MK: There are people listening from every corner of this planet... No knowledge has been disbursed so beautifully, so balanced, across the planet, on this planet...ever, maybe in the Universe!

You have the full potential of achieving everything in the Universe. There is no need, and there is no reason that Man can't achieve. So, wherever you are, the way I taught you to make the coils, the double coil inside, you have continuous equal gravitational-magnetic fields, and if you put CO<sub>2</sub> on it, and you put Zinc on it, you have connected the emotion of the Man through it, in a stable condition. And you will find out, you become a very peaceful Man.

Here, instead of having galaxies and universes, and creating connection magnetically, we have used the matter-state gravitational-magnetic field strength, to dominate and dictate the shape of the Plasma. The nano-technology, the nano-materials which you have collectively developed in different ways, by caustic, by electric currents, by whatever, fire or whatever, has that advantage, that the Matter, the Nano, and the Plasma is all the same. So, connection is very solid, it's very strong.

The power of the Plasma technology the way we have thought, is beyond imagination of man. Now, you can create and control the Plasma, which is the Mother of the Creation of the Universe. We are given the seed of the Essence of the Creation.

The Foundation does not belong to no one, and is not made of one anymore. You are developing it, you are structuring it, and from today, we will still be the same. We'll still develop the technology, in different names, in different colours, in different nationalities...which they do not exist. It is beautiful when we see, the Christian, the Muslims, the Jews, and every other belief, are working together to build up systems. We have already become one faith. We already have become one nation, and we already have become one planet.

You've got to remember one thing... "Dates" is irrelevant. Today is the last day of the Christian calendar, or tomorrow is the beginning of another... One date is connected to another. We don't stop. We are working around the clock. The Keshe Foundation team is working irrespective of time, position, religion, country.

And now, we achieve what we set out for!
