## Notes from KNOWLEDGE SEEKER WORKSHOP 91

December 10 2015.

For a few moments on this workshop MK looked like he was turning into a crystalline form as he talked about the use of quartz crystal at the core of the magrav power supply

0000: Alekz is back with us today – none of you have connected his work with what is happening (with the magrav units) today – 2 strings of beads strung together in a certain way resulted in 1 (watt) in and 3 – 8 out!

0008: Gravitation /taking is always stronger than magnetic/giving...

0019: The Kf is not here to provide these power units – the Kf is here to take man into space without dependence on energy or food or whatever, and to understand the plasma.

0022: Understanding plasma by the principle of giving receiving taking stealing – if you have 2 magnets and one steals from the other it gets heavier and creates distance...

0031: Demo of working system at the SSI

0047: Everything on the far side of the stacker system is in plasma condition. So the nano coating of the home wiring creates a field just like the human neural system creates the aura around the human body.

0056: Instead of Gans balls in the creation of the stacker system put a clear crystal – then you have physicality on the bottom, emotion in the middle,

soul on top and because the crystal is transparent it will transfer energy to balance the whole lot. The point on top allows you to give – this will then allow the elevation of the condition of the soul of the man.

“Candles of Peace” as MK has dubbed them will link up around the world to change the soul of the man worldwide. The purpose is to unite mankind – not to give free energy – this power unit was the carrot that got the donkey moving. (Though if it gets jonkey – the NZ prime minister – moving we shall be very surprised!) The structure of the unit is the structure of every cell and the structure of the universe – from now on Peace is in the hand of the man.

0110: We take only the man of Peace into Space. In the New Year teaching goes in a different direction – we will work with the emotion of the plasma, will work on transferring energy. The Day of Judgment is here today – everyone will judge themselves.

0115: MK talks about an assassin who sat in the sessions on Monday but disappeared – MK prayed for his soul – now holding out the hand of peace to his friends in Mossad.

0117: Cutting the crystal and drilling – transforming it into a candle of peace. 0119: Question: How do we drill it MK: Find someone who knows – here we have Giovanni who knows everyone!

0120: Crystals with CO2 GANS in the center – deal with emotion and elevation of the soul of the man.

0129: I Am the Messiah and these are my Peace Candles!

(What does he mean the Messiah? Previously – see Book 3 THE SCIENCE MESSIAH – he said we are ALL Messiahs – he is just the one who knows the way. But also maybe he is drawing us towards knowledge of what the word really means – Messiah; according to the late Sir Laurence Gardner is derived from Messeh – ancient Mesopotamian and Egyptian rite of anointing the King or Pharaoh with the fat of the crocodile. This rite descended into the Tribes of Israel when they came out of Egypt via the Priesthood of Aaron – of whom MK (Mr. COHEN) is a direct blood lineal descendant through his mother – just like John the Baptist was in his time 2000 years ago – so he really does hold the RNA and the DNA of a

Messiah in his own time by the original definition...)

0130: Ali from Vancouver – has put selenite with his coils to access 5th dimensional consciousness and knowledge

0137: Put a coil on either side of a cancer – one will feed the emotion and the other one the physicality. Source of cancer is always emotion...

0142: MK sees Alekz nodding and agrees that Alekz beads can do the same thing – or small capacitors with a layer of aluminium that become batteries – then you are totally plasmatic

0149: In the New Year 100 or so people around the Kf will start showing the physical structures they are manifesting to find freedom from this planet – but first you have to find freedom in your own physicality and your own emotion and your soul – and you will do that.

0157: Remember the Kf motto: - We are here to serve and not to be served –

0200: Carolina queries whether we really need the stacker unit or the crystals? Can't we do it internally? MK: Yes, this is interim till you discover the position of your own soul within the structure of your physicality. Carolina adds that MK taught in the medical section that we carry everything within ourselves. MK: Very much so! Carolina: We just have to become One with ourselves. MK: If you become One with yourself you become One with others – you become totality of ONE. "I made Man in the image of Myself" – (quotes God in the Book of Genesis.) – In fact you're totally ONE with the creator. Carolina: You just have to accept it! MK: You have to understand!

0209: Alekz describes how he used bark of mango along with burnt plantain leaves to cure the Fevers of Malaria – he rubbed the ashes on his skin

0213: MK talks about going back to the ancient uses of plant medicine

0216: With the Gans of the medicine you can't overdose because with the

plasma you take what you need.

0211: In the center of your brain is a crystal that is the connection to your soul.

0222: a presentation of use of crystals with nano coated or gans coated copper coils by a fairy grandmother type from the piney woods of Oregon – she can feel the healing power of the field that is created – beautiful to sleep with.

0228: Question: Someone has made some CO2 Gans that appears to have gone into counter –rotating vortical motion and hexagonal forms. MK: You have created at least 3 different Ganses when you see hexagonal structure.. You can see the same hexagonal shape at the North Pole of Saturn. This is also connected with the structure of the skin as taught in the Health Workshops with Dr. Eliya Kostova.

0238: Deepens into how we take what we need emotionally and physically from the copper coils and plasma – In space we don't eat – we take our energy direct from the reactor.

0224: Demonstrates a CO2 Gans double layer cup that has been made by Alekz brilliant and it will work but it is flawed in that the way it is done to effect the kidneys etc it should be the other way round – actually should be upside down.

0250: CO2 and Zinc are good for erectile dysfunction. To get Zinc Gans it is either chalkish at the bottom or floating. Zinc and Calcium are good to add in with CO2 Gans for treatment of Alzheimers.

0255: A CO2 cup should not be shared – it is for balancing one persons emotion.

0257: So when you make your cups make them upside down. K+ releases a lot of energy – allows Calcium to go from bone to immune system – all the white cells have calcium (so seems to indicate use of Gans of Potassium and Calcium) Lymph carries the full spectrum. It is the intention via emotion that dictates the activity.

0318: Presentation from an Australian female about her use of ceramic cups MK says all the healing properties you need are in ceramic. (draws a pic of the earth with Fe+ and other metals in the solid state, and the atmosphere around containing COHN) Copper is the physical part and amino acid is the emotion – the original creation of life is from this emotion – CO2 touches plants, fish, animals, people...

0321: Thomas from Vienna presents some evidence that Google and NASA and DARPA have a quantum computer and they appear to be creating something like SKYNET. (a surveillance network aimed at controlling and suppressing any freedom or independence and creating a slave species or even trying to destroy humanity) MK responds that he knows DARPA and NASA very well – DARPA is the black money of NASA – DARPA has a budget of 200billion for 450 staff, whereas NASA has a budget of 18billion for 7000 staff. MK says WE have a greater intelligence with wireless interaction – Marko is building it downstairs – when connecting with emotion it is much quicker than trying to work in the physical

0324: Emmanuel from Austria: Says he spends ½ time building coils and ½ the time in meditation and mind training, is that the right combination? MK: You decide – the real intelligence is how much you're prepared to give unconditionally

0330: Last word. Watch out for the hooligans and the red circle – don't let them intimidate you – If you get interference just write "you are murderers". Use the technology to elevate others, to create a field of Peace. Our hand of Peace goes from Iran to Israel. Peace sits with you and the Iranian nation – with this tech we can meet anywhere you like to start the Peace Talks! Don't touch the coils if you're not sure they are fully nano coated or fully Gansed. (you could get electrocuted if they're plugged in to 240v) You only receive the energy if your intention is to Give.
