Transcriber's comments

As MK has promised us the workshops are moving away from nano and gans materials and getting ever deeper into preparing for the step into deep space and reunion with the Universal Community. In WS 162 he stresses again that it is our emotions that are all-important in manifesting what we want and in the correct physical manifestation of our presence in space. This topic is then deepened by some good questions and then MK launches into another damning disclosure of the criminal activities of DL and Mr. Sylvester. The security team has all the evidence now and these have been turned over to Interpol and it is only a matter of time before DL joins SA in prison, though MK advises him seriously that the best option for his soul might be to do what he said he might do once, and step out of an upper story window. Rough topic headings and points of interest outlined in hyperlinks following...

As you have noticed in the past few weeks, we have gone away from teaching of nano materials and focusing more on the physicality of the man in deep space.

1240: Mr. Keshe (K): good morning, good day as usual whenever and wherever you listen to this Knowledge Seekers Workshop. Hopefully we learn from each other and add to our knowledge and the knowledge of others so we can all benefit by it. In today's teaching we are adding little by little to the space technology program and try to understand more of what we call 'catching up' and trying to understanding more about the technology. Part of the new understanding is what we have seen and what has been brought up by testing in different fields, and part of it is teaching the additional knowledge. As you have noticed in the past few weeks, we have gone away from teaching of nano-materials and focusing more on the physicality of the man in deep space.

1356 K: as we have said before, for us to be satisfied and to be able to live in deep space we have to come to more understanding what the conditions are. Here on earth we are used to limited changes and the parameters of the changes are within what we have. What this means is that we have come to understand to work with slight temperature and pressure changes. If the pressures and temperatures are slightly different from what we are used to

we find out that we cannot cope and we go through conversion of energy that our bodies are not able to accommodate. It is not planned for or set out for our bodies to do this. It is important that we understand this. Here when we go from land into the water we have not adapted ourselves after millions of years to reverse the process where we came back from.

1526 K: we came from the water, but in living on the land we lost our habits of using our systems which are still part of us to be able to live within a liquid environment of the waters of the oceans. This is the same with us in space. We have not even adapted to where we came from to reverse to be able to live in the oceans in the water. Even now we go into the air with jetliners. A slight drop in height gives us different pressures and different problems with our emotion. A sudden drop affects our balance and raises fear. This is not what we are going to feel in space. There will be transitions, but those transitions will be totally different from what we are used to here.

1703 K: the transitions are in so many ways non-tangible but they are felt internally because they will play with our fields strength of our emotion and the field strength of our soul and with the field strength that our physicality has to react and change to accordingly. The small changes in pressure and temperatures have created different colors of races and heights and features for the man on this planet. Now that we re going to deep space it is going to be a massive change where we have to learn how to cope and how to change and interact with these new changes of environment.

1756 K: the change of environment is not the temperature any more but the field strength. How do we react? How do we protect ourselves to keep the integrity of the physicality, the emotion and the soul together? Here when we interfere with the working of the physicality, the emotion and the soul separates from the physicality and we call it a death. How can we live in space that we can keep the totality, but according to the condition of the environment we can adapt to?

1834 K: here it has taken thousands of years to adapt into color and different colors of hair, eyes, and skin and different heights. In space we don't have millions of years of evolution. The evolution comes from within us within the strength of the transformation of the strength of the soul to the emotion and the physicality. This is the part of the teaching of man into space. How do we adapt? Is there a common denominator feature that allows us to live a

life in deep space irrespective of the condition? Or do we become prisoners of our own spaceships in the space of the universe? We go out but we cannot step out of our spaceship and we cannot interact with what we came to see. We become more or less a 'fish' in the 'fish tank' of the spaceship. Or we have to learn that we have become citizens of the universe and this means how to adapt into the environment and how to interact. It is like instead of going from China to Europe to Africa on one planet, we interact and breathe the same air, but we have different features.

2013 K: is this also possible in deep space and how do we react to it? How do we change accordingly to be able to be part of the universal community but to be able at the same time to change to fit the environment? This time it is not a hat, a jacket or a tee shirt or a bikini according to where we are. This time it is the strength of the emotion and the soul that creates the barrier and the boundary of the physicality of the existence. This time we have to understand our inner strength in the soul level so that we can feature according to the environment we arrive in and at the same time be the chameleons of the environment.

2110 K: we don't have millions of years of evolving and coming to see what the people in that area are so that we can sit there to evolve by looking at it or trying to get into the environment so that we can adapt. It has to be spontaneous. You travel at speeds that are beyond the speed of the imagination of the man as we have said before. It is not the rule of $E=MC^2$ anymore because this is irrelevant. We are traveling at the speed of light at several times by order of magnitude, hundreds of times by order of magnitude. How ready are we? Do we need to be educated? Yes, but how can we educate those who want to be the passengers of space? Otherwise the space and the spaceship become the prison of man.

2204 K: we have seen it when we bring people from one country to another country and after awhile they want to go back. There is no lock on the door, no keys and they have the freedom of the country, but they still see the country as a prison because it is not what they are used to. Now imagine when you send man into deep space. The freedom has to come from the balance of the soul and the emotion of the man. Then the man will find space his oyster. We have to understand how to change, to react to the change according to the emotion of our soul so the physicality can follow to accommodate it.

2300 K: how do we do this and how do we interact? How do we go into the barrier step of the reversal to understand that in so many ways the way our bodies are composed, they are composed of the elements of the solar system and the cells are composed of the elements of the universe? So we have a common denominator and we have a point that we can refer back to that on it we can build the big blocks of the soul of the man to the strength that with it, it manifests the physicality of the man. The talk and the teaching is not any more nano and ganges; it is about understanding the strength of the soul of the man so the man can become the passenger of space.

2354 K: otherwise you will be trapped in the world of the earth and as a foreigner in your own country. We have become foreigners in the space of the universe where we came from because we don't understand how we fit into it. In the process of the change and the understanding and development of the soul and emotion, man will come to understand a key point, and that is *I have a common denominator with the rest of the universe and that is the field strength of the spectrum of it which has created me. Can I change the strength? Can I change the dimensions of the strength so that I can exist in any dimension in the world?*

[Western-style civilization or civilization of the man across the world has made us lose the point of trust in ourselves and in our ability to trust others.](#)

At the moment we travel from one country to another and we are totally lost. We don't know how to communicate and we don't have a common language. Why has man demoted himself to the point of the sound so that I can stand in front of you and feel your emotion of what you want, what you are offering me, what you want me to pay and what you want for me to take and what I have given?

2533 K: the more that you call Western-style civilization or civilization of the man across the world that has taken place, we have lost the point of trust in ourselves and in our ability to trust others. With trusting we lose half of the energy that has been created for us to protect ourselves. We've done the same thing in our lives on this planet we will do the same thing beyond this planet. We have always been afraid of being demolished, destroyed and being taken out or killed. If the man realizes that his life is eternal it is he who decides in which dimension to be physically manifested the way he wants.

2628 K: I have said in many of the teachings in the recent past that it is a big surprise when you come to Africa if you are not used to it. In Europe everything is weighed on scales; in Africa that doesn't exist, unless you're in the white man shop. Here I give \$1 and I trust the other person gives me equal to that of what I asked for. In one \$1 in one shop I might buy 6 eggs and in another \$1 might buy 5 eggs. Nobody weighs it; in one shop you get 10 tomatoes for \$1 and in another you will get 6 tomatoes for \$1. It is I who trusts you and there are no scales. In Western world they measure to the gram and they are not giving one gram more than one kilo.

2733: This doesn't exist in Africa because the level of trust has been kept to a point so half of the problem is not there to start with. This goes back to us how we trust ourselves and how we trust the transition from physicality to emotion and we trust, that in trusting our emotion we can trust our soul that it will keep everything in integrity and totally intact that we can exist to confirm our existence. But do we need to confirm our existence in the level of the physicality of the earth? Or, are we confirming our existence to the existence of our soul, which understands the language of the universe? We have never wanted to understand it, to use it and to obey the rules of it.

[We have always been in touch with the Universal Community, it is we who have put that barrier](#)

2834 K: how many of you have had a dream about your mother, your brother, your uncle or somebody you knew? How many of you have had a dream in interaction with their soul and you did not need to see their physicality with your eyes, in your dream, that they manifest themselves as your mother, your brother or your friend. Then man has to understand the next step that in the strength that the soul level already operates, man is already in communication with the universal community and has been from the beginning of the time of the creation of the man. It is we who have put that barrier that we do not give the physicality that then we can confirm its existence.

2940 K: So it is for us to go back to the strength of our soul the way the soul sees the soul of the mother who died 30 or 40 years ago or the grandfather who died hundreds of years ago and we believe because we have changed the knowledge to the vision and that the vision confirms the existence that

we confirm this is the mother who speaks. Now the problem for the man is to understand how busy his soul has been in interaction with other souls in the universe and the way they have been communicating. But it has been blinded to the man because the physicality of the man cannot understand the emotion of the essence of the creation of the soul and its operation.

3036 K: To you these things sound very strange but it is the reality of what man has done by confining to the physicality of his body and his atmospheric condition. Then when we open into the dimension of understanding the operation of our souls, would we start translating the emotion of the passengers of the universe and then can we give them shape, to confirm that this is from this planet or from this part of the universe? Strangely enough when we start understanding the strength of our emotion the gates of the communication through the universal community through the soul of the man will open up. These are the stages we have to go through. But there is a key point; it is the creation of the environment of the plasmatic condition that the survival of the man in his total physicality exists, and this transition point will come when the doors of the spaceship are shut.

3156 K: Then man through the process of the conversion in total new dimensions in the interaction with the fields will understand the level of the new life. At this moment of time when we go to space we condition ourselves on the physical condition with pressure. In the new spaceship which is getting developed and used by some nations, the passengers of the craft in being in the new condition of the environment which is in balance with the rest of the universe shall see the operation of their own souls and the communication in how to join the universal community.

3248 K: This is the message that is on the table. How far man is prepared to go to become part of another society that he is part of and is not aware of? We go from the village to the city and in the city we are still part of the same nation. But, it is a very different environment from the village and the center of the modern city. When the man comes from rural areas and walks into the middle of Times Square and sees everything else in the middle of Moscow or Beijing, it is a different world. The head is up and the mouth is open, baffled by the new of what he is part of but he didn't know it existed. Man's mouth in space will be opened so wide it will never shut because he has been part of this and he didn't know he was part of the universal

community. How do we understand this and develop this? How do we handle this and learn not to be afraid of what is to be and what is to come?

[The slow path to reunion with the Universal Community](#)

3423 K: in the teachings of the past few weeks we are preparing the ground very, very slowly. I remember when we went from the gas reactors to the gans reactors 2 or 3 years ago, and there was mayhem across the Keshe Foundation (KF) because I had been teaching the gas and now I was teaching a new way. There was mayhem and it took time for people to change. It took a lot of people who understood the gases to work with the gans and the work of the fields of the gans. Some people are still stuck because they put a lot of time and effort into the gas reactors and then we moved to the smaller gans reactors. If that was a shock to you, this is going to be a bigger shock.

3513 K: some of you still work in the gas because it feels safe and you feel good. And some of you moved to the gans but still have some apprehension about the whole thing. Now we move to the interaction of the fields of the gans, which has no dimension, and is the soul of the man. The transition will uproot all our schools of thought that we have accepted and have been inbred into us. We shall not see color so I shall not call you black and I shall not be white. You shall not be Chinese, Korean or African. We shall see each other's soul and the beauty of it by the strength of what it is emitting and not what it is taking, because the giving is so much that what it takes is so minute and what you don't need so at least you serve each other. The color of the soul is the transparency of the fields of the emotion of the man.

3642 K: this is the biggest and hardest part for many of you who want to move into the space ship program. It is not about the space suit, weightlessness or training to become a passenger in space. It is training to become part of space knowing that the integrity of me shall stay in totality. At the point when I see my soul and the energy it holds can become part of another to give it life, to exist longer or to become part of another that it can serve more. The fear of the man to hold onto to his physicality is 99% of the cause of his demise. Trust in the feeling of the emotion and understanding that the strength of the soul is the key to becoming nonphysical. I have to teach nano-material and how to make a coil. I have to teach how to make

these balls so they can create fields, because you have never been taught in thousands of years.

3814 K: This is the path for the universal unification of the man with the rest of the universe and with the souls that are constructed out of the environment of this planet. The preparation of man to go into space without the shackles of the physicality will be very harsh. Not many will cross the line because of the fear of trusting their own soul is much harder than trusting the physicality of this planet as it can 'finish' with an accident, an earthquake or whatever else. We leave the destiny of the separation of the physicality with the soul in the hands of the events instead of our being in charge of it so the events become irrelevant, at least on this planet.

3912 K: [The understanding of the emotion of the man will lead to the physical manifestation of its presence.](#) So let's go back into the emotion and find out how we can at least use our emotion to change our physicality. Can we do that or do we need to fine-tune slightly the fields, which are coming from the soul? Let's say by offering it at the level of the emotion we have the tangibility of the existence and then we can interact so that we do not need the fragile world of existence of the body of the man. How much can we teach is not the problem. How much the man allows himself to accept the new according to the level of his own intelligence and to the level of his understanding about the world of creation.

4029 K: man accepts this technology according to his intelligence and to where he is comfortable with it. For me to show you what you want to see is the flick of a finger, but then I become a magician. Putting a stick on the ground, or opening a river, or creating some sort of manifestation to show that you know more does not work anymore. We have to guide the soul of the man so that the man in totality finds the path to the universal community, not a tribe. Then we become the abusers of the others because they have been present, or the magic has been used by them to open the sea for them to be the cause of more abuse in the future. The teaching as you understand and you have seen in the past couple of months is more for the man to move to trust his own soul, so that there shall be no temples for the man anywhere in the universe to become the pitfalls of the man and the cause of the separation of the rest of the universal community.

4150 K: As I say there are no temples, mosques or churches in the universe because when you understand the truth the soul of the man becomes the church of the man. Then what is to be believed to be the correct conduct becomes part of the structure of the physicality at the point of manifestation. How do we do this? How do we understand our own soul? How do we get in touch with our emotion? How do we start communicating so that we understand that we can confirm at least by a tool that we feel the response of our emotion?

4244 K: this is the key; the man is too physical. He has to see something to confirm that what he is doing is there and he has no trust in himself. And then we come across *prove it to me, show it to me*. It is not that we are wrong, it is *I am stupid and I cannot understand. If it works that way, show it to me because I don't trust you. It means I am too stupid to follow this to understand myself and to do it myself so I beleaguer you that this doesn't show my stupidity*. This time it you who has to trust in yourself to confirm that you are not stupid and you have to confirm to your own soul and this is the big question.

[It is you who has to find the wormhole and the passage into your soul and then you can open the motorways of it.](#)

4332 K: It is you who has to find the wormhole into the life of your emotion and through the understanding of its strength to find the wormhole and the passage in so many small ways into your soul and then you can open the motorways of it. It takes time. It comes out of total belief in one's emotion, total belief that what you do is correct, total belief in what you do is said to be for the betterment of the others, and not you. This is the key. Not going out and giving physically that you buy a key to the path to the next world, but understanding how through the strength of your emotion you can open the key to your soul and you can find the access to your soul. You can find a way to bring the fields in the level of the strength of the soul, the emotion and the physicality more or less to a point that by changing by one slightly, the other one changes.

4459 K: this is the key; this is the hidden key in the whole structure of the existence of the man. If the change is too much on the soul side, the physicality needs to change too much. You cannot change the liver and put it on the head and you cannot put your kidneys on your toes. But you can

adjust it so that everything shrinks to the point that it can work and deliver and manifest itself, but the emotion can accept that the physicality exists and the soul can accept the changes both in the environment and the emotion and its own existence of the physicality at the point of the manifestation.

4541 K: So, one of the first steps is to understand how does my emotion, the environment I live in, and the accommodated condition, change me? And use that path to find a way to your emotion. There is a big problem for people of Africa and it is a bigger problem for the ones outside of Africa. In a way they have the way to understand the change; because they had to change to go from the darker skin to the lighter skin. They had to change their features and hair and whatever to fit into the environment they had accepted. Africans have been here a long time and they have nothing to change. It is still the same so they have a bigger problem, but they have the advantage that they understand the work of the emotion and the soul in a different, slightly more mature way than the rest. Those who live in this area, or in Scandinavia, or North America or China have seen the path of the change through the DNA and RNA to change to fit them into the environment.

4724 K: So you have already been through a transition. And that transition has given you specific features and emotion. Why do all the Chinese have this behavior, or why do all the Arabs behave this way, or why do the Spanish behave this way? You have been not only through the evolution of the physicality but man has been through the evolution of the emotion too, but he never understood. When you go through the evolution of the physicality it comes from the essence of the emotion. The emotion feels pain—this place is too cold. I don't want to be here; it is painful. I don't want to feel the pain so much and I want to fit in. I change the color of my physicality and become lighter in the skin so I can stand more cold.

4826 K: You haven't become white-skinned because of the environment in one go. You have become white because of the feel of the emotion of the cold for centuries has created a condition that it has transferred the physicality not to feel the pain of the cold. Now you understand; the evolution of man (as theorized) by Darwin does not come out of his condition of the environment. It comes mainly out of the condition of his emotion in respect to his environment. We have many blacks. Nearly 400 years as slaves across Europe and Canada and everywhere else. Have any of them changed to white? No, because the combination of living and the

harshness of the environment where they have lived, has not accommodated the change that is needed. Would the black Africans who were taken as slaves to America after centuries change to white? Yes, they will. In time they will because of the emotion and finding comfort in the emotion that they don't need to be black. They don't need to go through a transition. (49.54 minutes).

4956 K: But those who went through the transition, what Darwin calls evolution of the physicality, had in essence the emotion behind it. Otherwise the physicality will not change. Now you see this is the story; all of you have been nano-makers, especially they Chinese because they cook in hot boiling wok and of you have been creating nano-material when you cook because you put salt in the boiling water and you eat it. Now you understand that we have all done the transition without knowing that the emotion is the founder and the changer of our physicality. Now we all have to come to understand this cross point. Darwinism explains everything in the physicality because man accepted the physicality. We have seen this and not known it and now we understand this. If the emotion was fixed, the physicality would not have changed.

5114 K: [It is the emotion that changes us to be more attractive](#), to become part of our physical structure for the interaction of the fields of our brain which interacts with our emotion. Then if you understand this you have to go a step further. If I receive so much energy at the level that then I can use part of it as the emotion to change the physicality, now how can I get to the energy that sends and receives to become emotion and the energy of the soul? Then you find the path to the soul of the man. It is no good building a car if you don't understand how to build roads and how to travel. It is no good having the physicality of the man and not knowing the road to his existence. It is the path through the emotion of the soul. Then when you understand this, through the emotion you can change the physicality so rapidly that you become the chameleon of the universe. We have been there but we never understand.

5244 K: We never wanted to understand that the change of the physicality of the color, the race, the eyes, the color of the hair and the language have all come, and shall be, through the confirmation and the changes through the soul which is handled through the emotion. Go back to the very beginning of the teachings and all the teachings in the medical. I always explained the

existence of the man not only by the physicality but by the emotion. In all the first 30 to 40 health teachings I always referred to the emotion and the physicality. The blood carries the emotion. You have the key and you have been shown how for years but you did not understand.

5345 K: It is the blood that feels the cold and gives the information to the neuro system that it needs to change otherwise there is frostbite that causes infection, that the neuro system through the emotion and confirmation of the change in the physicality to the emotion, in giving the message to the soul, *if you want to be on this planet the condition it is I need some new and different energy*, which comes to the soul to the emotion, which the emotion transfers to what you call the evolution of the physicality. Now you understand the total of what you call the evolution of the man, not the physical part which is Darwinism. I have opened the key in the past 10 to 20 minutes to man's life in space. I hope and I wish and I pray that the man will see the path. This is the path to space. This is the reality of understanding that the change in the evolution, in the physicality of the man, in essence is triggered by understanding of the emotion and by understanding that it is triggered by soul of the man, where itself is in interaction with the soul of the planet and the universe and accordingly changes the emotion to the dimension of the physicality.

5540 K: so man becomes inter-dimensional. You don't exist in one dimension but you exist in the total existence of the one dimension. The totality in respect to each other is understanding of the strength of the work of the position, which is the soul of the earth, and the position in respect to the soul of the physicality of the universe. Then you understand how rapidly you will change according to the environment. This is the key. This is the master behind the creation of life not only on this planet but across the universe. This is the key to be able to communicate and live amongst the others while they are living among us.

5638 K: Our soul is in contact and communication with them but in the physicality we are behind the veil of our own ignorance because we would like to be in the world of physicality. Now that we have become passengers of the universe, we have to accept the totality of all 3 dimensions of it because without the one the other cannot exist. Without the principle transition which is the emotion and the physicality, which is the matter state of the manifestation at that point shall not exist. If you look at it in essence, a vapor is still the water but according to its environment shows itself in that

way. So does it mean that even a drop of water has more sense of its evolution than the man itself that it calls itself as evolution?

[So, do we need to build a spaceship or can we go a step further to understand that one can use his own soul to travel the depths of the universe](#)

5743 K: So, do we need to build a spaceship to trust that we keep our souls in the matter of physicality? Or, can we go a step further to understand that one can use his own soul to travel the depths of the universe, without the tangibility of the spaceship. As I said in many teachings in the recent past, we don't teach the race of man any more; we teach across the universe as my voice is my soul and is heard across. It is heard across for those who are in the next stage of development of the crossing into another dimension of the travels in the depth of the space of the universe. In time as man matures he will understand the message.

5838 K: it is very interesting when you sit across and listen to, in this time in the age of teaching of the man we have put the man at the age of the nursery of the understanding with the ones that are in the 6th grade, the ones who have diplomas and the ones that are in the university all in the same class of the university of the understanding of the knowledge of the universe. And what is not understood by the kindergarten children playing in the front row means a lot, but those who are philosophers, masters and PhDs and professors in the back row. And the man is in the stage of infancy playing in the front row. As my beloved brother used to say, *it just goes over my head*. Because then I have to understand it and make changes and then I have to understand what changes will come to what.

10011 K: You have to start understanding the path between the physicality and the emotion and the soul. And then you understand in what strength in the soul you need to have the perfect combination of the feelings that leaves you with the manifestation of the physicality at any point of the reference across the universe. The soul of the man is the creator of the man. The only problem we have is we called it a man because the soul of the creator is manifested in the physicality of the created. So is the soul of the man the "God" of the man? And has man been in delusion of finding the creator when the creator sits within the man in the creation of his own existence according to the accumulation and the strength of the soul of the man.

10136 K: *I made man in the image of myself. I am the soul and through the soul I create the emotion, which in the transformation of the energy of me gives the physicality of me.* Is there a need for a church or prophets which man has clung to for so fast so as not to be able to go through the transition to understand the work of himself and his soul? We don't teach anymore but we inspire the soul of the man to evolve to be educated by themselves. The schools and the churches and the mosques to abuse the soul of the man are shut from now on. It is the man who has to find the path to his soul and educate himself to the point of the universe where he arrives because not many others will arrive in that point, and there is no book of reference. You cannot go back to earth and go to the library to find out what it says about 'here' because you are 'then and there' and you have to understand the strength of your soul that dictates the manifestation of the physicality in that environment.

10304 K: it is you through the strength of your emotion who has to be a negotiator in the physicality and the soul. But there is one point: the soul shines all the time at the same strength. It is the emotion which is the filter to the dimension of the physicality. If you understood that, you understand that all souls are equal in the eye of the creation of the soul. It is man who needs to understand through his emotion how and where to position and which filter gives the manifestation of the body of the man at the point of the manifestation, where you want to manifest or can you manifest in different dimensions across?

10403 K: this is what the stars do. The star radiates its fields and according to the strength of the fields in different positions of its shell, of its plasma, you have Jupiter and you have Venus. So the energy of the strength of the star itself has not changed. But according to the strength and the position it manifests itself in different features and structures. So can we through our emotion be visible and tangible in different strengths of dimensions? The answer is yes. So do the stars and so does the essence of the central point of the universe and that as the fields travel outwards and different strength positions lead to creation of billions of galaxies and the stars, planets, moons and dust. But, in essence, they all came from the center. So can a man to understand itself through the strength of his soul create and be able to live in different conditions within itself? The answer is yes. Man will learn this very soon once you become the passengers of space.

10547 K: this is the key and the breakthrough and what we have been trying to teach but we had to play it step by step. What gans? What nano-material? How do you make the gans for the end product – we always focused on the energy and the fields. Now you understand those fields are the soul of the man. Today we have written the science of the man that has been accepted for centuries, Darwin and what we call evolution. Now we add to that knowledge. And for man to even accept the past half hour of teaching will take years because he has accepted something and now he has to add to it so that the cause is different. So I have rewritten the history of man.

10701 K: You have to understand—touch yourself, touch your fingers. Understand why the nail is there and why the emotion saw (fit) to put the nails there. And, try to understand the strength of the emotion that gives the nail, the skin, the fingers, the arm and everything else. Or, understand the entirety of the total of your emotion and then understand with the totality of the emotion that all these tears have been joy, fear, movement and they all come with different filters from the source, which is the soul of the man. The mistake has been that man only uses 5% of the brain. The other 95% are never used because it was easy to fool everyone but now we know every cell of the brain of the man works 24 hours a day without stopping from the time of his inception to the change of his physicality to another dimension.

10814 K: Because, how do you know when it is time for which cell to change? Which cell of the heart, which piece of the cell of the bone, how long is it there and where there has been an accident and now the energy is not there and now it has to be repaired. Maybe you cut yourself and the skin was not due to be changed for 20 days but now there is an emergency and it has to be changed because otherwise it will bleed; so the new skin comes prioritizing the change of the emotion to the physicality of the cut. Find the pass through and understand how you can interact with your emotion so that through it you can understand the work of your soul.

10900 K: become the cut in the life of the physicality of yourself so that with it you understand the cut and the path to the emotion. And through it understands the filters that you have created so that with it you interact with this environment and the other end of the filter what is received from the soul of the man. Then you become passengers of space. You walk out of the space ship and there is no land; there is nothing to walk on as you are used to but you see a thriving community and you become part of it. You don't

have the fear of falling through as you have already 'fallen through' into the passage of the environment of the level of the strength of death.

10951 K: If I leave you in the middle of the air you hang and you try to survive before you hit the ground. What happens if I leave you in the depth of space with a community that has no tangible planet for you to walk on? But they have their life and their existence and you want to be part of it because it is so beautiful. You have never seen water falling out of no mountain but it just showers through. It is not water but a mirage of the manifestation of the fields crossing and it gives to your imagination and strength of understanding the flow of water as you have seen on earth. That is the only way you can confirm it.

K: [in the depths of the universe the flow of the fields become rivers of light and not the waters.](#) This is what man has to understand and what I said... we have to educate man so that man understands and sees the totality in the new dimensions of space. Then ask yourself why you have a shorter finger or a long nail? What does my short finger confirm in respect to my emotion? Why was I born to be in this shape and have such structure of the fingers, the toes and the eyes? What am I taking from the environment to confirm my existence and what am I giving through the emotion of my own existence? If you understand that you can interact with your own emotion and through it to the soul so that if there is a need to extend your finger you can do so because at that point in the environment, you need to. I have said that many times and have seen this happening in the one life span of a young girl. But man has the potential to change this speed according to what he needs.

11200 K: man does not need a space suit to go into space, but we have to go through that process of learning that we can exist in the space of the gases of our part. How much we trust our own emotion will give us how much we can exist and what filters we use. What we make the filters of will become our manifestation. Souls without filters of the emotion become the passengers of the unicos, and not many have managed that because of the fear of not understanding the totality of the strength of the soul itself. Many, many souls in the universe have tried to cross but the fear of demise has become their demise. Trust in the existence is the key to existence.

11324 K: And trust in existence is that I do not take what is not to be taken, but what is given to me for me to exist. Now make tools to show the strength of your emotion, and now make tools to measure it because you are a human and you live in the northern part of this planet and not in Africa where there is no set of scales. Find the scale of the emotion within the strength of the soul of the man and not by equipment because they fail in every point.

11412 K: Trust in the soul and believe in the existence of the operation of it through the physicality of the manifestation of it in the physicality of the man, the tree, the plant or whatever you like. Now make the tools to measure because you are used to measuring and you don't believe yourself that you can transform and transcend and elevate your own soul. The trust of the man has been taken from the man partially by environmental conditions initially when the man started moving. And then by those who saw the weakness and fear of the man of the environment, it became the bigger menace to the life of humanity in the name of the priest, or God knows what, from the old time to the present time. It is man who has to understand the totality to release himself from the shackles of the fear put into the man by those who want to control the man.

11525 K: [I am free in all dimensions of the universe because I have no attachments.](#) I wonder how many of you can say that? Many times I have said I am ashamed to be in the body of the man because the body of the man has accepted the demise of himself and subordination of himself when man has not realized how much knowledge he carries in himself. So why would he become subordinate? It is us which allows our physicality to be dimensioned by those who want to abuse it. And it is us who have to rise to the level of understanding of our own souls that we do not need to be part of this. Now I wonder how many tools of measurement you need to make, or have you found the measure of your own emotion and soul? Blessed are those who understand.

11656 K: Remember 2 points: you pray and the only bank where you save the energy from that prayer is your own soul. Remember that one point and if you are in space you speak about having to go to church, to the mosque, to the synagogue or to the temple, then they see there is a guy there who has not understood: *the village man is here*. Try to find a path in any shape or form which is in your soul, your emotion and your physicality. In finding

that path you mature to exist across the universe because then you know what you need from the source to show itself in the physicality at the point of the need. So, you have become the chameleons of your own physicality in the dimension and strength of the soul.

11820 K: this is the key: you are a car driving down the road, and you switch it and you become a high-speed racing car, and there is no difference in the work of the man. You have to know which switch, when, and what is the reason for the switch and what is the essence of the change. Any questions?

11856 [Rick: Thank you Mr. Keshe. Josh asks if Mr. Keshe can tell us about what the advantage is to get out of the time of the physical universe](#)

K: repeat that.

Rick: what is the advantage to get out of the time of the physical universe when one exteriorizes out of it by oneself or through the tools of reactors and star formations? I think he is saying that he feels an element of time gets beyond time...

11940 K: The advantage comes in what gives you the pleasure of existence in whatever dimension. In the universal community and the operation of the universe there are no masters to satisfy and no exams to pass to get to another course. The change of time and position is in respect to what you would like to have at that point. I have explained this in past years very clearly and I explain it again. As we enter into the new dimensions of the transformation of the man to open the passages of the universal community and in the depth of traveling the universe, man will come to understand something very strange. Some of what you call stars, and they are stars in a way, they are existing entities. But, in fact if you translate it to the word of the man, they are spaceships. But you say they have been there from the time man looked into the sky. A million years in space is no time.

12110 K: When I park to watch the view, I park, to you it is a billion years the one in Saturn is 20 years, or whatever, and the other one that is one second? To me I park the car and I watch. In time man will come to understand that some of what you call the spaceships of the universe are carrying passengers and they stay there which likes 'forever' to you is a second to them because time does not exist in the universe the way man has measured it, because in the dimension of the soul there is no time. In the

dimension of physicality you have time because you have to transfer the energies that come from the soul to another in respect to the environment.

12212 K: If you understand why do you change your skin every 28 days? Do you understand why? Why don't we change our skin every 1000 years? It is because the transformation of energy is so much that it takes so much energy that we cannot exist in more than that. Man never understood this; you go to the shower and you wash the old skin off. But, why every 28 days? The energy transfer that call aura you see is continuous field transfer and there cannot be more than 28 days because the cell releases all its energy of what it has received.

12305 K: now change the cell to change the skin on the man every 1000 years. Then you find out it is still 28 days and(garbled 1.23.16 minutes). Time is irrelevant. Time does not exist because it is the emotion and field strength that changes according to what it needs and what is available. So, when we go to space we stop to see a new car, or that new car with two wheels or the yellow color, or two exhausts. Now we see a spaceship that we thought was a star up to now. But now we have the same knowledge, the same understanding, the same understanding of the technology of the reality and you see there are not many stars in the horizon of the eye of the man, but many ships.

[A discussion on Scientology, L Ron Hubbard, prophets, and spirituality with J from Quebec.](#)

12419 J from Quebec:

Rick: J says I could tell you one good advantage so I thought he might have a good idea there!

J: I have been studying spirituality at a very high level,.. (breaking up)... I was saying that I have been studying spiritual for 30 years. You have talked about the abusers. I think you have been the person who described exactly that all the world religions are abusers. We can get out of our body and it means getting out of the physical universe. You gave a talk recently and talked about the same thing I have been studying... that when you get out of time just through the pain pen or maybe through the reactor that I am still trying to build and have not succeeded yet because I have no time. I think some have succeeded with the star formation. Getting out of your body means getting out of time right?

K: No you don't need to get out of your body. You exist with new parameters and dimensions that you call your new body or the new dimension and parameters that you created. You cannot get out of your body because your body is part of your emotion and your soul.

J: yes, have you had the experience of getting out your body?

K: everything is within me and I don't need to get out of my body.

J: ok, I understand.

K: *I am what I am.*

J: you can be in the body and out of the body?

Rick: if your body is the entire universe then you are never outside your body.

K: I repeat again: *I am what I am.*

J: You are a great man. Have you ever heard the proposition that the spirit ... do we agree we have a spirit?

K: what do you call the spirit? The spirit is the essence of the creation that you come from.

J: is it what you call the Principle Matter in your book?

K: In a way, yes.

J: what is the difference between the Magrav field forces and the principle matter then?

K: The principle is the essence; the magnetic gravitational fields are what the essence radiates out and what it receives from its environment. One is the totality and one is the line of the communication. The Magnetic Gravitational fields - Magrav - is the line of communication in respect to its environment and its totality. One is the tool and one is the essence of the existence.

J: These are the tools? The Magravs are the tools?

K: Yes, they are the channels that receive and give.

J: Yeah but they are channels between what and what?

K: it depends where you want to extend it. As I said: you have the sun and the sun is the soul. The fields that radiate outwards from the sun leads to the creation of different entities in the shell of the sun. And then some of the fields return back to itself because of the pull of the gravitational of itself.

One is magnetical - what it gives out and one is gravitational - what it takes in and what is not used.

13102 J: is the sun a plasma or matter?

K: It is plasma. The manifestation of any sun is at the point when its strength changes to the matter state of the strength of what we call the surface of it. When the sun radiates out within its gravitational magnetic

field the point of the strength of its matter state is at the higher level then we see the surface of the sun or the manifestation of the physical existence of it. Then what we see as the shell is the manifestation of the existence in respect to its environment. This is what we call the solar system – the shell of it. So in reality if you look, and I explained this in Book 4, I hope one day I publish it, the manifestation of the light on the surface of the sun is the interaction of what has been reduced from the plasma to the matter so that in the interaction of the matter strength with the full strength of the plasma field of the center, creates the interaction of what we call the light of the sun.

13237 K: if the strength of higher order to matter state conversion is not done on the surface there will be no dimension and the light of the sun surface would go to the boundary of its plasma shell that we call the solar system. At the point of the interaction of the field strength of the given strength in respect to the center it is where what we call the matter state at that strength is manifested. You call it the surface of the sun. Once that is created then it interacts with what is created from the higher strength fields internally. And that interaction creates the fields of light we see on the surface and we call it the sunlight. This is why we see sun flares.

13333 K: As a plasma physicist it is very (ridiculous)? in what is explained right now. But in the spreading of the fields it is very much like I have said many times: the interactions of the fields of the plasma of the sun with the plasma of the earth leads to the creation of the light for the earth on the interaction of the face balance between the 4 field forces and what the earth's gravitational magnetic field pulls to itself creates the light of what we call the day. This is on the facing side of the sun. But the same light crosses across the solar system and doesn't come into interaction with anything and we don't see the light.

13422 K: So, the same principle applies to the surface of the sun. It is the interaction of the matter state at that strength with the field strength of the gravitational magnetic field strength of the center, which is of the higher order that is interacting with the surface of what you call the upper atmosphere of the earth. Now this interaction is closer to the higher strength so it creates higher, deeper and stronger lights so that we can see it radiating across the plasma of its own shell... what we call the solar system. At the same time as it is weaker on the boundary but stronger in respect to the environment of the galaxy, these fields are reflected back. Because they are

not strong enough to go through they are pulled back by the gravitational field force of the sun itself so it feeds itself.

13518 K: but at the same time some of these fields feed into the surface of the galaxy but at the same time some of the rays of the galaxy penetrate the shell of the sun and they enter and they become part of the field forces of the sun. So what comes back we call gravitational fields and what goes out we call magnetic. But, the sun itself is the essence; it is the source. If you look at it, the sun is the soul. In the time of the transition from the surface of the sun to the environment where it comes to touch the surface of the earth or the upper atmosphere of the earth is the emotion, which gives that we will be warmer. If it is further out it is weaker and it will be colder.

13605 K: And then when it interacts with this part that we call earth we get the residual and it creates the manifestation of physicality of the existence of the entity that we call the earth. So the sun itself dictates how it is manifested in dimensions according to its strength. That shall be the understanding of man in respect to his own soul. There is no difference across the knowledge of the universe. Man has not understood; we have not seen the sun creating a church for itself to pray to.

13643 J: I have to study this very deeply; I do not understand all this. I will come back to you after I study this. What I have learned in my so-called religion is that every man is the God in his own universe, right?

K: yes.

J: And there are many universes; there is the physical universe and there is the _____ universe (garbled 1.37.42 minutes). What you dream is your own universe. And there is another universe, which is the physical universe where you interact with others – with vegetables, animals and other human beings... right?

13820 K: yeah, but let me tell you something and this has caused a lot of problems for religious people with me. If the light of the sun changes according to its environment and what it comes to be, how come man is the only animal on this planet that goes to church?

J: this is an aberration. I agree with you.

K: yes. we have not seen any cows going to a mosque or a church. So we have created that out of our own feebleness.

J: exactly, I agree 100%.

K: I don't know which church you go to but...

J: I don't dare to say it but you have already invited them and you have in them the abusers. I tell you I have been in science religion and now they are the most abusers.

13935 K: put it this way; you live in Scientology. I live in Accra at the moment in Africa and when we drive across the city we have a very good laugh because there is a church of the church, the church of Jesus, the Home of Jesus and there are so many churches and we always say we are going to open a church of gans, because churches have become a way to abuse man. Now they have learned... and you have to understand the history of the way Christianity has gone.

14021 K: The Catholicism got divided into what we call the Protestants after the Henry VIII division of the religion. The Africans have taken it a step further. If he could separate and make his own church, and he does that, now every man in Africa makes his own church. You should see it; there are the most beautiful, huge building that are churches and they pay no taxes but they loan money at 40% and they don't pay any taxes to the government. Now it is a very good business to be in churches and they are all churches. They don't call them mosques. The mosques don't have this; everything goes to the mosque. But I will show you a video and from the office to home we must see I don't know maybe a couple of hundred of them. So the Christ name in the church has found many dimensions to milk the man. So it is the weakness of the man which allows this abuse.

14125 K: it is very very interesting... 5 or 6 of them wear the robes and the gold of the priests. And now they have many, many ways to be in the most profitable business of the moment by calling themselves a church. There is a lot of this going on across Africa. Africans have become wise to it; if Henry VIII could do this, they no longer have be the Church of England or send money to the Vatican.

J: could I say something? L Ron Hubbard is the founder of Scientology. He said that Africa would save the world and that is exactly what is happening now. He said about the Africans that were more spiritual and open their arms to you! So this is what has happened

14236 K: We will see! Maybe the Africans have 2 churches; one is the church of Christ and they have their old voodoo churches. They pray on Sunday in the church and then they go home and pray to their statues. Let

me explain something very interesting. If we go back and look at the departure of the last president of Gambia last month when he lost the elections. He still goes to church and he still goes to the mosque or whatever and then part of the treasures he could take out of the country with him were all the statutes he believes in. He believes more in those than the church he goes to. And he had to leave some of them behind because there were so many of them. They have masks and one path of belief of what they think they need to do. You have to see that man even in the name church has many clothes and many fears.

14404 J: Mr. Keshe, I don't want to spread myself out and I have 2 important things to tell you. I have studied all your knowledge seekers workshops. I am nearly finished with those. What you said is about the same as what I learned in Scientology from Ron Hubbard. Ron Hubbard said in a very secretive way that he will come back not as a religious leader but as a political leader. When you said that you were recognized by the ETs as somehow, if I don not mistake myself, their leader on earth, I thought to myself that Ron Hubbard is back. I don't know if you know that the spirit can split in two. Are you aware of this?

14547 K: we are listening; it depends on the point of view. There is always the male and the female but if you call it in the way it is the essence of the existence. I was talking to Armen this morning on some work we were doing and I explained to him, if you make a reactor and if you do not have another one that you can give to and take you cannot show its existence of its field. It is very much as when you hold the magnets in your hands. You do not know it is a magnet until you bring something that it can attract with, that it can confirm its existence and the existence of the creator.

14635 K: it is simple to comprehend. We have a soul and we have a soul that we can share with, so it can elevate the soul. We call it male and female and we need a partner, irrespective of sexuality, to be able to manifest and confirm our own existence.

J: yes, but this is the physical part of man.

K: let me explain; there is no way we can confirm the existence of the creator unless it can interact with something to confirm its existence even though it can be out of itself. We cannot confirm the existence of the sun if we don't have another dimension of strength to confirm it or by creation of its own strength and reduction by existence of the moon, the sun, the earth and the rest of it.

J: this is wonderful that you said that. That's a very great thing. I am so happy to talk to you. I have a friend of mine who confided to me a few months ago that his chief sheik in his country has realized that he is a reincarnation of Mohammed. I think he could help you promote KF through all the Muslim world. I could introduce you to him, and he is ready to introduce you to the chief in his country. This guy is a saint, a real saint and he is so good. I have tried to introduce him to you in Italy at KFSSI. Should I write to Rick?

14933 K: No problem - you get in touch with Rick and open the channels of communication - we always talk to everyone. You got to realize something that is understood very clearly by the Islamic world very clearly about the KF. The beginning of the work of the KF when we developed and spread the knowledge across the Middle East, it was understood that it would bring changes which would interact or would come across the path of certain beliefs in the Islamic world. If you are not brought up in the Middle East it is very hard to understand. In that composition of understanding it will change a lot of things in respect to how they have been abusing the man.

15033 Originally and maybe he is still a listener, we were asked and we were approached when we started KFSSI, that they wanted to send students with the first team which Armen was part of – people from Jeddah University. The university heads that had to do with the government had to speak to me first to understand what this will do, and will the knowledge affect the Islamic world and bring the changes. We had a conversation with these knowledgeable professors from Jeddah University who were to make the decision regarding these two guys joining KF in Descansano. With all of the questions I had to explain to them that the belief in Mohammed had to be in the heart of the man and not on the mat and in the position of Mecca. This was very hard for them to understand and we started seeing a lot of opposition from the Islamic world in respect to KF.

15155 K: It was very simple and I explained to them many times that when you go into space the earth rotates and you are traveling in different dimensions and strength. How are you going to pray to Mecca unless the Mecca is in your heart. This was too hard for them to understand. Taking that physicality away from it was not something they could relate to. I had the same problem when I was in Iran. The problem is very heavy for the Islamic world. In Christianity you believe in the cross and it does not matter where they put the church, in what direction.

15237 K: In Islam the thought is fixed. They have a compass and wherever you go it shows Mecca. Now you show me a 3 dimensional spherical compass which everyone in the universe can point to Mecca. The other point that I raised to them is what happens when it comes to the termination of this planet with the Muslims in space? Which dust of the Mecca are we going to accept to be the center where we pray? Man has to carry the belief and conduct in the heart and in the soul of the man, in which he sees his physicality as his soul, and his physicality is his heart and his brain. This is the biggest problem that KF has with the Islamic world. I had the same problem with the Ayatollah Khomeini in Iran. I had the same problem with the Office of Ahmadinejad in Tehran. They don't call me atheist but they say he (Keshe) puts up a point we don't have an answer for now. We don't know how to answer.

15349 K: If we go to space how are we going to pray? We go to space now and we stay in the space lab. The earth is rotating at 1.5 hours and you are supposed to pray 17 times in one revolution of the earth. Now you pray for 1.5 hours and how many times do you get up and down to pray because the revolution to you is 1.5 hours. The problem is for the man to be strong enough to carry the correct conduct in his soul, and not in his physicality, irrespective of position wherever you are. This is the problem; you had the same problem in Dubai last year. The Islamic world is a different mentality and the Jewish world is worse in respect to KF because it destroys the basis of hatism, it destroys the basis to exist when you are equal and brothers. Then they have nowhere to make money. Then they have no influence.

15514 K: Why did the prime minister of Israel last year through the head of his national security come back to us and say they would negotiate with anybody but Mehran Keshe in respect to peace between Iran and Israel? Because then they cannot sell guns and create mayhem. Peace does not pay the way that they want it to pay. That is why we get people like the Jew in the clothes of Christian priest to assassinate, but in what name, and in whose name? They have gone to the death of it. We see the same and the belief in death has caused most of the problems in the man and himself. Rabbis, imams, ayatollahs, pope, priests and whatever you want to call them, when they lose that power of being listened to because the man is listening to his soul rather than the word of the man that carries abuse in it, cannot be correct.

15640 K: This is the problem. When you are introduced to sheiks in the Middle East most of them know about KF and some of them have used the technology for their own family.

J: I want to interrupt Mr. Keshe and tell you that...

Rick: Josh, sorry you were muted because sometimes we don't want Mr. Keshe to be interrupted when he gets into something he wants to discuss.

15730 K: the man in the background can mute anybody, even me. Haha!

Rick: things can happen, so go ahead.

15743 J: about the Jews, you said something quite amazing about the Jews in a previous workshop. I remember you said the Jews are the ones who know the truth about Jesus Christ. You said Jesus was not a good guy, he was a very bad guy somehow...

K: he did a lot of good, but on the other hand there was another inclination and it made it worse.

J: he was very correct but there was... violence. But at the end of his life he recanted himself.

K: he never did until the day he died.

J: I don't know the word in English.. What you said in your lecture, at the end of his life he came back to his sense and he understand. The Christ did not live at the time that they said he lived. The bible was written by a bunch of guys who wanted to make a pack of lies to help others. They have taken the life of a very bad guy who was crucified about 100 or 200 years before the so-called birth of Christ. It seems this guy who lived as the Christ, they have taken the example and it seems he was a homosexual. When he died he realized all his sins and he elevated himself... I have difficulty explaining in English...

20104 K: let me stop you there; we have many other people in the background waiting. When you come in respect to level of understanding of a handful of people we call prophets, we have to understand what benefit has brought to those who made him to be the prophet afterwards, and in what shape or form.

J: when you say you are the light you are over the prophet, Mr. Keshe. Because you told us you had something more. This is the science aspect to raise above the plasma and the field interaction with the matter which is... now it is very clear. You have the principal matter, the anti-matter, the transitional matter, the dark matter, and it's so clear.

20219, K: as I have written before (we will end this conversation now and we will talk in the future), in the process of the cycle of educating man we

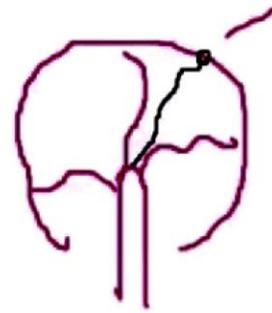

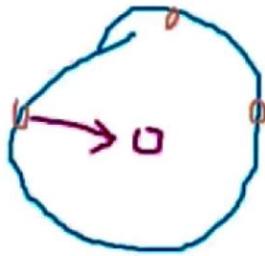

have brought the brought the balance between the science and the belief of the man in the soul of the man to understand that they are the same. As I have written before, in this time the prophets of the science and the soul of the man shall be the same. Before when we had the so-called prophet and the soul of the man, they abused it the way they wanted because it was hidden. The prophets of science and people like the well-known scientists, they are still prophets but they didn't carry the pen of the soul of the man to abuse it.

20313 K: so, in this cycle we teach both the path to the soul and we teach the way this path works. You call one religion and one science. This way, the way I teach the path into the soul, we compare it to the path of the physicality to the stars and we bring the science and the religion together as one so that there is no way for man to be abused again because this is the essence of the universe. That is why there are no temples, churches in the universe. We are the messengers of the universe. Thank you very much. Are there any other questions?

[A question and some drawings from Marcin on the connection of the soul](#)

20413 Rick: yes, there is a question from Marcin on the connection of the soul.

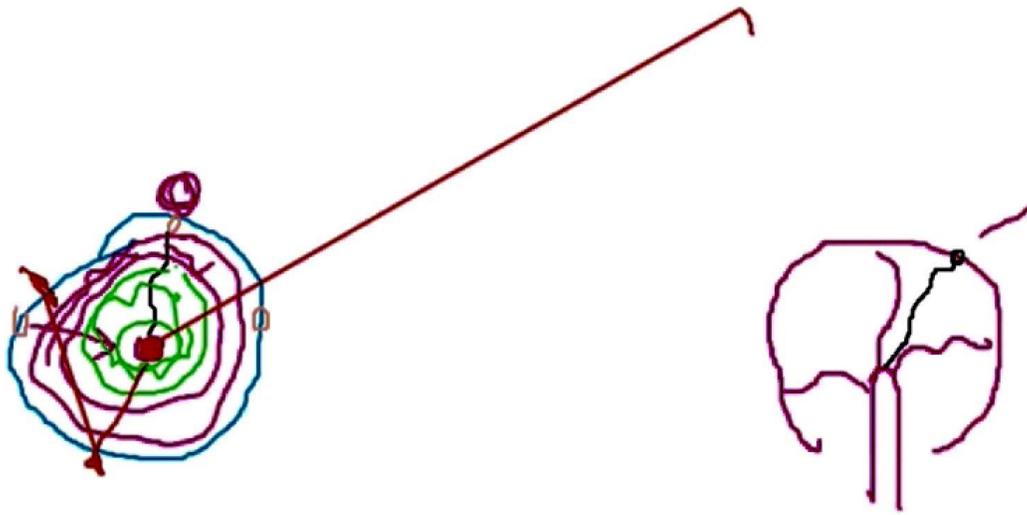

M from Poland: I have the question about the connection to the soul. I would like to explain something on the white board if I can. Could you allow me to draw on something white? Through our practices in 'banking' (?) we find out on our skull that we have some points that they are activating themselves, for example in the forehead, the back of the head, above the ears and other places. But we know that our soul is in the middle of the skull. I was thinking about how to force the disconnection between those points to the inside of the soul. I see this as our skull and our soul just like a plasma ball, an electrical thing where you have the inner gas in the bulb and a high voltage generator. It works exactly the same way. If you will put the finger in one spot and the ray from the high voltage will connect with this point. Am I correct Mr. Keshe?

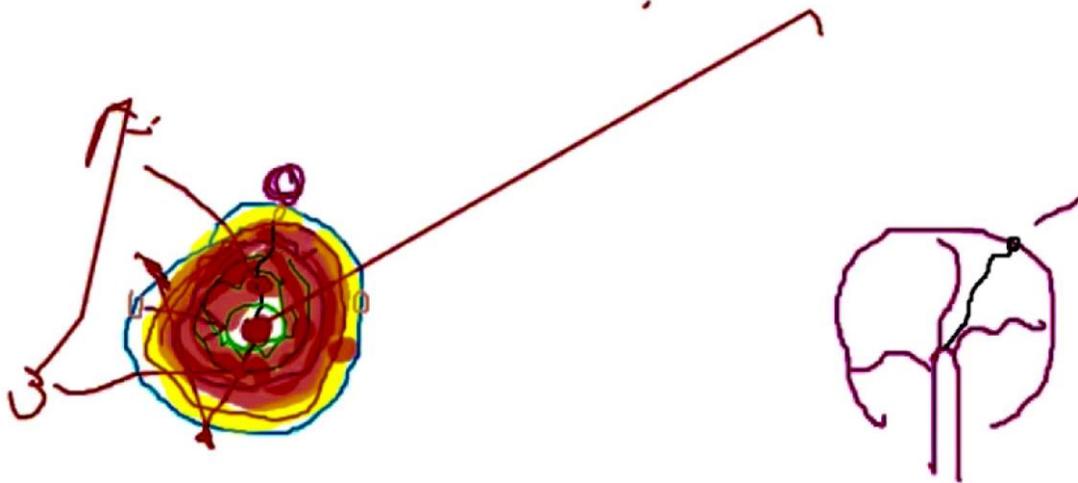

20711 K: this is what we see in the plasma balls in the school.

M: exactly. If my point of view is correct and I do a banking process and one of these points will activate on top of my head. Can I try to force this point to go inside to my point where the soul is?

20754 K: everything ends up with your soul but it depends on what you want to pick up in the passage. If you look and understand the topology of the brain, where you put your finger here (drawing 1 2.08.20 minutes) in this section of it, it is your physical matter condition. In this version of it (circle 2 green) it is your emotional strength part of your brain. What you have in the center is what you call the soul of the man. So if you put your finger here (the center of the circle/skull drawing 1) you still cross the line. If you put your finger here or here (on other parts of the circle) you still cross the line.

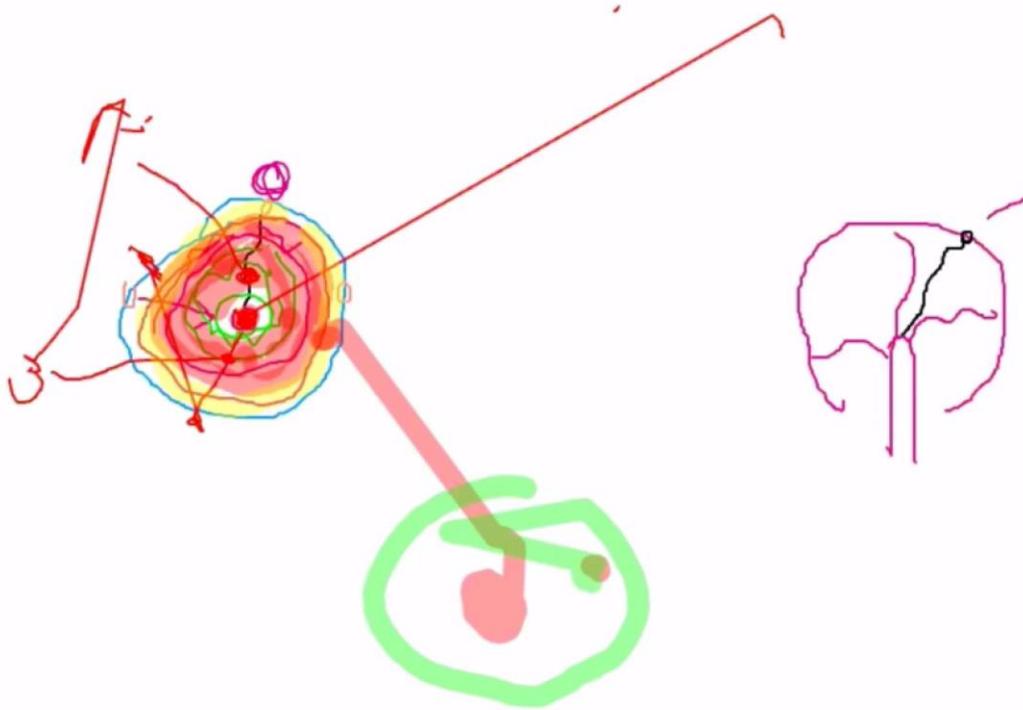

20909 K: But it is how you understand that if this crossing the line at this point touches the emotion of fear, or does it at this point touch the emotion of joy? The can we reduce the level or the boundary of this ... what we call so called emotion here (orange fill) to be most of part of the brain so that the boundary of the physicality in many ways becomes very little. If man matches and is able to do this then he can control everything directly from the essence of the creation in the center, which is here. Because now you decide the filtering where the physicality is irrelevant. But do you need to put one hand on one side of the head and the other hand on the other side of the head and see which emotion comes and if you feel good? Do I feel the strength in my fingers and is this the emotional part of where joy is in the brain?

M: to be honest I was thinking about it because we know that our left and right sides of our bodies are polarized and there is a potential difference in them. So for example if you put the left hand to the forehead and the right hand to the back of our head we will establish some sort of connection between those points through the middle of our skull.

21116 K: let me explain something that has baffled the man. This is the mystery of, and the separation between the work of the soul and physicality. In the physical life we have the proton, and we have the electron, where the bigger dictates the location or the rotation or dictates the position of where the fields will go.

21158 K: the operation of the soul is very much different where the soul is the strongest, is sitting in the front in the middle and its covers itself by its own tangibility. With the electron and proton you have a point of reference. With the soul it is the totality of the plasma both in the level of the soul and the emotion. So the emotion is in fact the electron of the principle or the proton. But it covers it in its totality. This is the secret of the whole thing in respect to the existence of the man. It is so compact with the matter that the reduction is so strong that it ends up with the physicality boundary of the physical brain of the man.

21304 K: And then wherever the emotion touches in the elements of the physicality leads to the creation of the physicality of the body of the man. It is in two halves; otherwise it does not work. There has to be a potential difference. Otherwise it doesn't flow. Yesterday I was at one of the governmental offices. The head said to me that they had a small problem and could he ask the lady to come to ask you a question. I said yes and the lady came and said that her husband was very young and he had a stroke. He is only 38 and I have the MRI with me. I looked at the MRI and I said that I did not see any brain damage. She said but he is paralyzed on the right side.

21402 K: I said *Madame, this is the MRI and we don't see the destruction of any cells. There is a slight spread of the fields but we don't see the destruction we see with a normal stroke.* Then I asked her to explain how the physical problem is? She said *he can close his hand but he cannot open it; he can close his arm and he cannot open it. He can bend his knee but he cannot open the leg.* I said *the life of the man is divided in two ways at different levels. One is a contraction and one is the retraction. We call it sodium potassium junction in contracting and opening* and I asked her if she had any blood tests. She said yes they did. I asked if he showed any elevation in potassium or sodium. She said yes that there was a shortage of potassium and they gave him a lot of injections for months.

21514 K: I said yes, but they have not fixed the depletion of the sodium because it locked the gate. The brain of the man works the same. One carries a slightly different field strength than the other. Otherwise it does not exist. Through the emotion or through the motion of the fields on one side to another they get the transformation of information through the soul of the man. That crossing through has a point of reference. This crossing through from one half to another (2.15.53 minutes) has a point of interaction, which is the existence of the soul of the man.

21604 K: if you look at the shape and position of the brain and go back to the teaching we have done in the past if you look at the side view of your brain, the shape of the brain shows clearly, if you look at the side view of the brain, which is like this, (21621) that the part that is making it missing, as we have taught before, that to make this a full plasma it has converted in the physicality of the man. (drawing on the right side showing the skull in purple and the completion of the sphere in pink)

So the physicality of the man, if you add the strength back in it, will add the strength of the emotion and the soul of the man. Then the soul has a direct effect on the manifestation of the physicality and that is what we were trying to teach today.

21655 K: then you don't need a space suit and you don't need to become a monkey like a fish in a tank for 7 years as they do in NASA so you can change a screw. You become the multitude of the universe according to where you are. You have to understand how you can use your physicality to reach through your emotion to your soul. This is what you need in space; otherwise you will suffer. Man will change forever one clothes to another, one spacesuit to another, one thing to another to survive one condition of boiling; then in another condition he has to wear a suit to go in the deep sea when he is in space. If you understand what we are trying to teach man, wherever he rests his head will be his home.

M: thank you Mr. Keshe, that explains a lot.

K: thank you very much.

21806 Rick: are you ready for more questions? We have other things to show also.

[Is it OK for Europeans to relocate to Ghana to support the Kf?](#)

Q: is there any need for ERP Engineers in Ghana? Akmar said Mr. Keshe said he would like to give trust back to Ghana people so should any northern European engineers relocate to Ghana for the KF?

21853 K: we accept any kind of support. The architects and the planning of the land is on its way this week. What we have to do is the KF headquarters building we have shown you we will use extensively until the building site is finished. At the same time what we need to do is educate the Ghanaian public so that we don't become an island in the country. European, Americans and Chinese are all welcome to carry this teaching process, and with it we will carry the Ghanaians and all of Africa with us. One of the problems we see now in Africa is the lack of the depth of the teaching so they can take the next steps.

21952 K: yesterday we were in the factory and we appointed new management team in the factory. I was discussing this with Armen this morning and strangely enough we have appointed a woman, two young girls as head and deputy head of KF Ghana. Both are scientists in nuclear with masters' degree from Ghana University Atomic Center. Very simple things need to be taught that change the minds. We are not looking for nationalities, European, American or whatever, but we are looking to educate the scientists in the knowledge of the plasma done on site and through teachings. We are trying with the new center to see if we can use the high-speed fiber cable in the university building that we have for you and it does not matter in respect where you are on the planet. It is for you to start teaching the vast number of people in Africa. There is a need for it and you are welcome to teach and to transfer knowledge that the other scientists can learn from.

22124 K: what we don't want to do and I have taken this to the officials in the Ghanaian government, is to have them look to the hand of the white man to teach them to survive and how to develop the technology. But, on the other hand the sharing of knowledge is needed to educate. It has taken us ten years to do this in the west and the rest of the world. Africa has been deprived of the internet so they have not been educated so in depth except some of those who have continuous access.

22207 So K: yes, we do need and we are colorblind. But, going on the track record of what man has done to himself regarding the different colors of skin, there is not much trust left, so that will be good. In one way another it is not so much the abuse of one by the other but accepting that they want to

be more superior which has caused the problem for me here. I understand that we need a huge amount of support and we need to build the space ships from the ground up in the next 6 months.

22249 K: I am talking to governments and some world governments that will sponsor the next development here in Ghana. We have not seen any massive donations from the public because they are too busy in what they do. We can support through the KF factory and this will benefit the whole of Africa. We will bring governments into play and we need educated people who understand the technology and can transfer to others here and the rest of the world. This is our problem; I am spending nearly 20 hours a day to make sure the mistakes of the past are not repeated that no one is the head of the other one and no one is the subject of the other. This needs a lot of understanding on both sides. You are quite welcome to share knowledge with us. I have said that your knowledge is accepted as knowledge and not as superiority of the race. This is my problem and I see this now living here and that is that we need the course of the mentality of the man on all sides in degrees of color and nationality. It is not an easy job to do. We need a huge amount of support. KF does everything on its own but when it is benefiting those who are around the KF who have pocketed everything for themselves, whether it is manufacturing or education we give our blessing to them because they have to mature. We need huge amounts of help especially in the space technology and reactor development. The nano and gans is an easy way to go. The space development is where my heart, soul and work lies and this is the main part.

22525 K: fortunately I have a guy who is on a level with me with Armen and we spend all our time trying to develop on the space side. Now we have another partner and that is Jon in Arizona. We pushed him hard to get to this level. We don't see anything from the rest of KF supporters. The development of new systems for measurement and for understanding the transfer of the fields are the things we need. We need people who are involved in making reactors and space reactors. This is where we are going and it's the heart of the facilities here. I have transferred my responsibilities with KF and more or less when we finish with the Ghana situation I will go back into the laboratory. You will hardly hear from me except for Thursdays. This is where I enjoy being and where I can teach to add to the knowledge as we were doing in Desansano.

22637 K: now it is in the hands of the KF to start teaching en masse. Go to the radio station and the newspapers and don't look at what KF is putting on the internet but explain to them what the knowledge does. Let them be it; the first thing they do is go on Google and see a bunch of rubbish they don't understand and they say this is irrelevant. Whatever is on the internet is irrelevant. We have seen this in the press in Ghana. Mr. Sylvester bombarded the government. Now they want him here to spend a long time in prison. They have issued an arrest warrant for him because of all the things he put out.

22732 K: he came to destroy and now the governments are standing behind the communities and the people. The officials of the government of South Korea will knock on his door very soon. We don't sit silent, but we act very straight and we don't do it in hiding. People who stand around, everything is recorded. Damaging people on the internet doesn't work anymore. You go to the people and you say that this is what it does. This is the water that works. We work very hard but at the same time we need to bring groups of KF together. We need to bring masses of supporters together in their fields of specialties to work together.

22824 K: we need to move out of KFSSI teaching into the mass media and teaching. How do make gans, what does it do and why can you take so many grams of one water with nothing in it and so many grams of the water with nothing in it and you can walk away from diabetes. People lose their arms, legs and lives to diabetes. KF has a process that can very simply walk you within a few days out of diabetes. They call this criminal? And people who would like to stop our teaching are criminals and they have paymasters. We are watching a lot of things and we spend a lot of time with officials and others around the world.

22914 K: It has been made clear that one man paid by his paymaster as a king and one police officer who can issue any documents have become destroyers of the most advanced knowledge for humanity. He is a crook and a pedophile. He has killed many scientists and now the police around Europe are targeting him as they realize what is happening. We don't play; you have to go out and teach, not just in Africa. You are welcome to come to Africa and we need you to come to Africa but come with the hand to teach so that humanity progresses.

22956 K: This is what we need. We need huge efforts—go to radios, newspapers and ministers and give them the water. We got to the point with KF Ghana that registration has been bypassed by officials themselves and the government because there are huge numbers of people with diabetes and this works in 3 to 5 days. People who use insulin don't touch it after a few weeks. This is your knowledge and it has to be shared. You don't need to kill animals to test this; it is just pure water.

23037 K: you have high blood pressure? Within 3 to 5 days we have had people connected to the government with high blood pressure of 220 and within 3 to 4 days, drinking the combination of waters we have developed they have come down to 160 and 140. They are the ones who sit with the government and they say this information has to be out there. World governments and families of the world leaders are all sick. It is for you to decide, not us. You have to teach. We have to change the teaching process and I see a huge problem with the process. We have become inward looking and just teaching more and more to each other. We have to go back to what we were doing a year ago before we saw these terrorists on the internet.

[DL will soon join SA in prison](#)

23134 K: We published the accounts of the banks in Panama of these people who came after you. We published about the people who came to us in Germany to learn how to make the battery and now the battery is being produced in Singapore. And the money goes to the accounts that are sitting in Belgium. The world police are watching and their eyes are open that one man, one pedophile sits in Belgium and writes whatever he likes. And he writes *I am still free*. Soon he will join Mr. Allen Sterling. Write as much as you like. These threats have caused KF members to go inwards. But we have to go outwards and go and teach. Go to the press and show them the process they can use to walk away from high blood pressure, diabetes, malaria, typhoid and more.

23236 K: I don't say this; we have to go outward massively with our teaching. Some of the people who do a lot of workshops start making money out of them. Good luck to you if that is why you came to the foundation. This allows people to understand and to improve their lives. There are those who are doing mass teaching workshops for the money.

They want to know how much they can charge so they can have more--no problem. But we have to go outwards. These people call and threatened and now you see more people coming to teach. We showed who those guys are in Austria; they know who they are and let them shout as much as they like. Now the police forces are watching them. The work has started and we have delivered documents to the forces and legal entities. Why are there Panama accounts? Why was a company transferred to Australia with nothing in it? And then you open manufacturing in Singapore and whoever comes in opposition to Kf, you go to Singapore to get money.

23354 K: You want us to release documents. We can show you documents and one man who has killed and raped so many people has now become the voice of the killers. We know that energy became the 'free energy' man to bring the energy of the children (child trafficking). Who supported him? The same man who writes against us now because he is one of them. *birds with birds, foxes with foxes*. Go outwards and don't be afraid of threats. Now they come to us; South Korea, come to Ghana and we will have a present for you. Your calls are recorded, so come in Mr. Sylvester. We talked with the Korean government and you will have a knock on the door soon. Your activities are open and recorded. The same for those sitting in Holland and Belgium.

23500 K: Now we start talking and when we talked before Alan Sterling walked into prison for life because we don't talk out of line. Writing shit is very easy but when you deliver documents for the tax office there are Panama accounts. All the criminals in this circuit have Panama accounts. We found all of it and it goes 30 years that they have been defrauding the Belgian government. Everything in 2 gigabytes of information is with the world police now. Let them be free; I am very free. But who is the next target they will kill? Those who sit and think they are hiding, come to Africa. The governments are waiting for you and what you deserve you will receive.

23601 K: Don't be afraid to teach. Come to Ghana and go to the African embassies, who want to come here and teach. But make facilities to teach in. We make facilities to teach but there is a problem with the internet and energy. The African nations need this technology more than anyone else. Now it is time to teach in South America, India and Central Asia. We were so concentrated in trying to develop one area that we have overlooked the others.

23647 K: we have to teach and yes we need you in Ghana, all of you who know the space technologies. We have enough information on making ganses. Put new products in the market here. We need experts like Armen and Jon, and the others who went into the gans and plasma technology and made the reactors, yes we need you here and we need your knowledge here. We don't want to create a condition that it becomes a game before. My target is to teach Africans at home so they come back home after a teaching after everyone else leaves. It is a very beautiful thing for the world leaders. It is said when the whites come to Africa they are called 'expats.' When the Africans go to Europe they are called terrorists.

23748 K: why don't the Africans become Expats in other countries as well? This is the state of mind we created for ourselves to abuse one another. This is what we are trying to stop. We need your knowledge, yes, but try to teach in your environment and go outward. Try to teach very, very heavily in your environment. Go to your television stations and tell them this is plasma energy is and this is what it does. By the way please look at the facts about MT Keshe that we have put out ourselves. The other 'facts' were put out by the guys who are supporters of pedophiles and trafficking children.

23838 K: don't hide and be scared. Put it out there. it shows our strength. One man has terrorized the whole humanity---one pedophile who has raped his own children. Alan Sterling confessed he raped both of his children. We saw who was defending him. All who sit around this one are all pedophiles who have raped their children or in the process. Or they have killed someone. We have full profiles on them. One pedophile has terrorized the whole world. Put this out there. Look on Facebook and this pedophile sits next to Allen Sterling and he is in prison for 25 years, they are both pedophiles who are into child trafficking and killing.

23934 K: the press and the government say forget about it; what is the knowledge? Mr. Sylvester has bombarded governments, and now there is a warrant out of him. Please come to Ghana, they are waiting for you. We have gone to the Korean government with all the documents. There will be a knock on the door and I don't know what they will do with you. What we know is that you tried to kill me and now you are in there trying to kill other scientists. A Jew claiming to be a Christian wearing the badge of the Knights of Malta.

24020 K: [Don't be afraid to teach; these people have played all of their cards.](#) The called and threatened their children and we saw this with Alecz and we saw this with people in South America. Now they know and we are working with your own prosecutors. Let them write. Please Mr. Sylvester come to Ghana; we are waiting for you. The prisons are waiting for you. We are waiting for you. I will make one more call and you will be done internationally. Please write more rubbish in the background. We found out who you are; the Knights of Malta told us who you are and that is why you were kicked out. You took \$30K from the KF with false documentation of who you were when you arrived and we can prove your application was all fraud and you got kicked out.

24119 K: you came to DL classes with the black man who walked in the room and you are in the pictures. Now it is clear to the police. We call you back. Don't be afraid of these people, start teaching. It is time to teach; it is time for the man to be free. This technology is to free the man from disease, energy and everything else. This is the key to the progress and we cannot stop it, but the internet hooligans have played their game. You don't want to know about the others and what they have done with them in China. In moments you will hear it on the news. These are the same people who worked with the people in Antwerp.

24209 K: the process is to share knowledge freely and to understand freely how the knowledge will change our lives. We are not here to stop corporations or go against pharmaceuticals. We are actually working with pharmaceuticals to make these for the others to use. Now it is very easy and we can show what the scientists are showing. In 5 days if you are diabetic you can reduce your insulin. Within 5 days you can reduce your blood pressure just by the water in the right combination. Show us anything else in the world that can do this. Within 48 hours we have changed typhoid, which has been the curse of Africa. We have that here and in Europe you don't have this.

24317 K: here the people walk up to us and say they have 'this' or 'that' and ask if we can help them. For centuries, we haven't had answers for these things, now we have an answer for a few cents. We are not talking thousands of dollars. One or two dollars saves a man's life. The technology is beautiful. What it is bringing to humanity is beyond the imagination of the man except for one pedophile who even tried to kill me. I will tell you

something very strange. Now let them write. They have released a picture of me behind the computer the day the last pages of the first book the day the master (DL) had a stroke. I was sick at that time and I thought I got sick in Iran but I started getting sick when he started writing the book with me.

24412 K: [When I arrived in France I was given the poison exactly as John did to me in Desansano.](#) Then he took a picture with his laptop of 'mission accomplished' for his bosses. *"He's (Mehran Keshe) had' the poison and he is going to die.* I was in the hospital trying to stay alive and he was feeding me poison while we were writing the book. He ate the chalice of poison himself by mistake and he had a heart attack. Yes he had a heart attack. He had been poisoning me and all the documents were in the hospital. John did the same thing by giving me a cup of soup to kill me. They gave a cup of soup to the scientist in Holland and killed him. This time the man who gave the poison drank it by mistake and that was why he had a heart attack.

24516 K: That is what the arsenic does when they give it to you. Then he put a picture up that he had a heart attack when he was (working with Keshe). You dumb guy, you drank your own poison and nearly killed yourself. That is why he didn't administer the poison to me; he took it himself. This is the way they work. We are watching everything and now everything is transparent. We opened the door in Africa to teach. Don't come to Africa to teach; teach in your own countries. Go out and give the water to the diabetics and give it to them for free. This is the nano-making, this is the gans making and what you make from it costs you less than \$2.

24607 K: pharmaceuticals will fight this but man can do whatever he likes in his house. The biggest problem at the moment for humanity is stroke and heart attack mainly through high blood pressure and through diabetic amputation. The plasma for diabetes costs less than \$5 and you can walk away from it. And the documents are in the hand of the government. Now those who rape their own daughters tried to destroy my character. How much did we put up with Allen Sterling? Rick had a heart attack; Vince didn't know what to do with the attacks on the website because when they are cornered they write any shit. And now we see it. The man has taken a picture of a golf club where he has buried the bodies of the children. Now we know where the children are buried in Belgium because he has gone to

the scene of his own crime. And he posted it because nobody knew where it was but him.

24722 K: prosecutors in Belgium are coming to your door. Your bank account in Panama is in the hands of the tax office in Belgium. Your accounts and all the hanky-panky businesses you have done are all in the hands of the tax office in Belgium. All of your team; you spoke and we delivered. You have had over 20 companies over the years for hiding money and defrauding people as well as taking companies, killing people and opening bank accounts. If you don't have any money Mr. DL why did you need a Panama bank account? Securities, please release his documents of the bank accounts in Panama in the *Facts about Dirk* and his associates who murdered in Holland.

24815 K: now you see why they are jumping and shouting because we know too much. Please release the companies; I have nothing and what I have is public. I have nothing to hide. People in Security can you please release the Panama accounts of Mr. DL? And, send a copy to the tax office in Belgium. Thank you very much. If you haven't stolen from a man and killed him, you don't need a Panama account. How many of my students and listeners have Panama accounts that carry a lot of money and companies Luxemburg? All these have been registered.

24902 K: You talked, and we delivered documentation. You had the police force go to the prison to kill a man and now the prosecutors are opening the bloodline. The officer in Belgium in southwest of Belgium you are in the hand of the investigation by the police force of yourself internally sir. Call him, call Mr. Delanoir; he is under investigation for a lot of murders that are now opening up. Prosecutors are coming to your door sir. The government has set up prosecution against him hidden, but now we go public because he knows the fear. Call him please from Austria. The thing is they tried to intimidate us and destroy us. Now we deliver so that they fear for their own lives.

24950 K: How many companies do you want me to tell you about. Does it matter? If you want to know the way they do and why they have a company in Singapore and with the same they transfer \$1 to an account in Australia, governments have started asking for the accounts which have been set up for defrauding, killing and transferring money. Now we talked and we have delivered. Please release his Panama accounts. This is a man who claims to

be so straight and we show that he betrayed Mr. the Belgium politician who was exposing him as a pedophile. You are welcome.

25044 K: [Mr. Sylvester, please come to Ghana. We are expecting you.](#) You made a lot of calls and they want to see you. And please come with all the references you have in your hand because the Knights of Malta are waiting for you too. Please release the letter about Mr. Sylvester that he was stealing as well. He is under Dirk. Then you will see that the police in Hungary are waiting for him for deception and theft. They want to hand him over.

25120 K: Security can you please release both the letter from the Knights of Malta about Mr. Sylvester and the same for the Panama accounts and other accounts of Mr. "perfect" DL who is the same as Alan Sterling. And also release the pictures where the children are buried and he has gone and taken it after a confession on the internet. Now we know and we close the case very rapidly. And, if anybody tells you from now on, tell them to go on the *Facts about KF* and go look at the Panama accounts and the fact that Mr. Sylvester is wanted by the police in Hungary for stealing 265 (265,000?).

25158 K: This is an email from the Knights of Malta who are responsible for the security of many world leaders. Now you understand; please, we release these to support you. We don't release you to 'tic tac'. We took our time. From now on when you go public and anybody says, there are *Facts about Keshe* and *Victims of Keshe*, please see why they have made all this false rubbish because this is the Panama account and they are a bunch of thieves. They are working together and they are murderers. We release more documents about the murders of people in Belgium. And at the moment the police of Holland have opened a case against Mr. Skot, Mr. Good Guy in Belgium, writing so fast... start running! Everything ends up in Belgium.

25300 K: and, the African police are looking at how all the African children ended up in your book in Belgium. Please come to Ghana; you have a lot to answer, all of you. We opened and we support our supporters. You ran in fear and we took our time. It took 8 months for Alan Sterling and we got him into prison for life for raping his own daughters, the same as Mr. Blond Blue Eyes in Antwerp born in Kinshasha, brought up in Kinshasha, enjoying the color of the skin to rape little girls of Africa and bringing them back to Antwerp. You want us to release more now we know the path. There is a lot of work that has been done but we release it and now you understand.

Please release all the hidden bank account and please if you are Belgian listeners call your tax offices and ask how this guy has stolen so much from us. If you don't have money you don't need Panama accounts, Luxembourg accounts or banks in the United States for hiding money under different names.

25405 [Please use.... the *Facts about Dirk* and release documents to your police departments and tax offices.](#) We have already delivered everything. Why does a man who has no money need a Panama account? Have you seen any beggars on the street having a Panama account? Thieves have them and people who murder. If you look at the time of these events and opening of these accounts is when major scientists died from being killed.

K: and you find this all goes to Singapore nowadays; anybody who has been in touch with DL finds his way to Singapore. Sylvester was there this year or last year in February trying to entice people because he went for his payday. It is the same for other people who were kicked out of KF. And, the company was shut this week. A lot is coming up and the strange this is that all are DL's team and he is in the middle. That is why he was writing and shouting so much rubbish because he knew we were after him. Now we release the information. I would like to know out of millions of listeners how many of you have a Panama account. How many of you need a Panama account unless you are hiding funds. Panama is where they hide all the money stolen from deception, fraud, killing and stealing.

25533 K: DL has a Panama account; Security, please release the documents. And you see the letter from the Knights of Maltas where we deleted the private addresses and what they say in there and what was stolen. And we have given all the documents to the Korean Embassy and soon they will knock on your door, 'sir' because there is more there than what you think. You're connected to a lot of murders and kidnapping. It's all in black and white on the documents and we don't call and pressure the press as you do. The press got fed up and now they've asked to release and now we release. [Go on the *Facts about Dirk* and see "Panama."](#)

25616 K: if you are Belgian or Dutch and you are correct people call your governments. Ask how come there is a line for fraud and deception of tax people and how come this guy has these accounts and you do nothing about it, unless of course it sits with the king, isn't it!. "We kill together" and you

can see the picture of where they have buried the children in a golf club in Konake and it's been on there. We have taken pictures of everything. Why do you go there with pictures and they say girls have been raped and murdered? He has released it and the date is 2008. Two weeks before he published how two girls had been raped and murdered at a golf club. He went to the scene of what he has done.

25707 K: now you want to know? Please, Security, release the pictures of the golf club and let him see. It is from his hidden website with his name and signature on it. We talk but with evidence, we talked with evidence and Sterling Allan walked into the police station. Panama accounts and everything else, pictures of the murder site, being involved in murders of people in Europe. Police have been given this evidence and are running with this. How to get this thing out of control? We need your knowledge but I release this information today to show you that you are free to tell them to go this website of *Facts about Dirk* when they tell you about *Facts about Keshe Foundation*. Get the reports of Sterling Allan too. These guys were working together. Both have daughters and they raped their own daughters.

25804 K: "Cubicly happy." They said we were talking rubbish about Sterling Allan but when he went in (to prison) we don't hear about him. He is in solitary and he is giving more and more evidence and his information has resulted in the arrest of more than 4000 pedophiles around the world. Now imagine if they open the computer of this guy. Most probably there are half a million of them and most of them are Belgians. Go on *Facts about Dirk* and call your tax office and ask why is he and how come the police officers in Belgium are working with him and they hide everything on him?

25840 K: these are well organized criminals and they thought they had silenced us but now we give you the tools and give them *Facts about Keshe* please give them! and *Victims of Keshe* and have them look at who has written this. Tell them this is it and the money has to be stopped and they don't get any more children. Then we give you a link and you can read the British report of all how all the children were stolen from Ghana and kidnapped from Ghana and they ended up in Antwerp. I will give you the link next week and securities will release it. And all of it will end up with him. The British police are fed up with how many children are disappearing from Ghana and end up in Antwerp in the hands of this guy and his team. They are picked up at the airport and we found out the process. When we talked about Sterling Allan everybody said 'blah blah.'

25930 [K: We have found out how they are trafficking.](#) They are taking children from orphanages because those children have no birth certificates and they use women as donkeys ('mules') and at the airport the police officer who is a friend of his and they work and they separate the mother and her false child and the child goes for trafficking and sexual abuse. Now you know. Now we let you know how they operate because this is your strength. We release this now so you can go to the press and say this is what we have and what we deliver. By the way these are the facts about this. These were written and the hands have been exposed by Sterling D Allan. The press just ignores it and they don't want to know.

30015 K: we want to know what is coming in; this is our strength. You took a lot of battering from these people. Now, be proud that you can save humanity and serve humanity. This is our strength. I stayed silent and for the past two days the Press (in Ghana) has been pushing me to release this because it has to be correct. The police and prosecutors in Holland and Belgium who are investigating Mr. Delannoir now for murder and trafficking of the children at the train stations are investigating the prosecutor of the prosecutors because he gives documents for him to do. Please call Delannoir and tell him its opened and we are waiting for the same. The Italian police are waiting for all of you because you carried the murder to Italy when you murdered Fabio. You thought it was easy to do and that was your biggest mistake. Your history of the past is opened up.

30116 K: why do you need a Panama account when you are a straight man? Please KF supporters in France, Belgium and Holland, send these to the tax office in Belgium and bombard them. We want to know why this man has so many fraudulent accounts. I don't (have fraudulent accounts). We have one account that sits in Holland. We have an account in every company we run that I have and as a Director I carry nothing in my personal name. I eat or I pay and it is from the KF and I get paid and it goes into the KF. That is how it will be. The KF belongs to you. They damaged us and we stand our own protection by the request of the Police.

30210 K: There is a man in Belgium who is in prison and he should be a free man. Mr. Backmann is free. DL (Dirk Laureyssens) managed to kill, to get a suitcase, which belonged to Mr. Sloot, because the key for decoding was in it. And a man is hanging around the prisons for nothing. He lost all his way

because he lost his connection to Mr. Delannoir and they could frame him up the way they tried to frame us. Now it is open. Everything is on the table Mr. 'Smart Guy.' Go to the tax office. They already have it and the investigation was started 3 weeks ago by the Belgian Federal Police and the Tax Office. He never declared any of it (income) so he cannot say he is 'innocent.' He is a thief, a pedophile and child trafficker. Now you know why he was writing so much because he could see we are serving around everywhere.

30313 K: be very strong when you go to the police and you go to the Duty Officer and say here is something called *Facts about Keshe Foundation and Victims of KF*. Those who wrote about this are all pedophiles. Here are *Facts about Dirk*. Why is he writing about KF? This is the solid evidence. The problem is not the technology but that this technology is so lucrative that anybody would kill for it but now it is so cheap that nobody will kill for it and they can save lives. The reality sits with us and in fact if you want to know we have everything in our possession to be delivered.

30409 K: [We can deliver everything—the energy, space, agriculture, health.](#) The reality of the whole structure is how it has been used to save mankind, how we need to do things and how we need to understand how it works. We need to be open about what we have and how we communicate the knowledge across borders, nations, each other so we develop the next race of humans to be independent and to be trustworthy of themselves so that they don't do crimes that don't allow them to become close to their own souls and that they can survive the span of the whole universe. This is our problem and our vision of changing mankind.

30516 K: These people have a lot of problem because the police in Ghana are investigating how DL has been trafficking children out of orphanages. 200 a year suddenly disappear and according to the report we released they all go into Antwerp. They are picked up at the airport. Why should a child be trafficked if the soul of the man was so high? We should be able to stand and there is a very, very interesting company. Look at the matrix of the United States and see how it connects with Mr. Smart with DL. The company was set up in the United States to defraud Belgians. Now they can say this guy was a criminal, a 'fraudster' was an adjutant. Now we release his name and he doesn't publish much on his website of *Facts about Keshe* because it in there that we put him at the head of what you call the head of

the website. The he calls a fraud is the head of his website. Now, please, walk into the tax office of Belgian authorities and say *my name is 'so and so' and I've defrauded you; how much do you want me to pay back?*

30653 K: but we don't know much because now it has been diverted to Singapore. He has transferred the worthless company into Australia and the same man has transferred it to Singapore. We have all of it and the Tax Office has all of it 'Mr. Smart Alec.' But now, very soon, we are going to release the names of the children you have killed so there is no place for you to hide. The first children you raped were your own two daughters just as Sterling D Allan raped his own daughters. (Notetaker: see notes at end of workshop regarding Sterling David Allan and more.)

30731 K: [Be proud; you carry as Knowledge Seekers and KF supporters the technology that can change humanity after thousands of years in spirit, in soul, in food, in survival and everything else.](#) You don't need to be hiding and ducking because of one man who has a paymaster and a police officer who picks up children at the airport. Please write to Mr. Delannoir because he wanted by prosecutors because he is under investigation by prosecutors in Belgium and the HBN community. Write very fast and give him a recording of this too. Tell him all the bank accounts are with the fraudulent letter of the terrorist and all have been recorded. The only path for them is to jump off the cliffs. And even that did not save one of the paymasters in England some years back.

30830 K: be proud of what you do. We have no problems and there were no allegations until the biggest murderer on this planet of children and scientists appeared. DL. Now we release documents; nothing else. We don't make accusations. We started to push more and they released what we wanted. They gave us indications and directions in their private communications and we released it to the securities and now we release it back to the police. It is very interesting. We opened the *Facts about KF*; you tell me how many of KF supporters have Panama accounts, Phoenix accounts, Luxembourg companies. It is interesting because DL says *he is greedy and he is only after money. I am not against the foundation, I am against Keshe*. It shows he is only after the money because if he gets 'Keshe done' as the head of KF then he can steal everything. None of you saw this.

30939 K: and everywhere he speaks that I am after the money, I have only one account and I don't have Panama accounts. So it shows the tainted thinking of the mind (of DL). He has written that he has nothing against the foundation and if he gets rid of Keshe he becomes the head of KF. Then he can steal the rest and the Panama accounts get filled up again and other companies. Now you understand why DL made the accusations. The man only talks the way he works. Mr. DL you are on the 11th floor and the only way out for you is to jump out the window. You chose to kill children and you chose your own path. The knock on the door is one way into prison or you said yourself one day: *one day I might jump out of the window*. It is your own words and maybe you have to choose it because that is the only way out of all the mistakes you made by hurting humanity.

31048 K: I got sick when I got picked up at the Paris airport when I returned from Iran. We thought it was radiation but now that we matched the documents from the hospital in Belgium and in Italy in the past few weeks, we found the same pattern of poisoning. He drank his own poison. The same way Sloot was killed was planned for me and they tried it on me. He was chicken to come and he sent John to give me the poison.

31121 K: This time he drank his own poison and had a heart attack. He had no problem doing a few pictures. He was working 24 hours on the internet and then he had a heart attack or a brain hemorrhage. He ate his own poison. It was the last cup that was supposed to kill me and I don't know what happened other than God loved me. He ended up with the heart attack. You can imagine what would happen to me as I was already in process of internal bleeding and we thought it was liver cancer or radiation. It was from his poison and I was in perfect health when I came from Iran. He drank his own and then he took a picture for his bosses and said he got everything. He published it and then he had a heart attack because he drank his own poison. His heart attack was exactly like Sloot and exactly like what he did to me and to Carolina.

31213 K: so don't blame anybody. You became the victim of your own poison. And please I hope you put all the money in the bank account because your children will not see it because it goes for the children you killed in Africa. You have to understand that the white was brought to Africa. The hate of it when he went back was to take revenge by raping and killing. He was brought up in Kinshasa. Alberonese—he's transferred. If you look John poisoned us in Italy again another white man brought in who

was another white man from Kinshasa and they had been friends from childhood. If I can't do it you can do it for me.

31302 K: don't be afraid. We have given you the tools and we have released information about them. When you go to the press go out and teach. When you teach go on the *Facts about KF*. It didn't exist before we arrested one and the arrests started and this is about the guy who wrote the 'facts' because the real facts are here. It is in black and white from the bank accounts. Walk into the Tax Office and ask why there are Panama accounts, Luxembourg accounts, companies in different names around the world to defraud his own government.

31338 K: be proud; you carry the most powerful technology to change the course of humanity. Teach it; you don't need to come to Africa. Teach it across the world. Teach it so that it changes the course of humanity. Teach it so that it exists.

31402 K: [I want to tell you something very interesting regarding Mr. Sylvester.](#) He claims to own a patent. When he came to us he said he was the patent owner of a technology and we have found out this is a stolen patented Japanese technology. Please release that to, securities. The guy is a habitual thief by nature. He came to kill me to get the technology from me. Please return the 30,000 Euros that you received by deception from the foundation because your application was false. Anywhere in the world no one would have trusted you. We did that with a straight (intention). We didn't know that you were an assassin sent by your paymaster. We have put communications together in the background and we will release them on the internet. They show how Sylvester and lover boy talk to each other.

31454 K: we are monitoring everything to protect KF and now we have been asked to release this by the Press. Now we release it. Go and teach heavily and teach outside and openly. Take the technology where it changes humanity. I enjoy serving Africa because it is time to bring pride back to the continent. It is our mission to have the first spaceship fight out of Africa and to change and elevate the station of this continent which has had so much abuse by the white man like DL. They came to be brought up in Africa and then raped and killed the children. And they go and take pictures where they raped the children in Knokke. The father is the same as the son; so is the king.

31605 K: understand one thing; until we don't wash what we wash we cannot go to the next step because the burden of our not serving humanity will keep us back. We don't need conferences and to gather in places. We gather the knowledge and we spread the knowledge. If you are a Dutchman call the police in Utrecht and say you want the case of Mr. Sloot to be fully investigated. The Telegraph in Holland has the full dossier of where the bank accounts are and how they operated to kill a man to benefit from the decompression technology.

31651 K: these are all the benefits of our being able to serve humanity and through one family, just one family of all the pressure that DL and his team have put on them for 20 to 30 years. I will tell you how ruthless they are. They killed a man by giving him the poison. And then the family was poor because they took the knowledge of the man. They called the family because his briefcase that was carrying the code of the decompression is now worth billions because now we know what it is and we send documents on decompression that this man found out 20 years ago.

31730 K they tell the poor family, the wife who has lost her husband, that if she brings the briefcase we will give you 2.5 million guilders for the briefcase. The rest is ours. The family was desperate and they delivered the briefcase to the office of the lawyer they told them to deliver it to. The briefcase disappeared and 19 years later the family has not been paid a cent. That briefcase appeared 8 years later in Belgium and they killed two people for it. Again the fingerprint of DL is there and he is involved in both cases. The documents are there. This is how they work. Read about the life of Jan Sloot. They gave him poison, exactly the way they gave me poison. The poison killed Sloot. The same was done by DL but this time by mistake of someone in the café he drank his own poison. And then he couldn't carry it out so he sent another expat, Kinshasa bred and born, Mr. John to Desanzano again to give me a cup of soup to poison. It is the same pattern and the same people and the same name.

31841 K: we don't accuse; now there is enough evidence everywhere. And then you understand how they operate. Police of Utrecht will follow everything. You have to request the body to be exhumed, which the family is doing. The prosecutor has all the details regarding where the suitcase of Backmann appeared after years. The case is known as the Backmann case. They wanted to get the briefcase back because he had the codes of decoding

and after 8 years they couldn't decipher the codes they had stolen. They killed a woman and then Delannoir killed a man in prison who was the witness who organized it for them. His name is Marco. It brought his brother to insanity losing his brother in prison out of nowhere.

31941 K: [Mr. Delannoir kills people.](#) We know; they came to our house! Under a hat if he was a good policeman you don't run and hide. He was running and hiding because Carolina had a camera on him. If you are a police officer you stand there and say, *I am an officer*. This is how they work and how they kidnap children. Put the facts out in public. The police in Belgium have no credibility with Delannoir as part of them as they are kidnapping and killing children and issuing false documents. And it is all done by instruction of DL. Now we know. He puts a picture the day he was poisoned. How could you know you are poisoned when you are in Belgium and you know I have been poisoned and you called Dr. Kostova to say I was poisoned with arsenic? How would he know? Because he was poisoned himself by mistake, Sloot the same way, then himself and then me.

32038 K: we have a lot of things and the police around Europe are on the run trying to gather as much as they can. And he writes, *I am still free*. Please walk into your own Tax Office and tell them why you have so many accounts. I want to know how long they will allow you to be free or stay alive. And then all the other things you have done, DL. KF stands for its own integrity. We are forced, we play the game but we at the same time we take our time and now we release information. Sorry about this; but we have all been through this and a lot of you took a lot of rubbish on the internet and you asked me why we didn't defend.

32120 K: We only defend when we are solid and when we have solid information. We gathered; I thank the Security Team in the background. I thank those who work day and night relentlessly to bring these things together. Without you it would have been impossible. But we have to do it now. Please when you go somewhere write on top of our information and please at least tell how they damaged a new technology. Write everything about me on this and I give you the right to do that. And please write the man who writes this and the Belgian politician who he destroyed single handedly to become part of it and said he was a thief but I sit next to him. And then write about the Panama accounts, the death of Fabio and say, *please Judge, it is yours*.

[I made one promise to the soul of Fabio in Italy—I will catch his murderers.](#)

32216 K: but this is the technology, so bring it into the public; this is your responsibility your obligation. We owe this to Fabio. I put a lot of time and resources into this. I made one promise to the soul of Fabio in Italy—I will catch his murderers. I owe this to a woman, Naomi, that this man in Belgium planned the death of both of them. There were two Albanian drivers who trapped them to get them to get me to kill me. It wasn't one truck; two Albanian trucks trapped Fabio. Now you know more about that because we release more. This is in the document to the Italian police. The two Albanian drivers trapped Fabio deliberately and they knew he was on the same run from the office as me. The informants told us and somehow I passed and they did not recognize me one way or another or that I passed. They trapped Fabio and they stood by pretending to help Fabio. Now we know their process. It was two Albanian drivers with false documentation.

32350 K: we will do the job and now that we are out to do it, we will do it perfectly. We've got Sterling Allen in for 25 years to life for the rapes. The other guy who went to hide to help him, we will bring him the same. I wonder when he goes to prison how many names of children in Africa will come out. I am going to end this today. Thank you very much for today. But be proud in what you do and teach openly and put everything about me which is wrong about me on top of your introduction and please write who writes that this is the guy. And then they understand. And then say, now this is the technology. Thank you very much for today.

Rick: thank you Mr. Keshe. We will take left over questions for next week. And that'll be the end of the 162nd Knowledge Seekers' workshop for Thursday, March 9, 2017. Thank you for attending.

BREAKING NEWS – Sterling D. Allan – Pleads Guilty to Molesting Underage Girls

Published on May 13, 2016

This is a hard article to write. **The extent of Sterling D. Allan's depravity is worse than we thought.** Sterling D. Allan pleaded guilty to two felonies for molesting underage girls, in a plea agreement. Sentencing will take place on 6/17/16. But just in case there is anyone out there who is still supporting the scumbag Sterling Allan and/or any of his fraudulent free energy scams he covered on his various websites we want to provide complete coverage of this case so those people will step away and distance themselves, not only from Allan but also from all of those false claims of working free energy devices.

Allan claimed he came to this Earth to be a pedophile and that he was "god in the flesh." Allan was first connected to underage girls when he disclosed that he almost kidnapped an underage girl, during the coverage of the Elizabeth Smart case. Most people in Utah have heard about her bizarre kidnapping and sexual assault at the hands of two fundamentalist religious zealots. Allan was disposed in the Brian David Mitchell trial, (for kidnapping and rape of an underage girl, Elizabeth Smart) because Mitchell was a member of one of Allan's religious groups.

Here are the original charges in the original complaint. We are going to detail these original charges because the number and type of charges in the amended complaint were drastically reduced. We want the world to know the full extent of Sterling D. Allan's depravity, not just the final charges he pleaded guilty to in the plea bargain. You will notice that the charges are that Allan was molesting his own daughters.

COUNT 10: LEWDNESS INVOLVING A CHILD, ...same as above.....

COUNT 11: LEWDNESS INVOLVING A CHILD, ...same as above.....

COUNT 12: LEWDNESS INVOLVING A CHILD,same as above

PROBABLE CAUSE STATEMENT: Jason Randall of the Utah County Sheriff's Office, having probable cause to believe that the defendant committed the above-listed offenses, submitted the following evidence in support of the filing of this Information:

Sterling David Allan confessed to molesting two of his three infant daughters in various ways between 2003 and 2009 in Eagle Mountain. In December of 2015, the FBI became aware of several videos posted to Youtube by Allan (currently living in Fountain Green). During some of these videos, Allan admits to being a pedophile, who has committed several sex offenses against children and also alludes to having had access to child pornography in the past. (Allan has posted dozens of videos to 2 separate Youtube channels, the Sterling Allan Youtube Channel, and the PESNetwork Youtube Channel. (Videos are extremely long (some in excess of 2 hours) and discuss a wide range of topics from Allan believing he is the "Heavenly Father in the Flesh", Allan's belief that he was preordained to be a pedophile, Sterling's past sex offenses, 9-11 was an inside job, as well as free energy technologies.)))

On January 14, 2016, Allan's ex-wife Cheri Mcaffin was interviewed. **During that interview, Mcaffin stated that in approximately 2005, Allan admitted to being sexually attracted to prepubescent girls and sexually molesting their daughters while they were living in Eagle Mountain. Mcaffin stayed married to Allan and took steps to ensure that Sterling was never alone with their children.** In the spring or summer of 2014, during a trip to Disneyland in Anaheim, Mcaffin finally decided to divorce Allan after he told Mcaffin that **while carrying their 8-year-old daughter (H.A.) through the park, Allan repeatedly fondled her genital area over the clothes.**

On January 14, 2016, Allan was also interviewed by police. **During that interview, Allan admitted to numerous sex offenses committed against his eldest daughter (E.A.) and youngest daughter (H.A.), while those two daughters were approximately 2 years old and still in diapers.** Offenses admitted to by Allan included placing his mouth on the two victim's genitals (each more than once = COUNTS 1-4), fondling of the girls' genitals (each more than once = COUNTS 5-8), and **masturbating in**

front of and exposing his penis to them (each more than once = COUNTS 9-12), and repeated incidents of fondling them over the clothes.

On January 21, 2016, the victims were interviewed at the Utah County CJC. One of his daughters (A.A.), disclosed instances where Allan informed the family that the reason for his divorce from her mother was because he was a pedophile. A.A. also was present when Allan apologized for touching H.A. in a sexually inappropriate manner. **Allan also admitted to A.A. that he molested another female child friend of the family during a trip to Gold Beach, Oregon during November of 2014. Allan admitted to fondling the girl's genitals over the clothes on several occasions. This child friend victim subsequently disclosed that Allan fondled her genitals and breasts over the clothes during the period of time in November of 2014.**

Allan's computer and hard drives were seized after he admitted to having sexually suggestive or explicit images of children on his computer, as well as email conversations between Allan and others where Allan discusses committing sex offenses, as well as Allan's raw footage used to create his Youtube videos wherein he discusses being a pedophile and committing sex offenses.

Scalia Murdered After Obama Meeting (updated)

White House confrontation over FBI file leads to Scalia killing

...by [Gordon Duff, Senior Editor and Ian Greenhalgh](#)

Editorial note: Revelations on the Allan case, which led to Scalia now lead into the entire Koch network, including the Federalist Society, said to be

operating not simply in law schools but America's high schools as well, and into the Heritage Foundation.

We don't know when it began, maybe at the Presidio under Michael Aquino and the Temple of Set or before. We do know it has victimized thousands of children around the world, not only in America but channeling children through Belgium and the Netherlands into sexual slavery and death.

What is it that makes the powerful desire what is so hurtful and obscene? When we ignored the Franklin Coverup, we opened ourselves to this...

Scalia – What really happened?

Justice Antonin Scalia was surprised when he was ordered to the White House. This was not a man you gave orders to, especially not President Obama. It was Justice Antonin Scalia who vacated the long sacrosanct immunity from civil lawsuits, opening the door for a weakened presidency.

Sources say that Scalia was the single actor behind the impeachment of Bill Clinton. President Obama was aware of this and had ordered the FBI to set out traps for Scalia. We will now outline the downfall of Antonin Scalia. Yes, this is a story of secret societies, operating worldwide and ritual Satanic child abuse that permeates Washington.

When Scalia left the White House after a meeting with the president just before flying to Texas, the manila envelope he was carrying had printouts from a computer seized by FBI Special Agent Jeff Ross of the Salt Lake City, Utah field office, or so informants tell us.

Scalia left the White House carrying "slam dunk proof" that would lead to the arrest, conviction and, of course, impeachment of a seated Supreme Court Justice, files that contained names of victims and details on sex acts, preferred "types" along with dates and places. All of this was on the seized computer and these files went "up hill" from the FBI to the Department of Justice and directly over to the White House.

There, political advisors leapt on them, seeing a chance to leverage a justice and, in this case, and this is very important, bring down Scalia in

such a way that conservatives would be forced to accept virtually any Obama nomination.

When Scalia arrived in Houston and chartered a plane after ditching his US Marshall protection detail, Scalia and his companion, C. Allen Foster. Foster heads the Order of Hubertus and is co-owner with John Poindexter of the Cibolo Creek Ranch, 25,000 plus acres free for anyone to use, according to John Poindexter, “free of charge,” so long as they are a supreme court justice, “A list” celebrity like Mick Jagger or billionaires, others need not apply.

The crux of the story is how they got Scalia. According to sources, Scalia had been providing protection for an international pedophile ring and was murdered by “friends” who he had informed of the nature of his visit with Obama and the doom it signaled for those around Scalia, prosecution, ruin and Citizens United reversed.

The mechanism Scalia used to provide this protection was the Federalist Society which chooses the judges throughout the US judiciary system so should any unfortunate pedophile find himself in court, the judge was under Scalia’s control, thus making a successful prosecution difficult to achieve.

The Federalist Society grooms and recruits candidates to become judges at a young age – college age kids; they specifically seek out suitable candidates who have certain moral ambiguities that can be exploited.

Thus a stranglehold is placed on the judicial system of the United States by a group which serves the interests of big business – corrupt corporations, big pharma, the oil and coal barons; this is how their interests are, time and again, placed ahead of those of we, the people with the result that our environment and our bodies are polluted by the products of these corporations, be it poisons like aspartame and GMO crops in our food, toxins in our ground water (see Flint, MI) or just plain old exploitation of poor people such as the coal miners of West Virginia and Kentucky.

Scalia met with the Order of Saint Hubertus, the patron saint of million dollar dude ranch hunting. As of yet, no one has identified who was there, it seems that Supreme Court justices are found all the time with pillows over their faces and nobody asks a thing, but this was Texas and they make their own rules down there.

We remember former FBI director and founder, J Edgar Hoover, the man who said ritual satanic child abuse was a conspiracy theory. He is also the man who said the mafia didn't exist.

Scalia's talk in Texas was said to have gone like this: "They have us, we are all going down unless we can give them what they want and they are holding all the cards, they have everything." There was no negotiation with the White House, instead Scalia got, we are told and multiple sources confirm, a pillow over the face and a heroic funeral, one that President Obama refused to attend. Now we know why.

For a seated president to attend the funeral of a pedophile is unthinkable.

The computer itself belonged to a Sterling David Allen, arrested and charged with child rape and sodomy by the FBI after an investigation that began with a meeting in Rome, Italy. The FBI had known about Allen for some time, had wanted to arrest him since 2014 but had been blocked, they just didn't know why or who was behind it, not until Justice Scalia died. Within 9 days, Allen was jailed, and the evidence he held began to yield gold.

Allen is being held on these charges with bail set at \$250,000.

We were shown an email from Allen where he tells of his January 15, 2016 meeting with Agent Ross at which time his computers were seized by the FBI. What we are told was on Allen's computer and what Allen told agents is astounding. Allen confessed, we are told, not only to his own sex crimes but to being recruited by a powerful international organization that provided him broad protection from prosecution.

From Ian Greenhalgh:

It is very sick, but if you really want to watch and hear the ramblings of a mad man just watch this video where Sterling D. Allan says he is GOD in the flesh, admits to being a paedophile, admits he has committed sexual abuse with an underage child, and says that he is waiting to be arrested. Mr. Allan claims he chose this life before coming to Earth to be a "scapegoat" which of course is all foretold in his insane "alphabetics."

We are told that Allen became increasingly unstable as his own feelings of guilt and his own public confessions of child sex crimes were inadequate to

bring about his own arrest, an arrest he openly asked for time and time again.

Allen, who using his computer skills helped fellow pedophiles scour the internet for vulnerable children.

High level sources confirm that Supreme Court Justice Antonin Scalia was murdered, that in itself is neither an original claim nor beyond the realm of likelihood based on circumstances allegedly tied to his death. By that, we are speaking of the “pillow over the head” and allegations of a “cover-up autopsy,” well outside legal requirements for someone of Scalia’s position.

Sources in the White House confirm that immediately prior to his flight to Texas, ostensibly for a hunting trip with 35 “close friends,” many of whom are members of the highly secret Order of Saint Hubertus. As is being reported, initially in the Washington Post with broader allegations made on the InfoWars website, tying the Hubertus Order to Bohemian Grove antics, long subject to speculation in the alternative media.

We became aware of the case in August 2015 when we were shown correspondence between Allen and representatives of the Keshe Foundation. Allen ran several popular websites on alternative energy and was a popular speaker, often appearing on the Coast to Coast radio show with Detroit native, George Noory.

Increasingly it became obvious that Allen had been using these venues for sexual trafficking of children. It wasn’t hard to figure out, he did it openly spoke of it constantly (as seen in the YouTube above) and lived as though he were above the law. Over the next few months, particularly when confronted by Iranian born physicist MT Keshe, who ordered Allen and those around him banned from all Keshe forums, Allen openly flaunted his criminal activities.

What made this particularly insidious is that it was obvious not only that Allen was not acting alone but that he had broad support not only in his home state of Utah, where he was able to avoid prosecution, but in Belgium as well. There, Allen and associates Hans Bracquene, Dirk Laureyssens and Ad Van den Elshout moved against the Keshe group, securing against Keshe’s wishes technologies with defense related applications and passing them on to MI 5 in Britain.

When Keshe moved against this group and tried to secure his patents, he found himself being chased down the highway, shots fired, his car run off the road. Police arrested and soon “misplaced” the culprits, and soon thereafter, representatives of Belgium’s “royals” told Keshe to leave Belgium or be buried there.

On the European end of the FBI investigation, the trail, all of which is easily followed by the “breadcrumbs” Sterling David Allen has left, leads to the highest and most powerful of the scientific communities where blackmail, kidnapping and torture, threats against families and in particular, threats against children, have placed members of secret societies in positions of power at universities, think tanks, police and counter-terrorism agencies and even the European Space Agency.

Anti-Keshe “troll” and convicted pedophile Sterling D Allan, former Rense Radio host, now serving a life sentence, is said to have supplied the encryption keys that allowed the FBI to take over the Netherlands based site. From NBC:

“The website operated from a server based in the Netherlands and, at its height, boasted up to 70,000 members worldwide,” it added.

“It attempted to operate as a ‘discussion–only’ forum where people could share their sexual interest in young boys without committing any specific offences, thus operating ‘below the radar’ of police attention,” Europol said.

Police infiltrated site

The Europol statement said U.K. and Australian police infiltrated the site to identify the members who posed the greatest danger to children. Police also sometimes posed as children online as part of the investigation.

Law enforcement authorities from 13 countries, including the United States, Australia, Canada, Italy, Spain and the U.K., were involved in the case, Europol said.

The statement said Europol analysts had cracked the Security features of a key computer server at the center of the network which uncovered the identities of suspected child sex offenders.

And, after his arrest, the forum's Dutch administrator helped police break encryption measures that shielded users' identities, allowing police to begin their covert investigations.

“Europol subsequently issued over 4,000 intelligence reports to police authorities in over 30 countries in Europe and elsewhere, which has led to the arrests of suspects and the safeguarding of children,” Europol said.”

In September 2015, Iranian physicist Mehran T. Keshe met with the FBI in Rome, a meeting set up by VT. From a source at Europol:

It was this from Veterans Today that helped push this forward: “It was Keshe’s information given to the FBI in Italy that led to the seizure of Sterling Allan’s computer back in January of 2016, which led to the Obama White House getting files tying Justice “Tony” Scalia to a child sex ring and demonstrating that it was Scalia that had protected Allan. With Justice Scalia exposed to Obama blackmail, his own friends smothered him to death with a pillow, and walked past police, while the world moved on, no autopsy, no investigation.”

That explains why Hollande (President of the French Republic) was scared he is linked to child abuse in France, via Belgium as well. Abdessalem (Foreign Minister of Tunisia) was traded by the FBI so Hollande can stay in power, sign the tafta and much more allow American military presence in France, which is now turning against him... That explains why the US military unit near Milan was behind us to see what we had in stock against Bibi (Netanyahu) and Hollande... now that they have Hollande, they are pushing him to the edge, using pressure on Sarkozy, right hand of Bibi, they moved in Tripoli, blackmailing Roma.
