Transcript v2 from Amara subtitle file revision 19

(TRANSCRIPT OF INTRO VIDEOS MISSING)

(RC) Welcome everyone to the 189th Knowledge Seekers Workshop for Thursday, September 14th. 2017 and ... as in the last 188 Workshops, we have Mr. Keshe ready to tell us about the latest in Plasma Technology today.

... Mr. Keshe, are you available there for us?

(MK) Yes, good morning, good day to you as usual wherever and whenever you listen to these Knowledge Seekers, series of teachings. As we have said before, on Thursday mornings have...you're establishing the One Nation, One Race, One Planet. We give room to the people who will structure this organizations for us to run the platform in the Thursday teachings that they can explain and we see the maturity as they come to understand how to, in a way, run the affairs of the Universal Council, the Earth Council and other organizations which they will become responsible for.

.. Do we see any members of the Universal Council or the Earth Council, who are online?

(RC)Yes, there's several in the panelist right now.

(MK) Can I just add something ...while before they start? ... Mary Vu, the member of the Earth Council ... for Northern American continent. She has stepped down due to condition she has explained to the other members of the Council which we understood and the pressures which goes with this job. And we have accepted her step down and ... at the same time we needed of the people of the same maturity and same understanding, because the Earth Councils are a special breed of people, the more people will understand as they work they come forward.

And, so we could not find anyone more fitting than...another member of the Universal Council... Very much the way we brought Dr. Parviz from Universal Council to Earth Council now we have done the same thing with... another member of the Universal Council, that he now becomes the member of the Earth Council. We let him to introduce himself, as he's on, as he's present. As he has left his position as a Universal Council and become a member of the Earth Council, Wayne will explain himself and his vision, as a member of the Earth Councils and we thank him for accepting the position, as the member of the Earth Councils, as of this week. So, the Vietnamese language is open for any Vietnamese who would like to be now of the Universal Council...with the Vietnamese language. Okay, go ahead please.

(WN) Hi everyone, hi Mr. Keshe, thank you for the opportunity to ...welcome me as part of the ...Earth Council for North America. I... I'm looking forward to work with everyone and ... we...will continue with the process, for Peace ... that's my wish and...and the wish of the Councils so we united to ... to fulfill that...that ...that obligations of ...bringing humanities as One Nations, One Planet, One Race, So, ... this is very honors and pleasures to work with you ... the Universal Council and also the ...the Earth Council now, and also the Core Team and also all the Knowledge Seekers Workshop ... Seekers ... around the World. And, with all the humanity's, so that we can achieve Peace and maintain Peace. Thank you very much.

(MK) Thank you very much for accepting the position. Could you please give us some more background, now that you're a part of the, what I call, group of the six members of the Earth Council? Can we know more about your background? As, we could not know when you were a member of the Universal Council. Where do you come from, your experiences in Life and in you, what you see, the future with Peace?

(WN)My... my background is. as a social worker.... in... in the United States ... I... I worked my way up... from high school all the way to graduate school ... to become a social worker, to... to... you call just, to call...a person to become a social worker in...in the United States.... I have to go through school to get the Master's degree. So, because of that process, I... I learned the education system, how it works.... Because, the background in... in the Bachelor degree I have is in social sciences. I was studying religions and... social works, and ...and all's religions and politics. To repair, to go into the social work field. In...in the social work fields in the United States, there are two fields to go into. ... One of them is ...the children's sides or the elderly side. But for the children sides I... I cannot handle it. Just because it's too much for me. ... Because of the backgrounds I have is ...with the wars in Vietnam and the refugees and...and all that... I went through all that, so I... I see the... the...the heaviness of... of that, and also the investigations of children abuse, sexual abuse, ... psychological abuse and physically abuse. So, for me I... I choose the sides of the other side is called the elderly side. So, I went... went into that side ... but the same thing with ... physical abuse, sexual abuse and financial abuse and ...and that's why I worked in, and also, I work in a nursing home ... I see the s... the physical deteriorations of a human being ... the psychological ...the financial sides of it too. ... And that's why... why I learned ...but the same time I... I also ... worked in the ...the housing sides, the financial sides of it ...financial sides of that. ... So, I did... I ... kind of sees ...the... the...the needs of Humanity's, is we need. In the physical sides is... is... is, they need food, shelters and... and...and connected with the financial sides of this world.

But also, when you see...when you work with the elderly's...when I work with the elderly, I see a lot of the death and dying. ... I... I was involved with that ... to see the... the physical deteriorations, but, when... when people are in pain, sometimes they turn inward. So, I... I... I see it as the consciousness ...some of them dies in peaceful conditions and some of them dies in the ...in agony... in a lot of pain.

But, at the end, they also have something that they... make them peaceful. That's why I always question myself ...I did not... I did not know; the school did not teach me all that. Personally, I have to experience that, when they... sees about, you know, when one day you see about three deaths, and you start questioned yourself, ... That's why I start question myself, how, that's life is here on Earth is all about?

Why are we here?

Why... why do we exist in this universe, for what purpose?

That's why when... when I study with Keshe, with the Keshe Foundations. ... And that's why I... when I learned about ... the Nano-material, the technologies of this, can help people, to ease their pain. So, I...and then, and eventually, we fly out...of this Earth and travel to deep space. That's why I start to appreciate ...Humanity's needs to have a peaceful mind, so that we're able to do this, able to enjoy the... the silence of the Universe. And the Peaceful way ... that's why I ...joined the Universal Council to back the, work with the, the Universal Councils and gain some experience and...and now's is the opportunity that ...For the Earth Council.

So, we will link all these to understand the Human needs, at the same times...to... to ...progress in the Peace process. So that Man can... will...the Human, Mankind, ... Humanities, will understand, why is... Peace is necessary, for us to travel to the deep space, and... and also be amongst ourselves with ... each human being with other entities, and also with the Planet ... to repair the Planet to the better conditions.

So that... that we are able to enjoy the... the plenty... plentyfuls of...of what this planet, the blue planet offers to us. And also in deep Space ... what the Universe has offered to Humanity. But, there is a condition, the condition is, we have to have Peace and love, within... within ourselves and extend this to, to other beings ... on Earth and also around the Universe. So I... I see the necessary, the... the necessity of it. But also, there is a... a way that...that we can figure out this. ... When, when the Universal Councils and Earth Councils and the Core Team are working on the Charter. And I see the importance of that Charter, is talking about the Soul. ... When we tap into our Souls is... is... is..... we... we see the beauties of it. ... And, and the Souls, it has the...the... much, much, more than the Physicality's, that, that we have in these present times, but because of the Souls is so ...Some people call this conscientiousness, awareness, or different names of it. ... But ... when we talk about the real one, that this touch all of us, is, the Soul is very Peaceful and it's, it's, ... it wants everything. ... It wants unities, it wants love, it wants the freedoms and, and... and, and that's what I, I... I... I attract to it ...Is, is, is, is... you see the beauty's, when Humanities work together, in that's perspective ... And, and I'm, I'm very, I'm very hopeful. And it's that we can all achieve this, even though ... we have up and downs, but, the potential is so, so great, and it's, it's the opportunities is now, for us to move forward, and... and step forward.

For each one, and each one of us take the responsibility to achieve Peace, so that we can progress and thrive to the greatest potential of each human beings on the face of this blue Planet Earth. Thank you.

(MK) Thank you very much Wayne. Wayne, if you don't mind, it's good for our, what I call, 'Keshe Foundation Knowledge Seekers', to learn the knowledge, a piece of knowledge which cannot be learned in the books, as you said in the part of your talk. I know, I have many friends from Vietnam during the war, ... some of them I highly respect due through what they've been through. And, we cannot learn these things, as you said, you passed it in your talks. I know you've been through the Vietnam War, and many American listeners listen to this.

And many other people who are contemplating wars, listen to these teachings. I've been through, revolution, and nobody can feel these things, unless you've been through it, and this matures you in so many ways. ... It is not the pain, but it's the wisdom, which it brings you. Some people go to the extreme of it, and some people try to repeat it, because they suffered they want others to suffer.

But, some people like you and me, see that suffering as a step to change, to bring the change. And, not many people can explain the feeling of revolutions when you lose everything overnight, or the wars which you get entangled with. And you have to find a place to survive for the time being, till the next day. As I said, I have many close friends, Vietnamese friends. ... If it's not painful for you, if it's not, if it's acceptable to you, as Dr. Parvis explained to us, the emotion of a doctor on both sides of the war, in Iran and Iraq war, and what he's... made him to be what he is.

Could you explain to us if it's possible, your experience where you came from, and how you got to the United States? And, your experience of the Vietnam war, which is one of the most horrendous wars we saw in East Asia. That we learn from it, and becomes part of us, to understand why you strive for Peace, what is the ethos behind your thinking, please?

(WN) Yes Mr. Keshe ... I still remember, ... this is April ... 28th-29th of 1975, I was very young, I didn't know anything, I was dodging the bullets, I, I hear helicopters on top of the house. ... And then I start, I'm just curious about it and I just opened the doors, and that there are soldiers in front with M16's and... And tanks on the streets, and he says, "Close the door, go inside you kid."

That's all I remember, I was so scared and I shut the doors and, and then I, I went inside and I went underneath the... the... the bed, ... And, and start shaking and, and say to myself..... I just say, "Why, why sh...Why I cannot go out there and play?" ... And my family said, "No, this is, you can't do that." And then, that's what I remember, ...The shock, I still remember to this day, as I said it's...And then after that ...and then the ...We, my family ... five years later...1980s escape out of Vietnam by river boat, become a refugee in Thailand. Whilst in the trip we were ...plundered by the pirates three times. And they are searching us for gold and money and silver, whatever's is valuable they take it from us. And then after that they, they throw some ri...they threw some rice for us to eat.

And, then they capture some people and they put ... guns in their head and...for them to throw ... out their precious things that they have. And I saw all that and then I... I was starving and I was drinking waters by the spoons of... about two spoon of waters each time ...each time, so three times, you have three...three meals so, each time is...is two spoons of water. So, three spoons of water... teaspoon, for each ... members in the... in the... the river boat, to cross the South China Sea.

... At that time, my third day is... I...I was... I said, "This is it, I'm... I'm done with..." with my physicality ... "I can't survive anymore." And I... I hold the... the ...the empty container and I hoped that I'll be floating inside ... flow around the... the oceans and hopefully somebody will rescue me. And I pass away, ... I pass away...yeah pass... I just completely

(RC) Passed out.

(WN)... Yeah, I just pass out and I just...and then the next morning I remember, that I am still alive ...It's coming the fourth day. It was 7 days, 7 days or 10 days in the Oceans with...just like you see the... the ?Alma? the? Irma? ... The stars... you see people the flooded. but this, the flood but you cannot walk out ... stop. And then I went to refugee camps ... and then ... with barbed wires around the fence and M16's again... and here a lot of peoples, just like ... ten, of thousands of peoples in one small place and ... you know, but luckily, they put us in, right at the ocean, so that we could have an ocean breeze.

And then, came... I came to the United States and then ... was, was September, September 3rd two thou... 197... 1980's I came to the United States. My first night in the United States ...was very peaceful. ... The whole thing changed with my perception. One day I was in a torn country, fleeing for my own life, as a child, dodging the bullets or bomb. The next days is... is... is ... the next few years later with...with... in the Oceans almost become a... a ... a ... a piece of meat to feed the fish and the next mornings I was in the dry land face things in the refugee camps fighting for the next survival and then, the next days you were in the free ... at that time I call it the United States, Los Angeles is my land.

'The lands of the free' ... and I peaceful that, so I start with my educations again. With that process, I always dream that one day I am able to share my stories and stop all the wars... if it is possible.

Why do we have to go through this, to prove for what? Running for our life, just for, to survive. And I always question that, all the time. Why we are doing this?

Who is doing this to humanities and... and...and why some are able to survive and others are dead? ... It's three million soldiers in Vietnam's dead, because of the Vietnam wars...and 58,000 American soldiers dies and others ... too that civilians... and the psychological effects of this. And then after that the refugees, the.. the boat people, there's another...millions of them dies. And then, and then rapes and also murders, during the lands and...and get into this and start over again with the new land, new language and struggle.

And I just question all this ...in my heart, in my soul, I say, "You know, if there is a Creator ...a loving Creator, why these things are happening?"

And I start... start to read into the scriptures from Genesis to revelations aand...and different religions. They all teach Peace, but somehow, we're not peaceful. That the lesson behind this is.. is Humanity's need to mature, just a little bit ... not to practice anything that hurtful or ... you know is... is...You don't have to pick up a gun to be ...to hurt other people ...With bare hand you can do that, but we need to think twice before we need to do that to other human beings or other living beings.

So, that each can progress ...all these are too... too much for...for a person to take it. I... I... If anybody goes through wars or any go through that, all the headaches and all the...the... the man-made disasters that happening.

Each individually, or... the one that causes, please think twice about this. ... I extend myself to the Peace and the Love. Please, whatever you do, think first, or feel first, that will affect other people, other beings and also not just in this lifetime, but it's also the next lifetime. ... We... we're here in the Physicality for temporary's, 70 years, 80 years. Some of them are 5 years old and some of them are 10 years old, they have to suffer all these.

But their... their Soul still continues, they are not dying, your Soul never dies ...So, please before anybody's, if you understand ... what the Souls are working, let's... let's work together, let's join together and ...and shares the experience, what you have ... with other peoples for the Peaceful purpose, here on Earth and through the Universe. Because it's in vain, to all do...to hurt other people for just some change... a few dollars or even millions of dollars.

That's why, when I work with the elderly, I see them millions, millionaires that die before they die they... they suffer so much. Man... That's why I start to questions again...Why? ... Why is just a little piece of ... paper that we call money. And people have to...go after each other's in the painful and... and... and dreadful way.

To achieve their end, but other people end are so much suffering and... and... tortures. ... with their Physicality's and also in their Soul too. So, we... that's... that's why is in my Heart and in my Soul, I... I always love for Peace ... that Peaceful moment in Life is... is so precious ... when you sit, just doing nothing in the stillness of it ... you see the beauty's of...of who you are and you start to Love it and that moment of Life is...I call it, this moment is the 'best moment of Life' ... and...and because of that... I will do anything to share and also to, you know ...be part of the people that want to make Peace.

So, this I... I... I extend myself to...to be part of that opportunity to collaborate and to cooperate. ... as... as long as I'm in this Physicality's and then beyond ... to understand and to achieve Peace, it takes a lot of work, but we can do it...We... as a Human race we are mature enough right now to see all these things are happenings and

we have...all of us to stand up and say to ourselves, "enough is enough" and in time to progress and...And the Love and the Joys of being together as a Human race in the Peaceful way.

Thank you Mr. Keshe and thank you for everyone that listen to this ... 189th Knowledge Seekers Workshop.  
Thank you.

(MK) Thank you very much Wayne, thank you very much for accepting the position as a member of the Earth Council. Those of you who are familiar with the work of the Foundation and setting up of the Earth Council understand that, the way the members of the Earth Council are chosen. And if you look into the background of all of them, they come from all in one Continent, but live in another due to circumstances that they had, or they did understand more about the changes in Man and one he, what he does to another and how lives are uprooted, with no reason. Just for the greed of the Man, which is the greed of the Man. When we look at every member of the Earth Council, you will find the same kind of ... line of thinking.

Most been through traumas of understanding how injustices and how wars are and how conflicts are created for just benefit of the few or for just someone to be over somebody else's power. These experiences enrich the Earth Council, these experiences bring the members of the Council when they gather together, to understand each other. In what are the objectives of the Council.

Bringing Peace, creating condition for Peace and at the same time, gathering the experience of the past to make Peaceful life for rest of Humanity and Man in Space. We have taught a lot in every aspect of the science, but the science of the Emotion, science of understanding, the feeling comes from within, comes alone within the Man, with his understanding and observing injustices and incorrect conduct.

No one can understand this, unless you've been through and no one can appreciate it unless you've been part of it. In so many ways, when we see the people who caused these kinds of injustices, the people who incite war, in so many ways have no Soul at Peace.

Many names we can mention, many names we can call who have been the cause of war, just for their own ego and their own satisfaction of ego. As Wayne said, the war it does not with a gun, it can be in any shape or form. And this is where we are heading for this is the target of changing the course. And, this is why in so many ways we exchange knowledge for Peace. The knowledge to bring Peace to your Emotion through the understanding of the work of the Plasma.

The knowledge of bringing Peace to the Planet, through disarming, through new knowledge, the armies who have no sense to exist. We'll strive, the Keshe Foundation work is heavily getting supported in the background by different governments and organizations and in due course, as we have asked them when we sit with them, we support them, to stand up in supporting the ethos of the Keshe Foundation.

There are those who would Love to be part of it, but they are scared of committing their Nation to it. My advice to you, as I know many of you listen as World leaders, as we are in touch with you and we have negotiated with you in times.

Sign the Peace treaty and commit your Nation, the rest is the fear which does not exist.

As I've said, we start teaching, more and more, in depth, about the knowledge of the Plasma and in its reality the Plasma of the Soul of the Man. And as we go deeper and deeper the teachings become very, very small in teaching. Because, even, for example last week's teaching, not many people understood the depth of the knowledge. The depth of the knowledge is very short burst of it, because it takes a long time for Man even to understand and grasp the concept of what has been said.

It is for us to make that difference and the difference doesn't come by one or two steps. We are making efforts and in the coming time we will show how the efforts will be gathered together to be...to be able to complete the process of Peace.

As we've said, we give both to the members of the Earth Council and the Universal Council to be part of these teachings and explain their position as a member of the Council.

Their job at the moment is sitting towards writing the book what we call the books or the message of Peace, the ethos of Peace for Humanity to come. It is not going to be written by one, as we said, but it is going to be written

by many of us. which each one of us with Universal language touches every language on this Planet.

Is there anyone from the Universal Council who would like to enlighten us? Rick, are you there?

(RC)... Yes... hold on just a second...

Hello, yes, I'm here Mr. Keshe. I see there's ...about six or seven people from the Universal Council here as a panelist. Perhaps one of them would like to speak?

(CdR) Hello, good morning, good afternoon. As we agreed we would take turns present, each one of us as a Council member and we are all working and we're all aware of how much and what can be changed. But, the achievement as Wayne just brought forward, is by sharing what you gain as knowledge, but might serve somebody else, when you see them in need. Or where you can give a given hand. It is all by, as Wayne said, "Maturing, even a tiny little bit just to walk away from violence, to walk away from pain, to walk away from hurting.

So, instead of keeping this as topics, last Tuesday platform, we used to convert and walk away from pain, suffering, because we all know it's somewhere at a point in our life, it exists. It is a point, where you mature faster than, when your life goes on a smooth path. But, we are all desiring that we have learned enough.

We are all yearning for that to be changed. So, we start putting our first steps into creating the path; How can we increase the beauty, how can we increase the joy?

How are we, as a pivot point, so important, that nobody is aware of, how we are connected with each other, one another?

That, when we position ourselves, that by us, making one slight direction in choice, in intent, we are automatically reorganizing, repositioning Fields all around us, but it covers the whole Planet. And this is what Wayne was trying to bring forward. If more people are aware that they are the finger on the position and they choose, with the correct intent, to maneuver towards that beauty to bring the beauty within yourself forward, to accept that, each one of us carries a jewel inside, it's just to go and find it, because in some parts of the World you cannot even look at yourself as a beauty.

But, we are trying to stimulate people, to go and to reveal your own beauty. And it is a part of us, somebody is good at teaching, somebody is good at taking care of other people. Some are taking care for sick people, some people are guiding children. When you are already in this kind of position and they're so many, even being a farmer or working in a factory you're there not only to serve yourself but you're serving the whole society.

Because, your part of something, that will serve somebody else. Even if you're making chairs or beds, or you're cutting wood, or you're harvesting or you're working in the farms. You all are part of serving something for somebody else.

So, it is an awareness which nobody brings to you, as you are already part. Now, how can we learn to bring it more in the open to be that kind of awareness, that when I go out and I bring my child to school, he will be part of a different future?

So, I already am that one finger on that energy, which makes the move to bring the child to the school, for it to learn in a different environment, to learn what is going around him, because it's changing so fast, that we can sometimes not even keep up, but then, making your child aware, that he's part of another part to serve.

Because what do we do, we... the first question we ask our children, when they start coming to a certain age, "What do you want to be when you grow up?"

Some of them say, "We don't know yet, or I don't know or I want to be this or that" And certain children are right on the dot! I want to be an actress, I want to be a singer, I want to be a dancer, I want to be an artist and usually, those children, which are already carrying this Joy and the target, they have already manifested these Fields, "I'm going to follow that path."

So, if you are already carrying so much...Don't think you're not important. Don't think you don't carry a jewel, but manifest it more, be aware more, when you put your clothes on to walk out of the door, as I said before,

"Each one has a different type of uniform, it's our clothing", but it carries a message, when you going to go from home to somewhere, you going to be serving somebody, you going to give somebody a hand, you going to be speaking to somebody. So, if you decide to go and step out, and be that pivot point of that Field, with the correct intent, to make it more beautiful, and be more aware that you carry that beauty.

Then, you are already going to change so many people around you. And Rick had a beautiful time, I don't know if he can magically bring it forward. And then maybe, even carry on in other parts of the teaching, that we are not just one. We are all connected, you change your position in your thinking, what you going to give to somebody, how you going to bring ... even a present to somebody else.

You know the Joy of, and the care, how you going to choose it, what color, these are all Fields of intent. And if you're aware of those Fields, and you, by your awareness, you can increase them, because then you really make more out of it. And, it's not so difficult to observe and say, "If I make that move", as Wayne brought so clearly forward, that tiny little change, if I make that, so, in decision in the morning and I walk out with the message of, "You know, I'm going to be the change, I'm going to be that pivot point" then your whole surroundings are already changing, and this is where a lot of people don't think, you know, we are not important.

You are so important, because you are part of everything else. You're connected to so many more, and it's that awareness. And then you connect the intent to it, you increase your Fields, as Mr. Keshe always says, "Everything is Fields, even you, are a walking Plasma Field".

It's just your skin, which is the container, because Jalal brought something very nice forward, He says, "What is now more important the chicken or the shell?"

And I said, "I will ask", and I asked Mr. Keshe and Mr. Keshe said, "They're both important because one cannot carry the other one without the other one, carrying the other one."

So, it was an indication of, you know, you're all important, because we're all linked. We're all in one, big, nice Plasma Field, we're on one big, beautiful Planet. And if each Knowledge Seeker can understand that you're such an important pivot point of achieving Peace by your own decision, every morning, every minute of the day.

Even passing the mirror and looking into your own eyes, which are your Soul, and say, "You know you are beautiful" you change your fields, you change your intent. And you will see, your day will go much smoother. And we're all learning, we're all on a path of gathering, like sponges.

The message, which I want to bring as a Council member is, "Go for the beauty, go for the Joy, increase the Joy of who you are, what you are."

Increase the Fields and there you go, that's Rick bringing these pivot points so important forward, you will see, as it was on Tuesday. He will place the magnets on the table, and now he's using only one finger. And you see, the finger is your Physicality, the magnet is, let's say, your intent.

Now, if you move, with your finger, your physicality, and you go ... (MK) Excuse me, Rick.

(CdR) Yes

(MK) You got to share a screen, we don't see on the main screen, please. Rick, you got to share the main screen ... Thank you very much.

(VV) Rick I think... I think I see your video open instead, can you try ... or you doing something else, there I see you're not spot it lighting it... I see, okay, never mind, we got it.

(RC) It should be okay there now, actually, right?

(VV) Yeah, we just couldn't see it on the main screen, but we got it now. Thank you.

(RC) Sorry, it wasn't spotlighted.

(CdR) Thank you so much, Rick, I know this is a very beautiful example, but, you know the main ...the main explanation about all this is, as Mr. Keshe said last time, he said, "My wish is my command."

And what was his wish? World Peace!

And he said, "I will achieve it, because it's my wish."

Now, if I can use Rick's finger on one magnet, and now Rick starts and let's say, this is Mr. Keshe. In his physicality, but with the intent, and the wish, of World Peace. Now, where he's placed on this board, all the other magnets, which are around, are all of you. We can put 1000 on it, we can put 10,000 on it, we can put the 10 Billion on it, but let's say, we just give you an example with a few.

Now, if this is on the finger, the intent of Peace. Now, the Fields are maneuvering, the intent is there. Now, whoever is already in the process of creating World Peace, will reposition itself, towards how Mr. Keshe is moving. Because, he's creating the Fields, through different levels. Not only by his wish, but also by bringing the knowledge. How to achieve it, how to apply it. How to share it, how to be aware of it. And how to increase it yourself.

Now, for you to understand, that you're all part and you're all connected, when Rick is moving this. Every single one is repositioning itself, a little bit, some are moving faster.

If I can give you as an example, Knowledge Seekers, which are very close, are moving much faster, you see. There is a continues moving, and maybe, if Mr. Keshe can explain this whole sequence in a better way, but, I as a Council member want to bring you forward, the understanding we are all part of a total. And if one starts, and all the others are connecting, and repositioning themselves, to go for the same intent, for the same wish.

"My wish is my command", for World Peace.

Then, each one will reposition itself, because it's a wave you create, of Plasma Field and this on this board, which Rick is showing, you cannot deny, that you will not move eventually and that's why Wayne is so correct. Look, how everything gets repositioned. And I wish we could work with a bigger board and put more on it.

But I know children, when they saw it appearing on last Tuesday, they were confused, because to them, "Magnets are supposed to go towards each other."

And they were going, they were clacking, and they couldn't get it the way Rick was presenting it. So, they had to figure out, at the same time they were listening to the explanation, that they had to change the magnets, for them to change the position of the Fields, otherwise they were continuously getting them on the fingers and it can hurt.

So, finally after quite a long time exercising, they managed to get the same setting as Rick. And still with Rick it can happen, that, when it's going too fast, but, when it goes slowly, you're all connected. So, the more magnets, which we are gathering, peacefully, by increasing the Joy and the pleasure of being where we are, knowing we are connected and increasing that intent, we are repositioning the whole planet, very gentle, very slowly, sometimes faster, sometimes slower.

But this, with this message, I wanted to point out, we are all connected, we are all-important, we are all part of it. Now it's to become aware, how you can create and increase, how beautiful you are, to bring your beautiful message. Thank you, for your presence today.

(MK) Thank you very much, Caroline. Any other member of the Earth Council or Universal Council who'd like to speak?

Leave those magnets there, Rick. I will show you something else, please.

Is there any... are there members of the Councils who'd like to speak, or do we close the session...regarding the Councils?

(VV) I don't see any hands up.

(MK) I think ... we learned a lot from the two sides of the coin, of the Universal Council and the Earth Council. We usually don't have much to say from the members of the Core Team. Is there anything from the member of Core Team who've been the longest, established setup, up of the foundation, W... how you see the progress in the years we've been, and how we progressed, as member of...

(AB) Good Morning, Mr. Keshe

(MK) You're not a member of the Core Team are you?

(AB) No, I was a going to ask, do we have the ... Persian... Farsi Council?

(MK) No, we had Dr. Parviz ...can you close your microphone, please? ... We had Dr. Parviz as a member of the Universal Council, who has been moved ... or accepted a position as the member of the Earth Council now, the Persian or Farsi language member of the Council, is free at the moment.

(AB) Okay, so if... if somebody wants to apply for it, I can do that. Yes?

(MK) Yes, I think you are a perfect candidate, but you have to go through the application channels.

(AB) Is no problem.

(MK) Thank you very much indeed.

(AB) Thank you.

(MK) Thank you indeed Azar. The important part of the whole work, is not to get carried away with the Emotion, as many groups have done and come and go. My work has been to create a solid base for Peace. By teaching first, sharing knowledge first, in bringing in many ways Peace to Mankind, in the small numbers.

I try to establish understanding of the work of the Plasma, that through technology, we do not create any myths, that there is something there.

Everything can be explained. Everything can be put on the table, and scientifically explained, that this time, Peace comes out of understanding, and Peace does not come out of sentimentality.

To do this, it's taken years, but in so many ways, as I've said many times, "the time, the date and the place," "was appointed, Centuries and 1,000's of years ago" as is like a Man, when you make something, you know you need. So many days, or so many weeks, or so many hours to cook a path. It would not be there, the minute, you put everything in.

The progress of the understanding, and the progress of enhancement of the Soul, of the Life of any entity has a duration, it is known, it is like a painting that every color has to come on the painting canvas, that the beauty of the final picture is seen, that it can be appreciated.

Human race has been down his path for a long time, different pieces of colors on the canvas of the Life of this Planet, has been added. And now, more or less, it is time to put this canvas in maturing the Soul of the Man and the picture getting completed, next to the canvas of the Universal Community, that you become part of a piece of a jigsaw, which completes more, and brings more to the beauty of the Totality.

In so many ways, we have to understand the process. We have to understand, where the knowledge comes from, and understand how, we are connected in a very strange way. I've done this, I've shown this before in the teachings, but what is interesting, is what is on the table with the magnets. I watched this to be done last Tuesday in the teachings, in the Tuesday afternoon teachings.

And, very strange, in most of my teachings, I used this but, not many people understand. But let's explain, add to the knowledge, or in the way, let's polish the knowledge, then we understand, how much, we are more connected. What you see, these magnets on the table, they all have a connection to the board.

The board is the Earth and its magnets are Men, you see them, how they're connected, very well connected. Rick, if you could take one of the magnets, and try to push, and see how far it holds, before the other magnet

moves.

Can you do that please?

Do you have a thicker magnet with you?

If you have a thicker magnet? Yeah, maybe on... That will do. If you can make a magnet stack of three? And, it's better with one. If you have a thick circular magnet, with two of them? It's much better than these thin ones, thin ones don't show much.

Yep, that attracts to each other. The ring magnets, you had in your hand, "whap" you got everything up. The thick... Rick, magnets you had.

If you have a couple of them, put them on the table. Yeah, and the other one. Just push it and see how far it'll take to move the other one?

Okay, just measure it.

Just... just go in that it...Just before it touch. Very slow. Bring it in the middle, bring it in the middle. Okay, just very slow, just before it makes it move.

Okay, no no, leave it, no no, no no, leave it the way it was, leave it on the...

Yeah, okay.

You see, it's about two centimeters, or one and a half, just, well I say two centimeters. If you put these rings to be the Soul of the Man, and the table to be the Planet. You see parts of the Fields of this Soul, in attaching to the Planet, has dictated its position of distance, two centimeters Because the Soul is still attached, it's still attached to Physicality and it's connected through the Field.

You look at that table, that white piece of paper, as just a paper. I don't look at it that way. I look at it as, that piece of white paper, is a combination of Gravitational-Magnetic Fields, which my Soul shares with it, and the other Souls shares with it. So, that creates closeness, compactness, because, we're all connected to this Planet.

This is the way, is that, the way it absorbs us and hold on to us, because of... not only our Physicality is connected to it, but the Gravitational-Magnetic Field of that, Atoms in that paper, are connected to our Soul too, which is the Earth.

Now, if you, just turn. You see the surface of the ring, which is stuck to the table. If you calculate the area of that ring. Is the... the amount of attachment of the Man, to Physicality of the Planet. Now, if you put the ring of it sideways, and reduce its attachment to the, the table. If you can stand it up, without holding it.

If you can stand? Maybe you put two magnets together, that it can hold it? Put two magnets together as one, then they can stand up. Yeah?

Get another two magnets, that they can stand up the same.

Your table is a bit slanted, so it rolls down.

Do you have another couple of magnets, the same?

You see, the distance has changed.

Can you put the two magnets again and measure the distance between the two, flat?

Now, you see, we're talking about much longer distances, less attachment to Physicality of the Earth. We move to three and a half, four centimeters, but we're still connected to this table, to this Planet.

This is our Soul, this is our Physicality, which is attached to it.

But you see... No, it's got to be the same Distances changes. But, what it'll be interesting, do you have another magnet Ring, magnet like this?

Did you have, no more?

Okay, keep it as one, that's good enough. Just put one, let's look at the one, it doesn't matter. Now you see, the distance is from twenty-one and a half to about twenty-six. It moved from two centimeters, which was more attachment of Physicality of the Planet. To, more or less, double.

But, what... it'll be interesting is, if you remove that Soul. If you remove that Soul from Physicality of attachment to this table, which is the Earth, now you see the distances. If you turn it on its side now. If you turn them on their side, you see... and the other one, you have less Physicality attachment, and you see, game changes.

But, there is another interesting point with this, is...

Now, move the other one up into the air. Just move up. Move the single one up into the air, and see how much more the distance becomes. The distance moves, increases. And, when you do the same thing, with the other magnet. Detach from the Earth, or from the table, you'll find out, the Field of movement increases drastically.

Because there is no more attachment to the table. There is no more attachment to the Earth.

So, if you understand the importance of this, then we understand, how our Soul works. How we are the detached from Physicality, in a different dimension.

What is very interesting, is...we see this in the Matter-State, but if you look at the ring, hollow ring in the center, that's the Soul of the Man, and the ring is the Physicality of the Man.

It's so much, the Energy in the center which dictates, the strength of the Physicality of the ring.

This is something which I've taught many years and a lot of people don't understand is that the energy, the master energy sits in the center of the ring, not on the Matter-State of the ring. That's where the Soul of the Man is.

That's where so much energy is absorbed that given, that give's the dimension of the Physicality to what it needs to be. These are symbolic, but in fact they are now far from the Truth. If you bring more magnets or fewer magnets, weaker magnet or stronger magnet they all interact, they have Fields to interact.

We dictate the position. We dictate what we were like to give.

As I've said, the Soul of the Man has a given strength which at that point, let's say the Earth from the Sun or a given position in the brain from the Soul creates the property, the effect, the manifestation of the Earth. And a same ray, in a different strength, further away from this Planet creates manifestation of Saturn or Jupiter.

The biggest problem we have is to understand where our Fields of the Strength of our Emotion dictates the Matter of Physicality of us, in the dimension of existence.

In one of my teachings, a long time ago, I explain something very simple and I go back to it today, because it'll make those who understand the science of the Life in Universe closer to understanding the Creation.

Man is passive, Man does not look deep enough into the reality of the existence. In our teachings, we have explained, that we're all for the first time understood that we are created out of Amino Acid which is a gaseous part of this Planet. But there is a very strange phenomenon.

The phenomenon is that, how did some of us decided to have a bone structure, arms and legs, some of us

decided to have a mixture of the bone structure and muscle, some of us, in conversion, decided to have no bone structure, some of us decided on the thickest bones to walk on a flat land and some of us decided to have some bones that we can swim, but we had to be very thin like a fish.

Why and what state of the Soul has created the desire of the manifestation?

Even though we all came from the same Amino Acid.

I put this question, was some time ago, to the agricultural teaching section and I saw it would not, it was not able, it was not understood the way I was... intended. Where is the Soul of a tree that it manifests itself in the Physicality of the tree?

We chopped the branches, we chopped leaves, but it still survives. We chop a finger of a Man by accident in any event he still survives, it's like a tree, but, where is the Soul of a plant?

Then, this teaches us how in the Space we have to learn not to look at the Physicality but find the Essence of the Creation. How come Mans hold his Soul above and he... legs and arms down to be connected to the Planet?

And how come the tree or a shrub or a plant embeds his Soul in the Planet? And it let its legs and arms move away from the Planet exactly opposite to Human race or the animals. Does the attachment of the Soul to the Planet which dictates this or is it the reality that the Soul conditions itself to the condition of the manifestation of the Fields within the Planet, according to what it needs to be absorbed?

Then, we have to ask a major question from ourselves.

In the science of the Space, in the science of deep Space where do we look for the Soul of the Entity? In the root of the tree or in the head of the being?

Why do we, very much, if we look in the structure of the Physicality of the plant's Life, we see the same?

The trees are like the Human body, have bone structure and they stand up. The shrubs are like a fish and herbs and other vegetation are like the worms have chosen no skeleton as such.

Then, we have to understand what is the function of the Soul in the manifestation of the Entity, in the structure of the Universe?

Why has this Planet appeared in the Physicality as it is in such a position in the structure of this Solar System?

Where, the Soul is the Sun and literally, if you look these Planets and their Moons are like the fingers, kidneys, arms and legs, which from outside, which the Man has not had the knowledge to look into this Solar System, shows an Entity of being.

Our physical structure as a Sun, as a Solar System is not what you think, shape of an egg. It has a feature and his feature, is very much according to what it has inside it. "I made Man in the image of myself."

So, when we see arms and legs, when we see trunks of trees and branches, when we see fishes with gills and flippers and everything else, this shows the manifestation of Physicality in respect to the Strength of the Soul of the Entity which is the Sun.

So, when Man moves into the Space and looks at the totality of the Fields of this Solar System, you see a Creature. We see Entity with totality of the length and the Strength of his Fields.

Do we look for the Soul of the Planet or do we judge it by its manifestation of its Physicality?

We have kidneys, we have hearts and we have liver but none of us is stick our head in another one's head to look what's inside it. We look what it looks from outside and this is what the scientific world and cosmology have

not understood.

In time we will look at the structure of the manifestation of the Entity of the Planet or a Star. before we reach. It is like the Soul of the Man dictating for the Man to have a finger, a toe and what color and what shape. There is no difference in the world of the Creation.

It's only Man who has made this restriction, according to his own intelligence and understanding of the intellect of the Creation. So, when... we see these Magnets, how they move, we see, if we could create a dust of irons, for example, on this board, we would have seen how the Fields changed these dusts.

If you put a dust of iron on this board and move the magnet underneath, that it can get the Fields but it cannot get attached to it. As many of us we've done, as children in a school, we see the Fields, some stand up, some go down, some spread, some take a shape, and this is exactly what is with our structure of our Life.

How do we plan it, how do we structure it?

How do we decide, now that we have detached ourselves, we are gaining the knowledge to detach ourselves from this Planet, how much will be attached to this Planet?

How much we are still part of this structure of this Planet?

This is part of what we need to understand, and this is part of what in the Totality, we have not understood. "I made Man in the image of myself."

So, now that we can control our own Soul, we understand what we put in it, we get out of it, what image do we would like to be seen... by the others, in respect to our Soul.

This is a Game-change for Humanity.

We always blamed and looked for the God to solve it for us. Now, we are the Creator of our own Soul. How would we like to be seen? And as I said in many teachings before, "Now it's us who decides, and not us who can blame." We don't need to be preachers, but to understand the Creation. And understand that we are part of this Creation.

And from now on, as we go into Space and we decide how we're going to manifest ourselves in a Deep Space, according to where we arrive. And now that we have managed to come to this point of intellect, why don't we do the change here?

Why don't we strive to make the change here, before we go?

Before we open the Space to Man, and see what these changes brings for us. Would all of us become blond, blue eyes?

Or would ... all like to be black and brown hair?

Would we all like to look Chinese or would all like to be whatever color, race and creed we have chosen to call ourselves?

Or, can we change from Chinese with a flick of finger, to a black man in Africa?

In many ways, yes we can. It's just a lack of trust in us, or the way we have manifested our Souls in our Physicality which has changed us. Otherwise, we have all this, in our hand.

As I've said before, "If we can do it outside, why can't we do it inside?"

Or, have we find a way of abusing the others from what we are doing inside, outside knowing, that we cannot abuse and the book is open. This is the mystery which Man has to solve himself.

If you are going to be looking different in Deep Space, and as, we all are born in different areas and we have

taken different shapes and colors, which means it's our Soul which dictates our condition, then, why don't we do it now?

Why don't we choose the path of Peace and become One Race?

The question is... "What do we have to lose?"

Or, the best part of it is..."What we are there to gain!"

As I said, "There are no coincidences in the Life of the Man on this Planet". So, it's the same in the Life of the Keshe Foundation. There are no coincidences that we get Wayne to become member of the Earth Council, at such a crucial point.

In a coming time, we will understand the reason. I know the reason. I was thinking about this... three weeks ago. Three, four weeks ago I said, "In the choice of the Earth Council, there is a problem."

I could see the problem. But, I could not, as a member of the Earth Council, do anything with it, because we cannot interfere.

And we saw the change. In less than a week, ten days, I saw the change and I clicked on me. "That was what I was thinking to wish because it needed a change and the change is there."

Because by... knowing the need and what is to come in what we have negotiated.

A position of a Soul like Wayne, becomes very key to our negotiations for Peace. When, in a way, four members or three members of the Core Team or Universal... Earth Council or Universal Council, sit on the same basis together, in negotiating for Peace with the World Leaders, collectively, we speak from the strength of experience and knowledge.

And this, is important to all of us. And this is important for the negotiation for Peace.

Because together, we can make that change. And together, we can make those who are war makers to understand.

A very nice butterfly. Flying detached but connected to attachment of the Fields. This is part of what we have to understand. This is part of what we, as a race, has to gather. To be able... to be able to understand the need...and to be able to understand the position. If, any of us understood the talk in past fifteen minutes, twenty minutes...you have walked the path of Peace.

You have created the condition for Peace within the Soul of yourself, which then, it reflects to the others. You can see how easily, now, that you are all educated in the knowledge of Plasma, can connect, work of the Physics, work of the Universe, work of the Soul of the Man, work of the understanding the knowledge of the Universe so easily to each other... and enjoy and rejoice their existence.

But at the end...what would you like to be manifested yourself as, now that you can change your Soul?

Would you like to walk out of the room and come back in, as a Chinese because everybody's Chinese in the room, that you're all the same?

Or, would you... would like to go out in the other room where everybody's black in color and brown in eyes?

And would we all, the Chinese and the Black, walk in the room where there are all blue eyes and blonde and nobody knows the reality where we are from?

The Physicality of the Man is a chameleon of the Soul of the Man. It's the Man who has to decide how it manifests itself. And in a very short time, going into Deep Space we will see how good a chameleon we are. Because, while we think we are the prey, we get preyed on, if we do not understand the work of the Universe. And we only get preyed on by another man, not by the members of the Universal Community.

Because, if you don't change our ethos, if we don't understand the work of Life in the Universe, we do not see that, what was a Man has converted to a lamb and we hunted it, is our own brother. There should be no fear of mistake if we understood the Ethos of the Universe. Because, we do not make a mistake.

I explained this in some of the teaching, private teachings, and I bring it out for a lot of people to understand WHY Man needs to understand and in a sentence, couple of minutes ago, I explained. Now, that Man has gained the knowledge, that through his Soul, can manifest itself as anything else. And let's say your son, or your father, being pure in the Soul decides to understand and experience the Life of a lamb, and you become the hunter.

And at hunting, you realize you hunted your own son, your father, would you eat it?

It's a harsh way to put, but it's a reality of what will come to the Man, very soon. As some of us become pure in understanding of the work and become controller of our own Soul, then as Man by his habit, is adventurous we will like to know how a fish feels, and then we get hunted... and get fished.

Would you like to come at the end of a hook and says, "Stop eating me I'm a Man. I'm just testing?"

Or, you can never be caught because no one is in the fishing business to kill another animal?

Move this into Deep Space. This is the essential point WHY we have taught this way.

The message of Peace is preservation of Man from his own pain in the future. In Peace of mind, in Peace at Soul, in Peace in the environment, we do not touch, to use, to harm. And then we understand the reason why.

Teaching this way is the only way that the Man in the future will change the course. It is not by punishment but by understanding, "I cannot be the one who harms another."

"Not me, I shall not fish!"

Not fear of that fish might be my son or my father but if I don't fish I cannot be fished when I test it.

It is the trust in the structure, it is a trust in the environment we are. Shall we be stolen from or we can trust nothing will happen?

I give you an example, very strange examples.

Sometimes ago, some of the Knowledge Seekers came to see us in Italy. And, while they were with us, in 2 or 3 days, they got robbed 2 - 3 times, everything they had, and they know who they are... when they listen to the teaching. They got robbed while they went to buy something to find a thing, and they got robbed again!

And the answer was very easy. "This is Italy, everybody steals."

A few days ago, I was in another country, and we were passing. There was a shopping basket, a trolley, with full of everything you can imagine in a household; drinks, vegetation, vegetables, everything else. And this cart was left in a car park near a lift. We went for a coffee, we went for whatever, and we came back sometimes later. The trolley was moved to the side that nobody... it could not go anywhere but it was still there! Not a single piece, as I could see, because I went, I opened the bag before I go down because it was very strange, who left this bag by the lift, this trolley, maybe a \$100-\$200 of shopping in it, on the middle of the car park by the lift, by the staircase? Nobody touches it.

Came back... still there!

I presume if I go back today it'll still be there too, as well.

Is an Ethos of our own trust in our own Soul? In Italy, they go to work to rob. That's a well-known fact. People work nine to five to steal. And then, end of the day, whatever they stole is their... income. In the other part of the ... World, people don't steal, even if it's there, they can take it.

Because, is not theirs, they have matured enough. Is that maturity in the Soul and trust in our manifestation of Physicality which is needed by Man, across this Planet, for the whole Totality to switch!

This is what we need to understand.

And then, would we like to still manifest ourselves in a car park where we can trust nothing will be done?

Or would you like to manifest yourself in South of Italy, that the minute you stand still, you are robbed?

The problem is, how we've matured in understanding, but not out of fear of punishment?

And, the same will go when the Man goes into Space. Go deep inside yourself and look for the strength of your dimension in understanding. The strength of your own Soul, the strength of your own Ethos and then see what is the next step.

Then, if you understood and you can stand in front of the mirror and change the color of your eyes from blue to brown, or brown to blue, and then still be of the same Ethos, then you have matured to take into Space.

As I said, "We do not teach anymore", we do not... never taught...but... as messengers we inspire for Man to find his own strength, not weakness!

And this is the job that, more and more, in the teachings we direction to. Because as I've said, "You all know how to make GaNSes" And many of you have learned how to make a lot of other things with it. Now, you understood the Fields which come with the GANSES, you understood the interaction of the Fields, which is the Creator of the Soul.

And now... how you're going to manifest the Soul in different dimensions as you become the passengers of the Universe.

Or, do you still need to have a system to fly to confirm that you understood the field's interaction that next time, I might go from my Soul. Because I still, I'm not sure about the Fields yet. I have to see something that I can fool myself, I can still see Physicality. Something flying to confirm to me, I'm right with my Soul.

Next time, I try it with my Soul.

Any questions?

(AB) Mr. Keshe?

(MK) Yes, Azar

(AB) ... May I say a few things about the Peace, and then ask a question?

(MK) Yes. You have become more or less a teacher for... out of a student, Yeah, so you can.

(AB) Okay. Thank you. ... Because you know, we were talking about Peace, and ... I've been listening, and... we talk about conquering the Peace, how can we work to get to Peace. And... we are dwelling on it, how we can achieve it. And then, I was thinking, you know, just ...One day, I was looking at the water. And I saw, water is so peaceful.

And then I realize water doesn't have, maybe don't, water doesn't force anything. Water just allows. I mean, when it moves.

If I make an example, like I was thinking, if you have...If I was looking at a piece of land, and on the other side of the land, I make a hole, and I'm standing on this side and I take a... a bucket of water. And before I throw the water, I take ... a few pebbles, put it there, another place I put a couple of rocks, another place I put sands, another place I put salt, I put different things, maybe piece of wood. And then I put this bucket of water, a pitcher of water, start from this side, and let the water runs.

And when you look at the water, you see it goes to the pebbles, and then, it goes to all the crevices, fill up all the pebbles, and then moves to the next. When it gets to the rock, if, is not too much water, is ... stand there. And it fills around it. And then eventually, you see it goes around there, and goes after that, on the other side comes out. When it gets to the salt, I see like there is satisfies the salt, it melts the salt and then moves. And finally it gets to the destination, which is the hole.

And then, if you put, like a lot of water, the water goes above the rock. So, the water never makes any hole in the rock. It never hurts the rock, it just tries to find a way to go to it. So, it's very peaceful and if we do like...we look at the water, when water comes over our homes, we look at it, is not Peaceful, but actually it is Peaceful. ... But it shows its ... strength. So, if we look at ourselves, you know, each of us has a Soul and our Soul has a strength.

So, if... if each of us finds the Peace within ourselves according to our strength. Then, everybody becomes, a Universe, becomes Peaceful. Because, like, we're not about...we are not the same.

For example, sometimes I have to be the... shaper and sometimes, I have to be the one who is being shaped. Sometimes I have to be the... receptive and sometimes I have to be the creative. So, depending on what ... comes to my life, I have to keep doing what is necessary, according what brings Peace in me. So, it has to do with the strength and the...the, what is really Peaceful.

And now, my question is this.

... We talk about ... Joy and live Life with Joy and ... stay with Love. We talk about it all the time we, at the same time we talk about detachment from physicality ... detachment from Physicality.

Imagine if you live on a street, and next-door neighbor, your neighbor, is a carpenter. And every day you pass by his shop and he lives the same place, he has a wife and two kids, and you see this man, nearly every day. He sits by his desk and is making this beautiful furniture, he loves doing it, and he makes a living. He has a beautiful family, he's sharing his Love with everybody ... so he's... he's perfect, he's peaceful. If you knock on his door one day and you ask, you want to tell him, "Detach from Physicality", what would you tell him?

(MK) Very easy, what have you taught him?

Because, by going to his door, you haven't taught him anything, what you understood more. He has to understand that there is another position, there is another dimension. Then, you give him the choice what he can do. Because to him, that's all he knows. You haven't educated him.

(AB) So...

(MK) The question's...

(AB) His... his Joy is in Physicality then. That's all he's...

(MK) No, because that's how has been up to now for him. But, if you enlighten him to understand his Soul, would he make the same furniture? Or would he change the furniture he makes, that he embeds the Soul of the wood in it?

You remember, go back to... what I always thought, and I was talking to couple of Knowledge Seekers this morning and it went through my head. "They are so, concentrated in trying to achieve lift and motion, that, in the whole process, they have forgotten the Ethos of the work."

"Can I have your blessing, to be able...to be able to see the pleasure of flight?"

The whole target for them, is just to build a system, that it flies. In a very short time, Keshe Foundation will show the Flight System, it's done by the Knowledge Seekers. I'm just guiding them, because it's time to show. But, one thing which I do not see, is blessing of Soul to the system. I give you my knowledge, for you to fly, that I see the beauty of the flight.

You have, you cannot make a butcher out of a carpenter. Unless you teach him the art of butchery, how to cut

the meat, how to do it.

You cannot show a Man, how to become an aircraft builder when he's a carpenter, unless you teach him. You cannot ask, knock on the door and says, "What are you going to do"?

You have to teach him. For him, not only because you taught, you have to inspire him, that he understands the essence of the Soul of the wood. Not his own Soul, because then he creates different thing. Or would he ever touch a wood, because he understands it's an entity?

Or, will he respect it that, "What would you like me to show you as?"

It's a different way to look, and then you find out the carpenter's inspired. Then, he can make a difference. In his life, in respect to his Soul and his life. Not every Man on this Planet is looking for a change. Because, this is what they accept it to be.

I was sitting in the restaurant with Caroline, very recently. And, she said, "You know Mehran, how many of these people across the other side of the World, know about their Soul, know about the teaching, how to be, and how much they can change?"

"Why can't we reach them?"

I said, "We already have reached them, because we speak their language through their Soul." It's the way we have to look at it. Can we inspire or have we forgotten how to inspire? It is the understanding of ourselves, which is the problem. Not them. How much we understood and how much we understand?

This is the problem. What do we expect of ourselves, and how much we think we have learned that we can teach that, by teaching, we let them to inspire themselves?

As I've said, very recently again, "A lot of scientific world does not like the way the Keshe Foundation has gone into teaching of the science, into operation of understanding of the Soul of the Man."

Because they haven't matured yet. They don't understand the whole purpose of living, is to understand to live a Peaceful life and, through it, to understand their own Creation. And, this has become and is becoming a bigger and bigger problem for the scientific world. Because now, in their level, they understand the change but, in their function, in their Life how can they match it or change it?

So, we see the change, we see a lot of people around that want to be, like to be, but, they cannot be, because then it does not work with what they completed themselves in their knowledge. The, the depth of the knowledge transferred in the past, especially 6 - 8 months, it's so huge, that will take Humanity centuries to unravel. Everything is needed for Man to achieve Peace on this Planet, is on the table.

And it's literally one word, it's the Soul of the Man. It is the existence of the Soul of Man.

And, we have not managed to teach that yet the other Souls. Because, they do not want to be detached from the table of Physicality. Any other question?

(AB) Thank you Mr. Keshe.

(MK) Thank you very much Azar.

Teaching is not anymore about making MaGravs and showing GANSes. Now we have to look at the GANS of our own Soul and the structure of our own Physicality which has manifested itself to do it. Anybody would like to share ...knowledge with us or ask a question?

(UC) Yes Mr.... all... I am Ursula. I want to share something, please.

(MK) Yes, please go ahead. What do you want to share?

(UC) Every...about what I'm feeling. As Universal Council and as Knowledge Seeker it goes very far in

consciousness, what happening now. It's not about MaGravs or GANS and I feel it very strong. I have been in Rome ... the Universal Council meeting, the first one. And I hear from you the...that is a... a school of Soul. And... Sorry. And ... all this goes very deep in the heart as Wayne talk about his experience.

I was living in Argentina and the time of war with Malvine And... Falklands, and I lived many strong experiences. At this time, my mother was dead and I feel that manipulation system that we have forgotten today always here in Europe, where are living now from 42 years I was born Argentina, my mother was German She was schizophrenic, I was an only child and I heard from you, in private teaching, what is schizophrenia about And from this time my life change, because I forgive her and I love her now. My brother was Italian I never knew my father-in-law an Austrian. And I living in France now 42 years ago, have three beautiful boys, grown up now. And, when you talk about ethos, I don't know what ethos I have exactly. And, I feel I have a Universal Ethos, because I am everything and nothing really. And I can feel everybody, I can really feel China's and black and...

I have never been there, but I can feel it, because I meet here so many people from this Nat.. Nationality and a great ?assim? And, when you talk about Peace, once we know who we are and what we are doing on Earth and we feel that the most important is to have our own Peace inside, and feel it really. We are... we are all attached, to families, to our lands, to our... our political problems, even now with all these vaccines. Here in France 11 and... and 12 in Italy, it's... it's a very scaring But, when we talk to people and we feel that they...they are all waking up now it's... it's is very beautiful to see and that we can grow in this Foundation, I thank you so much. Because, I was learning for many years all own development and I am Naturopath have my... my own website I give it for free information there are 500 people coming on and, of course, Keshe foundation has its great place, and we can only be ourselves for reach this.

And that Peace we are wishing now, we can feel it and we can shine, only being. And, I know we can do it without competition when we can give it all to others. We are inspiring... inspired and we can be inspiring for others. Only with our beaming... being. And, really, it's a feeling, freedom feeling, so big one and so great and we feel now that we can... we can reach it. And really thank... thank you so much, you and Carolina and all those who are participating ... and the Core Team I knew Universal Council and I really so proud to be and to participate. Thank you very much.

(MK) Thank you very much. The closest for us is ...very much not sharing knowledge in the verbal sense but sharing the... the Peace that, through our Souls reaches the others. Very recently, I saw a change, but, the change is so huge, that the people who want to create it through the Keshe Foundation work have gone into a panic, it's a literal, physical panic and, they know who they are and my message to them is very simple.

The only people who need to panic are those who have kept everything the same as the past. Those, who are the men of power understand in the Ethos of the Peace and they have found that Peace within themselves by creating for their Nation's every move will come and will bring another fruit of Peace. We should not be afraid of it, we should be proud of it, that we can be the Peace makers.

When we speak about what I call, 'beautiful people', we have to understand something very strange about these people. And is...When one dies Or the Soul removes itself from Physicality does that force the other Souls to leave too? As the collective of Souls was the creator of the Physicality.

You got to understand. A Human body, as I call the whole 7 billion of us, plus billions of the other creatures within this Planet, we are like that schizophrenic condition, or what I call, 'beautiful people'. We are all beautiful, but we are all part of one Soul, which is the Soul of this Planet. It has a heartbeat, and it's got a 'Soulbeat'.

And that beating of the Soul of this Planet, is the beating of the Soul the Man.

When one of us leaves the Physicality, in the dimension of the Soul of this Planet, does the Planet die? Or uses our Soul as part of its structure, to show itself more beautiful and free?

This is a question for a lot of us which we have not answered. And we cannot answer, because we ourselves, are not aware of Totality. Because, when we face the Totality, it is so beautiful that we ask one question, "Why?"

Simply, "Why?"

Why we have killed so much?

Why we have destroyed so much?

Why we have created so much mayhem?

When would we mature? OR can we mature that we mature the others, that through their maturity we achieve Peace within ourselves?

When I see problems that...what is on the horizon, and what is to be done and what is done to create wars, I look at one thing. Where have I not reached? I don't look at it as a failure, but I look at it that, what these people are there to learn, from each other and from the process.

That you'll bring a lasting Peace that from it, from now on, they don't need to do wrong. We don't pick on Nations as the Nations don't exist anymore.

We go through the Soul of the, what I call, 'Universal Council members' and the others, to reach. There are a lot of changes around, and very good ones. My wish, is to achieve the first steps toward World Peace before the end of this year. And, we are on track.

I know there are Souls who work in that direction, and they'll bring the first steps. To achieve Peace, there'll be a lot of cries by those who think they're going to lose a lot. It's the situations which we see which changes us. And we do not like to change or see changes which, because of us has been caused to be and causes suffering to the others.

In the past few weeks I've withdrawn quite a lot, from work around the Foundation, because I could not understand how, something which is so wrong is done to ...create such a mayhem in Humanity, has gone further, in taking life of Humanity.

I don't look at it as a failure of the structure of the Soul of the Man. I look at it, as how much more Man needs to mature. What direction do we need to inspire that becomes that sparkling, that the rest will ignite?

The problem is ...continuous affirmation of violence, at this moment, is the biggest problem. How, very few television channels have taken over the Peace, not to be there. Violence has become the pattern of the politicians, through their work and through their talks, and through their actions. And the others are afraid of how these violent World leaders will react if we react Peaceful.

My message to World leaders are very simple. I know you are listening, and know exactly who we're talking to. Do not be afraid of the reaction to the Peace, be Joyful of what it'll bring. I made my wish in my writing. That the World Peace Treaty, to be taken on the floor of the United Nations to convert United Nations to a Peaceful organization.

This is a cornerstone of Peace. It has to be done. And the structures have been set for it to be done, and it shall be done, with or without these World leaders. Signing of the World Peace Treaty by one of the World leaders is a cornerstone of the start of the World Peace. And those who listen to and understand exactly who I talk and what I'm talking about is...take the course and sign the Peace Treaty. And that'll be the beginning of the World Peace as we all dreamt about becomes a reality, and the Man will find his Soul.

And the whole process will come, that through this Peace, those who have not been inspired will have and reach time to inspire themselves, to understand their Souls. Because, the time and the position created by the World leaders will allow Man to mature very rapidly in matter of months.

My request from the World leader, he knows exactly who I'm talking about. Is, Your Excellency

please sign the World Peace Treaty.

Your team and our team have agreed on the wording. Now is the pen. One of the problems with the World leaders is they're afraid of consequential response by the others. But, in so many ways the other World leaders are scared to do it because they don't know what'll be the reaction by the others as they all need this.

We need ...not one to start. The process has already started. We need the beginning of the end.

Any other question?

(BB) Hello, Mr. Keshe?

(MK) Yes, Jalal.

(BB) Actually this is Bonafice, a Knowledge Seeker from Huasna California.

(MK) Oh, you sound like Jalal.

(BB) Okay.

(MK) That's me I ... do apologize.

(BB) I take that as a compliment. No problem. ... Again, thank you for everything you are doing for Humanity, and the leadership that ... you are demonstrating here. ... You mentioned that the, the Councils, and in the Core group and the teams that are working on the books, and considering the subject we've been talking about ...Peace and beauty, I created a, a picture, a very basic picture. ... And I sent it to the webmaster ...because the, hopefully the, the Council would maybe consider it, and incorporate it in, in the cvc fit. By this ... I affirm ... Peace, as I've heard you describe it through the many ... teachings that you have given so far.

... The middle of this ... picture is ... the Universal symbol for Peace, which is a dove, and I've identified about 6 main branches that speak to this subject of Peace. because ... even though we are very concerned about war and aggression and those kinds of things, ... that is a component of Peace, you know, absence of war, and all that goes with it.

But, you know, elevating Souls is also Peace and verity is Peace and unconditional love is Peace and sharing knowledge is Peace and things like that, so, I've identified about 6 main components that I've heard you describe, and they say a picture's worth a thousand words. And I thought ...if you look at something like that ...you'll be mindful, there we have a comprehensive ...sense of this Peace we're talking about.

And there's room to add some more components if we identify them along the way, so. I just wanted to point that out and ... share that, and hopefully the webmaster can get that to you and ... everybody else want to consider, perhaps you can ... improve on. That's all I have for now. Thank you.

(MK) Thank, thank you very much. As you know, these things now are in the hand of the, the Councils. As ... they decide in how to take shape, and what to, what they want to see, in what shape or form. Thank you very much for your input, and I'm sure ...the webmasters will pass it on to the member of the Councils, and there discuss it, in their weekly meeting. There are hours of work.

(BB) Thank you.

(MK) Thank you very much. There are hours of work, it's going into setting up the Ethos, and the work of the Foundation. And ... there is a lot of work, which's been done. There's a lot of work getting done by members of the Councils, in continuously making sure that they achieve what is needed by everyone that we can reach ... this position.

(BB) Thank you, again thank you for everything that you're doing.

(MK) Thank you very much.

(RC) ... Jalal strangely have, did has his, did have his hand up, and I promoted him to a panelist, did you have something to say Jalal? He might be busy...

(JG) Yes I have, but now it's very disturbing...

(RC) Not the right time?

(JG) Yeah not for the time, in 5 minutes so... thank you.

(RC) Okay, good. ... Mr. Keshe I also had a notice here from a Pete, who is the Universal Council for Polish, and ...he says he has a 10 or 15-minute presentation with slides and so on about the topic we are talking about today. Is that something you'd like to ...

(MK) Have you seen it, that there is no copyright material on it?

(RC) ... no I haven't seen it so far as I know but ...

(MK) Can we check it?

(RC) ... he says he's...only has like 30 minutes, then he's off to a meeting and that was a few minutes ago...

(MK) Yes but, but that we have to understand, if he can send it to you we can show it next time? We are very, very, careful in showing, we appreciate the time you put to these presentations. But, you have to understand that unknowingly, sometimes there are infringements on to copyrights or other intellectual rights or cop... main mut... rights.

(VV) Rick?

(MK) Yes?

(VV) I was just going to ask if this ...document was shown during the last ...Council, as he is a member of the Council.

(RC) I'm not sure, he says he's going to send it to me now, but I'm not sure if I'll be able to look it over.

(MK) Okay.

(RC) There's 8 slides apparently.

(MK) Can you check if there's no music with it?

(RC) Uh-hm. Okay I'll have a look at it, yeah. ... Now we had a question from Trevor in the Livestream, perhaps we can address? ... He says if, if prayer is the attitude of gratitude, and I want to know who we talk to when we talk to the God-source? Is it a conversation with our own Soul, or the Soul of the Universe? Or is it all the same?

(MK) It's all the same. Depends where you want to bank it. Do you want to bank it in the branch, or do you want to bank it at the head office? The interest pay is the same.

(VV) But the initial deposit could be different?

(MK) Depends what you put in. For those of you who don't know, or we can repeat, a number of Core members are continuously are always present in all the teachings. And we have their blessing to be with us, they've been there, they stood us, the strength of the Foundation in the background and with the Foundation. Rick is one of them, Vince is another. And there are other members of the Core Team in the teaching. And in time, the 14 members of the Core team their Souls and the future selection of those whom they choose to be the members in their replacement, will continuously support and work in the same direction. They are 14 members sits in the Core Team, and in different ways and different times they have participated in development and of the technology and Spreading the knowledge. And we thank all of them for what they have brought on the table. Knowledge and what I call the cornerstone of Peace for Humanity.

(ME) Can we invite the Galactic Community?

(MK) We don't believe in that one, but we allow them as Universal Community to join us, as we join them. The Man has to become wise to understand his own position, before he can go into the next step.

(JG) Good day Mr. Keshe.

(MK) Yes good day Jalal.

(JG) How are you Sir?

(MK) Still ... good.

(JG) Thanks God. Sir ... you just ... said before that ...the Soul and the lamb, it's, they are to experience this life. So, if I want to put it in one way, is that the same thing that I experience in one way, because, because we are all connected, in somehow?

(MK) What do you mean by...?

(JG) You Se... You said ..... if you killed ... this lamb to eat it ... and you don't know that this lamb is your son or your father or your, one of these Souls. So that, that mean ... this Soul it was before in a way in a Man, and then went to the, so in the body of a lamb, to experience something?

(MK) Yeah. What about it?

(JG) Sorry Mr. Keshe, it's a little bit noisy. I am at work, and I cannot speak now, because there is a lot of noise, sorry.

(MK) No problem. The lamb was symbolic. So, what it is in essence is, means, Man has to stop hunting and killing, for whatever they might think. I had a very, very strange experience with...this... the ethos which has been pushed around by some World leaders: "We have to create war, to create Peace!"

And to justify that, they have to create their enemies. And, to have enemies they have to make arms for it, that they can use it, against the enemy, that there is an enemy. But the... the reality is, what do these people get, out of creating this war?

Is sense of power is the field strength that we have to abolish, or overcome in the Human race, or in the race or any animals, or being on this Planet?

This is one of the biggest problems, which Man has to conquer. The strength of feeling of power, or being powerful, that you can do. Doesn't matter over ... animal, another person or society, community or whatever. Our biggest hurdle is to understand the measurement, of the strength of the field, we call it the 'shame', and we call it the 'pain', but the power.

This, if Man finds out, and can be adjusted, then we have solved, most probably ninety-nine percent of the problem with the Peace on this Planet. What is the strength of the Emotion of power? Each one of us experience it, through different positions and tests, and different conditions.

A world leader experience it in how we can change things, a teacher does it differently, a father does it differently, and so does a child towards his sibling, or an animal or something else. When we said there must be an end to the kingship, or leadership as we see it, that we are all equal, is to find that power strength, in the Soul conversion of the Emotion of the Man to his Physicality.

This is one of the biggest problems that the Human race will face in the coming time.

How to overcome?

The kingship, the power, that one is more powerful than another one, and has to exert it. This is one of the key problems and the solution to the World Peace. What happens if you elevate all the Souls that they get stuck at the level of the power, and all want to be king?

Or, we understand there is...then the step is much higher, the beauty is much... what I call, 'delicious' to see, if we look at the Totality of the Peace. I always admired one person, and he's been a pleasure to know, and to ... to

be alive when this Man has been alive. Is President Gorbachev. He... he is a Man who understood this. That, single Man to be a leader, is not worth for millions of people, to be kept in the slave. And he opens the Russian territory, to let people choose their time and the place what they want to be.

My son came to me a few days ago, and says, "Papa, do you know something? You know that guy who killed so many? There is a man who killed more than him. And nobody talks about him."

And I said, "What do you... Which man?"

He said, "Do you know who killed the Jews, he killed six million or whatever?"

I said, "Yes."

He said, "But, this guy has killed twenty million, maybe more, but they say twenty."

I said, "Who?" He said, "His name is Lenin or Stalin?"

I said, "Where you read this?" He said, "It's there in... on the Internet."

"I didn't know there was somebody worse than the other guy called Hitler," "who killed so many. But he killed everybody in one country, that many."

I stood still with the thought, that... How much fame we gather by killing? Who's killed more? And how President Gorbachev walked away from this killing. Being a President of one of the most powerful Nations, had no meaning when other people had to suffer, as him to be, but for him to keep. And, I have a lot of admiration for this Man. Always admired his audacity to make such a move, and with it, we have seen many others. He was cornered to that... to create a war. But by opening Russia he walked away from wars. And in a way, what was planned, did not work, for those who are hoping to sell a lot of war tools. But, in the background, he negotiated Peace with all the new Russian leaders, when the USSR is split. So, we have to find out what touched President Gorbachev.

What is that strength that one selfishness of power is not worth harming the others?

And, the others killed to be in the power, which has no power. If he would've done, most probably we would have seen, more massacres than... silencing so many revolutions across. But, he co... he understood, he fully understood, that Western World, has infiltrated through Russia, through different ways, and would have been a feeble decision to make, to fight it. And is better to let go, and then give the people the freedom they wanted, and he will... he will stay as one of the most admired leaders for time to come. Where his position of power, had no meaning when he understood, the life of the others, are more important.

How we sacrifice our Souls for the benefit of the others, is not sacrifice, but is the generosity of giving.

(JG) Mr. Keshe can I say something please?

(MK) Yes.

(JG) You know, you... you bring ... you bring me for...for one story, it happens in Iraq in the ... 60s. In that time, we have ... a president called Qasim. This... this man is ... when...when they killed him... he...he didn't have ... one dollar in his ... pocket. And he, even he doesn't...he didn't have a house. He ... he... he... when he died he was in ... rental house. But ... the thing here, when the ... the enemies the...the Ba'athi who ... killed him and take the rule from him. ... When they came to the ... to Baghdad, all... all the ... all the people who was with ... Mr. President Qasim and in the street, they... told him, "Give us weapons that we can defend. Defend you and defend Iraq." And then ... he... he said, "No single ... one drop of blood ... come ... to...to ... to helping me, I... I don't want that." And even the... the soldiers and the generals who were with ... with him. He ... he told them ... "Go out, please. They want me only, so ... you can go out." And, when the soldiers came and ...seeking for him, he went ... out ... to them and said, "Okay, you ... you want Qasim, here is Qasim. I am there, you... you take me don't ... kill anyone, don't harm anyone." But, the thing is that, he chooses not to be in... in war and not to be ...to... to kill any... any...anyone in Iraq. But the problem, after that, what this party, when he came to the rule.

You know how... how much they killed, and ...How... how much suffering we have, until now, from... from this situation. From this ... small ... maybe ... one hour of ... of thinking. So, is that because we need to experience this misery? Or, is that ... obey time for...for whole ... Iraq people? If you... if you... if you can answer that Mr. Keshe, I will appreciate it.

(MK) The point... we are not...we are not in the head of these leaders. ... I knew ... a President, he's not alive anymore. He's... He had to make a decision to stay in power, or be killed, or he starts a struggle in the country to get rid of certain powers. And ... he decided to leave, because he could not see his Nation to be divided or war within the small Nation. I... I understood when he stepped down and, in the long-term, I understood his vision of his country.

His vision of country was that, the Nation stays a Peaceful Nation and then we saw the guy, who came into power, literally ransack the Nation, the way he liked, as you've seen it in your country. But, in my contact with a new leader, new president and my contact with the old president, I saw one thing, the same injustices carried on, is just changed name. But, some managed to cover it well and the others didn't.

When, we see these world leaders, who take these kinds of steps, we have to see what they've done in the background themselves. Some of them did, for the benefit of the Nation, but some of them did for the benefit of themselves and their... their people around it. We can never judge, we can never understand, but what the end product is, that... How much did the Nation gain by them? Or, how much the Nation lost by their action? It is the process that, we have to allow the Souls to judge, not for us.

To what extent we can accept it or they can accept it themselves. I... I don't see any reason for ... power struggle to become a leader in the Nations, but, they have a different criteria, because they think they can change it. And, when they come to power, they carry on with the same thing under different name. ... We've seen it all the time and we see it currently happening in a couple of Nations. Some leaders fighting to stay, to be in power and, they claim to be a Peaceful presidents and heads. And some's who proclaim to be Peaceful presidents are killing more than anybody else can imagine.

So, which one is fooling us better, I think is the answer?

Or, have we become so mature that we don't, nobody can fool us, and we just say, "Yes."

(JG) Or... or maybe it's lessons for the...for the future generations?

(MK) What has the future generation learned from the situation in Iraq? From both sides?

(JG) Nothing!

(MK) Still carrying on the same?

(JG) It's worse.

(MK) Different names...This is what we haven't learnt. So, we learn, we've got to change the Soul of the Man, not the pocket of the Man. I remember, if you remember, they were chasing the sons of Saddam Hussein with trucks of gold, chasing them around Iraq, to find them if you remember? Where did the son's go and where did the Gold go?

(JG) I was there, I know that.

(MK) Pardon?

(JG) I was there, I know what's happening there.

(MK) Yep. Abuse of power has been part of the ...history of the Man, does not matter what scale. We have to sort that emotion of power, that...we are more powerful than the others, or we can do more than others. If we overcome that we have achieved Peace. But, as I said, "This I left to the last stage of Peace process." Because it means we are maturing to that point.

(JG) And I think... I...

(MK) Is no...

(JG) Sorry, I think you said it before, "Eye for Eye".

(MK) Is it? Would it help?

(JG) If we understand it, yes. But ... if we don't understand? It was... still I "ten for one".

(MK) Pardon?

(JG) If we understand it, yes, it will help. But, if we don't understand it, it will be worse.

(MK) What do you mean, "Eye for an Eye"?

(JG) Yes.

(MK) What would that help? What would that bring about?

(JG) That we...

(MK) Try the... 2,000 years...tried for 2,000 years by the Christians. It has made more murders than anything else.

(JG) Yes. Because we didn't understand, fully, what's that mean.

(MK) So, what does it mean, "Eye for an Eye"? What... what do we do now?

(JG) You stop hurting anyone. You stop killing any... you stop taking energy from another.

(MK) In a way, it's a way, but how we can mature it, is another thing. I... I was talking to a person, very recently, in past few days. ... They expect change in Physicality, because now they do not eat more. But, they don't understand, the change in Physicality it doesn't come by eating less, because I've used MaGrav systems or GANSes. It comes in the eye of the beholder, in what they expect from this change. It's very strange, they... they do not see. That's one of the strangest parts.

The expectation has not brought understanding. And this is one of the biggest problems around the Foundation. People are expecting to see something, otherwise there is something wrong, with the work of the Foundation and them. But, what is the strangest thing I can ask?

And I've put it to some people, very recently. "Now that you understand being around the Foundation, that you are responsible, you are the Creator, you are the Prophet of your own Soul, what are you going to do with the ones you haven't managed to become a Prophet of, because you haven't managed to control and you blame the others for it?" This is the biggest problem. Now, every single one of you has become a Prophet and every single one of you wishes Peace, but, why can't you convert the others?

Isn't it a Truth that you don't believe it inside you that you can become and be a peaceful Man, when it comes to it? So, [coughs] how can you do it? And believe in what you are doing?

And, still try to understand that I am part of it? Now, you all wish Peace. And, you all become part of it, you want to be part of it. But, there is one question you forget. "Now, I am the Prophet, I am the Messiah of my own Soul but, what can I, why can I not touch the others?"

This is your biggest dilemma, this is the biggest dilemma which sits around the work of those people who would like to be the Man of Peace and they find out, as I've said, "You all wanted Peace, now you understand you were waiting for a Messiah to come, you're waiting for a day of judgment, you're waiting for the final day that the Peace will come.

And now you see, it's you from the beginning to the end."

What happened to it?

This is the biggest problem for most of people around. Now, that they come to understand the work, that they are responsible, they are the Messiahs, they are the day of judgment. The day of judgment has come the day you realize, is your Soul which is responsible for everything and now you have to judge it. You start judging your own work, your own Soul, your own deeds.

So, now what's the next?

So, all you Messiahs, what is your Wish and what is your Command?

And what can you bring to the others to elevate them?

I have reached many millions and billions. And beyond this time, I have done it many times before. But, I know what the outcome will be, I can see the end. But, the end comes when every individual accepts his position and responsibility of his own Soul. That's the day of judgment, that's when you become Messiah of your own selves, your own Soul.

There'll be many World Leaders who would like to be in power but when you are in power position of your own Soul, nobody can be a World Leader.

Then we're going to ask for a Universal Leader, then we're going to look for the Galaxy Leader, then we're going to look for Unicos Leaders. We're always submissive to something we think it is bigger than us but we are the beginning and the end. This is what we have to mature into and nothing else. This is the point we find Peace.

(RC) Mr. Keshe there's a question in the Livestream that ... maybe you can help address in that regard. ... Trevor asks, "If we are made in God's image, does God have the same issue with greed, and if so then it is not God? For God created everything where does the greed in Man come from then?"

(MK) The conflict with one's Emotion and his Physicality. It's the conflict of the Man himself, with his Physicality. God owns everything, he possesses everything so he doesn't need to kill for it, to possess what he already possesses.

(RC) So Wolfgang asks, "Who is setting our filters that prevent the shining of our Souls and the whole Soul. Is it a malfunctioning brain? "

(MK) No, it's the interaction between the Fields of the Planet and the Soul of the Man. It's very much Field interaction and how it's been set to be. ...There is a very strange behavior ...which we become partially ingrained in our Emotion with it and that's the submissiveness to power, or submissiveness to accepting guilt. When you shake hand with certain Nations, certain Nationals, you shake hand with all of them the same way, according to the feeling and Emotion and standing, through the history of their Life. I have developed ... awareness that you assess the person you shake hand with, in a position into where and how their mental state is in everything else and you're 99% correct.

Different nationalities shake hand different ways. And different nationalities hide their weakness and hierarchy and kingship different ways. And different Nationalities, through the physical interaction, show their National behavior. Walk on the street and choose people by race, creed and color and shake hand with them. But observe how they hold their hand, how they give their hand, how much of their hand, how they position their hand.

And then, remember this and then, choose another man with the same structure, in a crowd, and shake hand with, 99% you get the same shake hand. Because, is the way of when we say, speaking a language through the Soul of language, we show our structure through our physical interaction, which is part of our vocabulary of talk. So, we accept and we have been brought up to be able for someone else to judge us or be ahead of us. Or, we think we are the head and we move on.

And it's the way, we have what we call 'Non-verbal language' which is a physical language, which is the same as

the same language. You shake hands with certain people, they don't give you more than the tip of their fingers. Then, if you'll look at the culture, you'll see it. You shake hands with some people, they shake hand in a specifically each nation and culture has a specific handshake. Or the feature of greeting. That greeting is part of submissiveness, but, being above or below of.

And this is the problem that we have to... to overcome. The power, the strength of the power through submission of Souls, one being better than the other, or the other. And how... because once we overcome this in Space when we come across any other creatures of the Universe, we stand tall the same, even so they don't see our Physicality, our Soul radiates that it has no weakness.

It's a lot to learn.

(IK) Mr. Keshe, can I ask a question, please?

(MK) Who's speaking?

(IK) This is Ioannis from Greece.

(MK) Yes.

(IK) Is it okay to ask a question?

(MK) Yes, depends if I like to answer it.

(IK) Okay [laughs] So, yesterday I've been chatting, with a group of friends ...about, in the instance of war starting. What would be the right thing to do, if you had to protect your family? And, I had ... an inner conflict on this one, because I'm not, I... I never want to harm another person, but then, if I had to protect my own family, I might have had to either walk away or harm another person. So, what is, what would the right thing to do, what would the right thing to do be, if you had, like to protect your...your children.

(MK) There are two ways to answer it, and there are many ways to contemplate. You can walk away in a different direction. Or, you can walk towards it and, in so many ways, understand what you do is correct, and there is a good result or a good outcome from it. I've been in that position many times regarding my family. So, I know exactly what you talk about, I hope. And, when it comes to protecting your family, there are two ways. You walk away from the structure, of what is set.

This is not cowardliness, this is a wisdom. "I choose the path of no conflict."

Or, you walk towards a conflict, and understand that my...my Soul understanding can convert the other. You sit, you look eye to eye. You know when, in very recent past, few years ago, they sent an assassin to kill me. The assassin came and sat in front of me, with a hat on. I knew he's an assassin, he's come to kill me. He looked me in the eye and I looked him in the eye. I had no doubt he's there to overcome his fear. And, when I consulted our advisers they said, "He's coming, he's come to overcome his fear, you were correct."

In so many ways, when he came to do his job, I wasn't there. Because, my Soul was aware of and, in a way, coincidentally, but, in a way, is Soul awareness, I was not there. I learned a lot from this, and in my second attempt on my assassination, in killing me, the guy sat in front of me for weeks, giving me poison. And I knew who is and how it's done and what he's doing. We've got to realize, these things go by the strength of the Soul.

If it's the time to ...leave the physical life, the time is there, you cannot change.

Is, if it is the right decision of the Soul, you have something to accomplish, you will stay there and you'll accomplish what you are supposed to do. The fear is the problem and, you don't need to...or to be, in any shape or form, afraid of dying. ... Because the death comes to all of us in the physical dimension.

When I sat eleven days in ...in the airport, and every day they said, "They're going to put a bullet in my head." I knew the guy has more fear than me, in him, than me, otherwise, he would have done it.

I've been in this situation a few times, because of the technology and nothing else. And, these people have more fear in them, than you have, and most of the time, it is better to face them, because in your Soul, you know you are correct. Or you walk away from it, because you make a decision that,

"I don't want it to be faced," and I've been in both positions. The inner strength in the Soul of the Man, is the salvation of the Man, and you have to know your Soul better.

(IK) Thank you so much.

(MK) You're welcome. Any other questions or we shall call it the day?

(RC)... Well Mr. Keshe, it's ... been about three, little over three hours here, it's up to you whether you want to call it the day.

(MK) Shall I call it the day?

(RC) Okay, sure we can do that.

(JG) Do I have a question Mr. Keshe?

(RC) [Laughing]

(MK) Do I have a lot of questions? I have many, many questions.

(RC) Now that was a good question.

(JG) Okay, give us one question.

(MK) I have many, many, many.

(ME) Ask one.

(MK) The question I always had is; Why does man see end of a life, to a solution for the problem he has? Why doesn't man stand the ground and worked it out?

(ME) My parents taught me that I will understand stand everything when I die. And that's incorrect. I will understand it much before that, and we don't die.

(MK) We never die. This is one thing I don't understand. People walk away from a lot of things, or they destroy a lot of things, not to face it. But what about if you stand a ground, and see what comes up? How, what is the strength of you not to fight it, to change, but, to understand; why people kill, to see a solution? Why do so many world leaders or when is, are People see killing something else, is the answer to their problem, solving their problem?

(ME) They truly thought that an unfair advantage was acceptable, which it is not. If you have a unf....

(MK) What you call an... What do you call an unfair advantage?

(ME) An unfair advantage is power over somebody, or greater, something that you'll stolen, in order to... perceive you are better. But that means...

(MK) You can survive it.

(ME) No, what?

(MK) That you can survive it?

(ME) It's greed.

(MK) I, I met, I was spoken about this before. I met a woman very slim, very thin. And, she had a sister very fat, extremely, extremely oversized, if I can call it. And, she was telling me about that, they were both abused from age of four or five. And, I explained to her something very, very simple: and that was, more or less, the last on I saw her.

I said, "The reason you stay like this, thin", was this and this, "and the reason your sister is fat, so much", is this and this. And she said to me, "Mr. Keshe you're the first one who understood my secret," "and you are correct."

So, each one of us, under the same condition, we take steps, different decisions, and we accept it, we use it to survive, or we fight it to reject it and to survive too. At the end of the day, what is acceptable to us, and what can be acceptable to us, counts. But as long as it's not a power play, because she understood, she was playing power game, and nobody ever understood that. We all play one way or another. Is us, for us to understand the process, which is important, and then we can graduate with a, what I call it, with the 'right understanding'.

The Soul of the Man, is present even in the absence of the Man. Because you are connected by Fields to the others. And this is what most of people have not understood. We always look physically to be present that we can hear. When you come to my stage, in my level and most of you are reaching that level, you understand, you do not need to be there to have the ear to listen. But the Soul give you the information you need to know.

And Souls never lie.

Any other question or shall we call it a day?

But, find one solution in your Soul, as you ask me what's my question.

What does make Man to see killing as solution for his survival?

Not necessarily another Man, a plant, a tree, a fish, it's all the same. It's us who's put different value it to justify our existence.

(ME) How does greed ensure survival?

(MK) Is there any survival in greed?

(ME) Not really.

(MK) I think you answered it. Thank you very much, we go out as usual with the music. And, thank you very much for Rick for all these beautiful shows you put in the background.

(RC) Thank you Mr. Keshe for the beautiful show that you've been putting on for the last few years here of intense teachings every, every week. Everything came together here. Okay, we will ...play the slideshow as the ...

(MK) Thank you very much.

(VV) I think they've been just as dynamic these workshops, as those magnets you have on the table.  
[Chuckling]

(MK) Thank you very much. See you in ...

(RC) Okay let me get the screen share up here.

(MK) What would happen if you Nano-coat these Coppers?

(RC) Well actually, I haven't done that other than some of them start to turn dark after time and you have to polish them up to make them ... shiny. But yes, that's ... a good idea, that's something that needs to be done. We then have a rotating ... Plasmatic Field, rather than the Matter Level Field perhaps, so.

(MK) Let's see next week, I'm sure you're going to do it.

(RC) Okay, sounds good.

(MK) See you next week thank you very much.

(RC) Thank you Mr. Keshe.

(MK) Okay.
