Transcript v1 from Amara subtitle file revision 09

The Keshe Foundation, an independent, non-profit, non-religious, space-based organization founded by nuclear engineer Mehran Tavakoli Keshe is introducing to humanity the Science of the Universe, Plasma Science. Keshe Foundation develops universal knowledge and space technologies that provide solutions to major global problems, revolutionizing Agriculture, Health, Energy, Transportation, Materials, and more. The application of Plasma Science in the form of specially developed Plasma reactors and other devices, will give humanity the real freedom to travel in deep space. Plasma Science exists throughout the whole Universe. It is here and it belongs to you. Our knowledge, research and development regarding the Plasma structure has progressed to the point of enabling everyone to participate in the process. Become a creator and understand the work of the Universe for the good of humankind on this planet, as well as in space! The use of MaGravs, Nanomaterials, GANS, Liquid Plasma, Field Plasma and other Plasma technologies have come as a new dawn for humanity to progress and work in harmony with the Universe. Conventional technology applications are wasteful, damaging and cause pollution to the planet.

and all living beings. Plasma Science provides solutions and improves existing methods and use of resources in all aspects that touch the lives of all beings. Plasma is defined by the foundation as an entire content of Fields which accumulate and create matter and it's NOT defined by its physical characteristics like ionization or temperature. Also, with Plasma science, we understand how we can convert matter back to the Fields. Quoting from Mr Keshe, "MaGrav stands for Magnetic-Gravitational, which means Plasma absorbs or gives. And every Plasma has the both, it has give and it has take... And when they can't find the balance they distance themselves until they find the balance they can give to the others that they can receive what they want to receive and give further." Certain atoms and molecules release and absorb Magnetic or Gravitational Fields. Released Fields are available to be absorbed by other objects. The Keshe Foundation has developed a way to gather these free flowing Fields from the environment within a resourceful and beneficial new state of transitional matter which M.T. Keshe named 'GANS'. The first step of the process of the formation of various basic types of GANS, is Nano-coating metals. This is carried out either chemically by etching (steam coating with Sodium Hydroxide) or thermally by heating (Fire Coating by gas burner). During either coating process, gaps between the outermost layers of atoms are created. The residual coating is often referred to as nano-coating, defined by the structured layers of Nanomaterial, which build up during the creation process of the coating. Nano-coated metal in interaction with other various metal plates, in a salt water solution, creates MaGrav Fields. These Fields then attract available elements to form a specific GANS, which collects and settles at the bottom of the container. This GANS is formed from independent energized molecules (like little suns) that can be used in various applications.

(RC) Welcome everyone, to the 197th Knowledge Seekers Workshop, for Thursday, November 9th, 2017. I'm your host Rick Crammond, and once again we'll hear from Mr Keshe of the Keshe Foundation. Today as well, as Caroline Keshe. And we... I understand we have a special presentation today, from the Earth Council, regarding the Earth Council Constitution. And we're looking

forward to that. And I think Mr Keshe is ready to go for today's workshop. Mr Keshe are you ... are you present ? (MK) Yes, good morning, good day to you as usual, wherever and whenever you listen to these Knowledge Seekers Workshops. We have extended the ... knowledge to a point, that a lot of people are expecting the next phase. And they are restless, that if it is, what it is, How can we do it? Why can't we see it? And, it's taken a Man, to see the Truth about himself, Millions of years. And now that they see, they have the intellect, they have the full understanding, of the Essence of their own Creation, they want to see the change rapidly. The change will not come so rapidly, unless we teach more rapidly, that more people understand, that is a collective work. This time, as a Human race, irrespective of our color, race, and religion, and creed, and what we used to call 'Nationality'. As One Nation, as One Planet. We have changed all the course. In the past two or three weeks, if... I'm sure, many of you noticed, I stop after the teaching. There are... main reason is, I get exhausted. The... To teach the depth of the knowledge, and be able to transfer, and to teach not only in the verbal, but in the Soul level, takes a lot of energy. Takes enormous amount of concentration, and at the same time it needs, not to be disturbed. It needs to be continuous, it needs to be there, that we don't go back, in discussion, back to the terminology of the Physicality. It leaves the Knowledge Seekers to contemplate, on what was taught, or what was discussed, what was inspired, that they find deeper inner being in themselves. A lot of Keshe Foundation followers don't like this, because it's gotta be a Nanomaterial, is gotta be a GANS, it's gotta be showing something with doing. But, in fact, is doing, is building you to question yourself, is doing more, than you can think. Is making you to evaluate your own understanding, of your own knowledge, of your own trust in your own capabilities and abilities. Which you are always... waived it, as something, which has happened. You never saw yourself to be, what we call in English, So 'deserving' to Wish and receive. And you always, "I was lucky, I received." Now you understand, "Is my Wish." "I am in control of my Soul, not in control, but I can communicate." "I can allow my soul, to understand my desire." Physical. In the future, we'll Wish for our Souls, this moment of transition, we Wish and we like to see it in the physical life, or seeing that, "My Wish because I've said, I did, has done what I wanted." In the teaching of Tuesday I referred to

the physical Soul. The Soul of the physical part of the body of the Man, and the Soul of the Man. And, there are number of questions people wanted to be explained more. Go back on the Universal, One language, what... Universal, One Nation, One Planet, the teachings on Tuesdays, which, the 16th part was last Tuesday. And I explain some points in there, because of the question, and discussion, which was going in the background. We try to put some teachings on Tuesdays, that it brings, it's mainly for Universal Council members to understand more and more about their position and their work. But, part of it becomes part of the teaching, so becomes part of enlightening each others. Listen to it, and then you understand more about the, what we gonna to discuss today. The beauty of it is, now we are aware, of our own action in physical Life, in our, respect to our Soul, to our creator of our Physicality. And, we go in more depth, we try to understand more and more. But, I try to keep away, more and more, from systems, manufacturing, or somebody has done something, with the GANS or whatever, because we have to evolve. Otherwise, we hang on to the past. It's... It's in a way, deliberate way, trying to, you to Trust more in yourself. As I always said, "You're the last Man standing, what you're going to do, what are your Wishes? Or do you decide, that's it, I'm alone. I can go?" "Or, you understand, I am who I am, I am the Soul which I am, and through the development of the technologies we have shown, In understanding them, I can create, what I need." Even, even, if you understood the creation of Amino Acid. If you only understood how Amino Acids work, If you understood the teaching of Health Section, then you have... should have realized by now, "I can create a partner." "I can create a partner in a physical condition or in the Soul, that I can communicate with, that I'm not alone." This is where we are evolved into. This is what we become. The story of Adam and Eve, is a story, which is brought to Humanity, by those who have traveled the Space. The last Man standing, Adam. Man has reached that point. Man, with this new Technology is gradually maturing to reality. When your Soul leaves your body, where is it gonna go ? It becomes the Creator of new Life. Creating new life, means being able, to create a Soul, which you can share, a twin. So, if we understood fully, what the teachings are about, and I've gone many, many, times over the teaching, the last Man standing. Who is the last Man standing? In the history of Man, we called him

'Adam and Eve'. Adam is the last Man. You are the last Man in your life. It's you, who create a condition, through the change of the Soul, you learn how to inspire your Souls, how to interact with your Emotions. How to change your Emotion with Zinc Oxide, or whatever. But now, we have to step up! Because, this is the direction, which goes back to the beginning teachings. The last Man standing. The Neutron, the center of Universe, which on its own, by division of itself, led to creation of all these Galaxies, and the Suns, and the Solar Systems and the rest of it. So, this is what the purpose is, to understand, we are the Creators, our Soul is the Creator of our Physicality. And if we find, and understand, to communicate, to find an access to convert our desires, to become the reality of Physicality of satisfaction of our physical part. Then we have become the other, we have become the Creator. The creator of our own lives. We always saw, to create we need a partner. The partner is our physical Soul, in respect to our Soul, of all the Fields of our Creation. I explain this in a very touchy way, very softly on Tuesday. But we can go deep into it, as you gain confidence, as you learn more, as you understand more. At the same time, it has become important for us, to extend the knowledge, of what we have here, as a physical life. We have billions of us. We have collectively, or deliberately, or individually have found a way to live. We have moved across this Planet. In our knowledge, we have divided this Planet, to be made of 5 or 6 different parts, and we have called them 'Continents'. And each one of us have moved across this Continent. In olden days, was very hard to go from one to another. It takes centuries for Man to move from one hill to another, to next hill and the rest. Now we travel on this Planet, of this Planet in hours. We have developed technologies to do. Then we understand what we changed, we made Nations are worthless. So we made One Nation. Back to the origin, back to the Essence of the Creation of this Planet, which is One Nation, One Planet, One Race. And this, has led us, very much like what we said, "the Field create a Plasma." The Plasma in transition, become the Source, and in the Source, then it re-gives Fields, that they release in a strength, to Creation of Matter. And then, up to now, we are happy that we had the Matter. Now we have learned, that we disassociate the Matter and go back, and make the Plasma and the Fields, that we decide what everything to be. Now we understand, we're all the same. We're all made of one thing, and that's, collection of Fields, which

always can accommodate, they do not need to enforce. In this process of development, Human race has moved to these sections of the World, and we call them 'Continents'. And to go back from the Solid-State into the Plasma, that we start becoming Fields and all become one again, we have developed, what we call, the 'Earth Council', to make One Nation out of the whole Planet. Means One Race, which means, in a coming time, Mankind will speak as one, in the Universal Community, Mankind will make decision as one. We've seen today, a beautiful move, very encouraging move. President Xi of China and President Trump of United States. Both excellencies meeting in China and talking about the Peace. Talking about how they have tied up the World into economical position, and maybe the dialog for Peace can strengthen. There is a lot of soul, there is a lot of move in the background. It's the Wish, we have, we have in our power to Wish more, to in a way, to allow our Souls to get in touch, to be. Touch with the Soul of these leaders, that we steer the Mankind through the knowledge knowing that their Peace Loving is more stronger than the war mongering and destroying life. To push and through, in a way, encourage the Soul of the World leaders to go in that direction. Is beautiful what we've seen today, compared to 9 months, 10 months ago, what was coming from other direction. Now is the talk of finding solution, not destroying, not fighting, not.... no more wars, 24 hours meeting of two leaders, will lead to more Peace talks. To release, to more confidence in building bridges, because they realizing, more and more, commerce creates Trust, and creates Peace, not war and not military. So, for this reason, maybe it's coincidental, that today, in the Earth Council, which is going to be taking over these present World leaders in a coming time, in decision making, in supporting the Human race on this Planet, are releasing their Constitution. This is important. This is a dynamic system, where Mankind can add to, as it changes for the benefit of Mankind. You might see some striking things in this, but in 5, 10, 20 years time says, "It's in the Constitution. They knew it's gonna happen, you have to Trust." We know it's happening, and you are part of it. This Constitution is not for the future, it's for today. And, what we do, what we have, what we Trust in, will become, and has become the beginning of the Peace process, as One Nation. There's a Peace Conference in China, 7th, 8th and 9th, 126 nations attending. And is not coincidental. We listen to what Earth Council has brought out, as a

Constitution for Human Race on this Planet. And in the future, this becomes the corner stones, of the modern civilization, a Peaceful Nation, as a Human Race. Do we have any members of the Earth Council, who would like to share a screen, and let us see for the first time, the new Constitution for Human Race, please? (RC) I've been given the document, so I'll open that. (MK) Do we have the member of the Council, any of them who'd like to start, please? (LM) Hi Mr Keshe, it's Lisa here. (MK) Please, would you like to introduce yourself and give us some knowledge about you, and then, we carry on with the others. (LM) ... It's Lisa, and I am the Earth Council member for Australia. And I'd just like to say that, this Constitution has been drafted by all of the members, and I don't think, that we could have done this, even 6 months ago, without Mr Keshe's teachings, and that deeper understand of ourselves, and where we're going has allowed us to create this document. And ... it took a lot of thought, and a lot of understanding to... to get where we are, and I'm sure it's going to change in the future, but ... it's... it's something, that we are now creating what we want to see in the World, and this is the first step. Because, if you... if you don't see it, you can't create it, and this what we Wish. So, this is how we going to create, what we need to create. I don't see anything there, Rick. (RV) ... I'm here... (RC) ... You should be able... Should be able to see it on the screen-share? (LM) Just see a bit... (RV) I am here Lisa. (LM) Are you there Rodrigo ? (RV) Yes, I am. (RV) The moment I was open I my Internet worked, turn on. Okay. Hello everyone. I am Rodrigo Vildosola member of the Earth Council, and we've been working, creating this Constitution, and if you allow me I'm gonna read it to all of you. The Constitution, the Earth Council has been created, to guarantee, that by give equal rights to all beings, there shall never be another conflict, or war on this Planet and beyond, by any and amongst all created beings and citizens. The end of war and establishment of Peace will be achieved through the understanding of the potential of all created beings. The path forward of Peace, must be to bring the understanding that solutions are achieved through dialogue and elevation of the soul, or the opponent rather than through degradation, or demeaning another Soul or physical existence. Peace has to be the attempted goal of every move of existence of every being on this Planet. The Council will be the flag bearer of this motion to create an environment where Peace can be achieved on Earth. Peace

amongst those who are from this Planet and/or choose to live on this Planet, as well as for those who are from Earth and choose to live in Space. Earth has to become the Blue Planet of Peace and Cradle of Peace for / and of the evolution of all races. Can you scroll up, a little bit please ... Rick? Thank you. We, the Earth Council, acknowledge that Earth is part of the Solar System, Galaxy, Universe and all the Unicos. As such, the Planet Earth needs to become part of the cycle of Creation by supporting the Planet and all the beings that live on her to elevate themselves past the current cycle of evolution to a more fulfilling and Peaceful existence. We acknowledge Mother Earth as itself a living entity that has her own Soul. From every atom, to plants, animals, Humans, insects, microbes and more, and all those yet to be discovered are Souls which share the Essence of Creation as well as the Fields of Planet Earth. Together we combine to make up the collective Soul of the Planet. Can you ... move it? Thank you Rick. We acknowledge all other beings on this Planet need to be supported, nurtured and allowed to thrive in Peace, including animals, plants, ecosystems and other unseen beings, as well as Mother Earth herself. All will be supported to grow and thrive, as this will in turn enhance the lives, not only on this Planet, but all of Totality, as we acknowledge we are part of the whole. Mutual cooperation, collaboration, sharing and contribution to the well-being of all should be the core undertaking of the Earth Council. Our aim is to support the Planet as a whole and every being that lives here. We will serve to create an environment of nurturing and harmony in which all beings may grow and thrive in their own unique way. Can you move it ... Rick please? Thank you. Six Members of the Earth Council Each Continent of Earth is represented by one member, those being Africa, Asia, Australia, Europe, North America and South America. Each member represents the needs and Wishes of the peoples who live on their Continent, as well as the Totality of beings that reside there. Selection process. Members, must have lived on at least two Continents and speak at least two languages This allows for a wider perspectives of understanding, when dealing with taking the needs of all Humanity into account. Clarity of Souls. The six members of the Earth Council are here to serve from the understanding of their Souls, through the manifestation of Physicality. Earth Council Mandate. To support and serve, provide and protect. Bring our Souls understanding as beings on Earth The power is within to govern

oneself, with the interaction of oneself and other Souls, in the realm of coexisting throughout Creation here on Earth and the entire Universe. Our Intentions. Bring out the best of the best in every living Soul on this Blue Planet we call Earth. Give our Soul's manifestation in Physicality. The freedom to live in Peace, Love and Trust on this Planet and in Space. Our Wishes. For all living beings in Creation to dwell in Peace, Harmony and Tranquility. It is time to access and share resources in equality, in a fair and just manner amongst all beings. The Earth Council will serve and support to provide all being with the following: Freedom of association. Freedom of expression. Freedom of movement. Freedom from hunger. Freedom from lack of resources. Freedom to explore the path to understanding our own Soul. Freedom to learn. Freedom to contribute to society according to our talents and what we find fulfilling. Freedom to choose when to end our physical manifestation. Freedom from being the property of another. Freedom from all suppression of new and innovative technology and information for Peaceful applications. Freedom to share. Freedom of thinking. Can you move a little bit more? Rick please. I can cover. Freedom to love and give. Freedom of choice. Freedom of language. Freedom from a monetary system. Freedom from punishment. No captivity and execution. Freedom from conflict and war. Freedom from fear of others denying us these freedoms. There shall be no borders, no distinction between colors, races, or paths of belief, no cultural bias or monetary barriers which divide one from another or give unfair advantage to one over the other. There shall be no hereditary titles or inherited leadership roles which encompass kingship, family dictatorship or royalty of any title. There will be no fear of punishment from any crime. Abolish all forms of imprisonment and capital punishment. Elevate the Souls of those who did wrong, through education and sharing knowledge of the Soul level, all Human beings will educate themselves. Punishment has no place for the Soul level in the understanding of its own Field-Strength There is no need for a monetary system which exchanges goods and services for work. We will create an environment where money has no place. When all our physical needs are easily taken care of, work is done to bring pleasure to others and ourselves. There shall be no poverty or scarcity as all physical needs will be met. No monetary value placed on anything. The end of the monetary system will bring the era of healthy Human beings and True Love

between all on this Blue Planet Earth. Working should be for the pure joy of it, to serve others and elevate the Soul of others as well as ourselves. All those who wish to serve as decision makers and guides can offer to serve with their Soul's understanding and gain the consent of others, that they may fulfill the required role. Elevation of understanding will allow us to acknowledge the unique Field-Strengths of a Soul that will allow them to serve for the benefit of others and elevate all Humanity. These people will serve to enlighten and inspire elevation in others. Leadership comes from the Soul of Man and with the agreement of others to serve. We respect all shapes and forms of all entities on this Blue Planet Earth and beyond. Can you move it up? Rick? Okay. Every being on the Planet shall be afforded the same freedoms. Those being freedom to live in Peace with all others in an environment of mutual dignity and respect. All shall have the freedom of choice to live in the manner they desire, as long as consideration and respect is given to others. All beings on the Planet should be supported to enable them to live without scarcity. Basic access to shelter, water, food, safety, materials and freedom on energy Field use (Earth or Universal resources) should be a priority, as well as Peace and stability to allow for... for Emotional well-being and the pursuit of enlightenment. All diversity is acknowledged as unique and diverse expressions of the Creator and will be embraced and celebrated as bringing richness to our lives. Every being should be supported and encouraged to gain knowledge. Humanity in particular, needs Freedom to explore and understand this knowledge, which can only be gained without the need to constantly work to survive. Creating the tools to become independent, self-responsible Humans must be a priority. The Soul of beings will dictate and govern in a responsible (Just, correct, fair) way of life, for the benefit of all Creation in equal measures. For the first time in Man's history, with free will from the Soul level, learning will start out how to know the Soul from infancy. When, natural disasters unfold, we must come to the aid of all beings in the area, showing no favour, and supporting all. This includes understanding the ecosystem of the Planet and what all beings need in their cycle of Life. All beings will have access and share resources in time of abundance and disaster. When, conflict arises, we must negotiate a Peaceful outcome for all parties, all Humanity must be given an enduring Peace. This is only achievable when all parties needs are taken into

consideration. All beings deserve protection from harm to their Physicality and Emotion. Decision Making Process. No majority will impinge (infringe) on the freedoms of any minority. Consensus will be achieved through dialogue and the elevation of the Soul of the Man. Any decision must be of benefit to all. Every being will be respected, fair, and equal in all aspects. The Souls of beings will govern every action in a Peaceful manner. Bringing Peace to the Planet and all who live here must always be our goal. Serving the needs of all is the only way to achieve this. Invitation. Come all beings from the smallest to the largest of Creation to celebrate, to taste and to embrace the Peace, Love, Trust and freedom. All beings are here to raise the highest level of Human and all consciousness (elevation of Souls). All Souls, put down all weapons of aggression, hatreds and differences. Let us have Peace and tranquility on this Blue Planet we call, 'Earth'. All living beings will live in harmony with all Creations on this Blue Planet we call 'Earth and throughout the entire Universe. Guiding principles of physical conduct are appropriate, until the Souls of Men understand their operation and position inside the boundary of the Universal principles. The Soul deserves to know everything on different levels of Creation. All living Souls have the freedom of equality to live in Peace and thrive here on Earth and beyond. The Soul of all beings will bring out the best of talents, strengths and beauties to share and flourish throughout Creation. Take back the power. The power of the Souls to govern all living beings here on Earth. Power is not lying on any leaders or entities for the purpose of controlling or domination of others but comes from within us to Love and give (Peace, Love, Bliss and Freedom) to others. This Earthly Constitution has the best intention of / for Peace, Love, Trust and Freedom of Souls of all livings beings, including other entities throughout Creation. This Constitution is to empower all beings to do the correct thing with the pleasure to work and to serve alongside and with other Souls to see the beauty in Creation. This Constitution is fluid and may be adjusted at any time, as the need arises, for example, Man's conduct of / for Peaceful coexisting, Peace Treaties between Man and Man (no wars and / or any shape or form of aggression on this Blue Planet we call 'Earth') and contact with other entities from different areas of the Universes. Addendum. This section is intended to be blank for additional amendments in the future as needed to maintain permanent

Peace on this Blue Planet Earth and beyond. Thank you all. Written by the Souls of the people of the Blue Planet Earth. Represented by the members of the Earth Council. Beautiful. Thank you all. (MK) Thank you very much. Now, Humanity has a new Constitution to work on. Any word from any other member of the Council please? (WN) Hello Mr Keshe and Hello everyone this is Wayne ... North America Hello everyone. Can you hear me? (MK) Yes, Good morning Wayne. (WN) Good morning ... as... as you heard ... this Constitution ... This is for everyone not just ... for every Humanity, Human beings on this... this Earth. So, right now's... is a the beautiful time to be ... It take... it taken us about 3 months already to come up with this, since August 2nd, 2017 and now it is Novembers 9, 2017. So, is... is time to... to embrace with one another and share the joys and happiness, that we are here to... to live, but to... not to survive only but to... to thrive and to... to share some... whatever we have ... in this physical environment that we live in. But beyond that, is the Soul level, is unlimited. And, my Wish is every breathing Entity on the space of this Earth will look at this. This is in English but it will be translated at least, at least the end of this week, probably at least 20 languages and then end of the years probably into the 100's of languages. The language of this Constitution is very simple, straight to the Heart and the Soul of Man, Woman, Children, animal, even the... to the smallest dust or particle. And this is so wonderful to have and it's... And here... here it is for the Humanity. Thank you (MK) Thank you very much. Does any other member of the Universal Earth Council would like to speak? We have, more or less, 5 members of the Earth Council, except Dr Parvis who's responsible for North American Continent. Alexz would you like to say anything if you have access to microphone? Can we connect with Alexz ...? Hello... (AE) ... I'm... Hello Mr Keshe. (MK) Hello good morning, how are you? (AE) Good morning. (MK) Would you like to introduce yourself? (AE) ... My name is Alexz Egbaran, from ... Nigeria, I am the representative of the Earth Council in Africa. And then ... I am very happy about this Constitution which ... we formed in the recent past and I hope ... the whole Humanity is going to follow up and then observe the Constitution as it's been ... it's been written and that's all. (MK) Simple and short. (AE) Yes. (MK) Dr Parviz is not with us, I don't see him on the panel. He's working very hard in his ways to bring a lot of Peace in different part of the World the way

he sees. I represent the Earth Council for Europe, as a replacement till a member has been elected or selected. As a member of the Earth Council it's very easy. A lot of these, what we see, is a God given right for every Human being. It needs a lot of understanding of the Totality, especially when you read part of it, where it says, for example, "No imprisonment, no punishment and no execution." As I've said many times, I don't understand why a Man sees end of physical life as a freedom for them to do what they like after that. And, in so many ways, Elevation of the Soul of the Man, should teach us a lot, that we can elevate the Souls in a way that we reach to the point that we'll never have prisoners, and we will never have the wrongdoers to become prisoners. We will never have, by teaching the Soul from the beginning the correct way, the point that we see the Physicality as a end for freedom of the Soul of the Man. This is against and opposite to whatever we've been taught up to now. This is against all the ways which we have been brought up, to destroy that it confirms, we can exist. To silence that we can do what we like. But, on the other hand, in the recent past history of Mankind, we have seen the examples of it, 27 years of imprisonment of Mandela, did not turn the fire of freedom for South Africans. Putting him in prison did not ... [microphone open ~ sound inaudible] but it allowed a lot of people around the World to come together to understand and collectively it worked to get the freedom for Blacks in South Africa, in their own homeland. We seen this in many ways across the World. Imprisoning is not a solution. Elevation of the Soul is. Not having fear of punishment, brings a lot of pleasure because then, it means, "I have evolved, I have educated myself enough and I don't do anything wrong to have fear to be punished." In all the teachings of the past in the Prophet of the past, we see nothing but fear of punishment. "Do wrong, we cut your hand." "Do wrong you pay to the box." "You do wrong, you do this." "You do wrong that's the punishment" From now on we elevate the Soul of the Man to the level that he'll never do wrong. It looks like unbelievable, but you have to understand, as you raise the Soul of the Man, as you raise the Emotion of the Man, Man will achieve and it'll come to that point. Punishment has never worked. Elevation of the Soul has always brought prosperity for the others to live a comfortable Life. We don't need to worry about resources, which is written in the Constitution. Man should be free. Man should be able to teach, to learn, to work, out of the

pleasure to serve. "I go to the factory to build the light bulb that the others enjoy, that they can read in pleasure, they can have a light that they can see." These things at the moment, the way we have been minded over centuries, looks to be unbelievable but, in the coming time, when you have own system at home to create your energy, your food, your heat and everything else, one thing will happen, you get bored of sitting home and doing nothing. And when you come out, everybody's there to help and support and serve you. Then, you realize, what can I do to serve them? This is the beauty of the development of the Soul of the Man, with this Constitution. It set the mind, it set the Soul and shows the feeling of the Soul of the Planet, and the Physicality of the Man will follow. We don't wait for disasters to come that we can help, we help from the beginning and then disasters comes, "it was just another 'event', which we just passed without harm." Will be a process that we'll all be educated to the knowledge of the Soul of the Man and does not need University, does not need the classes at schools, does not need any physical interaction to teach the physical Life. We will learn everything to do with the Physicality, but we learn through the language of the Soul. We have, we will have the fear of not being to serve good, we haven't done to the best of our ability. we won't have the fear of, "I'll be punished." or "I lose." We choose our own level of understanding, we choose our own level of living. We would like to live the way we like to live, and who will help us to live. Collective correctness through the Soul will be the pattern of life. With this new Constitution, in a way, this is the wishes of the Prophet of the present. Which means if you read, it's a law book, is the new blueprint. As bible has been a blueprint for the Christians and Qur'an for the Muslim. This is a blueprint for Human Race. Freedom from everything which Man likes to be free from. But at the same time no understanding, there shall be no infringement, but to be able to be there to serve. If you're called upon. When you can have whatever you like, and you're correct in doing what is need to be done, this ends the kingship. No one to be head of the other, no one collect taxes by the fear of the others, that I'm better. Ends up with a fair, just and collective work. At the beginning, gradually as people, more and more people have the freedom to do what they like, in a way to serve, then we'll see new social structure, new social understanding, new ways of living, but... promotion of the Soul of the Man, will

be the key to the change of the work of this Planet. "I refuse to work where they can make something that somebody can be harmed." There'll be no arm deals, there'll be a lot of 'good things deals'. We have set the procedure for World Peace, and we have the technology, the understanding, and now the mass movement to achieve it. In a coming time we'll announce, how gradually we put everything in order, that it can be done. We will not ask for International banking, we set up our own Banking System, that everybody can call upon what they need. In a short time, we will deliver systems through the Keshe Foundation, the financial arm of the Universal Council and the Earth Council, that every Man can have access to as much as they need. To be able to live a Life, but understanding, if they take so much and they don't put in, there is not much for them they can take out. Collective awareness, that it leads to the Peace, is the cornerstone of this development, and with it, now that the Constitution is completed, and we worth for the Ethos, of the Universal Council, to be submitted in next few days or few weeks. Again, on the Thursday morning hopefully, then the two will work together, and the process of World Peace starts. I thank all the members of the Earth Council, a lot of time has been put on it. But in fact, you member of the Earth Council, your job has just started. You have written your laws, now you have to implement it. You have written the way you see the Mankind has to go, you have to encourage, teach and enhance, the understanding of this teaching, and the Constitution. Those who are the followers of the Keshe Foundation, it's for you to make sure every Man understands their right. A video was made, to be presented today, in one of the largest International Peace conferences. And, is in the background, and it takes about 15-20 minutes- Those of you who want to understand from the beginning, what it means to be part, or understand the work of the Foundation, refer to that video, the links will be put on. And in so many ways, it tells you from our physical life, to the aim of the Keshe Foundation. That video will be attached to this Constitution, It's essential for us to understand, to see the cycle, to understand the process. Any comments by anybody else regarding this, before we go to the next step? (GM) Hello Mr Keshe, this is Gatua from Kenya. I'd like to say that ... we welcome this new Constitution for the... for our Planet. For many, for many years there has been wars, that have always been unnecessary. There has been hidden knowledge, to Mankind and a

lot of confusion. I hope, and I'm sure that this new Constitution brings to this Planet a new beginning for all. And in saying "all", I do not mean only Humans. As the Constitution so clearly says, it includes all beings of this Universe. I thank all those who took part, ... who wrote this, put their minds into this very creative and very Peaceful ... item, Constitution. And I very much welcome it with my Soul. Thank you very much indeed, Mr Keshe, for teaching us. And Caroline for her... ever support, forever, always supportive, of our work. And for all those who seek knowledge, under the Keshe Foundation, and the Keshe Foundation Spaceship Institute. Thank you very much indeed. That's all I have to share. (RC) Okay, looks like Boniface had his hand up and, has a question or something to say, I'll allow him to talk. Hello Boniface, can you, can you hear us? Can you speak there now? You have to ... unmute your microphone. Hello? (BB) Hello can you hear me? (RC) Hello Bon... Yes, go ahead. (BB) Can you hear me? (RC) Yes go ahead. (BB) Thank you Rick. ...Ce from California, and ... I bring Peace and Love and ... honor to all the Souls in the Core. I just want to thank the, the Earth Council for ... putting this document together, you know, it says the second of August when the One Nation, One Planet, One race was ushered in. ... I've been looking forward to ... something like this, you know, our blueprint for governance, or if you have a, you know One... [inaudible] One World government ... it needs some template, by which you gonna government so I'm glad to see that ... this has materialized. And ... I look forward to the implementation. My question ... is, ... if we have any thoughts, any ideas, any suggestions regarding this document, what is the ... the mechanism for ... submitting that, because ... I saw somewhere in there that ... whatever changes are necessary will be made as ... as required and ... who to whom and where do we send these suggestions as, as we're aware of it now or in the future? (RC) Well that's a good question, also people are wondering if the document is available to ... download or access at this time as well? Is it complete and will it be available to the public ... at some location? (MK) It'll be available most probably as of today on the Keshe Foundation website. The Earth Council has its own email address, own communication line. ... Do we have the webmasters in the background, they can tell us where to go? (SC) [Peace@theearthcouncil.org](mailto:Peace@theearthcouncil.org). This is the email address which can receive. (MK) [peace@earthcouncil.org](mailto:peace@earthcouncil.org)? (SC) [theearthcouncil.org](http://theearthcouncil.org), I

also put it out in chat for [Inaudible]. (MK) Can you put it on the screen please? (SC) Yes. I will prepare. (MK) Would you like to share the screen or put it on the screen? (SC) I will immediately as I have it written. (BB) Okay, thank you very much and again, Mr Cash, I mean Mr Keshe, thank you for bringing us to this point, ... bringing us this far. And ... but ... I think that our work has, has just begun, in a sense. (MK) ... could you share that link with us please ... Klaus ... Vince? (RC) Stanley I think. (MK) Stanley ... (SC) Here it is. (MK) [peace@theearthcouncil.org](mailto:peace@theearthcouncil.org) The Earth Council is registered as a organization. And it'll follow the work, in the same pattern. There is those who are to do the work of what you see, goes to the Earth Council. And those to do with the Soul of the Man goes to [theuniversalcouncil.org](http://theuniversalcouncil.org). Any other comments, or any other notes? (AG) May I speak Mr Keshe? (MK) Pardon? (AG) May I speak? (MK) Can you speak louder? (AG) I said, "May I speak?" (MK) Yes who's that? (AG) Armen? (MK) Yes Mr Armen Guloyan would you like to introduce yourself? (AG) My name is Armen Guloyan, and I'm one of the Core Team. (MK) Yes, a Core Team, a member of the directors of the Keshe Foundation International, Global System. And one of the hard working members of the Keshe Foundation. Carry on Armen. (AG) Thank you. I want to add one sentence, in whole, that paragraph. That each Soul should be Truthful to his own Soul. (MK) Souls are always Truthful, they don't need to be Truthful to their own Soul. Is the Physicality which lies. (AG) That's my wish. (MK) In the Soul, and the Soul has to carry the shame of it. (AG) When I say ... Soul, that mean Physicality, it comes with it. So, that's what I meant. (MK) I know what you mean. (AG) That's very easy. Then all the problems will go away. That's what I want to add. (MK) You're like me, write to [peace@theearthcouncil.org](mailto:peace@theearthcouncil.org). (AG) (chuckles) Okay. (MK) No preferences anywhere, even I have to write to them. (AG) I will. (MK) Thank you very much. (AG) Thank you Mr Keshe. (MK) Thank you Armenjan. Any other comment? I think this line of contact has to be put on that, at the bottom of that page, where it says any amendments, for any please contact [peace@theearthcouncil.org](mailto:peace@theearthcouncil.org) It should be in that ... PDF file. If the members of the Council can add to it and make it available to the webmasters to be placed on the website of the Keshe Foundation. Any other comments? Or any other wishes? What I think we have to do, is to bring this Constitution into all our teaching, and go through it line by line, and see how

we can implement it. In most of the teachings especially the workshops, the video which has been developed by the Keshe Foundation by the head of the Keshe Foundation Ella, ... for this purpose which supports Peace, will be added as a link to this paper. And it explains a lot, why we are learning, why we have gone through the process of this method of learning. That through it we enlighten our Soul, and we understand our position. In a way, maybe in the future, we teach our children, our offsprings, about the existence of the Soul and the responsibility of the Soul, that they'd make a decision in how they want to serve their Physicality, that their Soul sees best for that life. Than us putting them like a herd of cattle in a room, and forcing them to learn about the history of Man, how he killed the others and what they can, and how they were successful in killing. Strange is, I wonder in a coming time, how many Nations will elaborate on their history of the past, and how the education history books will change in the schools? Does not matter which part of the World you are in, the history's taught to the children that we were the best, we are the conquerors, we did this and we did that. None will say, "We are the one who brought Peace, created the condition of Peace, and these are the things we achieved through Peaceful movement." And then we'll see where we go. In so many ways, we have been forced to accept war as a common thing because somebody thought, "We better do that I can show I'm more powerful." Let's see, now that this Constitution is released, how we as Keshe Foundation supporters, we elevate the Soul of those who we consider need supporting, that it can bring change in our lives. We see the father, the husband, the wife, their friends, the work condition, the boss, the priest, the Imam, the head of the Nation, needs elevation that we elevate them, that through it, our Soul finds his Peace. This is the way to go, this is how it should be. And, collectively we'll go into that moment, collectively now that the whole motion of the Peace has been set, now we can do. Don't forget, there is an old say, "I know, how and I can, and I will achieve." We have the knowledge and the knowhow, we have the will to see the Peace through, and we will achieve Peace. Anything else Rick before we go into the teaching part? (RC) Well I believe that Caroline would like to have the ... .. information from Ta, Tom Salas, would that be appropriate now, or would you like to... ? (MK) Go ahead, yes please and then we go in that way. (RC) Okay is Caroline available? Or I can show the ...

pictures. (CdR) Yes, yes I'm here Rick. (RC) Can you read the ... the part from Tom and then I'll show the pictures or how do you want to do that? (CdR) Yeah, I can move towards the text and... but then I cannot follow the pictures. So if ... (MK) You, do you want to use my laptop, Caroline? (CdR) Yep, I'm gonna come up. Just one second, Rick. (RC) Okay. (MK) You got, you got to realise what these pictures are. Tom Salas has moved into Dominica regarding the ... hurricane they had. He was there two years ago when another happened and it destroyed most of the ... (transmission loss) (RC) Ups, I think we lost Mr Keshe, right when I shared the screen strangely enough. (MK) Every time you share a video I get kicked out, it's okay. (RC) Yeah and vice versa too. (MK) (laughing) Okay. So what we see it is what's coming Dominican today, a month, more or less, after the... the hurricane hitting the island. It's nothing but scene of devastation. ... he just landed there on Sunday, Monday and these are the first pictures we are receiving from him. ... how we going to support, how we going to develop conditions, we'll structure it in the coming time. We have allocated 40,000 Euro in support of the Keshe Foundation movement in, in the islands, that we can do something. We cannot change physical damages like this. But beyond this, a lot of Souls have been hurt, a lot of people need a lot of elevation of Soul, that they can bypass these conditions. And we'll see, there are some good news at the bottom. Just wait. I'll give the phone to Caroline. (CdR) You... You can hear me Rick? (RC) Yes, kind of we hear a bunch of rustling, but ... we hear you're there, yes indeed it's clear now. (CdR) It's the change of microphones, (laughing) Sorry. (RC) Yeah. It's always the transitions that are difficult in life, eh? (CdR) Okay. These are the very, very devastating pictures and they're only a few. And in his text he says, "I have not even been able to go to the worst part of the island. So this, if this is looking bad you can imagine what the other side will show." But he has managed to make his way up to there. And he says, "it's very badly affected." So he says, "You can only know what those people have experienced. It is so sad and only here and there, some green is starting to come back." "On the lower level," where he's showing now. And then he... if you go up Rick. "Beyond these bad pictures I send you another picture." Go up. These are all what is on his path, people are cleaning, trying to fix. Yes, this is, "Here is a little example" he says "of our garden in the mountains. "The Plasma really seems to have created a

protective shield over the garden, because we had over 200 miles of, per hour winds, and there are still flowers in the garden, and this is truly amazing." And if you go down I send quite a few. And this is around the house of his mom where he was working so intensively. Tom, after the last storm where he really became a Knowledge Seeker, and putting whatever he learned into action. And even the birds are coming around to have some food. And he says, "You can see the contrast," "between our garden and some other parts of the island." And I don't, I put the message through to Rick and I said "This is absolutely amazing." (RC) Yes, I think he mentioned that there is actually, I think you can see here there's actually grapefruits left in the tree, which would ... if you see most of the pictures of Dominica the trees are just flattened, the actual leaves are ripped off of virtually every tree, and the limbs and so on but the, the leaves are just ripped. I don't know how a grapefruit would survive in such a circumstance but it's sure makes the birds happy, apparently. (CdR) This is exactly what was in his last message that he says, "If you see my first message and you look at the damage, and then you scroll down to the difference between. The Plasma has been sprayed, so much Love and protection. And it has passed the same devastating storm below as above and it is, not been touched." I will receive pictures later on. I know Tom is on the other side. He says he cannot come into Zoom because the uploading or downloading is way too high for him to be present, but maybe Vince can pick him up in... or through Facebook, I don't know. But I know he is present, Tom. And he usually can pop up through messenger, and he leaves me all this beautiful information, and this is amazing. When I saw the pictures it is absolutely unbelievable. He has worked an create and passed all the Fields throughout the gardens because I have the previous footage from him when he was planting and showing and watering and how he was healing plants. I'll pass you back to Mr Keshe. If you can get Tom online it would be very great but I think Mr Keshe has more to explain. Thank you very much Rick. (MK) As we see this is part of an amazing picture and ... even that red plant is standing in 200 miles an hour wind, has a history for itself, but this is what most probably we learn, more and more. We allow the coexistence of the wind, the cycles of the Planet, and the plants and animal Life to live a normal Life. This is the beauty of the change, which you look to come. We cannot blow away hurricanes. We

cannot blow away typhoons. These are the part of the cycle of the existence. It's like interfering with the neighbours garden. With creating these Fields the way it's been done. It's a clear proof, clear, clear indication, that each Planet, each plant on his own has his own Life, even though the wind, the storm had passed. Life cannot be all the time so rosy, but we can create conditions that clearly shows everything else needs to be done, can be done. The way we have changed the environment of these plants and the flowers, you can change the environment of the Human Race. Does not matter what the storm passes, they still survive, They still be there with a different kind of emotion than the suffering. And this is a very clear, clear indication. I watched these, a couple of years ago, as he was sending pictures through, that he was encouraging people to set up, and farms like this and now we see it. And this is an amazing picture in the devastation which is there. And let's see what comes up, see more what we can do, and he's moved in there to deliver the technology. Not to deliver patches, to do anything else. That the people can take over and live a normal Life, and the next Life to be much comfortable than this. If we can prove, we can do it to ourselves, then we can do it for the others too. And this is how the change will come. We've done same in Togo with a Peace within the Nation, and as we said, we have offered Peace, technology in exchange for Peace, to the Nation and we will, as we are committed, we will deliver to see the change. That we elevate the whole Nation, education wise and others. And this is important for us to see. Is ... Paul in the background, if he can... will fill us with the information, what's happening with Togo? These are part of the works which we have taken up and it is the job we have done. It's job we, our Souls has done, as the Keshe Foundation. And, we see the changes, small changes but in a very big move. In the coming time you will see changes huge, drastic changes in different ways as we expand the knowledge, the Peace and other works. Is Paul there, or can he speak? (RC) ... He's on the list... Paul can you unmute yourself and see if you can talk? (MK) Your decision. (RC) I'll try to.. get him, I'm not sure if he has been. He has troubles with that, but it's always unsure what happens then... Okay. I'm not able to unmute him actually (MK) He's hung onto his headphone. He doesn't want, let go . (SC) In new version of the Zoom, he needs to confirm. Like he's unmuted, he needs to confirm. So, that he's not behind computer, then he doesn't see. (RC)

Hello Paul can you..? (PY ) Hello,? (RC) Hi, Hi Paul, Have you got a good connection? (PY) How are you? (RC) Yes, we hear you. (PY) Ah, okay. So I am on the, on the town to check what's is went on, because today is the last, 3rd day for ... manifestation, so there is not of noise and ... everything is okay here, ... that their no ... there is no... ... there is no blockage here, ... Life is there, Peace is there. Everything is going to normal. And ... there is no difference between this day and the, the normal days. And ... what we had also observe yesterday, was also amazing. Where we see people manifested with army hand in hands, and ... they were... they are dancing, they are playing the party on the road. This is a (inaudible) maturity that population have reached now and I want to thank everyone for supporting Peace, supporting by his Soul. We really see the manifestation of this Peace here. Thank you. (MK) Thank you very much. Any other question or any other comments? (JG) Yes Mr Keshe, can I come in, Please? (MK) Yes, please. (JG) Hello, my name Jalal, I am Knowledge Seekers and I will say, I am very proud and I am very happy to hear, I am the first who hear this magic words for the new Constitution of Peace and I will like to say, that it's not new work, but it is a New Party. Party with Love. And, I am really joyful to be part of it. Thank you Mr Keshe. (MT) Thank you very much. Any other comment or question? The process of understanding the new knowledge, which gains the more we understand, the more confidence we have, the more we can work with it, that we see that we are the tool of the Peace. We are part of it and if it's our intention, it has to be as part of the change which we wish for the whole Humanity. As part of our knowledge we learn and we gain, Is any time we wish, to... for ... elevation of the Soul, but we think in the background to our own benefit "What'll bring us? What it is?" "I like to have the Peace, because with it then I can do this and that." You'll find out that. this Wish will never happen. "I want Peace, my Wish is Peace, because with Peace, I can have a beautiful life." that Wish would never come. The Wish has to come what it gives to the other, otherwise you become it selfs... self centered, self Wishing, self-processing entity. A lot of people say, "We made a lot of Wishes." I make a lot of Wishes, but "doesn't happen." The Wish will happen when it is of the Strength of the reality of what it needs to be to happen. What this mean is that, I can Wish whatever I like, but in my giving from my Soul, are other Souls happy to be in that position?

That accommodates everyone to be elevated. In some many ways, a Wish has to be, part of the structure of the Soul of the Man. As I explained on Tuesday and some people wanted more clarity. "What does it mean, what is the Wish?" "Why do you say? But you explain about the Wish." A Wish, comes from the Soul of the physical part of the body of the Man. Is to do with the Physicality part of the Man A Soul has not and does not have a Wish in a physical direction. He has, enforces its demand, but it cannot Wish. It can give unconditionally to elevate the others and never looks to a have feedback. Once we learn this, once we understand this, then we move on. A lot of people say, "I made a Wish but it didn't happen. "I made a Wish for Peace, but is not coming." "What does it mean, Wishing for Peace?" You can throw a bucket of water, but would it land on the plant you want to feed or would it land on the tarmac? You throw in the bucket of water, that the plant survives the dry condition or, for you to be able to have the fruit at the end of it, or the flowers of it to enjoy. Or you watered the plant uncondition of what might the weather be, or what might the plant do with it. My Wish is Peace. But unconditional. My Wish for Peace is to bring comfort to so many mothers who lose their children with war? To so many children who never see the father coming through the front door. To stop the mayhem that allows the damage to Human Race for generations, because is not that child who lost the Father, he doesn't learn to how to Love and how to give to learn from his Father to his children. So the children will suffer, not understanding how to Love and then, because they haven't learned, they cannot take, might take, steps to Love their children. So, the damage is a long term. I remember, when I was very young, my last visit to Tehran in 1970's. My parents took me to see a close friend of ours, somebody who was a childhood friend with my mother's family He was a special protection officer of the ex Shah of Iran. We were sitting in his garden with a river going through the house. And he beat his son up, his son used to be in the same school, in the class as me. And I was offended, coming back from Europe, seeing a child getting beaten up for me was, a bit dramatic and I put a question to him. I said, "You're a high ranking man, you're a military man, you, the Shah of Iran trusts you so closely, how can you beat your child?" "How would you behave, is it the same behaviour outside the house?" He said to me, "Mehranjan, I was brought up in a orphanage," "I don't know what Love is." "I

was never loved, to know it's worth." "I was beaten up and I forced and lined up, and I ended up in the army to do the same." And that age it clicked on me, "Even loving needs education." When we create wars, we lose that education from Father to Son. The best educator, Mother to a Child. Child to love their Father back when he's not there. I asked him, "So, how you come to this point?" He said to me something very funny, He said, "Mehranjan, the only man who loved me and he showed me care for me, was the Shah." "It's the first time I've seen somebody care and I've given my Life to him." This is the process which with Love, we can change. Loving is giving, loving is what we said in all the teaching. Being able to process the Man's Emotion in the Elevation of the Soul of the others. Not for oneself. We can Love through our Emotion, we can Love through our Wish, silently, but we can change the position. But, one of the things, as I discussed on Tuesday, has not been understood. What is a Wish? How come that we Wish for something sincerely and it happens? How many times when you were a child, you Wished something, and you never told anyone, but the Father or the Mother came home with your Wish? Did we ever stood still to think, "I do not need a verbal language to tell Mum I want such a thing." "My desire to have, to be pleased by it, was so high that my mother, through my Soul, received the message, understood and, knowingly or unknowingly, brought what I wanted, that it gave me pleasure to be alive, and with it, I give unconditionally back the Love to the Mother." Because, it's not that the gift the Mother gave you, you were wishing for, Is the cuddle, is the kiss, is the Emotion which you give back to the mother counts. Not the gift you received, to satisfy your Emotion. We always look at what we receive out of the Wish but if we look a step further, in so many ways, the one who brought our Wish to reality, receives more back. Because, it satisfies what was pleasure to me, that I could give more. in giving her a gift, the kiss, the cuddle, the hug, the thank you and change of the Emotion towards the mother, is more powerful, than the gift. Because, next time, when you Wish the mother receives, because you stepped the Emotion one level higher, and she walks at a higher strength, as you do. This is what we have to realize, we are not educated and we have to be educated. Our Wish is always, majority of the time, is connected with our physical life. And strange enough, now that we understand through the Soul of the Man, we can communicate without calling the Man on a

mobile phone then we have "Missed the key" as I said on Tuesday. The Wish of the Man is the Soul strength of his Physicality, which has direct access to the Soul of the Man. As we always teach, every Entity has a Soul and, every cell of the Man has a Soul, that's how it functions. And, so when collectively, we would like to see a warm shirt or a warm clothing in the winter and our Wish is that, "My mother will buy me that shirt, jumper that I have, stay warm" and the mother walks in, "See what I found in the market for you", which means, you wished and it was delivered. It should have taught you, "I am in touch with my Soul." Because it's my Soul, which has the contact with my mother's Soul. And my mother's Soul transfers the knowledge into the Physical action. The mother never thinks, "I'm going to get a kiss and a cuddle". The mother thinks, "This gives him warmth and pleasure." In so many ways, for Human race to understand the True understanding of a Wish, we all have to become Mothers. Because we establish the link with the Soul of a child, with the Soul of Life, which we gave Life to. But we realize, we are part of the Totality of the Life of this Universe. We have given Life to and we give Life to. So, in so many ways, once the Man matures to this point, then you understand, that our Wish, what we called 'Wish', now has a strength, as a pain had strength, as the joy we understood has a strength, as everything else has a strength, now we understand our Wish, has Soul strength. Our Wish has access to our Soul so, we need to understand more about our own Wish. We've seen in all the works of the Foundation, in the background, since the establishment of Universal Council and Earth Council, many times, they say, "My Wish is this." And the others say, "I'm present", which means, "I give from my Soul, you're Wish is mine", which means, "I access to my Soul through my physical ear which I hear, and this is what will elevate another Soul to give from my Soul to you." We've seen many Peace movement. Green Peace, many marchers, many people, many times moving, shouting, doing, but they could not achieve much. Because, those who could physically suppress used the guns, used the police, used the.. whatever you think, diplomacy, putting most of the Green Peace movement in the background, in all sorts of problems, doesn't matter whatever you call them. But, for the first time, Man has a new weapon with this technology. They can touch us with a gun, they can imprison us with their keys and their words, but, now we have access to their Soul. Now, we have access to

change them from inside, that their Physicality changes through our gimmick, in what we give. I've been told not to speak, about one of the biggest Peace movement Keshe Foundation is involved in. But, I've been asked, "do not disclose", but very soon you will understand. One name we will disclose, and we'll explain how it has led to a lot of changes. Because, you listen when I Wish, and your Wish is my Wish, which means we give from the strength of our physical Soul, to the strength of our Soul of the... our entity, our entire living, that, we have reached the Man, we have reached the Society. We have reached to the point that a lot of people, unknowingly are doing things which they could never think to do. Stand back and look, how in the past months, our Wishes of Peace are moving in a very, very, funny direction, which a few months ago, a few years ago, was impossible to imagine. What we see, even today, economical strength bringing a stability, is creating, more and more, Peace condition. The next step for the Keshe Foundation supporters, and for those who understand, the work of the Soul of the Man has to be to bring wealth of knowledge, to every Man on this Planet. Trying to teach through our Soul, the teaching the elevation of the Soul, we received through the teachings, to the others. It is very hard, but it'll start working, we'll start seeing the change. We have to understand, when we speak about, what does it mean, a physical Emotion? Physical Emotions, physical Wish to become part of the Soul, to be in contact and to be at the same strength of the Soul of the Man. I wish to have a jumper, and the mother not knowingly, buys the jumper which I need, because I feel cold, I didn't even wished through because "I don't like to suffer in the cold," and my Wish came True. So, it means I have found a new language, I have found a new line of communication, that, "Why don't I strengthen it, why don't I sit and Wish that I achieve Peace through my work and reach many more." If you stand still, you'll understand one point. As Mehran Tavakoli Keshe, my Wish has come True. Because, you are there and doesn't matter what name you give to your physical body, your Soul doesn't have a name but has a strength, which fuels the Essence of the Emotion which, "I can, and I felt what Peace can bring." So, I have touched you and if I manage to touch you through my Soul, so can you, to touch the others to reach the elevation of the Soul, of the others to the level of the Peace which you received. That collectively, we create a new dimension of Soul for Humanity, that we bring the

change about. But, some people say, "How do we, what do you understand, in respect to the Emotion and the Physicality?" It's the connection which we have to understand, is, how we decide to be connected to our Soul through our Emotion. Many of us, once we are educated in this, a new cycle of understanding and education, will find, we only utter words of Peace, Love, changing everything towards it, and we don't think about what might happen, time becomes irrelevant, because there is plenty of time, because my wish is there to be. As I've said many time in recent past, "People at my age, reaching sixty, usually plan retirement, and setting aside, enjoying Life, whatever is left of it." At sixty, at fifty odd, I've started to give the pleasure of life to the others, I don't count when the last day will be, but I count I'm short of time, I need more time to be able to give more pleasure of freedom to the others, that it creates Peace on this Planet. As I said many times, "I work much more than I used to do when I was younger, and I was very successful, in my life." Which means, when you have to work harder it means you haven't achieved what you're looking for and what you're trying to achieve, and that is Peace. Because it's worth it, another thirty years, another hundred years. If we can put the basis, a solid concrete basis, that the Man understands the work of his Soul, and then understanding that, without the fear of punishment, allows itself to elevate to a new dimension, then it's worth living. You worth being here to be able to give more strength, to become the supporting point for the others. But what is the Emotion? How do we create Wish and what the Wish is? Where is the position of the wish? As we said, "We have to understand," "in a physical dimension the reality about Life, Creation." We're all connected in one way or another, but how we position ourselves, is a mighty job, because we have never been taught. Can I share the screen please? (RC) You should be able to go ahead there Mr Keshe. (MK) What is interesting, I'll go back into physics, because I'm a nuclear physicist, physics to me is, is my, maybe the first nature, I understand physics totally, and I can explain everything in the World of physics, in what it goes even world of reality of Life. As I said on Tuesday, we have to understand positioning, we have to understand collective and singular cell, Soul cell, and then collectively what it means, in where we are. When I was a student in University, I raised a very big question to the professors, and this question has never been asked, and it was, in a way, showed the

limitation of the knowledge. But, you can translate the same knowledge, into the Soul of the Man, which you will understand, more and more. In the world of physics we have a lot of ambiguities, and these ambiguities then is used in chemistry and in biology, and then when the multiple cells come together in life of a Man, in the intelligence and then the Soul of the Man. There is something which is important for us to understand. Going back to the beginning of the teaching, we all said, "Unified Field Theory." Everything comes from Fields and when the two fields interact, they create a Plasma. When this Plasma, two of them come together, they create Physics. This is a Field, this is the Plasma, this is now tangibility two Plasmas have to interact. We call this an 'Atom'. When an Atom comes together, two of them, then we achieve what we call 'Chemistry'. This is Physics, and then we have a number of Atoms, that the Field interaction has to create a new dimension of positioning, we call it, 'Biology'. And then, in the further steps, as we go further, to add more interaction of more Fields, that they create a Field of non tangibles, direction, non dimension, we create what we call the 'Soul of the Man', or the 'Soul of the Entity'. But, in all conditions, was this created, they all individually have their own Field-Strength of their Souls. Even though they still collectively give to be of their own Entity, but collectively give to have a central operation, that they can all operate. In the World of physics, we usually end up at this point, and, this become a dead end. Up to now, because now is an Atom, it's a Matter Entity. All we done, in all our teaching, we have gone back from this, to this. So we have completed the cycle of life. Where we can take molecules, separate them and put them back at Plasma, and in Plasma we create Fields, which now we decide what this Field is going to be in any point, to show its manifestation. We have become a master of the game. Now we understand every cell has a Soul. And collective the cell create their own condition to be interactive, and when you achieve that, then comes the second group which has its own Soul again, and then we understand, now this Soul has to communicate with this Soul. Because, they have to position collectively in respect to each other. Totality. I asked a single question from one of the leading Nuclear physicist in the World, at my childhood, at the University, and that was very simple, very logical to me. But apparently, through the whole physics World of him, into nightmare, and I was told later on, "You ask questions

which has never been asked and cannot be answered." The question was very simple. In the Nuclear industry we talk about this. Division of a Neutron into a Proton and a Electron. So, we make what is known as Hydrogen Atom. This guy sits there, and it's twin brother, or half brother sits here. But, one thing is for fact, through that both brothers have the central Field center of themselves, and they have their own Soul. Because, they have their own center which dictates their existence. But, this theory stands correct, up to here. My question has been, which I know the answer, but they could not answer me. When we pass this point, now we have many, many, Souls, and we have many, many, little Souls." These are the Protons, and these are the Electrons. We know each Proton and Electron has its own Soul, but the intriguing question is; "Which Proton belongs to this Electron?" "Which one of the five came from here, and it's part of this structure?" "Is this Proton the matching Electron of this, or is this Proton the matching Electron of this?" Because, this has a direct link with this, the same as if it's this. But, at the same time we have to remember, each one of these has its own Soul. "The Protons collectively accommodate each other, but which one of the Electrons is a twin sister of the Proton? Which Proton?" Then I was told, "This a random matter, they all become something." And I said to my professors, "The World of Nuclear physics stops here, because you cannot answer me." "You cannot force your lack of knowledge, for me to accept to be the truth." Now, this raises a very, very, special question. If you go back to the World of physics, there is a intriguing question. Very, very intriguing question. We call this, let's add one more, then we know what we're talking about. We make it six Protons, six Electrons, this is a Carbon. With it there are some six, another creature we call, I call them, 'backups', we call them 'Neutrons', to space gap balance. But the intriguing question is, "Which one of these, which four of these Protons has sacrificed its strength for the Life of the others to survive?" What does this mean? If you done Nuclear physics, or you done any physics, you know we have bands, what we call 'bands', where you have the center, the Nucleus which is collective number of Electrons and Protons, and then we have Electrons, which are on the peripheries. And they travel, they rotate, around themselves, and around the Nucleus. Two stay in the first ring, the other four in the outer ring. But, in the center we still have those six Protons. The intriguing

question is one thing. This structure has a Soul of itself, because all the Fields collaborate with the Field force in the center, that they can find their position. So, in an Atom, in the center of the Carbon, we have a Principle Field source, that monitors, controls and shares everything. And then the point of interest in the world of science is, we say, this Proton - we call him number 1. If number 1 is here, and let's say this is the Electron of number 1. But what about ... number 4? This is number 4 Electron. This is number 4 Proton. Let's say we found the matching partners. But, this brings the world of science into another dilemma. And that is, this guy with this Guy, number 1's, they need to give up less energy, but need the bigger Magnetical Field force to keep the distance from the center, not to be swallowed in by the bigger. But, this one with this one needs lesser energy. But, bigger Magnetical Field to keep the separation to be outer. So, if we look, the center Nucleus, though his Soul, has come to an agreement, an arrangement that all these Electrons keep in position. But, there is a bigger 'but' in the whole thing, is that now this guy in the outside ring, needs to share energy with this guy and energy with this guy. Energy with this guy, energy with this guy, that they can all find their position and, all be able to work towards keeping the whole structure of the Atom together. Where, when it was individual here as a single Hydrogen, it didn't need that much, it was a direct connection. Now, there are many more directions, many more connections, but at the same time, don't forget, this electron had a Soul, so did this. So, did the Proton which shares with them, so the collective energy Fields of all the Protons with Electrons. In this state of single it manifested itself as one entity. Now is not one entity, but is a collective Field of the entities. Which, in fact, the central Soul or the central Field has a say in respect to all its movement. Here, as a Atom, single Hydrogen Atom it was easy, it manifested itself as a Hydrogen. But, here as a collective structure with different Field structure, he has manifested itself as part of the Carbon. I hope you see the point. Is the Wish, the strength of the Soul of the center, which has allowed this Electron to manifest itself at this point. Where at this point it's still a Electron, but in a different strength dimension. This is the Soul of the Man and in different point it delivers itself as a physical manifestation of Hydrogen or a Carbon. Now you understand. If you could deeper understand the whole knowledge, it's the Soul of the Man who decides where and how to

manifest itself and position itself. Because, this Electron on the first ring, has totally different capacity and the strength, than the one on the second ring, and then go further. But the interesting thing is, is the Field-Strength of the Soul of the two, which dictates the position of the small one to show what it's going to manifest itself as. The Soul of the Physicality, which the Electron gives to the whole body of the Atom, is connected to the Soul of the center itself, which is the Proton which is the controller of the positioning. So, the Physicality has its own Soul, but is connected through the strength, to the Soul of the Totality, to the center. So, this is our Physicality, this is our Wish. This is where we would like to be, to be shown as a Hydrogen or a Atom, that it manifests as a Carbon. To have a jumper or not to have, or what it gives to be collectively the others to become, that we are as one. So, if you understood the whole understanding in the whole teaching. Then you understand, your Wish which has given you the Physicality, has a access and is part of connection to your Soul. Because, if this changes this has to move in a condition, that it becomes part of another, Because, it wants to give the other 5 a condition to live. and it manifests itself as a Carbon. Has two directions, you manifest yourself as what you want to be, where you want to be, even though you are the same. But the same time you're always connected to the Essence of the Creation of yourself. If you extend this knowledge to a further point, to understand Proton, needs an Electron not only to confirm its existence but to confirm becomes very, very simple. it has a connection and he can decide through the length of the Fields. There is no handshake, there is no Physicality. So, it's the Sun and the Earth. Because, through the confirmation of the rotation of the Earth around the Sun, we confirm the existence of the Sun. But, it's still the Soul of the Planet has a connection with the Soul of the Sun. So is the physicality of the Man, with the Soul of the Man and cannot be any different. Even though, every part of the Soul of the Man, in physical part has its own Soul. This is why in all the teachings I explained, every cell has a Soul. Every cell has a Emotion. Now we understand, my Wish of the physical appearance, is my command. Because with the Wish, I'm in excess, I have access, I can change the position of myself to become as part of the linking of a Carbon , to manifest myself as a Carbon. That allows another entities of Souls to have Life, or I can be on my own. But in that Field, I still interact with the other Souls, which they exist

in the Atom structure. Now you understand. very simply, we can explain everything, in the world of science to the work of the Man. Then the Soul of this Atom gives pleasure to the Soul of the others, to create the molecule of whatever you want. Change the name to the Sun, to the Man, to the Soul of the Man, to the Field-Strength of the center in connection to manifest itself in another, that it creates a Physicality. So, that physical part has a Soul connection with the Soul of its own bigger entity, bigger Field. So is the physical Soul of the Man in every cell, that collectively in a need, in comfort of the existence, transfers its knowledge to the Soul of the Man. That the Soul of the Man collectively in, touches with a mother Soul. That the mother Soul receives, confirms, transfer it into the Physicality and you get the children. We all know this, but we've never been educated. I solved this problem when I was twelve, thirteen... And, at the age of twenty a professor in University, in nuclear could not answer me. I thought, "I know much more than you do, I'm wasting my time" These, is what the reality of the Creation is. This is how for those who are physical and want to have a confirmation, that there is a connection between my wish and my Soul. It's on the board. Now you understand. Now, you understand how much you already know about the work of your Soul. But, you've never been educated. It's very much like, "I eat pancake every day but I never knew how to make it." Now I know. I needed ... flour, I need egg and some milk and a lot of loving, to mix it. I taste it, I add a bit of salt, I add a bit of this to get it exactly to fit my Emotion, which is the pleasure of eating it. Now, you can eat, communicate and joy, and be able to give that pleasure to the others. Because, you have found the path to communicate with your Soul. "My Wish is my command." Now you understand. Because I know access, through my Emotion, which is the elevation of the Soul of the others and my Soul is the beacon. But, a lot of people say, "Why doesn't it happen today. I wish for Peace, but" .... you have to understand the principle of accommodation. In principle to be ready to change and being able to elevate the Soul. As I've said, "Many Peace movement came in, a lot of shouting." But they missed the main ingredient of the pancake. It's Loving. It means giving to the pancake, to the rice, to the flour, to the milk, exactly what it needs to satisfy my Soul. That it gives me a physical pleasure, that I seen joy in what I have created. I enjoy creating Peace and it's my Wish and my pancake is ready to be eaten. This

is what we have to understand and there is no need for trusting yourself, now you need to understand yourself. You need to understand the work of the Soul of the Man, which we always have access to, but we never knew, this is the door to the supermarket of Peace. On every shelf there is one product, enjoy, enjoy, enjoy. Made exactly to taste for you the same as the others. Which gives you all the pleasures to be part of the Peace. Because, there on this shelf we only serve one thing. Same as the other shelf in the rest of the supermarket of a Human Life. Peace, which means, "I receive what I need." Peace which means, "I give, I don't care what I receive, because I know I will have the pleasure of seeing somebody else elevating." This is why in the Constitution, it says, "there shall be no imprisonment and no execution." To the Man who wears the uniform of the Police, this is unbelievable, it's a sweet dream. But the policeman forgot, we have reached his Soul. Is him who's got to look for a job, and his job is to elevate the Soul of the people he calls, 'criminals'. Educate them, they will not become. Teach, not out of fear, teach out of pleasure. The time of punishment and fear is over. Because, the Soul of the Man knows the reality. Because now we have found a way to it. And, it takes time to change millions of years of habit. Unless, we decide now today and then, you still have to be in control of it and in charge of it. What we are doing and the way we are doing it. And the reason we are doing it now. We will manufacture, we'll build, we carry on living because, just because we have Peace, doesn't mean we can sit down and can create ... Magnetic Field nor GANS of the food we need. "I don't need to do anything, I sit down here and I get fat on it." But the strange thing is, most of the people who use the GANS materials as a food, they lose weight. Because they find out, the body finds its own balance and they are very Peaceful and they are happy people. So, then comes, "what am I gonna do? I'm gonna be on this Planet for a hundred years, two hundred years. I can't just sit and watch." Man is interactive, sociable and sociably strong character for being with the others. But the problem is, when we send you to Space do we have to build a factory inside, that you have something to do? Do we open a bakery, that you need to be a baker on board that you have something to do? Or what will be our job in these massive spaces we call the Spaceships, that we are hoping to create? Where, in fact the reactor of the Spaceship is within us, within the Soul of us. Because, we decided on what,

which ring of this reactor we wanted to sit and be visible. Very close, it's a Hydrogen or part of the ring as a Helium. A little bit further with more Fields going and coming and we show ourselves as Carbon. I let whatever you want. It's distancing which accommodates more Fields of the others, that allows us to manifest ourselves. The more Fields of the others, become the cells of our lives our Physicality in the dimension of Space. You need two more reactors to become Helium, we need four more to get Carbon. The other one, it does the job of the kidney, the other one does the job of the liver and the other one does job of something else and then there we go, you become a body, the way you wanted to manifest yourself at the point of manifestation. Now we understand. At my young age I tried to understand how much the Man understands himself of the world of Creation. And I understood one thing, we don't understand much. Because we never understood, how things are created and where created. Now we do. Now we know how we can create, and we know, by creating, we can have whatever we like. Then... you understand even... part of the... new constitution becomes meaningless, because I don't rule no one, and because I have everything, nobody can rule me. Then there is no place for kingship. The more we understand, the more we can solve the problem, the riddles of life. And they tell me, "Why do you keep on teaching about the Soul?" There are enough Iron numbers to still carry on with the metal world. There are enough Nano-technologies nowadays, and now we have many Keshe Foundation Plasma physicists, they understand more than the others, but at the end... the circle goes back to the Fields, which goes back to the Essence of the Plasma's condition which creates and absorbs those Fields at the same time, which leads to the Creation which you and I, and all the created things in Universe, are part of those Field's interactions. Now you understand... that your wish... is part of the Soul of your physical part, and you have always had access... to the Soul of the Man, which is the Soul of Totality of your own creation. Then the problem is solved. Let us Wish, let us... go to the point... that we all give, Wish... a gift to our Soul from our physical Souls, which is Totality of the Essence of... they are, in a very much in... If I can explain for you to understand, is like the gravity and the inertia. Gravity comes from the center of the Earth, and the inertia comes from the essence of the Gravitational-Magnetic Fields, of the Matter's of the Earth. But

the two interact and existence of one which has come... transferred into physicality, confirms the boundary and existence of the Planet. So is the body of the Man, and the gravity of the Man. You call the Soul of the Man the, 'gravity', you call the Soul of the physical part of the Man the, 'inertia'. The Planet has both, and the Totality interaction between them both, gives the physical dimension of this Planet. So is the Man. And in Totality, the Wish of the inertia, confirms the existence and the position of Planet in the Solar System. Now you understand. You are all Plasma physicist, and you all become Master of the Soul. And now you understand the connection and communication. Next time, you Wish and it comes True, you don't say, "What the coincidence!" You say, "I know the path to my Soul, to get what is just and correct for me, that the others allow me to receive." My Soul has a faster language connection than me with the others. Any questions? (JW) Sir, Good morning. This is John here. ... Is this why then in the physics, we need a lot of energy, to change ... one element into another? Be it an atomic bomb or whatever. And ... if we use Plasma, in a Plasma-State we need very little energy, just of the wish of our Souls, to do this work. (MK) In so many ways, yes. But we... we have to understand. Working with plasma, you decide which strength of the Plasma, at what point, you want to change to the energy you want. With the Matter-State, you have to put so much and measure it, that you get possibly what you want. You work with the Matter Fields, which are already reduced, or you can work with the energy itself, that it gives you at the point, what you want to have, and there is no wastage. It's a very simple process. As I said, "The transmutation of the Fields," if you understood the last few teachings, "is the key to manifestation of anything, in the Universe, that you might need." Remember, I used to say to you that, "You put your hand in front of you, and you wish to have gold, you will create gold." Because you create that Field-Strength. You don't need to create ... huge burning furnaces, to produce, to dig so much holes, to grab what the Earth has changed now you can do it yourself, but you have to understand your energy. You remember they say, "When the Messiah comes it'll be the land of honey." Now it is the time of honey. You have to decide which honey you want, and what color you like the honey to be, and which plants you want the honey to taste of. You are the creator of it. And with it comes Peace, because when you receive what you need, you have no

aggression to look somewhere else, to get, to create wars to get it, because you can now have whatever you need. As I've said before, in a very, very near future, go to the Keshe Foundation websites, and we teach you as visual, and order yourself a machine which makes water. You order a machine which makes gold, you order a machine which makes aluminum, and then you make yourself machine which make whatever you need. Then... the machine understands your Emotion, and if you really need gold, you receive. But, if you really want to force to have a Gold, that you have a golden house, I think you'll have more than the central banks ever reserve so much. We think the machines should be of the... around about a, thousand to thousand dollars. You tell me, "I want a machine for Gold" and we can go to the factory and build it. So, there is no desire for Matter-State. Is desire to pleasure to see what it gives you if you do, and what Fields you can gain from it. It brings detachment for Physicality, because you can make whatever you need, whatever you like. Very soon we'll invite you to the factories of Keshe Foundation, to buy these machines or to take these machines, and make whatever you like, When you've finished with it, bring it back. And make another one for somebody else, who'll come up with the more genius ways, to make things you think is correct, for you and the others to use. (BB) Hello, Mr. Keshe. (MK) Yes? Yes? (BB) Thanks for... (MK) We can't hear you, you're cutting off. (RC) You need to get your connection better Bonafice. (BB) Is it better now? (MK) Yes. (BB) Okay. Just want to thank you for elaborating, on the Soul of the Physicality, ... versus the Soul of Man. And after your last teaching, and this I snooping around, and... you know, I was informed that the average Man, has about thirty trillion cells in... in the body, and depend on how you calculate is even a lot more than that. So, that's a lot of little Souls, bodies decides the main principle, which we know to be located between... inside the brain. ... And... they also report that over two hundred billion cells, ... produce that... Though my sense is that ... those... basically are transferring from the dying cells, to the new cells that have been produced. Am I still coming through okay? (RC) ... It's barely tolerable, it's hard to make up what you're saying actually. But I... we kind of got the gist there at the end. ... Something about... (BB) Okay. Well... (RC) ... and better being transferred over or something. ... you were still not clear. I couldn't hear part of what you were saying. Can you repeat it or fix your connection,

whatever, the other? Hello, are you still there? I'm not sure what happened. (BB) Hello? (RC) Hello? Hello? (BB) Hello? (RC) Yes, hello? (BB) Can you hear me Rick? Can you hear me? (RC) I can hear you now, yes. Do you have a better... (BB) Okay! I've got... Yeah, I, I'm so.... Internet connection, but you know, the point I was trying to make was ... .. given the... the volume of cells in our... in our bodies, we have a lot of little Souls, besides the main principle Soul. And also the fact that ... cells are dying, every day and being produced every day in the billions, the billions ... but we... we... I assume that we don't... What is happening is that these Souls, are transferring into the new cells that are being produced? ....very, very... is silly because I, I'm not, I guess I'd like to know, you know, what your opinion of it is? If... part of the body gets amputated let's say. You know, if somebody's in an accident and loses a limb, or something that nature ... What happens? (MK) I'm gonna take it a step further, and then you answer me. Or somebody else try, because from now on, we gonna share knowledge. Yeah? (BB) Okay. (MK) You ever thought, what's gonna happen to you, when we physically say, you're "dead", and we put you in a box or we, whatever we do with you, and you decompose. What happened to the Soul of the all those little bits? The Soul of the Man has left a body. Now you have these physical little Souls there. And let's say a worm eats you. Or as in tradition some leaves, they leave you for other animals to eat you. Does the Soul of cells which you have left behind, stay still, stand in line of communication, and in touch with the what I call, the 'Mother Soul' which created them? And now, that you are consumed as a 'bit Soul' as I call it. Now you become part of the energy of the Soul, because now you've been matched with the one who was... ate you, Soul level. Now you have connection between two. The one which originally created you, and now the one which is... partially controls you. So, what happens to them? Is the... animal which has eaten big portion of the Physicality, now has a connection with the Soul, of Totality which has left the body. So, will it be able, the Soul of the... your Soul, to change the Soul of the animal, that it will not eat anymore, because now he has you, and you're part of it, and you're a very Peaceful Man, and you're a vegetarian, you never ate, according to you, a living thing, even though vegetables are Life and living. Now, take it a step further. You, you ask about the amputated, you go a step further, we are consume it ate it, which means you've

been consumed by something else. What happens to our Soul? Or do we stay in the future, as a field eater, as the vegetarian say, "I don't want to eat an animal." When we become Man of the Space, we will not touch another Soul, because we don't want to be Soul eaters. Then, as I said, and as is in the writing of the Prophet of the past, "Even a stone has a Soul." So, in Space you don't eat anything, you just take what is available, that you don't commit no crime, you don't end another life. This is what I said. If you don't get to that stage, it's a very dangerous place to leave Man in Space. You look at something and say, "I wonder how delicious that is?" How many aliens can you eat, before they eat you up? What happens to your Soul, when you are consumed by another Soul? You want to stay pure, "I don't eat something else and I don't get eaten." Or do we have a new life style? We shoot the new bodies into Space, that nobody can consume them? What do you think? (RC) Well, ... I'd like to say something about that condition, first of all. Which is, there is an interesting fact, that I've run into, last months or so, about the numbers of cells in the body, which you mentioned there's trillions and trillions of cells. But it turns out that when they count up these cells, that ninety five percent of those cells, do not have our own DNA in them. They are of different bacteria and viruses and other... parasites, and it's... just things that make up our body, that aren't even our own DNA, only five percent of the numbers of cells, are our own DNA. It's actually five percent of the body weight is unknown DNA other than our. Like ninety five percent of our body weight is their own DNA. But the number of cells, when you count up all those trillions that make up our body, then ninety five percent aren't even our own DNA, yet we call them our cells and our body. When we don't really have... you know where we're calling ... all of the bacteria, and all of the, you know, different enzymes, processes in parts of the body, is it all our? When ... what are we saying, when we mean, I of myself. Are we... meaning the Soul? Or are we meaning, all these little, tiny wee body parts, that you know, fall apart, and eventually become food for the worms, and so on? (MK) But don't forget, from the beginning we are borrowed parts, from the father and the mother. Huh? (RC) uh-huh (MK) We never had a beginning, if you look at it that way. (RC) Well, was... (MK) You are a collection of the fields of the others. And that's how we build our structure. (RC) Was there no beginning before those... two come

together at the... (MK) Oh yeah. It go back to the Creator. Go back to what we call God. And then go back to the Adam and Eve, and the start of the creation. The field making two for it, that it gives an... If you go back to the origin of the creation of the Creator, this is very, very ... fine definition, if you want to translate it in the word of the Man, in the language of the Man. How did the Creator made for it to be created? But at the same time, once it create self how did it end up to be... the Creator of others? How did the origin of existence in its Totality, from the essence of zero started? Was there a zero point? Or, how did things happen that the interaction of the fields themselves, has led to the existence of what we see, in a very small speck of dust we call 'Earth', in the Totality of the Universe. Where did the origin come from? What is and what are the part of origin? One of the theoretical physics in the Universal Community teaching, which Man will come to understand, is very much like, as I said, "when you have everything", the scientist of the Universe are elaborating on. Which is good for Man to know as you enter the Universal Community. One of the points of discussion, in the world of Universal Community, is... that, are we within the fields of the Creator, that he's not even been created? I try to teach this as part of Universal Knowledge in book number two. If you look at the fields as a Ray, as singularity, what we see as the Universe, is still within the realm of the fields of singularity of the Creator. He has not created yet. The friction within the fields of itself, internally, has led to creation of the Unicos. You got to understand in the world of the Universal Communities and the Unicos, there is a lot of communication, there is a lot of understanding, there's a lot of work. What does this mean? If I can explain to you, because as we go into dimension, is good to understand part of what's happening beyond, as we say, "Curtain of Life on this Planet." What I said is this. This is the ray which creates, or is the Totality of the Creator. Has the Creator divided and has built another part, we call it 'offspring' of itself, that the interaction between the two, has created the 'Gravity' and 'Magnetical', as you like to call it? And the interaction of the field of the two of the creation, creates it. friction, which has that has led to the creation of Unicos? Or, what is more logical, is we are still in the Rays of Totality of the Creator, and the interaction of the Fields of the Creator, internally, has led to the creation of, what we call 'Universes', as a Unicos? Then it brings you back to one point of understanding.

And that is; Is the Creator chasing his own tail? (RC) Yes. (MK) And the interaction.. (RC) That's a really big question. Thank you Mr Keshe. (MK) Oh we have been helped. (RC) The biggest question of the Universe. (MK) But we have answered this in the Universe, Man cannot understand. The point is, in another philosophy of the knowledge of Universe, we say something very simple. Is the Creator straight or is he circular? The first theory, that the life has started internally, unless we are part of this internal structure, does not conform with this. It more confirms with this. The Universal thought in the elevation of the Soul, to understand the Essence of Creation, they talk, they elaborate on that, creation of the friction... if you go to book number two or three, I have explained this in a very, very touchy way, because I... that time I could not explain this to Man. That interaction of the fields... if you go like... What do you see? And then you see the offsprings, circles coming out, Is the interaction of these interactions, lead to the creation of the... Galaxies and the rest, and is this what I've drawn, exactly the structure of the Creator? "I've made the Man in the image of myself." And the message of the Universal is very simple. You've been taught in a very fine way, the knowledge of Universe. That now, you have it in the book, you can go back to it, "Oh it was there!" But the knowledge is hidden, Man will unravel it slowly. But what is, what we call, you know they say, in the time when we see a lot of intellect and elevation of the knowledge, like in Egyptian time, when everything was... there is no difference between the workers, and there was plenty of time to elaborate and understand, and be able to philosophize? This is what is going on in the Universal Community line of thought. Because, they have everything they want. Some may want to understand, "Where is the Creator, which part of the Creator we are?" And this's been going on for billions of years. And sometimes, we hear the voice of the Creator. You don't hear the voice, we feel the Essence of its Creation. But, there is a very big question, in the theology of the Universal Communities is, Who is there, to see what God is doing? Is he this, or is he this? Or, what we see through him, is what we see as the Unicos? Or is this the Unicos? The Universal Communities line of thoughts, are very simple. The... you know, you send excursions to go to the edge of the Earth, they play game, they send excursions to the edge of Universe, to find the boundary of the Creator. And, nobody has reached it yet. But, which part of are? Is it still

singular, or has it become circular? Is it the shape of a Ray, or has it become a plasma, that it creates the Life inside itself? I have built a system, to replicate the structure of the Creator. And it's amazing, it works. So we have a good idea how the Creator, is leading its Fields, leading to the creation of the Unicos. The system now is used in Italy. I took it from the understanding of the work of the Unicos, and I built it, and it's getting used in Italy, and I would love to see what it comes out of it. Because they are looking for something else, but I built it to confirm something else with it. I repeated very much this structure. I repeated this structure, that the Totality of the structure, becomes the Totality of the Creator. That with its movement, can change the totality of its environment. That, it means I can become in touch with the Creator. As I am part of it. But, the Essence of Life, the Essence of Creation, is very simple. Man is in dilemma of finding his Soul, Universal Community is trying to find the Soul of the Creator. And, we have loss of physio... like we have on this planet. Elaborating how the Creator be. And as I said, one of the questions, which is, always sits on the table, of discussion, is that, "Is the Creator within us, sitting with us, watching what we are elevating, because we, we are just about to crack, what he is, who it is, what it is, and he is diverting our attention, not for us to discover him? But as I said, who is there to observe the existence of the Creator? Then there is something else to confirm its existence. Then is he the Creator? Or from inside we want to see whether it's outside? In a very hidden way, in many of my teachings I refer to a very simple word. And this actually comes from the Universal knowledge. Because I know, I've seen, I understand, but it's hard to explain to the Man. They say the Universe expands at one million sq.. kilometers per hour. But, the Universe cannot expand, if the room for its expansion, wasn't there to expand into. But what is it expanding into? It's expanding into another Universe, or is expanding in the dimension of the Field of the Creator? It becomes another thirty three billion cell, of the structure of the Creator? And then, is the Soul of the Creator, which has created the physicality of the, what you call, 'itself'? Has made itself in the image of itself? But we still say cow has a Soul. So, how come the God has created himself in the image of a cow, or a fish? Doesn't mean Man because he cannot speak. Or the, the philosophy, the intellect in the Universal Community is, "Let's find him." "Let's understand him, and let's thank him for

what has created for us to have time." And the philosopher's of Universe are hundreds of thousands of years old. They haven't managed to answer this, because nobody has managed, to get to the boundary of the Creator yet, to see if he is an arrow or is he very much the structure of the... a Plasma? And we think, we think, it's a combination of both. While it's moving, is evolving, but what is he moving within? But where is its origin? Where is the origin, and what is the origin of the Creator, which we are part of? I would love to take you in one of these what I call, 'discussions of the Creator'. You'll be baffled, because there is so much knowledge, that in a way knowledge trying to rob another knowledge, that'll be no more, but if we give you this can you add to it? Not that we know we are intellect, we are much cleverer. It's very much the way we try to teach here. But the question is, which part of these thirty three billion, in the structure of the Creator we are? You thought you solved the problem? Now, you have another one on your plate. Then you'll find out, finding your Soul now becomes very easy, because now you got a bigger problem to solve, now find the Soul of the Creator. He cannot find his physicality. (AG) That's a good challenge. (MK) Oh my God! I've been busy for billions of years with it. I'll give you the answer one day. But, when you make the, we are, when you move the goalposts, to a higher level of understanding, then it makes easier to understand the one lower, because you now have to reach the new understanding, you... the solving the problem at the bottom is easier. Now, the reason I brought this up, is now as I've said, "will take Man into Space, to be equal to the others, that you don't become subordinate." So, now that you understand little bit of what is going on beyond the screen of the Man's Life, in the Universal Community and the rest of it, then finding the Man's Souls and the operation becomes easy. Because, the goalpost from today is raised a little bit higher. If you are busy with Nano-coating machine, you're quite welcome, because you still have to progress. But if you have reached to understand the operation of the Soul, now understand what is the operation of the Soul of the Creator. Which part of it are we? And, are we that important? Even though we are a speck of dust in the Solar System, in the Galaxy and in the Unicos, that even we think we are so mighty, we are actually, mousey, tiny little thing. But. is our Soul big enough to be able to reach and touch the Soul of the Creator? Because, with our existence we confirm the Physicality exists, of the

Creator. Go back to that Atom, Electron and Proton. That little Electron confirms the existence and connection, of confirmation of the Soul of the Proton, that it can keep everything together. So, does the Creator needs us as our Soul to confirm the physical dimension of his existence, and we are part of it? We are, that little muscle on a tissue of tissue of a cell, of the kidney let's say. And we are not aware, if we now move if something goes wrong with us, the whole body goes through the pain, and the body is crippled. So, it goes back the poet of Sa'adi, at the United Nation. *پہر کردید یک اعضای آدم بی نی* which means, we are all made, through one cell, through one body. And this body is part of the body of the Creator. We are not just a dust in the speck of this space of the Universe. Our Soul carries his Soul. Bless his name. (KB) Hello Mr Keshe. This is Klaus 2 from Austria. Hello to all, can you hear me? (MK) Yes. (KB) ... we discussed yesterday in the medical teaching, and some times before with Jimmy and Lisa to start a little education program, to come closer in touch with our Soul, and I called them, 'Universal Connection'. And, Monday afternoon we will start this, and bring in some knowledge to the whole community. (MK) Thank you very much. (KB) Okay. (MK) Education of the Soul of the Man, it'll be the cornerstone of the entry of the Man to the Universal Community, and understanding of his own existence. (KB) Yes. (MK) Thank you very much. (RC) And this is also what's been coming up in the Keshe Plasma Reactor Group, which was ... last night, or yesterday where, whichever you look at it. ... we even had a diagram that was quite similar to the diagram that you just showed, with the interaction between the ... the core of one entity and the core of another, as opposed to the interaction between the surface layers as I see of, say of the Physicality interactions. It'll... I was comparing it to, ... sometimes when people meet, they might look at the clothes of a person, or their shape of their body or just some of the superficial things, of that person, and maybe judge them according to that. Whereas, another person might just look them directly in the eye and have a being to be in contact with them and may not even really notice their clothes or the shape of their body. Because they're interacting on a different level. So we're just talking about different levels that we as Humans, tend to ... to fall into, and you mentioned before Mr. Keshe, of the... the Matter level, the Nano level, the GANS level, and the Plasma level, and then becoming eventually a 'Plasma

Manipulator', was the term that came out at that time. Where one has more control of these Plasmatic Fields and you interact, on a Field basis rather than Physicality basis. So, we seem to have these different levels, and would it be True, that people tend to fall into these different levels? and where is, where is the ... the absolute in those levels? In terms of can we make a direct connection at any, from any one of those levels, can we still make a direct connection to the Source inside of us and to the Source in the environment without having to pass through each level to get to a higher one as such? Is it possible to take a direct method and essentially become the... the absolute, become God... ? (MK) There is a school of thoughts, there is a line of ... what we call, 'discussion'. There is a line of understanding, that in the structure of the Unicos, being part of the Ray or the Plasma, either you look at it. We sense vibrations, we sense Fields that, the believe is... is the vibration of the Creator, it's the Fields of the Creator. in... in a way coming from interaction of the Fields within it. We don't talk about like, what you make sensors to listen, we try to sense it through our Soul. Which means, you have to go deeper and deeper inside the Strength of the Plasma. You'll find out ... in the world of the Universal Community or we, we have managed, and still it's part of progress of the Universal Community, in breaking more and more into understanding of the creation of ourselves. The way I can explain it, which is the easier way to do. If you look at this - at the moment Man with the knowledge understanding the strength of his Soul is there. In the Universal Community in the strength of understanding we might be somewhere here. And that's billions of works, billions of years according to Man. Because we can unravel stronger Fields to understand more, and this is how it's happened. But, in that process we feel, we... we... it's the vibration of the Soul if you like to call it. A noise, a Field, it's a feeling what we call the 'feeling of the Creator', that can penetrate. It doesn't mean that the Man cannot hear it but we don't have, we never understood. It's very much like a wind as you voice. (RC) It's almost exactly the diagram that, that we made last night which is, we had the... the spiral was drawn by someone and we worked with the outer spiral parts which we've discussed before, you've discussed before the ... you know, there's the different Rays and so on, in the outer parts of the spiral. But then, the idea came up about... what about the connection that's basically to the Principle Source,

that Source connection that we know that we feel and feel between two Beings or between what people call 'God' and themselves and so on ... It's a more direct thing. Are we feeling just the outer parts in that spiral or, or are we getting closer to the Core? (MK) We, we have not... we lost. We have not become more... sensitive is the wrong way, wrong word. We have not become more aware of the higher Strength in us. We, we need to become more aware of higher Strength. We... If you go back in the teachings and go back in the pictures you've shown today. We don't create a condition to be different but, we create a condition, that who's happy to win this condition will take place else and live with it. Is not domination but it's more living within that, "I feel good with." So, the Soul does not matter how far we can go deep, to understand more of it. We'll, we'll, we'll come to understand the Soul of the Creator how close is our Soul to it? Or the way we said through the Physicality, we had a Emotion we can get in touch with the Soul, because is of the same Strength on the Physical Soul of the Physicality. Do we have that in our Soul that with it we can, we come in touch to see the beauty of the Creator? The Man now has we teach more and raise the level of the understanding. Very soon many, many of you will come to understand and see your own Soul because now is not that far to reach. I know many people are trying different ways and they see and they can't believe the confirmation but now they are at it they go the wrong way trying to see the Physical manifestation of what they seen, they can repeat, and it doesn't work or it just happen last time. Never look for confirmation. Be there to confirm the existence of the others. "I wish the jumper but the jumper came but I did not wanted it, to give so much Love for getting the jumper. I want a jumper to be warm that I can show off in front of my friends, "I have a new Jumper." Which one is the one we are looking for? Now we have raised the bar. Many, many of you will start understanding the Power of your Soul. And those who do will start influencing the World Leaders and will take the path of the Peace. A few have started but I see them getting sidetracked because they can't believe what they have done and what they have seen. But as I said, "the minute you start for a Physical conformation you lost the game." Go back to zero. And this is how it is. This is how you peel the banana, actually you don't eat it understand it what it gives you. You can't peel any further, more of it, because then you have to give more.

Is just as I said many times, "I have to play many tunes to fit many ears that they all can have the sweet dreams of their Life." We produce, setup factories to make things that the Physicality can receive. We teach because some people like to receive it and they do it themselves. We do all sorts of things to get as much information to the Soul of the Man because Man has lost to Trust, even his own ear. What do we say, "I can't even believe my eyes." "It happened, I wished for it and it's there." Stop, stand still and look so it means it's not a Wish It shows me I have access to my Soul but you cannot harm with it. Because then you take from yourself. Try it, try to harm with somebody with your Wish and then you see how badly you get beaten by it. In your... whatever another, when not receiving what you wanted, another punishment and then you'll find out it's no use, "I like to see what you like." Is very much like the mother comes say, "What would you like to make you, what would you Love to have today for your lunch?" Then she goes in shops and brings for you to have what you wanted. As I said, "We have to become mothers to serve." If Man knew how beautiful the Woman is, Man will never do what is done to Woman. Now you understand why I love Woman. Woman are there, they're Essence of Creation. In every shape of form they carries Soul with them because they are the Creator. One day one point in their Life they create and then that Creation becomes the Essence of Life. It's the beauty of the Creation. Is not the Man who created, it's the Woman and sometimes I say, "I'm scared of what we call the next Prophet, will be a women." But, goes to a very deep Essence of the Creation in Universal Community. Is the Creator a woman, a female, a maker? There is making the Universe. And in so many indications it looks like yes. That's for us to understand when we mature enough. (RC) Well, as I mentioned last night in the Plasma Group that the, the mayor of Montreal has ... just been elected and it's the first woman in 380 years, and there's actually several mayors of towns in Quebec, in Canada, that just had these elections that they voted for women, for the mayors of the Towns and it's just revolutionized the whole political scene, they say it's the biggest political upset in fifty years. (MK) They say the second most powerful woman in Austria, the most second most powerful person in Austria. after the president, will be a woman, is more powerful than the, what you call, the 'Prime Minister' or what you call, the 'Chancellor'. It's not a woman, it's a sense of creation, It's the Soul

of the creation to give unconditionally and men or what we call, the part of the structure of us, maybe brings needs that for them to be able to show that they can be generous and they can be the Creators. So, in a way, to show they're kind and they are the givers and Creators, they need us to ... for them to confirm their existence. One cannot live without the other one, if there was nothing, how can a woman show she Loves and she can Create? But ... it's a very, very beautiful game of Life. (RC) Also Canada's just given millions of dollars toward Peacekeeping, specifically to put more women into the Peacekeeping role and to prevent the ... some of the brutalities and abuses of ... you know, various things such as rape or abuse and harassment and so on, of those who are the caregivers and the people that are protecting the caregivers, out in the... in the Field so to speak, in the military zones. So, this is a whole new philosophy as well and at the same time, Canada's bringing back the normal Peacekeepers who have been doing this, and some of them are actually been charged and so on, because there have been transgressions out in the field, and they've realized this over the years and there's big changes now to try to stop, that from happening, it's no longer tolerable by all the parties concerned, and this is ... (MK) I think your new prime minister is changing a lot of grounds. (RC) He is, but he's also in some deep trouble right now because of these 13 million documents that have come out, that are implicating all of the ... a lot of the rich people of the World in how they have stashed their money and avoided taxes and that includes the ... the very person who's financed our prime minister's political party and their... their whole ability to win the last election. He just happens to be one of the richest people in Canada and he's been implicated in all this mess. (MK) Yes, but you got to realize, if you go back to 1980's, 90's even now, the government encourages people to hide money ... (RC) Well that's right (MK) If you look this is what we say in the... (MK) ...in the... in the new, in the new ... mandate, that there is no monetary position, The government structure is, you work and I take 70% of what you earn away from you for to one president with 2000 bodyguards. This is discussion in Italy at the moment. Here in Italy, is a very big discussion, why we created the position of the president, that he needs 2000 staff. So, these 2000 staff need to be paid and they are paid all in, 5 digits, 6 digits salaries, where is it going to come from? You work, you have to pay for me to keep 2,000. (MK) This

is... (RC) I just made a rough calculation, of the amount of money that these people have stashed away over the last few decades, and it's roughly equivalent to the average debt that the average Canadian has, ... I think it is between 30 - 40 thousand dollars just in their personal debt, let alone another, you know, ... just their personal debt. So it's... we wouldn't have a personal debt that we're paying interest on, and so on, as an average Canadian in this Country that's where a lot of the money goes, is to pay the interests on the debts that you have, especially if you're a student, student debts, and that could have been eliminated if the funds were properly put into the tax system, to help pay for all of that stuff. So it's funny how that goes and now that's unravelling so perhaps, we were talking, discussing last night perhaps, that top of the pyramid is kind of falling apart now and all the bits and pieces are (MK) Even I tell you raise, praise from your Soul to all these people, they are opening it, left right and center. These tax, one of the biggest Tax Haven Countries, which is gonna come gradually under pressure, is Middle East, it's in Emirates. (RC) Uh-hm (MK) And, as I've said before, anybody steals money ends up in Dubai ... is become tax haven. and ... I don't think sooner or later the world governments will allow this to happen, because it's a lot of things going on, the Switzerland they closed, but they still find a way, but, I always say, if you go to a government and you run a business and you say to the government, "I'm a successful man, I don't want to pay 50 %, I'm prepared to pay 20 % that I can expand it next year, my 20 % it'll be twice or 30% more than this year 20 % and then I can give to my workers that they spend, they create job". This is the discussion we had with the crash of the banking system three-four years, four-five years ago, I explained this to the bankers, I had a meeting with the World Bank people, I said, "The stupidity is you are paying the banks, for what reason?" "You give the money to the people who have a mortgage to pay the bank, now they hand... you paid the money to the bank, bank has received the case is collateral. Bank is free, it's got the money to do whatever it likes, or it pays its debts, whatever they lost, a figure on a computer. But, now the man who's paid his mortgage, you paid them to pay, that 200 - 300 - 500 dollar a month that he was paying the mortgage now he's still earning, it can go to create, to shop, to buy, and then, that creates new jobs and new economy. And this was not acceptable to the people who planned it, they ... the problem is what these

figures means, I'm looking at setting up the, in the banking for the Keshe Foundation. We have to go totally different, we do not need to rely on the present banking system to be able to change control, because if you don't have a card, you cannot receive. But, we have a Technology, we have a understanding, that we make everything available, in a different way, that even our, what we set up, as our ID-cards, bank cards will not be needed, we don't need, if we can guarantee, anybody come says, "I have a million, whatever, Universal Council points or money, can you pay me?" I produce him a thousand tons of Gold, he's paid, We are looking at International communication banking which needs no financing, that's one of the easiest way to do, You want to pay, I guarantee, I become the Visa card, I become the Universal card. Anybody can spend and anybody comes to me and says, "I'm manufacturer, I've sold so much, I need the money for it, I say, "Okay how much Gold do you want, what material you want as a payment, that you can sell in the market?" We can produce it, And this is the way, there, this, when you read the Constitution of the Universal Council has a lot of hidden information in it. So, would it change our position, it will do, it is a huge move and this way I don't need the World Bank to confirm, I don't need to register a bank because we are a happy provider, we provide, anybody come to us, "We say what you like to have? in shape of money, currency, whatever you're happy with." It's what I said, a few, couple of hours ago, the new Keshe Foundation factories coming up, they'll all be selling material production; gold, silver. and we give you the full recipe everything, you buy a machine which produces Gold, Then you say to me, "I want to produce a kilo, two kilo machine fifty gram machine a day this is what I need." But the problem is everybody else will be producing Gold. The way we have set up the knowledge and the way the knowledge is coming through makes present monetary system obsolete, that nobody needs to do a crime, to hide the money from taxes. The government's policies pushes people to hide money, 28%, 30% of the National Income in most of European Countries, EU is in black, otherwise they can't survive, 60%, 70% goes to taxes. By the time you weigh your VAT, you pay taxes on fuel and everything else, you're actually, you think you're spending but all your Life, it's all you do, about 20% is reality, we are getting a benefit from, the other 80% is all taxes. You work here in Italy at 2000 Euros a month, they pay you. You pay 800,

900 taxes so you end up with 1,200. You pay 200 a month for fuel, which 160, 140 Euros or 50 Euros of it, is again taxes. So you paid now, 940. You go to buy clothes, you pay 20% taxes. So, in average you pay another 20% taxes of the other thousand. So, in fact, out of 2,000 you're supposed to be paid 1,000, 2-300 is all taxes. Is it worth for me working for 700? But if I don't do, I don't have to live. But, I give you now 700 you spend, then you don't need to waste your time, you don't need to work in a factory to make guns and bullets to kill the others. A guy said, "I prefer to work with the Keshe Foundation factory, where is it?" "I want to job now." You have to understand, this is the way, ... the beauty of it is, as I say, "We have the technology, we have a knowhow and we have the Will and the Soul to do it." And it's not one of us anymore. This is the problem which I've created for governments. It's not cutting a head of a snake, somewhere it'll die. This snake has got millions of heads now and the problem, the biggest problem is, the partners, the wives, the husbands, the sons and the brothers and the close people to these people, have been touched by the Foundation and are structuring it. One of the World Leader's wife is... literally, biggest supporters of the Keshe Foundation. Because they've seen it, they've used it, the pain they had, they couldn't do anything. It's done. It needs to come. They influence the husband's decision. "I want to see this is supported." And you know, wives have a lot of power when it comes to husband. It's the same operation. We have to show, we can deliver an alternative, unconditional, availability of everything. So, if I can work 2 hours, 3 hours, 10 hours a day, a week but I do a good job, I clean the street. As, when just before we start, ... Caroline says, calls and says "Thank you Mehran." Because I do everything at home. I enjoy doing because it gives pleasure to my partner, it gives pleasure to my children, it gives pleasure to me that I can see their pleasure. I cook, I wash, I do gardening, I do everything. And they tell me, "You shouldn't do these things." Why not? Otherwise their Life is wasted. This is what we do out of the pleasure. I spend 20 hours a day, supporting the work of the Foundation and more people get educated, elevated through their Souls to understand too, by new knowledge, they don't need to spend ten thousand, five thousand hundred thousand on operations which can be done with a pen, with a patch. Doesn't matter what they sentence me to, those people are doing it and that's what it matters. I'll never become the Christ

on the Cross, there shall be no king to put me on a cross. This is the beauty of it, you're all doing it, now step up. Go to, you understand you got a trust in the work of yourself. Go up to understanding the Soul and then, when you understand that, you can change everything. Then, when you read the New Constitution for Human Race, ... it's all achievable. I live it, it can be done. Go back to some of my teachings, 10 5, 8 years ago. I said, and somebody called me from the World authorities, says "Do not do this, you cannot say this." Now, we are coming to the point that we don't need shelter, we can move further out, with the new Space Technology, we're going to release the way it's developing. You don't need to live in the center of New York for 3,000 dollars a year, a month, that you pay 2,000 of it for rent and taxes and everything, you end up with 500, 10, 15 pounds, dollars a day to live. You move into the woods, you create your own place, and if the boss needs you, I can do it on the line, I can be there in the morning, go back at night and I enjoy the 3,000, all of it, in the wild in Africa. I register myself in a tax haven of an African Nation which charges me 20%. but I do the work in New York. This is all becoming part of the reality the way it is. You don't... How many people this year will not pay for heating or pay very little, 30, 40%? Millions of you have made the MaGrav system and the new power system's coming in. Very recently, governmental offices have called the Keshe Foundation, "We need the Power Units which you have produced for the government offices, because the ones we have tested has shown 50, 60, 80% reduction." Now we are working, hand in hand, with governments. It's you who have brought this up. Is you, your knowledge, your work, which is changing the balance. When I received a text that the government has called for us to go in, they want more systems. Now, I said to a lot of Keshe Foundation people who're around us, "We're gonna be nationalized." We don't tell people where we are setting, whatever, but most probably, most probably, some of the Keshe Foundation factories, in the coming time will be Nationals, because it's a National asset. But, because we teach, you can nationalize because we belong to you. Then your Soul is free, you don't need to hide money that they can find you and then you can pay it, whatever, things on it. We got to change, this is the Essence. When your Soul is clear, when your Soul understands its work, you will... you evolve, you elevate to understanding more and then you can share with the others. When you're a doctor, you're

there to support, to help, to change the pain of the Man. When you understand the work of the Soul and you can see, you can change so much and you teach the others, they can do. You become the Soul. You become the... the doctor. You become the educator, and this is all the purpose. Government encourage stealing. They encourage stealing, by laws which have no meaning. If the governments say, "Max... the maximum taxation..." If you even go in the Foundation Mandate, original Keshe Foundation, in the Ethos of the Keshe Foundation, Stichting the Keshe Foundation, it says, "19% for everything." Because, 20% I'm prepared to keep because it gives something else, but 80%, 60%, I'm not prepared to give free. Because, what am I working for? Life become a slavery of banks. Now with the new system, we teach you, we give you, we developed it for you. You don't need to pay for heating, you don't need to pay for electricity, you don't need to pay for the water, you don't need to pay for the food, you don't need to pay for a lot of things. Fuel become totally free because you can travel with the new MaGrav Systems which are getting developed. Voila! Who's gonna tax you? Now they tax you on your breathing. The air you breathe gonna be taxed. But, on the other hand, as I always said, then we go back, "I'm prepared to work 10 hours as a teacher, that's my specialty, for the school to be educating children." "The other 30 hours, I do what I like, but I know I'll benefit somebody, somewhere." You do both. You go to a shop, you want to get paid, use the new KF currency on your account. We pay, we are knowledge rich, cash rich, we'll be delivering Gold, as much as you like. And the beauty of it is, many of you know what to do and how to do it, so... There is no more one man to get his millions to get! And the problem is, the biggest problem is, all these World Leaders get sick. All these World Leader's family have a problem. Half of the governmental officials, are sick. They've been to the best doctors. Don't forget three years ago, we had a push from the Vatican for the Pope. They tried everything. Till they'd set the Keshe Foundation System and we saw the Pope walking in the market. It took me, Armen and Marco, a weekend to make a system for his Eminence the Pope, and we delivered it. Armen are you there? Or is he asleep? (AG) Yes Mr Keshe I'm here. (MK) Do you remember building the system? (AG) Yes we built four system actually. (MK) Even the most power... (AG) Four of them. (MK) Yeah. Over the weekend, I was back in Rome, Monday

morning. Correct? (AG) Correct Mr Keshe. (MK) The most powerful... (AG) Without him. (MK) Pardon? (AG) He died with Marko. (MK) With Marco? Three of us. Actually Armen and Marko did most of the job I just said what I need is this. Saturday, Sunday in Barletta, late night, system was ready 5 o'clock to go to Rome. Even the most powerful Men in the World need the help of the Keshe Foundation medicine. Medical application, health application, better improvement. This is what we are, we support, irrespective of position, and condition. And I can give you number of World leaders, top Men in the World who have used the Foundation. We keep silence, but at the same time, we are there, those are the people who support us underneath to develop and get further. Understand the work of your Soul, you have moved away from Physicality, then we are into the next step. Shall we call it a day? It's nearly one o'clock, we've gone for nearly four hours. Thank you very much. (RC) Sure Mr Keshe. (MK) I hope we come to trust our own Strength in our Wishes, which is the Wish is a key, or a channel, or a way to our Soul, that the same as I've said, "When you arrive in a new destination, you see it's good, you wish to be there, your body takes the form of the ... million years to get the evolution, from that, at the point of the wish because now you have access to it, you replicate it. Now you understand more how it's done. Thank you very much for today. And I hope we learn more from each other in a coming time, but we still build the factories, we still do the battles with whatever, till we educate the whole of the Humanity and the ones who live on this Planet. Thank you very much. (AG) Thank you Mr... (RC) Okay. (MK) Thank you indeed. Beautiful flowers to go out with. And they all with a MaGrav System. (RC) I think Flint's gonna play some music as well, this is the end of the 197th Knowledge Seekers Workshop for Thursday, November 9th, 2017. And as always, thank you everybody for attending. And ... take it away Flint.
