

184<sup>th</sup> Knowledge Seekers Workshop 0810-2017  
<https://www.youtube.com/watch?v=DrFtrrbzzKo>

Draft v3

### **Transcriber's Comments**

This is a magical workshop being not only the week after 198 nations signed for Peace on the planet, and getting some more insights into what a peaceful planet looks like, but also getting an inspiring presentation from Giovanni on how he combined the plasma technology with his soul connection to his daughter Naomi and how she is now waking up from her one year coma with her old cheeky attitude and remembering everything!

MK gives lots of revelations about how things are organised in the One Nation Planet under the different languages; KF is no longer based on nations but based on languages. The world has been split up into the Chinese and the others, as the Chinese have been trying to make a peaceful word ever since they built the Great Wall. The court case outcome in Belgium has turned out exactly as was wanted and the Belgian's fraudulent case against EU certified technology now goes to the International Court of Justice to open up an even bigger can of worms than anyone imagined! Entering zero time travel and communication is not like being on a space ship or shuttle, and MK exhorts everyone in closing this workshop to begin practicing soul and emotional level communications with each other across the planet...

## **Content Index**

[This is the first time we meet since the marathon run of the signing all the nations into peace.](#)

[National Keshe foundations will no longer exist – they are now to be organised under the languages...](#)

[Carolina UC member for Dutch language has a lot set up in the next few days in the view of the Blueprint for Peace.](#)

[We have separated KF worldwide in two complete sections but under one roof – The Chinese and the Others.](#)

[KF funding for manufacturing will go equally over the other 5 continents](#)

[All of you, American, Chinese, South American who have developed technologies for medicine or agriculture or other applications just write to us for support.](#)

50:48 K: The court case in Belgium has turned out exactly as we wanted it.

Rick shows pictures of the “fraudulent” technology and MK explains how the Belgians have been led into the trap

Giovanni presents exciting developments with Naomi and explains how he used the plasma technology

K: I am getting a lot of complaining in the background that we are insulting Belgians.

Naomi’s improvement is very fast and we try to communicate with her in different forms.

With special headphones with GANS inside there was an immediate change and she started to try and talk

Understanding the way Giovanni has been working with Naomi brings the ability to make shooting stars in space and time.

Now there is one fundamental point that you have to cross. I wish to manifest myself in the image and in the position of the condition I arrive.

We have to understand what we are entering into with deep space travel. It’s not being in the space shuttle

The Chinese are a peaceful nation because they built a wall as a desire to manifest peace

This is where we are going from now on. I cannot give you a spacesuit. I cannot sew you a suit and a mask when in space there

is no oxygen for you to survive. But I can teach you how to operate your soul

Many of you in transportation of physicality of the soul end up in the middle of the stone.

Very soon in the coming time, sooner than you can imagine, we will bring a new system of feeding for humanity which means man will not need to consume.

Those of you who are happy to build a craft and call it the airplane you are welcome, also you who are happy to build the spaceship, and especially welcome are you who are happy to travel the depth of space in zero-time travel and zero space.

Try to practice zero-time soul communication with each other!

Ivan Ivanov has been practicing soul operation.

Wolfgang asks how can I connect best to my soul without being blocked by the filters of my emotion?

MK is welcomed home to Iran

## **Transcript**

[This is the first time we meet since the marathon run of the signing all the nations into peace.](#)

11:03 Rick: welcome to the 184<sup>th</sup> KSW for Thursday, August 10, 2017....

11:40 Mr. Keshe (K): good morning, good day wherever and whenever you listen to this knowledge seeker's workshop. This is the first time we meet since the marathon run of the signing all the nations into peace. Many things are being moved to create a condition for One Nation Planet. We have set up a structure [www.onenationplanet.org](http://www.onenationplanet.org) which will be the official site and all the announcements that go with it. This is where the UC, EC and core team collectively put out the mandates and wishes of the core councils are placed. It has to be understood that none of the members of the councils have voting rights to override and only best wishes can be put in when there is a need for whatever or new wishes have to be announced.

As we have said of One Nation, we have to have guidelines and we have asked the members of the EC and UC and the support team of the languages of the UC to draw up the charter for being One Nation and One Planet. They are working on it, and I have asked them to allow it to be comprehensive. It may take 2 to 3 months. The human rights and the right of every living entity are considered, not just the humans. As One Nation planet, every aspect of life on this planet and beyond has to be considered. The forefront of this movement has to be peace not only for the human race, but for animals and the environment and peaceful conditions for the universal community when we interact.

[National Keshe foundations will no longer exist – they are now to be organised under the languages...](#)

13:55 K: These are guidelines we have to set up and these are the ways the human race sign ourselves to a peaceful planet. This is how we organize and reorganize to bring the works of the KF for the past 10 to 15 years under the guidelines and guidance of the work of One Nation, One Planet group. This is a vast number of people. It will be a collection and collective effort of not the human race but once we enter the universal community and the other races which are part of us of One Race, One Nation. This allows us to step forward for peace. The important part is that a number of things are taking place in the background and you will see a lot of new websites and new Facebooks. New entities will appear that close all the friction and parts which people held, opened up for the foundation.

One of these is KF in the name of the countries such as KF Germany and KF Austria. They all cease to exist today. If you run anything entity under KF in any country please put a note on it and please don't close it, but archive and forward to the new websites set up for these purposes. Guidelines will be sent to you by Sandor that you do not close it. Because then someone else will pick it up. Just keep it in archives and forward them to the new websites that are set up for these purposes. As one nation we cannot have Germany, Austria and China because now we are across the planet. It becomes the KF in the spoken language of the people such as KF Farsi. This means all the Iranian speakers across the world come into KF Farsi. There are no borders. Anybody who has opened any KF in the title has a KF as a legal entity now should divert the website or chat group to the new websites that are set up in the name of the spoken language. This is important for us because this is how One Nation will be run. 16:46

16:47 K: irrespective of the position on this planet and beyond, the mother language is there and will be done. We have asked the councils to consider that the logo in the corner of KfSSI. We will use a poet or poetry as a symbol of the beauty of the language and how we express love through poetry and how we express our feelings through poetry. We use a poet or poetry as the symbol of that language as we no longer have flags. The flags of the nations cease to exist in One Nation. In Farsi, we have the language of love and admiration from the poet Sadi. We know each other by the poetry and by the beauty of that language. We have writings over the entrance to the United Nations in the language of Farsi. It is the gift of love and admiration to humanity. This is how the KF is set up as one planet, one nation and one race from now on. Those of you who have established and run anything under the name of the KF have to be under the structure of the KF, One Nation, One Race and One Planet.

18:02 K: No one can take anymore advantage of pretending to teach KF workshops and do what they like. You go through the KF language of your area. Nationalism has finished and those who took advantage of this trying to do a lot of things for themselves have to stop. Any workshop has to be registered through the KF. Some people have found tricky ways of saying they don't use KF but they teach KF. We will expose these. There is one in Germany that has to stop because they have done a lot of things and we have to bring everything under one banner. It will stay under there. If you do a workshop, it has to be under the KF logo and we will sign (permission) for it. Those who have registered will be indicated. A lot of people teach their own way, do things their own way and they use the name to do something for themselves. These all have to go under the banner of the foundation so that we teach properly and correctly. It is important for all of us to understand exactly what needs to be done and this is how we become One Nation and One Race.

[Carolina UC member for Dutch language has a lot set up in the next few days in the view of the Blueprint for Peace.](#)

19:26 K: There is a lot of work going on in the background. Please check Facebook and see the set up for the language. I think Carolina is in the background with members of the EC and UC and we will give you the next 5 to 20 minutes, whatever you choose. Please explain to us and guide us in what you expect us to do. One of the things I have to say before I hand this over is that the foundation is the supporting background to the whole of the One Nation, One Planet group. This means that all the efforts and everything we do and announce goes in one direction for the development, expansion of knowledge and technology and peace. We have to work this way; KF and knowledge seekers go this way. Once the announcements by the members of the councils are finished, then we make a number of new announcements which will change things for all KF supporters around the world. Please listen to what is coming up and what is disclosed today. This is a major announcement and major change of course for the foundation and to the benefit of the KF supporters who have been there for years and years and done different things. Please listen after the announcement by the One Nation members and what they are setting up in respect to the charter. Listen to what is coming up in respect to the charter. If it is you, please respond immediately?

21:24 Carolina, UC member: Hi, good morning everybody, good afternoon, good evening. We have a lot set up in the next few days in the view of the Blueprint for Peace. We have all worked as knowledge seekers weeks, days and hours and we have come to carry on and to bring the universal councils in a public platform of working that will start next Tuesday evening and this will be published on Facebook and email. We think we will start at 4PM in the afternoon and this will be on a public platform the same way as we are on a public platform here. The decision has been made

because no newspaper, no broadcasting on a public channel will mention a word about KF or the meaning of the world peace treaty signing. So, we are creating a public platform to carry on and to listen to all your information from each corner of this planet to be carried to the universal councils so that we can interact with you in your own language. There will be continuous translation so all the English-speaking council members regarding your wish or whatever information you want to come to share with us. The meeting will be about 4 hours. We can always extend it. Mr. K has announced that the world will be able to work as one to bring your needs, wishes, and your support forward to this platform. We will listen to you and interact with you.

24:00 Carolina: The members of the universal councils will be present in their times zones as it is suitable for them. We will guard your wishes and bring them in the background to the councils. We will choose not only by choice but by emergency of what is most needed and decisions will be made in the background how we can apply according to your needs and your wishes and how we can apply and see how we can support and create the path to become one. We will use the platform of the teachers, the students, the Knowledge Seekers and the council members and the Kf to become one in supporting whatever is needed. Mr. Keshe will announce on Thursdays what decisions have been made in the background so it will be announced in public what will go in whatever direction when one of the members comes forward to state what decisions have been made through all the councils.

25:14 Carolina: There were questions from members of the councils that we cannot keep explaining about One Planet and what our peace work is. Please ask whoever wants to know more to become a student and register and they are facilitating in the background on our service. If you become a student, you have total access to all our teachings so we can guide and support you to bring you to the levels you want to be. At least the members don't

have to keep repeating how to make GaNS and nano-coat. Through this was, we facilitate you on all these levels. At the same time this creates the public platform for all the supporting members of the councils to interact and support the council members. We have quite a few things set up as Mr. Keshe announced. The groups are open as much as we could with the languages. There will be more languages created in the case of need and expansion. We haven't covered all of them. We have posted the links where we could and we ask people gently to please stay within your language group for your language. At this moment, I am creating all the pages for the languages to be opened to the full public. The groups are closed except to the language spoken until we are up and running and then when we see people have more than one language, they can come and join us. But it is all new so we are all on the move to create one platform to unite under what you understand and can work easier in your culture and language of understanding. We have placed moderators and made support groups to guide you to find your own place.

27:45 Carolina: The universal council chat group on Facebook was started 1.5 years ago and this will remain in place. That will keep us in an easy way for staying in touch and moving people around until we all settle into the new function. Dr. Klaus and I have been working to set it up and all the universal council members are translating the titles so you can see this appearing in your own mother language. In some countries, there is more than one language available because of the huge number of people. We have created Mandarin and Cantonese. We have always created something to respect and support the minority groups so that there is no discussion. Each can go to the language position where they like to communicate.

28:50 Carolina: We will create the same for India in a platform. There are 10 major languages spoken in India so now I will go to the knowledge seekers from India to start urging them to give me

their language which they will try to take care of. Nobody but the moderators are allowed to add people. We want to start clean and we have seen trolls popping up left, right and center. This is the best way to prevent these situations so please be on your guard. People who have stayed dormant for a while and which are trolls from the past are not allowed to come in; we dismiss them in any language and from any chat room. We do not allow any abuse from anybody to anybody else. It is in full respect, pleasure and joy to work as one. I hand this back to you Mr. Keshe. Thank you for the time.

30:16 K: Thank you very much. Would any other members of the councils like to add or explain what is happening?

[We have separated KF worldwide in two complete sections but under one roof – The Chinese and the Others.](#)

OK we take this to the next step. As we are One Nation, One Language and One Race there is an important development in the KF structure. We have separated KF worldwide in two complete sections but under one roof. We will explain this in the coming time. One is the Chinese community because they are so big and diverse and so interlocked with the working of each other that the KF Chinese is run in a different condition. If you are Chinese and only Chinese speaking in any of the s and you have tested and experimented in any fields of the KF work be it energy, health, space material, food, agriculture, goods and products, please listen carefully. The Chinese translators in the background please translate this correctly and ask the whole of the Chinese to get in touch with each other; this is important. We will explain the reason for this in the next few weeks.

32:30 We need all the Chinese individuals, groups, laboratories and companies who are making things in China under the banner

of KF plasma even if you have changed your name to diversify and called yourself Quantum plasma or Quantum physics or whatever. We are aware of this, and we are calling you to bring all your expertise to the KF in the next ten days. This is important. Within the next 10 days all the supporters of KF developments, even if you have done minute work somewhere in energy, batteries and you couldn't market it, or if you made some very few pieces and you want to market it. We need people who not theoretical but have been developing, experimenting and producing plasma KF products and expertise especially agriculture and energy in that line. [Chinese@spaceship.org](mailto:Chinese@spaceship.org) is your contact. Chinese translators in the background, please translate any Chinese organization such as Shenzin, with all the expertise. Write in the topic what your expertise is. Please contact others and let them know we want them to contact KF.

34:40 K: there is a huge move we will announce in the next couple of months that we finance, support and bring all the Chinese groups together to work under one roof. This is part of what we announced before as the KF banking system. We announced that we will have a conference in China done by the Chinese in the coming weeks and will bring all the Chinese groups together and we homogenize as one nation the Chinese nationals and Chinese-speaking people around the world, it doesn't matter where you are. If you have done experiments on animals, on anything which you can commercialize and you have expertise in, we will listen. We are looking for those of you who have tested the Magrav systems and the flight systems in field conditions. There are a number of companies that made themselves very rich on the KF work and we are aware of your work. Please contact us. We will not contact you. When we start moving and merging together, we have to start from the beginning together so that we can structure everything properly in China. In the coming time a large number of you will be employed by KF China in a very structured manner. In the coming time, you will be employed or financed to run these kinds

of things as part of the government/civil organizations of the Chinese. We work with the civil; we work with the public.

36:48 K: If you have tested in agriculture or you or the Chinese doctors who have done a lot of work in plasma technology, please all of you contact [Chinese@spaceship.org](mailto:Chinese@spaceship.org). This is the point where we will bring all the Chinese organizations together. I will give a lecture to China directly for this purpose in the next few weeks on a Zoom conference and we will explain. You can all see and be present on it and we will explain. Please if you are Chinese speaking anywhere in the world and just write 2 lines in Chinese and write what you have done and add pictures. We will call upon you in a very short time. This is important and we will explain in the conference calls to the Chinese. We will circulate across China. You have until next Friday to complete and if you know anyone anywhere, who has done any work in any shape or form, go on this website and just write. If you made a pen, a battery, and we are not looking for your knowledge of what you made but we are looking for your knowledge to become teachers and manufacturers so we can finance you to become bigger.

[KF funding for manufacturing will go equally over the other 5 continents](#)

38:55 K: this is the whole structure that is part of One Nation. Now we go to the rest of the world. This goes the same to the rest of the world. We will open a line: [world@spaceshipinsittute.org](mailto:world@spaceshipinsittute.org). You may write in your own language and the language you speak and what your expertise is. If you are Mexican and you have done something with green pepper or from South Africa and you have done something else, write to this address. Be sure to put the subject. We don't have people sitting there to sift through it. In the coming months KF will release several billion dollars into the market for KF supporters to start businesses or to join KF in

development of the technology and research. This is an employment announcement. It is at the discretion of the spaceship institute to announce, recall or contact you and we will evaluate in how we can use your knowledge and how you can support us. Those of you who have developed technologies and didn't know where to go, KF will finance what you have developed and KF will support you in the appropriate way. If you are African supporters, Ghana is headquarters worldwide and for Africa too. KF new facilities in Ghana will be released in the coming weeks. As you know, we have moved out of Ghana atomic and we have new premises have been secured and will be set up in the next few weeks and they will be the point of reference for the whole of Africa that will be headquarters.

41:17 K: If you are in Europe and you have done some work, such as the London group we call MI5 specializing in energy, we call upon you to get in touch with us. This is part of the work we would like to discuss with you. We want to bring you in as part of KF. We are financing in the whole of Africa. We will explain these before Christmas as these things take time.

41:46 K: It will not be tomorrow but we have earmarked equal amounts of financing across the five continents. Each country will take the same, and there is one exclusion at this time. We will not finance anything in the Belgian territories; we have spoken with the Belgian supporters and it will stay that way until we sort out what is going on between KF and Belgian government. We will explain later on. There is the exclusion of the KF operations. No Belgian citizen or resident can enter the KF websites. If they do it, they do it under their own understanding and they break the law of their nation. This is not segregation but protection and we discussed with the knowledge seekers in Belgium. They share this opinion also. There is a huge structure that is going on right now which will change a lot of things within the KF, the Belgian government and Belgian society. We are not isolating you. The

YouTube and Facebook are open for you to learn but for the time being we will not allow any Belgian citizens to take part in any activities but we support you in every shape or form for learning.

[All of you, American, Chinese, South American who have developed technologies for medicine or agriculture or other applications just write to us for support.](#)

43:27 K: we come to another point. All of you, American, Chinese, South American who have developed technologies for medicine or agriculture, just write at [world@spaceshipinstitute.org](mailto:world@spaceshipinstitute.org). We can and should be able to support you to bring you into the KF worldwide as One Nation to operate and run factories in your area of interest. We will finance in the coming weeks and months and we are allocating several billion dollars in this work. KF has all this information backwards until the One Nation is set up. We will go equally and we will finance according to the population. This means we decide in KF how to support nations like Africa. African nations have to develop very rapidly into the spaceship institute direction. They don't have computers like the rest of the world and we go in and teach. There are huge finances from KF available for this part of the world. People who are in charge of these sections will be brought in. For the first time as some in the background can tell you, we are bringing in background expertise to organize the KF in different directions. They can bring the structures for us so we can work.

45:07 K: It is important that we fully understand how everything has to be done. Every man on this planet from the eyes of KF and One Nation, One Planet is equal. Some we need to support more such as the African nations. A huge amount of financing will go into India, South America and those countries that have been abused by the others. We had our eyes closed but we open the condition that we teach enormously and heavily in these countries.

With it we supply financing to them to expand the technology and to become self-sufficient and we will introduce new technologies. All these new technologies will come out of one country. And then it will be spread across the world through that organization. It is important that we understand the whole operation.

46:16 K: Now we have a mandate as One Nation, we behave as One Nation and all the citizens of this planet are the children of One Nation. A father and mother do not become one kind for the favor of the other. This is how the members of the UC, EC and core team will work to ensure every citizen on this planet is looked after as a child of this planet. We gave the promise and now the people who are behind us and supporting us are financing through us and we are working the same way.

47:00 K: You have seen the operation in Ghana and how we withstood the rough times that were created. We made it a position that we have created huge support for KF in Ghana and Africa. We take these positions of attack as a point of advantage, and we know how to use it. Now the nation of Ghana is looking forward to what the country will receive from the KF. We have started the process and the prestigious new factory will be done to the highest level that every Ghanaian will be proud of. All the design of the factories around the world will be preset. A group has been set up and has been working for some time and there will be repetition. When you go to factories in Europe, the United States or anywhere else the factories are the same and you don't see any difference. The only difference will be the language. The lay out is set up and are exact and precise, the latest systems are in and everything fits into the structure of One Nation and One Planet.

48:13 K: I know many of you are waiting to understand and for us to tell you what to do. We are waiting for you to tell us what you know and how you can support. There is a lot of knowledge and a

lot of expertise. Many of you have worked in different ways and developed different things for testing or for yourselves or trying to do something commercially. Get in touch with the foundation through [world@spaceshipinstitute.org](mailto:world@spaceshipinstitute.org) and in time we will call upon you. This will be supported. Some of the KF supporters who are expert in their jobs will be given a stipend and will be brought into the KF. When we set up the factories, we call on you to be part of the board of directors, management, and production line. This is what we are looking to offer you. It has to be clear to us you have been doing something. It doesn't just suddenly happen and you appear. We have to have a track record that we can track, see, know and then we can release. This is and will be part of the One Nation Planet work.

49:30 K: If you have any expertise with the pollution of the oceans, air pollution, contamination or you have any experience with animal care or plant care or with development of new technologies and you need support through the KF as the work of the foundation, we would like to hear from you. Nothing will be left out. If the structure is set up as you being part of it, then you become the head of that part. We open the factory for you to run and we give you the technical and management support and KF stays as the major shareholder. You will be able to work, to benefit by your work and have a share hold part of the company yourself. We don't ask any other questions unless we see abuse and then we will restructure. I hope we never get to that point. If we get to that point, we will be ashamed of what we have done in respect that you tried to abuse the system. We have seen abuse before but we have always, thanks to God, separated it amicably and it's gone.

[50:48 K: The court case in Belgium has turned out exactly as we wanted it.](#)

It is exactly what we wanted. One of our advisors in the US said that the judge is one of your deepest supporters. I asked him why. He said that everything that we asked for has been to you. The way it is legally structured you can do what you want to do. We thank the judge for the judgment and we thank the Belgium judgment authorities for what they passed on KF. They have given me 18 months suspended sentence and Carolina 12-month suspended sentence and a fine. If we would have received below 12 months, we could not take the case to the European Court of Justice. Now our lawyers will appeal on the case and because we have submitted the case of abuse to the court for the assassination now it has given us the free hand to bring them to justice in the European Court of Justice and in Europe. Because we have submitted the evidence and it has been accepted as part of it, it is in the court file and now we have the freedom to do what we want to do in bringing justice to KF and what they have done to us.

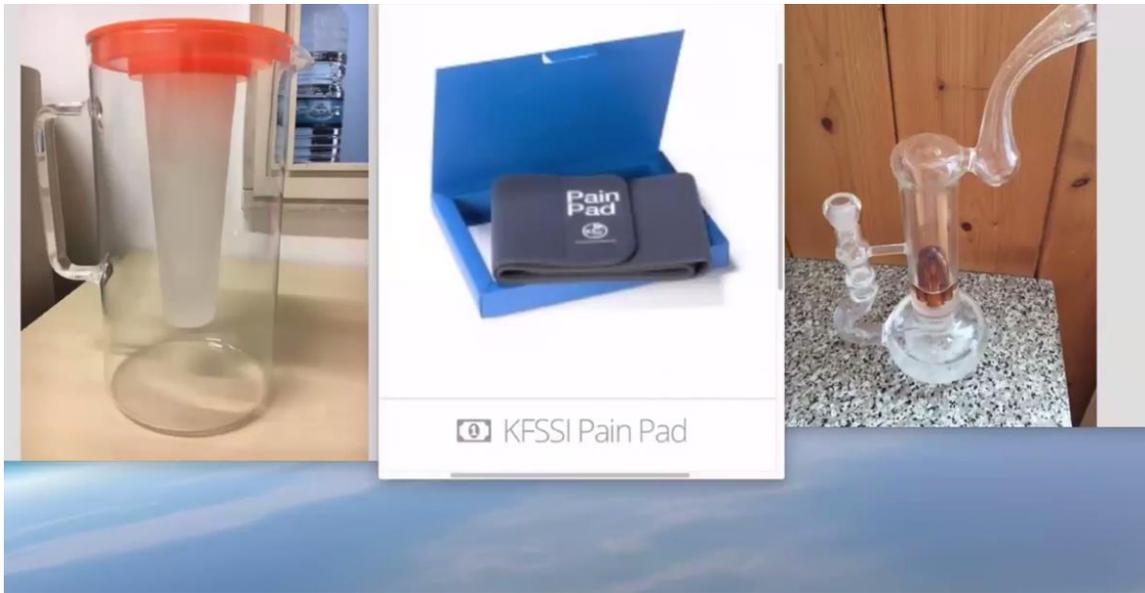

52:12 K: The appeal will go through in the next few days. We thank the judge for such a beautiful judgment. As one of our advisors said, he has never seen a man who has been convicted to be so happy. We know exactly what we are doing and we know why we got here over months and years and now they have opened the door for us. We needed for the gentleman to be awarded one euro. Thank you, judge, for giving the one euro to the man and we can now open the file on the pedophilia and indecent exposure to a child because he has written publicly that he has done this. We use this for his arrest and we needed this judgment and now we can use it to track down this pedophile group. Unfortunately, they don't tell you the rest.

53:15 K: When the minister spoke in Ghana and was running around with joy, but he mistook his place and he then understood where he went wrong. The foundation is now receiving huge support in Ghana. The same will be with this court case. We thank the judge; we thank the police officers who made this case so

nicely to the benefit of the foundation. It had to be done the way it was done. We told you that if the case had been dismissed it would have been a big job to bring it back in. We thank the police officers that made this possible through their corruption and now we can register the case in the court and we can start proceeding against the assassination and intimidation attempts into the court. Everything has been registered and we say thank you to our lawyers. We bring a new team of lawyers from America to defend the case in the appeal, but I want to show something very interesting. Now you understand how these people have shot themselves in the foot and we showed you exactly as this stood and why we got 18 months suspended.

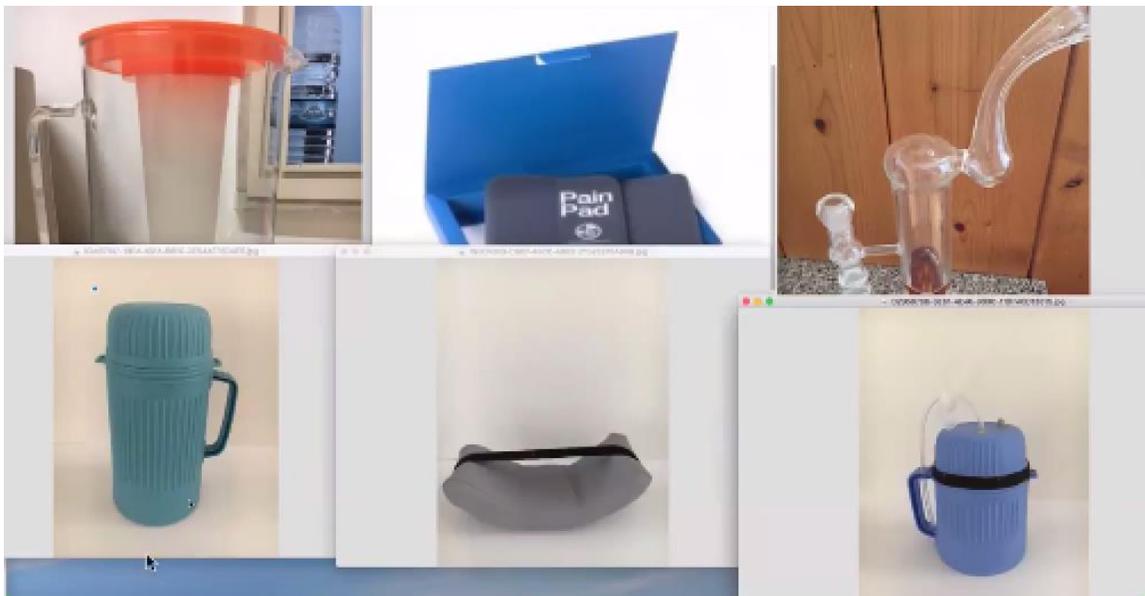

[Rick shows pictures of the “fraudulent” technology and MK explains how the Belgians have been led into the trap](#)

54:27 K: Rick can you show the first set of pictures please? If you watch the way we presented the case in respect to the minister in Ghana, we measured the alkalinity in the water in Ghana. We go public with this as this is part of the evidence in the court and it shows immediately how the case will crash, but we needed this to bring the rest in and to bring the Belgium monarchy and government into court. You can watch this for what it is.

It is the C certification with the alkalizer. There is a pain pad that is certified C certification. The water in the alkalizer can go into the white glass on the right to be inhaled. When you drink the alkaline water, you inhale the air on top of it so you inhale the same energy. These are what you have been buying from KF. It has been made a simple way for mass production.

55.44 K: Bring the second one in please. It is just under this one.

This is the water cup on the left, the belt and the inhaler cup. For making these three items I was given an 18-month sentence for practicing medicine and these are all environmental changing and not medicine. This has been agreed on by the EU. Now you understand how the Belgians have themselves into a big problem. This is environmental and has nothing to do with medicine. It has been passed as environmental changing alkalizer, pain pad and the other. So, if the bottom line is an 18-month sentence for me, it means all of you have to get a sentence for using these and making them yourselves.

56:50 K: So this is how the case has collapsed before we start. The evidence was given to the court and the judge decided to ignore it. The European Court of Justice will not ignore this. The judgment is massive fraud. These products are environmental products, and they don't need anything else. It is not practicing medicine and the things are hand made I can charge what I like. This is completely set for us to win. Our defense will come on one case that as we hear that they say the waters are being used as waters. They have been shown scientifically to be healthy to the body of the man. It shows our work. We lay our case down. But we wanted to show you that if you have the top case with 3 products you go to prison for 18 months. In the bottom, you have the pedophiles on top and you become a criminal. We know this case was set up deliberately to damage the credibility and we will claim \$20 billion damages by the Belgian government and we will freeze their assets of the Belgian government across the world once we get the judgment. We know what we are doing. They have discredited and damaged the foundation and we will take our position in that respect. It will take 3 to 5 years to get this through the court, and we stand by it. We have protected all the KF across the world with this.

58:30 K: If the bottom pictures which are the water, the pad and the air inhaler are a criminal offense, then I will give the telephone numbers of a number of world leaders who have used this technology in the background. They have benefited immensely and we bring them to the court to give evidence. This will include a number of top world people, ambassadors, and heads of state who have used this technology in the background. If they confirm to the European Court of Justice that this is a scam by the Belgian government to discredit (KF and Mr. Keshe) because they could not steal it, then we will tell you exactly why we wanted this case.

59:15 K: You have to understand how we came to this point. We have pictures of intimidation by a king to take over this technology and when we did not give it they made us a criminal. We have a number of pictures of a king sitting and having coffee and telling me he will kill me or I can leave his nation and the queen was present. It is my word and I have the pictures and it showed that when we refused to give the technology and then the intimidation started. KF technology is solid and we stand by it.

59:57 K: This is the reason why we took this action. We wanted to bring this action to safeguard the lives of scientists. They have killed many scientists. Now you can see this process exactly for what it is. The pictures of the cup, pad and others handmade by me carries a prison sentence of 18 months. The top ones are made by the KF is certified and you are using them. It is freedom. The judge made one drastic mistake and he never asked for the waters to be tested for alkalinity. There is enough scientific proof around the world to show magnetic plasmatic fields and alkalinity change the conditions in the body to a better condition.

01:00:45 K: One who claimed we damaged his arm, we know exactly why because they are accused of pedophilia and they have lied in the court. That carries a prison sentence. So, the One Euro paid as a fine will bring millions back to the KF. Now their

criminality is registered in the court. We will put everything through medical testing across the planet that our work is correct. We will release the finding of the court in Flemish and English in the coming weeks when we receive it fully. It says that using the water does nothing. It shows the judge has no understanding of the new technology. The minister in Ghana who is well educated in science said the same. Now you understand why we needed the court to pass the sentence. The sums and the suspended sentence are large enough to go directly into the European Court of Justice. We have ways of getting it through. We have done our work and I thank those who lied in court and I thank the judge for his prudent judgment. As I said, our legal supporters said the judge has been one of our biggest supporters and he has given you exactly in the bracket that allows you what you wanted to do and now we can take action.

[Giovanni presents exciting developments with Naomi and explains how he used the plasma technology](#)

01.02.11 K: It comes to another point; do we have Giovanni in the background by any chance?

01:02:44 Giovanni: hello and good morning.

K: Giovanni... could you please show us as a father what you have up to now with the beautiful Naomi? The changes in the past 2 weeks are amazing with Naomi. They decided she would not survive 12 months ago after the assassination attempt by people in Belgium, where we unfortunately lost Fabio with it. The broken hip on the side of the vertebra and the doctors would not operate and Naomi was placed where she would pass away peacefully. Giovanni has taken over and a father has a right to protect his child. Will he be sentenced to 20 years imprisonment for saving his daughter's life using plasma technology?

01:04:44 Giovanni: I hope this is good and I will share the screen.

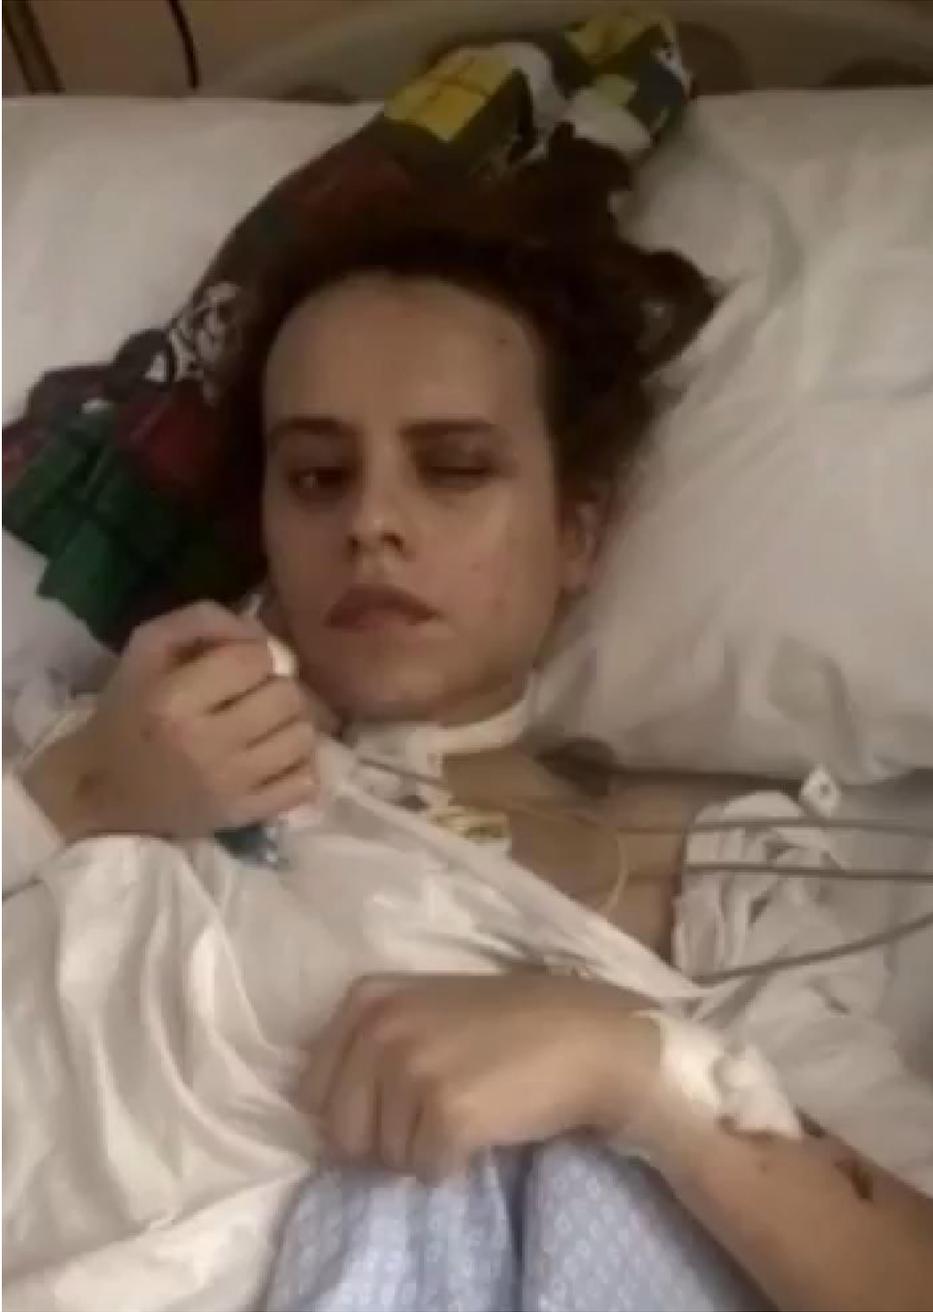

Here is the first X-ray that was made after the accident on July 6, 2016. After one month, they took this X-ray. She had 20 fractures in her body. The chest, the shoulder and the very difficult one in the hip that was broken and completely separated. There was one in the upper side and another in the lower right part. The problem was that all the fractures and the brain damage created a high frequency of the heart. I spoke with the doctors who said the amount of pain killer to give her to stabilize her in this situation would kill her. They said if her heart could support the pain, maybe she would survive the pain. Every day and night for months she had 140 beats of her heart per minute and I understood there was the big possibility of losing her and they were sure I would lose her.

01:08:12 Giovanni: as the first step, I asked Mr. Keshe to give me ideas of what was possible. I prepared two small mattresses that I made; it was like a pain pad.

01:09:36 K: what the pain pad does is to take the tension and pain from the muscle and the muscle relaxed to the original condition as if there was no fracture and the bone and hip moved into its position. The pad had CO<sub>2</sub>, CH<sub>3</sub>, and CuO, which allowed the muscle pain to disappear so the body could start the process of healing or the process of mending itself. When you have a bone fracture, if the process doesn't take place in the first few days, the blood brings the chemicals and materials for the bone to start bringing more calcium to close the breach. This is how the body works. Then it takes a long time to rejoin the fracture. With this new (plasma) technology not only is the body relaxed, but the muscle comes to its original condition and now it brings the bone to near normal condition and it doesn't matter how it is. Then it allows the right amount of calcium to come into position. It is part of the process of the body and it doesn't consider it as a breakage that it has to support. The body considers it as normal bone growth. Our bones change all the time. It takes about 6 to 12 months for a hip like this to grow the normal process. This is how we grow arms and legs. It takes that time for it to be done naturally. Then you see the latest pictures of how she is and now you see her walking.

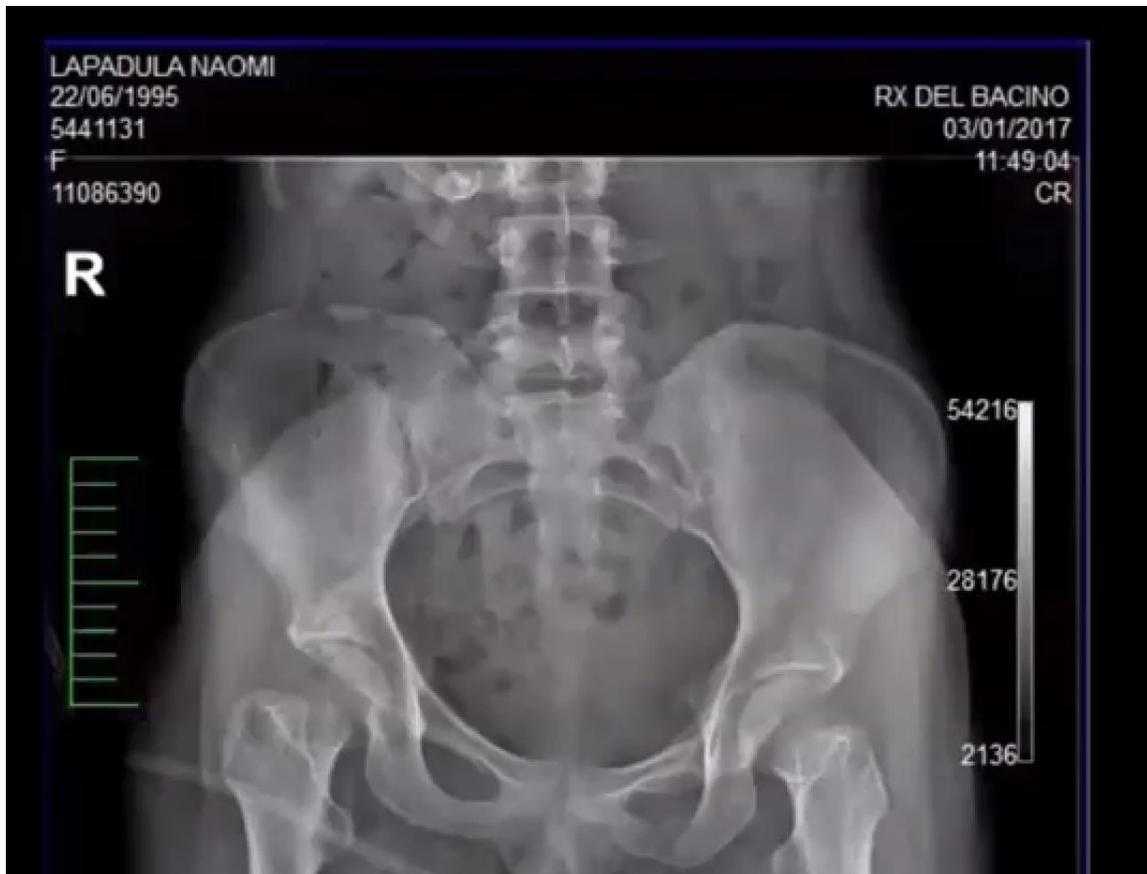

01:12:10 K: you have to realize that she was in the hospital and it was done with understanding of the doctors knowing what was going on. That is the father trying to save his daughter's life.

01:12:30 Giovanni: this picture shows the condition of my daughter. Here is the first time that she started to sleep. For a lot of time she was in a coma for a long time with continuous movement.

01:13:28 K: Can you show the picture of her hip now?

K: Yes. This is where the bone has come together and you can hardly see it and the displacement is totally gone and according to the present world of medicine this is impossible. Now we have another 'criminal father saving the life of his child'. You get 20 years for something like this if you are Belgian?

G: No problem!

K: The stupidity of the nation goes beyond the judges!

*K and G have a good laugh*

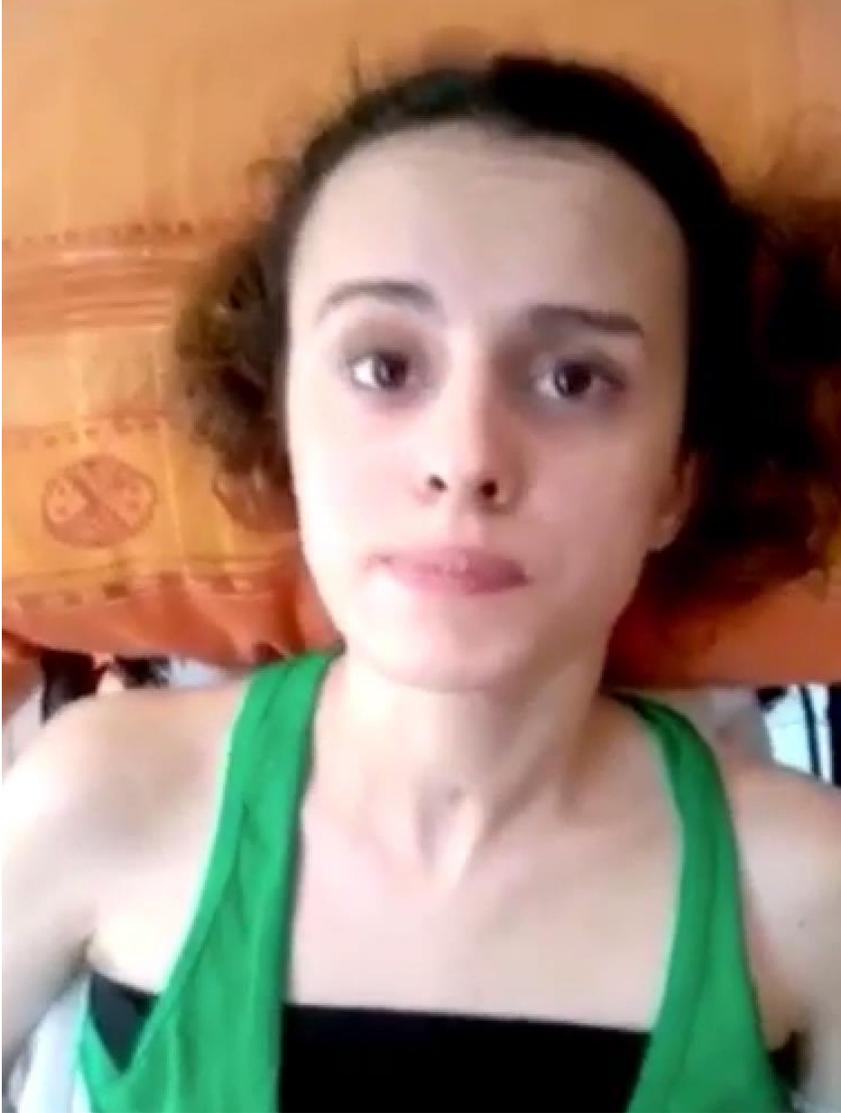

K: Can you show us the latest video of Naomi?

Giovanni: Maybe later because I need to send it to Stanley or Rick so they can show it.

Rick: I have a short one that we showed during the peace blueprints

K: Yes, show that one please. This is the effort from all the KF supporters who gave from their souls for Naomi.

*01:17:33 Rick plays video*

K: What we see here is that she is coming back and you will see some interesting movement she has started. She is clearly able to follow directions. This has come as part of the development in the past few weeks, and Giovanni made new systems for it. In the next step, she is recognizing and responding and with the massive brain injury she received we have used a process and she has not lost any of her memory. It was a concern of Giovanni if she would

remember and how she would behave. Giovanni says we are getting a cheekier Naomi that we had. In a way, she has become more active and we see certain behaviors from her as we see with the tongue exercises. She has not lost any of her memory, and this is confirmed in the last 24 hours. You will see the reason when Giovanni comes back.

01:19:35 K: What is important is the way the process took place. There are pictures of the brain injury the doctors could not understand. The massive brain injuries have all been repaired and the brain scans Giovanni has supplied us show a drastic change in the structure of the brain and how the brain has managed to operate and is bringing itself back in operation with damages and managed to bring itself back. We expect full recovery for her in the next 6 months and maybe faster. Giovanni will tell you the doctors are started to consider feeding her orally instead of the stomach line.

01:20:44 K: it is important for us to understand that this new technology has been given the legal right to operate in two hospitals in Europe. Giovanni will explain to you that two hospitals have opened a KF plasma section for in-patient and out-patient. This is to open hopefully in the first week of September. This is part of 2 major hospitals will announce they have taken the responsibility to allow the plasma technology as part of what they can offer to their citizens.

01:21:41 K: The agreements and paper work should be complete in the next few weeks. This brings us in line with everything else. We have seen the same in Ghana when the KF production of the waters received certification. These are important and are adding strength to the knowledge. Those people who try to bypass this or make this illegal will find out that a large body of the nations will start operating.

01:22:18 [K: I am getting a lot of complaining in the background that we are insulting Belgians.](#)

We are not insulting Belgians. We are bringing the fact that a number of people in Belgium are looking for financial benefit and they did not benefit from it. All these court cases come from that. We have no problem with most of the people in Belgium who use the technology. The Belgians were the first to use the technology and benefit from it. I am 'going to prison' for saving Belgians. I will never set foot in Belgium again. We served the Belgians well and many of them stood by us. I don't apologize to the nation of Belgium or anybody. We don't insult our Belgians; a few bad apples don't make the whole cart bad. That is their problem to sort out and the nation has to become aware of what has happened. They will understand when they have to cross borders to get help or products from KF and then that becomes 'smuggling technology' from outside to benefit. We don't create problems but saturate the condition in a way that the benefits show the stupidity of the work of a few.

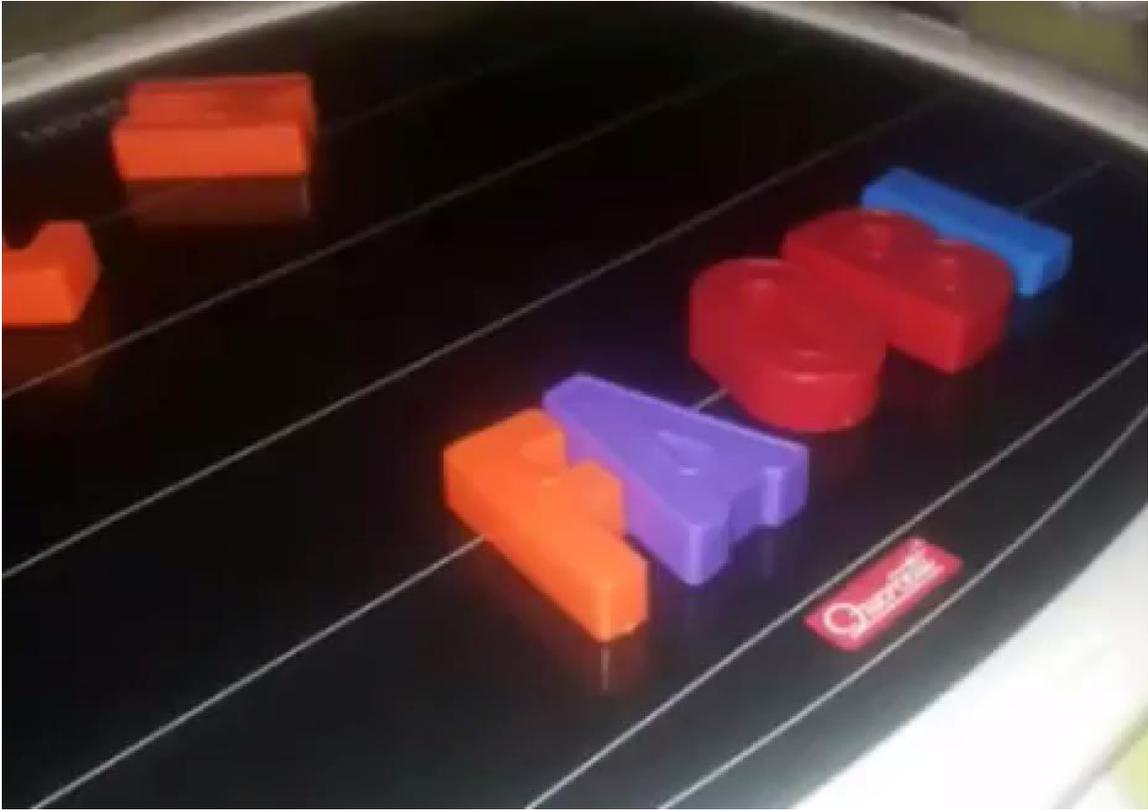

01:24:18 K: This is why we are asking the doctors who have worked in the health section to please go to KF [world@spaceshipinstitute.org](mailto:world@spaceshipinstitute.org). We can use your support. There is a huge operation going on in the background. We do not announce anymore what we are going to do. A few hooligans have tried and have nearly lost a ministerial job for a highly qualified doctor. We have a lot of respect for the heart surgeon minister in Ghana, and he has served his nation well. But he was misguided and made decisions which were not good. We stood and we respected the office of the president of Ghana. We are there to serve the nation, and we respect the office of the minister. But when you get people who misinform they create mayhem and we see them disappearing.

01:25:25 K: It should be easy to develop the technologies. If you are the doctors, we need to bring everything on line very rapidly so

that world-wide application of the technology can be freely available to every man. We should be able to learn and teach how we do this and we have negotiated all the time that we keep the freedom that we can teach. As many of you are aware, we will run a tour of nations in the coming weeks. The KF team will go to different countries and nations to support and bring the technology in the right way through the national press and others like the doctors going to the countries to deliver the technologies of cleaning up the waters and everything else which is possible. A number of technologies will be released in due course to certain governments. With their development, they will become available worldwide through the operation of the KF.

[Naomi's improvement is very fast and we try to communicate with her in different forms.](#)

01:26:52 K: This picture of Naomi is important for us to see because it brings a lot of things back. It has been done in the past 24 hours and shows how a young girl was left to die and has walked out. In the next few months we will get Naomi back and you can see the joy and cheekiness has not gone from her face. We still have the same beautiful soul with us.

1.28:30 Giovanni: Naomi's improvement is very fast and we try to communicate with her in different forms. The problem she has is that she could not talk or eat and for one year nobody tried to do mouth therapy because the doctors thought that she would not survive and she was put in a room as it was impossible for her to survive. All the patients in 8 months who were in that room have died except for Naomi and they didn't want to use any time for rehabilitation. Now the problem is that Naomi will be able to eat, speak and walk. We have to make the rehabilitation possible. The therapy of the mouth, she has the tongue which has shortened. We have to work to make that muscle longer. So, we gave her a small blackboard to start communicate and the first word she has composed is *FABIO*. She wanted to know what happened to Fabio. She made this two times with the letters.

01:31:52 K: what is important is that she has full memory and the first time she could communicate she remembered Fabio.

*01:32:20 Giovani plays video of Naomi arranging letters to make the word Fabio...*

01:33:10 K: She has full memory. She looks for the letters of Fabio.

Giovanni: yes, every time we give her the board, she chooses the letters of Fabio. We change the topics and move (the letters?) and every time she wants to talk to us about Fabio. Now we give her a pen with paper.

01:34:51 G: This is the first time she held a pen after one year. She signs in a different place than before. Every time we have to change the position of the paper and we need a new place for writing. But now perhaps the neuro system will understand how to work. But she has the control and it's like a fluid movement.

01:36:08 K: Thank you very much! She has changed a lot in the past 2 to 3 weeks. What else can you tell us about her?

[With special headphones with GANS inside there was an immediate change and she started to try and talk](#)

Giovanni: Yes, because as you suggested I prepared special headphones with GaNS inside and I saw a change immediately because she started to move the mouth and tried to talk. Now in two days we hear a little sound when she tries to talk. The problem is that she doesn't have enough compression of the lungs to put out the sound. So now we will do exercise to open the lungs so she has more force to speak.

01:37:26 K: are you still helping her to stand and walk?

Giovanni: Yes, yes, yes! She can walk and the only problem is that one foot that the therapists didn't work on for a year and it's still in the coma position. When I put some special shoes, she can stand up and walk. One time we were laughing because the official therapist made a pain on her shoulder and she rose up and tried to go away. Fortunately, I was in front of her. She was sitting and she rose up and tried to walk. This gave her the idea that this is possible to do. All this is the application of the science, and all these results are based on theory. For example, Mr. K said to prepare the GaNS I studied a lot. The GaNS that was prepared had the same layers of the brain. There are some layers that were white, then green, then some again white just like the brain.

01:39:56 Giovanni: Because when Mr. K said to do the headphone that was because in the magnetic resonance (MRI) there was like a scar. It is important to repair the brain only in that part. All the process that was followed in this event was a scientific process

where we know the problem and we applied this technology for solving the problem and we found the success. Now if have collected all the data and someone is helping me to write this experience and I can write a book about Naomi. There is a lot study and I have a lot of information but not all in one place. But now I start to prepare even for the soul. For the souls, there are very interesting things.

01:41:44 Giovanni: For example when the crash happened during the first days and for a few weeks I had to go to my house. I know when a person dies or is in a dangerous situation of life, the first place the soul goes is the house. So, I went to my house and went to the bed and made an exercise to keep in touch with my soul and the connection with my daughter. I saw the souls of Naomi and Fabio pass near me. I understood they wanted to be together and I permitted this knowing I would lose Naomi. In those first two weeks, I tried to keep Naomi's soul in the house near me during the night and then in her body during the day. This was a critical few weeks.

01:43:43 Giovanni: When I keep the soul in the body I create a sphere of light when the soul remained in the position like a field. In this way, it was possible to keep alive with her body. After I started to communicate with her about her situation in a telepathic way and this created a big connection with Naomi and me. Sometimes during the day, I would feel what her soul was saying and thinking. I spoke with her soul to soul. I said to her that she can survive and it is important that the soul was keeping control of the body and repair the body. She said to me the situation was very dangerous. I answered to her that I had all the support for coming out of this trouble. For this reason, I started to work with her and I talked with a lot of people about this. I asked some very sensitive people if it was possible if she was in the position of emergency. When the body was pushed out of the car, usually the body has different kinds of injuries. She had no abrasions and she

was in fetal position like the child inside the mother. I asked a sensitive person how it was possible that there were no abrasions and she said Naomi was levitated from the car and put on the soil on the ground. Her injuries are related to the hit inside the car and not outside the car. This makes sense. There is a lot I don't understand in this kind of dynamic.

01:48:38 Giovanni: what I want to tell you is that this kind of knowledge is complete knowledge that goes from the soul to the body. The first important thing is the intention. With intention, it means it is the connection with God. If there is an intention with no connection with God, you have a problem. Even Tesla and the first scientist who prepared the first supersonic motor were there. We know that even the small cell of plasma has a special field of intelligence.

**G: We know that all the structure, the atoms, of the cell have a root that is in God and this connection is necessary during the preparation of the GaNS and the device and so on. This is my thinking and what I have understood. It can create a big difference between the old medical system and this. Most of normal medicine has no soul or heart and no god. The old doctors loved his patients, worked with them all the time and checked on the patients. Now I see there is a protocol and the doctors follow it and if they don't follow the protocol they are not there. The medicine is only a chemical process. There is no future for medicine and the doctors can only do something interesting if they change from this direction from a commercial way to the soul way. This is the only chance for them to really help humanity.**

01:52:37 Giovanni: But fortunately, there is this (plasma) technology and I push for the two clinics to start and give support to the people who practice with the normal medicine to use plasma technology. It is a completely different approach. In this

technology, what is possible in 10 years we have done in 10 days and now we are starting to understand and integrate and now I start to study the technology with frequencies, with other technologies to understand better how it is possible to elevate this kind of technology. The hardest thing is to put the soul. If you want Mr. Keshe, I can share a couple of pictures that show this kind of sacrifice.

01:54:16 Mr. K: No, we prefer to see this separate and then you can show it. The main important thing is that all the operations and everything that you continuously used the ZnO liquid GaNS to elevate the soul and keep the soul in its position.

Giovanni: Yes, I prepared 2 different kinds of ZnO GaNS; one was normal and one was brain GaNS with ZnO. I reproduced the same condition when the first brain was first created and that result was different from normal ZnO.

01:55:30 K: Let me add something that people may not know. Giovanni is registered as an alternative doctor of medicine. He can do these kinds of things because he is certified as an alternative doctor and is doing this according to the knowledge he has. Thank you very much, Giovanni. Is there anything else you want to say?

Giovanni: No thank you, I only want to say thanks to you and Carolina for all the support for this situation.

[Understanding the way Giovanni has been working with Naomi brings the ability to make shooting stars in space and time.](#)

01:56:26 K; thank you indeed. All the best to you. What is important is that we understand the knowledge in much more in depth. In the coming weeks, we open the space knowledge in a very rapid way to all of us. We have to have the understanding of

how to join the different elements of the physicality and the soul of the man together. We learned and many of us produced the ZnO, the CuO and CO<sub>2</sub> and everything else, but we did not come to understand the field effect and the interaction. What is important is that the next step in the knowledge is cohesion, completion and in a way comprehending the totality of the knowledge. This is the key point for man to survive in deep space. Deep space is not a hostile place and what we see is a frame of time, a frame of movement of fields and a frame of intention and wanting to and being able to control the wishes.

01:58:20 K: we were with friends recently and one said he wished to see a shooting star. I said my wish was that he sees 10 tonight. Among the 4 of us we saw 9 in a matter of half an hour while we were walking. And within that 24 hours the 10<sup>th</sup> one was shining in another position. This is not a magic show but understanding the steps of being able to bring the emotion and the feeling in conjunction to the reality of the physicality, and this is something which man has to learn if he is going to survive the time in space. What this means is very much what we explained and what Giovanni said: *My wish is my command. My wish is to be able to manifest my fields of emotion, my essence, into the physicality in which the manifestation is not only dynamic but it can satisfy the emotion in the others. What it means, the others, is my soul in respect to the manifestation of its own physicality. I wish to have a spaceship. If the man wishes, and understanding of the wish to serve is there, man will make the spaceship.*

02:00:39 K: *We always waited for metals, hinges and fuel to travel.* Now if you understood what you have seen in these pictures, and what I explained about the shooting stars, is that it goes back to transferring, creating, and understanding of the emotion into physicality. This is where the technology moves from now on because in space you wish to have your child and your

child who is millions of kilometers away will be with you. You feel it and you can create the condition of the existence.

02:01:37 K: I have explained about the shooting stars to several people over the last couple of years. It is not to show magic but to show we can transfer the wish of our soul into the physicality of the vision in the entity, and in being there it is there to satisfy me to satisfy the others' needs aspirations or emotion. We have to learn how to do it, and we have to learn that in sincerity when we wish the wish has to be to create pleasure, love and aspiration of the soul to receive more than it receives more than it can give so that it is inspired to give more. Then you make a wish—it is not that I wish to see the shooting star, or I wish to have a telephone or a stone. Then it manifests itself and comes to you so that you receive it. It is because the intention is pure in what is to be done or what will be done afterwards or what it gives to others.

02:03:11 K: **We have to learn and understand the reality that our soul is a sun and we have to be strong enough to comprehend the essence of creation principal that the soul of the man is the most beautiful light in existence. We look to sun for the purity of the rays and light. But within us sits the total purity of the light. Once man understands this then man can go to the next step and be able to conquer space. You have to be able to work on one base. You always do something to aspire to satisfy another person. I love you and for my love for you I buy you a flower or whatever, that by seeing it you give from your soul to me the love, or what I need to receive to confirm so I can give more. Why do we buy presents? Why do we give to our lovers, why do kiss and hug each other?**

02:04:52 K: [Now there is one fundamental point that you have to cross. I wish to manifest myself in the image and in the position of the condition I arrive.](#)

You always wished to have something. Now the wish of the soul becomes the creator of your own physicality. This is how you transfer the wish to be seen from your soul to your physicality. This is how you create fields from matter state to the point of arrival. It is not that you arrive and you become 4 arms and 2 legs. It is that you transferred the wish to be seen from your soul to your physicality. Then you understand the process if you lose an arm, you can make an arm. If you want 10 extra legs to live in an environment where everybody has 12 legs, you have 12 legs.

02:06:15 K: the most important part of the teaching from now on comes to one thing. It comes to self-preservation for the soul and that you can create the physicality around it to protect it (the soul) according to the condition which manifests itself if the desire of the soul is to be part of that environment. This way zero-time transportation, zero-time transmutation, or whatever you call it, will appear.

02:07:02 K: You have seen what Giovanni explains. *I wish and I give and I do communicate with the soul. It is the desire of the soul of the father that reaches the soul of the daughter and with it reaches the condition that is needed to be reached, so that both are happy and satisfied to be.* If you look at it, everything else is just the mirage of available fields that can be put into action in feeding off the bone and moving of the brain and everything else. When you arrive at a position in deep space, you have to be able to convert the energies of your soul into the physicality of the manifestation of the entity at the point of arrival if you wish to be in that environment. We drive from one place to another to go and see beautiful scenery. We drive for hours from one place to buy a dress which we think will be beautiful, and to satisfy the soul that we have received good intention. Our soul is happy with this and now we have to be able to create that dress in the essence of the creation of the soul of the man.

02:08:39 K: this is where the teaching starts in the new cycle of One Nation, One Planet, and One Race. Would we as a race like to be all black so there is no more skin racism? Would we all decide to have blue eyes that with that we can have no racism? The human race can do this with this knowledge. But isn't it nicer to have the variation of colors so that you appreciate the totality of the change and the collection of the beauty of it? Would a black man in Africa with a white woman from Europe arriving at a destination where everyone is green in color, would they stay white and black or would they be green? I think you know the answer. In the intention of manifestation in space and time and the desire for a man and woman to be part of the environment both will be green.

02:10:25 K: [We have to understand what we are entering into with deep space travel. It's not being in the space shuttle.](#)

-And you wear a suit and the shackles of being tied to a box that you have to breathe out of. You breathe the energy of the environment and the energy of the environment dictates manifestation in the condition of that environment. The question to ask is, "why has the human race fought over the color of the skin?" Now in space when we travel in different dimensions we all become the same color. We all have legs, the beauty of black skin, or Chinese eyes. So, what are we fighting for? What has been the cause of all the problems of the human race? Now the human race understands the manifestation of its own creation. The soul is the manifestation of our creation. This is why we teach the oneness and the unity and this is why we established One Nation and One Planet.

02:12:21 K: This is how you have to understand the operation of the soul of the man. In the past weeks, I have given so much from my soul for the whole of the Flemish and French-speaking

Belgians for them to elevate and for them to become as part of the human race that conducts themselves in the right way; I do the same with the Africans, the Asians, the Chinese, and the Americans. No one needs more to elevate the souls than the Americans at this time to bring them out of this fighting and killing mode. Everything has to be fought for to confirm that they exist. The only thing you need to do: You exist but you are equal. You exist but without the condition of killing. The problem is that we have to understand the power, strength and condition of our own soul and man has not understood.

02:13:55 K: In so many ways what we heard from Giovanni gives us that platform to understand that we have that power. The sun is within us, and we are the creator of our physicality. In deep space, we change to the space of time. But there is something man will learn in the coming time. You decide the position of arrival before you depart. I want to be in Planet Zeus and I know when I arrive there they are all going to be green with blue eyes and red hair and no legs because they have no need for legs there. We are prepared to do this because we love to be part of that scenery to experience the environment. It is very much like going from one continent to another continent and we eat their food, we dress their local dress to become part of the experience.

02:15:08 K: But the only problem is man strangely enough wears suits across this planet. You go from Australia, to Africa to Canada and all men are suit bearers. How many of us were born with a suit from our mother? We have no problem because it gives us a status. But what about deep space where there are no clothes? Are you going to walk into some place and bring your tailor? Nobody wears suits in space and man will be shocked when he reaches space that the nudity of the skin is the essence and the beauty of creation. If you try to take jewelry to wear you will become a laughing stock. The stone you carry, the ring you carry at the point

of manifestation of transfer cannot transfer and does not exist. You will lose your most beautiful jewels in the space of time.

02:1630 K: Now you understand that the wealth that man has fought for so much on this planet, beyond the boundaries of this planet has no physicality. We have to make peace as One Nation within ourselves and not with anybody else. I don't need to talk and somebody insult me because you said this. To me what is said is what I need to be at peace with myself. You don't sit in my place and feel what I feel to dictate what I have to say and how I have to be. It is the same with the peace process.

[The Chinese are a peaceful nation because they built a wall as a desire to manifest peace](#)

02:17:20 K: I was explaining this very recently to somebody with a lot of understanding to know what it means. Man has been peaceful by nature and has tried to create an environment of peace where it did not matter what they do outside. We have called it castles, wall of China, village walls where inside we have peace and we are at peace with each other irrespective of what is happening behind the wall or the castle. Inside the castle, we have decided this is how we organize to be able to create peace. That peace is effectively us in our existence in our environment.

02:18:14 K: I said recently in a very beautiful way, if you can understand it, why the Chinese are a peaceful nation! Centuries ago they created a wall so that they did not get attacked and they did not need to defend themselves with walls they built. They lived inside to be peaceful. The nation itself shows that pattern after centuries. The reason we trust the peace and application of peace coming through the Chinese nation is because they built that wall. They didn't build the wall to create separation. They built the wall to keep peace inside. Now we allow the Chinese to take the wall

of China to the boundaries of this planet to make one peaceful planet.

02:19:08 K: This is what I believe and I work through the trust of my soul. I have given 100% of my soul to the hand of the people who are peaceful nature, the Chinese. Then we see the people of peaceful nature in other parts of the world will rise. The change of humanity has started. We have no choice. The nations will start to see the benefit of peace but it has to come within the man himself. I am outspoken in what I do because when I speak it allows me to be at peace inside me. But the other people call it anger. It is not anger; it is the way I can handle being at peace without getting cancer because of the emotion that will change my skin, my liver and everything else. I should not be silenced to speak so that I end up carrying something inside of me that ends up as a disease.

02:20:16 K: I stay peaceful within me and I carry that peacefulness to my nation, to the universal council and to the rest of them. This is what you have to learn and this is the cornerstone to understanding how the expansion of your soul ends up with the condition of your physicality. When you are forced to keep the condition then you show energies internally that we call diseases. We have to understand the operation of our own soul within the structure of our own physicality. Those who suppress and attack it and those who try to imprison it are those which freedom to them is 'engagement' of the others so they can take from their souls. It does not matter what shape or name you put to it. Try to understand what has been said and then you understand and you will become the man of space. And the process from now on has started.

02.21.41 K: we have reached the One Nation platform, which means we should not see any war. We should not be able to have tools of aggression or war. We will see remnants of the past behavior for a time but it is irrelevant because in the coming time

we will make the tools of war obsolete. What is the use when my wish is to be at peace and I don't want to accept the bullet, the nuclear warhead or the warship? You will find out it will become the totality of my wish and many others and of the same strength of peace and we will overrule the rest. Inside ourselves we have to be in our own physicality in peace, because if you understand this and the teachings that are coming, you will find man can manifest himself anywhere in the universe according to the wish of his vision.

02:22:55 K: [This is where we are going from now on. I cannot give you a spacesuit. I cannot sew you a suit and a mask when in space there is no oxygen for you to survive. But I can teach you how to operate your soul](#)

-So that in the space of time where you want to be, the energies convert into what you consider oxygen, which itself is energy that guarantees the survival of your physicality in the manifestation of the space of time where you appear. What I teach is years ahead but we are laying the stones of knowledge so that man understands. We have to be able to understand the power of our soul which is the shining star and the sun. When it radiates according to its radiation and field strength at a given point, it becomes the cell of our soul, and at a given point it becomes the tissue of our heart and at another point becomes the tissue of our hair. So, the sun at one point is Saturn, earth or a meteorite or whatever you want to call it. This is where the process of the knowledge has to go and for us to understand the power and capabilities of our own soul and that on this planet our soul dictates the physicality of the manifestation of us with 2 legs and 2 arms. In another space the same soul will have different characteristics. We should not be shocked to see ourselves. Instead of buying a new suit now we wear a new dimension of physicality.

02:25:13 K: It is important for all of us to understand and to be prepared to enter the dimension of the universal community. There is no other way. Many of you listened to Giovanni. He said that he put his soul with the soul of his daughter. This should be a natural process for any father and mother to himself or any lover to another where physicality has no meaning unless you want to create a condition of physicality. Many times I have said to Carolina that we come to this dimension because of the pleasure of physicality, the beauty of the mountains, the noise of the water, the touch of a lover and the smell of the flower. Here it allows us to understand the dimension of physicality. In space, most of this does not exist and you 'smell' through the soul.

02:26:26 K: Physicality in different dimensions brings different feeding to the soul of the man. The man has to get ready to understand the operation of his soul. When Giovanni speaks about his soul going to meet at the house, to me - the man of space - this is normal. This is how it is. This is how I feel my children because we choose the path of the soul and not the path of physicality. I knew of the strength of what I carried as a child; when I was a teenager, I used to live in England and I knew there would be a letter from my parents when I stood outside the post office. *How do you know you have a letter?* I said I knew the soul of my parents. They never told us when they sent a letter. We need to strengthen the trust in our own soul. Then you understand and you expand it. It is not the confidence; it understands the operation of the soul which gives you the confidence. Once you gain the confidence the operation of the physicality starts. Then the physicality has no dimension. Those who don't understand will make fun of it because that is their limitation. They cannot go beyond that level.

02:28:28 K: How can you tell the soul that has chosen to be the stone, the beauty of the rose, even though the stone feels the rose and smells the rose through the field strength? We have to go

deeper in the understanding of the creation and that is the only way we will survive in the depth of space where we rely on the correct conduct of our soul that it leads us to the creation of manifestation at the point of destination where we wish to be.

02:29:09 K: In the coming time many of you who understand this process will have frightening fears or frightening experiences. But this is good because you are amateurs and you start doing it because you are not so aware of how to control it. It is like giving you a car and then leaving you on the road. You might turn a bit to the curve; you might fall in the ditch and then pull yourself out. You might go in reverse and then go forward. You might end up in the middle of the cul-de-sac, and you cannot get out.

02:29:47 K: [Many of you in transportation of physicality of the soul end up in the middle of the stone.](#)

You are still there and you see yourself as physicality as a soul and you don't know how you ended up there. Then you have to gather to be an entity of your own, to change the position to be where you want. A scientist said to me very recently, *you have understood how to create manifestation of the energy to a mass. The soul of the man is energy; the mass is the dust of the universe.*

02:30:32 K: You have to start practicing. You have got to start understanding the operation of the soul of the man. As I speak to you now I see my soul, I can see the parameters of my soul, I can see the joy in it and I can feel millions of people at the same time. I can feel the pressure and the anxiety of the person who I want to understand even though I know he has nothing to do with me. My soul expands the universe, so man has got to learn how to become the universe. Start with small dimensions. This way you can practice and you can understand gradually to graduate into it to take control of it with one in one room and one in the other room.

Don't try to read each other's intention. Try to feel each other's feeling because intention brings physicality. Feeding has no physicality. Then you expand it and you go to another room, another city, another village, another part of the world and I can feel you, I can touch you and still have the smell and the odor of it. I can still through my feeling send you what I want to send you to feed you.

[02:32:20 K: Very soon in the coming time, sooner than you can imagine, we will bring a new system of feeding for humanity which means man will not need to consume.](#)

Man will pass an animal and not look at it as a feeding station. This will be where the physicality of the energy is connected to the physicality of the emotion which means that I am satisfied, I am happy that I do not need this. Without touching it and not looking at it as food, I am pleased to see the survival of the animal. This is where the teaching and the work starts. As I said many times I had to bring man from matter, because man is so materialistic, to the GaNS... to the energy... and now you understand the collective of the energy, which you can transfer and use it back to the matter state. Now this time you are in charge. I don't give you wood; you become the creator of wood in the texture you like.

02:33:52 K: We have come from the matter into energy and now we go from energy to matter. This is what I said: in space, we do not need to carry food with us. We do not need to carry material with us. In essence we are not looking for energy from space; we are looking for energy from the sun of the man, the soul of the man inside the man. Go back to the writing of Bahá'u'lláh: *Oh son of man, the man itself is the sun of itself but the sun as a child of itself.* We become the creator of ourselves; the soul becomes the creator and the physicality becomes the sun, the child, where the soul carries the totality of the physicality. This is where we have to go. As I said, the option is in the hands of man.

Those of you who are happy to build a craft and call it the airplane you are welcome, also you who are happy to build the spaceship, and especially welcome are you who are happy to travel the depth of space in zero-time travel and zero space.

02:35:15 K: Those of you who are happy to build a craft and call it the airplane and still use the MaGrav system for it, you are welcome. If you are those who can go to the next step and create the space ship and still do the travel you are still quite welcome. And those of you who have inspired and understood the work of the soul of the man in the dimension of the physicality due to its inspiration and its own decision, you can travel the depth of space in zero-time travel and zero space. It is zero space because it is you who decides the space and the time. Many world scientists are understanding my teaching and many leading scientists are grasping what is on the table.

02:36:19 K: In the coming time, you will understand how this situation has created for itself a new environment of scientists which work through the soul and deliver in the dimension of physicality in what is needed. You have to be able to test. You know you put a smell and you say this is a rose, and this is another smell and another smell. Now you have to remember the smell changes the condition and the pleasure of the smell of the rose gives its energy to your soul. Now instead of smelling the rose here next to my nose, I can put the rose on the table next door and then I try to smell the rose through here. This time I don't smell it through my nose; this time I smell it through my soul. I see the beauty of it, how it is lying on the table and I see when it tells me *I need water. I am a living thing too and I give you the flavor of the smell you like to smell from me so it is your job to guarantee my survival... put me in a pot of water or leave me here because I had my cycle.*

02:37:58 K: We need to go to this space of time and we need to go to this understanding. We need to go to in this position that we don't need to say anything but you can feel everything. Some time is important for us to understand this strength and now that we have started teaching it, many of you have started practicing it. Thousands of you are testing your own souls and controlling your breathing, heart rate or whatever. But it is the steps of development you have to do to understand. Why don't you go to the soul directly? I don't change my breathing and I don't change my heart beat. But I tell you that you will see 10 shooting stars. I will become more outgoing and maybe next time it will be over 200 shooting stars. Maybe I can show you something else because now it is not the imagination but the acceptance that it can be done.

2.39.19 K: Nowadays many people come around talking and ask if I can show them a shooting star. I say I am not a magician. But those whom I give the pleasure of life can have the pleasure to see. If you understand this and if you comprehend what is on the table, no man will do anything wrong or commit a crime because he knows that it brings limitation to his soul and he does not want to be limited. The space and time do not exist for the soul of the man because it is so powerful that it is the strength of his magnetic gravitational field which is itself in essence a collection of fields. It is in such a high order that it covers the space of time by an order of magnitude so fast there is no time. He decides to create the time.

02:40:45 K: Man in space will realize what has been created here as time does not exist. Because if I go by higher order strength what is to you 10 seconds is to me no seconds because I go so much faster in the strength of transformation that this is nothing in it, so to you it becomes zero time but to me it is still the time transfer.

02:41:10 K: If you understood this, it becomes the backbone of zero-time communication, when in fact you transfer knowledge, understanding and communication to your soul without ever speaking a language or a word. The voice of the man is the channel to the soul of the man. That is why we chose the universal language teams. That is why I said that we choose Poets who bring love and inspiration to be the sign; because that picture to us is love. That picture of that man, that line of poetry is the giving and because we receive so much we are all the givers by knowing he is there.

02:42:10 K: There is something very strange on the back of the American note—*in God we trust*. Try not to create tools to confirm the strength of your emotion and not for ways to expand your soul. Try to understand the operation of your soul. Then you don't need any breathing system or a method of holding oxygen and everything else. For those who go this path it means they have not understood the essence of their creation. Did you breathe in a special way that you grow so tall in 10 years? Or has the rhythm of breathing always been constant from the time you were born? So, breathing has nothing to do with it. If you become a marathon runner, you take so much energy and compressed air do you elevate your soul? Now you understand how these methods are just a myth and the lack of understanding of the totality. So, the marathon runners who breathe so much have become very spiritual people and you should see a bunch of guys running down the road in marathons every day.

02:44:06 K: The soul of the man is the creator of his physicality and the way we chose the matter to give GaNS for the energy that became the center of our systems, now we understand that the center of our system, the soul, is the feeder of our physicality, and the physicality in itself continuously through the conversion of the GaNS becomes the feeder of the soul of the man through the environment ...

2:44:42 K: Then you understand why sometimes, when we go to certain places we become very spiritual, we feel the condition that our soul is touched. Look at the environment and where they built the building and where the environment creates the field strength. Most probably if you drill and test it has something to do with the magnesium and iodine existence which is the elevation of the soul at that point. Very soon the scientists that gather this knowledge will go to the wall in Jerusalem and they will go to the holy temples and measure for this. It will become a new science. And then you understand why in certain places we feel this way, why in certain places we fall in love and why in certain positions we feel more such as in the spring and the summer rather than the winter.

02:45:52 K: Isn't it the continuation of the vast number of flowers that release so many fields that are part of the strength of our soul? Now we understand how even the environmental condition receives and affects our soul. So, can we create the condition of 'always spring' and it doesn't matter where we are? We can do this. But now as a science we have to understand another soul and become blind to the physicality that the worlds don't exist. Now you understand how advanced the understanding of the operation of the life has come to Giovanni. He needed that through the experience of his daughter that defined the operation of the soul. Teaching this is not easy. But those who stand around us get inspired and start teaching and then man becomes non-dimensional and non-physical. Any questions?

02:48:00 Ralph in Texas: Mr. Keshe you asked me to do a presentation on hexagonal water and I sent the information to Rick so we can probably do that next week.

K: No problem; let us look at it and we will let you know. Thank you very much.

[Try to practice zero-time soul communication with each other!](#)

What I am going to do and have a lot of you can try to do and this is important so you can link up. Those of you who are members of the UC, EC, and the core team and the supporters of the core team or people who are connected to the foundation one way or another, and you communicate on the lines of the KF, or you communicate through different channels of communication and you have never met, or you met before and you are in a position of what I call transformation to understand, try to create communication between the souls of each other. Try to expand the dimension that computer lines have no relevance and you can use that to reach the other. At least try to start that *I want to give to you what you feel that you need* and then you want to give. You can talk and ask *did you feel this way at such and such a time?*

02:50:12 K: This way you start expanding the soul and start exercising how to expand the soul, but as I have said, you have to learn. You can create a condition with your soul because it is the sun. Anybody who understands this, you know how the sun expands as dust in the space and becomes part of the planet so it gives of itself the material to the eye of the man. Then see if you can do that with your soul in respect to the others. This is the way we become One Nation. Strangely enough many of you according to what I will tell you in time to come start on the way to give to your friends. You understand that you are giving and you are not taking to please yourself. You interact with the other souls that share the same position and need. You speak to another guy on the chat room *by the way did you find this? I was trying to go there because I was feeling that you needed me for something. Can I give you something?* He might say, *how did you know?*

02:51:33 K: This way you start expanding the dimension of the physicality to the non-dimension and then you come in touch with

the soul of the totality. But don't forget that you cannot take. And the only way to give is to give pleasure to elevate. And not to elevate yourself so you can hear from him. Or would he tell me what he feels? Listen to what Giovanni says: *I went home because I knew both of them were home.* I have seen this man going through the suffering and how he has done the job. Try to understand the extension and expansion of your own soul. Any other questions? If we have no questions, we will call it a day. We have been at this for nearly 3 hours. Is there anything else you have Rick? People are doing a lot of soul searching.

02:53:40 Rick: Xie says, Mr. Keshe you are beautiful. Thank you for that and I will try to expand my giving... OK... There was a question in the Q and A about the wire connection of a MaGrav stacker, but maybe we can reserve that till later.

02:54:11 K: You can reserve that back into the workshops. As I said, we have a spectrum of learners, from the ones who start making their first GaNS to the ones who listen for the first time. Those who made the Magrav systems, the dynamic systems and those who see the energy in it and those who understand the energy within again in the matter state as you choose. The beauty with this is that now on you will become the decider of the manifestation and nothing else. As we say, "the magic show has started". Thank you very much for today. I hope we will learn something new and I hope now we go to the next level of trying to satisfy all the needs of the man in different levels of understanding.

02:55:22 K: We don't expect everybody to understand. As we said in the beginning, we allow the people who are making GaNSes, pillows and pads to still be able to do that they can live and produce everything else. That is the level of understanding. We teach more advanced for those souls that are taking to space and understanding the universal communication. Thank you very much for today and as usual we will see you next Thursday.

02:55:56 K: Please for those of you who have been involved in all levels of the KF, get in touch both the [world@spaceshipinstitute.org](mailto:world@spaceshipinstitute.org) or [Chinese@spaceshipinstitute.org](mailto:Chinese@spaceshipinstitute.org) so that we can start the process of creating life in the physical dimension for those who are at that level.

02:56:18 Rick: There is a question about that. If someone has put in a manufacturing registration form, should they also send an email at [world@spaceshipinstitute.org](mailto:world@spaceshipinstitute.org) ?

02:56:33 K: Yes, no problem. There is a meeting set up around the 20<sup>th</sup> for those who want to do manufacturing because the new center of manufacturing is going to change. In so many ways we will explain and we have to see how we can go and do this. I don't think Ella is there but on the 20<sup>th</sup> she has said she was working heavily overnight to get something done that was urgent. So, she is not here with us. The important part is to get in touch with Ella if you are a manufacturer who wants to go into manufacturing. The position with the manufacturing with the KF has changed drastically and we will explain more. We go into manufacturing by investing from KF and we are looking for local partners with a small percentage. We are looking for different types of organizations where we employ people and we will share the wealth across the nations equally. We are not there to make Bill Gates of people in their countries. We are there to serve the nation that everyone becomes a Bill Gates at least in their souls. Thank you very much.

[Ivan Ivanov has been practicing soul operation.](#)

02:58:09 Rick: another question from Ivan Ivanov – he has been practicing soul operation. Could you field that question?

02:58:56 Ivan: I was practicing inside my soul...to change the totality. I think I started because I started to feel the body like I could not feel the body but I could feel the field. I had a pain in my hip and I tried to adjust for that position.... The feeling was more like magnetic, more like you place two magnets... is this the correct feeling?

K: I am not there; I don't know. You are inside yourself.

Ivan: but I think everyone should feel it similar like I felt it.

K: not really.

03:00:11 Ivan: how do you feel it?

K: I don't feel; I know. It passes the feeling of the soul and it is a different way of understanding that you are feeling the others. I don't feel. It is very much in a deeper sense of a ray. Let me ask a question. Is there a telephone ringing?

Ivan: Oh yes, sorry!

03:00:56 K: The level of interaction is how you want it to be. And then how you feel it according to your feeling. Then you find out if it is right or wrong. And it becomes very normal. You feel and the others feel what you feel. It happens very strangely. Yesterday I was not feeling comfortable with a situation and I explained it. Within a short time, the subject was raised so it could be sorted. It comes when the soul feels; you don't need to talk. It is getting sorted out. You know it has been done.

03:01:54 Ivan: Yeah but this is very strange because when I started this practice I became aware I could feel the other soul. This also happens when I go into this meditation. But it is very strange how you feel the body. You can move but at the same time you don't move.

K: it is understanding.

03:02:35 Ivan: can we control something in the brain with it?....

K: Yes, but it depends on how you control it. The brain is just a magnetic field vessel containing the soul which is the source of it.

Ivan: Yes, I understand this. I was just wondering because you said you had to release energy from the soul.

K: Yes, but you have to practice.

Ivan: Yes I am. I believe that we go from... I was thinking we are trying to move the distance... ..

K: You learn by practice.

Ivan: how did you do it the first time?

K: I don't know; I always had it.

03:04:35 [Rick: Wolfgang asks in the Livestream, how can I connect best to my soul without being blocked by the filters of my emotion?](#)

K: You have to overcome the emotion, you have to understand if it is the emotion of the soul or the emotion of the physicality because the soul has emotion too. How you feel it is important. In what respect you feel it is important. Don't forget *I made man in the image of myself*. We have related everything to be in the physical dimension. Now we have to understand if this thing is emotion from my physical or is it emotion from my soul?

Ivan: There are two different kinds of emotions?

K: No there is one emotion but you have to understand from its strength where it comes from. Is it filtered or is it not filtered? Your brain is just a filter. The physical brain of the man is the filter of the energy of the soul of the man.

Ivan: Okay I will practice.

03:05:56 K: You don't need to practice; you need to understand, to comprehend. When you practice, you put the matter dimension into it. Then it is not your soul. Then you are working on the

matter strength of your soul and not the strength of the soul which is much higher than the matter state. In the slowing down or losing its strength it becomes matter strength.

Ivan: that is another question because you said you did it. I want a similar experience to relate to.

K: Exactly. Thank you very much.

[MK is welcomed home to Iran](#)

03:06:55 M: Can I ask a question please? (difficult to understand)

My name is Madnaz (?), and I'm sorry to take your time. I have 2 questions... I think we need clear requisites (?) before we go to these levels that come by giving and giving. And in time we can do it easily and it is not magic. It is a science that we have to put work into it and it comes when it comes... It takes time... It takes time to get ready to be able to mutate... to create... or to get in touch with the soul... easily... comfortably without breaking the body to pieces... I have another question. I would like to get in touch in Tehran ...

03:08:57 K: I will be giving a lecture in Isfahan on the 26<sup>th</sup> or 27<sup>th</sup> it has not been confirmed completely... we are negotiating if we can be able to give a public conference or presentation. Sometimes at the end of September we will be in Tehran and all our time most probably will be tied up in one way or another with the authorities. We don't know; I haven't been to Iran for some time and I am not aware of how the situation will be this time.

M: I was trying to buy a ticket for 11<sup>th</sup> of September to be there when you come...

K: The position and the dates are not confirmed and it depends on how it will be confirmed internally in Iran. This trip is organized outside my hands. We are trying not to announce where and what. It could be anytime from the 29<sup>th</sup> to the 11<sup>th</sup> or 16<sup>th</sup>. It depends on the organization. At the moment, nothing has been booked or reserved and it might get cancelled. There are a lot of commitments coming up with the foundation work.

M: Thank you very much; I wish all the joy for you and your family.

K: Thank you. Shall we call it a day? Thank you very much.

Rick: Thank you, same time, same place next week for the 185<sup>th</sup> Knowledge Seekers workshop on August 17, 2017. We are closing the 184<sup>th</sup> Knowledge Seekers Workshop for August 10, 2017. Thank you for your participation.
