Transcript v1 from Amara subtitle file revision 4

(RC) Welcome everyone, to the 204th Knowledge Seekers Workshop, for Thursday December 28th, 2017. My name's Rick Crammond, I'll be your host today, and we'll be talking with Mr Keshe, of the Keshe Foundation. And, also Season's Greetings, for everyone, who celebrates the holidays at this time of year. And this will be our last ... show of 2017, so, thank you everybody, for being with us, through this ... Through this year. It's been a very ... it's been a fantastic year, with lots of changes and lots of ... lots of news happening from the Keshe Foundation. As for Mr Keshe, I think he's ready in the background here, and he's told me, that he doesn't listen to the news yet. He's... I think it's because he's too busy making the news. Mr Keshe, are you there? Hello, Mr Keshe? (MK) Yes (MK) Yes, Good Morning. (RC) Hi (MK) Good day to you. As usual wherever and whenever you listen to these Workshops. What is interesting is ... we have done a lot of work, we have done a lot of ... Soul searching, now that we have start to teaching about the Essence of the Creation of Man, and especially this year, we have taken a long journey, as Rick said. In trying to understand, the Essence of our own Creation, through understanding of a new Technology. That, there is no myth, there is nothing, because somebody says so. But, because, we understand ourselves. Who we are, what we are, how we are made of ... What we are made

up, and what is the destiny for us, once we leave the physical World, in a Essence of the body of the Man? ... As I've said, many people have written to me, and I get it from a lot of International Organization. "Can you stop mixing the Soul of the Man with the Science?" In that case, we can support you, because the Science make sense. But there can be not a connection, between the Science, and religion, and I was explain to them, and I explain to you again and again, that the Science of Creation has led to the faith of the Man. Not the faith of the Man, the Science of Creation. And, when you understand the Science of Creation, you come to understand the Essence of Creation. Why and where we come from, and where we go to. And in so many ways, as a Human race We have chosen, a very interesting path, an interesting way, and does not matter, where Man has appeared, always accepted somebody to be higher than him. Somebody has more power than him. And he's called them, the 'God of wind', the 'God of rain'. Then, he has made the statues, and he's put his mind, to the mind of the stone, and his Wishes to the Wishes of the bricks, and wood. And in every shape or form, he has considered himself not to be intelligent enough to understand. And that has created a channel, for those, who think, who can abuse these conditions, to become in position of power, and adding to the ignorance of the Man, for them to rule. In so many ways, interaction of the Man, in the dimension of understanding his own Creation with the Creator, has known different channels, in different ways. And over time, Man has learned the Science, because he's done it himself. And, whatever has been brought to Man, for him to understand the Essence of conduct of his own physical structure, he has called it a, 'Mystery', a 'God', a 'Creator', and then has chosen different path of believing in it. And now, that, we try to break open this rigma Break open, for everyone, to see the reality. Now, it becomes very dangerous. Because, the abuse of the Man, in the name of the Man himself, as a Creator of himself, they have become the intermediaries, to control the Soul of the Man, with the Physicality of the Man. In fact, what we have seen, and what we see, what we call, as a 'path of belief', 'religion', or whatever, has become another, what I call, strength length, strength of Fields, that, instead of us, internally interacting, between the Soul, and our Physicality, we call it our 'Emotion'. The external strength of it, we call it, 'religion'. And those, who have found this strength, they emphasize on it, they can tune into it, and

then abuse it. It's very much, it's a mindset, it's controlled mindset. All those who could understand it, have used it. If I speak to you, in the language of Love, and you understand Love ... There's a microphone open, in the background, please. Then, you will understand the reality, of the fact, that you speak, your understand, same strength as me, in sharing and giving. And those, who could understand the strength of the abuse, they have created it, and given it the name of 'Faith'. In fact, there is no difference, between, what we call, 'religious believe', which touches our Emotion, and pain, joy, sadness. But Man, in the time, has found that strength. 'Wavelength', we call it in the Matter-State, and so, has abused Man. And have called it, in every name you gather. So, now we understand, we understand the Totality, that the faith of the Man, is a conduct of the Soul of the Man, in interaction with the Emotion of the Man. And then, depends, whatever you want to call it. 'God', 'Sin', 'Happiness', 'Joy', and this is, what's been part of these teachings. We, elevating our own Knowledge, and understanding of our own Creation, and now, we can do. I was explaining this, in a teaching, sometimes ago. And, if those of you, who understood most of the teaching this year, you will understand this very easily. And those of you, who do not and will, have not have comprehend the Totality, Hopefully, in the future you understand. I've said before, if you go back to a Star-Formation, and you get a dynamic set up, of 4 base Reactors, and 1 above. But understanding, that the strong gives to the weaker, for it to become strong, and equal, and in that Process creates a condition. And then, if you understood, that the Soul of the Man is a dynamic Sun, which is within the Man. Then, you have two choices. Stick to the physical dimension of the Spaceship Program, or use the Soul of the man, to create the Spaceship of the Man, in the depth of the Universe. Or, if you have elevated your Soul, further enough, to understand the Totality, One Soul, with understanding, of the operation, of the Physicality, which is the distribution of the Souls ... in collective areas as sub, or taking part, Gravitational part. The hearts of the Man, absorbs ... The lung of the Man, absorbs ... You found two of the Gravitational point. and the Soul of the Man, which is in the brain of the Man, which is a giver on top. You found, the Essence of the, what I call, 'Star-Formation', within the body of the Man, or if some of you, who have not gained that confidence structure yourself, that your Souls, the Essence of the Creation of

your own being, in conjunction to be a giver to the others. In the Star-Formation can lead to the Creation of the Spaceship, which can take Man out of a position. You can do it individually, or collectively. Or you can do it in a physical Matter, I've seen many of you, creating these dynamic cores. The Soul of the Man is dynamic and of a highest strength known to Man, and in the Universe. So, Man on its own can create his own dimension of travel, within depth of the Universe, Or collectively, Men can become and create that dynamic setup. Or, if you are connected to the physical entity, you get to that point. What has happened, in the past times, in the past year? I have tried in the 4 years, and over past 10 years, to teach the Physicality, that you get confident, gain strength in the process. Then, I have moved you, to understand, there is a mechanical system, or it's a Soul of the Man, and some of you have start using it and understanding it. It needs a lot of practice. it needs a lot of understanding of one's strength to be able to achieve it. And once, one achieve it, is like that God, that you have created, and understood the strength of. And, they could abuse you, because of it, between the dimension of the Soul and Physicality, or the strength of the Love. Either case, in either way, you become aware of the Knowledge, and at that point, you be enlightened, and you become part of the Man of Universe. You become part of Universal Community, and in so many ways, in the past centuries, and thousands of years, all this Knowledge in a hidden way was given to Moses in Commandments. We know the 12 he brought down I opened 2 of them to you, in the past 6 months, and today, I review the rest, then you understand. The rest of the Commandments we will released today, and then, you understand, Man had the Knowledge, to reach the point of maturity, thousands of years ago. Except, the intermediary of those, who receive the enlightenment, but to the benefit of their own Physicality, blocked, destroyed and ignored. In so many ways, what I will like to do, today, I let you ask questions. But, understand, you're not here, to speak about Nano-coating, and GANS boxes, and dynamic motors. Those, will be left to the teaching of KFSSI, the Institute of teaching of the Keshe Foundation. I let you ask questions, and in the process, we enlighten each other. That, as has been said, today is the last teaching, or Workshop of the 2017. In being enlightened, we start the 2018. And in so many ways, we should start seeing, the changes in all the Keshe Foundation work. In the supporters understanding, more and more, about

the dimension of the Soul, of the Man. And then, we cross the line, to become members of the Universal Community. Would it happen in masses, or would it happen individual cases, or would it be a collective work, between the Universal Council, the Earth Council, and the Core Team, to facilitate. You will see the change of the Soul, in the members of the Councils. In a specific way and a specific reason, the two languages, to abuse the Soul of the Man most, in the past times, will be presented in different way, and you will understand. One is the French, and one is the English. And then, you understand why. Why this process has taken place? Because the language, and the use of these two languages has brought more abuse on the body of the Man, as a race, that anyone else, in the past times, so by the Wish, and we Love those, who wanted Peace. It has been left out, that we can understand the Totality according to us. Then, if you understand this, in what comes as part of the Commandments, you understand the Totality. I would like to ask you, If you have any question, which is relevant to this, we'll talk about it, but we're not a religious group. We are here, to look at the Totality of the facts, and understand the physical process of our Soul, and how understanding the Physicality of our being, We can use our Soul to create new dimension and newer craft. What I've said in one of the teachings very recently is... Are those organizations, who put Man into Space, use the Knowledge of the Science of Physics, and try to enter the world of Universe, are meddling in the work of the God, too. Are they then, in the process of interfering, with the Soul, and Science and Religion? Or, we have found a new fuel, we have found a new system, and that system allows us to travel much faster, and with much more clarity and safety in the Space of the Universe, than those, who chose the, what we call, 'propulsion', or 'jet', or a 'donkey' to travel. This is, where the change has come. For us to understand, we have access to a new fuel, to new system, to new motor, which you like to call it 'The Soul of the Man'. And, this time we don't need a captain. We don't need an astronaut, to take us there. But we can do it, because we understand the process. We understood the Creation of the GANSEs, and the Field Forces, and how to convert the GANS to Matter-State, and through that process, we have become the new generation of, who bring the Science and Religion together and make One out of it. This is, where the fear of those, who threaten these teachings is. That now, the generation, the production, the

understanding of the new fuel and new system, is a industrial revolution in the Soul of the Man, and the Physicality of the Man. And there are many of those, who do not like to see this, as they lose control. Because, they have to become part of One, and they become part of. And this is, what it is. Those of you, who go into dimensional understanding, the new Technology, the Plasma Technology, which is the Plasma of the Soul, of the Man, that is the Sun and it's Sun, which radiates, and gives. Which in its Field creates the Earth, and through interaction of the Fields of the Earth and the Sun, creates the Man, and then the intelligence. And that jet, engine, or the propulsion, system for a rocket, now has led for the Soul of the Man, to complete its cycle and become another Sun, in respect to the Sun of Creation. And that's, what is the problem, with all these teachings. That now, you have become the scientists of the whole knowledge, because you understand the Basic. You understood, you made the GANSes, you saw the Fields. You've seen the reaction of your body to the Fields. And now, we have matured, to become Man of Space. Many of us, many, many of us will cross this line in 2018, Christian Calendar. Many of us will start the Space travels, in different shape and form. We promised 2018, we'll make ... wine and Mars. It says, "2018 travel to Mars", Châteaux Mars will be served. The Knowledge is there. Go back on the pages, of the Keshe Foundation 'Travel into Space' It's a line, which is put in there. This is, how Man has advanced, in such a short time. And, we knew, 2018 is the time for it. It's us, who can fail or succeed according to our own 'path of belief', A lot of things have changed, a lot of us would like to understand more, and a lot of us will walk away. Because we don't see ourselves to be worthy, of being the Man of the Space. because we don't see ourselves to be worthy of being the Man of Space. But, listen to the rest of the Commandments which are going to be released today. Moses brought 12 and now, release we start at 10, 2 has been given, there are two hidden, that, when you mature to become the Man of Universe you'll receive those two, through your own Soul, then the 24 Commandments are complete. Any questions? (AB) Good Morning Mr Keshe (MK) Good Morning Azar Jan. (AB) ... What was the first two one, you talk about before. Can you go over it please? (MK) No, it's for you, it's in the teaching in past few weeks. (AB) Oh, the past few weeks. Okay. (MK) One was that, "Thy shall not lie." Because Moses wanted to lie to his flock, so he had to break it. What you see

in the ten commandments, which Moses would not, did not and refused to release. Because, it affected him personally in what he wanted to do, what he planned to do. But, if it would have been released it would have changed a lot of things for the Man, and he could not have done what he did, and what we've seen with the followers and the, then continuation of people of his path. Any questions? (RC) ...It's Jalal would like to ask ... a question. If you like go ahead Jalal? (JG) Good day Mr Keshe. (MK) Morning Jalal. (JG) Mr Keshe, before you said, this is Earth is ... "a nursery" and the Universal Community they are "watching for everything" and... in a way, they are teaching us, here on Earth. Why... why they let, all this... let's say evil come through for a whole this ... thousands of years? (MK) There is a rule, in the Universal Community and you will abide by it. When you become Man of Space, when you become members or part of Universal Community, this is your obligation. You give and depends on the receiver wants, wanted to receive. You never interfere. The knowledge has been given to Man and elevated the Soul of those who were supposed to be elevating others. But, in the process of time, Man has chosen. Many times, correction has been put in. If... if the intervention of the Universal Community has not been there, Man would have been a wild beast as in the jungle. You got to understand something very, very interesting, regarding the Soul of the Man and the physicality of the Man. The way the Soul of the Man and Soul of the Physicality of the Man is positioned and he has processed itself, has led to a given intelligence. And, that intelligence has a common denominator with the World... all the rest of the Universal Community. Is not just we can Se... you can walk on two legs, you've gathered the intelligence. Is because of the combination of interaction of Fields. And, in some strength, you can receive the Universal energy Fields, but the enlightenment is depending on the Man. And, this is what I've said in different word for such a long time. People take from this technology according to their intelligence. Many of the Man of Earth, who possessed or reached the position of understanding the Totality have already become Man of the Universe. Many, many, over centuries. And those, as I said, who were used or abused through the path of weakness, but they understood the strength or strength Field of the Emotion of weakness of the Man. They have brought in different lies. This is why from the beginning we always said, "we are not a religious group." We had

nothing to do with a faith, because the faith is a understanding of the Soul of the Man by the Man himself in the dimension of his Physicality. So, we are not a religious group, we've never become, because we are, we carry the Science of Universe. The knowledge Man received, all of us from the day of our creation of our Soul, received the messages of what has been given to the others, to be Peaceful. Is us who has decided the difference. Is us who decide the limitation of where and how and how much of it we want to go. We are beautiful people, we are all such a gorgeous Lovers to our Lovers And then, the same man becomes the worse enemy to the others. So, we choose. It's not that we were left alone. The option, the clarity's with the Man. How come? You are worship and love one child and hate the other. But, you were the creator of both. So, you chose, not the children. So is the same with the Love of God, which is you, the creator of it. Man received the message from the beginning, through his creation. He chose, how to handle it and how to ignore it. Because, the term of Physicality to him was something could touch, and feel and it was tangible and it was perfect ... If we could, what I said, like Space Agencies we use the rocket and the propulsion, to get out of this Space to become part of, what you call, 'another Planet' or whatever. Call our work, 'wrong', Who's there to believe? Them, who hide themselves behind the gates, to lie to themselves? Or, you who see the effect of the 'Pen', 'Pads', 'MaGrav Systems' and you know you are access to a new source of energy and life. The messages been given, Man has chosen different ways, according to his power, This is what I said, "If you find the strength of the power," "through it Man becomes power hungry, like a food." And you can elevate that Soul to become equal to the others, there'll be no kingship. It was given to Moses, he refused to deliver, because then he couldn't call himself a 'king'. Any other question? (GM) Yes I have a question. ... Good morning Mr Keshe this is Gatua. (MK) Good morning Dr Gatua. ... I'm looking at the ... Start-Formation within our bodies, and you mentioned that ... a stone would be the Sun, one of the reactors, which is a giver. The heart is a receiver, so, is gravitational and the lungs are gravitational too ... Which would be the 4th reactor? Or does the ... lung act as two reactors? (MK) Lung acts as two reactors, go back to the previous teachings. (GM) Thank you very much Mr Keshe. (RC) ... Fernando had a question, in the Q&A. I'm not sure if he wants to actually ask it? Fernando would you like to speak

or ? I think ... Ursula, sometimes has to translate for him. He had his hand up before. I'll allow him to talk and see if he'd like to ask his question? Hello? Fernando are you... (FR) Bueno, Buenas Noches (RC) Yes. Hello. ... Do you need a translator, with Ursula? Maybe so. Ursula can you translate for us? (UC) I here, I'm here yes. Good morning... (RC) Okay, if you two can work... work it out. So we can get the question correct. Go ahead. (FR) Bueno, buenas... buenas noches ... Un saludo desde de México Son las, casi tres de la mañana, y... me gustaría, me gustaría que Mr Keshe respondiera una pregunta. (UC) Fernando voy a traducir a nuestro Fernando Rendon. He comes from Monterrey, México and he want to ask a question, to Mr Keshe. (FR) Es sobre... es sobre, sobre el Mesías. Sobre... ¿por qué es tan complicado que las personas entiendan o comprendan qué somos mensajeros de la paz, a través de este conocimiento? (UC) Espera, The question is: Why so many people has difficulties to understand that we are all Messiah? (FR) Todos somos mensajeros de la paz. ¿Por qué es tan complicado para las personas, entender qué se llegaron nuevos tiempos, y que tenemos que ampliar este conocimiento para nuestra propia evolución? (UC) Espera... He ask why we are all ... so difficult to... to understand that we are all messengers of Peace, and that we need to understand and have more knowledge to become a Messiah? (FR) Cada... cada persona, en este planeta, qué ayuda a otra persona Que tiene dificultades, es un mesías. Es un mensajero de paz y es un mensajero de amor. (UC) Everybody that helps somebody on this Planet is a Messiah and give and help and can teach others. (FR) Hacemos nuestro mejor esfuerzo en este planeta. (UC) Can make a big effort on this Planet become a better person. (FR) Pero no tendria que ser tan dificil, para todas las personas racionales, entender que todos somos mensajeros de la paz, a través de este conocimiento. (UC) and it should not be so difficult to understand that we can all become on fire of, even a better person. (FR) Venimos a servir y no a ser servidos. (UC) We come here to serve and not to be served. (FR) Y vamos a elevar nuestras almas, a través, de entender que estamos aquí para ayudar a los demás. Muchas gracias. (UC) And we will underst... and we will elevate our Souls in giving and helping others. Thank you to all. (MK) Thank you very much. I think there is a slight misunderstanding in the Totality from the first question. We are all (inaudible) ... not for the others. This is where the rest of the problem comes. If we can give from our Soul, to... the right

way, that our conduct in Physicality is in-line with the conduct with our Soul, we have become the saviour of our own Physicality and that's what the 'Messiah' means. It doesn't mean that you become Messiah of... for your son, your neighbour, your Nation. If you leave through the correct conduct of the Soul with the interference of whatever in between, then you have reached the maturity of Man. Where the conduct of the Physicality is the mirror of the Wish and the conduct of the Soul of the Man. A lot of us look for Messiah, that somebody will come and salvage everything and the day of judgment. The Day of Judgment, it was in one of the twelve, 22 Commandments to Moses and he took it out, because then he knew he cannot do. I'm gonna tell you, one by one, the 12 Commandments you can read on the net. I asked Rick to be ready for it. Could we have the 12 Commandments on the screen please? And then let's add to it, and then you'll find out, the knowledge has been correct from day one. And Man would have not been here. This message, which was given as a formation of light, which is the Essence of interaction of the Creators Field with the Essence of the Creation of the Man what you call as 'Prophets', or not in the word of God, that Man has converted it to. He felt, and that feeling was converted into writing by Moses, Buddha and the rest. And this is where it comes. Buddha and others took the path of the Soul in conduct of the Man, the Hebraism came down through the Physicality of the Man to abuse, because of the pleasures of Physicality. And you see the difference between two paths of the same message. The same light was used, or appeared to, or when they reached that enlightenment and then, the interpretation was done according to what they wanted to do or abuse, or give. Not in the direction of Physicality but in the direction of the Soul of the Man. Would you like to read the 12 Commandments please? Just the headlines, but... (RC) The twelve? The twelve Commandments... you mean the 10 Commandments Mr Keshe? (MK) There is 12 of them, there is two more behind. (RC) Okay. So, 12 Commandments I look up twelve commandments in Wikipedia like... and Google, and I'm not sure what to go for here. We have like... (MK) Find the English one, otherwise we gotta get a translation of it. (RC) ... That's definitely not it, that's definitely not it, that's just definitely not it. Nope, that's ... well? No, that's not it. ... Let me see, let's look it up again with Wikipedia here. (MK) Read the 10 Commandments and then we carry on, if that is easier to find. (RC) Okay. So...

Okay, that's... that comes up... I don't think 12 Commandments comes up. They have 10 here and ... Do you want to look at every... (MK) Read it, one by one. Now, just read the 12... the 10. Okay it shows them here, maybe I can make this bigger... let me try and make it a bit bigger. There we go. Okay, it says the 10 Commandments ... I am the Lord thy God, No other Gods before me. No graven images or likenesses. Not take the Lords name in vain. Remember the Sabbath day. Honour thy father and thy mother. Thou shalt not kill. Thou shalt not commit adultery. Thou shalt not steal. Thou shalt not bare false witness. And... Thou shalt not covet. (MK) And this is, and this is everything, at the bottom, which Moses did himself. He killed. (FR) Habia, disculpen habia... Aprendido algo de algún texto. Y es, es... disculpen... Es que, es en español. El hombre por su arrogancia no quiere Que nadie Ni siquiera dios Le prohíba nada, pero ... (UC)... Me dejas traducir por favor que es largo. It's Fernando. He is talking about ... a cause of this arrogance of... of the Man. He cannot understand the knowledge. (FR) Las leyes y mandamientos se hicieron, para no autodestruirnos. (UC) The rules and the Commandements have been done to not destroy ourselves. (FR) Yo le agradezco a dios por eso. (UC) And I'll be grateful to God for all this. (FR) (background conversation) son muchas cosas...las que quisiera yo decir ... (MK) Okay, we can ... he's in the background somewhere. Would you like to close the microphone there? If you look, go back to the... the ones which are there, one by one. If we can go back to the ten above. There were initially, when it was brought down by Moses, he brought twelve. And in the process of running his affair, the way he destroyed the other ten he got rid of two more because he would not fit into it. One was, "Thy shalt not steal." And he killed a lot and he stole a lot. "Thy shalt not be adulterous." He killed men of religious and kept the woman which are all married to men and he took them as his whatever. And he broke everything which he brought with him, every promise. Even, it goes to the state of calling himself, whatever. In the process what he did not bring was one, "Thy shalt not lie." He destroyed one of the first tablets. He destroyed was that, because if he was to rule, he could not tell them that he had more. So, that was the first thing he destroyed. One of the Commandments to him was that, "Thy shalt not judge." No one, except himself and not to be judged by no one. Because, he knew if they will judge him, all the lies and what he's done, then he cannot do the job. What he

did to acquire more Physicality power. And the other one to him, the fourth one was, "Thy shalt be equal to others and do not consider thyself's higher or lower than them." Which means, when you are equal there was no leader, there was no kingship. And he could not do because he now found the power that he could do, what he wanted to do. So, if he would have listened, we'd have seen there will have been no kingship as we said from the beginning as we are all equal in Soul. Our Physicality, decides the happiness, satisfaction of our Soul. He says, "Thy shalt not touch or carry no arms to defend or to kill another." He took this out, because he wanted to use arms, to achieve what he wanted. He says, "Thy shalt be at Peace with oneself, with thy neighbour his tribe and tribes." He could not invade and kill, if he was at Peace. So this had to be destroyed. Because he could not do the coveting which he did. Desire of other woman in other places which he knew they exist and they are more beautiful. To be able to covet, he destroyed this command. He says, "Thy shalt be the river of Life and Love." Not only to thy-selves and thy Love ones, but in equal measure to his enemies. He could not create enemies and love them so he could not do, his amation and killing. "Thy shalt not accept no path except the path of his own Soul to his Creator." But it says "I made Man in the image of myself." So, it means the Physicality had to follow the path of the Soul to be perfect. It says, "They shalt serve his Soul... thy shall serve his Love ones, and his own as he expect to be served by the others." You don't like to be treated wrong, so you don't treat wrong. And, one thing which is not put on the top and this was important because then he could not rule on the name of God was, "They shalt believe to one creator for all Men." Then, if this would have done we wouldn't have the religions which came after him because he took the most important part out of the whole equation of Peace of Man and elevation of the Soul of the Man. "Thy shalt believe in one Creator for all Man." Then we don't call one 'Jew', one 'Christian', one 'Buddhist' because, at the end it's all made to one. And this is what I said past couple of weeks as President of United States said, "We move the capital into Jerusalem." That the true essence of the first order of the what we call 'The Tablet' was this then all becomes One. Then there is no religion, different path. We all call it God. And he took it out because, then he couldn't say to the others "You're different, then I have to change you." Because of what I believe and what I received. Then you

understand when you receive the two, when you become to elevate and to understand the work of the Soul of yourself with your Physicality, then is complete. There are two missing, which came down with him but he took out. Because there were read to the others, so it wasn't to him anymore. Those two, I release in due time. And, then you understand the circle is complete. When you mature to understand the work of your Soul through understanding the Fields of it, through understanding of the operation of it, then when you hold your hand together and you see the light in the palm of your hand, you don't hold for you to watch to enjoy the beauty. You give the one who's needy that he can receive from it what it needs that he sees the same light as you. The maturity of the Soul of the Man, the missing commandments of Christ or what I call 'Moses'. So, we finish with the old Cycle, and we start with the new. Because, with the new what we have taught, it means, we start understanding, the Commandments of the Universe. Which is One, which is the Totality of the twenty four, which is, the mirror image of the Creator. It says, "I made Man in Image of Myself." Man made the Image of Himself, as a Physical condition, from his Soul. And, it say, it does not need the Physicality, but that he made the Image of his Soul, in the Soul of the Man. Dead, to go the dimension of Physicality, interaction of the inertia of this Planet, it created that Physicality, so, it could memorize and multiple-ize, in so many ways, to Create what it is. In so many times, the present scientists, those who are involved in a deep science of Space, and go in depth to understand, have already seen and understood this. Many, many, Philosophers of East, have reach this point. Because, through the path of the belief through Buddha and the rest, they elevated their Soul, not their Physicality. So, for them was easy to reach to understand the position, of the interaction of the Soul of the Man, with the Soul of the Universe. And then, understanding that they are part of the Creation of the Universe and not this Planet. The Christian world, the Jewish world, has been waiting for this Commandments to complete, for thousands of years, now it's done. But the promise was, when they are done, then Man has reached the point of maturity to go into the next step. I have complete the balance term. And I walked you through it, very slowly, in the past time. Now it's for you to elevate your own Soul . And... remember, "Do not judge...and... not allow no one to judge You." "Do not become arrogant, as you are equal." Then, there is no Kingship as

when you're all equal. Then you are all Kings. The King of your own Physicality and your own Soul. And no one else. Then you understand... when you are equal... and you are looking to no one, there is no need for armies, and no need for killing. Then, the whole Commandments make sense. There is the last one which a lot of people don't understand the true, essence of it. It says, "Thy shall not Covet." (RC) ... Mr Keshe ... there is a list of twelve Commandments that I've found... that has been suggested to me by a couple of people, and, maybe we can look at that, because it splits up that last one from "Thou shalt Covet" to "Thou shalt Covet your Neighbor's House" and, "Thou, yo... you shall not Covet your Neighbor's Wife." so maybe I could show that, and you could talk about that... (MK) No, we stick to one because that is... (RC) Okay, okay... fine. (MK) The Coveting does not come of dreaming of the beautiful wife of the next door neighbour, or the Man who you saw on the street. Coveting is for the Soul of the Man. Because the Christ took the second Commandment I spoke about the Soul, two, three teaching before. The Coveting comes from, "I want a Soul like him to be as good as him." Not, "I serve to become the giver, that he becomes better than me". The Coveting is not the physical Coveting, that a lot of people talk about. Dreaming off... Because, most of these Commandments were taken out of context. Destroyed by Moses, it was not completed. One of the things, which Moses took out, He had to take it out, was, "Thy shall not Rape." And we know why he took it out, At the beginning when he brought, and then when it happened in his time, he could not tell people not to do what he did himself. Because, it was already given to the high Masters. That's your number eleven. Rape did not mean Physical Rape. What is was Rape of Intelligence and understanding the Soul of the Man, to abuse the Physicality of the Man. That simple. Now put, the twenty one you have up to now, You'll understand easily the twenty second and the two will come on a maturity of time when you enter the Universal Community in understanding by the elevation of your Soul. I have completed the twenty two, Commandments. The Cycle of, Prophet of the past, is complete. What the... those who understood and chose the path of advise. But in so many ways, applies the same to Buddha and the rest. But, take the Physical part out and listen and read these in the Essence of the Soul of the Man. Because it says, The first one here we see it... it was, "Thy shall believe in one Creator for all Men." Then, how could he divide those who are

his followers and follow his god, and those who do not? The 22 Commandments are complete. Totally complete. And these are, what was given to Moses, thousands of years ago, and it's been given to every Man who was enlighten to understand the true Creation. Be it Muhammad, bless his name. Be it the Christ. Be it the Moses, the Buddha, those who call themselves 'Prophets' in a southern American continent in time of the past. Those who became the Prophet of those in Australia with different names and features, those in the Far East. They all received the same. I gave the same, so it was equal to all children. It's the path which we chose, and that's what the difference is. The Day of Judgment, as it said, "You never judge, and you don't allow no one to judge you". So, you're always aware of your own conduct, that does not need to be Judged, as it's always correct. And that's what they took out, because now, as you are not aware, then, we create you the Day of Judgment. Messiah has come for many of those Men, who have matured to this point and become part of Universal Community, or they decide to stay as Man, and serve Humanity. Not in the shape of ropes to abuse children, to abuse others, to call themselves 'Kings' and the rest. We created these Kings, because, the true message was taken out. By Moses...for the Hebrews. And that's why we see most of these wars, on this part of this World. Where, they have become part of. I was explaining this to Caroline in past twenty four hours. If you go back to the original Tribes of Man, there were no shoemakers or there were no fisherman, everybody fished for themselves and they all lived in the same community, if they needed something they took and they gave. In present language we call them 'barter'. And that way, everybody was dependent on the others skill. And what they became better at. And in so many ways, by creating these weaknesses in men, who could understand the Mans weakness. We created an influence of what they call 'religion'. Created the influence of what we call 'financial gains' and 'financial monetary system'. And with the teachings which now, you have, and you have matured yourself to. You understand you didn't... don't need any of them. This is what I said, "there are no banks and there are no churches in Space." Now... It is for us to understand the Totality. As I've said, I've done my job, I teach you more, till more of you become mature in understanding the operation of your Soul. And conversion of the strength of your Soul, if you are Man of Physicality to confirm your power, of

becoming mature to understanding of the Totality. I teach. It's for you to understand according to your intelligence. And we're all intelligent in equal measure. It's the fear which is put within us, by those who abuse our Souls. in line and connection with our Physicality, which has stopped us to open and understand more of ourselves. You don't need, no prophet, to be enlightened with the light of the Creator, and become the Creator of the light yourself. Your Soul is the mirror image, of the Soul of the Creator. It depends, how you turn the angle of that mirror. That how bright the light of the Soul of the Man will shine. That's all. And that mirror is the Physicality of the Man, which reflects the light of the Soul of the Man. The more you become aligned with the correct, what I call, 'path of Life'. The more the line of the Sun becomes in line, with the Sun of the Soul of the Man. And shines the same as the light of the Creator. "I made Man in the image of myself." You need the mirror to see the image. And you need to have a mirror which is the Physicality of the Man, to understand the position, and the conduct of the Soul of the Man, in respect to its Physicality and the Soul of the Creator. Blessed are those Souls who understood. Any other question? The Commandment number 12 which Moses took out, was that, the "Man feeds his loved ones, the same as with his enemies." And he couldn't do that. The food was not food of Physicality, it was the food of Love. The food of giving from one's Soul. Because, food to us, we work for it to earn it, to be able to consume it, he had to give from his Soul, the same to his enemies as his tribe, and he couldn't do. So he had to destroy it. Now you got the 22. (JG) Mr Keshe? (MK) Yes Jalal. (JG) You said you, "forgive but you don't forget." And, and in this way, you are not judging, if you are not forget, in a way. How you brought this way without judging? (MK) The forgiving is the maturity, forgetting it shows the path, to forgiveness. It's two different ways. One is a path and one is the way of living. When you don't forget, you will not make the same mistake. Or you know the path to reach the same positions faster. You forgive, because then you soul is matured enough to receive more. Is a... two clear point. One is the path and one is the destination. Not forgetting means you know the path. Forgiving is... Enough that you can give so much, that it does not take much from you. But the next cycle, you know the path you can reach it faster. (JG) So, that means you can choose a different path to approach? (MK) Yes. (JG) Okay (MK) But if you have seen, what the end result has

been, you choose. Do I want to go to this path to get to the same place? Or the other path to get to the same target, as I want? In Italian they say, "All roads end up in Rome." It depends which path you want to take to get to Rome. And what's the aim of it. If you lived in Italy you understand this very clearly, wherever you go, you see it says, "Rome." There's always a line to Rome. Doesn't matter if you come from the south or the north. Any other question? (RC) There is a question in the Livestream... from Sylviane. Who says, "Mr Keshe you said in a recent knowledge..." I think a Knowledge Seekers Workshop? "that prisons should not exist." "I am in complete agreement with you. Prison being, not the solution." "Love being the Source of healing." "But we are... we are in a period of transition. What solution is there for people, likely to commit new violent acts? Thank you." (MK) In so many ways if you go to the teaching and listen very deeply. Prison is the body of the man. Not the Physicality of the 'prison', as you call it. We have imprisoned our Souls, and conditioned it to so many wrong things. But, if you look at it the other way, and you understood all the Commandments. With this, there is no need for prison. That one can be in charge or in control of the other. That no one will do wrong, This is what I said. If all these, were taught from the beginning to the Man. Crime. We always want to be better, then we have more. But if we realize we are equal, we serve to give more for the others to be equal as us. Is not front to philanthropist through the Soul, is understanding that, giving through your Soul you have achieved to enlighten and elevate the others. In the past few... what, especially last week I explained that a lot of Knowledge Seekers have start selling goods without certification or whatever. And some of them got very upset that, "you have told us" ... bla bla and dadada. Yes, but I told you to teach. I didn't tell you to sell by teaching. It's a big difference. How many of you who start selling the GANSes or whatever, you put a note with it "this is a gift, you paid for my time". "This is the way you do it yourself and you teach it to the others." No you just spend for the financial gain. You already have failed, because never understood the Totality. And then they get upset you asked us for People to report us to the authorities and the rest if we do this and that, of course. You were taught to share you will not told to sell in my name and then change names, just a suit. This is the path a lot of People have become merchant of death in the past, in the name of the Kings and the rest. You got to understand, knowledge is

given freely with the Love and Care. Is your Soul who has chosen to abuse the others by it. In a way you becoming to do the same as what we see with the Priest and the Mullah's and the rest of today. The only difference is, you have found, instead of a bread to be the body of Christ and a wine to be his blood, the GANsEs and the Patches and the Pads. We produce them because the funds from it will release the others in a physical Dimension but we haven't seen you doing too, anything. You just become, more and more, for yourselves. Teach my knowledge, don't sell my knowledge for your own benefit. Then you understand the message. I teach freely, you teach freely. I give unconditionally, I give without judgment who's listening. Are these People good, bad or whatever? I don't judge and I don't expect you to judge me. Because if you were a correct judge you would have judged yourself first. We have to be in control of our work, not others to judge us. Because, then they bring their own, what I call, 'Feeble, misguided works' into it. When a man needs a judge, it means he's not mature. (AB) Mr Keshe? (MK) Yes Azar Jan (AB) Who is gonna correct the Wikipedia now? (MK) Keshe Foundation has its own Wikipedia correct it there and add to it. It's not correction, it's adding. (AB) Yeah, I meant adding. Yeah. (MK) Keshe Foundation has its own Wikipedia. Any other question? (BB) Good morning Mr Keshe. This is Boniface. (MK) Yes, Boniface. (BB) ... Thanks for what you ... (disruption) ...you can clarify... (MK) We just lost you, we just lost your voice. (BB) Okay, Can you hear me now? (MK) Yes. (BB) Okay, thank you. ... Perhaps it would be helpful if you could clarify what you mean by judging. And ... because there's... there's a school for that says "When we look at someone's behavior and evaluate, whether they're you doing right or wrong. (MK) Stop, stop. I'm gonna stop you there. The judging, is Man's being aware of his own conduct. That's all. True conduct, not what he imagines to be. A lot of us do 'sins', as you call it and we find an excuse to do it. So, we already have judged ourselves and we have found a judgment to pass, that there is a reason for it. That's all. (BB) Okay, so if I may elaborate my question a little bit. When people are selling your teaching, you know, like the GANsEs and... and what-not and you are pointing out that, You know, that you're doing something that they're not suppose to be doing. Is that not judging? (MK) No, that's my property, it's my knowledge. It's them who came to me, not me to them. I don't judge. The judgment is for them to decide, what they do right or wrong. You have to always

clear your point why you made a system and how it got to be used. For the person who uses your system, you made a computer, you made a machine or whatever, is not a judgment, you give the instruction, the manual. We gave the manual. 'That was', 'this is the process' and 'teach it'. If you have to put your time and make it to teach it, then you follow the process. Not just taking the part of the teaching out and just make it, to make profit out of it. Wouldn't say stop making anything. We said two things very clear. "Do within the law", which is the correct way. Is you who's got to judge. "Am I within the law or not?" Secondly, we said "When you do teach..." There are many People who start running Workshops around the World in my name and we see them disappearing. Because they open these workshops only for the profit of their own pocket or whatever they could do with it. We had a Peace Conference in Italy. A first Peace Con... no it's the first Peace Conference in Italy. And, I put the books, my three books on the table outside and I put a cup next to it. I didn't put a Man to sell the books. I said, "If you needed you take it free, you pay for what you value it." Is for the Man to judge. "Am I gonna take the book?" "I want to learn knowledge?" "I can afford it, but I want to see what it is?" Or, "I pay for it because, then I'll read it, because I paid for it." I did not judge, who's gonna take it has got the money to pay or not. Or, who has no money, he takes it because he needs the knowledge. The judgment is by you. The system has a manual. If you don't use it the way is written, you will not get the same end product. Is no use, heating of the milk and adding the lemon the wrong time to it depending on what you wanted to make. It's the same here, it's the same milk and it's not the same lemon. Would you like cheese, would you like something else from it? Is you who decided which way to go. My work has a manual. You want to reach it, to achieve it, follow the way the instruction is on the manual. Serve... Share... And if I share and serve this is what I get what I need... for it, then, it's for those who accept it, to share with you. But always share my knowledge with every manual, every piece you sell. Not to become the priest that they have to come to the same church, the game's the same. This is what you all missed and I kept on saying to many people, "Teach in your workshops to those freely who come and let them do, not make the workshops a banking system for them." And then they sell products with it. Is become a cattle market. I'm alive and the rest still started abusing it. So, if I don't

put it correct now, never will be corrected. Doesn't matter who gets bothered, it means, they want to carry on with the same path, they want to judge I'm wrong, because they've done wrong. Stay within the law, stay within my instructions, and you will see the gift you receive. (BB) Okay, one more try at my question if you don't mind. (MK) Yeah. (BB) What work would you... (MK) You never understood the answer that's why you're trying again... because, it didn't... (BB) Okay fit into your understanding because the abuse is there. (BB) Okay, so what word would you use, to describe those who are not following your instructions? (MK) They have to judge themselves. That means they have to understand what they're doing wrong, not me. They have to understand not me, then I have to be there to judge every day They are there with themselves and their Souls Go through all the teaching, not just the part which suits you. Then you can do the abuse. I've seen this many time if you go to the Iranian history in the present past, there is in the writing of Bahá'u'lláh it says, bless his name, "One loves not only his Nation but the whole World." And what they do in Iran they take the "whole World" out and it says, "Bahá'u'lláh says, Not to Love your own Nation." And they prosecute Iranians, Baha'i for that. Because it suits them that way. But was it the total message? He says, "Do not love your Nation alone but love the whole World." Who's judged and who's served? You understand I have no fear for my Life, I can speak the Truth and the correct. Those of you who have fear of what might happen to you, you adjust it the way it is. Just to suit you. I don't need to suit no one. I just need to be correct with my own Soul that the message is done correct way, and it's given as a whole but in the steps that it can mature the Man not to flood the Man to drown the Man. You know the story of the King who came from the desert and knock on the door of the old woman and she opened the door, he says, "I'm thirsty." It was a thirst for knowledge, if you translate it the other way. The woman went in and came back with a big bowl of sweet water, with a lot of straws on the top. And the king was thirsty... and he had to keep on blowing the straws away that he could drink as, as fast as he could to satisfy his thirst. And then, when he satisfied his thirst he turned on the women and says, "You stupid old woman," "why did you put that straws in it, couldn't you see I was thirsty?" She said, "If I would have given you without a straw, you drank the whole thing in one go, you would have killed yourself because you've been thirsty for such a long

time." This way he took the knowledge.. the thirst, slowly with the water away. And that saved your life. This is the same with my teaching. If I give you the lot, you'll hang yourselves, because you don't understand it. But I taught you the same, with a lot of straws in it. Make the mistakes let.. you make the systems, let you come up with the new positions. Otherwise, I could have shown you the Flying System and the Creator and the Soul of the Christ from the day one, it's my wisdom, and your hunger to bypass everything. One of the things when you mature in a Soul. It says, "Thy shall not possess." Possession brings kingship. Possession brings demolishing others. When you share and you serve you don't possess, because you all possess the same. You only possess something when you don't have and you want to get to have. Now you find number 24. Detachment... I remember seeing Moses, when he received he was so joyful, he was jumping up and down. And then, at one point, that's why he took time in the mountain, when you start reading it to understand it that he could interpretate it in a Physicality, he saw a lot of it wasn't what he came up to the mountain for. He said to him, "Take the whole, not the part." He took the whole, but by pretence of being heavy he dropped the whole. It wasn't written in stone it was carried with his Soul. He wrote it down. The heaviness was of the Soul of the Man, not on the weight of the stones. Any other question? (RC) Well it's interesting we have ... we... David had his hand up before and now we have Peter, Paul and Mark. Paul the biblical name seems to be coming up here. ... I think Paul is, actually maybe not Paul. You wanna go ahead from Paul Schmalz ... (LS) Ah, can you hear me? (RC) Aha, I didn't think it was Paul. (LS) Paul is not actual Paul, Paul is Lynn (RC) Yes So Lynn is more of a night owl than Paul. Ahm, my question... (MK) Could you explain to us where you are from please? (LS) Oh yes. Lynn and Paul are from Montana / USA. And.... (MK) You are the couple, who your... Paul is the veterinarian? (LS) Yes, that's... that's correct. (MK) And you got upset by what I said last week. (LS) Ahm, yes I did, and... (MK) Lack of Love you understand? (LS) I do and it's... you know... I mean I have to think about it, it's... it's a quandary that I'm in because what I do is... for example, today someone was here at the house an talking to me and talked about her sister and I had given a group of women some gloves. I said, "Do any of you have ... sore hands?" And they all said, "Yes", so I gave them all a set of gloves that we had treated with Plasma water. Well,

one of the women... women was here at my house today, and she said, "Well if you don't mind I'm gonna give my gloves to my sister, because she has arthritic hands." I said, "Well they're yours you can do whatever you want," but I said, "let me just give you another pair." But... (MK) You see, let me, let me stop. Let me stop you. (LS) Okay (MK) This is where my dilemma is. You did, out of your generosity, give the gloves. We say in English, "Give a Man a fish you have to feed him, whole life. Teach a Man how to fish, he feeds himself." The problem, where the quandary with you is, when you gave the glove, did you tell them how it's made? That they can make it, they don't need to come back to you. This is... this is what my problem is. (LS) The gloves are baby steps, because nobody... (MK) Doesn't matter, does not matter, this is, this is what it is. Some of them will never come back to you. One came back. But, if they know, because they don't need the glove today. But, if they have a pain on the leg, they can't put the gloves on it, they can't wear the gloves. If they have a pain in their, let's say, in their liver or whatever. The glove, because you haven't taught them. This is... this is the problem I have. And I appreciate, I respect both your work Lynn and Paul, I have a lot of respect for your work. But, the essence was, don't feed the fish. teach how to fish. Doesn't matter if you give a fish, till they need the time they're hungry. They want to catch another fish, the fish to feed themselves. There is no quandary. The quandary is, live, give and teach. But... On the basis of, I did not tell you, "I give you something, a patch, come and take and use it." I taught you how to make a patch. you were taught, explained, even in the medical teaching which you are present. Whenever I attended, I explained in detail the process, what it does. People can't understand the process, but they can understand the basic. Teach my technology, teach my knowledge, but understand, you are just a messenger. Not a one, for people to come back to you, to ask for the next message. What was the message, that you keep the book hidden? It's on the Internet, it's well taught. So, I understand your problem. I understood your, ... what you wrote to me. But, I hope you understand my quandary. My quandary is, I teach and I serve unconditionally. I don't ask for you to pay to come to these teachings. Whoever is paid, gets the entrance, it's not a football match. Pay and watch. So, your Soul and your conduct has to be the same. (AB) Mr Keshe can I say something? (MK) Yes. (AB) You know, I think perhaps there's something going

on. I think sometimes people's intention is, especially some people who are in... known a knowledge. If you want to attract people sometimes, like Paul and Lynn, they wanna do something for free, so to see people get their attention, then they can teach. Because, in my experience ... when somebody comes in and asks for, a GANS or something like this. I want to teach them, I wanna teach them. And I say, "Look, if I teach you, you can make it at home." Even... the other day, 2 days ago, somebody from Shiraz ... They're using their... trying to use the knowledge ... for healing somebody who was really sick. And I was instructing what to do. But, even, I asked them, I said, "Look I can come, fly to Shiraz, and come and create a station for you guys, and teach you as a group, so you can create it." And they... they just said, "No, it's not necessary." So, in my office I even tell people, look I have the ... basic. (MK) You see Azar Jan, you leave it to them. You understand? (AB) Yeah but, you know always they say, "Give me the GANS, I don't want to...", you know, so I give. (MK) Yeah, but tell them there is a manual, you, you read it, this is what, "Okay, I give it this time, but make it yourself next time." This is the difference. "If you want to come you have..." You see, I can bake a cake at home. But... And I know how to make it the way I like it. But, I don't have the time, I go to the baker. I said, "I want the same cake as you gave me the recipe for." It's a big difference. And, this is the knowledge, one of the reasons I put it this way, and I teach it this way is, we have opened the Universal Community to Man. You're gonna have a lot of problem, in paying and getting paid in Space. So, you have to learn that you give unconditionally. And when is need, that your Soul sees the need, receives the knowledge unconditionally too. It's a understanding in a different way. Is not just giving a patch, we don't open the factory in Accra whatever, and putting patches on the street. No, we accumulate to teach, to give to the others. We are not, what you call... 'The guy who takes from the poor to give to the rich'. No, and we don't take from the rich to give to the poor. We take the money from the rich, the one who can afford it. That by giving to the poor, the blessing of the Soul elevates the Soul of those who provided it. This is a difference. This is what... We've got to understand the game has changed, so we try to fit it in, what we know at the present time. You know Robin Hood. Do you know where the term Robin Hood comes from. Rob is stealing. Hood, the man who was stealing using a hood, nobody knew what's under it. Taking from the rich

to give to the poor. That's where the name Rob in Hood comes. Stealing under the cover. This is what we have ended up with. We are there, we give from those who can financially do, till we elevate the whole. And then we give to the poor. that the blessing on receiving, goes back to the rich Man who made the payment. This is very much what I taught in my teaching, everything is in line. I said, "The Man who makes the gun. carries and receives the pain of the Soul of the soldier who shoots the bullet." "The Man who's a director of the arms factory, it's the same." So, is our work in the condition of the Accra and other factories. The Man who pays to buy a bottle, of water, or a power generator or MaGrav System, or the patches which are made. His money is paid to supply, to give to those and educate and bring facility for rest of the people in Africa. That, the blessing of the one who receives the water and the pain goes. Does not go to me. Goes to the worker of the factory, goes to the Man who bought the bottle. There is no difference in work of the creation. It's us who aren't... have to understand the Totality. This is what I said. My instructions, is on the table, everywhere. Anybody can go on the Internet and make it. You can't, we make it, but what comes from it is shared by the others. In a way, I become the merchant of the elevation of your Souls. I s... arrange factories to sell so much, that they bless you, from what you provide them, that in a way I become, just, as part of the system. I live a good Life. The Man who bought the bottle because he needed it, has paid to live a good Life. And the one who receives from the benefits of the work of the factories, has a good Life too. Because in a way, we don't rob anymore, and we have no hood to cover us. We work as One in the openness. It's our judgment. It's us, we judge ourselves, not the others. This is the difference. You teach. I teach, people come to me. Nobody comes to me and asks for a patch. But, you are there because, I teach. If I make a patch, I give a Man, a piece of cloth. But with it goes my Soul and his level of understanding what he wants to do with it. I don't give a patch, because they're I tell them, "Go on the Internet and read it, it's there." This is how we have to understand the work of the Foundation. In a coming time, we work to teach. These Patches, these MaGrav Systems, these power supplies are nothing, NOTHING, compared to what you lot can do in a coming time, who understand more. You will talk about the old time, "You remember, we used to make GANSes, now they are child play?" There is so much more to learn in the process of using

these GANSes. But the only problem is, you don't teach enough, that the more knowledge comes back in, that we can all learn more. You want to sell and when somebody pays for something does not need to understand how is made. And that's where the problem is. People have to understand, that through this, is not just a GANS then, they understand the Fields. You can explain, or they can read that the Fields becomes their level of their strength of their Soul, and they can elevate their Souls. They see the process of the use of the glove, or a patch but, understand the Fields of it, it's the Field of their own Soul. Then, they can elevate themselves to become the Universal Community part of. This is where my problem is, and this is what you do not see. (LS) So Mr ... (MK) I'm not a Philanthropist. Sorry I'm not a Philanthropist, I am a Man of God. Because I am God, because God in our language means the Creator, I am the Creator of my own Physicality. So in that order I decide how the energies and the Fields of my Physicality, as a Creator of me, is used. "Thy shall not steal." You cannot steal from what I've decided, my Physicality, to contribute, to serve Humanity. It's you who want to abuse but you want to give it the form and conformity, that it satisfies you, is not the shape we put it down. And this is imported for all of you to understand. We have a structured Society. We call Nations as 'One Nation'. In this Society, because of whatever, we have brought in conditions, and the new conditions are very easy. It's just me who I have to judge, nobody else. And it's me who has to be correct and nobody else. And it's me who has to serve and nobody else, And that's all. I hope, Paul and Lynne I answered your question and I hope you understand. I appreciate your work, I highly appreciate the knowledge you have brought and you bring, but slight correction saves you a lot. We are not here for elevation of the pocket of the Man, we are here for elevation of the Soul of the Man. And it's the... what I said, "The Man who makes the design of the gun, shares in the pain of the suffering of the Man, who shot the bullet". So, is the benefit of the Soul in teaching in receiving when you relieve a Soul from his pain, then he can share. When a Soul is in pain, it takes most of the energy to compensate for his pain. When you elevate the Man and alleviate his pain, he has more to give back to you and to his Society as a Soul level. A man with a cancer in bed cannot do anything but to take. When you take a cancer from a mother, and she is on the road with her children, and educates, the next education, the next

cycle of Man, in a correct manner with Love and care we have helped society in the next cycle, but, we save one Soul. This is the difference, and the sooner we understand this, the faster we elevate our own Soul to enter, not only the Universal Community, but the point of judgment that when we leave the Physicality, we go in the balance, not in death. When we are in debt we have to find another way to pay for it. Any other question? (LS) I'd like to add just to add one thing that, when we provide things for people especially the energy station, we have instructions on how you can make patches to share with other people, and we have videos on the website to explain more about at them. I used to send about 12 pages of information and what I found was, people did not read it, so I sent less information and said, "Here is where you can find" ... (MK) Don't do that, please don't do that, don't become the judge what they don't understand. Let them judge themselves. You understand? (LS) Aha ... I do (MK) Let them... it's there, they might lead one word in one sentence and enlightens them to something new. When you judge they receive too much, then you are back in the same wrong track. Make it 20 pages make it 100 Pages, is for them to search for it, this is something which we've been taught the wrong way. Huh? We think people don't understand. Everybody understands everything, but it depends what word suits them. You understand? (LS) Uh-hm (MK) Don't limit that, you have or you put. I've seen, I've been to you... because I had to go and look at what, was said to me what you wrote and a couple of other people, we have been in touch with or we have told them, we told a lot of people to correct your way, is that you're doing a good job. You are spreading the Knowledge you're spreading the... the whole thing, But, realize one thing. Do not judge who understands what. Leave it to them to understand what they judge themselves for. You understand? Do not limit with 10, 12 pages. You have a beautiful website you teach a lot, and that's how it should be, but the problem comes as I said, "stay within the frame of legal framework." Because, we understand we have seen, how these people who understand it, will come up with a new knowledge, they add to our knowledge. They add to their community knowledge they add to their society, is not for us to judge. And, people like you are the cornerstones of teaching new technology. But, what you do these are the conditions we do, has to be within the conformity, of the law. Let me tell you why, you thank us for it in the future. There are... we have

come to understand, there are people who are producing GANs in a dangerous way, they don't understand, for them, "We do whatever we like." I can mention the name of the guys. But, if they damage, then who's gonna get damaged, you and me. When you are controlled and confirmed within it. You follow the procedure the way it is. You understand it. We had somebody who wrote to us, "I tested the GANs and it was toxic". We asked one single question, "Did you follow the instruction?" "Did you wash the plate from caustic when you took it out?" "No I didn't". So, now your test, you did, is wrong? Then when they test it they said, "Is correct. It's not toxic." Because, if you follow the procedure, there are a lot of people who are there, it's just cowboys, they're just there, they've seen a name, they do it. We come, we... we listen. You got to understand something very interesting, for you maybe. I don't need to be in a place, to see, to understand. I'm there present in the Soul of the Man. I understand, I comprehend and in time many of you will do it the same. I protect you with what I said, not to endanger you. But you have to understand, sometimes, the pill brings some pain, or bad taste in the mouth, but the effect of it, the end product is correct. Gives the result. We have to protect, all the Foundation work. First of all the teaching, first of all, secondly, the process of understanding, thirdly, when we do, it works, it has to be understood, they can do it, and at the same time, we are safe. I sat with many people with huge wages, in the factories, when we set the factories out, a lot of you who set production, you will understand this. If you want to start a production, of let's say, water or Plasma Power Units, you get certification, they come and see your factory, it has to be in a standard. And then, when the standard of the production is there, then the FDA gives, comes, then they see the process, they have to certify the process. A to Z takes within 7 to 12 months, minimum. When they come to inspect you don't say, "we made it", your workers have to be there, they have to see the process, how they do it. What do you do? it cost thousands, hundreds of thousands of dollars, to keep the factories just producing, practicing, staff to be there, that when the standard officer comes, when the FDA officer comes, when the random inspection comes, it's exactly the same recipe. It's not just for us, this is for every production in the World. So, to be correct, we spend a lot of money. To franchise our own products, to follow our own process, it'll be the same. It cost money, it cost time, it cost a lot of effort to

get everything right, that every cake, taste exactly the same, every time you buy it from the shop, without contamination, without a screw in it. So, when we ask for "Please get certification." Because they come and check your process, they evaluate, they test it. If it's toxic, if it's not toxic? If it has the Field effect, it doesn't have? Then you are correct, when you go out you're supported. To build the factory in Italy, the first one, it cost me nearly half a million dollars. We built the factory, 22 people - 24 people were there every day building units, because when the inspection came, when the certification was delayed, when this ... laboratory test was done, all came correct. We get inspected every day, when we run, they just walk in from FDA. They walk in from Standard board, to see if it's followed. And do you know what is funny? These people who you see in background writing, they encourage them more to come, and the more they come to inspect there is something wrong, the more they learn they move support the Foundation, nobody has helped the Foundation more than those who opposed us because we had to keep correct, and being correct, has brought enlightenment to the scientist who understand the process now because they coming there so frequently, they are promoting us. I ask you to be correct, to sell goods with certification. Because, first of all, nobody can touch you. Secondly, nobody can say there is something wrong with it. Thirdly, it gives us a reputation to be correct. Not to harm anybody. We are trying to come to achieve a standardization Worldwide, on the GANSEs and on all the products, but it takes time, it's a new technology. We are using the most reputable research centers, laboratories, that all the governments accept, that when we put the name of the laboratory which is tested, it means already credibility. Please understand, we are not there to harm you, we are there to protect the Foundation, to protect you, and to deliver a correct product, to give the right results, that people by receiving the right result, support the work of the Foundation. Today, as we speak, the Keshe Foundation management team has not had a Christmas holiday, we all worked. Those are Christian and none Christian. And those people who work behind us, they all, we haven't had a shutdown of the Keshe, Keshe Foundation has not shut down with the factory production and the management team. We are 24 hours serving. Even our families have become part of the work. For who, why do I need to do this? I was wealthy enough to enjoy life before I started this,

but the wealth means nothing when I see a mother is there to live, and the child has a mother, that he grows up with the Love of a mother, not the pain of loss of a mother. So, it's worth to not have a holiday. Just do it with us, the correct way, the way we asked. Then we go faster, we go the correct way, and, we do the right job, in a way, we serve. And that's all we are here for. We don't judge, I'm not here to say who's right or wrong, but I say, "the reason I've put it out," "was to serve, and to serve, please do it the correct way." If everything else fits you right, please do the other bits right too. Or allow us in the next few years, in the next few months, to open factories that you become part of the factory, with our certification you work through us. We you will see we open up the doors to all the people who are inventing, to go through us. You will finance, you will support you to build up your own factories and everything else. Keshe Foundation as of first of January becomes a market value organization. We'll explain to you in the future. We become one of the most organized, publicly supported technology. We'd need no government support, because the Humanity will do it. We explain the right time, the right way. Then you understand. There is, there will be and there is enough finances to support the work of you Paul and Lynn. In the right way. But through the right conduct. You are there to do the job, but do the job the correct way. You don't sell the patch but you provide the teaching, you sell it, but this is the way it's made, doesn't need FDA, does it need FDA? Does it need to be the correct way, have I made it a correct way? The manuals will all come out. We have not made a exclusive company for us to do only, we have made a common industry for all of us. So, we have to be correct. All of us have to be correct, because if one of the fingers hurts, the others can't operate the same. I hope you understand. We are here to serve you the correct way, but please follow the manual, that you get the same product. We're serving Humanity. Any other question? Any other question? (RC) ... We had Peter with his hand up, Peter do you wanna go ahead with your question? You'll have to unmute your microphone. Hello Peter? Okay well ... we have another question from Lyke who says, "Is there something called 'judgment day'?" Is that a question that you can address Mr Keshe? (MK) What do you mean? (RC) I think we'll have to get ... Lyke, I can have him, allow him to talk and see if he can clarify his question? ... Lyke can you go ahead and ... speak? Can you unmute your microphone now and talk? Okay, ... I'll

unmute you and see if we can hear what you're saying there, go ahead. (L?) ... Yes Mr Keshe, good morning. (MK) Good morning. (RC) Yes we hear you. (I?) It's morning in California. Yes ... I was trained, I was, I grew up Catholic And, we were told ... there's a judgment day. If, I've always been fascinated .. (MK) Can you repeat that again please? (L?) I was born catholic. (MK) Yes? (L?) And we were told there's a judgment day. (MK) Yeah? (L?) I've always been fascinated. Is there a judgment day? Where, where we judge our Souls or we judge our deeds and.. (MK) The judgment day is every day, is every action. That's all it is. (L?) Okay. (MK) They should have explained to us. We have to judge everything we do, I tell Caroline and I've said many time. "You know when I put my head down at night, I'll sleep at Peace." I wake up with worries, in what I haven't done, that I could have done more of. This is the only worry I have. I could teach more, I could do more, but, I never look back I've done anything wrong to no one. Because, I learned that when I was 19, and I've said that many time. I learned what the judgment day is when I was 19, when I accepted this position. And I knew I judge myself. I've said that many times. I judged, when I received the message to do what I do now, I was nineteen. And I said I'm too young, I do not know, I need the experience. So, I knew how to judge, and how to delay. Again on age of 29 - 30, the same thing happened. And, I knew I'm not still matured to accept the responsibility, because I didn't gain the knowledge, to do. So, I judge my position, and I knew my capability, and knew the expertise I don't have, to be able to stand. And when I came back to Iran age of 39 - 40, I knew I'm, "I'm ready to go." But still, took about few years, in accepting it, to become master of it. To understand how to judge, nothing else. And this is it, and this is what is important to all of us. Everything we do has become a judge, I've said many times, "I don't know why I come in peoples life," and this and that happen to them, they, I've, I become a judge, jury and executioner. In a way I've became the judge of myself, not them. And me being correct, they had to find a way to be correct and they sorted themselves out. I don't judge no one. (L?) Thank you. (MK) Thank you very much. Any other question? If you understand it, I have become a messenger of my own Soul, and I share. No more. (RC) Okay I can ... there's someone with their hand up there. ... looks like Lynn again, or is... did you wanna speak again? (LS) ... Yeah, I just have a question. Where in the United States does one get certification? (MK)

We have tried, but we are going a different channel. You have to go through FDA, and the organization laboratories which do the test for FDA. And ... there is a system, there are companies who do it, we have locked in, into one of the largest international organizations... It's just by pure chance, I was sitting in Gwangju Airport, during the summer, in my travels in China. And, I just met a man, who was waiting, I just met he missed the same flight as me. And we start talking, and he is the head of one of the largest laboratories in the World. He said, "Mr Keshe I never knew about you." I said, "I never knew you existed." He said, "Everybody in the World knows us." I said, "Not me." And he said, "We accept the job to do these things, because it's a new technology, we have to be with it." And Keshe Foundation team in Asia, here in Europe, now they are setting the pattern for them to learn that they can start the testing in the laboratory Worldwide that, they issue certificate for us Worldwide. It's just when you think right, you do the things right they.. In United State you have to go through, but because you are going for the health application or whatever, you will be... in a way, working with, through FDA. If you allow us, we, will take us another few months, because Accra has to come into operation, we have a FDA certification in Accra. And we have advisors who, we brought advisors in from all sorts of lines of knowledge, to be able to transfer FDA Accra to across the World, and it can be done. It's just that ... because of we had to move out of Atomic Commission, to new premises, and now the premises are getting built and they become.. Actually I think it's completed today or tomorrow, the first phase of it. Then FDA, we, what we going to do, we invite all the FDA officers, health authorities around the World to come to Accra, and then to Italy, it's on the same basis. And then to the eleven factories we are setting up. We have by the request of FDA, achieved ... pharmaceutical level production. Which means perfect production, that it can be used. Everything can be tested, everything is automatized. Everything is computerized, you will see it when it's done. We are inviting World leaders and ... what you call it, 'prominent scientist', to be there on the opening day. And, then that will bring the credibility that you need and you do. We are working now, the Italy factory, the others which we will announce in, in the time to come, you will see it, this is what... you just got to be patient with us. We are doing all the work in the background, everything, even this morning I received a communication from the management

team, that they received communication from the laboratories in Christmas holidays, I said, "Maybe the Father Christmas has woken up, they have done too." So, let us do work, just give us time. A meeting of 2015, if I'm correct, by the request of British government health authorities, what to do with the Keshe Foundation health application has come to one decision, that, "We stand by," let them grow it, let them bring it in, and then we support. Our technology on the health was discussed on the EU level, three years ago. By the request of British health authorities. They are aware there is something in the horizon, but they want us to prove it, so we are going through, slowly through it and, different factories, specially the factory in Arizona which is planned, and we are hoping to be around about 10,000 square meter, hopefully. In a coming time, ... hopefully by middle of next year you will see it. These all edge of science, technology. It's amazing, I thank the Keshe Foundation manufacturing team, I thank the ... Keshe Management team, who's working solid between the holidays to get these things through. ... That ... we do the work, just give us time. Then we certify, your inventions for you. Because your inventions is ours, it belongs to all of us. You don't patent it, and we don't need to patent it, but we are there, we have to support you to be able to do it right, just give us time. World governments are looking at very close with us. They want us to do it correctly. We are receiving a lot of support, governmentally. And, we need to be correct. And that's what I said, "Get Ce..., if you find, you can get a certification, share it with us, that we can get the others to do it." I said, "The biggest problem, for you as Keshe Foundation supporters who become manufacturers, is, there is seven billion of us." If you have a thousand factory, with a thousand people working on it, you can provide only 1/6th of us, so, we cannot reach everyone. Share knowledge, we share it, is your right, we do it, this is what we said, let us, we, the opening day of the Accra factory, Italian factory and the others which we will release, will be like a blueprint day It's a blueprint of how to set up a factory in the new Plasma Field section. You'll be with us when you open, when the World Leaders are there We are not short of Assets, we are short of time to bring it for you lot you are too impatient, you been too good ... students, You've learned too good, just be aware with us, that we can protect you. We need to protect you because by protecting you, it'll be protect the whole of the work of the Foundation, new Technology,

new Science, new way. Because, you got to realize, we touch Agriculture, we touch Health, we touch Energy, we touch Space, we touch Material, we touch new communication systems, which we don't even have had a chance to understand it yet, we touch new implementation, we touch everything which Humanity has worked through one Technology. [hinge squeaking] There are those who want to product... Can you close one of the microphones please. Is we have to protect you Lynne and Paul... If I let you down and you have a problem, I have let myself down and I cannot allow it. Even though sometimes it's a bitter taste, be able to take. I don't want you to take the name of the Foundation off your webpages. ... if you are proud to be using it, use it, put it, but understand work within the law. We saw the guy who was member of the Universal Council, he came to do the wrong thing and when, we found out and we told him he cannot do, he just changed name, and got nothing to do... It's my knowledge, let it be, but your Soul will know. I wonder how much you come and then at the end say it didn't work. Because you went in the wrong way, and he is not there anymore to be in a member of the council, he came to abuse the knowledge. We are aware, it's my job as the head of the Keshe Foundation to protect you, If I don't do my job right, I'll pretend up to be here. But, if I'm here, I teach you freely, I have to tell you, when you go wrong, that you are protected too. We have request by World Leaders who have illnesses, who've come to the Foundation. By richest people in the World, who have diseases but we are there to help them in the background We don't go and put their names on the plaster board, they are there and there. No, we rely on their Souls that they support the Foundation work, their way when the time is right, Just be ... patient, we bring you the licenses, we bring you the certifications Worldwide. I said, "35 to 45 factories by the end of next year." We plan for 500 factories in the next five years. Because, it's needed every aspect of this technology needs to become. And in so many way, we do the work to do what we know, you bring the knowledge, you bring the designs, you bring the technology, is in your name, you be benefitted by it and the Humanity will be there. We have not even taught you the Space fuels, the Space Stations, the Flight System. You've seen the swimming pool in Nigeria, build by the wishes of one man and the hard work of another, it's operational. You want to learn about it go to Nigeria make a arrangement with the Keshe Foundation Nigeria, go there, see

what are the effects It's finished. If we had the ... Alekz on the phone, on line, then he could show us the... the Nigerian we... we paid for it, we promised, we paid. And it's done, it's beautifully done and it's there as a research center. And, we have allowed the expansion of 10.000 square meter factory space for Nigeria. 200 million or so people to support, needs a large-sized factory. All we done is certification. Any other question? Can you hear me Rick? (RC) Yes we can hear you good ... (CdR) Yes, good morning (CdR) good morning Mr Keshe it's Caroline (MK) Good morning Mrs Keshe. (CdR) [laughing] (MK) I Love you. (CdR) I love you too. (MK) What's your question? (CdR) I have ... (CdR) I have a... a very big question. First of all, through the questions people have been asking. They, a lot of people, it doesn't matter from which religion or, what information has been available to Humanity, in regard of their conduct or their Soul. Is it possible to go more into depth, very slowly to explain, the Commandments which came, the first ten as we know, for people to understand them the correct way, and not through their Physicality, please? I think it's the same way as you advised for the charter to be rewritten, or adjusted that, because it's not complete or is not correct completely. I think a lot of people the way they asked the questions, or related to how they perceive, how other people behave, but they never have understood the ten commands, towards themselves personally, on Soul level. (MK) You see, thank you very much Caroline Jan, the problem is that we always looked at the Commandments, for a physical dimension not for the application of the Soul of the Man. Because, when you it read it, in most of them, it tells us they mean mis-information, between the Soul and Physicality, or Soul of Physicality, that's all they are. It says, "Thy shalt not steal." The Soul gives freely, is the Emotion which it steals, that the Physicality does not receive and the Emotion's created by us. I explained to Caroline years ago, in a way, what is a lot of you know about the Hidden Word. The Hidden Word of Bahá'u'lláh in the Arabic and in the Persian, are very, very, very, done different way, because ... You have to go to the past time where they were taught in Arabic, where they, even though they were Persian brought up, Persian birth but the only, in line of education was Koran. So, in Iran nobody taught you medicine in a way by books unless you where after something. But, the education was how you read Koran, so, the Iranians especially of the higher class, were only going to Maktab, or the schools to learn how to

read Koran, that was all the teaching was, and some maths. In that process the teaching was done, so, a lot of Iranians of a higher class, where could be by language which means they were both in Arabic and Farsi. And, in so many ways, they could express themselves much in a deeper essence of Soul, in Arabic. And so Bahá'u'lláh wrote two Hidden Word's, one in Farsi and one in English, one in ... in Arabic. And when you read the Arabic Hidden Word, you see the Soul of the Man, he could explain it, because he understood Qur'an in Arabic, not in Farsi. When you read the Persian Hidden Word, you see the weaknesses in the Man, which is hidden in the name of the Man, in the physical dimension. So, even he was aware of the two dimensions, the Soul of the Physicality and the Soul of the Man. All the commands all the Hadiths, if comes from the origin of this Life of the cycle of the religion, touches the Soul of the Man. It's the Man who's transferred it to Physicality to sort himself. We've been through the teachings, Hundred Names of God. But is a hundred names of behavior, of the Soul of the Man. Can you please switch your microphone off, please? This is what is important. This is what we have to understand. The teachings the Commandments are for the Soul of the Man. But, Man has up to now translated it to the Physicality. "Thy shall not steal." You do not steal from the Soul of the another, because you promote the Soul of the Man. We have one microphone open. If you can close it, please? This is the beauty of what we have to understand. Try to understand, read the Hadith's of Qur'an, blessed the name of Muhammad. In the name of the Soul, and what Muhammad said, in the elevation of the Soul of the Man. Then, you find out it's so beautiful, is so exactly what has been taught, in all the books of the past and in all the books of the future. Because it touches the Essence, the Creation. It was read, the 10 Commandments. "Thy shall not covet." You understood what it means? It's from the Soul. I don't want, I don't dream of somebody also having a better Soul than me. And I want to be with that Soul, as I give from my Soul, that I elevate that Soul to be better than me, that by it, if it doesn't need something, I can elevate myself, but not be that I, But, in a way I give from my Soul to elevate the other Soul, I think about it. How to elevate the others? Not, "I think about it, just because it's a Lover." Try to look at the knowledge of conduct of the Man, through the Soul of the Man. The Chinese understand this very, very clearly. They are very close to it. We have to understand, through the work of the GANSES and

Fields, and understanding the communication with the GANSeS, how our Souls interact. You make a GANS of Copper, you make a GANS of Zinc, you make a GANS of Amino Acid of Copper, you make of Amino Acid of the Zinc. See how they react when you have the technology to understand? Then, you understand the behavior of your Soul with another Soul. It's the same, but more of, in more diversity. because you have so many different acidity and combination in your body. It's us who has got to understand, the Physicality is the end product of a production line which starts in the Soul of the Man. Would you like to be the user of it? Or would you like to be the part of the Creator of it. Is you who's got to choose. The faith shows you the Physicality, "Thy shall not steal." "Oh, I go to the shop, I don't put anything in my pocket, without paying for it." No, but "I don't touch a Soul, I don't take from a Soul, which is not there for me to take." Then, you don't even think of going to the shop, "Shalt I take or not?" It's us who's got to educate, to understand the new language. Which this new is not new. We just... we were ignored, because we left it to those guys who call themselves the 'Priest', to do their misinterpretation, that they can abuse us. We opened ourselves to abuse, when we denied our own Soul. That's all. And they use it in the name of what they call, 'God'. Release the next, the new '12 Commandments', as you call it, on the Internet and see who opposes it. Vatican will be the first, because it's end of their job. Completion of the Commandments, was the end of the time of the present cycle. And it's done today. We are not the messengers, we were the people who deliver the message. They messed about with it, now we delivered it, direct. There is, no messengers in between. Write the twenty-two on Keshe Foundation Wikipedia, and join the others to see who objects to it. Then we have started a new cycle, because with this, we finish with the old cycle, and now, we understand our responsibility as a Soul. Now, we have to understand the conduct of our own Soul. I told you, I finish with all the religions, because religions is the Soul of the Man, who allows it to be abused. And now, you have the whole twenty two. I gave the twenty third too. Twenty fourth comes off the point of the maturity. In a way, it's the key for you to open the door. "I am the beginning, I am the end." I've told you that from day one. I've seen the weep of when the messages was received, and I've seen them weeping when they lost it, because of the abuse of their Physicality. The same messengers. Any other question? Or,

shall we call it 'a day'. (CdR) If... Mr Keshe, Caroline again. So, if I, if I understood correctly? If we, let's say it was Moses that delivered these Commandments, If we give to his Soul to be elevated, will that affect all the Souls, and correct it in a path, that it can be I don't know how to use ... word. (MK) It was done... It was done by the Core Team. That's why we are in this position. Those who are the members of the Core Team, in the first establishment of the Core Team, we asked to elevate the Soul of the Prophets that they all become equal. You got to ask: Who was the Moses? They made the circle of each one responsible for each Prophet. And then they took the world leaders, to elevate theirs. We done a lot of work in the background, a lot has been done. The Foundation is... it's not just, it's happening. A lot has been done by the Core Team. The Core Team as I said, the members of the fourteen members of the Core team, even in the Physicality are not present. Their Souls is operational and do the work, without them knowing, Physicality is a time to pass. We did this. This's been done. Vince do you remember, who was, took the elevation of the Soul of the Moses? (RC) I was just having a look myself Mr Keshe at the chart here, I believe it's Armen? (MK) Armen? (AG) No. (RC) Yeah. (AG) No. (RC) Well, your name was beside it here on this chart at least. Originally, and the President of Russia as well as the leader. That was ... maybe that chart changed? Was it somebody else for you Armen? (AG) I don't remember I took Moses. (MK) His Soul, he's took it. Doesn't matter his Physicality. ... The beauty of it is that, there a lot of work has been done. As collectively. When we work as a Core Team, is not that I elevate this and that, we elevate in Totality, all. And ... it's a beautiful work. When our work with the Core Team, is more or less different people, from different part of the World, understanding of different ethos's. And, ... I remember at that time I took President Obama, as the man I could handle. And we did a good job with him. You will see what will come with him, because of the misconducts. But, the... the elevation of the Souls, of the Prophets of the past, because they have the Souls which have committed to them. And they work. So we'll see. We've done a lot of work in the background. With... there is a lot of Unification has come to be where we are today. A lot of work has been done in the background. It's a lot of work done by you as Knowledge Seekers. You got to understand, I ask you, even Lynne and the others who teach, and then you understand what I'm talking about. How

many of you, when you give these gloves, when you give these patches, when you give these teachings, asked any of the people in your audience, "Are you a Jew, are you a Christian, are you a Muslim?" You've done what I've done. you taught unconditionally. And, so through the Prophets of... they follow. They have received the message, you are just the conformation. That's why you're working, so vast, so quick. Because, the message has gone through the path of the founders, of their path. We have a number of MOZHANs who are coming up. They will show the work very soon to you. MOZHANs have not been trained in a physical dimension. They've been taught in the dimension of the Soul of the Man. When they are radiant and matured, in the second part of their teaching, then you will see them shine. It's been the same with the Core Team, it's been the same with Earth Council, and then the Universal Council. We, the work is done. They get together, they time to spend to do, their Wish is their command and it will be done. Because, now they are there to serve the Totality under one name. This is what was done. If my Wish was, the only Wish I had was if Moses would have thrown all the 10 Commandments in the bin, and carried one with him, we would have been totally different. And that was, "Thou shalt believe in One Creator for all of them." Then, nobody would have been jealous, nobody would have been, done the rest. We have a lot to go, we have to learn, but the problem is, this school has seven billion students, and we have all sorts. Those are, who have, carry a lot of lines of abbreviation of names of doctors and professors and their Soul is still in the nursery, and we have those who clean cars, and their Souls sits in the Universities of the Soul of the Man. The degree of Physicality does not show the level of the Soul of the Man, and that's the beauty of it. That's why in Keshe Foundation SSI, we give no certification. Because, we only teach, and the elevation of the Soul of the Man, at the point of need, becomes the graduation of Man. Not in what we ask in the term of Physicality. Join the KFSSI and learn. Then the knowledge and the purity of these teachings, go back to the first days until now, even today. Some come because they have to emphasize their existence that they know more. But, in fact listen to their Soul not to their mouth. As I've said to the head of the education and KFSSI, "I'll be teaching next term on the KFSSI." I've asked to be going back into teaching. because in private teachings I touch the Soul of the Man. And in this term, coming term, I'll be teaching directly,

as I used to do in Barletta and in Trani. Learn the Essence. Not the Physicality, end product. Any other questions? (RC) I'm just looking through our questions here. ... There was a question from Sylvain from the Livestream, "When we sleep, our Soul is free from materiality? Or are our created thoughts more powerful?" Let me give you that two again, "When we sleep our Soul is free from materiality? Are our creative thoughts more powerful?" (MK) When we sleep, we use less of what is given by the Soul. And then Soul... (inaudible) ... The... We don't sleep in the Space. One of the most horrible things for the Man in Space, is sleep. Because, if you reach the process of understanding, no interference between the Soul of the Man, Physicality of the Man. When you go to sleep, or what you call the 'resting of the Physicality', you find out you are aware of all the thoughts of Physicality, you don't physically sleep. It's a very, very strange ... feeling. You just see the body going through, and you know you have to let, but at the same time you're fully awake, operating with whatever needs to be done. Then there is no night and day, because in Space there is no night and day. We don't have the Sun to rotate to tell us. The Physicality receives what it needs, does not need the rest time to, to what I call, 'recharge'. And, most of the cycle that we go to sleep has come we have taught our body to do it, is because when we start a Life, in the past hundred years, we have the electricity and whatever, there was no light, we couldn't see, so we sat down. Sleep was a natural process, doing nothing. In Space, we don't have this. You'll see our clockwise works, changes. It will change, because there is no rotation of Sun. As I've said to the Jeddah University guys, the professors who called me to see if they gonna send the students to KFSSI was, "Which way would you like to pray. When the Sun rotates, the Earth rotates, and then you are in a deep Space. Which way you want to find your Mecca, except your own Soul? And then, will the Soul of the Man ever sleep? We have brought this habit of sleeping, because of old ancestral time, "When it was dark we have nowhere to go." "We couldn't see, we didn't developed the sight at night, so we tried to stay put, so we put all the energy to." In Space we don't have this. We will be alert, or awake. There will be no times, there won't be Christmas, there won't be New Year, because there would be nothing. In time of the Christmas, it will take millions of years, because you travel at such a high speed. Or would you receive it, every few seconds is a new year. A lot of things need to be taught, and

a lot of things need to be accepted and understood. Not by forcing, but by understanding. When we are in the Space, in a few years time, traveling in the Space, beyond the dimensions of this Solar System, would there be a Christmas? Or shall we spend the times with Christ? There will be no need for his birthday celebration, as we celebrate every presence within. We got a lot to learn. This time we don't leave the Man alone, till we mature the Man. Because we've seen the abuse of the Man by the messengers, and their cronies. When we educate the Soul, nobody can abuse the Soul, because the Soul is aware of Totality, not the weaknesses of Physicality. I don't let no one insult, no one, and those who insult, have seen their way out of Foundation. Because, when you insult, it shows your lack of understanding. And not deserve to be a Human. Because, a Soul of a Human is sacrosanct. It means you have to go back to the school to learn. To the school of the Soul of the Man, in the dimension of Physicality. Any other question? Shall we call it the day, it's nearly twelve o'clock. (RC) Yes, we are into it for about three hours, here now. So, perhaps... perhaps we've (MK) I'm getting worn you out enough. (MK) Releasing the messenger of Creator, in the name of which was given to Moses, was a very hard decision. Because, nobody can touch no one, if the Man understands the Totality of the message. Now it's complete. And it's been there for thousands of years to be opened up. And, on the other hand, let any of them, the Jews, the Christians, the Muslims, put a finger on it and say, "It cannot be done." It finishes with a lot of things, because it start us opening our eyes, to the work of the Soul of the Man. Is not the Commandments, is understanding the work of the Soul, which commands us what to do, to be conduct correct, and to understand we are all equal. We start the new calendar in the Christian calendar, which most of the Nations of the World, one way or another follow the part of the work of the Christ, in name. But, what is important for us to understand, two thousand and eighteen, will bring a lot of changes. It bring the maturity of the Soul of the Man, it brings the opening of the Space to Man. It brings a new dimension. I foresee the work of all the Space Agencies in the coming months together. And then we will see the rapid expansion and the opening up Space. But the scientist have to understand the work of the Soul of the Man in Space. Not the work of the physical systems. It'll be very hard for them, and once they do, all these resources of different Nations we see today,

become One Nation, will go into that direction. I see the Chinese government to head the Space Technology. I see the same, that Humanity would change in a very big way. It'll become more aware of our own conducts, not for the others. In another hand, two thousand and eighteen, it's eleven, it's a very, very balance year. It's the beginning, is individuality in Totality. We'll see what it brings and I wish you, "a Happy New Year", and you had a very wonderful Merry Christmas. But, remember one thing. My Physicality does not count. It's the Soul which speaks, will change the Soul. Not the Sound of the Physicality. Thank you very much for today, and I wish you a very fantastic and a Happy New year, for those who believe in the path of Christ, blessed his name. (RC) Thank you so much Mr Keshe, for yet another year of hard work, and your presence in the Planet, here. Thank you for hanging in with us. Okay, so that brings to a close, the 204th Knowledge Seekers Workshop for Thursday, December 28th, 2017. As always, thank you everybody for attending. Thank you for being here during our last year of Workshops, and ... we'll look forward to seeing you in the New Year. We'll continue with the Knowledge Seekers Workshops, and then the private teachings will begin after January 19th, I believe it is. And you can sign up for that on the Keshe Foundation website, if you so choose. Okay, thank you everybody, and let's end with some video and music there from Flint. Thank you very much.
