Transcript v1 from Amara subtitle file revision 7

The Keshe Foundation an independent non-profit non-religious space-based organization founded by nuclear engineer Mehran Tavakoli Keshe is introducing to humanity the Science of the Universe Plasma Science Keshe Foundation develops universal knowledge and space technologies that provide solutions to major global problems revolutionizing Agriculture Health Energy Transportation Materials and more. The application of Plasma Science in the form of specially developed Plasma reactors and other devices will give humanity the real freedom to travel in deep space. Plasma Science exists throughout the whole Universe. It is here and it belongs to you. Our knowledge research and development regarding the Plasma structure has progressed to the point of enabling everyone to participate in the process. Become a creator and understand the work of the Universe for the good of humankind on this planet as well as in space! The use of MaGravs Nanomaterials GANS Liquid Plasma Field Plasma and other Plasma technologies have come as a new dawn for humanity to progress and work in harmony with the Universe. Conventional technology applications are wasteful damaging and cause pollution to the planet and all living beings. Plasma Science provides solutions and improves existing methods and use of resources in all aspects that touch the lives of all beings. Plasma is defined by the foundation as an entire content of Fields which accumulate and create matter and it's NOT defined by its physical characteristics like ionization or temperature. Also with

Plasma science we understand how we can convert matter back to the Fields. Quoting from Mr. Keshe "MaGrav stands for Magnetic-Gravitational which means Plasma absorbs or gives. And every Plasma has the both it has give and it has take... And when they can't find the balance they distance themselves until they find the balance they can give to the others that they can receive what they want to receive and give further." Certain atoms and molecules release and absorb Magnetic or Gravitational Fields. Released Fields are available to be absorbed by other objects. The Keshe Foundation has developed a way to gather these free flowing Fields from the environment within a resourceful and beneficial new state of transitional matter which M.T. Keshe named 'GANS'. The first step of the process of the formation of various basic types of GANS is Nano-coating metals. This is carried out either chemically by etching (steam coating with Sodium Hydroxide) or thermally by heating (Fire Coating by gas burner). During either coating process gaps between the outermost layers of atoms are created. The residual coating is often referred to as nano-coating defined by the structured layers of Nanomaterial which build up during the creation process of the coating. Nano-coated metal in interaction with other various metal plates in a salt water solution creates MaGrav Fields. These Fields then attract available elements to form a specific GANS which collects and settles at the bottom of the container. This GANS is formed from independent energized molecules (like little suns) that can be used in various applications.

(RC) Welcome everyone to the 191st Knowledge Seekers Workshop for Thursday September 28th 2017 And I think we can hear Mr. Keshe opening his microphone there in the background and I think he's eager ... to talk about today's topic which is overcoming addiction issues ... Addiction issues came up in... as a question in the last workshop we had ... yesterday. And ... Mr. Keshe offered to ... talk about that today. So among other ... topics as well I'm sure. Mr. Keshe take it away please. (MK) Good morning thank you very much Rick good morning to you as usual whenever wherever you listen to these Knowledge Seekers ... series. It is nice to know that the teaching is expanding to more or less at least one day a week ... every day of the week except Fridays and I am sure soon or

later Fridays will find a place for more teaching that the Keshe Foundation channels are open to public every single day. This has taken a lot of time and a lot of effort and it's thanks to all of the members of the Keshe Foundation Support Teams and different groups which are working in ... in conjunction with each other around the World and we'll see new dimensions in everything which is happening around the Foundation there are number of things which as we come across we'll discuss today. One point which was raised in one of the teachings this week was about addiction and I said we can discuss this because I think we have become mature enough to understand how addictions can be ... can be thought of can be handled and how as a whole we can look at addiction as something of the past now that we extend our knowledge in ... different ways and understanding more of the work of the body of the Man. But as usual we start with the members of the Universal Council Earth Council and the Core Team if they have anything would like to discuss this week and what they will like to bring about what it is and what is about to happen. There is one point which I explained to a meeting ... and I have to explain it here. The... After the teaching of last week the question was "What is the position of Universal Council?" The Universal Council as we've seen is a connection between the Humanity and the Universal Community. And the job of the Universal Council become more apparent once we open into the space and once we come in touch in a way with the Universal Community. Then the Universal Council members are responsible for the men in the Space. Those of who take in deep Space and would like to or we come to a point or we need help will go back to the Universal Council members through their Soul. And you'll find out it'll work very fast very directly where it is. If you are Spanish speaking and you're stranded somewhere in deep Space or somewhere and you need help your best bet is that ... what we call... 'they need the support' and then they come into action with the Earth Council. This is more so for the operation of the ... what I call the 'Man on this Planet'. There is a lot of things happening around this. And then when you come to Universal Council you become both between the Universal Community and the Man in Space Where they are there when they discover something new you become the communication line. The members of the Council will understand their own strength and their own understanding in a more ... powerful way as

we start teaching and they... they find out the... the intuition the powers they carry with their Souls. And as I said each member of the Council receives so much support from the national speaking that they reach a point of reaching all. And this will become more and more powerful as a member of Council will start realizing their own strength in supporting and their own strength in being able to be there to serve. Do we have any members of any of the Council who'd like to speak today? (LM) ... Morning Mr. Keshe it's Lisa "EC" for Australia here. (MK) Yes "EC" means Earth Council? (LM) Yes and I'd just like to also open up a little bit about we're talking about addiction today and I think it's extremely important for us to start understanding how the Emotion ... effect our bodies and how our reactions and our perceptions of life in general creates the Emotions ... that ... that can sometimes hamper us in the way we... we live and our... our physical body. Because I just feel... this has come up a lot lately in the work ... I've been busy with. Helping some people with... with GANSeS and such and ... and ... creating breathing units and things like this. And many people that I've... I've given these technologies to find that one of the first things that happens is that certain angry issues come up in their... in their... come to the fore that they can look squarely in the eye and then release. And they feel mature enough to be able to let go... of the anger. That I suppose sometimes is very deep seated and deep rooted. With ... probably within all of us because we all had situations where we don't feel in control and ... we can't do certain things. And that brings up anger that we bury quite deep and... ... I think it's part of our learning process. How to deal with these things and for many years I've studied psychology and looked at different avenues and I always felt then there needed to be some ... some way that we can deal with our issues and... and as you said before look at things without sentimentality but still feel deeply. And be able to ... connect on the deep level with everybody around us without our baggage in the way. And so I'd be very grateful to hear whatever you have to say on these things about the addiction but also just in general about how we can help to clear... clear and clean all the Emotional baggage that we do so have attach to us from just living on the Planet And I know the GANSeS help to a great extent ... but I find it's not like a pull when it you take it doesn't take away the pain or the anger but it allows you to look at it squarely and move on from it. So that's all I'd like to

say today thank you. (MK) Thank you very much Lisa. ... Any other comment by any other members of the Councils? (RP) Yes good morning it's Rui speaking "UC" from Portuguese language "UC" means "Universal Council". And you listen me? (MK) Yes (RP) Okay ... I would like to ... just make some point ... as Lisa said ... our behavior ... can... ... we must free ourselves from the ... repeat behavior that ... emotional looks like ... and it becomes like an addiction. So if you can explain how we can make free from that ... and it... it's ... will be... be very nice. For because our thoughts our behavior way to do things sometimes they... they repeat themselves and works ... in our Soul like an addiction. So... what I want to say thank you. (MK) Thank you very much Any other comment? (RC) ... Ursula has her hand up maybe she has something to say. (UC) Yes. Good morning. (RC) Universal Council. (UC) Good morning Mr. Keshe. (MK) Good morning. (UC) Good morning to all of you. ... I would ... speak about fears. Fears addictions as fears also it's a lack of knowledge and... as I hear yesterday a video from Idriss in... in France. He talks about knowledge that it's a broken mirror. Some believe that they know it all but we are just starting to know a little bit of this all. And if you now start to study but you are studying here on the Foundation and there are so many other foundations and people sharing knowledge We can hear them and make our own decision to our own feelings and be very careful to be humble. Humble to what is coming and what we can do for the Universe to help others. Is huge amounts of help that we can done only with... with carrying our... our GANS helping others it's so important. And starting for us for our friends neighbors and all the friends we know. And they don't believe very much what they are talking but keep on stay on and... and make it and learn yourself. It's the most important way you can do. It's all what I want to do... to say. (MK) I think... Thank you very much I think the other two participants... you forgot to speak in your own local language or what do you call it in your 'national language'. (UC) Do... Should... should... ... I can do it if you want? (MK) Of course. Please. (UC) I am very glad to do it also. [Addresses the Spanish language community] (MK) Thank you very much. ... Rui if you would like to explain the same thing in Portuguese and if Lisa would like to address it in Africano which is your mother language. (RP) Yes it's Rui speaking. I can say in Portuguese. [Addresses the Portuguese language community] Thank you I just fin-

ished. (MK) Thank you very much. Lisa would you like to address in Africano if you still remember? (LM) ... Mr. Keshe I'm going to have to decline it was always my second language and I haven't spoken it for eight years ... so I'd probably... They'd probably laugh at me if they heard me. So... (MK) Doesn't matter ... you still can address (LM) They all speak English anyway. [laughter] (MK) But as you know Keshe Foundation South Africa is very big and especially... (LM) Yes I know... (MK) It'd be nice to address in your... in your what you call it 'native' language. (LM) Well my native language is English. (MK) But you can still address in Africano if you like? You can try. (LM) ... I gonna just say... I gonna just say "Goeie more" [Addresses the Afrikaans language community] So that's all I'm going to say 'cause I just said that I don't speak Afrikaans very well and I'll try next time to speak if I practice a little bit first. (MK) Thank you very much I understood more or less all of it. It's like Dutch. So it's very easy. Thank you very much indeed (LM) Okay. ... Is there anybody else would like to participate? Other members of the Universal Council you have to start understanding that you are part of this set up. Part of this change. And people who have... you taken responsibility for the Soul of conduct. You are responsible to share knowledge and what I call 'Emotion' with that you can build the bridges that in time of need there is there... You cannot stay silent and a few speak. Is twenty odd members of the Universal Council Build the courage. that's why you became a member of the Council to change things. Not just to be there as a number and a name. Any other participation? (PR) Mr. Keshe this is Dr Parviz from Dubai. Hi! (MK) Ah! Hello Dr Parviz nice to hear you. (PR) Thank you. (MK) Member of the Earth Council (PR) W... What... what about the social factors? You know in... in many societies due to ... social disappointments a lot of people ... are... are pushed towards addictive behavior or using addictive substances because there is nothing else they could do. And ... this is a way compensate the... the Emotional or spiritual pain they go through. And... and we see this clearly in Iran today. A lot of this problems is raised due to the social oppressions due to other issues due to the ... the disappointments that are imposed on individual because the society is not balanced as... is not moving towards a balanced life. How do we address that using the Plasma Technology any way? Thank you. (ML) Would you like to address it in Farsi? (PR) Sure! [Addresses the Farsi language community] (MK)

Thank you very much Dr Parviz ... Maybe we can address this in different ways. Partially what we've seen in social structures is not just to do with Iran we've seen it in Middle East we see it in Europe in different shape or form. We see it in America in different forms see it in Chinese society and other Nations nationalities and cultures. The problem is not so much what is the... how can we change it? The problem is how much we can change the fundamentals the basics the... the essence of it. In Iran we saw much. we know the situations in other countries the same. Social structure restrictions through different conducts of the governments. To be in favor of one side or the other or one belief or the other. In the programs and in the works of the Keshe Foundation I'm fully aware of this I've been fully aware of this for quite some times some 20 - 30 years. I'm a child of the Iranian revolution. I was in it when I was in university I've got ...we got involved in it by touching us in education in ... in a way so much unknown came to be known which later on we found out it was not even real to be known. And these pressures comes on the society and the people who go through these conditions revolutions. We see it in North Korea we see it in... even in Japan ... is not a open society it's a lot of restriction society children adults youth respond to what looks to be normality but is not normality. Most of these things comes from creation of Nations. . Creation of division to be identified to be we are separate. If you look at the structure even in Iran in other countries. It's all... the first thing they teach us is history and then whatever is there we are special we are this we are that. We are conquerors and the rest of it and so we do what we like. If we eliminate this part from the history of Man from the books of the Man to know we solve a lot of problems. Situation like as you said "Social factors" Social factors comes when the youth cannot show their talent. Borderk (???) has been put in order we heard in past week. The American president's creating new sanctions for 8 countries which are mainly Islamic. And then what happen to these youths ? They're staying in they can't go anywhere. They become radical in a way trying to escape or as you said they get into different groups or they become addicts and the rest of it. The solution to this is One Nation. The solution to change these social factors is to bring everybody to become One. Everybody to be part of one family that there are no borders this is the whole plan of One Nation. It won't take us long Keshe Foundation in the background is working on

these things to make social factory. If you're in Iran does not matter you are there we make you part of the One Nation. As part of this in a coming time in a very short time the Keshe Foundation management team has been ... in a way consulted and in the next few weeks you will see what we call the One Nation passports will be issued. This is the corner stone it's blue in color gold in writing. Blue carrying the sign of the Planet Earth which is blue and gold is the sign of the Soul of the Man which is a giver. With this we add into it the banking system we allow social structure change which means by One Nation by number of people who accept to carry One Nation passports. One Nation ID card because it's not a passport anymore we don't need to pass anywhere. It's we're identified who we are. The place of birth which Continent and that's all we need to know. On these cards national cards carries automatically a bank account. Which means you become connected to one structure which means financially we support. These are part of the things which are happening in the background as part of it is the banking of the Keshe Foundation system. We cannot change we are not going to fight to fight these structures takes a lot of energy. Setting a new structure that people who believe in it to join in it to change it is much easier. This is the path we've taken. And the management team and the people in the background advisers senior advisers government advisers which sit with us we see this as a first solution as more or less the only solution. In a coming weeks you can go on the Keshe Foundation website and ask for your One Nation passport One Nation ID card and as we increase the numbers in matter of millions then we state One Nation government. We negotiate with the governments as we are doing that anybody carries One Nation certificate is guaranteed Life equal across this planet. Everything in the background is getting done. A lot of progress is getting made we do not talk anymore to not to block not to create people trying to abuse the system to block us. We saw a senior Minister nearly lost his job in Africa for these stupidities. So we now speak in background we're planning things in the background. Most probably by next week or the week after you will see the first copies of these ID cards. Is One Nation One Planet One Race is the logo of the Keshe Foundation. Means you can trust. We don't look at no past records we don't look at if you're a minister or you have a ... builder or you're a doctor. Your education is there for us to know for you to be identified as what level of

the Soul you carry not what paper you been given to carry. These are the changes which we bring. These are the things which ... it'll change the Emotion when we allow and then we can go into the numbers when we reach a factor number that we negotiate for taxation with governments for the members of the Keshe Foundation across the Planet. These are all be progressively be done. It's getting set up. Banking systems getting set up. The ID cards getting set up. It needs a lot of computers setting up. That anywhere in the World you can be identified. You can be there that when you cross a country border the moment when you carry the Keshe Foundation One Nation and on the back of it you have signed the World Peace Treaty that "You not take part in any conflicts you do not incite". This is your pass this is why we asked you to sign to it. Some people might abuse the system but on the other hand is ... is it's understandable. Is for us to create a condition that then there is nobody to boycott a Nation a Man who's born by birth in a place. There is a huge discussion going on at a very high level Internationally. A boycott of all Americans from across the World. They call it terrorism because of the thing. We see a pattern with American Nationals and some European Nations that the Americans move to sell arms. So we stopped these... from this to happen. A national boycott of the American citizens is highly likely by the governments which are working in the background through BRICS. Which means the movement of the Americans become ... now they become the terrorist organizations. They become a Nation which they have to change to show they're not producing arms. BRICS will push with this through. Because it's the only solution and it's been put forward by Keshe Foundation. BRICS and the supporters of BRICS will build into it. We have to do it. Because who becomes a terrorist if you don't sell arms to? Nobody is nobody's enemy. So there is a discussion and it will go on tables of United Nation most probably in next 2 years that any Nation who produces Arms it'll be recognized as a terrorist organization as a terrorist Nation. Which means governments have to think "There is no need to build arms anymore. Let's put the money back into effort to create Peace." We call them terrorists they carry bombs they carry guns but where did they come from? Produced in the Nations who make them a terrorist. So in a way we solve the problem from the root. If you're a American in a very short time in the next couple of years you have to confirm who you are before you travel. Because the

cards are changing. The governments are realizing this terrorism doesn't matter in what shape or color even in America it's done by those who create the Arms. And if this comes into effect if the World leaders 4 or 5 five Nations across the World start putting ban on the movement of the Americans the Americans become aware of what it needs to be done. None of the Americans are terrorists. How come the rest are terrorists? How come we have to kill to justify? How come we see these kind of misbehavior and then the ones who are cause of producing the material are not put in the front? But if the boycott of the Americans and the European Nations or other Nations who manufacture Arm become a terrorist activity then we'll see. When you get all the Americans cannot even come into Europe cannot come into ... Asia cannot go to Africa. This will change position. This is the only solution. Then we see there is no more borders there is no more nationhood. It's all One Nation. If the amount of money spent on Arms by Western World on tool of Peace this Planet it'll be Heaven even for the ants. In Farsi we have one beautiful poet he says زندگی بی یزند، نمی صدمه هم مورچه حتی است شادترین زندگی و Means "Do not even hurt an ant! It's got Life and that Life is sweet." These operation these social structures shut downs that people have to do because of the religion or whatever if these are moved that we become all free to understand we can believe in anything anymore as long as we are responsible peaceful people becomes the next step. In so many ways when we reach millions of people signing for One Nation passport we become One Nation we force Nations to accept the carriers of these documents as Peaceful people. There are different speaking languages there'll be no Nation on the card. Then we boycott all the German speaking we boycott all the Spanish speaking we boycott all the Iranian speaking then we boycott all the Chinese speaking but "Where can we stop them?" This is the progress this is how we change these social factors. The social factors in Iran is because of the restriction that the Iranians go. I'm an Ir... I live out of Iran for 40 odd years but I still carry Iranian passport. I'm proud to carry my passport. place of my birth but I've been singled out because I carry Iranian there are these restrictions that restriction but who's the terrorist? Why did the American produce guns? The real terrorists are those who carry weapons. Not the ones who use it. So this system has to change and part of this we work very closely with people around the BRICS and around the

United Nation to make a new offense "Any Nation manufactures Arms is considered as a terrorist Nation." Then the countries they'll be given a time to overcome. But it'll come very soon. Because the Truth is if we don't carry the arms we don't create terrorists. We create people who will talk. They be... create a community that they will find position to talk. I advise those of you who look and we listened in past few days. This Nation that Nation that Nation all majority Islamic Nations are terrorists. Full stop. Now anybody who produces guns create wars is a terrorist Nation. Very soon American citizens will find difficulty getting visas in any Nation. Many people will return the American passports because they can't even go back home where they came from. This is how we change the social structure. This is how we have to change the social structure. And then all these addictions why is it there why is it encouraged by some Nations to be done? Why we get to these points? These are all part of what we need to address. These are part of to change the structure fundamentally from the base. Peace means restructure. Peace means compromise for reality. Peace means Nations who push for Oneness for correctness have to be promoted. Nations go and produce Arms just to protect themselves from the other Arms. Which has already been created. And then they are told "Why?" The banking system creates these conditions poverty creates division. This is the beauty of what we're bringing out. This is what's happening if people were aware of what's happening in the background in the Keshe Foundation in the structure of the Keshe Foundation. We are setting up a condition that all those who carry the card as I said "Carry a bank account on it." Means anywhere in the World you don't need to do any crime you can call upon the rest of the Keshe Foundation Support Team. All the assets all the incomes of the Keshe Foundation factories production donations whatever comes in goes into that account. It's the bank will be owned by the Keshe Foundation. And then you can call upon it some people might abuse it buy a car here or whatever there but we'll see. But when you know if you buy that if you ... extend it there's another man in Africa will die because of hunger the money is not there we start structuring ourselves. We need to understand the change but conduct our own correctness through our own Soul. They way is planned the way you will see in a coming time. It took us you to... it took you to understand the teaching. Now you see the Space technology you see the energy

you see the banking system you see the One Nation passports these things all come into effect in next two years Keshe Foundation will become a global force. Not if I'm here or not because you have decided. Because you start understanding it's your Soul which is responsible and not your Physicality of the others. Social structure changes in society why should... scientists who publish papers and they are Iranian in Canada do not exist? Why Canadians? Why so much target by the Canadians Americans on the Iranians and the Islamic world or in Europe ? We have to understand where the pressure comes from. What's the reason ? And it's not time to fight anymore It's time to introduce a new dimension that those who are after fighting creating that condition have no one to fight with. If the American passport holders go under pressure that they can not travel all the Americans have to go back to their country. All the European Nations create arms have to go back. Then we will see the changes. No one in supermarkets no one in a banking will allow any American to buy food outside America. It means we push back the war mongering goes back to where it came from. There is a lot of changes which is getting organized Internationally because governments are getting fed up how much can you compete buy another nuclear? This situation with North Korea has brought a lot into face. Iran was a target of nuclear for years. I opened a negotiation. We got 5 plus 1 negotiation and now it's North Korea. They are going too far there is no doubt North Korean situation is not acceptable. But on the other hand Why? Who's financing it who's teaching it? We know all this we see the information in the background. But what's the next Nation to create war? Why do we have to this point ? I've been on the border of North Korea and South Korea I was taken there by the government. I've sat by the Unification ministers in breakfasts twice three times. "How can we change the position North Korea?" What about how can we change the whole Planet ? Those who understand these things have start making a move. Do we need to rely on a Banking of war? Or do we need to rely on a Banking of Peace? The True way. There are billions of dollars trillions of dollars sits in Vatican. Why is it getting used for war? Why the leaders of the Catholic church do not put it for new way Peaceful way? Not by talk in the front and creation of war in the background. The same goes with the Rothschild family the same goes with the others. They have to understand not by damage but every member of these organi-

zations have to understand their Soul is responsible for what is happening. The Keshe Foundation the way you're setting it up and the way it is getting organized it'll become the structure for Man to walk itself to Peace. But nobody has had the will to do it. Nobody had the knowledge to do it to change it. And nobody could structure it to do it. We have we can and we doing it so quietly but so effectively. In the coming time you will see. Once we open the Banking System once we open the what I call Identity of... Identity of the place of language. Then we'll see we negotiate for even taxation for the Members of the Keshe Foundation each government. When you have one two three million people in a country we negotiate as a bulk. Which means the difference can go back into Humanity we negotiate taxes for Peace. We negotiate... everything is negotiable. But time for change has come and I've taken the leadership in this. Doesn't matter if I get killed or not. But is... it's your job to carry on. The structure is not to fight the structure is to set a new path a new way. But for everyone to understand it's their Soul which is responsible. If this new school of thought which is growing rapidly in the developing World which they want to finance... instead of the armies in their Nations. To boycotting the Nations which create arm we will see a lot of problem. A lot of problem for the what we call 'Leading Nations' because their money came through. There is a new structure in the World banking it's getting looked at. We're... we're working on a GDP. We... we just taken an example. There is a medicine in Europe which you can buy for around about 50 dollars or 50 euro. The same medicine in another European country can be bought for 35. The same medicine the same pack in United State is sold around about 350 dollars. So if the GDP goes according to the expenditure do we take the 35 or we take 50? And then you see the expenditure in America is seven times more. So Americans because they create finance by seven times more inflation in their accounting now you divide the GDP of United State by five or by seven. And then you see the United State is not a Leading Nation it's a bankrupt Nation. A lot of things through our work our teaching is opening up the eyes of the other Nations. Is the GDP by equal... they... there was... there was a example of ... Big Mac being the currency measurement. How much do you pay for a Big Mac in each country and then you understand the actual value of the market. These are the things which... fighting will take time. We are restructuring from

inside everything is taken time. The factories which come into operation we are not looking outside to finance us to influence us. We are looking for those who are around the Keshe Foundation to come in to bring the change to be done. And it's getting done very effectively. We are talking new technology we're talking huge huge return on the investment of all of you on your knowledge. Those of you who develop you come in you get developed you put the system in. Everything is getting structured internally. Then the benefit of it goes into the Central Bank the Central Bank of the KF. It won't be hidden. It is on the table for the management to see where assets sit's where we can move where we can make available everything for as many people as possible. We take responsibility of One Nation. In a coming time we'll appoint ministers people responsible for finance people responsible for banking Peaceful... responsible for Peace. People responsible for agriculture but the new way the new understanding. All these in the pipeline it's coming through slowly slowly. Because structures have to be there before it's done. We receive support from government and we appreciate it. We understand it. We need economists who work on economy of Peace not on economy of exaggeration. If now understanding that everything is connected to each other and the knowledge for it is there then we have broken through. In... start producing the One Nation ID cards One Nation because you don't have anywhere to pass you are on One Nation. It's just when you arrive who I am identify me I'm the... There is no bars you walk through. There is no waiting. If I can allow you in my country? You are in your own country does not matter where you go. Then the Peace comes. Then these monies created for division becomes money for creating Unity. It takes time is not a dream we're setting all the structure up. The factories have been reset totally in a way to support the Nation. All the factories we're setting up now... these are getting structured to support a Nation. Not a small factory that it does something small. With it we carry the Nation we support the Nation we support the whole Humanity as One Nation. With it comes the other things. We need to change the way we think then we don't have socio factors structures. We have growth for everyone everyone to benefit. We will see 5 or 10% abuse. When I used to work for Marks & Spencers years ago. One of the managers told me very simple "We consider 10% loss by pilferage means stealing. But we put 8% of the perpetration through the

management and staff. Because our staff steal more than our people customers on the... on the street." I asked him "How?" He said "Look at it a bag of potato here something else there whatever is there." "It builds up to a lot and it's 200 people working in there. Each one taking one bag of potato one chicken there one there." "You look what it does we don't lose that much on the floor." There'll be some people who think abuse we've seen it in... last week we explained in Peru and we saw it in Germany with the people who were charging 600 dollars for a weekend in the name of the Foundation and we shut it down. There is no collaboration with a Keshe Foundation who was setting itself to be a Keshe Foundation there we have no connection with them anymore because of the abuse and other things. Nothing came back to the Foundation nothing came back to teach others freely. You all came "What is in it for me?" So all the Keshe Foundation worldwide's are going under one roof all through one banking all through one organization In a way we're setting up One Nation Peaceful Nation and we support. A lot of people will join us to get benefit financially by it we are aware of it. But in the time it doesn't become what's happening in EU with like the Moroccans or the Turks one person lives in Europe and the rest of the family in Turkey get paid for it. This is not correct. We understand the problems which European correct conduct has created for itself by the abuse of some. These things come to the point that they have to understand it's not us taking from them it's us taking from our Soul. Is "What am I doing when I carry the ID of the Keshe Foundation as a citizen of this World?" I'm not a taker I give more I put more time in I teach free. I clean the streets but I know "My child will not go hungry. I can go to the bank and I can take the money to feed them." If I feel to take them to a restaurant tonight I can do it because now it's not me it's the whole Keshe Foundation family who supports me. It becomes a new evolution in the understanding of social structure. It's not a dream anymore I've done all of it everything has been set and it'll come true. Is not a fantasy is not something ... it's a reality which is... will come true because supporting it with our own technology supporting it with our own factory supporting those who need it to be there in front line. We've seen in Africa. Now two months we moved out of Ghana Atomic Energy commission. We've taken a new place. We're paying our staff the same as they were working. Because this is correct is not them it's a

condition forced upon us but as a Foundation we had the position to do. We keep our staff we don't put them on the streets. They are highly educated it took us time to train but in time they've seen us being loyal to them. They stay loyal to the Foundation to the work of the the Foundation in Africa. The same with the other places. We don't talk we don't teach we live the life. I live a comfortable life the way it suites me. But at the same time I work 24 hours a day. I take when I need what I need. And I enjoy in sharing everything else with the others. We walk into the situation the condition is we have to change the social structure. Why should be a ban on the Iranians? Ban on the Muslims? Where actually most of the funding of United State and British government comes from the oil which the Saudi Arabia deposits the money in their accounts. We taking it and we punishing them? World leaders have to understand new criteria. They have to learn to negotiate with Keshe Foundation and we conduct ourselves correctly. The management team of the Keshe Foundation meets every week. We at this moment organize everything which is need to be the Foundation correct to come up. We talk we consider we work in a way of a long-term plan for changing Humanity. Most of us work 20 - 24 hours a day. If there is a need for a sleep we sleep. But the rest is development changing bringing negotiating. We have teams of people who are setting this structure. We negotiate with governments in a different way that it's in public. We respect them we honor them we respect the American President as much as we respect the Chinese President. They are the head of Nations but they have to both understand it's time for Peace it's time for change instead of spending so much money on arming that somebody might do harm. What about "I do so good that there is no harm can be done?" We have to change we have to understand the change. It's for us not for them to understand. It's for us not for them to do. We have to explain what the Peace is what it means it means change it means the correct conduct it means "I do not spend my money the Nation money on somebody to be killed. I spend on saving somebody's life. The social structure you speak about in Iran is created out of internal restrictions and external restrictions. But when the Iranians or the Arabs or the Jews or the Christians find out there is no restriction. It's me becomes a public teachings knowledge. That it's me who's responsible for my conduct. It's me who can elevate myself my education and everything else

through my way then we don't have these things. We have allowed it to happen and we accept that certain Nations to be superior than the others. Now there is One Nation nobody is more superior than the others. In our agreements with the governments there is a wish I read before And that is "Everything will be done." The first three four parts of all our negotiations relates our cooperation our delivery of technology our work has to be primarily assured by Peace application use of it for Peaceful application and change of the government to a Peaceful government. The One Nation bank can not be stopped because One Nation One Planet structure allows us this. These social factors it'll be taken out in a very very short time. I hope the management team of the Keshe Foundation can put all the programs in order in next three four weeks. For people to start to be able to take over and sign in for One Nation card. We'll see how it's done we have to see how they structure our webmasters and the management team and the servs... servers which we have to put into operation will come into operation. We have no financial restriction internally Foundation supports itself. If you want to support you know where to go. But it costs a lot of time. It costs a lot of commitment. And we'll change it. When we commit ourselves to Peace we have to change the whole understanding of what Peace is. We have to understand how we change a social structure. That these social structures does not push one to addiction then we have to find a solution for addiction. If you look at drug trafficking drug production. Where does it come from go back into Chinese history with Hong Kong. How so many people where made deliberately addict. In China to push the part Chinese to give Hong Kong to the English. Didn't the Chinese put all the addicts on the boats and throw them overseas? On the Oceans. Overboard. Because they could not handle it till they gave the Hong Kong? Why should a Nation use this? Why should a Nation launch war on the other one to get it? What about "I feed people." There is trillions sitting in the Western banks which is stolen from other Nations or by misconduct. That's not a wealth of a Nation anymore it belongs to all of us has to be reused for all of us. How much money sits in Vatican? Why doesn't the ... Islamic World in the Mosques or the Vatican's or Jewish community or the Buddhist. All these properties you have change it to place you need a small place to pray if you believe in what you believe. The rest of these lands has to become the rest of this mon-

ey has to become building homes for people. It creates a new condition of economy it brings. Some people will abuse but we teach them we need to go out to teach that people don't abuse. Why do we see these things? The social structure changes. Why then you pushes people to addiction? What is addiction? As Dr Parviz said he's a medical doctor. It's just escapism for a few minutes. What about "If we elevate the Soul of these people?" "Their Emotion that they see a new way." In... in Ir... was talking in one of the teachings past few days. In Iranian culture in Iranian community we have a very famous singer called Darioush. Go on the internet you hear him when he when he goes anywhere he's totally one of the most popular singers in the World in the Iranian community. He was addict he overcome it. And he goes around teaching people how to overcome. But it needs a lot of strength. Now we have a technology we can give that strength. A new insight. That this is not there and then you can cover it. Why do we become addicts? I have planned a full social structure from Zero. Considering we have come to a new place we set a new rule. 500 years ago we found America we built a Nation which now has become the biggest killing machine in the World. Now we walk on Planet Earth as nothing exist before. And we set a new structure it's the only way to do it. This is not being big headed this is being correct because we can not change thousands of years of abuse and everything else. And then we negotiate. Very much when the white went to America negotiated with each red Indian Chief and tribe. We have to do the same again but this time it's Peaceful. We give both financially and we give both to the Soul we teach a new Ethos and we change governments to One Government. As I said some times ago "World Banking is the backbone of it." Because then you pay your what you call 'taxes' to one bank and we negotiate with governments. You negotiate with governments. Equal taxation for everyone across this Planet. Equal reach to wealth across this Planet in a very near future we launch machinery that you can buy out of Keshe Foundation that you can produce anything you like. Give me another 4 or 5 weeks hopefully it'll be in the market. You want to produce Gold we give you Gold. You want to produce Silver you can produce Silver. You want to produce energy for food you produce energy for food. We have set up the factory it's being done. We have taken the location. This factory will produce all this that the rest of the people around the

world we said "We come through knowledge" governments have to understand how this is going to be done. When you can walk with ten Kilos of Gold into a shop or into a bank "I want to sell" the guy next door to you and the guy behind you has ten Kilos the same It's the same then becomes irrelevant. Then when you can produce the energy for food in a energy level not the matter level you don't go hungry you don't need to fight for hunger. Then you are elevated to a Soul as a peaceful Man. You go out you serve you do something positive. It's not a dream anymore we have all the tech it's been shown in past 4 or 5 years in all the teachings but you all missed it. Now we're putting into action now we're putting it in a position to be perfect. Keshe Foundation in One Nations working to take all these things which are given to animals to be taken out. What about the Soul of the plants? What about the Soul of the trees? What about how do we harm them where is the Soul that we... we should not touch? These all needs new teaching. Two ways you gotta fight you've seen the battles we had with these Belgians. There will be no Nation of Belgium's I assured you. It'll come into operation once we issue the passports. What you call the... the ID's. French speaking Dutch speaking German speaking Italian speaking. There is no Nation of Belgium. It's gone! Because there is no National language Flemish is the Dutch it's part of the Dutch. It become secondary language. It's a subsidiary. Speak a flowing German you speak Frinch ... French. It's gone the Nation is not a Nation anymore. I told you it'll be done everything is planned the correct way. There is a question mark would we give ID's to the Belgium citizens? Yes we will. Do we consider as part of our work? Yes it is. They belong to us they are part of us. But do we change the structure? Internationally we will. It'll come as a rapid evolution but it had to be done the correct way. And now we step correct way. You go in online you sign for your ID card. Your new ID your identity as a Human race where you were born what language which village. No Nation. Which Continent if you want it to be if you are international you are born free. You need access to the funds to be able to live escape from a disaster it'll be there. This is not a dream. You got to understand the potential of this technology and what it brings and the people around us who'll be waiting for us to take the leadership. Now we take. The Keshe Foundation team with the Core Team Universal Council the Earth Council becomes the new leaders. We'll lead correct. We'll lead

through one path. Peace and correct conduct. A lot will kick and shout and a lot will devote their lives to change. We have the opportunity to do we have created the opportunity ourselves. And we will do. We will not ask anymore why you're hungry we do not ask "Do you want to come to me?" "Can I get you a visa?" You come to me because I love you and I'll look after you and it's my job I've come to serve." Americans will travel to serve Nations not to kill Nations. That'll be the beauty of the Nation. That'll be how we will change. Not the other Nations creating war machines to stop what they are developing to kill less. We have direct access to Vatican we will ask them to release funds. Into the right way as part of the Keshe Foundation organization. We have access to the Islamic world we have access into the Jewish community we have access to all sorts but our negotiations are very simple we take to create Peace you'll play with us the same Principle. The Keshe Foundation KF Global Banking will change things. The same as we said with the blue telephones. This is your line this is the way it will come. Everything is getting organized. So as Dr Parvis said "Social factors." We try to change the social factors which are falsely created because of the domination or force in some peoples rules over the others because of what they've seen. In a very near future in the next few two - three months all the members of the Council will meet in Rome. This is not a public meeting that others can join. Only members of the Councils the Core Team the Keshe Foundation Universal Council the Keshe Foundation Earth Council they'll meet in Rome in the coming months. And they will start taking charge. Governing through correct conduct. Do we need to? Yes we do. Do we have to? Yes the time is there for it. When we set up the banking the ID cards and the structure the governing body will take over. And then we can start the Peace process in a true way. You need to go on the website we created you ask for your ID your family if they want to be you don't force no one. They have to commit themselves to Peace. I loose my job I work in defense technology or arm manufacturing what's going to happen? We support. We'll support people to walk away from arm production in a very heavy way. We'll explain how by literally diminishing the use of arms they'll come back to accept the life the way it has to be. The reason Nation support gun manufacturing and the arms it's just because it gives people to have something to do not to create a revolution inside a country. But the World leaders have

got it the wrong way. We don't produce arms we produce tools of Peace and we give more to our people. Our people the governments becomes One Nation government. We pay more and more for the same Kilo of rice every year but where why? For what reason? It's the same thing. If I stop using it if I stop eating it? Where I can walk to a machine and get the same energy. The farmers has nothing to sell the price collapse. Then it becomes a fair price. If I'm hungry as a pleasure I buy rice. The Wireless Technology which we're gonna to release it's not just for energy as a light as a heat it's for food. I'll change everything in a strain in a grain of the Man the Man has no need to fight for but Man will be proud to serve. Everything is set up. It's just literally putting the last screws into the hinge for the door and the wall to start working together. I have a... it's take us years to put a management team together which work the same as you and the management of the Keshe Foundation is perfect. It's come by working knowing trusting and understanding is only one target. And these people who stay as the running of the head of the Keshe Foundation the way it is and they'll be there. And those who join us have to learn from us been there and served. So the social factor will not be there as we start working to change to bring a new social structure. And if I hear... from what I hear the ban on American citizens travel comes into operation as a terrorist Nation then God help us Who's gonna use the first nuclear bomb? But I've given assurity we deplete it. The table changes the table will turn. If this policy and goes through BRICS and comes out and gets effective there is no harm done. No American will be harmed the same as what is their policy. What is good for the goose is good for gander. What is good for the rest of the Nations to become terrorists is the same for the gov... what we call is the 'terrorist'. When I was a little boy one day there was a commotion on the street 2 - 3 o'clock in the morning and everybody was on the street. And everybody was talking "a thief a thief" and then the thief was amongst the people who was shouting at him because he didn't want to get caught. And the guy who was... who was getting... who was robbed saw the thief in the middle and said "this is him" and then they got him. And it's this situation with American situation and the rest. Call everybody a 'terrorist'. to create terrorism to do. Why are we terrorists? Why wasn't there in 1972? Was it then there in 1979? Because it paid does not pay anymore. Now it pays to be all

Peaceful. World Governments have no choice but to accept the new ground course. World banking system we don't touch we just create a new way. One bank for all with access for all. But we release the systems that produce as much Gold and Silver too. We release the systems that it feeds you too we release the system that gives you energy too. I kept these on the promise of One Nation signing the contract an agreement and I'm waiting and His Excellency knows it'll be done. The process is very simple. How we change it is in our hand and if we miss this opportunity when would it be the next. Because this new technology will be used to create new weapons new arms. Or this new technology will be used to create Peace forever on this Planet. And the choice is the second one not the first one. In a coming time we'll call not we call they will call for the World religious leaders to meet to end with all. In a coming time the World leaders meet to end with the World leadership to work as one. Then the finances will go towards peace application and everything else and the Space development. Any other question? I hope I answered you Dr Parviz in a very fundamental way. (RC) Okay there's none of the panelists that wants to ... speak right now. There is an ... I believe a student Boris he's an attendee I'll promote him to a panelist he had his hand up. (MK) If it's to do with the topic which we discuss. (RC) I also have ... Boniface. Yes let's ... remind people to stick to the topic that's in... at hand here. Okay ... Boris would you like to go ahead? (BM) Yes hello everybody. It has to do with the... with the... that what we was talking about. First of all thank you for all that you are doing. I find it very very interesting and I would like to ... add something ... because I'm also... I'm studying a little bit the structure of financing of governments and everything. And I find out that we all have a bank account without knowing. And ... I don't know if you know about that. When we are registered ... (MK) This was this was raised before we are quiet aware of what is been raised what you want to talk about. (BM) Okay and ... there is a lot of money I think it would be interesting if we could ... put that money from there to the Foundation to finance Peace and take it out from the governments who finance ... war. (MK) In a... in a coming time we'll go that way but we have to show we are independent enough that we are listened to. (BM) Okay. (MK) This is you can talk a lot but you have to be able to show what you have and these structures getting set up. (BM) Okay thank you. (MK) Thank you

very much. (RC) Okay ... Boniface would you like to go ahead? (BB) ... Thank you Rick. Can you hear me? (MK) Yes. (RC) Yes go on. (BB) I agree my ... (MK) Say where you are from please. (BB) Well I'm here in California but I was born in Ghana many many years ago ... (MK) You're a Ghanaian? (BB) Yes. (MK) You're welcome. (BB) I got ... something to share. May I continue? (MK) Yes please. (BB) ... Just wanna state... (MK) Hello? (BB) Can you hear me? (MK) Yes. (BB) Okay! I was really really glad to hear some of things you're share with us ... this evening about what's going on in the background ... A couple of ... stories ... came to mind while you were speaking and ... there is a Latin expression that's says "Solitudinem faciunt pacem appellant." And the story goes that ... once a Roman general brought Peace to a rebellious province by killing all its citizens. And even his fellow Romans were shocked and one of them wrote "Solitudinem faciunt pacem appellant." Which means "They create desolation and call it Peace." "They create desolation and call it Peace." And that's a lot of what I see in our World ... today. And... and before somebody says "Well that happened a long time ago" just within the last month here in the United States a video was leaked to the press and it show the Police man walking up to a car that he had stopped. And ... he approached the car and asked the driver for ... her license and... and registration. ... The lady who was the driver had her hands raised and said Well her license was in her bag and so she couldn't get to it. And so the... the policeman here sometimes they are referred to as a Peace Officers said "Well why do you have your hands raised?" "You know you can ... go in your bag and give me the ... license." And she said "I don't want to take a chance and I knew people are getting shot you know by police around here." And the policeman chuckled and said "Look lady we only shoot black people." "You are a white lady you don't have to worry about that." "So you can ... put down your hands and give me your license." Then she said "I don't wanna take a chance." So I shared these ... incidents to... to highlight the importance of what you are doing ... what the Keshe Foundation is promoting and what we all have a chance to support. The World needs Peace of a different sort and ... what ... is available right now. And this is why I'm so excited about ... you know some of the things I heard you know. We're talk about elevating Souls we're talk about prosperity you're talking about you know absence of war prosperity for all ... sharing

knowledge ... you know ... unconditional Love and things of that nature. Broad uplifting bright and good. And so I... I'm glad to see that there is some sense of urgency from which you're discussing today... that things are moving ... on in the background. you know something that we as Knowledge Seekers are not always aware of. So my wish is that ... that sense of heard it "urgency" will be continued and that ... every chance we all have to participate in this process ... we make it a priority. That's all I wanted to share. So thank you for what you're doing. (MK)

Thank you very much. What is it... (echo) somebody's microphone is open. What is... what is so important for all of us is to ask a question. Maybe on these weekly basis? What have we done for progress of Peace? From public for people who listen Knowledge Seekers. You might listen in different hours. You can still send a note to the Foundation this is what I'm doing for Peace. This is what I've done this is how I'm teaching this is how I'm spreading the knowledge. This is what I spend one or two hours a week for trying to make people aware. You do not know where it's gonna come back. The whole process is we have to come back from the others they can learn from us what to do. It cannot be done by the few. The uptake on the ... the what we call the 'One Nation ID' will force a lot of things on governments present government. If what we hear goes through and ban goes on the Americans and the Europeans to travel because they incite war tools of war. Then that creates a different dimension. Bans on everything else does not do much because we can support it. ... we need to understand how to change the social structure because we need to bring in new social....? But the problem from... or the best part for us is that Humanity is so hungry for it that they eat your arms off to get it. As I said "Knowledge in exchange for Peace" and we'll do that. But we need to do it in the right way with the right people that can bring the results not in hundred years but in a rapid way that we can change the structure before abuse takes place of the new Technology. (RC) ... Mr. Keshe ... I could read ... an example of some instant ... results that have happened from ... there's a comment in the chat from Hassan. I don't think it's I think he had to leave or something? But he left a comment ... which goes like this "A big thanks to the huge work every Knowledge Seeker has made to achieve this unbelievable new way of living." "May the creator strengthen your wish to make it global." "I can say that today is the best day of my life my heart is at Peace may every

heart be able to feel that Peaceful sensation." "Love you." That was from Hassan ... in the chat zoom chat. So I'm... gave that as an example of someone that's obviously been changed for... you can say that this made a big impression on this person. ... Saying that "this is the best day of their life" they "feel at Peace" just "hearing" this information and "knowing" that this process is going on upon the Planet now and that we're able to talk about it ... freely and... and learn about it and pass on this knowledge and so on like you're saying so. (BB) I have ... something I can share about what I've done since our last meeting. If I may? (MK) Please go ahead. (BB) ... since our last meeting I asked a question and you gave the direction. So as of Monday I've been able to ... reach ... all the World leaders again through their ... ambassadors in the United Nations and ... you know drafted a letter through an email and sent it to all of them. pointing out to them that ... we didn't hear from them on August 2nd but ... two volunteers graciously signed their Nations to Peace ... while we wait for their own signed documents. And I... I shared a copy of other signed documents with them and ... you know reminded them that ... the promises you have made about ... you know exchange of Technology for... for Peace are still on hold and waiting you know for them and you know I'm quite sure that they want the benefits for their people. So my Wish is that ... we will receive the document ... now shortly. Something along those lines. And so when I... I'm looking at ... other so called 'peace-loving' organizations ... in the World to try to encourage them to ... help ... put some ... encouragement ... to these leaders. That's what I've done. (MK) ... Thank you very much. There is some mis-comprehension... .. in part of the knowledge which I would like to address. And that is... we said... and we went out 'Knowledge in exchange for Peace'. And a lot of people looked at us to do it with governments which partially is targeted but primarily this was done for individuals. This is what has been missed in the whole ... teaching. We gave you the knowledge and in exchange of that we have made a Man of Peace from you. This is the key. Not going for somebody to go to a parliament to find if your Soul can be at Peace or you can be at Peace because of the knowledge you received. The agreement of us was that we do 'Knowledge in exchange for Peace'. This is for individuals too. When you receive the knowledge and you can use it and you can benefit by it or you get enlightened by to know that the knowledge is there

then we have achieved our target. Which means we've done our work. We have delivered the knowledge because every Soul counts. And we don't need a person or a government to say "Yes we accept the energy system we accept the medical application and we accept this and that." We already have kept to our promise. We brought you Peace in exchange for knowledge. We gave you the knowledge and the knowledge has brought you Peace and this is more important than you are the last Man standing. You're at Peace because you know you have the knowledge you can save your life you can do something with it. This is what everybody has overlooked. We are each a government we govern our own Soul. And if with the knowledge received we have found Peace in our Soul the promise of the Foundation is kept. (RC) ... Touguy writes in the chat ... "Yesterday I wanted to change the World today I change myself." That's a nice saying. (LS) May I say something please? (MK) Could you introduce yourself please? (LS) ... Yes this is Lynn from Montana USA. And I would like to point out that there are more than one version of America. And I live in a version where a ... a travel ban would not matter because I like many others here cannot afford to travel across the state that I'm in. There are many that I know of who worked all their lives here and through the continuing circumstances that you pointed out of "Why does a kilo of rice cost more every year?" It's the case of the frog in the boiling pot you don't realize the pot is boiling until it's too late to get out. So I know of many Americans who have lost everything that they worked for years to build up. I know of Americans right now who are losing their freedom because one of the biggest exports in America are the financial instruments they create on court cases and prison sentences. It is the national disgrace of this country. It is as bad as the weapons because this is a weapon that they are using against their own people and they're destroying the families and the well being of the people that they're doing this to. And this has gone on here for many years. So when I hear there's going to be a travel ban it's... is it going to affect me? No it won't. Because I... I can't afford to travel across the state. I can't afford to travel to states several ways away to visit my 97 year old mother. That's the way the facts are in our lives. The history of our lives is that we should be very comfortable but that's not what happened in our lives. And it all happened through the machinations of the banking system and much more. It happened through corrupt offi-

cial in cities and in counties. So there are Americans out here who are living a third world experience already. Now I... I sat at a table today with 3 other women I was the fourth. One of them is privileged to own 3 homes in different areas. One of them is privileged to travel and one of her travels took her to climb Kili-manjaro. One of them is privileged to travel and lead a lifestyle where she could go to Bali but then come and spend time at a resort lake here in Montana for several weeks. Their reality is so far removed from mine but I travel through these... these groups of people because... I know how to... how to speak. I guess I know how to ... speak their language or just be quiet when they're speaking about things I can't speak about. So I just want you to know that there... there are Americans out here who... already suffer and they suffer as though they were living in ... what other Americans might call 'a Backwater Country'. I... I hate to see the suffering continue but I will tell you that these people that I'm around that I have spoken of are sound asleep and perhaps if they could no longer... Globe trot and go to the next place that amuses them it will wake them up. But please just be aware that there are a great number of ... Americans who are awake and who are suffering. ... I spoke with our friend who was in the hurricane in the path of the hurricane. Did he have a choice to pack up and leave or did he have to stand his ground? ... The fortunate thing for him is that he could surround himself with Plasma energy and that was better than jumping in a car and getting on the freeway. But this is just another American who is living the different lifestyle than the ones that you see trotting around the Globe and posturing themselves as the superior ones. So I want to thank you for what you're doing I... I don't know where we are all headed. I know we're headed into some rough times. ... It could be Earth change rough times as we've already seen partially demonstrated. But what I also see is the ... the attitude of "Well that was in Houston that's not that won't happen to me." Or "That was in ... Florida well that won't happen to me." But one day something will come that will happen to all of us. So thank you Mr. Keshe for what you are doing and ... I ... I hope as the World shuts the Americans down they realize that there is more than one America out here. Thank you. (MK) Thank you very much. We are... I think ... New Orleans disaster few years ago opened the eye of the World to real America. We don't have this imagination that is 'The Land of Honey and all good'.

The... what we saw in New Orleans showed us the poverty is worse than some part of Africa. So the World has become wise to it. The ban goes on those who travel to incite war. Goes on the Totality because now the different disguises they create war as tourists as whatever. We've seen this very recently in setting up a revolution in another country people going as tourists and business man. Or it's a good track of it in the future I'll explain how it was set up. Governments are becoming wise and people are becoming wise. This will not effect ... this this ban will affect in the paper like ... let's say ... 5% of the Americans not the other 95 because they... they can't even afford to travel. It's the same as when we said when we go to Space "5% of Human race may go to Space the others will not." A farmer in ... Italy growing his olives with us here who doesn't want to go anywhere. He's happy with his olive trees been there for hundreds of years from his father down to him. This is the reality. But when the bans comes comes on those who incite and produce systems for war. There is for example a new understanding any email communication from any American company which is in a war system will be blocked. It's the way that they cannot even communicate to sell goods to create war. These are the procedures which are in hand and the governments will enforce it. Because they can't speak to their people inside to be able to incite it. Creating these kind of bans is something the other countries see that they can protect themselves from what is to come what is set up. In so many ways if we look at it in a totally different way that we can't have travel ban and no Keshe Foundation One Planet ID card. Because everywhere on this planet is your home. This is how we need to change and the governments need to educate their people. This is where the change will come. This is one of the only ways left for us to give Humanity a chance to start a new life. Fighting it... it takes too much energy. Structuring it from base is much easier. And this is the attitude and the decision which we go with we brought a new technology we bring everything with it. In next few days in a few weeks you will see the first clinics Keshe Foundation clinics operating comes into operation. It'll be announced as we said sometime in October we should be ready for that. Where you can actually go and receive by medical doctors. In a coming time we'll do the same with the energy with a food with decontamination. It'll take all of us who are aware of what this happened to this Planet years decades to use all the fi-

nances we transfer from military to Peace application. to clean up the mess which ourselves in a past decades and our forefathers have done in the past two decades... two... two centuries. We would... we'll look for where we can serve we'll look for what we can clean up a new system a new technology. In a coming time on the Keshe Foundation website you will see totally new products will emerge. which w... all the factories which are working and getting setup getting developed will produce the own way to help the society. We've given a total free hand to management. Because they see what is important and how they can change. We are not bringing people from outside that we want you to manage management of the new industries. I've done but those in Keshe Foundation who understood the Technology and understand the ethos of Technology. I'm sure as the members as you said you can afford to come and see your mother a few or maybe couple of hundred kilometer away from you. In a coming time you can as long as is your wish to see your mother and you carry Keshe Foundation card that we can support you can pay for it. You pay through your soul you pay through what I've done. Is there because we produce as much gold in Keshe foundation to back ourselves banking. We will be the only Nation which will be back itself every penny by gold which is done. Everyday whatever you will use we produce gold and deposit it with our own World banking system. You can never run out of spending and we never get run out of producing Gold. We know what Ronald Regan did. Took the backing of gold from greenback. And the whole mayhem started. If gold is going to be the backing the Keshe foundation through new technologies will deposit daily. Certain amount of gold in open that people can do. Till we devalue this that everything goes correct. Is not a dream we're going to do. Peter showed how to make material a the lot you missed it. Now we show it the way it has to be done. We produce whatever the World banking system needs as a guarantee in Physicality in their hand. Because we understand the knowledge we understand the process. We understood the technology of the creation by Creator. Keshe Foundation Banking System will be the only currency Gold guaranteed Silver guaranteed Plutonium guaranteed whatever the government want we match. Because we know what to produce. This is a beauty of it. When we say "we're going to do" and people "Where we gonna?" We use our technology. South Africa African nations European nations they go

on their Gold bank reserve. Keshe Foundation banking reserve will be its own Gold because we produce it through the nature. Because the new technology allows us. This is how we destroy dependence on and make Man to be free. This is the beauty of this technology. You want to go and see your mother? You don't need to think "Would I see her next time" when I have money to move. It's my job as head of Keshe Foundation to make sure you can do. It's part of giving from us. I can give knowledge and as I've said in one of the teachings "Take from my Soul and you receive it." "Mention my name though my Soul and you receive it." We're not talking fairy tales. we are talking about reality of new science that a lot have to get used to. When Peter produced the material he didn't know what it is. He's taken it to the lab. He's tested materials. I would like to know which government would like what? For us as a banking system KF Global Banking system to deposit where? Hundred ton? Two hundred ton? You spend. I produce. I means all of us. We are not talking to go back and do things. We are going to do things kept back a lot of things we say. New manufacturing. We are specializing each factory in a specific field to be able to operate. We don't announce anymore to create a mayhem we saw created a bunch of terrorist. We are... the setting up of World Police Force is we on the card. All this people you saw creating mayhem You will see them in courts very soon but not in the court it used to. Everything is getting negotiated. Everything is getting negotiated by government who understands the change. and that they're to create a change. Stealing patents becoming millionaires out of it Killing scientists to become millionaires out of it. All these has been registered in certain way that it'll be responded to in a very short time. Maybe even before we put the banking system in operation. I was taken to a meeting in Sicily about three or four years ago. I was invited to a meeting investors wanted to invest in the energy section of Keshe Foundation. And in that process in Sicily I came to understand the investors who they are. And they explained to me we do not go and do what you saw in the newspapers for past decades we have become educated. We do it through banking system and through science and it's more profitable than killing people. In so many ways we give life we don't kill for. But we share knowledge and the wealth with the people which are there. If somebody ask you for a kilo of Gold you deliver a kilo of Gold. We make these systems freely available across that we

don't have one center. Everybody needs country produces your commitment is you produce for one kilo half a kilo you deposit to Keshe Foundation banking account for the others to use who don't have the machine. We'll guarantee gram by gram Gold card to Gold real Gold. and you will do it. Not me. I share knowledge freely. and beauty of it is in the patents which we released. All it is your delivering what is written. The flight system independent flight systems are getting tested. I was talking to people no one talk even in the background. They received a vibration lift. Couple of days ago but they didn't know what they are going. So people will achieve Space travel. Not the governments. Because I work round the clock. This morning 12 o'clock 1 o'clock 3 o'clock continuously different part of the organization of Keshe Foundation around the World I monitor I support. Because to create Peace needs life commitment and I've committed my life to it. You will see changes instructions which is going out to bring that change. Those Americans who can not travel the borders because of the poverty most probably you'll be the first of those who travel into Space because of the commitment of the Soul to Peace. It is very easy we are not sentimental anymore. We are a scientific organization we have it we can back it and we can deliver it and we can enforce it. As I said I'll enforce Peace through knowledge and you will see the structure. I have a committed management team with me and we are committed to it. And every way every possible way is taken to make sure it happens the way we want it. Nobody can push us in our timetable nobody can push us in our decision nobody can push us in anything. Because we are a self-sufficient management team we know what we are doing and we are committed to Peace it's just putting everything in order. And now the order is coming. It's not that all we go to Bahamas all go to... whatever. It's we go where we become Peaceful at our Soul. And then we learn we let our Soul to travel that our Physicality manifests itself at a point. Those you say the ladies on the table world treading if you learned if you could understand the position of your Soul the strength of your Soul you could wish you could have understood you would have been with your mother you don't need a bus. Many people do it. Now we teach everybody to be able to do. Any other question or any other point please? (RC) Well ... Mr. Keshe there is a comment in the Livestream from BJ. ... "Mr. Keshe how can you be sure these new concepts will be successful when the new

war" what... what "what this person calls the 'new war' will be 5G Technology." "We as humans are energy and" frequenc... "frequency" "and vulnerable to being controlled by 5G." "We already see bizarre behaviors and addictions with those owning a smart phone or smart 'dumb' phones." smart quote dumb phones. (MK) I think it's something you have to understand to apply it yourself then you see it. There is a Technology which goes over the Keshe Foundation and we showed this to Americans some three four years ago. This system goes according to the Peace of the Soul so no one can reach. We have shown the System. The beauty of it is as we explained when the American Naval Forces arrived in Romania the Naval officers walked off and everybody says that "they could not protect us." But in fact they came aware that there is no need for war because even the latest machinery doesn't work. The same thing now sits with ... highly developed 'First Nation' World. I have seen Systems ... being in a position I am ... I understand all these things have no meaning anymore. Because a lot of Technologies are getting developed on the back of new Sciences. Not only in the Keshe Foundation. It's arrogant to say that we are the only solution. But with the freedom we create in Science the beauty of this new Technologies by the other scientists will show themselves as well nobody's suppressed or abused in different way. You can block everything you decide what you receive. I use it in my house. You can develop yours it's been taught. You have to understand go over the teachings and develop it. Nobody can touch you. Because your Soul is not receive it by your Physicality. That's a... you get worse than 5G if ... 5 G is your problem let's ... go look at it NIC go by order of magnitude. What are you gonna do with G10 in a Space? You gonna walk all zombies and liquid shape? Or you understand how to protect yourself that it's still the same. This is a fear of non-existence when you understand the new Technology. There is no magic. Understand the science I've thought. I've given you every knowledge for Man to leave. Not the toys the Humans have created but the real condition in Space that is thousand times worse. So if you get G20 in deep Space what's gonna happen? It'll be streamlined and non existence or we know what it is and how is got to be handled? You have the knowledge the backbone knowledge to go to G100 or a thousand if you'd like to say that if it's gonna be G5 so much worries. What is the worry? Simple tools. Simple understanding gives you the... hand over all

these things. You see we... we came through the Science and through the Science now we can enforce conditions for Peace. Now they say what's got Science to do with Peace? What Science has got to do with Soul? Now through the Science you are educated that you know what to do that it cannot be enforced on you. When I explained to you a few minutes ago that we set up our own banking system and we back it most of you that are "Oh the guy's going big headed." But you missed part of the information which is been sitting there. We can produce out of fresh air Gold Silver so we back it. It's so simple. What's the next they can come up with? Who has the better computers? What about Iranians walking into America with hundred kilo of Gold each? Every bank says "Hello good morning please sit down." Who cares about what a president says. The ban is on the brain of the understanding of the leaders. Not on the reality of the life. Let me explain to you as a Iranian who went through the Iranian revolution. There's been ban on the Iranians for years to move anywhere. But I've seen Iranian children traveling into European airports with a blanket in their hand as they cuddle a child of three four years old can cuddle a blanket and the stones on these the blanket worth tens of millions which are exported. Out of Iran as a wealth. And the Government officials knows it's coming the child is given British passport immediately with the blanket he carried. I've seen it with my own eyes. When you have wealth governments policies don't agree. When you have the knowledge policy with governments don't sit. We have to understand we are all the same. We bleed the same we suffer the same pain. Why do we need to bleed and why do we need to suffer? Just for a few to be? My biggest wish is that the Earth Council members the Universal Council members the core members of the Keshe Foundation will never reach that point. Humbleness and servitude has to be the priority over anything else. We will see misconduct. In time it'll... corrects itself. (JG) Keshe? (MK) Yes? (JG) Good day Mr. Keshe. Jalal here. (MK) Yes Jalal. (JG) May I ask a question please? (MK) Yes please. (JG) You eh ... (MK) As you know I decide if we answer or not or Rick will answer it. (JG) (laughter) No problem. I will answer it for you. (MK) So why do you ask the question? (JG) That the people will ... learn. I will... I don... I do not want to keep all the questions and answers to myself Mr. Keshe. (MK) Thank you very much. (JG) Thank you Mr. Keshe. ... Mr. Keshe you approach One Nation in particularly because it's ... it's knowledge.

For this knowledge to across all the Nations are you approaching let's say in general the Arabic Nation and especially the Muslims Nations in a specific way because if it's ... own mentality you know every Nation have own mentality. So how how we I know I know the knowledge. And I have sometimes I have so much problem to to reach these people because of different mentality. Are we are we considering this mentality in the new teaching ... new processing? (MK) Every new technology has had problem to be understood. And every new technology for those who don't understand has created a problem for itself for that... for that type of mentality. And I've been a witness to it. And for years has baffled me of the level. And when you speak to the Islamic world or you speak to the Jews they are worse than the Muslims if you underst... go into them. And if you go in the real sanctum of the Christianity and Buddhism is all the same. They all think they are the only one and they are the best one and the only solution. And then they have to make the other ridiculed that they confirm they exist they can control. And this is the beauty with the Keshe Foundation. We have no gurus we have no churches we have no leaders. And the leader of us is our own Soul our own understanding correct conduct. So ... I was a young boy. I've said this before. When the Americans landed on the moon I still remember second aunt of mine my father's great aunt walks into the garden and she curses the Americans. I said to her "What's your problem Aunt?" She says "You know they say they gone to moon to discredit Islam?" And I said "What do you mean? You know in Islam moon is holy?" Because in Shia belief is that Ali bless his name has with his sword split the moon into two and the rest of it. That's why in every sign of Islamic world moon we see. And she was claiming that they "never been on the moon." "It's just they lie to discredit us" that "now it's not pure and clean." A few ... months ago when I was in Dubai discussion with the people came on the table that the Saudi Arabia is spending money to go into Space and so does Dubai and the rest of it. I wonder when the Islamic leaders are gonna change their tune when Saudi Arabia a lands on the moon. Or would they never land on the moon? Or we change the book to fit time? Or we say "No we don't touch the science because something was said and we have to stick to what we said?" Should the Islamic world bypass the Moon to go to Mars and Jupiter and out of Space? We'll never see a Muslim on the Moon? Or we become to understand

it's the teaching of Muhammad bless his name It's considered to be holy and understood that somethings that the others made for benefiting them. When you work with the Islamic world when you work with the Christian world or the Jews it's no use teaching. Some will do. Teach their Soul. Then you find out you don't need to teach them. When you talk to them they already know. That was the old way. Use the new way the new technology. Understand the process you don't need to waste your time on fighting and teaching getting disappointed. I wonder with what we sit here with what I saw with my aunt when I was 8 10 years old cursing the Americans to discredit their Islam. Was she really talking the truth? Did Americans ever land on the Moon? Or was it a promise of the President who had to be falsified to become true? As I said a challenge to DARPA and put a challenge to NASA and as you all know I been banned. I'm only space scientist nuclear physicist who's banned any communication with HQ and NASA staff. Any NASA staff who speaks to Keshe or Keshe Foundation will be dismissed immediately. That's the policy of the biggest space agency fear of the Keshe Foundation Space Technology. This is the policy written in NASA HQ we bring management who tell you this. I can show it to you in writing. So now we ask the boys from NASA we ask from the European Space Agency We have all these tools. We look into the deepest part of the Space and we say it's 100000 light years away one million light... Why no camera has been focused on the moon to show us the footprint of Armstrong? It's so near. Was the aunt correct? Who do we believe? The new science we can see in deepest part of the Space but we can't see a foot step on the Moon? Or a policy to discredit the others? To keep their promise of "We will be there." Which actually if you look at it was incited by one man which now the NASA is trying to wipe his name off everywhere Mr. Von Braun. From the things which has happened in the past in Germany with him. There is a very fascinating point. ... You have to excuse me one second. Sorry about that I had to do something. They say there is five Jews who have changed the World. The first was Moses. He says "everything is law." The second is Jesus. He says "everything is suffering." The third is Marx. He says "everything is capital." The fourth is Freud. He says "everything is sex." The fifth is Einstien. He says "everything is relative." I wonder what's the sixth and if he's gonna be a Jew to change the whole situation? We have to understand what we

expect from life and how the new technology needs to be used to change that position. There is no time to fight because then it goes against the Ethos of the Keshe Foundation for Peace. Why we're fighting to create Peace we are back in the same track? Or we live a Peaceful life we create a Peaceful condition and we live our life let the others to join us. It'll be my greatest pleasure when you sign to the Keshe Foundation ID you get your banking system your bank account which is all will be the same and you can walk into station you go into a bank draw money get on a bus and see your old mother. Then I've made a change. I gave your Soul a Peace and your mothers Soul a Peace that she has seen her daughter. I don't need to fight to put ban Americans I elevate the Soul of the Americans then I've created the Peace. (JG) If it is from my side I already signed it. (MK) Thank you very much. (JG) No thank you Mr. Keshe. (MK) You're welcome. Is there any other point? (BB) I have a small question. (MK) Who's speaking? (BB) It's Bonefice again. (MK) Yes. (BB) ... Just to make sure we haven't left anybody behind... I noticed we have ... members on the Earth Council for all the Continents. But ... I don't see Antarctica on there am I missing something or...? (MK) We do not consider anybody living there these are all expats. (BB) Okay. (MK) From different Continents. We haven't seen any what you call it people from South pole. ... or North pole be considered as part of European Continent or American Continent. As you know ... your American Vice-president responsible for green house effect Mr. Al Gore in one of the speeches of Global warming he said "The situation it getting so bad that ... the... the Penguins are endangered because the bears are eating them as they can't find anything else to eat." And somebody in the audiences got up stood up and said "Excuse me one lives in the North Pole and one lives in the South Pole." How could they come together and that was the end of the Green Peace movement. Or what you call Global warming movement. Depends what we want to accept as this was done as you know years ago. And from that day on we haven't heard from Mr. Al Gore anymore anywhere. So we haven't seen anybody living there and the other side they live it concerns one of the two Continents as part of the Pangea. (BB) Thank you. (MK) Thank you very much. (LS) ... Mr. Keshe it's Lynn in Montana. I... I wanted to thank you and I just wanted to share I don't think I've been ... thinking quite big enough as far as the travel goes and I'll give a small example. I have a very

old laser printer and I... I was thinking today "You know this is getting old and I'm gonna have to start checking to see where I can find one to replace it." I walked into a thrift shop this afternoon and there was a brand new one that had never been used that was the same model for 5 Dollars. So I just haven't been thinking big enough about the bus ticket as you call it. But I... I wanna thank you for pointing that out because I... I talk this way to people all the time and yet I... I set a certain thing aside in my own life of "Well how am I gonna do this?" And tha.. and part of my issue is I've had siblings who have offered me the ... Le... "let me give you some money for the plane fare" and I said "I am not gonna go into an airport and be treated like a common criminal by TSA I will not do that." So along the way I've made I've made choices too and I... I wanted to acknowledge that ... when others have stepped forward to be generous and I've just said "No" I... "I will not do that" and I have... .. it's but it's despicable of what they of what they are doing to people in airports. And... and I don't agree with it and it goes against of what I would call 'the Peace of my Soul'. But thank you very much for all that you're pointing out today. It's really quite exciting thank you. (MK) Thank you very much. ... this is what is for us to enlighten ourselves in what is the capability of us without needing donations or somebody else to do it for us. And in respect to what you say the situation in the airports as you know we travel extensively and I call it "the strip club" nowadays. They take your belts off and your pants drops off they ask women to take their bras off and I call it "it's like a pole dance." And it's very funny what you say is very correct we see all sorts of funny things happening. But on the other hand it's our... for our own security to make sure we make them richer. This is something which ... if you travel the way we do is we give our water bottles back before we go through the machine and they sell the same water to us on the other side three times four times more. Which part of it is terrorism? And the funny thing is it's the same company delivering before you buy in the airport and the one after airport. Before the customs and after. But on the other hand we need the securities. I'm... I'm one of the greatest believers of... in National securities and in security operators. Because as Dr Parviz said they have created condition that people have become desperate to do anything to do to get anywhere out of the situation they are in. And this has changed the situation. I ... I've been traveling for nearly forty years plus.

We used to walk through customs. Customs were friends. Now the way is set up everybody is everybody's enemy. And this sells a lot of water. This sells a lot of things. But on the hand it sells a lot of haterism and this is the whole target. Most of these things have started since people in Europe have taken charge. And they're trying to destroy the rest. And you have to understand the European-American put together does not make 10% of the World population. And maybe it's time to tame this 10%. At least 5% of these 10% and then the rest will live at Peace. You got to we got to as a Human race to start looking at the reality and the position of it. I... I remember in 1980's I used to travel 3 - 4 times a day ... week sorry and actually a day too because I used to land in Paris Paris-Frankfurt Frankfurt-Amsterdam by 8 o'clock I was home back in Manchester. And I used to do it two three times in different part of the Europe because that was part of my business. I had offices or agents I had to see it was too much so but I had one rule I had young children at home I had to be home before they go to bed. We didn't have these restrictions we knew most of the custom officers. When they were building the the new second part of the Manchester airport I was such a huge traveler that the British air authorities airport authorities through number of the frequent flyers they asked me to be part of the member of the board to advise what things needs to be done in the new airport that it brings it to 21st century. And they used to pay me huge amount of money just to go and sit in Piccadilly Hotel for four or five hours every couple of months to see what needs to be done in the new airport. And I remember one day when we started the first five minutes the alarm went off was a fire alarm we all came out we got payed and we got bun and that was it. There was no meeting till the next time. ... but now we have created through selling arms terrorists which in a way we need there is some danger but on the other hand it's spread to be it came to be. Go back to the first ... aircraft highjacking done by Yasser Arafat who started all these commotions more or less. He was paid to do it. Terrorist terrorized to get his land but he was paid to do it to be able to do other things. If you look at the history of ... air traffic terrorism ... the 1972 Munich and the rest of it all came out of Palestinians which they would not given their land their right to be. But those who abused it to their benefit Where is the Swiss bank Gaddafi Arafat? Billions in it he took billions from Iran. Who's controlling them who's sitting on

them? We have the same situation in... in Bill Gates situation. Bill Gates and his wife hold thirty billions they say in ... a 'Charity Fund'. Why is not getting used for improvement of life and the other... other billionaires around the World? I was told "You are a stupid! Why did you share this?" "You could have become very rich." I am the richest Man on this Planet because I shared my knowledge with all of you. What is the wealth? Is to bring pleasure and I gave my pleasure to you by sharing my knowledge and that's what it counts. Man has to mature. They say that is theology and these things got to do with science? Because this science allows theology it's science allows Peace this science is the cornerstone of change. Those who say this it means "We want to carry on with the abuse of the past." As I said "Not in my time not under my watch." I'm no Moses and no Jesus. No suffering and no need to create condition to create suffering in the future. We don't look to give hand out we look to give the freedom that that car is yours you don't need to ask your children and you don't need to get on a plane And when you get on a bus you still get the same. Nobody checks anything on a bus or a fast train. But this time when you travel you travel with the Peace "That is me living in Peace that is brought me here." "I don't buy two tickets I don't buy ten holidays days extra to be I take a ticket because I want to see my mother I'm there. I do it the way I'm happy with it and I give the pleasure of my presence to my mother." Then when we learn we don't need to abuse the whole things stops. As I said we have a Swiss guy sitting on one of our teaching in the Knowledge Seekers and I said to him "For what we know the color of the cross of Swiss passport is the color of blood." And when I explained to him now we know all the gun manufacturing during the Hitler time done by the Swiss under the mountains by the money stolen from the central banks of different Nations killing so many people which now the books has opened up I said "I don't think that cross that color should be on the passport." Because is a color not of Peace but in a way is actually a color of the cross putting somebody on it. After couple of days he left the teaching because he understood how misrepresented the truth is. We have to forgive the past. We have no choice because we've done so much wrong to each other that it'll take another five thousand years just to clean up. Look at the Armenians. They still after hundred years crying for what they've done to them by the Turks. We need forgiveness. But not to forget that

we don't repeat it. Otherwise what did the Iranians do to the... What the British did to the Syrians? What the Americans did to the others? It'll never end. But with the eye of understanding the Soul and elevation of the Soul we can overcome it. We can thank we are here at least we learn it will not be repeated. And we need that changing point that through the new technology we open the Space to us that now we don't need to stay "In the village of the Earth" we become part of the Universal Community. This is not a wish. I brought the technology I delivered the technologies. The beauty of it is we are... We brought the knowledge none of you is using properly we are developing a knowledge and delivering the knowledge and the benefit of it we give it back to you for you to have a Peaceful life. I must have been a very crazy business man to do such a thing. But is a crazy science anyway! It's time for change. And the change will come. With the new... you'll understand with the release of the new IDs One Nation ID because we don't have a passport we'll change the course. Millions of people will sign to it. And then we are millions but we're citizen of this Planet we become a governing force. This is the plan we'll deliver it if I'm alive or not you will deliver it. The management will deliver it the Keshe Foundation supporters will deliver it. A banking system will be the only people who carry... we bank every money cent you draw with Gold. We go back to the old time. You have it you spend it. We have it because we create it we spend it. Because we see the time to be pleasure to be out to create Peace. We paid the... wall making machine management with Gold not to make. If Lockheed Martin may pay to the weapon strike technology guy hundred thousands I give him two hundred thousands in pure Gold every year. I wonder if he works for Lockheed Martin or he works for Keshe Foundation develop the same thing for Peaceful application. I win. I as us will win because we are correct. Today's teaching is to understand the evolution what this technology is going to bring now not in the future. Hopefully by next week we will see the first prints out of the One Nation ID card. Hopefully in the very short time we'll announce the name of the banks which are part of the Keshe Foundation banking system. Then you understand we mean business. We mean we are in business of Peace through the enforcement delivery of the new technology. I will deliver the Free Energy System. I'll deliver the Wireless Technology I deliver the new Medical Systems the new Feeding Sta-

tions. (LS) Mr. Keshe it's Lynn. Is the sixth Jew from Iran? (MK) Could be. (LS) Thank you. Perhaps he did better than the other five combined? (MK) They all did good. (LS) Okay. (MK) Thank you very much. Any other question? Let us plan for Peace we have the knowledge. Let us work to bring Peace. Let us be the leaders to be in the position that can deliver through technology not talk. When you can walk to someone and say "What's your name?" a man hungry on the street you sign him in you give him a card on the computer laptop you have and he receives and he can go and feed himself. And you say "The condition is you find another hungry Man." And the condition is "You never touch and you become Man of Peace." And he has to sign to it. The first time he takes money out of the machine he'll be surprised. Then the second time as well. He might eat a lot the first time he goes sick but the next time the same but the third time he knows is there. The biggest problem will be for the Banking System to stop Keshe Foundation ID cards Banking System. We have a plan behind it there is no problem. We enforce Peace through knowledge and to a setting up of the knowledge. And use by Man to create Peace through the knowledge. As I said "Everybody looked for government to receive knowledge in exchange for Peace. I gave you the knowledge for you to have Peace at your Soul. Then you change the Soul of the World leaders. I already done my job you were looking in the wrong pocket. The pocket was your Soul you're already sold. We brought the technology we taught the technology past few months we brought to understand you are responsible for use of the technology to ... correct conduct. Now we deliver the full whack of it. We are addicted to fear we're addicted to war we're addicted to confirm we exist and the reality we don't need any of it. If you speak about addiction what is addiction? We are addicted to different ways of different things that we have to do. And we know the track records. (Somebody's microphone is open in the background.) What is addiction? Can any of our doctors in the background explain to us what is addiction? Or anybody else? What do we call addiction? Anyone? Or would you like to go to Wikipedia? (RC) I was going to say Mr. Keshe I... I can provide you with the Wikipedia ... definition. Just a second here let me... I'll bring it up and we can view it actually. Okay so ... addiction is a brain disorder characterized by compulsive engagement in rewarding stimuli despite adverse consequences. Despite the involvement of a number

of psychosocial factors a biological process... (MK) Sorry I dropped off the minute you put the page up. (RC) Oh that happens to me when other people share
hmm. (MK) Okay. (RC) Interesting... hm. (MK) It's very interesting. (RC) Okay...
so... (MK) Read again please. (RC) Okay yes ... "Addiction ... is a ... brain disorder characterized by compulsive engagement in rewarding stimuli despite adverse consequences. And despite the involvement of a number of psychosocial factors a biological process one which is induced by repeated exposure to an addictive stimulus is the core pathology that drives the development and maintenance of a... of an addiction. The two properties that characterize all addictive stimuli are that they are reinforcing as in they increase the likelihood that a person will seek repeated exposure to them and intrinsically rewarding such as they are perceived as being inherently positive desirable and pleasurable. Addiction is a disorder of the brain's reward system which arises through transcriptional and epigenetic... help me with that one Guy... epigenetic mechanisms and occurs over time from chronically high exposures ... high levels of exposures to an addictive stimulus such as morphine cocaine sexual intercourse gambling etc. ... Delta FosB a gene transcription factor is a critical component and common factor in the development of virtually all forms of behavioral and drug addictions. Two decades of research into Delta FosB's role in addiction have demonstrated that addiction arises and the associated compulsive behavior intensifies or attenuates along with the over expression of Delta FosB in D1 dash type medium spiny neurons of the nucleus accumbens." Better look up what nucleus accumbens is I guess so we... I thought it would be some part of the brain. It's the "region in the basal forebrain rostral to the preoptic area of the hypothalamus." Okay ... They have a mouse brain I don't know why not a human brain but... Okay so suffice to say it's part of the base part of the brain we go back. Due to the causal relationship between the Delta FosB expression and addictions it is used preclinically as an addiction biomarker. Delta FosB expression in these neurons directly and positively regulates drug self administration and reward sensitization through positive reinforcement while decreasing sensitivity to aversion. As... "as described by two groups of researchers addiction exacts an 'astoundingly high financial and human toll' on individuals and society as a whole through the diverse adverse effects of drugs associated healthcare costs long term complications such as

long cancer with smoking tobacco liver cirrhosis with drinking alcohol or meth mouth from intravenous methamphetamine. The functional consequences of altered neural plasticity in the brain and the consequent loss of productivity."

Okay that was part of that sentence sorry. "The classic hallmarks of addiction include impaired control over substances or behavior preoccupation with substance or behavior and continued use despite consequences. Habits and patterns associated with addiction are typically characterized by immediate gratification short-term reward coupled with delayed deleterious effects such as long-term costs. Examples of drug and behavior addictions include alcoholism amphetamine addiction cocaine addiction nicotine addiction opiate addiction food addiction gambling addiction and sexual addiction. The only behavioral addiction recognized by the DSM-5 is gambling addiction." And "the term addiction is misused frequently to refer to other compulsive behaviors or disorders particularly dependence in news media." "An important distinction between drug addiction and dependence is that drug dependence is a disorder in which cessation of drug use results in an unpleasant state of withdrawal which can lead to further drug use." "Addiction is the compulsive use of a substance or performance of a behavior that is independent of withdrawal." (MK) Would you like would you like to go up? Would you like to go up in it? And ... there are a few points. Let's... let's look at one way or I put it the funny way in some of my presentations is gonna make you a bit thinking but it might make you a better laugh is we are all born addicted. From the second we are born as we are even in the womb of the mother we are born addict. So addiction is part of our structure. What are we addicted to? Look at the birds look at the bees look at the Man We're addicted to reproduce to guarantee the survival and for addiction we get paid a stimulant. So we are all born to be addict we are born addicts not to be addicts we are born to be addicts. And we get a reward. In our sexual behavior what do we get? Pleasure of sense for a few seconds and that's a paymaster that's a payment and we have a reason for it that we guarantee the survival of the race. So if we were not addicted we choose once we make love once and there be one child and that's it they'll be systematic But is reward return. But we get addicted to the reward. So in a way Human race are born as addict from the time they were born we were ... born. We're addicted by rewards of the pleasure to pro-

duce to guarantee the survival. So in a way addiction is part of our structure. What are we prepared to do for it to get it? And what are we prepared to lose because of it? Drugs sexual alcohol gambling all falls in one pattern Self gratification I've done my job. I've done I've managed to spread the egg. I managed to ... take pressure off me. The reward is in a way the same What is in it for me? Am I getting satisfaction out of it? So in so many ways if you go back to our teaching. If you understand most of the addiction has a Emotional reward but involves a physical action. So this means this part of the Emotion connection to Physicality has to be looked after it. So what do you do in the Soul of the body of the Man? What do you do with the brain of the Man? The connection between the Physicality and the Emotion has to be corrected. Needs to be put right needs to be connected So in so many cases we need to elevate the Emotion Zinc Oxide CO₂ But the connection has a physical connection because I make love to get the reward but I need to use my body to get a sexual behavior to become habitual to it. So it has a connection with Magnesium because it connects the lack of the Physicality satisfaction or repetition of the motion. But internally connects your soul with your Physicality of the brain. So there is a lack or shortage or need for the connection between the internal structure of the brain that you don't need this to elevate or to increase the Emotion. So you need a Potassium. internal connection. You have a CO₂ you have a Zinc Oxide you have Magnesium you have a Potassium you have CH₃. Now you have to find out what energy is lost in the process of gambling of sexual behavior that it needs to be fulfilled as a energy that becomes the reward for the body of the Man that we can fulfill it with CH₃. So CH₃ as a energy reward is part of your connection. This stimulation is how much we can change. Do we want a change? Or through our addiction we satisfy a self behavior ADHD Attention deficiency because I need attention to myself for myself. So this comes to play with Omega 3 with reproduction of the cells which can be as part of delivery of the reconnection in Iron of the proteins inside the brain of the Man. High ED heavy on the behavior part than on the activity part of the Omega 3. So if you can get this process correctly balanced that you don't increase to much energy you don't increase the balance in the Emotion. But you balance between the Magnesium and the Potassium side you have cracked the addiction. I've done this many times. And as it was in the teaching

with Caroline yesterday she was explaining as part of the teaching I've done in the past That certain addictions you're advised not to touch to reverse. You can reduce like smoking if you are addicted to tobacco and you are smoking for 30 - 40 years 20 years whatever your body has adjusted you have to bring that addiction under control in the slightly different way that the body does not crash you don't create other illnesses. But other addictions like sexual addiction gambling addiction ... drug addiction you can all bring it under control. I've had people from England who were drug addicts and smoke addicts and after the first day they could not even stand the smoke because there was no reason for it. There are people who internally in their brain structure go for addiction for fight creating fight in the family because they get satisfaction of... it's kind of addicted they had to but if you understand the reason in what needs to be satisfied you'll see no more. It's the same with the sexual behavior the same with the ... drug trafficking what we're... get involved. We can do everything but we have to sort out the problem and the problem is we are born as addicts because is part of us. We're addicted to sex because we don't do it once and that's it once in a lifetime or twice in lifetime We do it frequently have we get addicted to taste the others and the other things and the other things with it. I always say the... the.. the problem with the Western World is that the youngsters sexual behavior is "We taste this one girl to another boy one boy to another girl every week every two weeks every few months a new boyfriend a new girlfriend it's like going we go to the Chinese then you go to the Italian then you go to the South American then you go to the Mexican you become a taste for different foods. Or is it the law of what we say "No sex before marriage" and "stay faithful within the marriage." but they say "How do I know what I miss if I don't taste?" then become addicted to it. We see this heavily in the western world. It might not sound or might sound strange to the people in the other part of the World. but if you live in Western World in England and the other places ... change of sexual partner on the weekly basis is as changing a shirt. Because it becomes habitual you become addicted to "What's next?" In the ... in the West in the East this is not... this is unthinkable I've been brought up in the Western and the Eastern culture both. Then I've seen it and understand both of it. The whole Nation especially British young generation are addicted to this alcohol and sex because there is no

boundary then there's no morality left and then become addicted to it and you do it. How do we change the society? It's a society problem how do we change the structure? It's unthinkable when... I told this to Caroline when I met her years ago she said "You're crazy!" And when she moved and lived with our children in England she said "You are right we should have never brought them to England!" You have to understand what as Nation we become addicted to what give us a kick? Some we accept because it's good or we take pleasure we think it doesn't harm us. But addiction is a physical Emotional need which needs confirmation of existence. If you can give the confirmation to another addict being heroine cocaine or whatever that he is worth what he is. He's a human being he's respected. Increase his level of his Soul which is a massive dose of a specific type of Zinc Oxide. You have to produce these on a specific way it took me years to develop it. And it's a bull's eye Then the man stands and says "I don't need." "Everything I did is revolting I will not stand it." But then you have to support the Physicality and the Emotion with the internal structure of the brain which is based on Potassium. Then you need the linkage between the proteins of the Physicality and mental internal connections which is with Potassium Magnesium which the best link we have is through Omega 3. And then you need energy because whatever is damaged needs to be rebuilt that you don't look for that position of energy because adrenaline gives energy releases huge amount but you have to be able to substitute it which is CH3. It's a specific dosage a specific way you can walk away any addicts from any addiction. The only addiction you can not stop is sexual behavior because is ingrained as part of reproduction we have. But you can bring it under control to understand. This is what I need what I want this is what I said in my... all teaching. "Mistakes of the Prophet past will not happen not in my time not under my watch." Because we understand the addiction we understand the pleasures of it. Why somebody goes and gambles? I stood in ... Atlantis hotel in Bahamas used to be my playground for years and ... is the biggest casino in the World. Used to be the biggest gambling place in the World. And I stood and I watched people losing hundreds of thousands of dollars a night and walking away. And I couldn't understand how can? Two ways it comes freely they don't care or it comes to self gratitude "I can lose 'cause I exist." When I talked to many of them I said "How can you lose quarter a million

on table a night and walk away?" "Ah" he says his "business is good" "I don't even feel it it's there tomorrow morning again." But one thing I always said to them "You're addicted to confirm you exist." "You getting other people to work for you to confirm" "I'm here I can." "But try to use the money somewhere else to help somebody with it and then you say" "you can." I watched World wrestling champion losing 800000 dollars in one night The boxing champion. And I asked them "How can you lose?" You go to Vegas you see the same. This is the pattern which is... it can be stopped. But you have to understand we are born addicts. because with this addiction we have reproduced we go to reproduce again again till we get it right then there is a child that it can guarantee our survival. It's a rabbit or a rat or a mouse in the cage. We go for it because there is something in it for us a reward. So if you understand this we can change a lot of things. A lot of addicts a lot of addicts given be the pens if you create a right pen and you just put in their water in their drink but you have to create the combination of it. We did some tests with one of the doctors who's present here last year. They changed they feel they change but they won't follow because then they don't confirm their existence but then you have to follow with a heavy dosage of Omega 3 for six weeks eight weeks and heavy ... Zinc Oxide dosage of a specific way. There's specific Zinc which you produce for ... addiction is very very specific. You have to create... Can I share the screen please? (RC) Go ahead Mr. Keshe. (MK) Okay I think I go... but why doesn't it go? Something new on it. It's says "Desktop 1 desktop 2" I don't have a desktop 2. Let me check something. There is something strange here please. Stop sharing. I have a problem it just stop. Let me reset my system please. I have to disconnect and reconnect for the system to become operational. Okay let's try again. Is something to do with my teach... Oh yeah it's okay now. It's come back in. Okay what you need. If you go back to the teaching of the last week... I have to go this way up there. Okay! Go back to the teaching of last week. If you remember I explained ... combination boxes. If you have a combination box you have to create a specific way of what you need. You have a Zinc Oxide because is Emotional. So in a way you use double boxes an area volume area. So we go if we go let's say... one two three four five six and four. What you need to do you need a volume area. So this is to do with Zinc you need that much Zinc. I explain to you when you understand more.

Then you need to create a dimensional strength which is Potassium Magnesium. And then you need to do because you're dealing with both sides of the Emotion with two half of the brain. You do the same. But at the same time you need to add dimensions of energy. But at the same time you need to bring in the game played by CO2. To be able to connect energy to all. There's one factor left which is most probably the most important one. Is allowing in a very very very simple way in a what we call understanding the process of... Emotions which are connected with Physicality. Which means you put sorry you put Zinc Oxide in a given positions. This will support the Soul and the Emotions. This part. These Zinc Oxide connect to the physical body of the Man in a different way of addiction. So what you need to do you literally take GANSES according to the progressive or the process of the addiction. What does a drug addict needs why does he inject? What does a sexual behavior addict is? You choose boxes. If you do the same repeat with three boxes especially then you can you do much better job because then you control most of the things. Do you want to take from the Soul? Do you want to take from the interaction of the lung Emotion or would you like to take it from Physicality? Then you can walk in and walk out. Within most probably the first two three weeks you see the walking ending of the addiction. If you made this you understand something very very close by will come to reality. And this is the Amino Acid. Sorry you disconnected me. (CdR) I did ? How? (MK) Yeah. I don't know... Can you hear me? (RC) Yes uh-huh. (MK) Oh I lost... I lost my screen. Okay it doesn't matter ... you just touched something. Something happened (RC) We... we still see you screen. So maybe it ... (MK) Yes I've lost my teaching screen sorry. You disconnected me totally now. (CdR) You know I can't (MK) Yes Madame de Roose are flying around doing things (CdR) [laughs] (MK) Women have some advantages and some disadvantages sometimes. (CdR) Energies. (MK) Yeah I gotta get it back just wait. Okay I'm back. So what we see is the Amino Acid. If you make a combination of Amino Acids of which part you are dealing with and then make the GANS of it you more or less near enough depending on which stack you use you have achieved Omega 3. Near enough to and the whole thing cost less than maybe \$10 to make. Do not forget you only use the GANSES of it not... ...the liquid GANS the Plasma water and Not the GANS of it. This is part of the development to understand the Totality. That's

why part of the teaching last week now you can understand how to play how you make things. Don't forget when you make the boxes the first box and the last box need a balancer. Not a energy source but let's say a... usually green or a red ... LED light is just about the right. Then you let it run for a few days. I need to do it this way then you can see it better. This is Zn. This is Magnesium. this is Potassium. Magnesium Potassium CH₃. I put 3 on it that you understand. And then you have a secondary... CO₂ I put Carbon here then you understand and then you need the Zinc. You got to understand these Zincs are not the same as the Zinc in the center. This Zinc in the center specially the top one is the level of the Soul of the system. Because when you have a system like this it feeds like this. These are the Zinc one in the level of the Potassium because you need it internally to satisfy. You don't need that much because these two together will feed the Zinc of the Emotion of the physical it sends and this make all the connection and the energies needed. This is more or less near depending on certain people it's more or less a good guide for making systems which can overcome any kind of addiction except sexual addiction because that's ingrained in our DNA and in the RNA we cannot change it. Otherwise we'll stop producing and become what you call it ... 'Chemically modified beings'. Any questions? (LM) Mr. Keshe ... the Potassium and the Magnesium what are you using to create those? (MK) I usually go for vegetation and I use the easiest for me was homeopathy tablets. Because they carry their Field-Strength and they are very good to use it but it needs a full understanding of it. If you look here we haven't used any Calcium whatsoever. Because there is no need for production of new cells it's just changing the strength in certain cells. (SK) Do we use magnet ... Magnesium as metal or Magnesium as salt? (MK) ... I use Magnesium through vegetation because the metal has a problem then you have to convert it. If you can find Magnesium some of the homeopathic Magnesium are the best. I found out because they are already in a strength balance you just convert it. But you need to know what you're doing it's not just getting it because it's there but ... you can use ... Potassium's highly rich vegetation with Potassium Magnesium will help you. (SK) So therefore ... we don't make plates there? (MK) No no no no no no no no no no. These are Emotional factors they're... you are not dealing... With the plates if it's a need for Magnesium like cramps leg cramps and that kind of

things you can use that because that links to the Copper. But in the... for the brain of the Man or for the Emotion of the cell you don't. This is not a medicine this is understanding the process of the Field. (SK) So... (MK) We don't enter a medical application it's an entry understanding the process of the evolution in the structure of the brain. (SK) And so how we connect to those cells then? (MK) Usually usually... you use the wires in different layers. (SK) Zinc wire Copper wire Nano coat... ? (MK) I all... you choose I... I always use normal Copper wire. (SK) Thank you. (MK) 'Cause after a while you see all your wires gets Nano coated anyway. (SK) Thank you. (MK) But ... (SK) Thank you that gives a better idea. (MK) Pardon? (SK) That gives a better picture about ... the understanding of the ... process. (MK) I wish I had it's we have pictures of it. Do you know whose got all these pictures ... very good? ... It's Dirk Laureyssens he's taken many pictures of these plates. If he could be kind enough to release it in ... my website which he's created it you can see it. He took many pictures of these settings. (SK) Well if he would be so kind to share them? He's a very kind but it dependent on what benefits one but this is there it's ... somewhere in there. You can see it ... one of the first ones. I used to have one on my table and many back in my lab which I could manipulate. (SK) we can check on the archive.org ... for old versions of your websites. (MK) Is usually connected... It's usually connected.... you see in these boxes the Copper you see the CH₃. You see the CO₂ you see the Zinc Oxide in all the webs... very clear. Very clear in it ... These are the ways now that we have understood more and as a part of the teaching I brought last week ... system we can use. But the point is if you take these GANs and then make the GANs of water of it Then ... you will understand certain thing that for example this box here carries a Potassium salt. This box here carries Magnesium salt even though you started with the Sodium Those salts which people been looking for to find your find them here. Because now you are in a Plasmatic condition. So the... the... the... the amino acid on the top cannot be produced if the right salt of the thing was not there. And the connection is very simple I use a simple mesh Copper mesh Copper mesh Copper. But ... this... these systems your Copper behaves according to Zinc if it is connected and produces. That's why you see different materials being produced in the box You see green you see white you see ... what you call it ... 'orange'. Which is... in some boxes you see blood

and ... it's all in the same box. But if you take this ... GANS waters and make the same system in the dynamic way then you have a different process. Those medical doctors who are working on these things if you make the same organization you take it out first. You produce the boxes then to take the material out and place these back into the... into the dynamic system. The same thing then you will see different things. You produce new materials in a way if you can do it back in it. Any other question? (LM) Your ??? (MK) somewhere in.... Pardon (LM) Mr. Keshe ... your other layers of your boxes will they just have the same repetition just in... (MK) No. Then you have to understand if this has to do with the brain and the Soul then this is the body. This is the lung section and the heart and this is your stomach and the rest of below chest. And ... you have to find a position of the body in the respect to it. Which organ you have what you talking about. Once you make one of these boxes it's very easy you can keep on using it in different way of loading. If you look at the box for the second layer if we call 1 this layer 2 and the 3. If you look at it this way because you are looking down I always allow this here this environment here only for heart where I split the rest here for the lungs. Heart has a red muscle tissue lung doesn't. So here you can use Copper but here you can't you put the Copper on the edge which has nothing to do with the white cells. Then when you go to the... even if you look at it in a way of the discs your certain part when you have the discs problem in the boxes you put Magnesium. Because Magnesium is a ligaments connection it's... it's what you need for your discs or cartilage. You can do a lot of things with a box like this but it needs a lot of experience I've worked on this for years. You pan out to the pancreas in the bottom one. your ... liver your kidneys And you produce more or less precise amount and precise strength for the disease but it needs a lot of knowledge (RC) How would you suggest that people ... approach that knowledge Mr. Keshe? Like you... you wouldn't ... have you know I know you you would not be measuring out to the microgram. (MK) I never measure as I always said "God has no scale in the Universe." (RC) Right! You probably don't even have a measuring cup to measure it's But you... (MK) No. But you work on the principle let me explain you work on a principal that the body takes what it needs. So you don't need to measure it the body does the measurement itself. (RC) But you have to have some rough ... guidelines that

somehow... (MK) No you provide... You... you make it available... (RC) Is that your intention in a way? You've set your layout here. You... you've visualized that before you even set up ... I mean when do you start visualizing what goes where ... what part of that process? ... Do you visualize it first and then you manifested it according to that. Or is it you sort of feel your way through when you're changing things each moment as you go? (MK) No no... (RC) According... You probably use... (MK) No it's... You need to have a extents of knowledge I have in body of the Man. (RC) Uh-hm. (MK) so everything... (RC) The tissue salts in difference... (MK) Everything else is considered yeah. (RC) And it's not just one teaching it... it's accumulation of various aspects ... like this part of your family? For example the idea of ... creating ... different things like this. It's part of the... one part of your family is I understand? Your... your history and so on that way. So others... (MK) I come from a world of medicine men. So as you know... (RC) Right right... (MK) I don't know how much of it has come through the brain that way (chuckles) (RC) Well is it a brain thing that's the thing is it have to go through the brain? or is it access some other way? (RC) ... is the knowledge... isn't it that..? (MK) The knowledge... (MK) But... Let me let me explain. Let me explain. This... this structure applies to every being in the Universe who has a physicality or not. Because then you decide which tray you play with and which one it is how it is. You structure the being in... in a way that you can manage in bits. The... As I've said many time "The physician of the future" of the Space will have a wonderful time." "Because the knowledge of understanding different problems for different creatures of the God will bring the scientists doctors to the verge of feeling to be God." because then they can touch everything and they can reach And declaration of being able to help will feed them more knowledge. I carry knowledge from depths of the Universe. So for me these things have been set up it's very easy because I understand the Totality. And as I've said "as we mature more in science we can do more we can show more. You can pinpoint accuracy which organ you want to grow and where there is a problem If you have a heart valve problem here you you can literally pinpoint to change it. If you have a blood blockage in the veins of the heart you can literally work with it and change it. Shall we call it a day? Or if there are any other questions? (RC) Yes we're up to our 3 1/2 hour usually sort of time to ... wrap things up. There is a...

Warink had a... a question in the Q&A. It goes "It has been said that trees are vertical people. Can the cells of our Human bodies be considered vertical people as well? ... Will The One Planet One Nation resemble this structure so that Humans become vertical people as well? Looking from the outside the blueish Planet already looks as One. (MK) Yeah but if you call the vertical people. What do we understand about the Soul of the vertical people? Where is it and how is it positioned? Maybe next week we think or we teach or we ... inspire each other on that side. Because the Soul of the plants are very much different structure than the ... they structured themselves positioned they're not structured themselves in a very different way than Humans or the other animals or other creatures on this Planet. (RC) Uh-hm Okay. Well that could be a good topic for next week? If we can ... ponder that. (MK) If the pay's good I'll turn up. (RC) Okay. We have to have something to entice Mr. Keshe. I'm not sure that is well I'm not sure what he's addicted to that we could offer? (laughter) (MK) No no. Sharing knowledge for... (G?) He's addicted to us eh? (MK) I... I... (RC) What did you say Guy? (G?) He's addicted to us. (RC) He's addicted to us. (laughter) Well as long as we show up perhaps you will then? (MK) There's no problem in the beginning was just you and me we showed up Rick. (RC) Yes (MK) ... The... the point is sharing knowledge if is used the right way is fascinating. Because it shows us advancement of the race. We come to share knowledge to bring advancement and Peace and we know exactly what we've got to do. But there's always say "Always we give a man to fail a chance not to fail" "and if he does you are there to give a helping hand to go to the next step." "And then start again." But this time we will achieve everything we are here for. To open the doors because it's been taught enough that half-cooked can create a lot of problem. But this time we'll do it correctly and we go through it. There shall be no problem. ... The only thing as I said "we have to consider the new condition the new position that the Foundation is to create and is creating to create World Peace." And we have all the tools to do. We have tools to disarm we have tools and the knowledge to create everything that every government needs to guarantee that the banking system works. Which is owned by Keshe Foundation and at the same time we have systems to deliver if there is a blockage. So the choice is to work with us is to change the condition. At the same time make life comfortable for every being

on this Planet. No Man needs to die of hunger on the streets of India and no Man needs to believe with billions of crime on his hand of what they have done to the others that their Soul can not be elevated. Thank you very much for today. And I hope ... we share more knowledge next time in a different way. Thank you very much Rick. (RC) Okay thank you very much Mr. Keshe. (JG) So Rick. We cannot give him the 500 now. We... we need to change the currency (laughter) (RC) Okay well some Gold that you create might be a... might be one way. (JG) Yeah Plasmatic Gold and ... 500 thanks. (MK) Thank you very much indeed. (JG) Thank you Mr. Keshe. (MK) My Soul goes to all of you I hope Humanity finds Peace. (RC) Yes I am present. (inaudible) (GM) I am present too. (RdF) I am present. (SK) I'm present. (BB) I'm present. (AF) I am present. (UC) I am present. (BM) I am present (RC) And there's many present through the chat and... (MK) For those who don't understand the 'present' means "I give from my Soul for elevation of the others." (JG) Present I am. (MK) Thank you very much. Would you like to take us out with a song? (RC) Oh yes thank you for that reminder and ... we'll get that lined up here. (MK) Let us know next week what you've done to let the World leaders and the others the Human beings to be enlightened that we can learn from you That we can do to repeat... (RC) Okay thank you for attending the 191st Knowledge Seekers Workshop for Thursday September 28th 2017 and let's go out with our ... slide show and ... audio music.
