves. Then you understand how everything fits and in what combination such as copper 62, 61 with zinc 61, 62 will give you sadness or happiness.

K: Is sadness to you when you have to give from yourself or is it the joy that you have given. If I give a cup of water to someone who is thirsty, I enjoyed and I helped. But, if the same person grabs the cup of water from me which I needed myself, it's the same cup but the emotion is different. You have to look on the sides of physicality and emotion. This will open your eyes to a lot if you understand it. Have a look and it's very nice where zinc is 61 and copper is 61. It tells you on the top: dotor isotopes. So in that bandwidth you have found the reality. Have a look at copper 68 with the interaction of the zinc; look at the copper 62. Each batch, each strength is one level of the emotion of the man. (2.17.10 minutes) Then you can create a planet which touches the emotion.

K: This is like going to supermarket and they give the order for the strawberry. Now you can create the order of peace. I can create a machine today and no soldier would know why they are holding guns. They just walk off. The beauty of it is that fighting and taking are against the nature of the plasma. So, no nation can go into war if you create the right fields of satisfaction of an emotion. Now you know where the soul is; you can become the transition part which is the emotion. The physicality just follows the order of the 'boss.' It is very simple. Now the knowledge is on the table and as I said many times before, we had to wait until the knowledge of the man is more or less complete and we can finish it up with what they have gathered. If we would have tried to explain this 20 or 50 years ago no man understood. Now you can see it physically and we have the science advanced enough that you can see and a large number of people can replicate.

K: So the knowledge should not be lost. People will not use the knowledge to become 'Satan'; we are scientists of the universe. We understand the totality. We have to look for those who committed the crimes and wore the robes of the leaders and with it they got protection from them. Now you understand why the life of Fabio was sacrificed for the freedom of humanity. Those who thought they had done their job, freed the man. That was the last crime he will ever commit and he will be brought to the hall of justice through his soul. Those who sat, planned, and killed so many people, so many scientists and their families for years, transferring everything into their hidden banks, the souls will us

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

where they have hidden the bodies of the children they abused. Then we shall see. Those of you who are born and of the intention of the peaceful will prevail because you are the givers and by giving you elevate. By elevating the difference shall be shown. The physicality will speak.

K: I started this process exactly 12 months ago knowing that soon I will leave Iran now. We started the process of bringing everything to correctness through the Mr. Sterling case. Now we see the rest will follow. When a man is drowning what does he do? He splashes and kicks to get himself above the water. We saw the kicking and the splashing of Red Circle and how we hand over its soul. The process is simple: These people were born for you understand how the men who are wrongdoers operate, because there is no use of my telling you a story that there was a king who did this and that. These souls were there to show the present behavior of the man that we can all analyze and see it and learn how to promote the soul of the man. These are not what you think; they are part of the process of the teaching for man to take the next step.

K: This is simple and is the true understanding of the structure and now you have seen the soul. I told you this morning that by the end of the teaching today I change everything man has ever known. Up until now we taught about physicality, the GANS and the rest. Now, you see how you make it, control it, divide it and if your intention is to feed the man who is in China in the flood and who is looking in his emotion for where to get food because he does not understand the connection between his physicality and his soul, you can feed it from the seats of your home. Out of nowhere he will be satisfied and he walks away and finds a solution. You don't need to be there and many of you have the misunderstanding of praying and meditating. I say that give and then by giving if that soul is in the condition of wanting to receive, it shall receive. You send very much what is on the table here in the spectrum and it can only be absorbed if there is a receiver.

K: The members of the core KF are listening and you know what I said this morning and now you may understand and you understand the position of your soul in respect to your physicality. It is time to open the doors as one and the core as a whole will shine on humanity the energy on the soul and the energy that it needs for humanity to elevate. I call upon you to do what you have been here for. The same goes for the universal council and those of you who have become members of the universal council, your position is very clear. You are here to serve humanity in the physical state of their souls and if you need support the soul of the core is there for you to support. We will see the change in the human race in a very short time. Start building and start understanding how to make the soul and then you will understand the strength of it—is it a giver or a taker? You will see the physicality of it because the emotion will talk.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: I have seen this many times. The mouth opens to say *I love you* and it comes out *I hate you* because you read the emotion. Oops...I didn't mean that says the one whose mouth opened—it came out the wrong way. But in fact it is the emotion showing the true face of itself. You hear a lot of people opening their mouths and their brains and physicality think they are talking about *I am a man of peace* but the words come out *I want to kill these other people who helped me to kill and these other people who financed me*. Then you know exactly where to get them. It is very simple. I made it so easy that no man can abuse the other. But don't forget that you can go back to the teaching and produce GANS that in combination the effect will be the combination of the isotopes. Do we in reality need or do we in reality give because we have no needs?

R: A question from Jay who asks that the way copper is found in rocks on earth, is the earth in contact with our emotions?

K: of course, you are part of earth. Your body came from this planet and so you are part of it and it gives you part of it. You are made of it; you were made from earth. *This is my body; this is my soul*. Your body came from the material side of this planet and the soul came from the fields of it. If you go back to the knowledge of the different cultures and different parts of this planet, different cultures have different behaviors. It is very much related to the materials they consume in respect to the planet, from the part of the planet they are on. In interaction as you see on the board, they have different levels of zinc isotopes that create that kind of emotion and behavior from that nation. When they change position they still look for the same; but then you find out they change.

K: In a way we are part of it. In a way what we take is what in reality that we are made of according to our strength and our position. Why are some nations peaceful and why are some nations always at war? As I said, Hitler in 5 years killed 20 million and we called it the holocaust. But the American has killed 20 million in the past 20 years and we don't talk about it. The strength of the murder is the same. I said in one of my talks to the guys in Vatican recently and in so many ways I explained it – the blood will run from the steps of the Vatican—not of the human race and not of the man who believes in God, but those who falsified and walked in the name of God. Not physical, but blood as in the water of the creation of the motion of the emotion. This means the soul has been taken away from it and nothing can come out of it except what is left which is wasted energy.

K: Too much crime has been done and we have no other choice but to clean up. This is the problem and this is where you understand how to use it and not to be abused. My job is very much like Mohammed, bless his name. He saw how living in the Creator without a statute has brought people who can live independently. He went back to Mecca and destroyed all the statutes so that people would not believe in the statutes any more but believe in what it called about. That is what he did. My job is more or less

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

the same. The son is the same as the Father. I have to destroy the statutes made in the name of God now and where you are abusing the emotion of the man in the name of the mosques and churches and other places of worship. People now have the education and understanding in a level higher to understand the Creator itself and not the angels of death.

K: Now in space there shall be no churches, mosques or temples because in space your soul itself stands to be the temple of truth on its own. This is the change and this is where you have to destroy the false castles of worship. They have done nothing but take the physicality in the Coliseum and they too the soul of the man in the Vatican to stay. They did the same thing in the time of _____ (? 2.31.38 minutes). They took the physicality of the statutes to non-physical dimension and then they started abusing it again because now you were something that nobody could see. So now the man is wise. Man has to understand he is himself, the prophet of himself to conduct correctly.

K: In space you see the two fingers and what it stands for or the 3 fingers and understand. Am I giving, am I short, I need some myself so I can't give you all of it or I will not exist. The management of souls in space is like joining in a cup where you put zinc and copper together. They work as one. You have to learn one thing—not to become a slave to the knowledge or the abuse of the knowledge but become a 'slave' to peace and equality. Then you find out that everything changes; we have no choice. When we came and we ran through the punishment from Iran, to Belgium to Italy and everybody in so many ways, I said these souls are here to serve and it does not matter what hardship we go through. Because with that hardship they showed the people who operated in the backgrounds to do their jobs. Now you see the bosses and the abusers.

K: There is a lot of movement in the Vatican to stop the KF. A huge amount of effort is spent in there. A huge amount of effort has been spent in different names. At this moment in time we have communications we can show. We said the Jews don't exist anymore in Israel. The Vatican and Islamic world and now they are trying to reach the Chinese community to black list the man who teaches the science and the peace of the world. Because they are in fear because now their own hands are opened up. If I do what they do, I blacklist the man from the universe but that is not my job. President Obama you made a very big mistake when the American government put me on the black list. The black list is the color of your skin; the soul is clear. Any questions?

Aza from India: When you said there are no more Jews? What does that mean; are the all the Jewish people bad?

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: Anyone who murders anyone or who does a crime is a Jew. It does not matter what nationality, what name. This means the behavior of Moses was nothing but criminality, crime and killing. That is what it means because that is what Moses did. Read the Torah; I don't need to teach you. Don't read the front; read the depth of the knowledge. When my great one died in Tel Aviv some years my uncle paid a lot of money to write the handwritten Torah in her name. I asked my uncle why he spent so much. In his own simple way, he said to me that someone will read it and understand the Creator. But, the same one now understands through work what he meant and what has been done.

K: Moses created a lot of mayhem and a lot pain and murder. We see the same with those who call themselves the same thing. So, blood has been passed on and that is why I said that no one will call himself that name because it is related to death, to criminality, to abuse and which soul would like to say *I am a murderer, I am an abuser, I create and commit crime?* So we change the name to a murderer. Who likes to call him because you see the behavior now? In China on one side of the world they build. On the opposite side of the world in Israel there are the most advanced hospitals in operation. The crime is not the blood; the crime is what has created that. This is where the continuously the same process goes. I am not anti-Jews or anti-Palestinians. I am there to support both and I stood heavily for Palestinians for years even when I was in business because I could see the wrong done by my cousins on the other side of the wall. I explained to them many times what was being done was not right and you were still carrying on because abuse was part of the culture.

K: In a family when a father is a doctor he brings up a child to be a doctor and to serve. In the criminal worlds when you see the gangsters the children follow the same path. That is the only hierarchy they see themselves in. The same has been done by the blood of Moses. He killed and they kill and they see as their right to kill. He robbed different tribes for their wealth and their women and we see the same thing with the Rothschilds and the rest who are killing humanity. So we take the soul out of those who taught them the wrong way. And they carried on with the abuse and last week I showed them very simply. Now you understand the position of the fingers and those who stood, taught and supported the wrong doing of these people are now sent home with their souls. They have no support. These people could run and abuse man as long as there was someone in the background telling them what to do. They came from the universal community and they enjoyed seeing how man played. Now they are gone and there is no backing; the legs have been taken out from under them and you will see them crumble very, very rapidly.

K: When you send and you have the souls like Renan in the Philippine KF who are prepared to go knowing there is a conflict between their nation and China, to serve the Chinese...this is a pure soul. They respect him and because of that he brings love and peace. We see people like Professor Zhu in the background and they are doing a lot of work in different levels. We see people like Armen and the

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

others. There are very few, maybe no more than 50 souls that are sitting in the center point of the KF and carrying humanity in a very rapid way. These souls have been chosen and what they did wrong in themselves they corrected in time. But we don't let the illuminati's or others to come and say proudly *we told you who we are* and then they are there to abuse and do something wrong. We take the soul apart from you and then you see when you don't receive. This is how simple it is. Proud to be an abuser. So they will be proud to be among the thieves and you are the king of the thieves. You won't be accepted by the rest because you take from the efforts from the others.

K: When you are put up right you claim all sorts of things. Don't forget we walk you into traps of your own souls as we have done in the last few weeks. Now I have finished with teaching the matter state. But my job in teaching of the soul of the man has just started.

A: When somebody commits so many crimes you said their soul is going to be taken and be divided to a thousand souls and put back in a thousand bodies. If they come back to earth and they are supposed to suffer, if they are someplace in a town or a village where currently and someone goes there who has a good personality and good heart and help those souls, does that person make a mistake by helping those people?

K: Understand what I said about the Cesium and the Iodine. And about the division of how much you want to give and how would give to others. Understand the principle as the center; it doesn't matter how much you give-- it's a drop in the ocean. You can give a lot to the others in the physical matter which is much lower. Explain to us and you talk a lot about the pain. We have had you on here a few times. Why do you feel the pain? Would you like to share with us, because then man finds out why you are even here?

Do you feel the pain or understand the pain?

A: I was in prison when I was pregnant with my daughter back home in Iran.

K: If you don't mind, may I ask why you were in prison?

A: Because after Khomeini came to power we didn't like when they closed the universities and I used to have flyers. I had flyers in my hand and after midnight we would go on the motorcycle and drop the flyers at the homes of the people who closed the universities. That was my crime. There were several of us. I used my home for group studies and let people use my home. At that point I was married and pregnant. One night they came to my home and blindfolded me and my husband, now my ex-husband and took us to prison. I was there for 3 months and then I was physically and emotionally abused. They blindfolded me and put me against the wall and told me there were going to kill me if I didn't give the names of people, especially my uncle. They shot around me. I thought they were going to kill me; they did this to me a couple of times.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

K: So you experienced what I felt in the hands of the Canadians who told me every day they were going to shoot me in the head if anybody knows I am there. We have been spared by the same masters in physical life.

A: When I came here I had to go through a lot of hardship to get where I got.

K: Can you explain to us how you came out of Iran.

A: When my daughter was 7 months old we sold everything we had and we paid someone to get us a fake passport. Since my ex-husband had left already I had to leave with my daughter and there were 14 other boys in their teens fleeing Iran because of the Iraq war. We walked from the border of Iran and Turkey for 5 days until we ended up on the border of Turkey and I ended up in Istanbul.

K: You are a dentist in New York.

A: Yes.

K: It was a long journey.

A: Yes. What I would like to say is this state of mind. I can't talk about myself. But when I hear people talk about 'my children' I never understood why everyone talks about their children and what they want for their children. To me when I look at the child my feelings for that child is that I am a child too. But some people have the essence and some people don't. We are all the same and we are billions of cells in our bodies and we don't understand that we have a 'bigger' body.

K: Can you forgive the people who created this life for you in Iran?

A: I already forgive them. I always forgive people for what they do to me because I don't want to hold anything on my shoulder when I leave this world. Actually what they did to me made me who I am.

K: Thank you for being with us.

A: I have a question about matter and the magnetic field. We have something called principal matter but we never access it and it's like the main switch light in the house. If we can access the switch, there are branches of the principal matter. From there I can go to any other branches around.

K: Yes, you understood. Dr. A is part of the development of the medical teaching in the KF. I was sitting next to Giovanni and hopefully in the next week or two most of the application of the KF will be tested in the hospitals and all the technologies of the KF will hopefully be certified. As it is certified in one nation it will be done by doctors independently in the hospitals. We will see the change where not only do we become the scientists of the physicality and bring changes to the physical life and the emotion, with the teaching of today we can teach the doctors to the next level of how they reach the soul of their patients. And then they can truly give to them and their physicality will change.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: It is very interesting how we get tested and how we fail the test and we get tested again until we pass. If we don't pass the test we don't mature. With failing you find what your weaknesses are and what you have not understood. I had the same situation as Dr. A. some years ago and they put me in 11 days incarceration and every day told me they would shoot me in the head if anyone knew I was there. And then they turned me back into the hands of the abusers who have now killed Fabio. They are used to it. In time they come to see you and they take you to a place they have never been. When they lie we see the weak points. We push until we find out the weakness of the soul. It is very interesting how these abusers justify their abuse and the continuation of their abuse. Now the reality shows.

K: It is very interesting how we let them play the game. We played the game they have always played until they showed how they played and they literally walked themselves into a trap of their own lives. You do not understand when DrA tells you that they put you against a wall and they tell you that they are going to shoot you. You become the soul of yourself and the judge of yourself and what you have done right and what you have done wrong. In seconds your whole life goes through you. In that process you mature because you understand where the weakness was and what you have to do. It is very interesting and at the moment we have a huge problem with a man called Obama. He has blacklisted the KF because he only sees black on his physicality. The technology and the knowledge like this have to become the shining light for humanity. In time his soul will get the same position and it will not shine. We should be free to teach to elevate the soul of the man. the man who calls himself the most powerful man on this planet is actually the weakest and the most bankrupt and he takes the physicality of his skin to the color of the most advanced technology for the savior of the man.

K: We need to understand that the knowledge has to be to the benefit of man to elevate all and not for some to carry on with their abuse. It will be very interesting how we bring the technology as a peaceful technology and the way we see the collaboration and co-operation. We use the language of peace and the language of science to create this and this is what should be ethos of every KF. We don't promote war; we promote peace and that way man forgets wars. This is what we have to do. Find the strength of the soul and elevate the soul. As I said, *I forgive them. This means that I elevate them.* They cannot take more than what I have already given.

Professor Zhu (PZ) and associates have questions:

PZ: I have a few questions from knowledge seekers in China. The first one is about the composition of the GANS in the plasma glasses you show right now. One day would you present more on the plasma glasses?

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: We taught this a few weeks ago and the knowledge seeker has built it. All it is, you have to understand what you want to see and at what strength. Here you can make the glasses with what is on the board now (3.55.25 minutes) with the ZnO₂, the CH₃, the CO₂ and NOCH and then see the emotion of yourself or your child. If your child says *I am in pain* when he is actually playing a trick to get your intention you will see it. You use the water of the GANS listed here.

PZ: What are you supposed to see with the glasses?

K: You see the emotion and you feel it; there is no need for talking. You see the emotion. If you want to see with the physical eye you will see. If you are after looking at the physicality and the dimension of the man you use Copper. If you are dealing with an entity from let's say, Planet Zeus, which uses nickel as the base physicality, you change the copper to nickel and then you see the physicality. If you want to see the emotion of the entity in the universe where the emotion is on gold or silver, you add the strength of the silver into the composition. The man emotion (on planet earth) sits on the zinc so the rest is very easy.

PZ: So someone asked if we can see the universal species with these glasses.

K: of course, that is why we taught it. But you have to have the right composition.

PZ: The next question is how to transform the anxiety emotion into the peaceful emotion?

K: You have to understand the strength of it and start playing and what elevates it? What is peace? Peace is when you see no changes in any of the emotion—no hardship, no frequencies in pain, sadness. The condition of peace is the condition of balance. KF and other scientists will start developing this. We know this is the state of peace and the man who is content and happy created this field and this is the field where we should look for peaceful emotion and then you will deliver this across the planet. Even hunger...if you satisfy the emotion of the hunger, man shall not go hungry and he only receives what he needs.

PZ: Next question: What is the food GANS used for and what is the difference between the food GANS and the amino acid GANS?

K: There is a big difference. The food GANS is the composition of other entities with the amino acids that fit them. The amino acid which is the human is the one which can link up with the strength of the plasma of iron. It is a big difference. We call all of them amino acids. But there are so many plants and trees on this planet so there are so many different kinds of amino acids with different strength and position. That which is of the strength of iron that can lead to the creation of hemoglobin, and then it creates the first step of the interaction. If you have a radioactive material next to it, cobalt, this allows and gives it so much energy that it can divide itself. That is how you create life.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

PZ: Next question is how does the soul communicate with the higher self?

K: The soul of what? The higher self?

PZ: You have a higher self.

K: They should have understood that the only higher strength is that you have to go to more inner strength. We all have the same inner structure and it doesn't matter where you are in the universe. It is very much like what you see on the board with the zinc and copper. If you go to the higher levels of zinc and copper at the same time you have more intense emotion in respect to the physicality. So you can go in the same way in the soul. Everything is within you and it is you who has to find out at what level you want to operate and you are comfortable with and there is peace and respect with the other things around you.

PZ: What are the difference in the GANS, GANS water and the GANS water vapor?

K: Nothing; it is the separation and more freedom of the plasma.

PZ: Was the soul produced by the functional brain?

K: No, our soul comes from the physical interaction of the fields which of themselves come in totality from the higher order. When the higher order comes together it takes over the rest and this is what happens when your soul is created.

PZ: Was our soul created first and then followed by our brain and our body?

K: In a way that is what it does; your soul, once it is brought together makes the physicality.

PZ: Was the soul being created...is it mortal or immortal?

K: The soul is immortal. Let me clarify this; it is immortal in respect to the strength of the physicality but not in respect to the others.

PZ: For those with the black force refuse to cooperate with those of the white force, their souls can be destroyed?

K: Rephrase this: What you call 'black' we call of the higher strength in gravitation which means taking. When you talk about 'white' it is giving. You give more than you receive and then you receive more than you give. And then you change the fields of what it receives then the interaction will change when you give. Once you start receiving of a different strength you can only admit of a different strength. We had a very interesting test done recently where the tester could feel the choking that the system was taking energy from and suffocating. It means that the gravitation was more than I would like to give in that case. And the writing was nice and I switched the system off. I could not handle it and I could not give what the others wanted to take and I was not prepared to give. But if you bring balance with the

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

different structure with what is given and what can be taken, then you end up with physicality. You speak in that way because in the Chinese culture you live through the yin and yang. Most of these don't make much sense, but the

Chinese culture is close to both the soul and the physicality so the understanding is very easy.

PZ: I have a question for myself.

K: people of different colors?

PZ: What are the characteristics and features and can people of different colors be distinguished from each other? 4.26.11

K: It is like the different isotopes of copper or zinc. It is what they want to interact with their environment in respect to who they are and who they are. You can be born, if you change the soul very rapidly, and many of you will find this. You will be black today and white tomorrow and white today and black tomorrow. People don't understand this but a lot of people have a combination skin or patches in their skin. If you ____ (4.27.00 minutes) they change the color of the skin in no time. If they want to manifest different things they can do that.

PZ: As a mainstream scientist I would ask you what you see for the position of the current system in the near future. What can mainstream scientists do in the near future?

K: We will walk away from matter state and plasma. And very, very rapidly because of the easiness of using fields we will develop new technology and new understanding according to the interaction of the fields knowing that this leads to the physicality. So if you are a medical doctor, you will not deal with your patient and what is wrong with the leg or where the pain is. You go to the soul of the man and see why it shows itself in such a position. No man will die of cancer in this space. Yesterday Giovanni and I were sitting with a doctor and I said that I would teach him a way that he could amputate and then see the finger or the toe grow. He asked how this was possible and I said it only costs ten cents. I have to go to the soul of the man to see if he sees the loss of the finger as the way that he receives what he needs or if having a finger gives him the totality and it doesn't need to take from anybody to get attention. Then you find out the finger will grow in no time.

PZ: So in the education system we spend 10 to 20 years to study, so what will happen in the future where we could accelerate the learning process and shorten the education period?

K: I have brought millions of men in less than two years to be the plasma scientists and the top plasma physicists in the world. The education does not need time—it needs understanding. If you can make

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

them understand we don't need to learn about the history of the man and how he destroyed things. We need to learn about the creation of the soul. Now that we start teaching it this way man will start seeing everything himself and he doesn't need to go to schools. Because in space there is no school. But you gather the knowledge because you can read the knowledge and you can speak multi-languages overnight. Because even learning language has the bandwidth in your brain so you change the bandwidth to French which is slightly different than English and you find it all sits in the same condition.

K: Now that I have opened this knowledge in the coming time you will see new sciences. People will study the depth of it and understand more of the new sciences. You can educate the whole knowledge of the universe to a one-year-old child. And then he has everything so he serves. This is the beauty of it. If you want, you understand that you see what you want to see through your emotion. You lock into or tune yourself to strength of what you wanted to see and you will see. You will learn. Everything will change from today onward. I said that we change everything. If those people will understand this and start working on it, you will see the changes. We see the GANS moving because of interaction. Now you bring the GANS of the soul and then you see whose soul is where. You don't need much and you don't need to be scientists. We have house wives and young children who are doing things and receiving the education of the universe.

K: It depends if you want to be a doctor, you go back and read about the physicality but if you want to be a historian you can go read what man did to himself in what time. That is different. Plasma technology is the education of the universe.

PZ: I talked to the senior chair of China and he told me only 10% of what is in history books is right.

K: The whole history is wrong and was changed to suit the people who glorified themselves. Do you have any news from the generals for us? Have we lost Professor Zhu? I think I asked a very sensitive question.

R: The microphone is still open. Okay, he has dropped out.

J from China: I just have watched some video that was organized by Eric and it had a lot of information and have a lot of advanced technology to transport people to move in a few minutes. They have machines that can produce food in a few seconds. The site was SSI (spaceship institute). So, I think they show this technology that is organized by SSP. I want to ask if you have heard any news about these people or have any comments?

K: I don't comment. I think if you see Professor Zhu he might tell you something about it.

R: PZ is back now.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

PZ: I was asking when I read they say that in the future people don't have to start with the historic books. They can actually watch history like watching movie. Can you use plasma technology for that purpose?

K: It is through the plasma of the soul of the planet. I have emphasized this before. You have your soul and the totality of the soul of the entities on this planet, creates the soul of the planet. It is like a cell in your foot and a cell in your arm. The totality has made the physicality and the totality of the physicality is the representation of the soul of the body. The same thing applies to the planet. So overall we are part of the bigger structure even though we see ourselves as independent. So we dictate and we are part so that our soul and the soul of the others on the planet, as I discussed with Armen, when the first students came to Sosano and sat around the table I said that when all of you have the same 'name' the ball will lighten up. Because then there is no difference. Nobody is taking and nobody is giving more than is needed. In that balance they create more light among themselves and they become the light of the ball. We saw what happened; there were murderers among us and the light never came on. They were puzzled because it didn't work and they couldn't see the true color of the people around the table.

K: do you have any news from your military for us?

PZ: Not so far. It is in process.

K: Thank you. We have about six doctors waiting to come in as part of the group and they need to clear us to come in as fast as possible.

PZ: They will do the background check first. Thank you very much.

Dr A: In the universe are there groups or entities who are helping the elite that we should be aware of?

K: No, we don't have any elite.

Dr. A: do they have help from outside?

K: No, let me explain this in the language you understand. When the messengers of God come in they always see a fire or a light. Now you understand it is the interaction of their soul and the soul of the creator. And they don't need the language. You will understand this very soon; you don't need someone to tell you they are in pain. As a doctor you see the emotion of the pain and you fill it with your soul and you give to it. Then the pain is elevated. This is the way the prophets of the past spoke about the fire because they couldn't say that in standing and watching there was a light. Now we understand there was an interaction with the soul of the man and the interaction with the soul of the creator and it's the light we have seen in the sky as we have here. The prophets of the lower order of the soul strength in the strength of the totality of the interaction of the higher which is the Creator, like the sun and the earth, it releases like the smoke by the fire. In that process the language was not officially spoken. They

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

were guided through emotion to where their destiny was. Then when it came to physicality they abused it because now they thought they had a better world, that they could 'see something.' And at that point they lost it. These are those who became prophets.

K: This kind of interaction has been taken between the universal council and a certain group, certain people who could influence at one time to change the lives for the betterment of man and these people stole like Moses stole from the man. And they, by having access to that extra knowledge which is now shared among all of you more or less, used that knowledge to abuse. These are the Rothschilds. These are the people that set up the Vatican. At this moment in time the universal council on the level that is not apparent to the ordinary man is in continuous organization and co-operation with different governments trying to bring man to see. But, we (universal council) cannot interfere and we cannot force this.

K: The man can do this through the same process that I showed you. Because you are the same amino acid as man you can create the conditions of peace and this will happen very quickly. We cannot enforce it but we can ensure to you how it will end in peace and how it is done. It is very much the same way as I showed you in making the CO2. And now you can use the CO2 for different effects. We showed the process and these people hid the box and everything. And, you used the field forces to create conditions for them. Now we take that process away from them. You will not hear these names; we have finished with them.

K: The Vatican will not exist because of the abuse it has caused to the man. So you have to understand that we waited for so long and now we have taken the steps to educate the total. But when you can see the light of creation with yourself as the creator, then why do you need others to lie to you and abuse you? Then all over the universe man would make as many mosques and temples because they saw a 'new intelligence' and now they make a temple there. The temple of the man should be in his soul and not in his heart. And that is where when they came to physicality they made a temple and abused it. Now I have taken you to the soul so you don't need to be abused and you cannot be abused if you understand this because you see the totality of it.

K: You have to understand how you use it. These people have used it in the communication with man for the past thousands of years and it was not for creating an elite. But, those who became aware of it created mayhem and all the wars are now financed by one family and now we are taking it from them. You will not hear of them; there will be no blood of them left very soon on this planet. It (the blood) is not even worth mixing; we dissolve it.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

DrA: Thank you, I understood.

K: Thank you. Any of you, if you understand what I am going to say, if you understand part of it, you may not understand more of it. If you, now that I have explained how you can see your soul and how you create the conditions of the soul, you can achieve and understand the process of the universal language and the universal condition and you can create the soul of the entities who are in the education of the soul and have higher understanding than you have. You have the same, but you have to go further to understand so you are able to use it. These will give you enough to enlighten you. But do not take them as prophets and new leaders. These are those who have managed to give more and go into their centers and give more. They are more mature and of a higher order. It is very much like your emotion and your soul. It is all the same entity. (3.43.54 minutes)

K: Do not get fooled in space the way these people have fooled humanity for years that they know more and when people start understanding more they call them terrorists, against God. The only thing that is against creation is the Vatican itself and the people within it. We have to approve this structure that was sent to the Rothschilds. One got the message from the Creator as the soul; one got the message in physicality and the two have joined to destroy humanity. They take the love of God. This is important because there can be no abuse and because we teach everything. It is you who have to decide. In the space now that you can travel with your souls and you don't need physicality now you understand how far and deep you can go and where the limitation is without harming the others.

K: I am elevated? Have I received enough to go into the higher order to be in the deeper condition and to give more? And then, you will understand that if you are not where your position is. There should be no witch hunt but the richest have to know where they sit. The problem which man has not understood is that the people of the robe used the passage through the soul and the people of the physicality with the knowledge of the physicality abused the man in the physical way with wars. One stole from the soul level and one stole from the physicality and now in the past centuries they joined forces and they all work from one center. All the roads lead to Rome and there shall be no center for that Rome center. That is where it came from.

K: This is how the abuse has come together and now we finish with it.

It is very easy. Make the systems and walk within the square of the Vatican and you will see what devils walk out where. (3.46.42 minutes). We don't allow anyone connected with Malta, Masons, or the Illuminati's to enter the foundation once you see them. They say we can believe them but what we hear is they have abused man more for the soul. You have to understand that when they say *I am a member*

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

of Malta and I am a Mason that they use both your soul and your physicality. And this shall stop; there is no room in the structure in our work for these kinds of people. They can cry whatever they like. They are proud to be abusers and we are ashamed to have them along with us. We still believed them and once we found out we put them out immediately. They are here now to change the course of the foundation to the use of their masters. We had one and we got rid of that one.

K: We work in every direction to elevate the soul of the man. We have people from Scientology, Catholic, Jews, Armenians, Buddhists, every path. We are elevating all except the abusers and now they find a way to break into abuse again. This is what has to stop. I have respect for every man on this planet except for the abusers who are very proud to say who they are—*I am here to abuse and I'm proud to show it* say the abusers. This must stop and we must understand how Masons and Knights of Malta are there; they are thieves...one for the physicality and one for the soul. So be very careful; you will see their soul and their understanding. We expose them very rapidly and it is for man to shine above them.

K: The KF was penetrated and we have managed at this moment to protect the foundation. And then they claim everything because now the abuse is not there and they cannot abuse. *They touched, they came close and we wiped them out with their own soul...nothing else.* There is no room for more abuse. I have within the structure of the foundation people from Scientology, Buddhism, Christianity and every path of belief in the way to elevate the man. We support and teach and then we elevate together. But we don't let the abusers come in and be proud that they are abusing. When it comes to it, we may allow them to elevate. But if we see the abuse being carried on we just take the lower part from them. They wear badges that they are proud to be abusers; they are not going to do this in my time and in my space. The KF has stayed pure and anyone connected to any of these two sides has to be given a chance to elevate. They cannot be put out because then we allow more abuse. This way we give from our souls and one day they will be eliminated. (3.50.14 minutes)

R: A few questions about making the GANS of Cesium and the GANS of Iodine.

K: You do it the same way; don't forget that I teach you something very interesting. Go back to what I explained a long time ago. (3.50.34 minutes) It is very easy—how do you elevate your soul and go to higher strength. Remember the spiral where I explained starting on the outer edge that this is copper, this is gold, and this is plutonium and the other elements. If you look at this in the plasmatic condition on the outer edge of the coil at the beginning (3.51.54 minutes) this is hydrogen, this is zinc, this is plutonium. You see and you have seen in the structures you saw from Dr. Klaus how zinc was in the total spectrum. So you can understand easily:

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

$\text{Cu}^n + \text{Zn}^n \rightarrow$ and you can reach Cesium .

Don't forget the neutron in copper and zinc.

Look at hydrogen and other elements in different combinations with Zinc. You can still reach and you don't always have to add. You can put different systems in a way of gravitational magnetic plasma. This is what I was just explaining. (3.52.59 minutes) And the same material becomes a giver and a taker. You create a soul or you create physicality in strength. You don't need to have the same. All you do is come enough that the totality gives you the strength of Iodine (3.53.22 minutes) and then you create a directional flow in or out of it and it behaves like Cesium or as a giver or a taker if you link into the gravitational field of higher order or lower order. At the moment we have a pot with every food you can imagine and you drink from it. You carry all the elements of the gravitational magnetic fields.

K: Start understanding and do not work on protons, but work on the neutrons. Understand that the sun is the center. If it has a higher order, magnetic gravitational field, so with this order for the sun it doesn't matter how big the others are, because the mass by order is bigger (the sun is 'bigger' than the biggest planet). The same is true of neutron: matter divides into both electrons and protons; so in fact, it is the neutron that is the controller of any nucleus, not the proton. This is where the total science of physics went out the window for centuries and we just followed it for decades; it was wrong, wrong and wrong again. We looked at the wrong side and we kicked the 'mother' (neutron) out and kept the children (protons and electrons) and said that the 'children' are the 'mothers.' This is the fundamental mistake. This is one of the cornerstones of my comfort with the professors and the scientists at the moment because they look at the structure of how many protons that this element cannot do. They look at *if it is 52 and 52 and there are 8 extra pieces it is the 8 which is the center and which divides*. This has brought balance. You have the sun, the earth, and the little moons that you call electrons.

K: The whole world of physics and chemistry and biology has the wrong basis and has been carried on that wrong basis. That is where the difference comes. The periodic table should be changed in the state of the neutron and not the proton or the electron. That is false knowledge that has led to a lot of mistakes. The KF supporters can look into it in more detail and rewrite it. You need to look control, the head or the mass and instead you are looking at what we call the fallacy in science. Read Book 1 and if you understood the 3 books I have written then you will understand how wrong the present physics is. Yes, it was done intentionally because this way you could keep people aside. The periodic table is the most falsified piece of science ever put together and it has been accepted because it was promoted by those who wanted to keep true science away from man. How can you ignore the most important, the heaviest part? It has been done. You rewrite as the KF Knowledge Seekers. How can you say a neutron

ⁿ neutron

ⁿ neutron

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

does nothing? The neutron is the most important part of any part of creation. The division of the neutron leads to the creation of the proton. If you read the books in the way they teach physics you see how wrong it is and nobody ever questions the information in the books.

K: Rewrite it and put it up. Don't wait for Wikipedia to write it up because then you lose the control. If you go to Wikipedia, I don't exist. The whole understanding of the science at the moment is the wrong way around. I explained this 40 years ago to my professors. They said *Mehran you go and change it because we can't*. Why hasn't the world of science explained the structure of the life the way I did? It doesn't make sense. In understanding the gravitational magnetical it depends on what strength is going and the speed it is going and how much thinner has it been made to react with its environment. Then it becomes a gamma ray, an X-ray or whatever it becomes. It is very simple. The reason the world of science doesn't want to go with the teaching of what we are doing is because there are a lot of wasted PhDs. Peer review has to block this information because it shows that they cannot abuse.

K: Start writing papers. This should not come from me. Write papers; we will publish them for you. And then we will see if we can put the sense back into science and then we are not the 'Satanists' but the saviors. Those who call us Satans are the ones who have been working with their bosses, the Knights of Malta, the Masons and the Rest. The Masons were there to build and they actually built the wrong house for themselves and not for humanity. The abusers called themselves the 'protectors.' (4.00.08 minutes). If you (abusers) touch me, I take the soul of God from your blood. Work with me and I will bring prosperity and peace to humanity. This goes for all those—the President of United States, the Vatican, or the Rothschilds and the Illuminati's. I take you all on until we bring peace on this planet. I have the knowledge and the power and my power belongs to humanity and not to me. But we can totally change the course. So, go and start writing the true scientific papers and we don't need Wikipedia. We saw all the 'wiki's' stand up as the abusers and the pedophiles. (4.01.03 minutes).

K: We have to rewrite and correct the science of the past. What has gone wrong shows the need for correction and this is one of the major points of science that needs to be corrected. This has to be corrected and if you don't correct it the rest of science will remain wrong. In a way because they didn't understand it they created this condition. If you understand this even when it comes to diseases look at how diseases are created in the emotional level. What level of fields was used to create that emotion? Look at the magnetic gravitational fields and you can walk in from cancers from top to toe and if you bring balance to the emotion in respect to elevating the soul to be at the peace it wants to give, within seconds you walk out with no cancer. You have done it; you have worked with the levels of the matter fields. Now work with the levels of the soul fields. It is very easy if you understand it. It's very simple.

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: You have (4.02.23 minutes) the copper and zinc and don't forget you are working in the matter state field and then you just put iodine with it.

59 65

CU Zinc

124

I

Have a look at this. Take into account the higher order proton (I 124) needs a higher order neutron (CU 59 and Zinc 65) and now you see how the soul controls physicality and emotion. Some of you will make a machine with it and say it doesn't work. Excuse me: I am going to teach you something. Is Bernie on line? Don't go through detail but just the emotion and the feeling of what you felt in the past 24 hours with the system that I asked you to make, please.

Bernie (B): When I connected everything it shows a very strong gravitational field (4.04.07 minutes). You have this feeling of compression and that you are out of air. It is as if you are having your neck chopped.

K: Just by the fields?

B: Yes. I know the feeling of being exposed to lead GANS. I know that feeling is different with this.

K: Are you testing your emotions or your soul?

B: I think it is the emotional part. With that part I made a device and I have to feel everything around it with my hand and I can verify it with a combustion engine.

K: Can I give you a piece of advice? You know when you have that feeling of choking? Why not give to it to receive it that it gives you the nest and it becomes gravitational. Isn't the point that it needs it to elevate you and you are not prepared for the change? And then you will find out that you have the space ship and the lift and everything else because that will be the intention. Isn't that choking feeling a limitation of not wanting to give because the future can change because of me? What about if you give to it and then find yourself in the center of your wanting to be free. Understand?

B: Yes, I don't have that mindset when I do testing. I put myself in a neutral state accepting whatever will happen when I connect something. (4.06.34 minutes)

K: What if now you know the feeling with this special system testing for flight and energy. With it you need to receive huge amounts of gravitational so it can change itself to magnetical. And because this is the beauty of it that I explained and that is the reason I brought this up, that you understood the condition of the brain of the man and where the soul of the man sits (4.07.12 minutes). You understood the operation of magnetic gravitational field where you create the free plasma to lift. (4.07.19 minutes)

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

Now that you have created the similarity of the two, you need to get from this (the brain/soul side) to this (the gravitational magnetic field) in the figure 8 energy pattern. In the space between the two circles you have defined the position and the flight. You control through your emotion and your soul the condition and the position of the craft. I brought Bernie to show that now that you understood the position of your soul in the position of your brain, your emotion of true soul dictates the control of the craft. The reason you have the choking feeling is that you are not ready for the craft because you are looking for something somewhere else. If you build the craft, you feed it and because it is the same it will encompass you (circle around both circles (4.08.18 minutes)).

B: I am not allowing it connect.

K: That is it exactly; you have answered this yourself. You understand? I enjoy working with Bernie in development. Physicality is part of it but Bernie sees the soul. It has been a pleasure over the year working with him. Now do you see the control of the emotion of the soul over the physicality?

The system is physical and because it has created its own field he needs to take from the soul to literally confirm what the physicality wants to see which the craft is. That is why I told Armen many times to be careful or he would end up in the center so make it so he can walk out so we can get to him. This is important: we are on the verge of releasing the creation of what you call the space ship through very simple systems. But you have to understand that now I have told you how the soul operates and how you can get to it and develop it, now it is your soul that is control of emotion and creation. And so you will find out in a very short time that a number of people around the foundation will deliver space ships which have been your dream.

K: Can you tell me what the radius of the field was the last time you tested, Bernie?

B: The field measures up to 34 meters and it could be beyond that but we are out of space because we come to the wall.

K: So if you go further, so the minimum diameter of the field is 70 meters around. That is just where they came to wall. If you take it in the middle of the field now you can see the true space ship that you will build for yourself. You will see the light; do you understand?

B: Yes.

K: This is what I offered in so many ways and this is why we operate through the same process in what we offered to the Chinese government to be used in the South China Sea to literally create a field as we have done before to cover whole part of the ocean so that no warships can fire. So there is no war; we have no war. The only thing left is that we have to get people from the Philippines into China to help the people with the disaster because there cannot be a war. The total cost of this system is less than \$5 to \$10. The knowledge is shared and it cannot be hidden anymore and it has spread across the number of scientists around the world.

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

K: Now we show ... I know Professor Zhu is on line and this is the message I give you yesterday: *we can deliver both to the Americans and the Chinese that both trust each other because they both disable each other's armies. So nobody can fire anything. We don't sit on either side of the fence. We sit on the path of peace and our colleagues in the White House are on line and they listen. We are prepared to share the knowledge if guarantees are given that no bullets are fired and America will not spend a single cent on arms. Otherwise we bring the armies in the United States to a halt because it doesn't matter what you build, it cannot be used. We have shown it 3 times. This time we are very serious. We will stop every military ship on the high seas belonging to the United States. I have shown it can be done. At the same time, we give it to the nations that support peace that they can use it for the development of the man. So my offer stands the same to the Chinese government. The Chinese people are people of peace and we give you the tools so you can spend energy and time with the floods and other things coming that are more important than a few bullets and a few islands.*

K: I release this technology very soon and then the most sophisticated military forces including the F18s and the most advanced submarines will just float up like bubbles. My technology, the knowledge of the university should be used for peace. Any other use of it does not carry my soul so you shall not benefit from it.

K: Caroline is asking when mankind changes what happens to the minerals, the animals and the plants. Because you change and you elevate the soul, you elevate the soul of the whole planet and they change accordingly. Don't forget most of the plant life is at peace and they have reached their maturity. We harm them but when we use the fields we don't need to harm them. They live according to their own accord. Accidents happen but we don't need to destroy them.

Patrick (P): I have a question about the iodine. Should be using the iodine in the new systems as the lift systems as you taught last week?

K: You can use it for anything. Once you use it you have the energy system for the soul and not for the power generator. That is at the bottom of the line. This is the interesting problem; you all stick to very little knowledge so you are not embarrassed, but in fact you should go out and test everything now that you know that you can change the course for humanity. You will be amazed in the coming times you will say that you see shadows, creatures and all sorts of field forces. Once you create ____ which covers the spectrum of the amino acids in the soul level, now other entities that were just below iodine that you couldn't see, you will start seeing our friends in the universal plasma. (4.15.47 minutes) it will be very

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

interesting to see what are children are going to come home with. I want you to meet someone from Planet Zeus.

Dr.A: What is the effect of the GMO food on our bodies?

K: A lot and very little. A little changed on the top as we discussed in our agricultural teaching. All you need you have to bring ... When you modify a seed you interfere with its life. It is like someone who doesn't want a jacket and you put a jacket on him and you tighten his sleeves and he can't get out of it. Now you understand this: you buy GMO food or seed and all you have to do is to put it in a few minutes in the GANS of CO2 and bring it to its peace balance. We are doing this with the agricultural group. Put it in the fields and go back. The way I taught you today and I've taught this before but people don't understand, zinc and copper are emotion and physicality. The bloodline to it was Fe (iron). Look for the bloodline for magnesium (Mg) which is for the plants. And then you will find the emotion of the plants and then you will now if you hurt them or not and how you can use them for your own advantage. All these structures are connected---Cu, Zn, Fe, Mg—and they have one thing in common which is amino acids. Otherwise there is no difference. Different plants use different combinations of Cu, Zn, Fe, Mg or whatever, and different plants use different kinds of zinc. You find out what relates to the man and you can change the emotion of the man but when it is genetically modified it is like a virus. Genetic modification is a virus into the plant. You have seen how we used with Ghana Atomic to destroy all the viruses in one go. You saw the reports with all the zeros. You do the same thing with GMO and you take the energy from it so there is no modification. It is very easy. The worst thing they did was to create the genetic modification of the crops and now as we talked yesterday in the agriculture teaching, just add CO2 and bring peace. Find the emotion material of the vegetation that I have talked about many times. And then you will that it is not very far. You have seen the physicality of the emotion of the man considering the iron and do the same thing with the plants with Mg and you will find the emotion of the plants. Then all you have to do is make a GANS for it. Then automatically Monsanto becomes Man-santo.

K: There is no need for genetic modification because it affects the fields in the body of the man in positioning the spread of the fields of the GANS that can lead to a lot of problems but even if you find this, this emotion side of vegetation (Mg) by taking this exactly as you do with Zinc Oxide then any effects can be washed out of the body of the man. You bring the body into balance. In your body you have strength for matter strength, vegetation state or balance fields. You can balance it very easily. All the criminal activity done to control man goes to zero with the plasma technology.

K: There is a lot of criminality that centers around two groups on this planet and now we have wiped them out—we will see what happens. Try very fast as much as we can and we leave the lines open for

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

any discussion, as much as is correct and we will carry on with it. You can create the condition for the soul; target it and work as groups. Open as many sites and discuss it. I am here to serve you to find the path for humanity. It is you who have to start doing the work so I can do the guiding.

M from London: I'm interested to know more information about the Keshe technology.

K: go to the website.

Dr A: As I understand there are two ways that we can travel through space; one is by making the machine and one is going with the principal matter.

K: Yes. You can do it hundreds of different ways.

Dr.A: I don't have to make iodine; I can wish to my soul myself.

K: good morning Aza...thank you.

K: please go back and understand how you can create the condition of the soul of the man and develop it and teach it freely. Go and develop the process that you can reach without physicality. We cannot help disasters. If you are Chinese my request goes to the Chinese community: please respond as fast as you can in any shape or form to Professor Zhu in China. We have a charity in the background that is willing to facilitate everything for you to be there. They have stated what they need. If the Chinese government allows us we bring as many scientists in plasma technology into China to help the nation. It is our responsibility and duty as one nation to help the others in our family. I thank all the people in China working to see this happen and in the next couple of weeks if the Chinese government allows, the Keshe Foundation team in China will report. It depends on what is happening and how the teaching will be done.

K: This needs to be done; disasters hit all of us. It is not about being in just one place. The mandate for the KF rescue team is to teach as much as we can. We don't just provide which is a small part. We teach and next time, next flood they have everything and watch until it passes. We can take physicality; you can wash the salt from the soil. You can wash from any contamination, but the most important thing is to help the soul of the man to understand and stand the pressure of the time in that condition. 4.25

K: That was Mr. Menachem from Israel...we see the Jewish Lobby interfering very quickly because they have been instructed to stop the process. That is why I asked for the line to be switched off. I give advice to the Jewish Lobby that sits in the background: *Join us to bring peace and you will advance much more. Otherwise you are doomed the same as your leaders and the man who put the started the whole motion by crime.* The reason I stopped this man from coming on is that he is part of what we call the Jewish

Transcript from 122nd Knowledge Seekers Workshop held July 21, 2016

(v1 2016-08-07) DRAFT (Transcription has not been verified. Double check info with video)

Lobby and they come in to interfere. We had to cut him off; they have done enough damage. Now it is time for us as humanity to progress. We have another one in our structure and now we will handle these people the same as (others).

K: Thank you for today; please move on to understanding the development of the soul and the division of the soul to share with the others. And in time, a very short time...it took man millions of years to get to the past two years. In the past two years, especially in the past year on teaching, we brought man (forward) with a leaping step. It was the only way to do that. I have mentioned this many times. I can do this over 200 years and leave someone as a messenger to drip feed you or we teach everyone and everyone reaches the understanding of the universe. It is a little bit painful because we have to change a lot of habits but the end product is we have a lot of peaceful people. And we are achieving. I thank those of you who work for governments. Our hands of peace go to both nations on both sides—China and the Philippines. Please work together as the KF team and then we will see prosperity in East Asia. We bless your nation and your souls and you will see the change for humanity.

R: That brings to a close the 122nd Knowledge Seekers workshop, July 21, 2016.
