The Keshe Foundation, an independent, non-profit, non-religious, space-based organization founded by nuclear engineer Mehran Tavakoli Keshe is introducing to humanity the Science of the Universe, Plasma Science Keshe Foundation develops universal knowledge and space technologies that provide solutions to major global problems, revolutionizing Agriculture, Health, Energy, Transportation, Materials, and more. The application of Plasma Science in the form of specially developed Plasma reactors and other devices, will give humanity the real freedom to travel in deep space. Plasma Science exists throughout the whole Universe. It is here and it belongs to you. Our knowledge, research and development regarding the Plasma structure has progressed to the point of enabling everyone to participate in the process. Become a creator and understand the work of the Universe for the good of humankind on this planet, as well as in space! The use of MaGravs, Nanomaterials, GANS, Liquid Plasma, Field Plasma and other Plasma technologies have come as a new dawn for humanity to progress and work in harmony with the Universe. Conventional technology applications are wasteful, damaging and cause pollution to the planet and all living beings. Plasma Science provides solutions and improves existing methods and use of resources in all aspects that touch the lives of all beings. Plasma is

defined by the foundation as an entire content of Fields which accumulate and create matter and it's NOT defined by its physical characteristics like ionization or temperature. Also, with Plasma science, we understand how we can convert matter back to the Fields. Quoting from Mr Keshe, "MaGrav stands for Magnetic-Gravitational, which means Plasma absorbs or gives. And every Plasma has the both, it has give and it has take... And when they can't find the balance they distance themselves until they find the balance they can give to the others that they can receive what they want to receive and give further." Certain atoms and molecules release and absorb Magnetic or Gravitational Fields. Released Fields are available to be absorbed by other objects. The Keshe Foundation has developed a way to gather these free flowing Fields from the environment within a resourceful and beneficial new state of transitional matter which M.T. Keshe named 'GANS'. The first step of the process of the formation of various basic types of GANS, is Nano-coating metals. This is carried out either chemically by etching (steam coating with Sodium Hydroxide) or thermally by heating (Fire Coating by gas burner). During either coating process, gaps between the outermost layers of atoms are created. The residual coating is often referred to as nano-coating, defined by the structured layers of Nanomaterial, which build up during the creation process of the coating. Nano-coated metal in interaction with other various metal plates, in a salt water solution, creates MaGrav Fields. These Fields then attract available elements to form a specific GANS, which collects and settles at the bottom of the container. This GANS is formed from independent energized molecules (like little suns) that can be used in various applications.

(RC) Welcome everyone, to the 195th Knowledge Seekers Workshop, for Thursday, October 26, 2017. I'm Rick Crammond, your host for today, and once again we'll be joined with Mr Keshe of the Keshe Foundation. And he will be delivering today's knowledge in today's workshop, and I think he's ready to go, with today's presentation, Mr Keshe are you there ? (MK) Yes, good morning, good day to you, wherever, and whenever you listen to these Knowledge Seekers Workshops. As you have gathered, as of past couple of weeks, and more or less, last week. We have entered a new way of teaching, not new way, but going to the

next level of understanding. A lot of people were surprised, a lot of people could not understand, the teaching in the past two, three weeks. Because, it's gone to a level of self evaluation, self understanding, and then self trust, that we have the knowledge, we have the power, we have the confidence, we have everything. And now it's us, who's to make the decision. As I've said in the past couple of days teaching, "The transition from the Matter-State, to the power of the Soul of the Man, is one of the most difficult parts for many people. " Physicality is easy, we can reach it and touch it, and because we have made these senses, we trust them, even though they fool us. Now, we have to trust our Soul, we have to trust the creator of these senses. And this is what we were not educated, this is not, what we never been told. We're told: "It's something imaginary, somewhere." But we never stood still, to think it's within us. Is us. It's us who makes the understanding of these feelings, is us who understands. Is us who creates the Emotions. Is us who decides in interaction of the other Fields, with the Field of our Soul, how to react. This understanding of one's inner being, what we call, the 'Soul of the Man'. It'll be one of the most biggest revolution in the history of Mankind. We had the Industrial revolution, now this is a Soul revolution. It's so powerful that it'll frighten many people. But, it's so friendly that many Nations, many people of a different line of thinking, will grasp and run with it because they're the missing dots, the story is complete. Many messengers of the past, tried to explain, but Man was not ready for it. This time, we educated from the base, that now, every Man is ready for it. There is no gap in the knowledge, there is no point of ignorance, there is no point, that we don't understand, that we make somebody else Prophet to tell us. We become the Prophet of ourselves. We become the guidelines for the standard of our own work. We become the True Essence of the Creation and with it, we understand more. There is no tools, Mankind has not created measuring tools for this. To measure his own Soul, the power of his Soul. The only thing he can do, is to, what we call, in a simple way, call it 'a Wish'. Call it, 'my decision', call it, 'I can change'. Call it 'I am the Creator of the condition, I Wish'. But, one thing you have to understand, the Wish has to be neutral. The Wish cannot be imposing. The decision cannot be, that, "I want, it has to be." Because now, you are in a mosaic of Fields. All have to agree, and what is agreed, is your share. Because everything is equal, everything is correct. Everything is

according to the understanding of the balance of the Fields, of all those who are involved. The wife, the husband, the dog, the house, the trees, the plants, and now that we join in Universal Community, every other entity in the Universe has a say in our Wish. "I like to take your Wish. I don't need your Wish, I don't need the Fields you give because if I take what I do not need, I steal, I'm correct." For Man, to come to this point of maturity, it takes a lot of understanding, a lot of self-confidence. A lot of knowing, "The Master is me." A lot of trust in understanding, "It's my Soul who'll run my Life, not my Life running my Soul." We move away from the dimension of Physicality. But, we use our Soul, to become Physical at any point in the Universe, as we need. In the Universe there are many nomads. Those who lost home due to interaction of the Fields, of the environment, be it the Planet, be it the Space in the Universe, be it the Moon of a satellite, or whatever. Because, they never went through the full process of understanding the transition of the Soul. In so many ways, they gone to the process, of what you call the 'spaceship'. But they never understood the next step of which we teach here, in so many ways, many of the Human race, will become passengers of the Spaceships. Because, in the Spaceship, you create the condition, which is relevant to the creation of the Amino Acid, of the Man on Earth. In a dimension of the Soul, you travel the depth of the Space, independent of the origin. Because you understand, you work within the Fields of Plasma, not within the Fields of Matter-State of Plasma. You give manifestation to yourself at any point, "Where I lay my head is my home." "Where I sit, where I decide, where I transfer." In so many ways, the writing of Bahá'u'lláh, bless his name come into operation. The mutation of element. We mutate to what we want to be, This is a knowledge, at this moment, beyond understanding of the Man. But, as we teach, Man in time will understand, and then gradually will understand what to do with it. Those, who decide, to become the Man of the Earth, stay within the Earth Planet work. Those, who decide, to become Man of Universe, and travel within the structure, of the Planet Earth, preset condition of Amino Acid will become, we'll take into the Spaceships, some might endeavour a step further. Those, who understand the true meaning, of the work of the Soul of the Man. Which is itself a star, they become a Star within the span of Universe. This time, you decide the position, the Moon, a Planet, a Galaxy, a Universe, transmission and transportation amongst

the Universes. This becomes easy, because now, you understand, the inner being of the Creation of the Universe. Not many people will achieve, but many will pass. There are many in the Universe, who have already achieved that level. In time, Man will understand, the meaning of these teachings. But, we have to teach, to set up guidelines. But, on the other hand, those who want to be the passengers, of the, what you call, 'UFO's'. Those, who want to be the user of MaGrav's, or Power Units, or Pain Pads. That's the level of their understanding, there is nothing wrong with it. There is nothing wrong with it, they'll catch up. There is an English say. It say, "If you don't want to be a tomato, you better Ketchup." "Tomato rots but Ketchup stays, as it's preservative in it." So, you have to understand, how and where and to what state? You see the state of your soul. I am happy, within the matter state. I just need a little bit more comfort. I'm happy to be without pain, to be without damages to my existence. Without being worried about the shelter. Being worried about food, being worried about whatever. You'll find out, with this new knowledge, there is a big problem for governments. Lifespan goes in two, three, four hundred years. This is known, because now you repeat, you replace, you change, you understand the mutation. But you still want to be in the state of Physicality. The present governments will have a huge problem with this extension of life. We've seen, how life has extended with new materials, of the past century. Average lifespan from 40's, is stretching to 80's and 90's and 100 in some countries. With the new technology of the GANS, you stretch to three, four, five hundred years. It'll become known, but the problem for the government is, pension line is 60 years. I work from 20 to 60, 40 years, and the government pays for 400 years for me. You can see the flow in the structure of the society. It comes to the point, due to the advancement of the technology, and what is to be introduced ? The death rate will not be there, but the birthrate will be there. We will be productive, into two, three hundred years. Many times. A number of offspring's will grow. The population of 7, 8 Billion will run into 20, 40, 50 Billion in a coming time if man does not understand, what to do with the new technology. These are for the future governments to sort out. But, at the same time, it has to be looked at, at this moment of time. New technologies gives access to new dimensions of life, It's us who has to understand it. This is why, one of the reasons, in the background, we have set up the new, 'One Nation Banking

System'. This way, everything will set in its own course. It'll be looked after according to what it come. We have to understand, what it is. How do we extend life ? Where does the mutation comes? To what extend we want to mutate? Does the mutation means, me to be present, at all time? Or does it mean, I am present, when I want to be? On the other time, I preserve my energy? I preserve, that others can survive. I give, that I allow through my soul by giving, I nourish the others and that's the purpose of my life. In the teaching of last week, a lot was taught but not many understood. In time, the story of last week, 193 will be understood. 194 will change the course of Humanity, once the Man understands. Today, we try to go in more depth, in understanding the structure of our own Soul. The structure, of the work, of the Soul of the Man. Those of you, who have understood the structure, of the Amino Acid, now we go to details. More details, because now, we had enough time, Doctors and those, who understood the work have gone deeper. So, we can open the path for them, that they can expand their knowledge in a given direction, as they choose. We do not set the course. We teach, it's your decision, how to use it. Many of the physicians, have already, as I said, start looking in the effect of the Soul, and they see, they get different results, than when they were working, with the Matter-State of the body of the Man, through the Matter-State of the Earth. We need to go in next step, of educating. Next step of understanding the creation. Next step in knowing, how we become to be, what we are? And how we decide what to become, at the point of destination? If you look at the Amino Acid structure of the body of the Man. Is made of four basic elements, which is the gaseous part of the body of this Planet. But, every Planet, every entity has, what you call, 'gaseous' What we call, 'Float Field Plasma condition'. What it means? It has not changed into a Matter-State of tangibility. But it has effects, that it can change itself to what it want to be. The Oxygen, the Carbon, the Nitrogen, and the Hydrogen are in the air. The condition of the environment, which we create, on top of for example, CO2 box, creates a condition, of creation of amino acid. What do we do with this amino acid ? We add Iron to it, it becomes blood. We add Magnesium to it, it becomes the structure of a Planet. Then we can change different way with it, it becomes red, or white flesh. They can mutate it, in a way by changing the condition. You become the fish, or the cow. Or we can change it, and become life, without physical

structure, but a Field of Plasma, which has no attachment to the Matter-State of this Planet, which become, what we call, 'the free Soul', 'free entity' above the head of Human race in the upper level of atmosphere. If we can leave of different strength of it, we become passengers, and life, within the span of the Solar System. If we extend it, to understand it further, we become life in the Galaxy and in the Universe. So, it's the condition, which dictates the Physicality, and the faster we understand this, the faster we can move on. But, when you collect combination of Field-Strength, and they come to interact, they always create a condition, that, we call it, 'a common ground', that all can tap into. Is like a bank, I have extra money, I put it in the bank, the one, who needs it, come and take it, the other one, who wants to be in and out, puts it in and take it out. And the other one says, "I hold on, I sit in the Central Bank, and you come and take, whatever you like from me, and I give to everybody unconditionally." In a condition of Amino Acid, the guy who looks after everybody to be collective is the oxygen. The guy, who is a provoker, of releasing the energy, whenever is needed, "I'll come and release a lot of extra energy", in the bank, is mainly Nitrogen. But, the Nitrogen has to give and find a way to deliver, that it all can be balanced, Carbon plays a game. But there is a guy, who is a spender, the young boy in town, who wants to spend as much as he can, he doesn't care, where it comes from, that's the game of Hydrogen. So, one gives, one takes, one communicates and one hold on to. On this Planet, due to interaction, of the Fields of the Universe, due to interaction, of the Fields, of the Sun, and the Fields of the Earth, leads to Creation of Amino Acid, of this Planet. Every part of the Universe has its own Amino Acid. His own level of the Creation of Life. And what you put in that Amino Acid with it, around it, inside it, in this proximity, it dictate what that Amino Acid is going to change or manifest itself. Then, the Amino Acid can mutate. The mutation of the Amino Acid, of an environment, is the key to the existence. It's the key to the Life, and then if it mutates Field-Strength, not Matter-Strength, it can reach the strength of the Creator. What does this mean ? The Fields of the Sun are free-floating. The Fields of the Earth are free-floating. The interaction of the Fields of the Sun and the Earth creates Field packages, what we call, for our convenience the 'four elements of life of protein'. But, you have to understand there is a variation in the Field-Strength but the package in the center is of the

same. So, you don't have a oxygen, you have a Plasma, which has had a Field bandwidth. The interaction of different bandwidth creates different Amino Acids. The creation of the different Amino Acid in interaction with themselves leads to creation of new Field packages for those which are free. What does this mean? You have Field-Strength of Hydrogen, you have Field-Strength of Oxygen, Carbon and Nitrogen. Which with the interaction of the Field-Strength of this Planet leading to creation of the Amino Acid, creates a new opportunity, because there are some other Nitrogen's and Oxygen's and Hydrogen's which are free, but can fit into the Oxygen, but they can't fit into the Amino Acid. They can fit into the Nitrogen, but they can't fit into the Amino Acid. But the interaction of these two creates a new Field-Strength which attaches itself to it. This is how life started on this Planet. Now you have Amino Acid with Sodium, now you have a Amino Acid, with Potassium. Now you have a Amino Acid, which collective Magnetic Field of it, can be Calcium, Magnesium, Potassium. Look at the structure. You have a Hydrogen, 1. You have a Carbon, you have Oxygen and you have Nitrogen. Around about 43 up one level, but in the Matter-State we call it the 'isotopes'. Look at the isotopes of this Amino Acid, 40 , 38, 41, 42? Calcium, Potassium, Magnesium. Now you can see Life does not need the Matter-State of the Potassium. The Amino Acid and the variation of the Fields creates Fields of Magnesium, Fields of Calcium. Which the interaction of, now this Calcium with the Amino Acid and different strength of these packages of let's say Calcium with Amino Acid or Potassium with one of the elements of the Amino Acid, can create a new Life. Potassium 40, Oxygen 16. You have Iron, the Magnetic-Gravitational Field of the Iron of the Earth, lock into this, gives manifestation to haemoglobin. You do not need the body of the Earth to create a condition. Now you understand the mutation of elements, now you have a new game in town, a new understanding. Now, let's play the game. You have the Amino Acid, you have the Potassium, you have created next to it in conjunction with another Amino Acid and another Elements of the package Magnesium, Potassium, Calcium, now you start the process of advancement of creation of Life of a higher order. Now you understand the process of the creation, you do not need the Matter-State to have the Field-Strength. The interaction of the Fields of the Universe can lead to any life in any position. Now, you have the Magnesium which is created out of the

interaction of the Fields of the Universe with the Amino Acid, which in conjunction with the Hydrogen surplus which is linked to it and Oxygen, gives it liquidity. The blood you created, haemoglobin Fields, now has a free flow which in the world of the Man, Matter we call it, 'liquid'. Now, you can see Life does not need Planet Earth to survive, to be created. Interaction of the Fields in the Universe without Planet or creation of the condition of Life is absolutely normal. Once Man understands the mutation of the creation of Fields, Man moves beyond the teaching of the Bahá'u'lláh, bless his name. Man moves in the understanding of the teachings of Buddha. This is the secret of Creation, this is the level of the understanding we need to have to be able to travel within the Space of the Universe. Then, a lot of other teachings in past three years comes into play. A lot of understanding of the past, now becomes to bear fruit. You got to realize, when you created the Amino Acid of Iron in a Plasma-State, when you created the Amino Acid of the let's say, Magnesium with Amino Acid, in a Plasma-State in a Field-State and now you have the Planet Earth, which carried the Matter-State Field of this and is much bigger and is much stronger. It'll feed the weak and leads to the creation of Life. You remember with the 1-2-9 powerful source, a weak one, in trying to feed it creates a flow. And, energy absorbed pushes to the next step. So, life on this Planet was not created because the Amino Acid touched the Planet. Life on this Planet created in the process of transmutation of the Fields of the Plasma. Of the interaction of the creation of itself, with itself and with the Solar System. Then, if you understand this knowledge when you go into Space, wherever you lay your head is your home. Because, then you work through the Field energy of the Soul, which is the creation of the Totality. Then, you mutate to the position of the strength of the environment which you want to be part of. This is one of the secrets of life in the Universe. This is why in some of the teachings in the past, many times, I've explained, "you do not need Planet to exist, you need the interaction of the Fields." And, many lives exist amongst the Universes and Planets and Galaxies where the interaction of the Fields lead to the creation of the condition, which can manifest itself as a entity of Life, without Physicality. But the Soul that can make the decision in what to interact. The Soul of the Man is that bank. The interaction of that bank leads to the creation of the Physicality. What have you collected in that bank from the interaction of the Fields, that it can

show itself in the dimension of the Physicality or essence of interaction of the Fields in that point of Universe. The teaching goes beyond the understanding of the mutation of elements, it goes to the mutation of the Fields of the Universe. Which leads to life in any dimension. This is where the Man of wisdom understand the true understanding of the work of the Universe. This is why in the past teachings I explained to the physicians, "Work through your Soul."

"Understand the work of your Soul, then you will not need a pen and definitely you do not need FDA." FDA has not managed to make a standard for the work of the Soul of physicians. They can control the powder, the milk and the water which to give and inject, but not the government at this moment of time for the Soul for the Man. And, we have to become wise in understanding the work of the Fields, which we call it the 'Soul of the Man', the 'Central Bank', the 'Principle Fields', 'the black hole', whatever you call it. It's important to mutate into the position. Those of us who do not understand will go to Space but they travel within the Fields of the Fields of the origin of Life. They become travelers of Space and once the Earth goes through the cycle of Life, . they become nomads of Space as they have no home. If, in that process they manage to understand the teaching of past half an hour or past two or three weeks, then they can create a home. They can create where they can lay their head and call it home. Because, they understand in essence the center which is the Creator, the central bank, what do you call the Soul of the Man, will manifest itself into any dimension. We see many of these Souls amongst us on this Planet, who have taken home on this Planet. We are not alone we've never been alone, but we're amongst those who understand the work of the Universe but have left it to the Human race to mature. And now the time of maturity has come. We have to see the Fields interaction, we have to understand what it means to possess the energy of Life of the Universe and become the creator of the condition. When I say, "you are the creator" doesn't mean that you are creating a Universe, you create a condition for your own existence, that the Soul finds its home, anywhere in the span of the Universe. The knowledge has to come from essence of the interaction of the Fields, not from the Matter-State of the Fields. There is a difference, there is a huge difference. In nuclear industry we see these but we have ignored it, because we never understood it. In Plasma Technology of the present time, scientists see things but

they can't understand, they ignore it. But, now for the first time the students of the Keshe Foundation can explain to the leading physicists, what you ignore is the interaction of the Fields which you have created inside, but you are looking for a Matter-State but this is the Field-State of the creation. Now you understand in the teachings I always said, "when you start a system be it a box of CO<sub>2</sub>, be it a dynamic reactor, be it the interaction of the Fields, pray for it." Give from your Soul that it carries the intention of your Soul, that's all it is, it doesn't mean that it takes you with it. But it takes from you those points which are advantageous and correct, that of can nourish, that it can find Life. When you make the Spaceships, when you make the fuel for the Spaceships, understand the condition of the Plasma of the Soul of the Man is the controller of the Fields of the Plasma of the fuel of the system. "My Wish is my Command". The step up process of understanding will take time, but many of the followers of the Keshe Foundation have reached that point. But, they still have to work within the Matter-State to confirm to themselves that I'm correct. They have not realized, that I am correct without confirmation. The intention, the Wish, the creation of condition of the Soul of the Man in respect to interaction of the Fields of the Physicality and the condition of the Fields of the Earth has already made the decision according to my Wish. And manifests itself as me. Those who can go a further step in understanding of the present teaching can go very far. Have no fear, rejoice that you can understand more. Has no doubts, put your understanding in to test. Use your energy for Peace. What does Peace mean? It means giving to the Soul the level that it can find its balance. It doesn't give so much that it brings its demise. It does not take so much that it makes it non-operational, that blocks itself. Try to understand the interaction of the Field of your Soul with the Soul of the others. Then the Physicality is irrelevant. For those who work in the world of medicines, for those who work in the work of conversion of the pain and suffering into easiness and comfort and no pain, understand one point. I have within me what my patient has in front of me. This patient can be across the table, in another city, across the Universe. I hear the call across the table through my ear, in the country by telephone or communication line, in Space through the Soul of the existence. I know one thing, if it's from Earth it carries the same process, the same system as me, it carries a kidney, it's got a liver, it's got blood, it's got a heart, it's got lung. If

the liver is affected, so I have liver. My liver is combination of the interaction of the Fields and it's got the Soul. If I can understand that, which I led to its creation I use mine to transfer the others. You don't need a coil system, you don't need a rotating system, you don't need a patch, because it's made of the same. I use my Soul to elevate the Soul and through it we elevate the Soul of the organ, because I use from Soul of mine. For many of you, this is beyond imagination, but this is the True Essence of Creation and this is the true way for a position to interact. Those of you who look for a Space travel, understand this, then you create the same condition. As I've said in the teaching of Tuesdays for rescues, what they are going to do with the relief, getting a ship, getting a boat, getting patches to the islands, this we've been done for centuries. Has it worked? Man goes from one suffering to another. But, if you can reach through the Soul of the Man you give him everything. Remember the say, "Give a Man a fish, you have to feed him all the time." "Teach him how to fish, you give him a life all the time, he doesn't need you anymore." These rescue boats have been the fishes, teaching a Soul, elevating the Soul. For those who have been elevated, you have taught them the fishing. We look on the Physicality of the house, the warmth of the fire. But we forget that within us we have created a home, the skin of the Man extended becomes a home for the family. Understand my Soul is the giver of the Totality. "I feed through my Soul my fellow Man." Go back to the teaching of Christ, bless his name, "this is my body, this is my blood." The flow of the Fields, the conversion of my Fields to Matter-State, the body of the Man. This is the strength of the Fields of my liver, through my Soul for you need the elevation to move on, to change the condition. We have to learn to have trust in the strength of the Fields of our creation. We have to understand, is us who's the creator of the condition, not the condition the creator of us. And the sooner the Man realizes this the sooner Man will be open itself to the Universal Community. You got go into step, that to understand, once I arrive at the point of destination, how do I manifest myself. How do I trust the environment and many, many nomads of Space have not managed to do this. Because, they have not managed to go for once to understand the creation of the lift and motion through what you call MaGrav System, to the next step of the creation of the Soul and control of the Soul for present of manifestation. And they got stuck in these spaceships on this Planet or

other places in the Universe. Because they have not understood yet, and like the Man on Earth they are in the process. And sometimes it takes them millions of years and sometimes they are enlightened in seconds. Transmutation of the Fields into the elements will bring a new dimension in the work of the Man's understanding of the work of Universe. Transmutation of the Fields into energies that then you create a condition for the manifestation, is the new boy in the block. Amino Acid interaction with its own element leads to the creation of the Copper. Which leads to the creation of the physicality of the Man. 43 , 44, Oxygen of 16 gives you the Copper status of Fields. Add, let's say Copper of Hydrogen Field-Strength to it You have Zinc, but you never had the Matter-State. The Zinc Matter-State of the Fields of the Earth, now converts this to the GANS-State of the same Matter. Now you see you don't need no Matter-State, Now collectively add different combination of interactions, you create Plutonium, Uranium, states of the energy which you call the highest metals, elements and then keep on going, limitation will leads you to the strength of the Fields of the Creator. Because once it's created it has to interact. Once it's created it has to find balance, once it's created then it creates conditions to give and to take to confirm its existence. Go a step further, and understand the flow of the Fields within the structure of the body of the Man through the Soul of the Man. How does it work, that it gives Man Physicality but at the same time gives Man the understanding of the mutation of the Fields in giving and taking that confirms the existence of the process? What I call, 'the full circle of the winds of the Fields of the Planet'. Consider the Earth creates a Gravitational and a Magnetical Field. The interaction of the Fields of the Earth with the Sun, has lead to the creation of Amino Acid. The interaction of the pure part which does not go into the Matter-State but stays within the first cycle of the Fields of the work creates the brain of the Man. The parts which comes from interaction of the second generation of interactions, which is what was the Amino Acid, 43 with let's say Oxygen, or let's say Nitrogen, or let's say any of the others, with interaction of the Fields of the Planet, it's Matter-State leads to the Physicality of the body of the Man. Now, you have a weaker state which is combination of the Amino Acid of the brain if the Man, you have an intermediary which is a higher strength, which is the Matter-State of Physicality which is the body of the Man, and you have the central Field which is

the Earth itself. The Field-Strength of the Earth going through the structure of the Physicality, trying to feed the weaker as we have seen, in the process of the star formation leads to the flow of the Fields which leads to the creation of giving of the Soul of the Man. Is a tunnel within a structure. In so many ways, in the past, many scientists have explained them as different Chakra's, point of the change. Less of the Matter-State to more of the Gaseous-State. The bottom Chakra to the top Chakra. And where there is a Field interactions of the organs, a change of step, more getting of the Fields of the Planet, releasing more of the Fields of the Plasma of the fur. Which is the atmosphere, which is the higher order in interaction with the Field of the Sun. Now, you can see the circulation of the Field within the body of the Man. Now you understand why the Soul of the Man has a limitation, because the Gravitational-Magnetic Field-Strength of this Planet dictates control of the Field-Strength at the Matter-State level. But, the Soul of this Planet itself is dependent on the Matter-State which it was created originally from. So, now it dictates the condition of the Soul of the Man, as it's stronger than the weaker. But in the deep Space, you are not connected to the Earth as such. Further distance, most of the Field is interaction, becomes weak. At that point, the point of destination, creates the condition. And now you can see how you can evolve into the being of any point of interaction. The Field interaction of the Soul of the Man with Earth will never die, because it was its Creator, and it's always connected. Mutation of the Fields into Matter-State and the GANS-State, and the condition of creation of Matter-State, is the new understanding of intellect for the Man. But this time, many have understood, will run. They will run with the knowledge, and they will change the course of Humanity for themselves, and for the others who are privileged to be able to receive the knowledge. The process of understanding this new knowledge, changes everything of the past. The Matter-State is the condition I want to be, you shall be. The condition that I want to be in the transition, in the Spaces of the Universe without commitment, shall be in next choice. Then comes, "Would I like to see how I feel if I land on Planet Zeus?" "Would I be amongst the Creators? Or would I reach the home of the Creator?" This is the level of understanding of the Man. This is what we have to move to the next step. This is a teaching of Messiah. Freedom from Physicality. A freedom to be able to live unconditioned and at Peace. Freedom to give every being to be in

that position, that they can elevate and decide on their Soul. This is a true Peace. Not in Physical term, but bringing the Soul to be at Peace with the condition he has accepted. Be it in the villages of Africa, or the backwaters of New York. It's all the same. A tramp in Washington, has the same Soul as a President inside the White House. The same Soul as a Black Man in Africa, and the same as the Man in Mexico. The same Soul structure as the President of China. And the same with the rest of us. It's us who has to be to understand the strength of our Soul, and how we have frocked it. Peace has to come when the Soul can manifest itself to serve, and not to be ????. Be in that tunnel of the Fields which absorbs from the Universe, or the Planet, that it become a terminal, a point of giving to the others, for them to elevate. Become the tool of progress, through this Peace, through understanding, that I become in, what we call English, 'a path to give for the others to elevate'. Understand the transmutation of the Fields of the Universe. Then you can become anything in the Universe. Understand the interaction of the Fields during the transmutation, then you can produce anything in the Universe. You can create condition, that it rain Gold. You can create condition, that it rains Acid. You can create a condition that within the flow of the liquid of the existence of the Fields, what we call 'blood', it can run with any element of the Universe, as long as the Soul receives what it needs, and it can elevate itself. The process of the mutation of the Fields, has nothing to do with the Matter-State interaction. But the Matter-State, create that Field, that it creates to the flow of the Fields. You can give it, or you can take it. Give it, you call it 'Acidity', taking it you call it 'Alkaline'. Come closer, you take more, go further, you take less. Come closer in the right direction, you'll be giving more. And move away, you will be taking more, but giving less. For those who work in the Space Technology if they understand this, they understand the Matter-State is irrelevant. As the container is the body of the Man, and the Soul is the giver. Space travel of the future, will not work on engines. But it works on the understanding the Soul, and the operation of the Soul, that creates that engine of the Universe. Those who joined the MOZHAN program, were taught, but many of them never understood. In time they'll mature. They need the time to mature. Because the step-gap, is the time to mature, for those who are ready to become the true MOZHAN's of the Space. But they don't see it. Wisdom of a teacher, is the teaching of the right, but allowing

for the student to understand, to mature. Not to force. No punishment. Time of growth and maturity is needed. Even for many of the Knowledge Seekers. You look at the interaction, I can sell you water, but it'll work hundred times better than CO2 you create, or the GANS of Zinc. Because, in that water which you carry, carries my intention of giving. And by buying or taking the package, you decide where I want to place the Wish. A patch on the pain, or a patch on the head for the Emotion. I want to use it to increase the Fields, from your Soul to interaction with my Soul that you understood my pain, to the little muscle tissue in my leg, which it needs my attention, I have ignored it. Physician of Space, become the true Men of Universe. Because they do not need the core and the coil, they need the Essence of the Creation within their Soul. Teachings from now on, we brings a lot of rapid maturity to those who understand. My wish is Peace. A lot look at silencing the guns, and finishing with arms. But, the True Essence of my Wish, is a Peace of the Man in his Soul, that, with it, he'll never manufacture the gun, he will never thought about the fighting. Because it transmutes my Emotion, to the interaction of their Fields to their Emotion. The stronger changes the weaker. The wish of Peace within me is so strong, that it'll feed anyone. Then they elevate. It has its time, and it has its Space. There are many aggressive Fields in this Planet. And they all gradually receiving. Talk, voice, smell, sight, feeling of environment, it's all part of the attributes of the Soul of the Man, which itself has converted itself to the Physicality of the Man. "I made Man in the image of myself." With a Soul I can smell, what is needed. With the Soul I can touch another Souls Field, see where is the suffering. With the Soul I can reach and see how beautiful the other Soul is. I do not need the eye of Physicality, I do not need the arm of the Man to touch. If you can touch and "I feel something", remember, "I Made Man in the image of myself." So, the Soul can touch and feel. And it has converted that essence in interaction with the Field of this Planet, in interaction with the essence of the Amino Acid which created the Physicality, to convert and convey its Field-Strength to the Matter-State strength. Then you can see how you can change everything by understanding the work of the Soul, the strength of the Soul, to any sense which you feel. In time, Man will come to understand many more senses, not only five. Because, the work of the Soul of the Man, does not rely on five, it has many more. But, now that we come to the Man of Space, we create new

words for these Emotions. New feelings, new understandings. The process of the mutation of the Fields, is the Ultimate understanding of the Creation. Then, the interaction of the mutation of the Fields, lead to the creation of any Matter in the State of the Universe. On Earth we need water. Being of the Universe, water is poison to them. But they still need liquid of Life. It could be whatever, when you create the Fields and you provide the Fields, they convert it as they need it. It's the same with the physicians of today, once they understand. You see through the Soul of the Man better than X-ray's and MRI's. You see, and you fly, through the Soul of the Man, better than any aircraft's or UFO's. It's the Captain who has to create the condition. It's the physician who has to be able to understand the work of the Fields. It's the Man itself who has to understand has the capability, that become the pilot of itself and the physician of itself. Then, the 4 or 5 hundred lifetime here, multiples into 4 or 5 thousands. What am I gonna do in this time? Once you become wise to the wisdom of the Life of the Universe, you become the giver. You become the hungry Soul that travels the span of Universe, "Who needs? I'm here to give." Will be so busy, that the 5 thousand is not long enough. There are too many in need, and too many changes. This is why in the past talk, I explain about the fertile land of creation of new Souls of the Planet Earth. Now you understand the purpose of the Human race. Those who understand they elevate to the Totality. But this time, many, many more will do in one Soul cycle. Understand, and understanding, are two different things. When you understand, you have to comprehend. When it's understanding, it becomes pattern of life. The process of mutation of the Fields, is what Man has to progress to. Maybe we make systems to show it? Maybe we use Men to show it? If the physicians of today reach the point of maturity, that is every Man is the physician of itself. And if you saw, how for example putting three reactors leads to creation of the Matter-State of Copper or Zinc, when these Souls stand next to each other, and create the interaction of the Sun and the Earth, the Field friction of the Souls of them, can lead to the Creation of Life, without interaction of Physicality. So be it the child, of the Soul of the Man. Many, many people keep on asking the question of the virgin birth, I have explained in different teachings different way. Maybe now, one understands, there is billions of virgin birth at any time in the Universe. Go back to the teaching, read the books. Fundamental element conversion, what

you call Neutron, to Electron and Proton. Where the Electron, is the new birth, and the Proton is the mother. The science of the past could not be explained to Man, but it was hidden in the way that the Man could understand. Creation of life, a new life, out of the interaction of the Fields of the Universe with Life, not the physical intercourse that the Man sees as a man and a woman. The creation of the life through what you call, 'virgin birth', it's the cycle of the Life in the Universe. The scientist call it, 'splitting of Neutron to Electron and a Proton'. In the Holy books, they call it, 'the virgin birth'. It's the new cycle, it's a new life, and it's possible in anywhere in the Universe. In the Holy books they call it the Adam and Eve, by the spare... or by the rib of the Adam. Mythology or mythical, the only thing now the scientist now can explain, is the division of the Neutron. Into itself, and its child, what we call Earth too. Energetic, more active, more dynamic than the source. So is the woman, compared to the Adam. Multi-tasking, more understanding because it came from the Essence of the Creation. New Life, new generation, new cycle in understanding the Totality. We don't preach we are all, we teach the science on the edge of creation. And to many at this moment this sounds foreign because they never understood the beginning. You never understand the story of a movie when you walk in half way in the middle. You got to go back to the beginning to understand what the end is and this is the way many many Men will try to come in. They never been, they never understood the beginning. Now the rest is meaningless, they have to sit and watch. With the teachings of past years we took you back to the beginning of the movie. Or actually, the end to be shown at the beginning that you can see what will come at the end in the true end. How the cycle was developed, how the cycle will go to be developed and how Man can produce anything through his Soul and interaction of another Field with itself. Then, if you understood this then, if you put many of these virgin births together you have the invitation of Elements or what you call Hydrogen, Taedium, interaction of the Fields to Copper and Gold and Elements which Man call it, 'exotic' because you never understood the true sense of it. Because, Man entered in the middle of the movie of the Universe and creation of everything being there but not understanding where he came from. Now we understand the full process. Now we become the true Man of Space. Those who want to stay and work within the Fields of the Universe will become the new

students of the Knowledge Seekers. During the process of the teaching even today we speak the word that the ear can hear but we teach through the Soul that we can reach those who have not the Internet or cannot hear. That the Love of the Creator shines and reigns up on all on this Planet equal, not only those who sit and listen. This is the true way to teach and not by voice. You have to become the same. But, those who listen through the ear of the Man if understood will listen through the Soul of the Man. And then you progress to the next level. There are many levels in progressing to become part of the Soul of the Creator that then the knowledge of the Man of being becomes the transmutation of the Element of the Creator to the Physicality of the time and Space. For those who understand and can create the opening, what I call, the "Field-Flow within their Soul", they will look inward, that they see the Light not outwards to see the Physicality. By seeing the Light you become part of the Light and the Physicality becomes irrelevant. But the interface between the Light, or the creation or the line to the Creator needs the interaction of the Physicality to show its dimension and its size and it's position. So, one works in both dimensions of the Soul understanding his Field interaction, with leads to his ... physical manifestation. There is no shortness of time. There is a lot if need for understanding the true essence of the knowledge of the work of the Universe. Those of you who will go to test, to understand have to be humble enough to be the weak but knowing you're strong enough that in the other steps you become the strongest. Then Men of knowledge you can stand on four mountains and through the Soul of the Man feed the whole City below you. This is the true knowledge. This is where the hunger eradicates but there is no drought, where you don't need to create dynamic machines to elevate the Soul. But, you understand the need of the Soul you become the process of the feed to give without needing to be present. The spans of Universe becomes Zero Communication Time. Transfer of the Fields on the path of the connection of the need. There's a lot to understand. There is a lot to be able to understand how from a Hydrogen you can lead to Gold. There's a very old Persian proverb it says سازی دلوا غوره زک نی، صد بر Halva is sweet, ghoreh is a sour grape with the first stage of grapes. It means if you allow me the time that I can mature I can create you what you like to have but it depends on you, you have the time to mature. You have the essence to grow into the

understanding of the work of the Universe. Some of you will eat the grapes because you don't have the time but some of you if you allow the grape to mature you create enough sugar that you can use it to create, to mix it with a flower to make the Halva that is so sweet, you cannot even take more than one or two spoon of it. This is what we got to understand. This is what the Man has to mature into. This is what the Soul of the Man has to mature into. Because the Physicality will not allow it because then he has no essence for confirmation of his existence. The biggest enemy of the Man is the Physicality of the Man. And the sooner the Man understands that he can elevate his Physicality to be part of his Soul then the Man becomes free from the shackles of Life. Then the Life cycle is unlimited. There are a lot of in-depth teaching in today's teaching. It need a lot of maturity. Needs a lot of understanding through Essence of the Creation. It needs to understand that you can use the knowledge to become the tool of Peace where other Souls without actually being part of physical operation of the Peace. This is what those of you who understand will use to reach the World Leaders that there is no need for arms, there is no need for conflict when there is as Peace at the Soul of the Man. When there is understanding that, "I can have what I need", is the strength, "I didn't know I need to have." In one understanding, you look for the fire to keep warm in the cold. If, you understand that the interaction of the Fields of your Soul, with the interaction of this Field of the Soul of the Elements of your Physicality, can create so much heat that you would not be able to stand, or the creation of the Fields from the Soul of the Man, with the environment at the strength of the given Wish of the Man, one meter, twenty meter can create a heat in that envelope. Now, do you need the tree to cut, to burn? Do you need to burn what you call the oil which itself is an Amino Acid, to destroy more lives to benefit of the Man? Then do you need to consume another body? Where the interaction of the Fields of your Soul, with the environment of existence will feed you enough that it feeds the Physicality. I Wish you could understand. I Wish you could understand, there is no need to kill, to survive. The Soul of the Man with the interaction of its environment is the feeder of the Man. And Man has never understood. In so many ways, in the past, in a hidden way I have tried to teach, but nobody understands. And they keep on telling me, "why do you keep on saying, 'you don't understand?'" Because truly you haven't understood the work

of... the work of the Fields. When I explained that you can hold your hand, and by transfer of the energy of your Soul with the interaction of the Fields of the Soul of the elements of your entity, you can create a ball, any Matter you need. Then you understand the creation of the Physicality, was part of the Essence of the Creation, that the Soul sees its own strength, and the Soul understand the operation of the Universe, but the Man took it totally the wrong way. The interaction of the Fields of the Universe were for the benefit of the Man, not for the destruction of the Planet and another Life. Try to test your Soul. Not to see physically you can do change, but try to see, test yourself how much you can give to elevate. Elevate the Soul of anything, that is in Peace. That it becomes to point of Peace, becomes we call it a Peace, but in reality it's the balance of the Fields to create a condition of existence. Continuous existence, without taking from the others for them to lose their life. Once you learn this process, in Space, Man will never look for war. Man would never look for conflict but become a giver, and then you understand purpose of Life in Space. We have not come to teach to make Man a Spaceship. We have come to teach to make a Spaceship out of the Soul of the Man, to become the rescue point for those who need in the span of Universes. This is the true understanding, this is the true purpose of the teaching. The nursery of the Universe is very much a virgin birth. Continuously expands and divides and leads to the creation of new Life, in the nursery of Universes. And the Souls who mature, become what we call the 'guardians' and the 'nannies' which needs to be there to give, for those to mature. As I've said before, "Now many of those who understood understand the purpose of life on this Planet, and many others." It needs, what you call a 'carer' you call it a 'mother', to feed, to nourish a baby into a child- and to a Man. And the Soul of the Man once matured in Peace, becomes that mother in the span of Universe. There is a purpose for Life on this Planet, and Man has not understood. There is a purpose for creation, and Man has not understood. He's got entangled in Physicality, and then, creation of false belief. Now it's time to clear all this. And move it to the next step. It's time to understand that the Soul of the Man is the interaction point between itself and the Universe and not a village of Earth in the term of Physicality. Now, one might understand why Life is created. To be the nursery for creation of the Fields of the Soul, that in turn they become the mothers of the Universe. There is nothing

more precious than a mother. As is the Creator. As is the nourisher, as is the feeder, as is the guardian and the teacher. Try to understand the work of the Soul. Not by pretence, but by true understanding, even on the motion of the Fields. Then you understand, as long as the Wish to eradicate and move and develop another Soul, you will see the beauty. But understand it, even if you manifest itself in another pain another suffering, but understand "why?" because from that point you have to mature to understand in the work... (no sound - until 1:40:03) (CdR) Rick can you hear me? (FM) Yes we hear you Caroline, I see... (CdR) Ah... (FM) Yeah, I see you guys dropped out (CdR) so it's coming... Ah yeah okay he will come back, because I thought I dropped out. [Laughs] (FM) Yeah you both did. (RC) I thought it was what they call, 'a pregnant pause' there, you know the dead air time just... (CdR) Rick are you wishful thinking? [Laughs] (FM) Lots of time... [Topoli barks] (RC) Yeah I thought Mr Keshe was giving us, 'time to reflect' there, as they say, yes. I was trying to think "What was that last thing he said that we should [laughs] really pay attention to?" And what was the last thing that was said so that we can remind him when he comes back in? Any, anybody remind... remember that verbatim or close enough? Well, I'm sure he'll pick it up where it needs to be, when he comes back in. (MK) ... very much... Thank you. (RC) Hello? (MK) No, it's okay I'm back in one. Yes can you hear me? (RC) Yes, we hear you clearly now. (MK) Yeah I think it was a coffee break. I've just been brought a... espresso. The machine knew it has time to stop. (RC) [Laughs] ... the last sentence that we understand is, you said something like, "You will understand why there is pain and suffering". (MK) Yes. God didn't want you to hear that part... (RC) [chuckles] (MK) So it means you are not time for it. In so many ways, the process of these teaching, is not to have a workshop, but, is to have the knowledge, how to work. That the Life of a Man becomes a shop that everyone can walk in and take what they need. The Soul of the Man becomes the provider. In so many ways, we need to understand, the purpose of the Creation in the Essence of this Creation. There's nothing as nice as a Italian, English ... Italian espresso. It wakes you up! The whole work of the Universe... is to understand the interaction of the Fields. What it needs to be given that it extends life. What it needs to be taken that allows, literally allows, the, what we call in English, 'clogging or blocking' the flow of the Fields away from another entity, that he can live the Life, that he can

flow freely. That, there is no... what we call 'stopping' or 'blocking'. In the Physicality of the Man when these changes come, we call it 'diseases'. How many of you have ever looked, when there is a disease, to look in the Soul of the Man and see where is the blockage in the Soul of the Man, in the Emotion of the Man? To move that stone, to move that blockage in the Soul, and, instantaneously, the Physicality will respond. This is what the purposes of these teachings are. For Man to become the physician of the Soul of the Universe, than Man becoming a doctor of the Physicality. For us to progress to that step, needs to understand we don't need to sacrifice nothing. It's just that we need to understand everything! The lack of knowledge in us, about the work of our Soul, has been translated into sacrifice, into pain, into suffering. Where there is need for none and it doesn't exist, in the span of Universe to those who have understood. I am a lover, I give, but for me to Love there is a need for a recipient. But that recipient has to be clear and it's got no... blockage, that it can receive and can transmit to the next one who might need. So, I am the tool. And many times in the past, the tools have been changed in name, for whatever reason to suit one. There's no clairvoyance, there is no magic, there is no Prophet. It's totally understanding the work of, the function of, the operation of, one's Soul. Then, Man is free. It's us, through the lack of understanding, which has put the shackles on our own ankles, on the feet of the work of the knowledge of Universe. When in fact, we are free, there are no prisons for the Soul of the Man, and no handcuffs and no shackles. We have to understand and test it. Test it... Stand, you look, you put 3, 4 dynamic reactors next to each other, to create Gold. Stand 3 or 4 Men of Peace... And understanding that the Gold is the solution for the greed of the Man and will rain Gold amongst you, while you're standing in the room. Your Soul is so dynamic, it's you who has to create the condition. It's as you to create, to use the Soul of your elements of your Physicality for another Soul. These are all the reality which Man has to open his eyes to. Because, now it only works at a Field-Strength of the Matter-State. Now, you can work at the strength of the Fields of the Universe, that is above, so Matter-States become irrelevant. Teaching oneself the True Knowledge and understanding that it's time to rejoice, to understand the new knowledge, is no shame. It's the addition to the knowledge of the present time. To understand the Totality, start with small steps. And graduate yourself to the

University of the Knowledge of the Universe. No one will give you a degree and no one will give you anything more or less, except the pleasure that they become a lover. Lover of Life in every point in the Universe, which means giving unconditionally for that Life to elevate. And then, start understanding the smallest principles. Try to understand and bring all the teachings we've done together now and transmute the knowledge of Matter-State into the Field-State. Understand every step of the conversion of the Fields. Understand every conversion to what it gives in the Field-Strength, not in the Matter-Strength. Then, understand it's me who's the giver and the creator of the Fields. So, I have to be correct to give that the ones I want to receive they don't have to miss or to convert, they receive it, as they need it. When it rains, we drink the water. When it rains the plant takes as it needs it. When it... take us through it, it creates for itself condition of Life. It's the same rain. It's the condition and the entity which decides how to use it, so should be the Soul of the Man. Rain Peace and Love and with it, you give Life. When the Life is given there is no strain, they'll be... When you're thirsty you do anything to get your hands on the water to survive, even to kill. When it rains and it's freely, you don't have that pain. You don't have that suffering. And when you have too much of it, you give a cup to the next one who's hungry and thirsty. That's what you should be. That's why you got to learn from the operation of the Soul of the Man. That's why, one has to clear the clogs and the stones in the path of the one Soul, to be able to give the Totality. This is why you have to start test yourselves. Slowly, because you are so materialistic as a Man, that you have to see something. Don't sit there and try... and look in the palm of your hand, say, "If I have water, I can give to the thirsty Man" and see, you'll create water in the palm of your hand. And then, you can put your hand in front of the Man who's thirsty. If your wish in your palm of your hand is Peace, that there be no killing, you'll feed it to the Soul of those who do. This is not any more fairy tale. This is understanding of one's responsibility in respect to his Soul and his confirmation of his existence. This is where we are going. This is why there is no laboratories and there is no more dynamic cores and there is no more coils. That's for those who are trapped in that cycle of Life. For those who elevate to the next step, you become the Messiah. You become the giver, that the others can save and live a Life without obstruction. In their Physicality you call it 'diseases'. In

their Emotion you call 'mental condition'. In their Souls that they cannot elevate themselves. Now, the Nano-coating, the GANS making, the coil making, the dynamic cores, their effects, their energy, their Fields, all has come within the structure of the Man's body. Now you see what we have made of you. The Nano-coating is your skin. The GANS is the body of the Man. The dynamic reactor that it creates that hollow center which is the Essence of the Creation, is the Soul of the Man. Now you understand. Use that GANS to become a pain patch to the pain of one Man, or use the Soul to feed the Soul of another, that the Soul is the Physicality of the pain of another being. When it's a patch you have to put it on the Physicality. When it's a dynamic core we can put it across the Universe. But the reach is the same point. Then, split the attributes of the Creator. Then you understand if you are dealing with the Physicality of the patch, if you are dealing with the GANS of the Fields, or if you are dealing with the Fields of the Dynamic Core, which is the Soul of the Man. Then you understand, how easily you are well educated in the work of the Universe, and you never knew it. You created Prophets to tell you how that patch has to react with the other patch, called the Human Beings, not to steal and not to kill, for now you become the Creator of the messenger that you give unconditionally that the body itself through its Soul decides what it needs and does not depend from outside, to be given in the physical term. The knowledge is complete. It's the maturity of the Soul of the Man which has to bring the transition. It's the maturity of the understanding of those Souls who have been touched, to transfer the knowledge for the others to elevate to their selves, to that level. The understanding of the, all these workshops: What is Life? Except a dynamic fields... in a collection of a box... that we call it, the 'brain' of the Man. Or, another entity who works in the same function. We need a casing for it to confirm its existence. We call it the 'brain' of the Man. It's like having a element inside a kettle and holding the kettle in their hands to see if the element works and the water gets heated up. Then there is electricity, then there is a flow. That flow has to be the Fields through the Soul of the Man, that by its radiating, warms up the environment and gives the warmth and comfort to the Man, who holds it out of the cold, through his Physicality. He doesn't need to see the element, he knows he's radiating and soon the water will boil and the kettle is warm that I can hold, that I can forget about my physical suffering. This is what

the cycle is. This is what we need to understand. This is the reason we teach and we taught this way. It was like making the wine. You needed to bring the grapes, to let it mature, to become the wine. The grapes was uneducated Soul of the Man. Now we have taught it, it has taken time, now has to become the sweet wine. This is what the essence of teachings have been. And now, that many more start understanding, we teach more in the interaction of the Soul of the Man in the Universe. In understanding the conduct of the Souls in the Universe. In understanding the language of the Soul in the Universe. Then, wherever you land, you communicate in that language. You don't need to go to school to learn English, or to go to learn Spanish, you land in a Spanish environment, you'll speak Spanish, because you understand the Soul of the environment. This is why we created Universal Council. Because, then the Soul of the Man will travel and manifest itself, without needing to learn the language, because in that environment, will become across the language of the Soul. The Universal Council, it is not called the 'Earth Council', it means understanding the language of the Universe. At any point that you manifest yourself. This is what the teachings are, is no more prophecies, is understanding the operation of the Fields. But, where you don't understand, go and set up the cores, and try to understand, if you are so materialistic, that you can convert it, but don't get shackled down to the cores, understand the Fields of them. understand, how the Fields interaction, leads to creation of dynamic Soul, Dynamic Fields. That their interaction, gives the condition. Those who always look at the Physicality, will have a long way to go. Those who look at the interaction of the Fields, They'll reach very fast to the position and the condition. The education of the Soul of the Man is much easier than the education of the Physicality of the Man. To understand the Emotion of the Soul then gives Man the Fields of the Physicality. The one who goes and lies to get what he wants then through his own lying in what he lied, will receive the condition of his own according to his Physicality. So, when you go and you say, "I'm damaged because of this." Just to get something, you'll become to damage by the same thing. And it's more painful, than where you started with a lie. In what you came to achieve become the noose around your neck, for what you've done with it. In many of the teachings I give many examples. Now, maybe some of them comes to understand, some of you come to understand exactly what it

means. Try to understand the operation of the Fields of the Soul of the Man, which is you. Try to understand the operation of the Soul of your Physicality, which is the condition of the environment, and try to understand the interaction of the two, with the condition of the Fields of the environment from the physical structure of the environment, which you call the 'Emotion of the Man'. The Emotion is the conversion of the interaction between the Fields of the Soul of the Man and the environment of the Physicality Soul, and the condition of the environment which has created that condition. How do we react? It does not need to be a Planet, it's another Man. It's another being. The interaction of the Field of the Soul of the Man, with the interaction of the Fields of the physical dimension of another entity, gives you the joy, gives you the pain. Gives you the suffering, gives you the elevation of the Soul to give more. So, now the condition is not just the Earth, which has created the condition of the Emotion of the joy, but the condition of the existence of the Field of another entity, in respect to you. In respect to the Fields of the Soul of the Man's motion within the structure of the Physicality of the Man. We feel the joy of our child thousands of kilometres away. And you call, and says, "I feel you're happy, what's going on?" He says, "Papa how did you know?" Because now, the dimension of Physicality is like the center of the Earth, which creates this Fields, that you feel the Earth. Now, that Earth is your child. Now, that Earth is another being in the depth of Universe, which you feel. Now you understand, where the Emotion comes from. Now you understand the Emotion is reflection of the Field-Strength of the Man. And understanding of himself, of the strength he carries in respect to that Field. This is the progress, this is how you interact in Space. Interaction of the Fields of the environment, with the interaction of the Field of Soul of the Man, gives the feeling of the Man. The Emotion of the Man. The creation of the condition to feel to understand, don't need to see, because now the environment itself has created that brain. The physical brain of the Man in Space as we have it, once you come to a different strength Amino Acid level of let's say, higher Nitrogen, will not exist anymore. Now, the interaction with the other entities creates the condition of interface, becomes the position of the Soul of the Man's Emotion. Now you understand, Man can exist in the Universe without Physicality. I wish you would understand. Then you become the True Man of Space. Then you understand so many times I

say, "Ashamed to be the... in the body of the Man, because it carries nothing but pain and the condition of Physicality, which is, there is no need for." Ages, becomes pain, sees death, and sees suffering of the others. Try to understand in the depth of the Space when you travel, how the other entity wants you to be that it is at Peace, that with it you find Peace. Not Peace for you that enforces on him to change his position. Don't be a magnet which you've put in the set of magnets, to force the others to move, but position yourself that they stay at their point of comfort. It's you who has to position itself. This needs a lot of understanding. This needs understanding the depth of the knowledge of the creation. This needs understanding the total attributes of the Creator, which is you. You need to look inwards to understand the operation of the Soul. Than looking outwards to see it's physical manifestation, after it's been interfered, tampered and mishandled by other Fields, which we've call, 'the Emotion'. Physicality reflects the Emotion. From what is received from the Source in interaction with the Fields of the environment or the others. Now you understand the Emotion. Is there a need for Physicality to suffer, or create the suffering? Or is there a need to understand the Fields which created that Emotion? Then, now you can make tools that eliminates that Field-Strength, or ... in a way increases it to become to acceptable Fields. Cry to joy to laughter. This is what our body does, it converts emotion because it understands the feeling of the Soul, not the feeling of the Physicality. We go through these transitions in our physical life. From laughter we cry. and [inaudible] it and crying we turn it to laughter. There's nothing better than this to understand the Field... the interaction of the Soul of the Man with interaction of the Fields of the environment. And then measure it. Then, you don't need to be an actor to pretend You become the giver to create the condition that is always laughter. These are part of the development of the Soul of the Man we have to understand. Then in Space, no one becomes our guru, no one become a prophet. Because there is no hope, nothing from prophecy, but understanding the steps. Understanding where the losses are which create a condition, or where the gains are that it promotes, elevates the others. We have to step up. We have, now that we understand the teachings, to go to the next level, to understand the work of our Soul, NOT the Physicality of the Matter to confirm the existence of the Soul. We cannot put a value and measure on the Soul

of the Man, because all the Souls have the same capability to achieve a full maturity. Maturity is not to grow, it's to understand. Maturity is to be able to give unconditional of what I might receive, because I cannot give if I do not receive. And I receive enough to give. But, till that time that the full Human race matures we'll still be making the factories, the GANSeS, the dynamic systems, and one day they say, "do I need this?" There is no need to a Spaceship if Man understands the knowledge. We can travel the Space of the Universe in Zero time. There is no need for Man to be hunger where you can reach to the strength that he receives where the hunger is, and the need of the receiver of energy. And you give and you teach till he learns to feed himself. There is a problem and the reality is there is no problem. It's just maturity of time, maturity of science, maturity of understanding one's operation of life, in this Planet, on this Planet, in this base, on this base surface of the Solar System, the Galaxy, and the rest. Try to mature very rapidly. Because, those who'll mature will try to take a step as they are the Prophets of the present time. And they're as foolish as the others. We've seen many around the Foundation who come and understood a bit, and then claim to be. Out of arrogance of never ever hiding anything, so now I confirm I exist, I have to deny the rest. Try to be humble. Try in learning, not to force but to share, that those who understand will become. Become part of you, become with you, they become AS you. And then we can progress. The biggest sacrifice is ones understanding of his own value, of his strength. Then you know what you have to give to mature. You got to experiment. Experiment with the Fields of yours, your own Soul and your own Physicality, and the interaction of the Soul of the Physicality with the Soul of the Man which is within you. And then you mature. Test. Change. I give you an example. And for those who understand this, then you have really matured. Take your fish from a bowl and put it on your hand, and see for how long you can let it live. Because, you give the energy it needs that it takes from the oxygen of the water which comes from the interaction of the Fields of this Planet. That now you become the Sun and the Planet. And you can hold Life for years in your hand. Has been done. And it's so easy. Because at the end of the day that water was the source of energy to confirm the existence to carry on. Now you understand the fish you give. The first time might be a few minutes, the next time a few more minutes but you have to tune into it. But don't lose the life

of the fish. You don't get it right, put it back in and try to understand. Hold the sick animal in your hand, and see if you can revive it and it can walk off. Then it's just not accidentally, it means you have reached a point of maturity of giving. Because the animal takes only what it needs and no more. You can't make a goldfish to become the size of an elephant. It takes what it needs to maturity of the size which has been predetermined for its existence by itself. Then, you can hold the Human race in the palm of your hand and guide them through, till they are mature to exist without pain. Try to understand more about the functioning the operation of the Fields within your own environment within your own body. I do many of this. So you have to do the same. How you can change people, how you can bring Peace? And it only has to be in the positive direction. That it means they take what they need. It does not matter what the intention, because if the intention is wrong, no change because in fact, the Soul has decided, not the Emotion. As I was telling my son, The interaction of the Fields of the Soul of the Man and the interaction of the Fields of the environment is like a Chinese wispiers. The Soul always sends the same message. It's the end message which has been interfered with by those who fits the condition, which is the Emotion of the Man. Try to understand Field-Strength, not the Matter-Strength. The GANSeS and the Plasmas was for you to show the Field-Strength they create not for you to use them as a point, to see what it can be done. Those who stuck at this point will not elevate. And, in so many ways, they create their own demise. Because they don't allow their Soul to show the true strength of its manifestation. You need to teach... the work of the Fields of the Universe to your Soul. Not the essence of the end product which, after so many Chinese whispers within the Emotion of the Man, become a cancer, becomes the suffering, becomes the pain. The prime receiver of a misconduct of the Emotion of the Man is the Physicality of the Man from his own Soul. Try to understand how you have created a condition, truly in what Emotion in interaction of the Souls of your Physicality in respect to the Soul of yourself within the brain of the Man and then you will see. Try to understand how, for example, one gets a brain tumor... isn't that the point where there is a Field interaction difference? Where instead of being in the Field-Plasma condition now you have created a Matter condition Plasma which you call it a seed of the tumor? Then change the condition there will be no tumor. It's the same with the

Man. Man has to understand the strength of the Fields which he has converted into the Matter-State condition in the GANS Plasma of the body of the Man. Then, if you change it, the dilution changes, it's like having a solid sugar in a cup of water which is the body of the Man, and now you heat it up, you give it more. It dilutes, there is no crystals they have become part of there is no cancer, now is all part of. The true physicians of the future, when they see a cancer they don't get you a chemo or MaGrav Systems or whatever. Through their Emotion they saturate the need of the Soul of the Man, that the tumor is not... has no reason to exist. It become diluted in the Field of other strength. It's the same with those who try to manifest themselves in the dimension of the Spaceship of their own body in the Space of the Universe. Try to understand the work of the Fields of your Soul. Then, you become True Man of Universe. Then, what we said, you become part of the Universal Community. Because now, you understand the work of the Universe. You become a physician when you been to the University and you been educated in the work of the body of the Man. Now become the physician of the Soul your own Soul and nobody else. Then, you understand how Physicality is the cause of the demise of the Soul, then if your decision is to change the Soul or spread the Soul that you don't want in one entity, you bring them the demise of the Soul. But, if you look in the death of the physical Man you'll become the seed of the Soul. In the no-dimension physical life . So, in fact, the one who commits suicide or the time when the Man dies, it become a seed of Life but it has to be with the agreement with the Soul of the Physicality. This is why suicide, self mutation has been forbidden. Because, it doesn't give you a path to freedom. It brings the shackles to the Physicality Soul of the Man's Essence of the Soul of existence. And there's a big difference. There is a huge difference. We got to understand the process. We got to understand to walk away from Physicality but maybe some time use the Physicality to confirm the correctness of our understanding and progress. Try to be open to understand but try not to put restriction on the new understanding. Try to be able to understand how Fields work and not to connect it to the Matter-State. This is the problem I see with a lot of Knowledge Seekers. They see something in the strength of the Field but to confirm it, they have to find a Matter-State of it, to show something. And this is where your problem comes. Be confident in what you've done is correct. Then

you carry on. Then you see if you need to see to confirm you are right otherwise you are right because you have already thought of it you have put the energy into it and it has already manifested itself. Teaching ones Soul's work is very difficult. But, seeing the Emotional effect of the work of the Soul, is very easy. Because, always go back. "I made Man in the image of myself." If, we have a pain in the physical existence, so it has to exist in the dimension of the Soul and what is the pain? It's when there is obstruction when you cannot give. That's why you have a pain in a physical life. There is obstruction there's something wrong. But in the level of the Soul it's the giving which creates that. Not the Physicality of the Soul in interaction of the Fields. Many times, I see confusion between the two or not understanding. Try to be open in your own intelligence. That you don't need anybody else to confirm it or anybody else to dictate it, and anybody else to become a Guru to confirm that you achieved what you achieved but I tell you what you achieved. Not you understanding yourself. You become the Guru of yourself but don't become arrogant in understanding become more humble, that you can understand more to give, to teach the others to understand what you understood. I would like to call it a day. And, I try to bring more insight into your understandings. (AB) Mr Keshe, good morning. (MK) Excuse me Azar. Can I finish, because I'm exhausted? The process... Somebody's microphone is opened. The process of understanding one Soul... is the process of being transparent to one Soul itself. Trying to be open to understand the operation of different strength of the Soul Soul emits a variation, a spectrum of Fields. Not one Field. If, you see you need more energy to feel happy so, happiness needs higher strength. If, you see you need not much to be joyful in respect to condition of the Soul of the Emotion of the Physicality, then, you start marking it. In this process, you progress, in this process you will understand... the Totality of the work. You don't need no one to confirm, You don't need no one to become your Guru to teach. Then, in Space, when something shows you, some entity shows you something, you don't say, "He's God". he says, "Teach me." "I want to understand because I understand part of it." This way, there shall be no Prophets, then you progress. This way you elevate yourself. This way you continuously evolve in the right direction. This is why we teach. Teachers do not become Gurus or Prophets. They become friends who share unconditionally. Those who want to see their friend, to be as the same

as theirs. We are here to serve not to be served. We are here to teach. To share, that the Soul of the Man, reaches the elevation of the Soul of what you call the 'Prophets' or the 'Messengers', or the 'True Essence' of the standards of the 'level of the Soul' of the entity. Try to evolve in understanding, the Fields, and if your wish is to be in a Spaceship, you'll change your Physicality, to the Spaceship of Universe. Test with the small, and trust in the small. That when you pick a fish, from that time you decided, "it's going to survive, and I'll take all the pains from it." And then you'll decide, "I'll put you back in the water, for you have the pleasure of the environment you wanted to be. But you can see what I see outside, if you want? I don't create the end of the Life, but I give you a new view," because then the fish might want to become air breather. It gives him another chance, to see more. Then it's Soul decides, if is going to manifest itself, in a fish or the Man, or free from the Physicality. That's why I always said, "The Man becomes responsible for its environment". Because when you elevate it's the entity which decides, its manifestation of existence. It's not a dream, and it's not a fairytale anymore. Now you have the knowledge, it's the responsibility of the Soul of the Man to decide. Try... not to confirm your existence. Try to understand your existence, that it can confirm the existence of your Soul. This way you elevate. This way you become teachers, because you have learned yourself, from the process of the conversion and conformation. In the process of learning, put a reactor, a dynamic reactor. And sit in front of it, and release from the Soul of the Man. And if you have got the right Field-Strength, in the right strength, you might see Water, you might see Gold. you might see reactor shaking as happy, you might see the reactor flying. Because you have created a Field, that in respect to its Field-Strength, in environment, it needs flotation, it means creating, "I need a new position." Then you have created your Spaceship. Then you have created materials, then you have created the Emotions within yourself. This is what needs to be done. You build all the reactors, you build all the MaGrav systems, you build everything else, now what you build become the tester of your strength, of your understanding, and the tools for you to confirm, the existence of your Soul. Now you were looking for a tool to confirm is correct, maybe this is one way for you to do. The interaction of the Field of the Earth and the Sun, creates the Oxygen, the Hydrogen, the Gold, and everything else. So now you become the Sun and the

rotating reactor becomes the Earth. You decide what is need to be created. Is it going to be the distance from Jupiter, and I'm only create EU, or am I giving enough to create Gold Fields, that the interaction with the internal fields of the core, the core becomes Gold in color. Put a Nanomaterial, and transfer energies, that with you transferring from the Soul of the Man, the way you feel the heat of the body of the Man, on the skin of the Man, now you convert that Field, that the light bulb runs. It's so easy! Now you understand. Now you get the conformation if you're physical, and you need the conformation. Try now to use the tools of what you lead to understand, the process and the Field-Strength and operation of the Soul, to convert back into the conditions which you enjoy, and the Matter-State of the core, or the copper wire, or the GANS is happy to be in, that let's together make Gold, let's together make Water, let's together make Peace, let's together make Water that there is no need for thirst. Those of you who think you have discovered the way to create Water or Peace, through dynamic reactors, you are so far from reality, because you never understood, that the Soul of the Man creates that. You don't need the core. You have to elevate the Soul of the World, people who you teach, to understand the strength of their Soul. And it takes no time, doesn't need no reactor, doesn't need no position. Those of you who start creating workshops, try to explain from the beginning, why I'm teaching you. That from the beginning you don't trap your Knowledge Seekers, into a MaGrav, into an Energy System. You explain, you teach them, you talk to them, that I'm showing, the end product first. Which is understanding elevation of your Soul, but I show you how your Soul is created, how it works and how it comes from the Matter-State to confirm its existence. You have to understand, you have no choice but to understand. that... the new time, the new era, the new cycle of Life for Man has started. And is only you who will change. The new cycle does not know no physician, does not know no peasant, does not know anything, because all the Souls are the same. You need to elevate the Soul of the Man. Which is your Soul. And make it free, that the others do, according to their condition, understanding. Try to expand the knowledge. Try to expand your own understanding. and don't rely on the others, to do it for you, or do it for the others. Because if the Emotion which is an intention is to elevate the others, they move to receive what you like to give. Not you enforce, but the choice. And this is

the most important thing. If you kill yourself, you committed suicide, you're responsible for your Soul in respect to your Physicality. If one kills you, he's a murderer. That's the difference. But at the end is the end of the same cycle. You have to be the giver unconditionally, without being forcing, enforcing, the elements of the Physicality to confirm your understanding. We create conditions, because all these things we do, is like that Nano making, that GANS making, that ... Fields to show. The Systems we set up, the Factory's we set up, the Products we set up, at the end of it, is we feed so much, of these energy, these Fields, in different Dimensions the Man comes across it in the supermarket, drinking it, wearing it, whatever, that we unknowingly, without him knowing, give him enough to elevate his Soul, is not the purpose to feed him, is not the purpose to satisfy his hunger or thirst or clothing, is in a hidden way, the story of the Cow, the King, the Prince and the Doctor, I've said it many times, the Prince wanted to be slaughtered, because he was a Cow, they brought all the physicians and know he wanted to be killed because he was a Cow. The wise physician came and says, "Okay", he put a noose around his neck and he start pulling, says, "where it is, you're a Cow I have to feed you, you are too bony, I need meat to sell" and he fed him, slowly, that then one day he said, "Why is a noose around my neck, I'm not a Cow, not an animal." He said, "That was the whole purpose." "This is the way I teach." I always told you what I wanna do with you, but you were deaf to hear. I'll feed you through supermarkets, I'll feed the Soul of the man through clothing, to a Spaceship, to every means, that one second, the Soul of the Man has elevated a point that ... "I have it all." This is the way I teach, this is the way in the Universe we always teach We give bit by bits. We don't wait to see the results immediately. We allow the Soul to understand. To change the Emotion, which means the interaction of the Field of the Soul with the Environment of the others, that they come in interaction with, You go to the bed with a Man or a Woman you hate and you make love to, and the same body goes to bed with another Man or a Woman, and it takes the pleasure of, making love to, is the same Body, it's the state of the Emotion. And this is what most of people don't understand, Emotion is the manifestation of the Soul in the Dimension of Physicality, but the Body is the same and the Soul is the same. Why, one is the point of Hate and interaction with another is the point of Pleasure? Why do we hate to be touched by somebody

and we enjoy the touch of another? It's the same Body, it's the same Soul, it's the condition of interaction of the Fields, from outside. Why do we change the love to a Man and a Woman to the hate for them and the ... It's the same body, it's the same Environment. Isn't it that we have moved the condition of the Soul in interaction with the Field, or they have changed the condition, that now it interacts in different strength in the dimension of the Man, or we have added something to it, out of the expectation of the Emotion. Then you understand. From now on teaching is not with the course. Now, the teaching is listed with the core of the Soul of the Man because then in Space you will not commit any crime you will not do anything wrong, you understand the Totality, and instead of me releasing you, as a kindergarten children in the Universe, I release you as, Professors, as well educated, as the saviours, as proud to be from the Planet Earth, as proud to carry the Amino Acid of the Creation, which lead to the Creation of the Soul of the Man. They will not say, "the wild people are here", they say, "the educated Man is here, Man of Soul, the Creation of Peace is here", But, we had to go through the Souls, the same we do that you don't feel like a cow, but you become a Soul of the Man, the Physicality is the same. Then you become the Soul of the Creator, then the Man evolves, then we become the True Man of Universe We have opened the door, is for the Man to take that step, you don't need a Spaceship, you need the ship of the Soul of the Man, and that's all it is. If you were looking for us to take you in the Universe, and show you the Universal Community, we have brought the Universal Community in the Soul of the Man, it's you who has to understand the difference, it has to become inclusive, not exclusivity of Physicality what become inclusive of the Soul of the Universe. Thank you very much for today, I have to leave. Hopefully, we see each other next week and try to understand the strength of your Soul, and try to be a giver from it, not the enforcer, try to create condition, that it brings Peace to your Soul, not for you to see, to get the satisfaction of Emotion of Peace. Thank you very much for today, good bye. (RC) Okay, thank you very much Mr Keshe, thank you. Okay, we'll end today's teaching on the... that note, and this has been the 195th Knowledge Seekers Workshop for Thursday, October 26th, 2017. We see you next week at the same time and place. Go ahead Flint.
