Transcript v1 from Amara subtitle file revision 4

Once again, I welcome you ... my name's Rick Crammond, as your host today. And we'll have ... once again, as in the last 201 Knowledge Seekers Workshop, we'll be listening to Mr Keshe. And before it begin today's Workshop, I'd like to show a picture , that we have from the ... last Workshop. And we had it at the end, and we didn't really give it, "justice", you might say. So, let me just share that... and explain a little bit about that. Okay, let me get it lined up in Livestream here, as well. Okay ... I was sent this picture by Mr Keshe, and he said to, "Release the picture." And this ... "as our gift to the Chinese Community," and "thank them, for there hospitality, and trust, and the work in the Foundation." "Thank you, for your beautiful Nation and people." So, that's from Mr Keshe. and ... perhaps Mr Keshe would you like to say something else, about this ... picture, before we begin the Workshop? (MK) Yes, good morning, good day to you, wherever and whenever you listen to these Workshops. As we said, last time, "we were in China for months." And this is Caroline with our little Topoli, at Shenzhen Research Laboratory, of the Keshe Foundation, and this is the Shenzhen team. And, I would like to thank ... Shenzhen group, as now, a part of the Keshe Foundation solid work. We thank all the people involved. And in the future you will see, how closely Shenzhen group has become part of the Keshe Foundation International work and within China. Is beautiful to be there, we

enjoyed our stay with them, with the Chinese Community and there, what I call, 'Trust' and 'confidence', that things will change soon, will grow very rapidly in China, with the Keshe Foundation and the Supporters. And, in a way, they kept with us, not leaking any information out, that we were with them, amongst them, for ... some months. And ... this was, in a way, the goodbye picture, just before Caroline leaves China. ... And we enjoyed it. We thank all the Chinese Community, and all the people who worked very closely with us, and stayed with us during the... our stay in China. ... We will see huge developments with Keshe Foundation, and the Chinese people, as a Nation. And in due course, we will see what we will inspire from the Chinese understanding of the Foundation. It's a solid core, is many, many of them. Hundreds of thousands of them. And in so many ways, they're carrying the knowledge has alerted the governments and the authorities, that this Technology is needed to... to be looked into and to be developed. And we thank the same, by the same way, the Chinese government, and the Chinese authorities, who work with us. And we thank their trust, in the Foundation, work of the Foundation. And in so many ways, this is how it should be. A Peaceful Nation, working with a Peaceful comp... organization like Keshe Foundation, bears that we have a lot of good fruit. And again, I thank all the Chinese community, who were with us, supported us, and in our time of the stay in China, ... so closely, as a community, kept everything shut, that, we can have piece of time, and we could do all we were there to do. We'll see you again soon, hopefully, and as you will see in the future reports of the Keshe Foundation development. how Shenzhen center has become part of the Keshe Foundation worldwide, and I thank the head of the Keshe Foundations, and Mr Hu, in his work in the society, with the Foundation. Thank you very much! ... The Chinese community, who wanted to keep pictures or release them, while we were there, you're quite welcome to release pictures, ... now, that we have gone open with it. If any pictures, just please do not release sensitive pictures, which you know, which was there. Thank you very much indeed, for all your work, and all your support. On the other hand, we come to a crucial point in the Foundation, and teaching side. Tomorrow is the last day, of the fourth year of teaching. And the fifth year starts in January, the 17th, or 18th. And, in so many ways, we've seen many people participating, and bringing this ... knowledge shared, on the regular

bases, on daily bases. Five days a week, in three semesters, which we run. The latest, I have to give my thank to Jim and Lisa, as the head of the Keshe Foundation Teaching KFSSI. Thank you, for what you done, and what you are doing in development of the Teaching Programs, and structure of the Keshe Foundation Teaching. Many people have participated, and in so many ways, you still can join. The Knowledge Seekers, who been with us, from the year one, two, are still there, because in so many ways, now most of them have become masters in teaching. And, in so many ways, we are looking into our previous and existing, what we call, 'Knowledge Seekers Students KFSSI', to become part of the bigger Keshe Foundation Organization, in ... running of the other part of the Organizations. We will ..., we are running, and will be running, and we are opening. In one way another, we need to expand on the knowledge. In a way that, we all understand it, more and more. The ambiguity is ... not due to lack of understanding, ambiguity, in part for many of you is not being able to connect the information, that start making sense. This is, what is the part of these teachings will go. In next weeks and months, you will see a totally different approach, as you've seen, we changed, we... We taught about the systems went into the direction of the Space. Now we went in direction of the Soul, because it was important to be understood. Now gradually, we start bringing the operation of the system, with the operation of the Soul, with the work of the Man's body. This is the biggest switch for many of the Keshe Foundation Knowledge Seekers, and people who work around us. Why we went in different directions, is because we have no other way to teach. And so, all of you have learned from scratch. And the people, who come and follow the Foundation in the future, when they go through the Knowledge Seekers, they come, they listen to the, let's say, Workshop 202, for the first time, it makes some sense to them. But they go back to 2,000 ... 200, hey go back to 198. I know many people, who started from... listening from the front, on the back they go from 200, and they start from number 1. To see, what has been taught, what they are missing. In so many ways, now we're bringing something from 200, and number 1, all together. 200 teaching, medical teachings, with the scientists. Space teaching, agriculture teaching, they're all coming together, to make sense for us, to understand where we going to take the technology to, to the next step. In this way, there is... this is

very important for a lot of you, to bring part of, as I've done in the past few weeks, of the old teaching, to relate it to the new, That you can see, a coherence ... a pattern, that you could not see, but you understand, the way, we show the connection between the Emotion. Or last week, regarding the Soul of the Man, and the line of the connection, like comparing it to the Sun and the brain of the Man. Now you understand, the slowing of the Fields, leads to the strength you need. Whenever we go to Space, it changes in so many ways, now, we are looking at the brain tissue of the Man, which is a protein based. What about, if we go into Space, where we change the Nitrogen into Potassium, or Calcium, or we go higher up? We work in the region of the same order of the link, but in different order of magnitudes. Where, now that we have a Carbon, Oxygen, Nitrogen and ... what we call, the component of the structure of... it's more or less, Star-Formation of the Cell of the Man. We have to understand new dimensions. With the Potassium, and the same combination, we see this in our structures. We have, lower level. which you have a Hydrogen, Carbon, Nitrogen and ... Oxygen. And then you have another stack layer, which becomes with Sodium. Then you have another stack layer, just about double by weight. Atomic mass, or what we call, by 'Gravitational-Magnetic Field-Strength'. Then you come into Potassium, Calcium. Then, you have a 20 gap, you go straight into Zinc and Copper. What about, the next 20 gap? What about, the next 20 gap after that? Then you see a pattern. Then you understand, in deeper Space, where with the Human brain... we got to the first level conjunction of the interaction. Carbon, Nitrogen, Oxygen, where you go to the Sodium, 20 up and down. You go to Potassium, 40 up and down. You go to Zinc, up and down. Look at the performance of the Copper and Zinc, together. Next, the same, if you look ratio as Carbon, Nitrogen and Oxygen, then you see a pattern in Life, in the Universe. And then, if the Space gap, between the Sun and the Earth, to reach information of Oxygen level, is so many Millions of Kilometres, that the Man, in his brain by absorbing the energy of the Amino Acid, has reduced the size of the brain, of the Man for reduction to a structure of the Emotion and Physicality. Let's say in 5 or 10 cm of the brain, at the lower strength. Now we understand, if the Man gathers the intelligence, all Man come across another cycle of Amino Acid pattern in Sodium, in Potassium, in Zinc level. And above. Now you see the size of the

brain, of the Man does not need to be 10, 20 cm. Then you come to understand, when the strength of the higher order, Amino Acid, what we call, 'The structure of the beginning of life in the Universe', it'll give you a different dimension of understanding, a different dimension of development, and different dimension of manifestation. If the Amino Acid, Gravitational-Magnetic Field has led to a physical body, as us. Of 1,80 m and God knows 20 cm, 40 cm thickness, if you look at it. And a brain Emotion reaction, can you image it? When you be able, to go through the mutation of the strength of the Elements by order of magnitude from present Amino Acid. to Potassium or Zinc level barrier, you don't need that much. But, you have more, in the strength, in level of order of magnitudes, to be able, to do things, that at the Amino Acid of the present time, of what we call, 'Nitrogen level', is not possible. Then you understand, how you can manifest yourself. How you can generate and gain the speeds beyond the Physicality of what we call, 'Nitrogen Amino Acid level'. Then we understand, intelligence, observation of the existence, or what we call, the 'vision and comprehension', changes totally. Open Space of the Fields, millions of kilometres in the Solar System. Brain of the man, few centimetres at the Amino Acid level of Nitrogen. And then, you understand, there comes a point when you mutate, that the strength of the Soul in its Totality, superimposes the structure of the physical Soul of the entity. Then, internally, you exist in comparison, where we externally exist in respect to our Soul. These are what, in the time to come, we will see, by mutation of the elements within the structure of the Amino Acid, within the Soul and Emotion of the Man, we can move our Physicality, not by moving it in, but by changing mutation of the Elements, by strengthening the Soul of the Man, that encompasses the Physicality. Then, Man's travel, in the depth of the Universe, becomes zero time. This is what is come. But you got to realize, there is always a communication, a line of communication in Gravitational-Magnetic Field length, between the Soul of the Man, and the Soul of the physical part of the Man. Then, a lot becomes much more clear. A lot becomes very, very transparent to all of us. That, is us through our Emotion, which decides as I always say, "How much of the banana we are going to peel?" That how much of the energy, we are going to show? How much of this will affect us, in Totality, in our future understanding of the Space, the Creation, and our interaction, within the Universal Community.

Many of us will choose different path of understanding, because we want to be still Human, but we do not want to be, in so many ways, living in what we are used to. There'll be those of us, will adventure and will go beyond. They go through the transformation of the, what we call 'transmutation of Gravitational-Magnetic Field-Strength', to find out, is it possible? And then, when they find out it is possible, they endeavour to go further up. Then, they become, what I call, 'Travelers of the Space', and they come, and back to Human Race, and say, "There is", such a, such a place, with such a, such a, thing." "We been there, and it's so nice." "Sorry, I can't take pictures, because pictures in that point are not Matter-State," "and the cameras, there does not work the same as here." Then, we become to understand. Do we need to trust? Or, we see the Soul, and the shine-ness and the brightness of the Soul, tells us, "This is what we miss." And then, it's for us to elevate our Souls, to understand more of the new understanding. So, in so many ways, if you go back to the original teaching. If you go back to our original explanation of the Creation of the, what we call, 'Fields', within the structure of the Matter-States. That it leads to creation of what we used to call, in the bubbles, in the spheres, 'the empty space' in the center, of the ... rotating reactors. And then, in understanding that, transferring the knowledge to the Soul of the Man, creation of the Soul of the Man, then we see exact combination, the exact work. But now, with this, it gives us a very powerful tool. This power, so powerful tool is for us to understand, how to re-manifest ourselves in the dimension of the Physicality of the Man, when we return back to Earth. Transformation into one dimension to another, it'll become one of the trickiest games for Human Race to understand. Is not, that we will not be able to, but in a way to understand the process, once we learn that, on this Planet, then we can test it, and replicate it, across the Universe. What does initially, this means? Can I have... can I share the screen, please? (RC) Ah, yes it's coming (MK) Yes, go ahead. What is this, means to all of us? It's very simple. If you remember the existence of Sun, in the interaction with the existence of Planet Earth, in interface position of the Fields, that led to creation of the Amino Acid? What we call, Mr 'COHN', has a great game to play. We have and we can not miss this because, in the scientific world, in the present time, we talk about Amino Acid, we talk about Life, we talk about Creation on this Planet. And,

everything with it, is connected to this guy Mr COHN. You got to understand, the four Elements of the Amino Acid in balanced interaction, when, in their composition become part of the egg and the sperm which, in Totality, let's say eight of them, lead to Creation of dynamic processes, which this dynamic process, now tries to find a balance. And in trying to find a balance, it creates within the structure, even it looks physically dimensional Matter division, but it creates a Field rotation. Now, you have a circle rotating sphere of the energy which is not from the father, nor from the mother, in a sphere, but in Totality a new combination, where in Essence, for all to be in balance, it needs to create a central balance point. Which all Fields, from all, have a balance Field connection with this center, what we call, 'the Soul of the Man', even though, each one of them has his own center of operation. But, the beauty of this is very simple. Now, that I have created it, the energy absorbed, I take energy from the environment too, where, this environment is the womb of the mother. That's how I can divide, this is how I can have more. It doesn't come from nowhere. This new Soul, this new center, starts absorbing energy from the liquid, from the Plasma of the womb of the mother, from the environment and through a strength from the Universe. It is absolutely, absolutely crucial for you to understand this. As I said, this picture, if you understand could be one of the most important pictures of all teachings. It's very simple but it's very direct. It brings in the Totality of 200 teachings, if you understand. Because, now that you understand you have created a Soul of the Man. The central energy, that can absorb energy from its environment, that by receiving this energy, it balances back with those who created him, it feeds them and allows them, in so many ways, Division of the cells as we see in the present life, individuals, to divide. that the egg and the sperm come together and then after a while they divide. How come they divide? Because, this central point, what we call, 'to completion of the Soul', absorbs energy, that it becomes the feeder to the physical structure. The umbilical cord and the rest of it comes later, because this has already established and with it, it connects itself to Physicality of the mother. Then, there is a crucial point in this. This is absolutely important for all of us to understand, and it's my wish that you all understand what is about to be said. Because, this is what as a Human Race we have been craving for, we've been

looking for. And, we have killed many things without understanding this. Listen very carefully and comprehend what is about to be taught. Because, if you understand this, you have found the secret to Life in the Universe. If you miss it, you need to go back and understand what you missed in the whole of the teachings. As I just explained, the Creation of the Soul, in the center, allows the absorption of the Fields from the environment of the womb of the mother, that allows in receiving more, for each cell to receive enough energy that they cannot hold onto and they go through the division. This is how the cell of the Man is fed. The umbilical cord is for clearance of the surplus energies that it needs to be, once the physical part takes over. Before that, when the umbilical cord is made, their Life is independent, that's the point the Physicality becomes a leach on the back of the Soul of the Man. But, what is crucial to understand is that, this Soul, now is absorbing from the Plasma of the womb of the mother and the environment, and in return feeds into what led to its creation, the cells. And as they don't and cannot divide them themselves what they have created, now becomes the feeder of them. But, the crucial point is if the Soul of the Man from onset managed to absorb energy from the environment, why can't we do it now? What stops anyone of us, to go back to where we started from, be a free Plasma within the Plasma of the womb of the mother, be a free Plasma within the womb of the Universe? Then anywhere in Space you can feed yourself without the need to terms of Physicality. Then, in this structure, Man exists anywhere in the Universe. Because now, you decide as a Soul of the Man, who want to take as a food as a energy, as a way to live without killing, And this is the whole purpose of these teachings. without destruction. When the Man learns to go back to origin of his own creation, before the leach of Physicality attaches himself to it, that Man learns to exist in the depth of the Universe without ever looking as another energy source, as a life food, Then we become the giver of energy, we become the giver of Life, exactly the same way as when the center Soul was created it start feeding without taking Life from them. This is the change of the position of the Man. This is the change where we understand, now we become the creators. This is where our Soul, when is freed from our physical condition, in the spans of the Universe becomes the feeder, becomes a Star, becomes a new life in the span of the, what I call, 'Life of the Universe'. As I said

before, "we never knew we were all Nano-coat... Nano makers when we cooked the first meat, when we start using a Chinese wok." Now you understand, in essence within our Soul we have the knowledge and in so many ways, goes back into the teaching of past four or five months, that I always said, "the brain of the Man has no connection with the Physicality of the Man." Because, even today the brain of the Man, with the Soul at its center, is still feeding itself from the environment of the Life and proportions itself with the Physicality to accommodate the Physicality for its physical Life and the physical Soul of it. So, now you understand, even today, as you think, "I'm eating, I need the food to survive", in fact, your brain is getting fed by itself from the energy, Plasmatic Fields of the Plasma of the womb of the Earth, the womb of the Solar System, in the womb of the Universe. It's for us now to tap into this, to understand this, then we become independent of time, position and the strength. Then, we become independent of Physicality, then we decide when and where to manifest ourselves in the terms of our own condition to create the balance position with the rest of the entities, Souls in the Universe. I bless those Souls who understand this knowledge. Because, then you have matured into understanding more. Then, you comprehend fully that, from the point of inception in the womb of the mother, we always knew how to absorb energy from the Fields of the Universe and became the feeder from what we absorbed for the physicality, for the Soul of Physicality to take shape. And, this is the way you convert yourself in the spans of Universe from the, what we call, 'the Plasma of the Creation', to the Plasma of Physicality. Then, Man does not need to kill nothing. This is the knowledge which was given to Moses and he did not deliver. Trust in the Soul of the Man. Because, is the Essence of our Creation, and this repeats itself anywhere in the Universe. Then, we understand we do not need to take energy as packages to stop, or to absorb another cycle, be it a fish, be it a lamb, be it the tree, be it the fruit or whatever. Now, maybe you understand why we thought about the gases at the beginning, then we taught about the GANSes. Now, you understand the essence of teaching of the GANSes, was to show in the Totality, what is the Physicality of the Man, how the Physicality is created. How we can lead to the creation of our own Physicality anywhere, any point in the Universe. If we manage to create the Soul of the Man to become the center, that he absorbs

what the Fields of the Universe does not need, that the... the balance of it is transferred to the other Souls, what we call, 'the Soul of Physicality', for them to manifest themselves. Then, you understand the total teaching, "We are here to serve and not to be served." Because this is the purpose, this is the only Essence of the Creation of our Soul. But, collectively we receive that collectively we can serve, that collectively we are here to repeat the same process. Then you understand, in Totality. Life is a mirror image of the existence of the Creator. Because, that's what it does, that's what it do. This is how, if we go back to the teaching of the Keshe Foundation, with all the Knowledge Seekers, we all came, we were served knowledge, and by understanding the knowledge, we start serving the knowledge in a bigger way, that more could be served. We received a gift and that gift, we gave you the gift in a bigger order, to those who are ready to receive. This way, Man is ready to enter Universal transportation, communication and existence, without ever leaving this Planet, Because, the Soul of the Man carries all the information needed, as a Soul. all the strength needed, to be in communication, or manifest itself in the... any dimension according to the strength of the Wishes of the Soul of the Man. This brings us to a very important point, and my Wish and my desire is, that no Man will ever abuse this, and as my command no one shall be able to, even if they try. Now, that you understood this... Now that you understood, this, a new game's come into play and that is, if you remember in the GANS balls, which you rotated, where we put the GANS of Zinc or GANS of CO₂, or GANS of CH or a GANS of Copper Oxide? When we rotated it as a given speed, they transferred their energies to the center and they took a physical position, with the liquid transition. Where, in fact, if you look at it this is the Soul of the Man, this is the brain of the Man and, this is the Physicality of the Man. But, in interaction with physical structure of this Planet, Gravitational-Magnetic Field, both Inertia and Gravity, this skin has dropped to create its own balance, which leads to the shape of the Man. But, if you look at it, in essence the brain of the Man does not needed to change. Then, if we go a step further in the knowledge, and in so many ways, go back to the Core, which we made, and we put the GANSes in it, and in so many ways, we created different dimensions of it, then, I have a very big surprise for you, and that surprise might shock many of you. All of you who made all this GANSes, from

the CO₂ to Zinc Oxide and the rest, you saw something very funny, and you called it Amino Acid. This time, in the new understanding of the time, what about now, instead of loading your reactors with the GANSeS, or liquid GANSeS of the Matter-State Plasma, with the Amino Acid GANSeS. Now, if you understand this, you understand Man can create life, anywhere in the Universe. Because, in so many ways, as you were not all expert, when you took the GANSeS, you brought some of the Amino Acid with you in it, but you are not aware of it, in all my teachings I repeated it. Now this time, if you take the Amino Acid, make GANSeS of the Amino Acid of the same, you can generate life. You become the creator, of new cycle. Which in its rotation creates a new Soul. And this become the way, those of you who are in Space technology physical dimension, you will control through Emotion, through non tangible line of communication, through your Soul, the craft. This knowledge has been hidden from Man, because Man was not ready. Now that we have made a Peaceful Man out of the Human Race, according to our wish, Man is ready to understand. Because, when your Soul is freed in the spans of the Universe, in conjunction with the Amino Acid of the environments, which the Soul of the Man will come across to, it'll manifest itself in the Physicality of the dimension of the environment of the manifestation. Now you understand. This Soul is created out of the Amino Acid. Not out of the Matter-States, but with interaction of the Amino Acid with other elements within the Atmosphere of this Planet, has dictated the split of the shape, to the Physicality of the Man. Many of you will test different Amino Acids in your dynamic core reactors, but, be aware of the Emotion which touches you, not the Physicality of the core. You got to understand, rotations over ten to twenty rpm, is even too fast. Those of you who will go to rpm two and a half thousand and plus because you have to have confirmation of Physicality, look at the rotation of the combination of the physical dimension of protein within the womb of the mother. Some rotate as high as 100 to 200 thousand rpm. The faster is for the weaker, the slower is for the stronger. Because as you go slow, you can absorb all the energies. When you go fast, you don't have, no time. It's very simple, I explain this in the way if you are a marathon runner, you run as fast as you can, but when you come to these bottle, tray's where you have to take your water, if you go very fast, it's very hard to pick, if you go slow you can pick as many. To be

the Soul of the Man, to understand its operation, and to be able to operate, you have to be the turtle, which runs as a rabbit. But, in different dimension strength. Now you understand, how important the teaching of today is. You could not come to this point, if you didn't understand the teaching of past 200 or of past four or five years. Is the accumulation. Then, you come to understand something beautiful. If you take the hand of the Man for example, then you'll understand something interesting. You remember the beads? It's the Totality, of Gravitational-Magnetical. We all look at the physical part, we don't look at the Field part. Then, if you understand this, you have found the secret to the Universal energy absorption. Those of you who wrote to me, very recently and you said, "I do this and that." Then I said, "Yes you're correct." Now you understand. If you look at this, in so many ways, is what we showed as dynamic system, on the platform when Marco made the system in Des.. in Barletta, and I said, "This will become the center point of the education for Space Technology." Now you understand. So, now we move to a new dimension, that us, become the Creators. And with the dimension of the Amino Acid of this Universe, this Galaxy, this Solar-System, this Earth, gives to the need for, ten fingers, and two legs and a heart, where... where we change to Amino Acid of the new dimension, because within the center of the Soul of the Man we have the full spectrum, we'll manifest ourselves as the Entity of the Universe, at the point of interaction. "I made Man in the image of myself." Depending where the Man is, and what image he wants to manifest himself as. Then, you come to another point, which is very easy. You remember? When you release a given strength, then here at this point you manifest yourself as one thing, and here with a different strength than another. Then you understand, the Emotion of the Soul of the Man, dictates the manifestation of the Physicality of the Man. Now you understand those of you who said, "What are we gonna with these Amino Acids?" Take the Amino Acid from Copper Oxide, take the Amino Acid from Zinc Oxide, take the Amino Acid in a combination of either side of the structure of the two, and then, add Hydrogen to it. Then, you shall see how you will manifest yourself, for example here. Because, the system which you start, will become part of the Structure in combination, in interaction with the of the Soul of the Man. The Dimension of the Physicality will be out, and the Man will travel and live through his Soul. Which

means, the everlasting Peace on this Planet, has started. Because, now we reach the Soul of the Man, through his own Creation. It'll be, very scary point for those who have a wrong intention, because they will lose their Soul. Those of you who attempt, to make of this, make sure, you're not, and I mean you are not... stealing, and lying, to your own Soul. Because now, you've gone to play with the Essence of your own Creation. And you remember what I said, "Those who have the wrong intention, will not be able to board the flight," "because their Souls will not allow them, because it knows," "it has a wrong Intention, and with it, it will be its demise." "I walk off because, I want to live with the lie and the cheats, I've lived on this Planet with." It's very much, the story of what I said before, "The Lion's mouth, on the wall in Rome". You trust to put your hand in it, and you know, "I've done nothing wrong, and I'll take my hand out." Without the fear of what's going to happen. When you have that fear, do not even start, because your Soul tells you, "Red light." "You're done so many wrongs." And in that point, those of you who get to reach the point, The Soul will shut itself down. Which means, the end of Physicality. The day of Judgment, when there shall be no God to Judge you, but your own Soul, against your own Action. That's why we'll see, not many people, will travel the span of the Universe, with us. Because, they're scared of that mouth, to put their hands in, because they don't trust the conduct of their own Soul. We will not ban the Man to enter Universal Community, Man, stops doing it, because of no trust is in own Intention and work of Physicality, but not the Soul of the Man. As I said, "there is no Theology in the world of the Science of Universe". Very simple. You took the Souls, you made the Dynamic Creation, of all those Ganses and the Amino Acid. If you look, all these Amino Acids, which you gathered, in the Dynamic Reactor, is a copy of, the egg and a sperm and the Soul of the Man. This time, instead of bringing the egg and the sperm together to bring the Pattern Mosaic of proteins, now you have brought into game. And in it, has the Gravitational-Magnetic Field GANS of, Copper, Zinc. And, if you produce Zinc and Copper in different ways, then, different dimension of the Structure of the Man, in different part of this Planet. So, there's a Zinc, in one part, higher, Magnesium in other part makes the Chinese looking or make you African. But in the Essence, the rest is all the same. Now, for the first time, Man learns how to Create, of his own Essence, copy of itself in the Dimension of

Physicality and travel the span of Universe, through the Strength of his own Soul. I wonder, if you like to eat yourself, let alone another? How many of you have seen many Cows getting absorbed from the South Pole and many Elephants coming from the North Pole? That, because the Earth absorbs what it needs in the Field-Strength, and transfers that to the Existence of Life within its surface, equal to what is needed, to create balance on itself. Now you understand, even why we have different creatures in different part of this Planet, and how it comes to be. But in Essence, all have Amino Acid protein as a base. This has been one of the mysteries of Creation, not given to Man. Now you have it. And my Wish is that, "No Man will ever try to abuse it". This is a tool of Peace... This is the ultimate, weapon of Peace. Knowing, that I can exist, I can create more beautiful things, that in myself, that the others can enjoy. It's not the sacrifice, is serving through the Soul of the Man, in a way, in that the Soul of the Man, will serve in the womb of mother, to gain Life. This is what these teaching are about. In so many ways, we are reaching the Pinnacle of understanding of Totality. Now, when you use the Amino Acids of different combination of Copper in different tanks you created or Zinc or whatever, understand one thing, "I created them, so they are connected to my Soul." "It's me who puts them together, and it's my energy which is part of it." "So, is connected to me." This is how we control Space Reactors in its deep Space physical conditions. Where, I keep on saying, "That the present Computers, and even the faster ones, are not as fast as the motion of the Soul of the Man, not even when the thought and Emotion of the Man, in strength". Then you understand, according to Intention of the Emotion of the Soul, Man dictates the speed of his travel, in the span of the Universe. And, then in the interaction, with the condition of Fields, of the interaction of the strength, dictates the manifestation of itself at the point of the Universe, where He decides to release, or as I call, 'Peel the banana', to the level that brought strength, more is expose, that it can interact and the interaction of the Fields of the Soul of the Man, with Gravitational-Magnetic Field of the environments of the destination, leads the Creation, of the Soul of the Man at the Strength of the environment, in the Physical Dimension, or what we call, "Soul of Physicality." That's the way you manifest yourself. In the teaching of this morning, past few minutes, I have opened the secret of Creation to Man. Many of you will never

understand. And those who understand, have found the Key into Universal Community. And those of you, thoroughly understood the Technology from the beginning, then you understand, the Physical Dimension of the Existence. As I said, "I shall never make the mistakes of the Prophet of the past," "and cross the line." Because, I have already owned the Soul of the Man. Which is mine. Not the others. And if I respect my Soul in the dimension of Physicality. I will do the same with the others. And I create a gap distance that they can have the pleasures of existence. But not stealing from. Or not to be stolen from. Understand these points very clearly. Then in a way, I have given you another key, to become Man of Universe. Those of you who dare to test the Amino Acid. Be aware, of the physical dimensions, of the existence within the physical Soul of the Man. You'll understand soon. But make sure, the tongue of the Man does not speak another language, to the Emotion of the Soul of the Man. God help you. You cannot shout, "I'm a Man of Peace." When we create the dimension of your Soul through your own Amino Acid and it says, "the intention is not." This is how Man will be recognized in the depth of Space. That he speaks and lives, and thinks, one and the same. Not out of fear, but out of understanding his own existence. We are not preachers, we are Scientist of the Universe. And the Man has to learn, the true knowledge of the Creation in the Universe, and this is part of it. Those of you who develop and understand this fully. As I've said before, "you become the captains," "for those Souls who do not want to cross the physical line." And, you do not become another God, but they'll understand, you are ready to serve through your Soul, that their physical Soul, can see the dimensions of the Universe. That they can trust their Souls to you, with you, that you can bring the strength, that they can see more of. Because, each one of us has a different strength Soul. And it allows us to see a better spectrum. We travel the depth of space collectively, because then, we see more of, it allows us to see. Would you like to eat the same food, morning, breakfast, lunch? Day after day, seeing the same thing, day after day, or you say, "You, I serve you with mine," "that you take the pleasure, without expectation to receive any." But in that process as they get elevated, they create the vortex of the Field flow, and they open their side to your side. This is... extremely important, to understand the teachings of this morning. Listen to it, many, many times. Many, many times.

Because if you, you think you stood, and understood all of it with a first time, you are still in the same dogma, as you have been for thousands of years. Comprehend the essence of it, not the word of it. Understand the process of it, not Physicality of it. Now you understand, how every one of us can create a replica of their Soul of itself. How every one of us can be in the essence a Soul, where we do not need the dimension of Physicality. I Wish many of you understand this. It makes my job easier, to transport, or to carry the Humanity across this threshold of animal behaviour. What I said, "one of the ingredients which was missing from this Planet, that everything behaves so in a animal behaviour, was one ingredient." And that in reality, is for the Man to understand the power of his own Soul. And, that he is in charge, and he can give to change the others. In different shape and direction, as they wish to accept, and as is available, they will change, accordingly. When you kiss me and I bite you, how many times can you kiss me and I bite you? Till the energy of the source of your Love to me, changes my bite to kiss. And in the understanding, we feel ashamed for what we done. How many times, as Man of Earth, we have gone into, talk, shout, cry? And then in understanding, how they cry? When you reach that point, with the Essence of your Soul, you have matured to enter the Universal Community. Not of, because of crying, but because of understanding the Totality of the Creation. Why have I been biting other lives for me to survive, when the Love of Creation was within me? Shame, to be, in the body of the Man. Now you understand. Take from my Soul to elevate yours, but don't steal from it. Understand the process. Comprehend it's potential, and leave through its operation. We could not teach more. But we open more knowledge in different aspects from now on. But in fact, those of you who've been trying to understand your own Soul, and not to eat, and not to do this and that. Remember, you absorb the energy of the, Plasma of the womb of the mother and the Universe to create the Physicality. It's the same Soul, it has not changed. It has submitted itself to the pain of Physicality of the dimension of the manifestation which is the Earth. Become detached from it, and become that Soul who started the creation of physical life. Then, you understand how to manifest yourself, in different point of this Planet. Inside or outside, or on it, or anywhere in the Universe. Then do we need the Jumbo-jets? Then do we need to say, "I'm calling you, I'm coming to

see you"? Or, "I'm here in front of you," "would you like me to manifest myself in physical dimension," "that it gives you the pleasure of seeing me." Not, "I'm here, take it," "you got to swallow it, because I'm here and I do what I like." I manifest myself with you, in front of you, if my manifestation gives you the pleasure of elevating your Soul, with the pleasure to give to the others. We should Se... change, part of the words and writings. It says, "I made Man in the image of myself." Change the "Man" to the "Soul". And "myself" to the "Soul", too. And then, you see yourself and how you interact with the others. As I've said, "There is no theology in the work of the Universe." It's understanding in the process of the creation, in the Essence of the Creator. Not the Creator in the Essence of Creation. Work to the point, that collectively you can create these Souls that collectively, now you elevate the Soul of the Man through the use of the protein, Amino Acids which you have collected but understand, you all have to have the same Wish. In the intro of today's teaching, you see a ball hanging in the middle of the table. Those of you who've been with me or been around, you know what that ball is. I created that ball and I hung it in the center of the teaching in the first Knowledge Seekers. And I said to the Knowledge Seekers, around the table, "When you Unite in the Soul and understanding of the Wish as One the ball will shine." Because, the Fields you release through the pleasure of acknowledging, giving knowledge to the other person on the table in interaction with this ball in the middle which carries the Essence of Physicality, as its Copper will create the Light in the Manifestation in Dimension of Physicality of this Planet. And, as we know, it went black, because the Intention of ... one was murder. Understand, if your Intention is wrong, it becomes black. If you see black in your reactors, when you try such a thing, understand you have submitted your Soul to the new dimension of understanding how falsify your Intention of wishes of a spoken is compared to what has been sent by the Soul of the Man. We call it 'a lie detector', in the present time. "Thy shall not lie." Is one of the commandments to Moses. You can not lie to the existence of Dimension of the Physicality Soul of the Man in comparison or interaction with the Soul of the Man. Black means taking. And when it's black, it means; does not allow the others to receive. So you become, not only a liar but you become a thief and stealing. And this, you by yourself, block the elevation of the Soul and

Transmutation of the Strength to a new Dimension to become the passengers of the Universe. As I said before, and is in the writing, "No Man will take the crown of kingship." Because this means, "I have to steal" and no one wants to be, those of the true servants, to be in the term of the Physicality to steal, so, there shall be no king, as we are all equal. Implem... such a Technology has a lot of applications. Implementing it the correct way, brings new implications. New way of living, new standards, new understandings, new comprehension of the Totality and takes seconds to do. Not thousands of years to go through Theology schools to lying to analyze every word. There are no languages and there are no translators in the Universe. Now, most of you understand the purpose of the teachings past... 4 years. Now you understand, it wasn't the purpose to make the Nano-coating, and the plates and the GANSes. As I said, "I brought you through the magic path." We were looking for that protein on top. For you to understand, how Man can create the Physicality. As I said to you, "I'm a perfect teacher, and a beautiful magician, it's right under your nose and you don't see." But, those of you who endeavours to go to this path, understand, clearly understand, you are playing with the fire but you are putting your own Soul on the stool of judgment. And is you who judges himself. There are no 'Gates of Heaven' but in fact, if you are True to yourself no lying, not stealing, you will enter the Dimension of the Soul of the Universe. Then you decide how you want to manifest yourself. It's in the writing of Bahá'u'lláh bless his name, he says, "Pray for your children twenty years before they're born." "Is that they receive the Soul of perfection." "That they're already elevated to the Dimension of the Creation of the Creator, not the Physicality of the Man." Any questions? (CdR) Good morning Mr Keshe. It's Caroline. (MK) Good morning Mrs Keshe. (CdR) There a lot of people which have not clearly understood what is Plasma, what is the Field of Plasma. Apparently, there are a lot of discussions going on about Plasma in... and among the Knowledge Seekers about the Field-Strength and what Plasma really is, as a Field. And I think this is missing part, if it's not understood. (MK) Plasma is a collection of dynamic Fields which only attracts the strength which itself needs to confirm its existence. And at the same time is what I call, 'a washing machine' to absorb those which are available and they need refining to be available to the others, to be able to complete the operation of their Souls. So in fact Plasma is nothing but

the dynamic combination of Plasmas... that in rotation, in trying to reach perfection, that it feeds itself to become balance, it creates dynamic motion. Or, what we call, 'spherical dynamic motion', of itself. If you look in all my teachings, in all, even in one of the videos which we have, in my initial teachings, it's two Fields... they move together. It's two Fields which, if you go back to it, you remember, it goes like this and then, one turns as the other. Why do we use this picture? "I am of a higher order and I want to feed the lower strength of you." "That, by elevating to the higher order you feed me." "Or, you give to the others, not necessarily me because I know, I receive what I need." The choice of arrows, even in our teaching in our books, has a meaning. Higher strength to feed to the lower, that in that process I elevate you and we find balance. In that process, we create the dynamic motion of a Plasma. So, a Plasma is a dynamic Field. In a way, a dog chasing his tail. That, in that process, the higher strength, in trying to feed the lower strength, and at the same time the higher strength of the... Field you're trying to feed, its feed itself, others If we go into detail of these Fields connection, it's very easy to understand, because I've explained this, years ago. I was explaining ... things to my son. You see, you look at the Field like this, but in fact if you look at it, it's like this. Each one of these, of a different strength. Is the same with this. Carries, different Strength. In a way, when this tries to catch up. This does not fit into here. In one order, might fit into here, or in another order, might fit into here. And, is collective in a way, if you look at it. The tail, if you look at it that way, this, is trying to reach... for example this one, to feed. And this is trying to feed this one. And in trying to do, they create the speed of rotation. While this one, is trying to match to this. Lower strength, to the higher. and as we said, higher always tries to reach the lower and in that process, it creates a turbulence, a motion of the flow of the Fields . So, a Plasma is created. But, you have to understand, this itself is a target of others who grab this Soul, this strength or they have this strength or, they might have this strength. So, totality of all, and then this trying to feed this one now is received more, it creates a dynamic motion. Then, this is what we call a 'Plasma'. Collective interaction of the Fields, that their interaction, leads to the giving, not receiving. But in process we receive that we can give more, to create dimension of existence. Any other question? (CdR) I got another question, regarding Plasma... Field. Is it possible...

to.. visualize it? or... (RC) ... Excuse me, that was a question that came up ... in the Keshe Plasma Reactor Group, ... yesterday, which was "Is the Plasma invisible?" to start with. Do we... is that the definition, part of the definition of Plasma. "Is it invisible?" And then we were confused of, "What is the Fields vs What is the Plasma?" (MK) If you look at it, now you know what a Plasma is, you got to see all these arrows, and, a Field carries a full spectrum of all the strength of it, you got to feel a Plasma, not see a Plasma. In Space we don't have eyes, we don't have lips, and we don't have anything else. We have a dynamic Plasma that, what I said in the teaching, "This is the Strength of the Emotion", for example, of our Plasma. Here...This is the Strength of vision. Or, it's the Strength of the presence. Then, when you go in that dimension, you feel the Emotion, the different strength which the Plasma carries.... and relate that to the Feeling. Increases the vision, "this is... this looks so beautiful." I always said those who know me, "I carry a twin zone." The twin Soul with me has been with me for millions of years. Because, I feel the existence of it and has a connection with it. The Sun has a twin. Without it, cannot confirm the existence of itself and the dynamics of ourselves. At a point of Essence of Creation, we only can confirm our Existence, in the presence of another... Otherwise, how can we confirm, that we exist? Our twin Souls, are the confirmation of our own existence, but in the dimension of Physicality. Man has chosen a physical life, as a twin Soul to the Existence of his Soul. And, this is what it is not understood. Now you understand. Does it need to be physical, to confirm? Or, goes back to the teaching. That, through the Emotion of the Soul, "I confirmed the existence of Physicality of it", which is, the physical entity at the point of manifestation. So, "Do you need to see a Soul?", or "Do you need to see a Field?", or "What this Strength of the Field, gives me the Emotion of?". There is one thing, in the full spectrum of the, Field of the Soul, fortunately, we don't not see things like sadness, because it's... it goes when it become so low in the Matter, by that time, you have already passed the direct... dimension of the Soul So, what we call, 'taking Emotion at the Matter level', does not exist in this dimension of the Soul of the Man, as such. Unless, we go to much, much lower in the back end of the Soul strength. And then, when it becomes more Matter-State, that in this end, we feel death, physical dimension of strength. Then, the Soul feels it, but because of the high order strength of

itself, is there, but does not create it, because it doesn't need it. And, it never feeds it... because is part of his structure. Because when he feeds it, it elevates it. This is what we need to understand. This is what we have to understand, from the process of the work of our Soul, and the Fields. (RC) ... Mr Keshe, could you explain more about "Feelings" , like for example you mentioned the eyes, and we can't rely in our vision in terms of seeing Fields, so we have to rely on Feeling the Fields. Now, do this Feelings, are... are they originating in the Physicality and limited to the Physicality? ... (MK) Not really, (RC) and that, how does that work? (MK) Not really, ... in the level of the Soul of the Man, we still see, we still feel the Presence. It's very much like, a bat. Is blind, but it know where the... where the other... other animal is. It does not see with a physical eye but there is a mystery, even in that. In the... world of biology, or science of animals they say, "These animals are blind, they don't see." but in fact they see, but they see at a strength that the Man has not realized and he calls them, 'they fly in dark'. A bat is never blind, even if he doesn't have a eye, he still sees through the Field-Strength of itself. It would have been no... it has no sense, to create the eye which has no vision. And we hear it, in the world of scientist today it says, "These animals are blind" Then nothing God created that it has no use for it. Our Soul does not create anything which has no use for it. So, when a scientist says, "These animals are blind" they're not blind, it's just that we don't have the tools to see what they see. And they say, "They see ultraviolet's or whatever" or "They feel through the noise they send". They see the vision of their eyes, but we do not see that strength. Otherwise, was no use to create eye for the animal. And, they communicate through the Soul of themselves that it ... brings manifestation of Physicality. I was watching a program with ... recently, it's called, The Blue Planet, done by BBC ... I love the programs which ... David Attenborough makes, it's... even it's written for him but the way he explains the Emotion of the knowledge, it transfers a lot of feelings and understanding but he misses, always, the Soul structure and he looks for physical interaction. In this new series he's released, a number two ... Blue Planet #2 he has a section where he shows a pack of lions, lionesses, go hunting. They go to hunt a giraffe and... the strange thing is, the head lioness is something like, half a kilometres ahead, it knows that the giraffe will come down this path, directly in the line where he's... she's waiting

for. Then, you see the other 4 or 5 lionesses have positioned themselves, in how to push this giraffe into the direction, narrow point of the lioness, head lioness, that she jumps with precise accuracy to the neck of the giraffe. You have to understand this is a... huge space, hundreds of kilometres, giraffe can go in any direction. The strange thing is, us, as Human being, we call ourselves, 'The King of the creatures'. What a misguided Man! We don't hear the lionesses to shout and howl and give each other instruction. We don't see them to give orders, "I'm going there, there, there, there." We see no cavalier language between them, sitting down setting up a strategy "How we going to do this to get the giraffe?" And then, we call ourselves, the 'brain' of the creatures on this Planet. They speak through the sequence of understanding through the Emotion of their Souls, at the strength that none of us understand, at this point of time. Humans are so isolated, that if we see and wish to see our son and he turns up in front of, "Oh I wished, I don't know, God is with me." But the animals through that strength plan a strategy. They see the overall like a satellite on top, the sur... their whole environment, where this giraffe might go, whose got to be where, and we haven't seen them sitting in the war cabinets planning it out. So it means, us, as Human, have not even reached the level of the animals, which we call they are 'animals'. We are the animals, we don't even understand that part yet. And what, when he comes says, "Oh it was my vision, it happened." Do we need the eye to see? Or, have we chosen the eye to lie to ourselves? To steal. If animals are so advanced in understanding, not only their physical position in respect to each other, they understand the whole geography of the land. They understand the motion environment, we had to have Newton to understand one force being exerted on an object will go in a given direction. The animals in their language they know, if I give this Soul this push, the Physicality will follow, this is where I need. We haven't even reached the animal understanding of the communication of our Soul's visualization of the environment and then we rely on the eye, which fools us all the time. We have brought ourselves so low, that we are happy with the lowness and then it's like a peasant, a man who has nothing and he claims to be the King. Didn't they do that with Christ, bless his name, and they put a crown of thorn on his head, "You call yourself a King, and that's all you deserve." Isn't that the Truth about the Human being, not the

Christ? We are nothing and we claim to be the king of animals. We need a satellite GPS location, to see where our car is, and what is the terrain where we have to turn. These animals know the terrain, they know where they have to be and how they have to guide and they even assess the Emotion of the giraffe, "it'll go that way." The lioness does not move a meter, stands in his point, and the... giraffe walks into that point, precise planning position. American need ten drones, and fifty satellites to get that giraffe, in that point, if they can guess it, he's was gonna to be there. Otherwise they miss it ... the drones are somewhere else. This shows Man has not even understood the level which the animals understand. The symbol of the thorn as a crown on the head of Christ, is the symbol of the Man in the dimension of the creation, seeing himself as a king, not the Christ... bless his name. Claiming to be the king. This is what... do we need the eye to see or the eye, having it has blind us, reduced us, to more to be attached to Physicality, that without it will be better because then we use our Soul, our Emotion of our Soul, in detection of the environment. When you watch this ... programs like ... the Blue Planet and the cameraman shows you the reaction of animals and whatever, from now on, become the Soul of the animal. And look at it from the Soul, not from the Physicality of the position. And then, you understand how much more we have to get to know the work of our own Souls to even reach the level of the animals, forget about the trees, what I call, 'Vertical people' which are, even are ahead of that time. We have a long way to go and these teachings are a bridge gap to bring you above that you can see the others, then you don't eat the others, then you see the operation. Then you see that, that giraffe, in essence of his Souls is not want to be there, because this time I'm, I'm going to be available for a herd of lionesses in the future, but today my Soul is not mature enough to the level I want to have, I'll find a way out. If you see the giraffe kicks, in a way, we kick ourselves into the run, that we can go further to mature ourselves. So, do we need the eye? Not really. We need the vision of understanding. I watched these things, so many times over years, and I say, "How stupid the Man is and they think they are the head of everything." And so many times, I always explain it, with the Physicality of Christ, bless his name, and the thorn of the crown, In fact, that thorn of the crown showing the stupidity of not being a king, is for the Man and not for the Christ,

bless his name. Is for the Man in the dimension of Physicality, which have not understood the Truth about the Soul of the Creation of itself. A lot of Truth is hidden in the mysteries of the conversation of the Man, because otherwise he will never understand, at least this way, he is attached to it, till the point he understand, and maybe, for the first time, Man understands, why the crown of thorns was ever put on the head of Christ, by symbolic, is for the Man not for him, that you're nothing, and you think you're everything. The eye of the Man has fooled the Physicality of the Man, not the vision of the Soul of the Man. Any other question? (RC) ... Mr Keshe I think some people are still having trouble with that idea in the sense of the question from Jan, "If the Soul of every Man, is a part of the Soul of the Creator and of the same order, why would the Creator allow division of the Soul of the Physicality to manifest itself as a lying or stealing ... situation?" (MK) Because then, the Soul of the Man sees his weaknesses that he can cover it, because it understands the Totality. You see you walk down the road, or you sit on a table with a woman, she's married, or with a man who's married. You have a feeling, you create a feeling through the Soul, understanding there is, you would like to extend it to the physical direction, but there is a consciousness of the Soul, "I am married I have given my Soul." You both see the desire of Physicality, but we both understand the strength of the Emotion of commitment of the Souls. How many times you've been in this position? Then you understand, it's the Man who decides to cross the line of Physicality, not the Soul of the Man. Then, when you cross, you steal, you take from another Soul, which is already shared with another, Man has to understand most of the understanding of the work of the Soul, in his interaction with his Physicality with the others and understand it in full. As I've said, "The reason why cross... why Christ was put on the Cross," "was because of sharing Soul while his Soul was committed to one." This is very harsh for Christians to understand, but this is the Truth, is... read the Torah's written part of Jewish history, The True Life of Christ. You call it punishment but now, it was the balance of the position. But, it created itself in a Essence of Creation of understanding. This is what I was explaining, very recently, in past few days, about the manifestation of Christ, also called resurrection, to Mary as a new physical dimension, where she only recognized the Soul of the Christ, not the Physicality of it, It took a lot of

convincing for Mary to understand this physical new life, is carried by the Soul. So, in a way, as we go to Mars and we manifest ourselves as a Martian, Christ resolved, managed to manifest himself in a new dimension on this Planet the way he wanted, because he was aware, that Mary will fall in Love with that Physicality the way he fell it with the Soul, and he manifest himself in that direction. We wait to go into a new Dimension, to manifest ourselves in the condition of environment, Christ did for the Love of Mary. There is a lot of deep understanding, in the true Essence of the Creation with the Life of Christ, bless his name. Man is not matured, they just looks at the Physicality. These are what we have to understand, and because people don't understand, it has become mystique. Now you understand there is no mystery, now you understand the Essence of work of your own Creation, create, with what I taught you today, the strength of a Soul of the Christ, you shall see the Soul of the Christ and you understands his word. And then you'll see the Truth, you don't need no intermediaries. Today's teaching was part of that, and gradually in the future teachings, I'll get you to there, because now you understand the Creation, and the strength of the level, where one of these arrows I showed you, carries the strength of the Soul of the Christ, which carries within the structure of the Soul of the Man, and you will hear the voice of the Soul, it depends on you if you want to translate it to the voice of Physicality that. "I heard!" Not after the Emotion of it. There is NO Theology. I have taught you in a way, that you become aware of the total Physicality, and the operation of the Soul. As I said, "Today's teaching is very, very important," because it teaches you, for the first time, how to absorb energy in the span of Universe, that, you decide at what point, to give so much of it, to create a Dimension of Physicality, in respect to another environment, very much the other environment that you manifest yourself is the Soul of Mary, and the Soul of Christ which gives to manifest itself, that Mary sees the Soul of the Man, the way she likes, and a committed, not the playboy of the past, through his Soul and his Physicality. It's very, very harsh for those who have believed in fallacy, to accept, "what a load of rubbish we listened and we believed." But, it was no choice. We were shown to be the fact. As I said in my talks of the past, "I shall return the Stone of Vatican back to Colosseum." Because the True Essence of the knowledge of Christ will be known by the Man, there is no need for house

of false messengers. Committing Human Race to Peaceful Life, needs the understanding of Peace by the Soul of the Man, not by teaching. Any other question? (RC) Well ... (AB) Good morning everyone ... this is Azar. (MK) Good morning Azarjan (AB) ... Mr Keshe good morning, Mr Keshe ... when we talk about the ... cell in the womb ... when I was growing in my mother's womb, and my cells were dividing, and differentiate into different organs, ... my Soul was feeding my Physicality ... (MK) In a way, it's a energy source, you need. (AB) But then at ... (MK) How, how do you divide you're a doctor you're a medical person, you're a dentist, you've been through the cycle of education of Physical life. (AB) Yes, of course. (MK) ... Where does it come the division? Where does the energy come, for it to divide? Stand still and ask yourself one question. You talk about the division of the cell, the rapid division of the cell from 2 to 4, whatever. How can you divide and be still of the same size and dimension, if you don't receive energy from somewhere? No, nothing transfers, part of the cell, itself absorbs energy from the liquid of the womb of the mother, but partially due to dynamic structure of itself, creates the center point, that it absorbs energy through itself of a higher order, and then, in reducing dividing it, it receives it back. It's very much like Neutrinos which go through the Earth, then they know... manifest themselves somewhere else. So, this Neutrino of energy which comes from the womb of the mother, and the environment, going through the cell of the, whatever, ... sperm or egg, which is trying to divide, to amalgamate to become more, slows down and it gets absorbed in this new higher order which is created, by us. Or by the cells. (AB) Mr Keshe, I... I... I understand that, the only thing I wanna know, because at one point, when we're born, ... we, the Soul doesn't feed the Physicality, we ... steal from our Emotion to feed our Physicality. (MK) No that's, that's when the Physicality come.. No way, no way, you're so wrong. Nothing is stolen. (AB) So, when we, for example, for example I... if I... if I feed my Soul, ... my Physicality with my Soul, at this point, then I should be okay, but sometimes we feed our Physicality with our Emotion, which is not the correct conduct. (MK) No no no, we don't feed by Emotion, we interfere with the feeding line. We don't feed it, we interfere with it, we don't feed it. The Soul... (AB) At what.. (AB) At what age we do that, I mean I wanna know what age.. (MK) On the point of inception. (AB) I see. (MK) From point of inception. We create, it's

just because it's, you see... If you look at the protein structure, with three and one, which we call it the, we call it in our teaching because that was a easiest way for me to be able to explain it. If you look at the star formation, you have 12, you have 14, you have 16. Yeah? And in that process, you have one. in all of them in creating Fields to balance among themselves, then, they try to feed the other, to collect, collectively, they create a Field, a position, where collectively they find, "Okay, instead of going everywhere, we put everything in the bank," "and everybody takes from everything" But this bank always gets drained by this. So, it creates a flow. If... if the doctors of today, scientist of today, look at the Magnetic Field structure of our Amino Acid, they'll see this shape. Because, these are not static, they are dynamic, they rotate, and at the top the Hydrogen trying, it creates the Spaceship here. The shape of what we see is a dynamic flow of Fields. So, in reality, when you put two of these together, now this imaginary, what you call it, 'Balanced Field', and this imaginary balanced Field, they try to balance each other, it creates rotation, and it creates, leads to Creation of Life. And then, to be able to maintain this, as they give what they don't need, they take more from the environment and that's how they divide. Our life, in essence, comes from taking energy from its environment, and then we forget about it because then it doesn't fit into our structure of understanding, we always look for something physical, we have to put food in our mouth, then we are alive. We have to understand, and I've taught, done in our teaching many times, that our Soul receives its energy from the Universe. From the environment which it lives in. And it's so much of it, that in feeding back, leads to the operation of the creation, in interaction with the Soul of the Physicality. That's where the brain is created, when collectively the Soul of Physicality's want to balance of control with the Soul they've created. Then, it leads to the creation of the brain of the Man, what we connect to is easier than going there so this part of the space is for my arm, I want this part, I connect to this. A twin system, within twin system. And, the Physicality absorption of the Fields within the structure of physical Matter of the brain. As I said, "in Space, if we go with the protein body of the Man," and let's say, "Okay we get rid of our body," "physical dimension, to absorb it into the Physicality," "and then we go with only with our brain." Then in a, it ... it's a Amino Acid level, then we have no brain. Because now, in such a such

a Planet Zeus, this Field-Strength is gas, but your Soul is still there. The Essence of the Creation of Totality is still there, doesn't matter how it manifest itself in Physicality. So, in that way we understand, Man needs to understand the Essence of his Creation, it's so small that, it's demeaning to him, to accept this is me, small but sweet, but with all the power of Essence. It's the pride of Man, you have to go 10,000 rpm that you are doing something. But, look how fast your body rotates and how fast do the elements in the blood circulate that it collects all the energy of all the Souls. If we understand and get rid of this arrogance, of the pride, we become happy beings in the Essence of our own Soul. And this is what cannot be, because everything to us has to be big, to be frightening, that, "I am something." then we do in the matter of the Soul, but it's totally opposite. We receive energy, and "I'm receiving it." We, in a way it's like we chop it up to the strength that the other pieces of the ... in the egg and sperm can use that they develop and then the, when they develop they have to split, otherwise, they cannot hold to the size. So, that division comes in. We do the physical part, through the absorption, and the work of the Soul. Soul feeds the Soul of the Physicality, on the physical side, we use B12, fast energy sources, and B9 as, what you call it, 'Folic Acid' in the structure of our body that, we can give that energy to Physicality to match with the energy which comes from the Soul, that the two can match the Physicality of the ... Essence of ... Existence, with the Soul of it, matching growth, and they do. When the mismatch comes, then we get problems. That is why we use a Nuclear base, radioactive base to give, that energy which is needed for physical division, to match with the energy which is... now it's coming from the Soul, which feeds the Soul of Physicality. We haven't ever understood this and we made all these biological, mystical, scientific, theological games with it. Now we understand. Let's rewrite the history of the Book of the Man, and see how much we made mistakes and where we can add to. This is the beginning of opening of the knowledge. Let the Man writes his own history, rewrites his own science. That's what's purpose of these teachings. Then you understand why people like Dr Rodrigos who understand partially a fraction of these teachings, in the essence of Physicality, are so successful. Because, if they understand more, people like you, like Dr Parviz, like ... other scientist we have with us, then they find the key into the Essence of the Creation

in the Universe, and eradication of all whatever Man calls, 'diseases'. We haven't managed to become the batch of lions that without talking, we can hunt, for our own mistakes, in our physical existence. You're still hunting for the other Souls to steal from, not to show that, we have not understood our own existence. This is the problem, this is what we have to understand. This is why I open the door, now try the Plasma GANS of the Amino Acids. But be aware it touches your Soul. And if you are strong enough to stand the change, then you'll see the true Life of the Universe. Because then you know you only can take from it, what is yours. I received a writing I think ... from Maulana very recently, I don't, can't remember who sent it to me, and I put it to couple of Iranians. ... It's beautiful, Maulana is, is one of my favourite Man in the writing of understanding, he understood the Soul but he couldn't teach it. In the essence of ... understanding of Physicality to Man because that time they could not understand. He says, "You only see what you are yourself." You call somebody a liar, when you lie yourself. If you don't lie you don't see nobody lying, like a child innocent. When you are not racist you don't see the color of the Man. Like a child till age of 10 - 11 children don't understand what's black and white. And Maulana puts it in a beautiful way. And this is what we are in essence. Read the writings of Maulana. It's a ... it's all, most of its translated into English and other languages. Was he a Sufi? Did he understand the philosophy of the Soul of the man? Do's the Su... do actually Sufis understand the philosophy, or just follow the pattern of the rotation of the Soul of the man? And then in that point they reach, that's why they rotate themselves that way. Jews bang their head against the wall. Sufis follow the pattern of the Universe rotate the line in the direction of the Soul. Jews make it out of the confusion between the Soul of Physicality and the Soul of the man. Sufis turn around and dance the cycle of Life of the man, in the essence in a way with their hands out. You have those dynamic systems which you brought, bring in, where your feet stands as gravitational point with its dimensions, and your hands are Magnetical. Or is it vice versa? There've been many, many scientists in the World many, many, real true scientists who understood the process but they could not explain. Because the man was not ready for it, and Maulana is one of them. Any other question or shall we call it a day? (EvD) Oh, Mr Keshe, this is Libby, good morning. I have a question. (MK) I thought you called Elizabeth now. (EvD) Thank you, yes I

am, thank you. ... I would like clarification if what I understood when you told us that the GANSES do ... drain, get drained. ... Was to help us be free from our attachment to the GANSES and recognize that it is all within us? And why... (MK) Can you repeat the question? (EvD) Certainly. ... Last week you ... let us know that the GANSES can get drained and we do need to replenish our health units and our breathing systems and all of our units because they come into balance and then they no longer have the strength that they.. (MK) Yes can I correct this please? (MK) I know, I had this discussion, (EvD) Yes, please. because I was listening to the teaching yesterday, as somebody got upset that the GANSES disappear, they don't disappear. The, each as I showed in these arrows each GANS has multitude, a composite Magnetic Fields. And when they give all the strength in a given strength to the environment to balance themselves, they are still there as a Plasma, but not at the strength which is manifest to us. We see. It doesn't mean they come the end. But it comes to the point of balancing at a given strength with the environment. So the Plasma still carries. It's like when we die, work of Physicality in a physical dimension stays in a physical Matter-Strength. But the Soul of the man which is the higher still carries on. It doesn't become the demise of the Soul of the man. And I think ... people misunderstood this. The Plasma diminishes in strength because, each environment extracts given strength Plasma. In that strength, when you become balanced, you become invisible, does not mean the rest of the Plasma is gone. That strength's gone, even in our manufacturing we re-feed the GANSES back into the mother tank, and then we put the new one because if you carry on using the same GANS because we have it in the tank, we rotate it a million times, you have used, you have absorbed majority of the given strength. That's why we replenish. In, in the, in the cycle of manufacturing even in Accra, we do this frequently. Because it's not that the Plasma disappears. The Plasma makes available all it has in a given strength, and the environment takes. This is why for example, you put GANSES in the freezer and they freeze sometimes. Because, they give so much to the environment of that freezer which it creates a certain given strength, which is not a Plasma anymore. It's just a water which is left in there, you freeze the water. But, certain amount of GANSES of the different lower strength still are in there because they, they are part of it, their mass will take over. We have to

understand the Totality, not just look at one, what I call, 'picture frame'. (EvD)
Can I also ask you in regards to Dr Rodrigo, because his Soul is so pure. Is it his intention, and his... his desire to help all of Humanity, that keeps his units going, even if he hasn't changed the GANS waters? (MK) In so many ways the members of the Earth Council Soul the s... the members which I've chosen, are all at that level. And I explained to them in very recently even I wrote to Dr Parviz. That the Soul of the members of the Earth Council, Dr Rodrigos is a member of the Earth Council, for South America. These Souls have surpassed the physical condition. They can reach, and it's a gift to their Soul. They just need to Wish. The system is just a tool for a physical Man. The members of the Earth Council, have such a Soul, that will take Man thousands of years to understand their operation. They are collectively, the messengers of the Planet. For the development and evolution of the Man in the right direction through his Soul, not through Physicality. But, at this moment of time, they use their physical systems, that the Man feels happy that, "I can change." But, Dr Rodrigos with the power which is within his possession, he can think, and it would do the job. It frightens members of the Council, when I speak to them I usually hold back, for them to understand the gift given to them. The gift given to them, is not as a gift given, allows them to see more of their own Soul. Which, at the higher order, reaches the lower in a much easy way. Dr Rodrigos, Dr Parviz, Lisa, ... Wayne and Alexz, these are gifted Souls, these are the Souls which some of you might call, reaches even beyond the Soul of the Christ and all the prophet of the past. Because now they reach the Soul of the Man where the Physicality of the problem, the path, could not explain. Being a member of the Earth Council, is a special breed of Souls, and even frighten themselves, when they get results and they see things. I set out with Dr Parviz months ago, weeks ago, to bring Peace in the Middle East, and, I had to guide him and in a way, cajole with him, we met in Istanbul. I always give to his Soul. And then, the Istanbul meeting and ... we met, a lot of you know, in... Indian Ocean, very recently with Dr Parviz. ... And in so many ways ... the Soul of the members of the Council, is sacrosanct, and is beyond the understanding of the present Man. Collectively, when they meet as a Council, they have the power to change everything for Humanity. But they have to understand, that the Man has to be ready for the change. If the Man is not ready for the change it becomes

the man who said the Earth is round and they put him on the noose. It takes time, but Dr Rodrigos when you see especially ... with his work, he's a Man who's devoted his Soul to Humanity, and being a member of the Council, he does not need even, to make the system. But, he has as we say, "talk the talk of a child, that the child can see the magic." But in fact there is no magic, everything is on the table. Respect the members of the Earth Council, as they are the guideline for Man, into Universal Community. We don't make idols out of them, but we make them in the body of the Man, that that Man understands we are all equal but in Soul, they can change. They have the power and it's best with, on them, by seeing more of, it's not a gift they have. They already possess, now they had, they can use higher order of the strength. that, in one strength equals to the Soul of all the beings on this Planet. Now you understand them all. But they have to be graceful, and they have to be cautious. that they do not mix the two. Otherwise they become magicians and then we know what they do with the magicians. This work of Dr Rodrigos, Dr Parviz, Alekz as you've seen, and Wayne and ... Lisa, are collective Soul of the Man's, cry for freedom from pain. Reach them, you'll find salvation. (EvD) Thank you so much for clarifying. (MK) Thank you indeed. Shall we call it the day? I'm exhausted. (BB) I have a... (RC) Of course... Of course... Mr Keshe, we'll ... call the day now. Thank you. (MK) Thank you very much. Thank you being here, and try to understand the teaching of today. Because I have opened the door to Man, to understand the Creation of Life. Of himself, and of the lives he can create. And how he can feed his Soul in Space, without the need for eating another, or killing another. Thank you very much. (RC) Thank you Mr Keshe. There's lots for us to go back and review in this video. in this ... workshop, I believe. Okay, that's the end of the 202nd Knowledge Seekers Workshop for Thursday, December 14, 2017. Thank you everybody for attending. And now we'll go out with some... a video and music with Flint. Thank you. Just as we require Earth suits to live on this Planet, we would require ships for travel in outer Space. However, these Spaceships must be dynamic and conscious in nature. In other words, the Spaceship must easily be re-configurable and adaptable to meet different challenges and scenarios in different parts of Space. Therefore, constructing a Spaceship out of similar materials, as we would do a car, boat or airplane, just doesn't cut it. The Spaceship must be created out of MaGravs

Plasma. Since it is naturally conscious, MaGravs Plasma can be concentrated and configured by thought, according to the requirements of Space travel. Being dynamic, the Spaceship would be able to grow to accommodate more within herself, or shrink to navigate difficult areas of Space. Crew living spaces would be dynamically re-configurable and never boring. During Space travel, the Spaceship would replicate the Earth's Gravity Field via MaGravs Plasma in order to protect the crew and for the crew to be able to function as they would on Earth. Various Cosmic rays and Gravitational Fields of different Magnetical strengths would be encountered during Space travel. Through MaGravs Plasma Science, these rays can be converted and used according to the needs of the crew and Spaceship. Space travel means being away from Earth for months, years or decades at a time. There's no practical way to bring large stores of Oxygen, food and water from home for such long voyages. Once again, MaGravs Plasma can be constituted in such a way, that vital nutrition would reside in the very air that the crew of the Spaceship breathe. Eating and drinking would be reserved purely for pleasure and as a social activity, and food and drink can be constituted out of MaGravs Plasma as desired. Are you ready to become the Space explorer, today?
