The Keshe Foundation, an independent, non-profit, non-religious, space-based organization founded by nuclear engineer Mehran Tavakoli Keshe is introducing to humanity the Science of the Universe, Plasma Science Keshe Foundation develops universal knowledge and space technologies that provide solutions to major global problems, revolutionizing Agriculture, Health, Energy, Transportation, Materials, and more. The application of Plasma Science in the form of specially developed Plasma reactors and other devices, will give humanity the real freedom to travel in deep space. Plasma Science exists throughout the whole Universe. It is here and it belongs to you. Our knowledge, research and development regarding the Plasma structure has progressed to the point of enabling everyone to participate in the process. Become a creator and understand the work of the Universe for the good of humankind on this planet, as well as in space! The use of MaGravs, Nanomaterials, GANS, Liquid Plasma, Field Plasma and other Plasma technologies have come as a new dawn for humanity to progress and work in harmony with the Universe. Conventional technology applications are wasteful, damaging and cause pollution to the planet and all living beings. Plasma Science provides solutions and improves existing methods

and use of resources in all aspects that touch the lives of all beings. Plasma is defined by the foundation as an entire content of Fields which accumulate and create matter and it's NOT defined by its physical characteristics like ionization or temperature. Also, with Plasma science, we understand how we can convert matter back to the Fields. Quoting from Mr Keshe, "MaGrav stands for Magnetic-Gravitational, which means Plasma absorbs or gives. And every Plasma has the both, it has give and it has take... And when they can't find the balance they distance themselves until they find the balance they can give to the others that they can receive what they want to receive and give further." Certain atoms and molecules release and absorb Magnetic or Gravitational Fields. Released Fields are available to be absorbed by other objects. The Keshe Foundation has developed a way to gather these free flowing Fields from the environment within a resourceful and beneficial new state of transitional matter which M.T. Keshe named 'GANS'. The first step of the process of the formation of various basic types of GANS, is Nano-coating metals. This is carried out either chemically by etching (steam coating with Sodium Hydroxide) or thermally by heating (Fire Coating by gas burner). During either coating process, gaps between the outermost layers of atoms are created. The residual coating is often referred to as nano-coating, defined by the structured layers of Nanomaterial, which build up during the creation process of the coating. Nano-coated metal in interaction with other various metal plates, in a salt water solution, creates MaGrav Fields. These Fields then attract available elements to form a specific GANS, which collects and settles at the bottom of the container. This GANS is formed from independent energized molecules (like little suns) that can be used in various applications.

(RC) Welcome everyone to the 196th Knowledge Seekers Workshop for Thursday, November 2nd, 2017. Once again, I'm your host Rick Crammond, and once again we'll have Mr Keshe ... for today's ... teaching. And I'm sure he'll have lots to say, as he always does, for us to ponder. And I think he's ready to go, already today, ... Mr Keshe are you indeed ready to go ? (MK) Yes, good morning, good day to you, as usual, wherever and whenever you listen to these Knowledge Seekers Workshops, and ... sharing knowledge in different ways. In the past

couple of weeks, past three, four weeks, as I mentioned in the last teachings, we have stepped up the teaching. We have gone beyond Physicality, we have gone in a dimension, the way the Universe works. Physicality, tangibility, needing physical confirmation to confirm something we see, we know is correct. And in the recent past, those, who could abuse this situation, they always say, "Confirm. I see, I believe." So, I cannot see with my eyes, I don't believe, so I want to stay stupid." "And your intelligence to me is irrelevant because I don't have the sight to see, I don't want to see because then I have to teach myself something new." But the strangest thing is now, we're going to the next level. How can you let a Soul of another person see what you see, with your Soul? It's getting more complicated for the physical man. It's getting more complicated for those who look for confirmation of control. "Show me yours and if I want I accept, otherwise I moved the goal post." How do we handle this with the Soul of the Man? How do we look into confirmation of what we do is correct? Confirmation of what we see is correct? Confirmation of what we feel with our Soul is correct? Then it comes to a point. "Do I need to prove?" Then this way, I cannot, I shall not and I will not be controlled. As I've said, many, many times, people say, "Show us this." I said, "The time of the magic to show, to prove, is gone." You have to understand, to feel and comprehend through your Soul. It's been the pattern that they ask for the prophets of the past, "Show us a magic." Religion and magicians became the same. Look at the Life of Christ, look at the Life of Muhammad, blessed their names. The same as Moses, the same as everybody else, which has come to guide Mankind, they had to show magic. Now the magic is on the Man, to find his Soul. And I've said many times, "I will not show any magic." Because, I show you in the Universe there is no magic. We have to understand, we have to comprehend, we have to step up to the new knowledge, that nothing in the Universe can become a magic, that the magician become a prophet, the change. The ways, in the past few weeks, few months, everything which is achieved, is put on the carpet, because we do not see a dead Man rise. We do not see a ocean open for people to cross, then there is nothing. But we have enlightened with the magic of the science, that many millions can do everything themselves. Everyone has the potential to reach his Soul, to understand the Physicality is the extension of the Soul. It's what has separated us from the past... from magic. There is no

resurrection, there is no [inaudible] heading somewhere, waiting to come. And to the eye a [inaudible] is the openness of the Man, to understand the Essence of his Creation. This is what has been the biggest problem for a lot of people around the Foundation. "Show me, show me, show me, show me." Now the thing is, the answer is very simple. "You show me your Soul, you show me your Soul asks the question to discredit." "You show me the Soul, is there, to block the knowledge." "You show me your Soul, I show you my technology." So, the answer is very simple. Nobody needs to show, but everybody understands, according to their understanding, their level of intelligence and what it fits them to be. Fits them to be amongst people, according to the level of understanding of the people you are with. It's no use speaking about cosmology with a fisherman who's just interested in the fish, and the stars guides him to where to be, where daytime, night time to fish. You speak about cosmology, to a cosmologist, he'll tell you the shape of this Solar system, the position of them, and everything else. So, we have to become to understand, to speak the language of the Man, according to his intelligence. When we teach in such a way, as of these workshops, we teach every man. We teach in every level of understanding, that everybody takes from it, according to what it needs. The fisherman understands how to look after the fish using the GANS technology, Plasma technology, to create a comfort for the fish, to create a position that there are no parasites with the fish, to create a condition that the fish is happy with the condition of what he is used to. And, the cosmologist looks into the depth of the Universe. How he can transmute? Why the stars get these positions? And how he can see new dimensions, in the knowledge of the science of cosmology. This is what we are here for. We have to understand the operation of the Soul. And we have to understand, the Soul of the Man is a Star in the Cosmos of the Universe. If we compare the Soul of the Man, and many of us, 7 billion in one collection. Earth is like a Galaxy, with so many Stars. When we look in the depth of the Universe, we see Galaxies with hundreds of millions of Stars in it. So is the Planet Earth, carries 7 billion beautiful Stars, which are the Soul of the Man. Carries with it, Soul of so many trillions of animals, plants and everything else. So if you look, when someone who does not see the Physicality of the Earth. and its content, what do they see? They see a Galaxy, with so many beautiful lights shining. Each one according to their strength. Each one according to their

positioning. An infant, has a beautiful soul, so has the old man. To those who do not the physical, who do not see the physical dimension of this Planet, but they see the strength of the Fields, we are a... clusters of Stars. The Human race, every single Soul. No one from a distance sees, that's the soul of a fisherman, that's the soul of the cosmologist, that's the soul of a president. They all shine, irrespective of the Physicality. This is the magic. This is what the new science has to bring to Man. When we look through our Soul, we see nothing but the Star in the other Souls. And this is the break, this is the understanding, this is what all these teachings are about. Not to become blind to Physicality, but become aware what physical life comes from, what is behind it. If you look, in the structure of this Planet. What would we see, if we don't see the physical dimension? ...e, the center of the Planet, with its Soul? ... where it holds everything. ... the stars in this beautiful Galaxy. ... difference with us, we decide where these parts go. Where ... the Star ... Fields ... I expo... it's a beauty ... being ... Then, we have to understand, how these Souls interact, that their interaction leads to the appearance of the Physicality in a given condition. When you see the Soul of a man in the North pole, with a fur coat, has no difference Soul when the same Man flies into Middle East, in the heat, or in the Africa in the heat, with a t-shirt. The Soul is not aware of what's on. The Soul is aware of the interaction of the Fields of the other Souls. This is the elevation of understanding. This is the new magic. One understanding, the potential of his own. What can I do? How can I give? How can I become the way for the other Souls to elevate themselves? This is what, this is part these teachings. This is how we brought Man to understand the next level. There are many levels after the level of the Soul of the Man. But, if man has problem in understanding, the difference ... between the physical state of his life, and his creation point of his life, how do you expect, to understand the steps beyond that? There are many levels beyond the Soul of the Man. Which again, is interaction of the Fields of much higher order. That, they're what we call, 'slowing down', or 'loss of the strength', leads to the creation, of this Essence of the Soul of the Creation. There are souls, there are conditions, there are levels, beyond the Unicos. Man has a problem with his neighbour of different color of skin. let alone to understand the creation of the Unicos. We have to become, to understand, that we do not get bogged down to one thing, one word, one system, one

behavior. But, we have to understand, what we understand of this behavior. What has initiated it, what is the cause of it? What is the firing point, starting point, and what is the point of demise? How do we elevate others, that our existence has no relevance, but to serve? There is no sacrifice in the level of the work of the Soul of the Man. But is a servitude. It means, "I make myself a passage, for others to receive the higher order." "That, through them, I get a pleasure to be part of." Not, "I am the reason that they have elevated themselves." Separation of the two part, of the physical life and the Life of the Soul of the Man, will bring a lot of problems, for a lot of people. We have seen in the past few weeks. We have seen how we interacted in Togo. Things suddenly changed, and it's just done, it's gone. But have we done? What have we achieved, what we put in? Now our situation moves to another country. Are we going... going to go, Country by Country, to, in a way, prevent? Or are we going to go to the Source, which causes this. Look at the pattern. The Spring Uprising... Now, it's African Uprising. The instigators are the same people. We see, the Middle East, problems. We see problems, in South America. We see problems, getting set up in Far East, Asia. But, how come there is no problem in the house of the instigators? How come they're making life comfortable for themselves, but the others suffering? This is the same point, as I said, in respect to the hurricanes of what we call, the 'Caribbean's'. We are used to shipping, getting food batches, or whatever, and as I said, "Step up to the next level." "Reach the Soul of the Man, that he can find, even Peace in the time of trouble, he can find shelter, through confidence of the Soul." Now, we have to do the same thing. We have to find, to elevate the Soul of those who instigate these wars. It's no use blaming. You call them 'Rothschild's', you call them 'Illuminati's', you call them whatever, 'Masons'. They have lived off the weakness of the Man. But, if we teach and understand, and step up one level, raise the Soul of Rothschild's, raise the soul of those who call themselves, whatever. That, in raising, in elevating their Souls which is gone so low, they see their own misconduct, they... Soul will change their Physicality, Take the fight between their Physicality and their Soul within themselves, that the outside stays at Peace. We see many things, blaming these people, 700 years, a 1,000 years blame them for a 1,000 , 10.000 years. It means, man has not matured, one who accepts the condition imposed on them and one, who creates

the condition to impose. Elevate the Soul of those who call themselves 'king', 'queen', or whatever. By giving from your Soul, that in the embarrassment of understanding of the Physicality and the Soul, they walk off. It's been done, many times. Many times. It's just, there has not been enough understanding from the Man, that whoever, whatever you call, can walk amongst the people as normal. As part of. "I serve, does not matter what title I carry." "I'm here, to make other Souls to be a life of Peace, irrespective of where I come, who I am." It's in the writings of Bahá'u'lláh, bless his name, that he says, "The time will come that no one will take the crown of kingship." What does it mean? It doesn't mean that they're going to be getting rid of the kings. It means that, we elevate the Soul of these people, that they see themselves as equal to the others. Because the Soul will impose, not the Physicality. Kingship comes out of physical life, there is no kingship in the Soul in their level of Soul. We don't have the Soul of the King Abraham or the Soul of the King Moses. The Soul is equal and it shines like every others. This is what we have to understand, this is where we have to change the structure of our work. Where there is no fear to raise the Soul of those who to Man in a physical life has been a threat. Those who sit at these points, who instigate these wars, who instigate these conflicts, instigate any kind of conflict are those Souls who are so low, that they need this to confirm their existence. A king does not need to confirm, "I'm a king." A mother, who is generous to his children does not need to confirm, "I'm a mother, I'm generous." "Because, I'm the mother, because I gave life and I protect life." "So, is my Soul which increases the Soul of my child." "I give from my Soul through Physicality and through my Soul to my child." So, when you think of what you call, 'Illuminati's', 'Rothschild's', 'Masons', 'Mafias' or whatever, change position, raise their Soul. Give from, be a channel take from what you think you can spare, to save their Soul. They walk off! The conflict between the Physicality and the Soul will walk them in the path that they... changes will come, and this way will come very rapid. In my teachings, in past three, four years all of you, majority of you, have done the physical tests and then you have to have the confirmation. I've showed you how to make the Nano-coating. Then, I showed you how to make the GANSes. You went, you bought the caustic, you made the Nanomaterial. You made the box, you made black material, "There was there, the guy is correct, it does something, what he said." The Coca

Cola bottle was on the Internet for five years, six years, nobody knew. they call it, 'the magic liquid', it was a caustic. because Man never understood. We brought the knowledge into GANS, and then with it, you all created it. You made boxes to confirm it's correct, "what he says, it can be done." Then, you start playing with GANSes, you made patches, you made systems. You used the new Plasma understanding, to the level, you made MaGravs, You made all sorts of thing to confirm, get a confirmation, "I'll make a patch, it changes my pain." "I drink the water, changes this... does this... does that..." You went step by step, getting confirmation. Now, you have to do the same thing, get a confirmation. Make the reactor of your Soul, the reactor of the change. It's dynamic, is made if GANS. It comes from the structure of the Nano-atomic structure of the Universe. All the teachings from Nano to Magnetic Fields of dynamic cores was to teach about the Man himself, was to bring you to understand, to see, to feel that now you can use this, because it's within you use the dynamic Soul of the Man to elevate the others. If you look at it in a different way when you have a pain, those of you who use the patches you put one stronger patch on one side and one weaker patch on the other side. and in transfer of energy from one side to another, you elevated or removed the energy which you call 'pain', in your body. and then there is no pain. The GANS of you and the weakness of the pain in between elevated the energy, removed what was needed, that everything became normal. So, Rothschild's, Illuminati's and the rest are in that pain in the body of the Humanity. You become the stronger patch, you give from your Soul in the transmission of light that you raise these dying stars, that, you become part of the change, you become the cause of the change. You believed, you made the GANSes, and the cores and the Nanomaterial Now trust your Soul, every Man can do. You were waiting for evolution through Technology, now the evolution is the Soul of the Man himself. Test it! We showed the power of the strength of the will of the Soul of the Man in Togo. Conflict, no conflict we were stronger than the instigators of the war, who printed paper money, in the circulation, to kill more. So, we have seen the work we have seen the elevation of the Soul we have seen collectively, we can make the difference. We have become those dynamic reactors, we have become the Souls which can elevate. Now, let's move on. If you were thinking that the process will come, that things will change We done this with the Core

Team some two or three years ago The 14 members of the Core Team, when they decided to do things, we saw was achieved. Now, we extend this to the whole of the Keshe Foundation team worldwide, millions of you. Give, test the reactors of the Soul of the Man and elevate the Soul of those who see themselves as what I call, 'attention seekers of power'. The kings, presidents, the heads of whatever organization that they become to your level. They need the Soul of the Man to elevate. And, if you see yourself as just and correct, and for the benefit of Mankind and the Humanity on this Planet so, you are stronger than them. So, it means that you can give, that you direct it. And in their receiving, you elevate their Souls to your Soul. You have become the Prophets of Peace, that's what the prophet is. He's the Man who gives from himself to raise the level of understanding and comfort of the others through their Physicality and Soul. The life of Christ, the life of Bahá'u'lláh and Báb. The life of those like Buddha and the rest, who gave to serve. As is in the writings of Bahá'u'lláh, "The level of understanding and the Soul of the Man," at the present time, when you reach the understanding of the mutation of the elements, "reaches the level of the Prophet of the past." And, those who work around the Foundation, those who understand the purpose of the Foundation, have reached that point, you've gone beyond that point. Now you understand the transmutation of Fields, which makes the elements. So, you are 'wiser', you have become so educated in such a short time that you have not even realised. You have become the Masters of the Prophets, but there is no master, it's the elevation of the Soul. It's the transition of the Fields as the Soul has no Physicality in the dimension of the Man, at the present time. But, when you go to the other dimension then the Soul finds the Field-Strength of the Matter-States of its own. Then you understand, where and how the work of the Foundation is been taking shape Is not self sacrifice, it's understanding of elevation of the weak, trying to confirm they exist. Trying by the same action creating a position that, "I have the power of control." Go back to the medical teaching, in what we call 'ADHD'. Attention deficiency hyperactivity. If we look at the people of Rothschild's if we look at the Illuminati's and the Masons what do they do? They are a child with a ADHD? They need attention to confirm they exist and they're hyper activity, to show they are there, that they to control is the wars, harming the other. Do we destroy the child with ADHD? Or, do we

give from our Souls and find the medication for it, to understand why? And, in the new knowledge we understand all they want to do is to confirm they exist. So, treat them as a sick child. But, these children need the elevation of the Soul, not Omega3. Because, this comes through the lack of trust in oneself. "I am of a bigger gang, and I can control." Then you understand, does the Human race, needs Vatican's, the Haifa or Mecca? Or the Wall? Or temples in the mountains to rotate some drums? Then you understand why we teach this way. To gain understanding into the Essence of the Creation. we can go in a position of sorting one thing to another. One war after another, just to keep this hyperactive child trying to confirm his existence that, "I control!" Let's give him his Omega3 to calm him down, give from the Soul of the Man. Let them have their fights between their Physicality and the Soul. Take the pictures of heads of Illuminati's, heads of Rothschild's, the heads of ... Masons and give from your Soul, to them, that you elevate their Souls. You'll find the Physicality of their face, that you can reach the dimension of their Souls, it's like a Postbox. This is the beauty of the new cycle of Life. Mutation of elements where, you find a face and through it you reach the Soul and you raise the level of the Soul Let the elevation of their Soul be the Peace for Man, not fighting it. fighting takes time, takes energy, which is not the attributes of the Soul of the Man. This is where I start teaching in the past few weeks to bring you to this point and the points which will come in the coming weeks and time. As you mature, as you come to understand, "Now I have to use the dynamic core of my Soul to elevate the Soul of a sick Man." But this is not a sickness, it's a demand to be confirmed that, "I exist." This where this Technology comes into operation, you are back to the first teachings, some 195 teachings ago. How to make Nanomaterial, that it leads to the creation of the GANS material that I can see "It can do things." Now, the Nanomaterial condition, creation, is an understanding of the work of the Soul of the Man. This is what we are leading to. This is what we are expanding the knowledge of. This where the teaching is heading us, Trust in oneself's strength of the Soul. It needs to be done, that we bring Peace on this Planet. It needs to be done that by seeing the change, we understand in the next step, that in Space, "it's us who can change." These are, very much, like the tests we do to confirm the Pain Pen works. The pain is the Soul's behavior of these people the kings and the rest. Has it solved the problem

by getting rid of the Tzars? Another has come, to claim the same position to do worse. Has it changed the situation in Iran? By getting by getting rid of a king, has brought more murders where the others who wanted to get to the same seat. But, once you elevate the Soul, no one seeks a seat, but becomes a servant. This is what is on the logo of the Keshe Foundation "We are here to serve and not to be served." It's not a restaurant, it means, "I'm here to give from my Soul," that by it, I elevate the Soul of the others." "I do not need to be given, because when it's needed," "I take what I need, by what is given to me in the level of the Soul of the Man, not in the Physicality of the dimension of existence." Now, maybe we have to go back to the lab and test the strength of our Souls? Then we understand, there is no need for wars. Because, there is no one to claim more, because we all have more. So much money spent on the arms to kill, for those who sit at the realm of these organizations, to confirm they have power. Give them the power of the Soul, that they find out they have no power. Then, you'll find out there is no need for defence technology. Then you find out, the money which is spent on killing can be used for the other things. There is no seat for this seat of kingship. We've never seen a crown and we've never seen a throne in any part of the operation of the Soul of the Universe, except in physical dimension of the Man who is nothing and claims to be something, by physical destruction of the others. Give them so much with their Soul that they find out there is nothing in the physical dimension. They say, the present Pope he says, "He will be the last Pope." He is correct. Because we are going to raise his Soul to the point that he sees the Truth about the Life of the Man through the Soul of the Man. And he'll speak and the World will mature to understand. These people reach billions, as they can say, "This is the end of the time, the Soul of the Man has reached maturity that we are all equal." This is the change. The time will come soon that all these people where you raise their Souls, will open up... the treasuries of their work for centuries to be used in the benefit of Mankind. When we become One Nation, we don't need to spend according to the governmental statistics, 1.6 trillions of dollars on defence technology. 1.6 trillion on road, housing, shelter, food, hospitals, universities, education of the Soul of the Man, will make Heaven on Earth. That is for 1 year. One trillion is one thousand, or one billion... It's a huge amount of money. which Man makes, spends... to kill. To kill the Physicality,

to harm the Physicality, to confirm for a few, that they are in power. Now, let the struggle become, when the Soul changes and sees then does not follow the Physicality, then we'll see how many of these people will end up their own physical Life. Many of them will do, when they understand how much wrong they've done to Human race, over time. This is the purpose, let them elevate. And let you, to be the tools of elevation. Be proud that your Soul has brought the change. Be proud that the purpose I spent 196 teachings, now has a purpose. I have found a purpose for my existence, not in a confirmation of a MaGrav, a GANS, or a Nano-coating. In so many ways, as we say, "We dangled the carrot in front of your eyes without you seeing" that now, you'll find out, there is no carrot, but in fact, you have the beauty from the beginning, but you had to understand it, that the carrot was the Peace on this Planet. The carrot was elevation of the Soul of being on this Planet not just one but the entire Souls. Coming to mature to the next level, to understand in the Deep Space, the Universe is the oyster for those Souls who serve, Then, Man is ready to go into Space. Then, Man is ready to become part of the Universal Community which has been promised. I never promised you Heaven, I always promised you the elevation of the Man to join the family, and now, you are the key. It's you who has to open the door to understand, "If I can raise the Soul of these people or millions of other Souls that the physical Life on this Planet changes, then I'm worthy to be part of the Universal Community. To be there to serve, to expand. To be there to be part, that in the cycle of Life of Universe, I become, in being part, I become part of the Totality." When Man reaches that point, a new dimension in the strength of the Soul of the Man will appear, which is beyond imagination of understanding of the physical Life. It's the gate to the opening of the new Life, in a new dimension, which is beyond imagination of what you might call, 'A New Beginning', 'A New Cycle', which that cycle carries with itself, the origin of the Creation of Life in the Universe and in the Unicos. It's the elevation of the Soul to serve, become the key, not a throne of the physical Life. The time is right, the time has come for the Man to go through this process. And many of the Keshe Foundation supporters and followers, and through the Souls of those who have never heard of the Foundation but have heard through the strength of their Souls, "the call for change has come." In two weeks, we showed we move the war. Now it's time for

the Man to move the causes of the war through correct conduct, through elevating the Soul of those who are the instigators. The time has come for us to move, through the strength of the Soul and not through the Physicality of the gun policy. Praise, raise the Soul of the American President, he needs it. Because, in elevating the Soul will change the Physicality. Do the same with the Pope. Do the same with all the Rothschild's. Do the same with Illuminati's, with everything else, even the local Mafias in your area, what you think they are. The mayor, the priest, the president. Then you'll find out, the more you give the more you have, and you see the change. But now, it has to become a collective change. It has to become a collective change, through the collective giving. Understanding, you put the patches on either side, and you saw the change, now, you do the same, you become the patch. But, don't think that you become the strong patch, be the speaker, that the interaction between the stronger and the weaker that is the other Souls within the Foundation and the work of the Peace, will bring these people to be in the middle, to elevate. This is what we need. This is, what is the time for change. This is, what it needs to be done for Man to be able to bring Peace on this Planet. This is what we have to understand. We have gone on through this path... now, it's time of maturity. And the beauty of it is, the more and more who come and get attracted by the Nanomaterial, by making GANSeS, by making ... the cores and whatever, they do not understand. They cannot even imagine that they have started a path that you started months ago, years ago. And then, in that process of understanding with the teaching, their Soul is getting elevated to the understanding of the work. Why? And how? You got to realize we see a lot of people in two groups in the Foundation. Those who are the talkers and those who actually do things, make things And we see a clear separation between the two and a third group which is between the two. Those who get involved in making GANSeS and working because they are in touch like with the Zinc, with the Copper, with CO₂, with CH₃, they become different mental state. They become elevated in the Soul because they receive so much that, they pass the level of Physicality. We see devotion and admiration, we see them to becoming very active. Because, unknowingly they are receiving so much. And then they receive the elevation of the Soul. We see this right across the Foundation. Then we see those who stay theoretical and they are there just to be,

"I'm the support, I never make things I'm there I understand my Soul is with you" and the rest of it. They become the weaker patch. And then we see those who are in touch with those who make the GANSeS, and the ones who don't, but they work and interact and we see they get their Souls elevated. Because they receive it, they receive the attention, they receive the energy, which comes through. And then, this is the process we will see. Is not that to make GANSeS to elevate yourself. Is that the process is gradually spreading by those who become, those who join those who become part of bigger structure. But in between, at the end of the day, Man will come to understand through the rising of the Soul of the Man. In so many ways, by setting up the factories that we produce CO2 Zinc-GANSeS and Zincs and whatever is to, through the magic of the carrot, to raise the total Soul of this Planet. It's the only way we can do. You remember the story last week, or the week before, about the poor prince, who thought he's a cow and needs to be slaughtered and the physician put a chain round his neck, he said, "You're too slim, I have to feed you that I can sell you." And then medication for the string came through the food, this is what we are doing with the Human race. Through the systems we develop, we change the atmosphere and the Soul of the Man. And it's done by all the Keshe Foundation supporters and the people who work around it. This is the structure. But, as we are in a physical dimension, we have to do everything that we can reach, any trick that it can elevate the Soul of the Man, is part of the structure of Man. The food, the MaGrav System, the water, the shirts, the Medical System, everything the same. To change thousands and thousands of millions of years of behaviour overnight, will not be so easy, but now is done through the Man himself. By Man. This, we'll see more and more. What does this mean? Now, that we reach this new understanding, what is the next thing to learn? What is the next knowledge? The next knowledge, now that you understand, the Soul of the Man, is to create a Physicality of the Man. Now we have to understand the conduct of the Soul. The essence of the operation of the Soul, that we do not come across a ball of light, dynamic but not understanding how we operates. Because it's us, is operation, is understanding, leads to the physical condition of us. Where are the flaws and where are the beauties, where are the blockages? What do we need to become a perfect Soul? The Soul of the Man is the River of Life of Universe. It has many subsidiaries. And

it has many inflows. The body of the Man is the channel for all the subsidiaries and all the inflows. All the ones which will divide the river to feed the others where itself receives more from inflows of little brooks and little springs. And in time, the two work next to each other. I always define the work of the Soul of the Man, very much like a Russian oil pipeline. In old Russia's USSR, they used to dig oil from every part of the Russia, but they brought them all into one pipeline and they called it, 'Mixed Russian Oil'. But, when it came out the refineries knew which part of the oil they need. In the process how they have to handle it, they could get the full benefit from the light, to heavy, to medium. Russian couldn't have a pipeline for everything. There was a springs of everything coming together, making one channel and then, in process, the divisions as was needed. So is the Soul of the Man. We take from everywhere. And in that process of in the pipe, we have to make everything balance. What is his, what is not, what in one strength become the others, but collectively, when we come out, we serve the Totality. Everyone receives equal and something. It's a very strange way, and it's very much for Man to understand. Is not a conflict, is the understanding of the process internally in the flow of the Fields of the structure of the Soul of the Man. With the physical life we are used the mouth and the nose, that's where everything goes in. Air and food. And then, the structure runs... and it comes out in different shapes and forms. In the Life of the Soul of the Man we receive energies. It has a processing inside the Soul of the Man very much matching the Physicality of the Man. What feels needed - when needed, that in turn, what is divided of the highest order of giving, can be given out on the other end. Let's call it "The exit pole of the Soul of the Man." Inside it's the same process, is not that you get compressed and decompressed, but in a way, what is needed by the others, in balance internally with the Field-flow of the Soul, is given to what is needed to be given. Nothing is thrown out for it there to be, to be caught by something. It's very much like interaction of a child with the mother, child being another Soul, and the mother being the Soul of the Man, which is you. Child doesn't speak, "I'm hungry." but the mother knows it's time to make a food for it, and this strength, and this is what it needs. So works the same inside the Soul of the Man. Recognizes the operation and need of the other Souls, and what is needed is given. In a way, in the Soul of the Man, it's the same operation of serving. It's

understanding the need of the environment of the Fields which I release, that, it's given and reaches to the one which has received information that I need to give. The operation of the Soul within itself, is a clockwork and a maze of interactions of the remote-controls in the line of the Field-Strength. So, when you have a Soul which it needs attention, it hasn't strength, it's the Soul of it. And within you, you by giving, release what it needs, through your Soul. So, you change the Physicality, through by giving to the Soul of the Man. At the strength which the Soul needs. Not, "I give everything, that he can take, and the rest is wasted." Nothing in the world of the physics of the Field motion in the Soul of the Man is a waste. And nothing is put out just for the sake of being out. It's very much, the operation of the Earth. Earth does not just put Fields out for the sake of putting it out, from its exit called the North Pole, it puts out at the strength which can control its position in respect to the Sun, that it guarantees its survival. Even the Earth has a Soul, to dictate its survival, to dictate its position on a continuous basis. Otherwise, if it just throws any Fields out, at the end it'll be vibrating and shaking like a... whatever you like, a bowl on the vibrating table. It doesn't do that. It assesses through its Soul through the Field release, "this is what I need to release to keep my constant position in respect to the Sun and the Moon and the rest, and the rest which are in." From Jupiter, to Saturn, to Mars, to Venus and the others. So, the Soul of the Planet Earth, works on the same way. It doesn't just burst out any Fields, then it gets attracted to the Mars one minute, and then falls out to Jupiter the next. There is a mechanism within the structure, which every Field has its own strength interaction, that it keeps its constant flow, its position, and guarantees its survival. So is the Soul of the Man. And the sooner Man finds out, from macro to micro, the Soul of the Man and the work of the operation of the Planet Earth, now you understand the Truth about the Life. I have hidden this, in the pictures in the book number three. Where you see those little curly things, each curly things is a part of the operation, which it interacts with the other Entity, that it keeps a distance of the Totality of the s... Plasma in its position, in respect to the outside Fields. Now you understand why the pictures were made this way. It's not that everything is chucked out and what is needed. Every single Fields which comes out of this Planet is controlled by the Soul of the Planet. It's controlled by the operation of the Fields that it guarantees its position in respect

to the Moon. Moon has a different Magnetic - Gravitational Field-Strength than the Sun. If the Earth would have created that Field, the Moon would have moved into the Sun. Because it will throw it away to the point, but it's a mother, it's caring, "I need the child to be at this point because I need it to collect my Fields, which are surplus, that I can guarantee my survival." Now you understand, everything in the Universe has organization even the Soul of this Planet which leads to the Physicality manifestation of this Planet. So, is the Soul of the Man which leads to the manifestation of the Physicality of the Man. Gathering of a dust on the moving magma is not coincidental. Not just only on this Planet, with every Entity existing in the Universe, is the same. Now you understand. Now, it becomes very much in the process of what we need to do with what we receive from the Soul of this Planet, and the Universe. And how in our strength can take, serve, to be able to take what is not needed by the others, by serving them what they need. That the structure, in Totality, is Peaceful. Means is a giver, that by giving it finds its position. Now, start testing. You've seen the MaGrav systems works, you've seen the pr... pans.. and the pens work. You had the Pain Pads and it worked. Now, you've seen the work of the Fields, now is time to test the Soul of the Man. And rejoice his beauty, its strength and with it the end of conflict and Peace on this Planet. You did not chop the pain part of your leg out, you just put two Plasmatic Field patches on either side, that you take from it what it doesn't need and you gave to it what it needs and the pain is gone. These organizations are the pain in the Life of the society of the Planet. Do not need to head hunt. They're so low, they need to be elevated. That, in that process, the whole Physicality of the structure changes that they understand, there is no need. We can do these over centuries or collectively as we have some stronger Fields and the lesser Fields, Souls, we interact and we give so much that we change this cancer out of the body of the Man. By itself removing itself, but not us fighting. Fighting takes too much energy, too much planning. Giving is easier from the Soul. Because then, inside the Soul of these Entities, Beings, Man at the head of any, or part of any, it's those little curls in the Field of the Plasma. has a purpose and needs to be served to satisfy itself. And with it, then the whole Plasma becomes perfect. Find this position and we'll see the change. I see many of these will walk in the path of correction but depends on the Will and the Strength of the Soul of

the Man to give, that they understand there is no kingship and there is no need to prove who is in charge. In the past couple of days, I came across a boy who was playing with my son. And I watch the reaction of the mother in respect to this boy. And I explained to the mother that, that's all he's doing, he wants to confirm, "I exist and I have you under control." And the mother needed the child to confirm that, "I exist and I'm controlling you." I walked into a chemist and I asked for Omega 3 and I gave it to the mother. I said, "In allowing the child's Soul which comes through the GANSes of the mechanisms of these oils, he'll find Peace and you'll find Peace that you do not need to control." In so many ways, we do not need one to confirm the other. We need to give, that we do not need confirmation but the existence of one's itself gives the beauty of the Soul and the existence of the Soul. Now, as I said, dynamic MaGravs has moved to the dynamic Soul of the Man. You've seen the medical teams, the doctors how they used the new dynamic systems and they say, they see so much faster results. What, if you used to take weeks, now they see in a faster way but with it they see the elevation of the Soul of the patient as well and now they moved in that way. Now, the dynamic Soul of the Man becomes the physician of the Space of this Planet for those Souls who needs elevating, that they do not need, to be attention seeking to confirm their existence. There is no difference between the child and Rothschild's. They are both children and they need the elevation of their Soul. We target these organizations directly from now on, by elevating their Souls. By giving to them from the Soul, that in that process we find the restless child, find the Peace and confirmation that, "You do not need to control," "but you are controlled by understanding of your own behavior, that you're part and no different." These are the keys for the Peace on this Planet. These are part of the jigsaw, these are part of the names we need. Work, it's not just a GANS making and producing energy. Now for those who elevated, is to change the course of those who do not need and become part of the cancer of Life of this Planet. They are the same as a cancer. In the past we radiate them, we operated them and then they grow somewhere else again. But with the Plasma Technology we let the cancer to become part of the Energy Fields that it doesn't grow anywhere else. So, we have to do with the cancer of Rothschild's by themselves the Illuminati's, the Masons, and the rest. Because, this is the next key to the operation of Peace.

They become the biggest support for the change of Humanity because they have gathered the resources that can be used to change the face of wars, into peaceful places, for the establishment of One Nation. It's no use opening another structure when the same old man is throwing a stone in the water. It's our job for those of the Keshe Foundation supporters who have elevated and understood the work of the Soul to start elevating the Soul of these groups, the Presidents and the Kings. The Autumn Uprising which I promised you, has started but is the uprising of elevating the Soul of those who have been the problems of the society of Humanity for a long time, that they come to understand. The time of change has come and they have received what they wanted. No more wars, no more conflict. Man signed himself with the Pen of Peace. These things needs a signing with the Pen of the Soul of the Man and we start from today. This is why, so intensively I concentrated and I promised you the time has come. And now, this is another phase. Let them fight amongst each other's Physicality of the Soul as those who we give, mature in the Soul that they bring changes to the others. You trusted your Pain Pen, you trusted your Pain Pad, now trust your Soul, in giving. You are that Pad, where up to now, you are the sick in the middle. You've used it to finish and benefit your Physicality. Now you use the knowledge to change the pain of Humanity. I asked our guys in the background this morning to give me a very real statistics of the military expenditure of the World to today. 2016 which we have, 2017 1.6 trillion. With a few millions Keshe Foundation is changing things in the on... up. Can you imagine, 1.6 trillion will bring to Mankind in changing everything. We see the Chinese Government as a flagship and a leadership for this job and we have trust 100% in the presidency of President Xi. Is their flag hold and their way of doing. We will see struggles, those who still want to have their last kick but, in a way, they understand the time of change has come. There is no need for radical changes. It just needs for time to give the Human Race a time to rest. And those who understood the work of the Soul of the Man, have to be the instigators of the peace. Every second of your life, you have nothing do, spend time in giving from your Soul to those of these organizations who need it. Very soon, the buildings of Mosques, the Churches, the Vatican's, and Mecca will be empty. Will be history in the time when the Man did not understand the work of his Soul. No physical life will walk through these walls, as Man realizes, that it's

the Soul of the Man, and he has no need for Physicality to confirm his existence. All the properties of the Churches, the Mosques, the Synagogues will be returned to accommodate those who need and those who have elevated, to be able to understand their need. That becomes the center or support of the Human race physical life, and the structure, that, it has no connection, but, to protect their physical life. It's very strange, when you go to the Blue Mosques in Istanbul. By adding a few bricks, it has changed the house of God from Christianity to Islam in the same path, and then you go to Spain, where the Mosques with a few changes have changed from Islam into Christianity. Very strange, how Man has been fooled in the name of his own Soul. Now, we see by elevating the Soul of religious leaders, we understand that, they will guide to explain to the Man what has been wrong and what is to be done, and what is correct. As I said in the teaching of Tuesday, "We use the present Banking System to deliver." "We use the present Commercial System to deliver the food to the hungry, through the work of the Banking System." Now we do the same, in the same pattern. Let those who fooled the Man through his Soul, bring Man to understand the power of his Soul. Let the Churches, the Mosques, the Synagogues and the path of believe in Buddha and the rest, walk the Man to the path of understanding the strength of his Soul. It's easier than trying to bring another religion, another way of thinking. Let the Soul do the job, all the structures are preset. Let the priest teach about the Soul and forget about the Physicality of the Christ. People, I've already been in place. Raise the soul of the priest in your city, in your village. At the same time raise the Soul of the Pope, because he has to support him, to confirm the coming of Messiah, which is the Soul of the Man. You went to Church, and the Synagogues and the Mosques and you've donated, in their physical pocket money. Now, go to the same and give from your soul to the Man who collected the money, that the money becomes irrelevant and he educates the soul of the followers of the Physicality. It's time for change, to move, into the real work of the Universe. And it's time to understand, that, we use the Matter-State to reach the level of understanding of the Soul of the Man. Now, you understand, maybe, why the Creator has sent his messengers in the name of whatever you have had. Is that they bring the ears, that it can be used when the time of the Messiah comes, they can teach the Soul and the message. Not to oppose, but by them understanding

through those who have become Messiahs to give from their Souls to these to elevate. The job is made easy. The school is there and the students are devotedly there. Then, there won't be any fight, between what they call the 'Muslim' and the 'Christians'. The Lamb and the Lion will eat and sleep in the same nest. The Christians and the Muslims will sleep and pray in the Mosque then the same Church, in the name of their Souls, not in the name of Religion, that is used to create so much conflict, for the benefit of those who were the hyperactive children s. The time has come, the time of change is here. And as I said, "My wish is my command." If it's your wish to see Peace, the path of Peace is laid very clearly. It's the Soul of the collective awareness, by giving will create that position of change. No other thing. There is no pen in the Soul of the Man. and I'm sure, once you go into the Universal Community, you will never see anything written but the balance of the Fields of the Soul of the existence. Try to be humble enough, not to become arrogant in the power that you have understood and you possess, otherwise you'll fall in the same path of the Church and the Mosque. This is what we promised, and this is what we have delivered. The Autumn of war, conflict, division by path of belief has come. It's the Soul of the Keshe Foundation supporters and those who have heard through their Souls, without a name, to bring the change... and by the Ethos of the Foundation. We are here to serve through our Souls that by serving we can raise the Soul of the others. Why do you serve in the restaurant if there are no hungry customers? Why are we here to serve, if there are no hungry Souls to be elevated? And those who need more elevation are those who call themselves 'Leaders' and the organizations who would like to confirm their existence. Test your Soul reactors and see if it works. It worked in Togo, it worked between China, and Philippine. It worked between Russia and Ukraine. It worked between the Peace between Iran and Five plus one. It work between the Christians with little different names in Northern Ireland. And now we have seen it working, it's time to move on and change the parameter. You understood, you needed the confirmation of work of the pad and the cores, now, the only excuse is the Man who has not found his Soul. That he can be a giver and does not need to receive because he will receive what it needs, because what he'll give, is what the others need to elevate themselves, to bring the Peace. Then Man enters the World of the Universal Community, which means

by understanding his Soul, he becomes part of the Universe and be it, becomes part of the Community. It's very hard. It brought me to a point of so much anger, that I thought, "It's time to change." When I heard the nonsense coming from the American President's, that the highest expenditure, 7 billion, 700 billion, to kill more, for what reason? Why doesn't it become 70 billion, to prosper more, to elevate their Souls, which they need, to be taken out of the pain. In so many ways... Man has walked himself into the dead end, and this act was the dead end and needed to be responded to. We see the end of, President-ship and the Kingship. We see the end of priesthoods. We see the end of Rothschild's and the rest, who instigate and finance these wars. By elevating their Souls, by giving them a chance to find Peace, within themselves. Then, no Muslim is the enemy of Christianity, and no one needs to be faked, to create wars, to put one against the other. This is what is needed and those of you who understood the work, you understand the next phase. Once the Peace comes, once these people walk off from the throne, now comes the teaching of how we elevate the rest of the Humanity to understand the work of their Souls, that the Planet as a whole feeds its own mother birth, which is Earth, to become Peace, that it becomes part of Universal Community. When we travel the depth of the Universe, we carry the Soul of the Man, which is us, in the cradle of the Soul of the Mother, which is the Earth. So both have to find Peace. This is why we said, "The job of the Man is to bring Peace to all animals and all that are on this Planet." Try to extend the knowledge that, in a coming time, we don't look for the biggest military spenders, we look for zero military spenders. but the biggest spenders to bring comfort to Man. It's the same money but... it brings a joy, instead of pain and sorrow. Today, I raise, from my Soul, the Soul of the Pope, he needs it. We are in communication with them to guarantee World Peace. Not to dominate, but to bring Peace and Equality. The same goes with the Rothschild family and their extended extension of Life. Instigator of many wars. The same goes with the Islamic World. Because they're all children of this Planet. And the Planet does not see their Emotion and their Physicality, but it sees the beauty of their Soul. Souls have no color, no religion and definitely, definitely, no kingship. This is the process which we started and now we're becoming to the conclusion acts. Pray for those leaders, kings and presidents who did wrong, for themselves to put it right, for those who do wrong,

to put themselves right. It's upon them, if they want and then come to explain what they've done. Otherwise, let it be from their Soul to be given to put right for what and whom they've done wrong to. Now, we have to understand why we taught this way. And the teachings becomes more intense for those who are here, not to benefit with a generator. But, don't forget, that generator creates a fields which elevates the Soul of the user and the environment which is working. In each way Man walks, I have walked you into the path of Peace. The greed of the Man, with a Power Units, the Generators and the Pads and the rest, at the end of the day, releases fields at the strength which elevates the Soul of the Man. The separation of Physicality from the Emotion that the Soul will serve its purpose. If you thought that the MaGrav systems are there to give you the energy, yes, they will, but they're working to elevate your Soul too, because they create and release a spectrum of Fields. It's very much like the water which I explained to the Minister in Ghana. "It's water, you put my water in the water and see if the Alkaline-ness, which is taking and giving, has changed and the water from the tap." And they did. And they told to the Minister, "Silence, you have made the biggest mistake, you walked in his trap." If you learn from the Cup, and the GANS water which is added to it, the water didn't change its appearance. It didn't become a king and it didn't become a servant, It stayed server to the hunger and the thirst of the Man. That's how a Man should be. We don't preach, we teach the work of the Universe. We enlighten to the new knowledge, that the Soul of the Man elevates the Physicality of the Man and with it brings Peace. I give from my Soul to every member of the Rothschild's whose killings created so much mayhem, in the past centuries, to elevate their Souls, nothing more. It's the Soul will change them, that's all we need to do, because now we have seen the work and the strength of our Soul. There is no difference between our Soul and a dynamic reactor. There is no difference between the Field, working of the Fields of the patch and the Soul of the Man. A patch gives unconditionally, you put it on your body, a child, a dog, a horse, a fish. This is what the teaching is about. This is what 196th teaching has brought Man to, and does not need for the whole Humanity to listen to, as we have already reached the Soul of the Humanity. The wind of the change in the Soul of the Man is breezing through the Fields of this Planet. It's sweet, is warm and it's giving, and there are many Souls which are

enjoying the new breeze. Try to understand the Totality, try to understand the full process, that with it, you can give the right way, to the right place, that with it, the work becomes easier. As I said, "the Winter and the Autumn for Kingship, power-ship, and control of Human Race has come," and it starts from today. Because, you are informed of it today, and it's from now we start. No animosity, no blaming, no finger pointing. Being a father or a mother, who closes eyes to misconduct of the child, because the child has to misconduct to understand, that it grows to be correct, and now the time has come. The work of a Messiah does not come by preaching, but comes by understanding the need of the time, and giving it generously, that it satisfy the need. The need of this Planet now is Peace and equality, in a correct way, that all Souls can live at Peace, and now the time has come. And we have trained enough Messiahs, that they will enforce the change. Thank you very much for today. And I hope you understand. Elevate the Soul of every being on this Planet, because the time to enter the Universal Community, according to the strength of the Soul of the Man, has come. You wanted a proof, you've seen the Patches. If you have doubt in the work of your Soul, make your Patch and put on the pain, on your Body. If the pain goes, it means the Field exist to do the change, so does your Soul, to bring the change for Humanity. Thank you very much. (RC) Okay, thank you once again Mr Keshe. As always for the last 195 Knowledge Seekers Workshops. And, as always thank you everybody for attending. And that'll be the end of the 196th Knowledge Seekers Workshop, for Thursday, November 2nd, 2017. And, we hope to see you here next week, for another Workshop with the Knowledge Seekers Workshop series. Okay, I think we'll end the Livestream. ... sorry ...it's, we have to play our music here actually, Thank you Flint. Not hearing the sound yet.
